FOREWORD

The DLA Civilian Personnel Management Statistical Indicators Report is a consolidation of representative indicators of the personnel program gathered from each DLA primary level field activity. It represents one of the inputs to the total system for evaluation of civilian personnel programs.

The primary values of the report are: (1) comparison by individual Commanders and Civilian Personnel Officers of figures from their operations with those from other activities and DLA as a whole, (2) analysis of trends and identification of potential problem areas by the Office of Civilian Personnel, and (3) a means by which Heads of HQ DLA staff elements are informed of civilian personnel management effectiveness.

INTRODUCTION

This Statistical Indicators Report for the Fiscal Year, FY 1989, is one segment of the civilian personnel management and EEO evaluation process. The Report is used by Headquarters DLA for staff review of program areas which can be measured statistically and by field activities for continuing self-evaluation.

The format of the Report is designed with the manager in mind. Program narrative is divided into three segments: (1) a definition of the item measured, (2) the standard for measurement (where applicable) and, (3) comments on significant developments, trends, and problems. In most cases, two charts are included. The first compares current year statistics with those of the previous years. The second provides a comparison of activities within DLA for the current reporting period.

Strength data and statistics produced through automated data processing systems include U. S. citizen employees overseas. Statistics covering awards, suggestions, disciplinary and corrective actions, sick leave, and staffing ratios exclude these overseas people. All statistics in this report exclude direct and indirect hire foreign nationals.

The Statistical Indicators Report summarizes program data but does not prescribe corrective action. Commanders are expected to initiate appropriate action under existing personnel management authority where remedial action or the need for improvement is indicated. When necessary, Headquarters guidance, action, or policy changes will be provided by separate correspondence or published instructions.

AVERAGE STRENGTH

Average strength is used to calculate rates which are not based on end strength (such as gains and losses, recognition and awards, complaints/grievances and discipline).

Average strength is derived from the Comptroller's 679, DLA Manpower Actual Strength Report. The monthly strength figures are added together and divided by twelve. The actual strength figures include: permanent full-time and part time (full time equivalents) Temporaries, and Special Programs (Summer Hires, FJFP, SEY, SIS, and WTO AN-VN).

The average strength figures used for calculating FY 1989 data are indicated below:

STRENGTH

Strength is the total number of employees (full-time and part-time) in pay status at the end of the period. The permanent work force consists of employees with career, career conditional, TAPER, or excepted permanent status.

The FY 1989 civilian employment level, 52,606, increased by 4.5% over the FY 1988 level of 50,352. This overall increase was distributed as follows: The Service Centers showed the greatest increase, 1,643 (24%) due, in part, to the addition of DFC and DNSC to the SIR. The Service Centers were followed by the Depots, 590 (9.1%) and the DCASRs, 86 (0.5%). The Supply Centers decreased by 304 (-1.8%) the fiscal year. Headquarters increased by 20 and the MSAs increased by 219 for a combined increase of 239 (11.7%).

**TREND IN CIVILIAN STRENGTH
(EXCLUDING FOREIGN NATIONALS)**

LOSSES

Losses are all employee separations from the DLA permanent work force (including quits) except mass transfers. Quits are resignations and individual transfers to other Federal Agencies.

STANDARD: An annual quit rate of not more than 8% of the permanent work force strength.

During FY 1989, 4,598 employees left the full-time permanent work force for a loss rate of 9%, slightly higher than the 1988 rate of 8.9%. (The gross loss was 6,020 employees. Of this gross loss, 1,422 were transfers within DLA which do not count as a loss to DLA.) Quits represented 60% (2,759) of the losses while retirements were 33.6% (1,546) and the remainder, 6.4% (293) were in other categories.

A breakout by major mission grouping shows DCASRs with the highest loss rate, 10.2%; followed by Supply Centers, 9%; Service Centers, 8.4%; and, Depots, 6.6%.

Quits totalled 2,759 for a rate of 5.4% of the DLA strength, well below the goal of not more than 8%.

Table 1, Appendix A, shows losses on an annual basis by major mission grouping for FY 1986 through FY 1989.

TRENDS IN LOSSES TO THE PERMANENT WORKFORCE

LOSSES FROM THE PERMANENT WORKFORCE (% PERMANENT STRENGTH) FY 1989

*DCASRS

ACCESSIONS

Accessions are all employee gains to the DLA permanent work force, excluding transfers.

During FY 1989 DLA hired 6,235 full-time permanent employees for a rate of 12.2% of strength. This represents a 130% replacement rate of losses for the same period compared to a 92% replacement rate last year. Service Centers led the way with an accession rate of 20.2% of strength (skewed by the establishment of the DLA Finance Center) followed by DCASRS, 11.6%; Supply Centers, 10.5%; and Depots, 7.1%.

Table 1, Appendix A, shows accessions on an annual basis by major mission grouping for FY 1986 through FY 1989.

TRENDS IN ACCESSIONS TO PERMANENT WORKFORCE

ACCESSIONS TO THE PERMANENT WORKFORCE (% PERMANENT STRENGTH) FY 1989

*DCASRS

COLLEGE CALIBER INPUT

The recruitment of new employees at trainee levels (GS 5-9) who have four years of college, or a college degree.

OBJECTIVE: At least one out of every three (33.3%) outside hires as trainees for technical, professional, or managerial positions (at GS-5 or above) should be of college caliber.

Of the 2,550 GS-5 and above hires during FY 1989, 20.5% (523) were of college caliber.

Six activities achieved or exceeded the goal of 33.3%. By mission groupings Supply Centers had a rate of 35.9%, Service Centers 17.6%, DCASRs 16.6%, and Depots 15%.

Approximately 55% of the college caliber hires were in a procurement related field (171) or quality assurance (114). The ADP, Management Analysis and Administration group (74) and the Engineering group (38) accounted for 21% of the college caliber hires. The accounting group (34) and supply group (42) accounted for 14% while the remaining 10% (50) were in various occupations.

Table 2, Appendix A, shows a breakout of FY 1989 college caliber hires by occupation and mission groupings.

HANDICAPPED INDIVIDUALS PROGRAM GOAL ACHIEVEMENT

The Department of Defense (DoD) and Defense Logistics Agency (DLA) goal is to achieve a 2.0% representation in the permanent work force of persons identified as severely disabled prior to the end of the Decade of Disabled Persons (1983-1992). The targeted disabilities designated by the U.S. Equal Employment Opportunity Commission are: Deaf, Blind, Missing Extremities, Partial Paralysis, Complete Paralysis, Convulsive Disorders, Mentally Retarded, Mental Illness, and Distortion of Limb/Spine.

As of the end of FY 1989, DLA showed 49,490 permanent employees in the work force. Of this number, 771 or 1.5% were severely disabled. In order to attain the Agency and DoD goal for the current work force, a total of 938 severely disabled employees, an increase of 217 employees with targeted disabilities will be needed. In order to attain the goal by the target date, it is imperative that each DLA activity program for increased employment of qualified individuals with these targeted disabilities.

AVERAGE TIME TO FILL VACANCIES

The average number of days between personnel office receipt of a Request for Personnel Action (SF-52) and (1) the date the selecting supervisor receives a list of qualified candidates (referral), and (2) the entrance on duty (EOD) date for selectees from both within (internal) and outside (external) the activities. The rates do not include delays caused by freezes imposed by the activity or higher management, vacancies stockpiled to place surplus employees, or other management requests to temporarily suspend fill action.

OBJECTIVE: To reduce both the average fill time and the high/low range between activities.

Of the 13,601 placement actions reported this Fiscal Year, 56% were filled from internal sources, and 44% from external sources. For fills from internal sources, Agency-wide fill time between personnel office receipt of the SF-52 and the EOD date increased from 75 to 78 days; the external source rate decreased from 80 to 72 days. Agency-wide, length of time to referral for internal sources averaged 42 days; external source fills averaged 30 days. For internal source fills, activity rates to EOD ranged from a low of 44 days (DISC), to a high of 175 days (DNSC); for external source fills, rates ranged from a low of 27 days (DCASR, Chicago), to a high of 192 days (DASC).

EMPLOYEE SIGNIFICANT RECOGNITION

Percentage of employees who received DLA's more significant awards: Exceptional and Meritorious Civilian Service, Certificates of Achievement or Commendable Service, the Distinguished Career Service, Special Act or Service, and Sustained Superior Performance Awards.

OBJECTIVE: Recognize each deserving employee; strive for equitable recognition of employees at various levels. Individual activities can gauge their usage by comparison with the Agency average.

During FY 1989, 18,128 employees (35% of the workforce) received significant recognition from management. An additional 803 (1.5%) were recognized by letters of commendation signed by the activity Head and other awards of similar nature. Of the 18,128 employees receiving significant recognition, 10,329 (57%) received Special Act or Service Awards (8,917 individual awards and 264 group awards involving 1,412 employees) and 6,047 (33.4%) received Sustained Superior Performance Awards. One thousand ninety employees (6%) received Commendable Service Certificates, 284 (1.6%) DLA Distinguished Career Service Awards, and 293 (1.6%) Certificates of Achievement. Eighty two employees received the Meritorious Civilian Service Awards and three employees were presented the DLA Exceptional Civilian Service Award.

This table shows distribution of significant recognition by grade grouping.

	<u>GS 1-6</u>	<u>GS 7-12</u>	<u>GS 13-15</u>	<u>GM 13-15</u>	<u>WG & Others</u>

QUALITY INCREASES

Percentages of General Schedule employees receiving Quality Increases (QIs) in recognition of their sustained, above-average performance of assigned duties.

STANDARD: Carry out that section of the law which allows an agency to recognize and reward sustained high level performance by authorizing accelerated step increases.

A total of 1,463 QIs were granted during FY 1989, covering 3.6% of the General Schedule work force.

The table below shows distribution of QIs by grade grouping.

	<u>GS 1-6</u>	<u>GS 7-12</u>	<u>GS 13-15</u>

TRENDS IN QUALITY INCREASES (% AVERAGE GS STRENGTH)

QUALITY INCREASES (% PERMANENT GS STRENGTH) FY 1989

*DCASRS

EMPLOYEE SUGGESTIONS

Approved employee suggestions for improving the economy, efficiency or effectiveness of operations.

OBJECTIVE: Sixty per 1,000 employees per year.

A total of 2,735 suggestions were adopted in FY 1989, for a rate of 52.3 per 1,000 employees. Nine activities exceeded the goal of 60 with DLSC being the leader with a rate of 245.3. Emphasis on the Model Installation Program (MIP) has resulted in an increased volume of suggestions at some activities.

The Agency realized \$4,016,730 in savings through suggestions, which is slightly less than the \$4.1 million saved in FY 1988. Of the 2,735 adoptions, 2,417 earned cash awards for which DLA employees received \$238,696. The average cash award was \$98.76.

Table 5, Appendix A, shows annual rates by activity for FY 1986 through FY 1989.

ADOPTED SUGGESTIONS PER 1,000 EMPLOYEES DLA-WIDE

ADOPTED SUGGESTIONS PER 1,000 EMPLOYEES FY 1989

*DCASRS 1/INCLUDES MIPS IN SUGGESTIONS

DISCIPLINARY AND CORRECTIVE ACTIONS

Percentage of employees removed, terminated for cause, separated for unacceptable performance (inefficiency), suspended, given written reprimands, denied within grade increases, or resigned with disciplinary charges pending, against them.

A total of 981 employees were subject to some type of disciplinary action in FY 1989 (1.83% of strength) remaining at essentially the same rate as FY 88. The total actions were distributed as follows: written reprimands, 392 (40%); suspensions, 300 (30.6%); removal for cause, 112 (11.4%); denial of within grade increase, 72 (7.3%); resignation, charges pending, 33 (3.3%); termination probation/pending, 36 (3.7%); unacceptable performance rating, on critical elements, 27 (2.7%); and, changes to lower grade, 4 (.4%).

The table below shows distribution of these actions by grade grouping.

	GS 1-6	GS 7-11	GS-12 & Above	GM 13-15	NG and Others Nonsupervisory	Supervisory

TRENDS IN DISCIPLINARY AND CORRECTIVE ACTIONS

DISCIPLINARY AND CORRECTIVE ACTIONS (% PERMANENT STRENGTH) FY 1989

*DCASRS

GRIEVANCES

Percentage of employees who filed grievances (not including EEO complaints) with their activity.

A total of 285 grievances, were filed during FY 1989 for a rate of .56% of strength. This figure represents a slight decrease in grievance activity in our workforce. The actions initiated during this period include 41 grievances filed in accordance with Agency procedures and 244 processed under negotiated grievance procedures. The latter category included 15 grievances for union concerns. At the close of the reporting period, 84 grievances were pending resolution.

Following are annual rates by mission grouping. DLA-wide totals include HQ DLA and Management Support Activities.

	FY 1986		FY 1987		FY 1988		FY 1989	
	Nr.	%	Nr.	%	Nr.	%	Nr.	%

DLA-Wide	386	.73	354	.69	378	.71	285	.56

GRIEVANCES INITIATED EXCEPT EEO COMPLAINTS

WORK FORCE AGE

Percentage of highly experienced and skilled employees approaching or reaching retirement eligibility as an indicator of training and employment programs needed to replace them.

The Agency's older employees represent, generally, the most experienced part of the work force and those assigned to the highest levels of responsibility. As ever larger percentages of the work force become eligible for retirement, or approach retirement eligibility, the greater the efforts which must be made toward identifying and training replacements.

While the workforce age profile is somewhat improved overall, some occupations and/or activities could experience a sudden loss of expertise due to retirements.

AGE AND RETIREMENT ELIGIBILITY

Total Work Force

<u>End of</u>	<u>Average</u>	<u>Age</u>	<u>Ret.</u>
	<u>Age</u>	<u>50+</u>	<u>Elig.</u>

Tables 7 and 8, Appendix A, contain more detailed information on age and retirement eligibility by activity.

*The grade range format has been changed in the report from which this information is obtained.

AVERAGE GRADE

The average grade of employees in the General Schedule (GS/GM) is derived by adding the grades of all employees in the pay system and dividing that sum by the total number of employees in the pay system. Averages are rounded to the nearest tenth.

GS/GM average grade for the agency as a whole has increased at a fairly steady rate over the past six years, although there has been greater fluctuation in GS/GM average grades for individual activities.

Table 10, Appendix A, contains detailed information on average grade over a ten year period.

AVERAGE GS/GM GRADE TREND

NOTE: GM DID NOT EXIST IN 83 & 86

AVERAGE GS/GM GRADE FY 1989

*DCASRS

SUPERVISORY RATIO

The ratio of supervisory employees to total non-supervisory employee population. A supervisor is an employee who meets the definition of "supervisor" in the appropriate position classification guide (GS or WG). General Schedule (including both GS & GHI) and Federal Wage System supervisory ratios are computed separately. Federal Wage System figures include WS employees only (no WL-wage leader-positions).

General Schedule supervisory ratios have tended to fluctuate around a 1:7 mid-point over the past few years. Wage Grade ratios have risen steadily over the six year period covered here - from 1:10.4 in 1983 to 1:12.3 in 1989.

SUPERVISORY RATIO TREND

SUPERVISORY RATIO FY 1989

•DCASRS

EEO COMPLAINTS

Total EEO complaint activity including number and percentage of EEO counseling contacts, complaints filed and processed to include final action on formal complaints.

During FY 1989, 1,252 persons were counseled regarding EEO issues, resulting in 242 formal complaints being filed (19% of those counseled). There were 263 complaint closures during the period.

The average number of days from filing to closure of complaints within DLA continues to be a concern. For the 263 complaints closed during the period, the average number of days from filing to closure was 464 days.

Complaint inventory decreased by 7% during the period. There were 306 complaints on hand at the beginning of the period and 285 on hand at the end of the period.

Agency-wide complaint activity for FY 1985 through FY 1989 is summarized at Table 9, Appendix B.

TIMELY PROCESSING OF EEO COMPLAINTS

The objective is to reduce avoidable delays in complaints processing time at each PLFA. Tracking is done at six stages of in-house complaints processing which include the following: (1) date of acceptance/rejection/cancellation; (2) date investigation started on-site; (3) date report of investigation received; (4) date of informal adjustment attempt; (5) date proposed disposition issued; and (6) date EEOC Hearing/DLA Decision without Hearing requested.

During FY 1989, only 4 PLFAs were below the recommended 85-day time frame for overall processing time in the six stages covered. The DLA-wide average was 141 days; compared to 114 days for FY 1988.

For DLA decisions rendered by Headquarters, DLA during FY 1989, the average processing time to closure was 90 days compared to 104 days for FY 1988.

PLFA PROGRESS AGAINST EIGHT MAJOR PARITY INDEX (PI) GOALS

The principal objective of the DLA EEO Program is "to fully integrate the workforce at all levels." Agency-wide PI goals were established to track progress toward attainment of this ultimate objective. The PI goals are as follows:

1. Obtain a minority PI of 100 at every activity for each 6-month reporting period.
2. Obtain a PI of 100 for minority employment in middle grade jobs (GS-9-12 and Wage Grade (WG) equivalents) at every activity for each 6-month reporting period.
3. Obtain a PI of 100 for minority employment in high grade jobs (GS/CM-13 and above and WG equivalents) at every activity for each 6-month reporting period.
4. Obtain a Hispanic PI of 100 at every activity for each 6 month reporting period.
5. Obtain a PI of 100 for Hispanic employment in middle grade jobs (GS-9-12 and WG equivalents) at every activity for each 6-month reporting period.
6. Obtain a PI of 100 for Hispanic employment in high grade jobs (GS/CM-13 and above and WG equivalents) at every activity for each 6-month reporting period.
7. Obtain a PI of 100 for women in middle grade jobs (GS-9-12 and WG equivalents) at every activity for each 6-month reporting period.
8. Obtain a PI of 100 for women in high grade jobs (GS/CM-13 and above and WG equivalents) at every activity for each 6-month reporting period.

Data for FY 1989 shows that there was a decrease of 10% in agency-wide progress toward achievement of a fully integrated workforce. As of 30 September 1988, 32.9% of the workforce was fully integrated in the eight areas covered--as of 30 September 1989, 29.5% of the workforce was fully integrated in the eight areas covered.

SICK LEAVE

Average number of sick leave hours used per employee during the year.

Employees used 3,749,385 hours of sick leave during FY 1989, for an average of 71.8 hours per employee. Based on current average employee salary, Agency cost of sick leave was \$48.3 million in nonproductive time.

Annual rates by activity for FY 1986 through FY 1989 are at Table 11, Appendix A.

AVERAGE SICK LEAVE USAGE PER EMPLOYEE DLA-WIDE

SICK LEAVE USAGE-AVE HOURS PER EMPLOYEE DLA-WIDE

*DCASRS

CONTINUATION OF PAY

Continuation of Pay (COP) is the continuation of an employee's regular pay by the employing agency with no charge to sick or annual leave. COP may be granted in traumatic injury cases for a maximum of 45 calendar days.

OBJECTIVE: To reduce COP usage by returning injured employees to work as quickly as possible and thereby realizing lower total workers compensation costs.

Rate of usage of COP for FY 1989 was .202 workdays per capita. This represents a total cost to the Agency of \$783,599.78 in non-productive time.

The chart below compares days of COP per capita in DLA for the last three fiscal years.

CONTINUATION OF PAY FY 1989

* DCASRS /1 DATA NOT SUBMITTED

SUPERVISORY TRAINING

The number of supervisors on the rolls at the end of the reporting period who have completed required supervisory training or received written waivers.

OBJECTIVE: To provide essential training to new first-level supervisors and to systematically provide all supervisors with any additional training needed. Phase I training (40 hours) should be completed within 6 months after first assignment as a supervisor; Phase II (an additional 40 hours) within one year after assignment.

At the close of FY 1989, there were 5,879 supervisors on the rolls; 95% (5,590) had completed the 40 hours Phase I training, while 88% (5,158) had completed the additional 40 hour Phase II training.

About 2% of our supervisors had held supervisory positions over six months without having accomplished their first 40 hours of Phase I training, and 4% had been appointed over one year without completing Phase II.
