PREFACE

This bibliography is a list of technical publications and papers by personnel of the U.S. Army Natick Research, Development and Engineering Center and its contractors for the period October 1987 through September 1988. The arrangement is by organizational elements. Previously unreported items from past years are also listed.

Reprints of journal articles, in some cases, are available from the individual authors. Copies of technical reports may be obtained on loan from the Technical Library, or from (1) Defense Technical Information Center, Cameron Station, Alexandria, Virginia 22304-6145 or (2) the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161. The "AD" numbers, if available, should be cited when ordering copies of reports.
