A New Approach to Inventorying Army Hazardous Materials, A Study Done for the Eighth U.S. Army, Korea Volume II: Hazardous Material Data

by
Byung J. Kim
Chai S. Gee
Yong H. Lee
Lynne R. Mikulich
Donald E. Grafmyer
John T. Bandy

The goal of the Army hazardous waste minimization program is to achieve a 50 percent reduction of the hazardous waste generated by calendar year 1992 (CY92), as compared to baseline CY85. A first step in achieving effective hazardous waste management is to conduct a thorough hazardous material inventory. Volume I describes a method created to inventory hazardous material by collecting supply data from Logistics Control Activity (LCA) at the Presidio, San Francisco, CA, and comparing this data with the Material Safety Data Sheet (MSDS) in the Hazardous Material Information System (HMIS). Volume II lists hazardous material data collected for the Eighth U.S. Army (EUSA), Korea.

Common elements between the two data bases were compiled, analyzed, and validated. It was found that the intersection of the two data bases created a composite list that substantially reduced the number of nonhazardous wastes included in the individual lists. This method may also be applied to supply data from other Army installations.

FOREWORD

This study was performed for the U.S. Forces, Korea (USFK)/Eighth U.S. Army (EUSA) Environmental Programs Office (EPO) and was funded by the 19th Support Command Engineer under MIPR No. 910274ES13, "EUSA Hazardous Waste Survey," dated October 1990. The USFK/EUSA technical monitor was Mr. Ernest Eddy, FKEN-E.

This investigation was performed by the Environmental Division (EN) of the U.S. Army Construction Engineering Research Laboratory (USACERL). The principal investigator was Dr. Byung J. Kim. Dr. James Hartman is Chief and Mr. Naim Qazi is Assistant Chief of USFK/EUSA EPO. Appreciation is owed to Mr. Frank Maurer of Logistics Control Activity (LCA), Presidio, San Francisco, CA for providing the computer data for this project. Special thanks is given to COL E. Kane, 19th Support Command Engineer, and COL Robert Brown, USFK/EUSA Assistant Chief of Staff Engineer, for their understanding and support of the EUSA hazardous waste program. Mr. Donald Willard, of Illinois State University, is acknowledged for validating the data by comparing actual hazardous material data at Camp Carroll with the report data. Dr. Edward Novak is Acting Chief, USACERL-EN. The USACERL technical editor was Mr. William J. Wolfe, Information Management Office.

COL Everett R. Thomas is Commander and Director of USACERL, and Dr. L.R. Shaffer is Technical Director.
