FOREWORD

Prime Contract Awards by State is a semiannual publication; however, it was not published for the first half of Fiscal Year 1989 or 1990 but will again be published semiannually beginning with the first half of Fiscal Year 1991.

This report provides information on Department of Defense procurement actions. Data are broken down into three categories:

- 1) Total U.S. Actions;
- 2) Actions Not Distributed by State; and
- 3) Total State Actions, which is further divided into separate totals for each state.

TABLE OF CONTENTS

Introduction.	1

Table 4. Net Value and Percent Distribution of DoD Military Procurement Actions, by State: FY1990, FY 1989, and FY 1988	7
--	---

Table 5. Net Value and Percent Distribution of DoD Civil Function Procurement Actions, by State: FY 1990, FY 1989, and FY 1988	8
---	---

INTRODUCTION

Prime Contract Awards by State provides a wide variety of information on all Department of Defense (DoD) procurement actions. Both military and civil functions (i.e., U.S. Army Corps of Engineers--Civil Works) procurements are represented. The data are presented by state and include the net value of procurements awarded to each state as well as each state's percentage of the total for all state procurements.

The total net value of procurement actions for Fiscal Year (FY) 1990 and FY 1989 are shown for all of DoD in Table 1 and for its military components only in Table 2. These tables also provide, for comparison purposes, data for the fourth quarters of FY 1990 and FY 1989. The total net value of military procurement actions for FY 1990 (presented in Table 2) are displayed according to Defense Component in Table 3. Table 4 displays the total net value of military procurement actions for FY 1988 through FY 1990. Data on the total net value of civil function procurement actions are provided in Table 5 for FY 1988 through FY 1990.

NOTES ON COVERAGE

Data in this report reflect the net value of debit and credit procurement actions over \$25,000, i.e., terminations, price changes, or other downward adjustments which are deducted from a contractor's total award amount, whereas modifications and other positive adjustments are treated as increases. Procurement actions include definitive contracts; the obligated portions of letter contracts; and job orders, task orders, delivery orders, or any other orders against existing contracts. Contracts for research and development, services, construction, and supplies and equipment are included. Contracts to other Government agencies (*Intergovernmental awards*) and contracts to foreign governments (*Foreign Military Sales awards*) are also included.

The data base from which information for this report is collected does not include data on those parts of indefinite quantity contracts (except for petroleum products) that have not been translated into specific orders to businesses, those contracts that have not yet become mutually binding agreements between the Government and the contractor, or prime contracts awarded by other U.S. government agencies and financed with DoD funds.

Totals

The United States total in the tables includes all contracts awarded for work performed in the United States. The United States as used here includes the 50 states, the District of Columbia and the outlying areas of the United States. The U.S. outlying areas include American Samoa, the Federated States of Micronesia, Guam, the Marshall Islands, Northern Mariana Islands, Palau, Puerto Rico, the U.S. Minor Outlying Islands, and the Virgin Islands of the U.S.

The subtotal "NOT DISTRIBUTED BY STATE" includes all contract actions of \$25,000 or less for performance in the United States. This subtotal also includes all contract actions over \$25,000 for performance in the U.S. outlying areas and all contract actions for performance in classified locations.

State subtotals include the net value of procurement actions over \$25,000 awarded to each state and the District of Columbia.

Location of Contracts

Contract work is not necessarily performed in the state where the contract is awarded. Most manufacturing contracts have been attributed to the contractor's location where the product will be processed and assembled. When contract work has been performed at more than one plant, the contract has been attributed to the location where the largest dollar amount of work was produced. Both construction and service contracts have been attributed to the state where the work is to be performed. Contracts for transportation and communications services have been attributed to the state where the contractor's home office is located. For purchases from wholesale or other distribution firms, the location is the contractor's business address.

HIGHLIGHTS

In FY 1990 there was a slight increase in total DoD procurement for prime contracts awarded in the United States, which reversed the declining trend that had occurred since FY 1985. Total prime contract awards for FY 1990 totaled \$136,960.0 million, an increase of \$4,781.7 million (or 3.6 percent) from FY 1989. Prior to FY 1990 the declines were as follows: FY 1989, \$9,976.0 million (or 7.0 percent); FY 1988, \$4,991.8 million (or 3.4 percent); FY 1987, \$2,138.1 million (or 1.4 percent); and FY 1985, \$4,247.2 million (or 2.8 percent). The state that showed the largest dollar amount of change in FY 1990 was Virginia with an increase of \$2,022.1 million or 34.3 percent. Last year, however, Virginia had the largest decrease in defense procurement; its decrease from FY 1988 to FY 1989 was \$4,341.3 million or 42.4 percent.

DoD Procurement Trends (United States Total)

In FY 1990, procurement increased in twenty-four states (median increase \$162.0 million) but decreased in twenty-seven states (median decrease of \$67.6 million). Overall, the average and median change of procurement for all states in FY 1990 was \$26.2 million and \$-11.7 million, respectively. The following ten states had the largest amount of procurement award dollar change from FY1989 to FY 1990 (shown from largest increase or decrease to smallest increase or decrease):

(AMOUNTS IN THOUSANDS OF DOLLARS)

STATE	FY 1990 AMOUNT	AMOUNT OF INCREASE OR DECREASE FROM FY 1989	PERCENTAGE CHANGE FROM FY 1989
VIRGINIA	\$7,918,833	\$2,022,084	34.3
