This Consultative Report presents a summary analysis of CHAMPUS ambulatory professional services for Department of Defense. Time period of report is Fiscal Year 1991. The summary analysis is presented by service branch in three sections: Appendix A - Army; Appendix B - Navy; and Appendix C - Air Force. In each appendix the summaries are subgrouped by specialties. Within each specialty group the summary is presented by CPT-4 procedure code and beneficiary category. Each Appendix has a total for all specialties for that branch of service.

C - AIR FORCE CHAMPUS AMBULATORY PROFESSIONAL SERVICES - FISCAL YEAR 1991	C-1

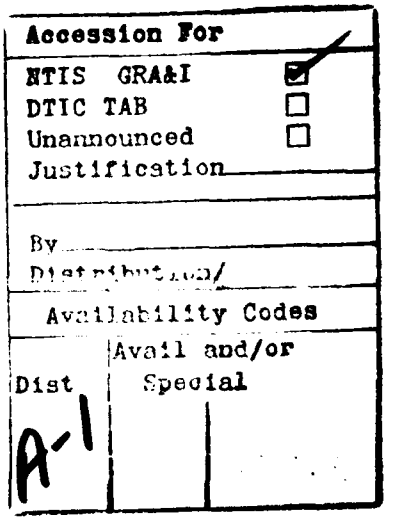

Executive Summary

This Consultative Report presents a summary analysis of CHAMPUS ambulatory professional services utilization by Department of Defense service branch. The study period was based on all claims paid during Fiscal Year 1991. CHAMPUS ambulatory professional services utilization in Europe was excluded from the analysis.

Summary ambulatory professional services data are presented by service branch in three sections: (a) Army, (b) Navy, and (c) Air Force. Each section is presented by CPT-4 procedure code total frequency and frequency by the beneficiary categories of active duty dependents, retired military, and dependents of retired/deceased military. Each appendix is subgrouped by service category, i.e., medicine, surgery, radiology, pathology, psychiatry, the Program for the Handicapped, dental, and drugs. A total line is presented at the end of each Appendix for that service branch. Service branch assignment was based on billable branch of service as derived by OCHAMPUS fiscal intermediaries during adjudication.

With the exception of the subgroup for dental, procedure codes in this report are from Physicians' Current Procedural Terminology, Fourth Edition (CPT-4) and are customarily used by fiscal intermediaries for claims adjudication and abstracting of CHAMPUS professional services data. In addition, other "CHAMPUS-unique" codes were created by OCHAMPUS for procedures for which there was no appropriate CPT-4 code or when more specific detail was required for coding a service or procedure. A crosswalk was developed to map the CHAMPUS-unique codes to valid CPT-4 codes, and these mapped codes, rather than the CHAMPUS-unique codes, appear in the report. In the Dental subgroup, the codes used are from American Dental Association's Code on Dental Procedures and Nomenclature (CDT-1).
