PRIME CONTRACT AWARDS BY STATE

First Half Fiscal Year 1991

✓
A-1

Department of Defense
Washington Headquarters Services
Directorate for Information
Operations and Reports

~~For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402~~

DTC and NTIS identification number for this publication is DIOR/P09 91/01

FOREWORD

Prime Contract Awards by State is published semiannually.

This report provides information on Department of Defense procurement actions. Data are broken down into three categories:

- 1) Total U.S. Actions;
- 2) Actions Not Distributed by State; and
- 3) Total State Actions, which is further divided into separate totals for each state.

TABLE OF CONTENTS

Introduction. 1

Tables:

Table 1. Net Value and Percent Distribution of DoD Procurement
Actions, by State: First Half FY 1991, First Half FY 1990,
and Second Quarters FY 1991 and FY 1990 3

Table 2. Net Value and Percent Distribution of DoD Military
Procurement Actions, by State: First Half FY 1991, First Half
FY 1990, and Second Quarters FY 1991 and FY 1990. 4

Table 3. Net Value and Percent Distribution of DoD Military
Procurement Actions, by State, According to Defense Component:
First Half FY 1991. 5

INTRODUCTION

Prime Contract Awards by State provides a wide variety of information on all Department of Defense (DoD) procurement actions. Both military and civil functions (i.e., U.S. Army Corps of Engineers--Civil Works) procurements are represented. The data are presented by state and include the net value of procurements awarded to each state as well as each state's percentage of the total for all state procurements.

The total net value of procurement actions for the first half of Fiscal Year (FY) 1991 and FY 1990 are shown for all of DoD in Table 1 and for its military components only in Table 2. These tables also provide, for comparison purposes, data for the second quarters of FY 1991 and FY 1990. The total net value of military procurement actions for the first half of FY 1991 (presented in Table 2) are displayed according to defense component in Table 3.

NOTES ON COVERAGE

Data in this report reflect the net value of debit and credit procurement actions over \$25,000, i.e., terminations, price changes, or other downward adjustments which are deducted from a contractor's total award amount, while modifications and other positive adjustments are treated as increases. Procurement actions include definitive contracts; the obligated portions of letter contracts; and job orders, task orders, delivery orders, or any other orders against existing contracts. Contracts for research and development, services, construction, and supplies and equipment are included. Contracts awarded by DoD to other Government agencies as intragovernmental orders and foreign military sales (reimbursable sales to foreign governments) are also included.

The data base from which information for this report is collected does not include data on those parts of indefinite quantity contracts (except for petroleum products) that have not been translated into specific orders to businesses, those contracts that have not yet become mutually binding agreements between the Government and the contractor, or prime contracts awarded by other U.S. government agencies and financed with DoD funds.

As a general rule, the previous first half figures appearing in this publication differ from the originally published figures. This is due to changes received during the second half of the fiscal year for records originally submitted in the first half and represents the most accurate data available for the previous first half.

Totals

The United States total in the tables includes all contracts awarded for work performed in the United States. The United States as used here includes the 50 states, the District of Columbia and the outlying areas of the United States. The U.S. outlying areas include American Samoa, the Federated States of Micronesia, Guam, the Marshall Islands, Northern Mariana Islands, Palau, Puerto Rico, the U.S. Minor Outlying Islands, and the Virgin Islands of the U.S.

The subtotal "NOT DISTRIBUTED BY STATE" includes all contract actions of \$25,000 or less for performance in the United States. This subtotal also includes all contract actions, regardless of size, for performance in the U.S. outlying areas and all contract actions for performance in classified locations.

State subtotals include the net value of procurement actions over \$25,000 awarded to each state and the District of Columbia.

Location of Contracts

Contract work is not necessarily performed in the state where the contract is awarded. Most manufacturing contracts have been attributed to the contractor's location where the product will be processed and assembled. When contract work has been performed at more than one plant, the contract has been attributed to the location where the largest dollar amount of work was produced. Both construction and service contracts have been attributed to the state where the work is to be performed. Contracts for transportation and communications services have been attributed to the state where the contractor's home office is located. For purchases from wholesale or other distribution firms, the location is the contractor's business address.

HIGHLIGHTS

The total United States prime contract awards for the first half of Fiscal Year 1991 totaled \$62,895.6 million, an increase of \$7,049.9 million or 12.6 percent more than the first half of Fiscal Year 1990. The state that showed the largest dollar amount of change was Massachusetts with a decrease of \$1,772.6 million or -35.8 percent. The state with the second largest dollar amount of change was California with an increase of \$1,085.7 million or 11.3 percent. As you can see below, New York had almost the same net dollar change as California, even though it's overall ranking among the states was third.

Sixteen states (including the District of Columbia) showed a decrease with a median of -\$113.4 million while thirty-five states showed an increase with a median of \$127.1 million. The average change for all the states was \$64.8 million with a median of \$28.1 million. The ten states that showed the largest amount of procurement award dollar change from the first half of FY 1991 to the first half of FY 1990 are as follows:

(AMOUNTS IN THOUSANDS OF DOLLARS)

STATE	FIRST HALF FY 1991 AMOUNT	AMOUNT OF INCREASE OR DECREASE FROM FIRST HALF FY 1990	PERCENT OF CHANGE FROM FIRST HALF FY 1990
