INTRODUCTION

This selection of resources on the United States Air Force Academy dates from 1 January 1972 to 31 December 1982. It updates the second supplement published in 1972. Bibliographies published prior to 1972 include the original bibliography issued in 1966 and the first supplement which was issued in 1968.

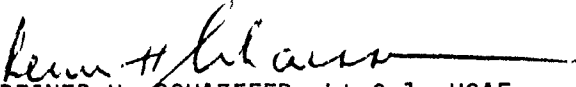

A few items, which pre-date the years covered by this supplement but were not previously reported, are included. Some Academy-generated materials are also included. Newspaper coverage is exclusive of local articles, and reports of specific athletic events are excluded.

The arrangement is by subject. Then each section is subdivided into Air Force manuals and regulations, books, newspaper and periodical articles, government documents, and other sources. We assigned a number to each entry with index terms referring to that entry by the item number. Call numbers indicate the location of the materials in the Academy Library.

Additional material is housed in the Special Collections Division of the Library. Among these are papers, which relate to establishing an air academy, dating from 1918. These papers are not included since they have no specific bearing on the Academy as it now exists.

We solicit any additional references which are not included in this bibliography, for the period covered. You may send such information to the Director of the Libraries, U.S. Air Force Academy, Colorado Springs, Colorado 80840. Send your requests for the loan of any material to the Interlibrary Loan Office of the Cadet Library.

This bibliography was compiled and indexed by Ms. Carol J. Mehlhaff of the Reference Division of the U.S. Air Force Academy Library. The manuscript was prepared for the printer by Ms. Sharon Johnson. My special thanks go to these fine staff members for this very time-consuming project.
