PREFACE

The Military Family: A Selected Bibliography, now in its fourth revised edition, includes most of the citations from the earlier editions as well as many other notable materials published since 1980. Like the earlier bibliographies, this version lists references to resources which deal specifically with the military family as well as materials which address issues common to all families.

It has been tailored to include only those materials readily available in the US Army War College (USAWC) Library collection. For your convenience, we have added USAWC library call numbers at the end of each book entry (keep in mind that call numbers vary from library to library).

For additional information, please contact the Public Services Branch, US Army War College Library, AUTOVON 242-3660 or Commercial (717) 245-3660.

"A healthy family environment is a force multiplier."

- General John A. Wickham, Jr.
