FOREWORD

Prime Contract Awards is published semiannually except for fiscal years 1989 and 1990 when, due to statistical anomalies in the first half of fiscal year 1989, only the annual reports were published. This report contains a wide range of summary data covering prime contract awards made during the reporting period as well as historical data to provide the perspective required for the analysis of Defense procurement records.

INTRODUCTION

Purpose and Scope

This report presents a variety of current and historical data pertaining to Department of Defense (DoD) prime contract awards. All historical tables commence with fiscal year 1982 data.

Six categories of data on DoD prime contracts are provided. Data are displayed by type of contractor, by procurement program, by competition, and by type of contract pricing provision. Awards for research, development, test, and evaluation (RDT&E) are discussed separately, as is the DoD Small Business Subcontracting Program.

Notes on Coverage

Beginning with FY 1983, the dollar threshold for reporting detailed information on procurement actions was raised from over \$10,000 to over \$25,000. While some of the enclosed tables have either column or stub headings of over \$25,000, FY 1982 data figures really represent awards over \$10,000.

Amounts in this report are shown for the DoD agency that awards the prime contracts and not the department or agency that budgets for the supplies or services. In addition, data for the Army, Navy, and Air Force include prime contracts awarded on behalf of the National Aeronautics and Space Administration (NASA) and other Federal agencies, as well as for foreign countries whose Defense purchases are reimbursable. Percentages are derived by dividing the detail line or the subtotal line by the base line designated by 100 percent, unless otherwise noted. Column headings, footnotes, or section narrative are used to identify these exceptions. Indentation is used to provide assistance in recognizing total, subtotal, and detail line information. Percentages given in tables may not add due to rounding.

This report includes awards made by Other Defense Agencies (ODA) which are listed in the Glossary. Commencing with FY 1989, it also includes tariff or regulated acquisitions under \$25,000. It does not include obligations for "in-house" work performed at government-owned-and-operated establishments such as Navy shipyards, Army arsenals, and Air Force research laboratories, except to the extent that such establishments place contracts for supplies and services with industry or other Federal agencies. The estimated dollar amounts of indefinite quantity petroleum contracts are included in this report, but the number of individual orders written against these contracts have not been included in the totals for procurement actions.

For the definition of terms used in this publication, see the Glossary.

Highlights

DoD procurement actions during the first half of fiscal year 1992 totaled \$56,522,983 thousand, as shown below:

<u>Category</u>	<u>Amount</u>
Intragovernmental/FMS	\$ 4,131,608
Work Outside United States	2,069,065
Educational and Nonprofit Institutions	1,375,870
Business Firms Inside United States	48,870,895
Tariff or Regulated Acquisitions	<u>75,545</u>
TOTAL	\$56,522,983

Foreign Military Sales (FMS), a reimbursable portion of intragovernmental orders, totaled \$3,138 million as follows: Army, \$768 million; Navy, \$980 million; Air Force, \$1,370 million; Defense Logistics Agency, \$16 million and Other Defense Agencies, \$4 million.

AWARDS BY TYPE OF CONTRACTOR

DoD Procurement by Type of Contractor

DoD procurement awards during the first half of fiscal year 1992 (October 1991 through March 1992) totaled \$56,523 million. This was a decrease of \$8,314 million (12.8 percent) below the \$64,837 million awarded during the first half of fiscal year 1991. Contract awards to U.S. businesses for work inside the United States decreased by \$6,136 million. Awards for work outside the United States decreased by \$2,095 million and awards to educational or nonprofit institutions decreased by \$582 million, while awards to or through other Government Agencies increased by \$503 million. See Tables 1 and 2.

Procurement Trends

DoD procurement increased steadily from \$124.7 billion in FY 1982 to \$163.7 billion in 1985; however, it decreased to \$158.8 billion in FY 1986 and continued to decrease each year through FY 1989. During FY 1990 an upward trend is again shown which continued through FY 1991. The long term trend in prime contract awards is shown in Table 3.

Small Business Performance

Small businesses received \$8,619 million during the first half of fiscal year 1992, a decrease of \$1,657 million over the \$10,276 million during the first half of fiscal year 1991. In terms of net value, small businesses received 17.6 percent of the prime contracts awarded to all business firms for work done in the United States during the first half of FY 1992 compared to 18.7 percent during the first half of fiscal year 1991.

Chart 1 shows that 2,578,000 procurement actions, or 66.6 percent of the total 3,871,956 actions awarded to business firms, involved small businesses.

Chart II shows total awards to business firms, to small business firms, and percent to small businesses for FY 1982 through FY 1991.

Operations and Reports

Chart II

Net Value of DoD Prime Contract Awards to Small Businesses and to All Businesses
and Percent Distribution to Small Businesses: FY 1982 - 1991

AWARDS BY PROCUREMENT PROGRAM

Data on the net value of prime contract awards to businesses in the United States by procurement program are shown in Table 5 for the first half of FY 1992 and the first half of FY 1991, and in Table 6 for FY 1982 through FY 1991. Table 6a provides data on awards by procurement program, according to the Defense component making the awards, for FY 1982 through FY 1991.

Total DoD procurement from U.S. businesses for work performed in the United States during the first half of FY 1992 totaled \$48,871 million; \$6,136 million (11.1 percent) less than the first half of FY 1991. A comparison of first half 1992 totals show a decrease in the Major Hard Goods and the All Other Categories with an increase in the Services Category.

The largest decreases in the procurement programs were in Missile and Space Systems, \$2,647 million; Ships, \$1,793 million; Subsistence, \$951 million; and Tank Automotive, \$649 million.

The programs with the largest increases were Construction, \$252 million; Ammunition, \$249 million; and Other Aircraft Equipment and Supplies, \$222 million.

Chart III shows awards to all businesses and percent distribution to small businesses by procurement program for the first half of FY 1992 and the first half of FY 1991.

AWARDS FOR RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

The net value and percent distribution of awards for research, development, test, and evaluation (RDT&E), by type of contractor, for FY 1983 through the first half of FY 1992 are shown in Table 7.

The total dollar value of RDT&E awards, excluding awards for work outside the United States and orders to other Government agencies, amounted to \$11,014 million during the first half of FY 1992 and accounted for 21.9 percent of all DoD procurement. During the first half of FY 1991 the comparable amount was \$10,520 million, which was 17.7 percent of the total awards.

Between FY 1982 and FY 1986, the relative share of RDT&E procurement to total procurement remained consistently around 13 or 14 percent. During FY 1987 it rose to 15.5 percent and continued to rise each year through FY 1989. During FY 1990 there was a slight decrease to 17.3 percent and during FY 1991 it dropped to 15.8 percent.

Contract awards for RDT&E by procurement program are shown for FY 1982 through FY 1991 in Table 8. This table shows the percentage of RDT&E awards in each program based on the totals shown in Table 6.

Directorate for Information
Operations and Reports

AWARDS BY COMPETITION

Awards by Extent of Competed

Procurement

As shown in Table 9, total DoD awards subject to competition during the first half of FY 1992 and 1991 totaled \$47,520 million and \$55,889 million, respectively. A breakout of these awards is as follows:

	FY 1992		FY 1991	
	Dollars	Percent	Dollars	Percent
Total	\$ 47,520	100.0%	\$ 55,889	100.0%
Competed 1/	31,535	66.4	36,026	64.5
Follow-on	3,877	8.2	6,805	12.2
Not Competed	12,108	25.5	13,058	23.4

Table 9 gives the total for both actions and dollars by reporting component for each of these categories.

1/ See Glossary of Terms for definition.

Table 10 displays the extent of competed procurements by each Competition in Contracting Act (CICA) solicitation procedure where applicable. Full and open competition procedures accounted for 76.2 percent of the competed post-CICA awards during the first half of FY 1992 compared to 74.0 percent for the first half of FY 1991. Actions of \$25,000 or less accounted for 8.9 percent (9.7 percent last year), and other than full and open competition, 15.0 percent (16.3 percent last year).

Solicitation Procedures

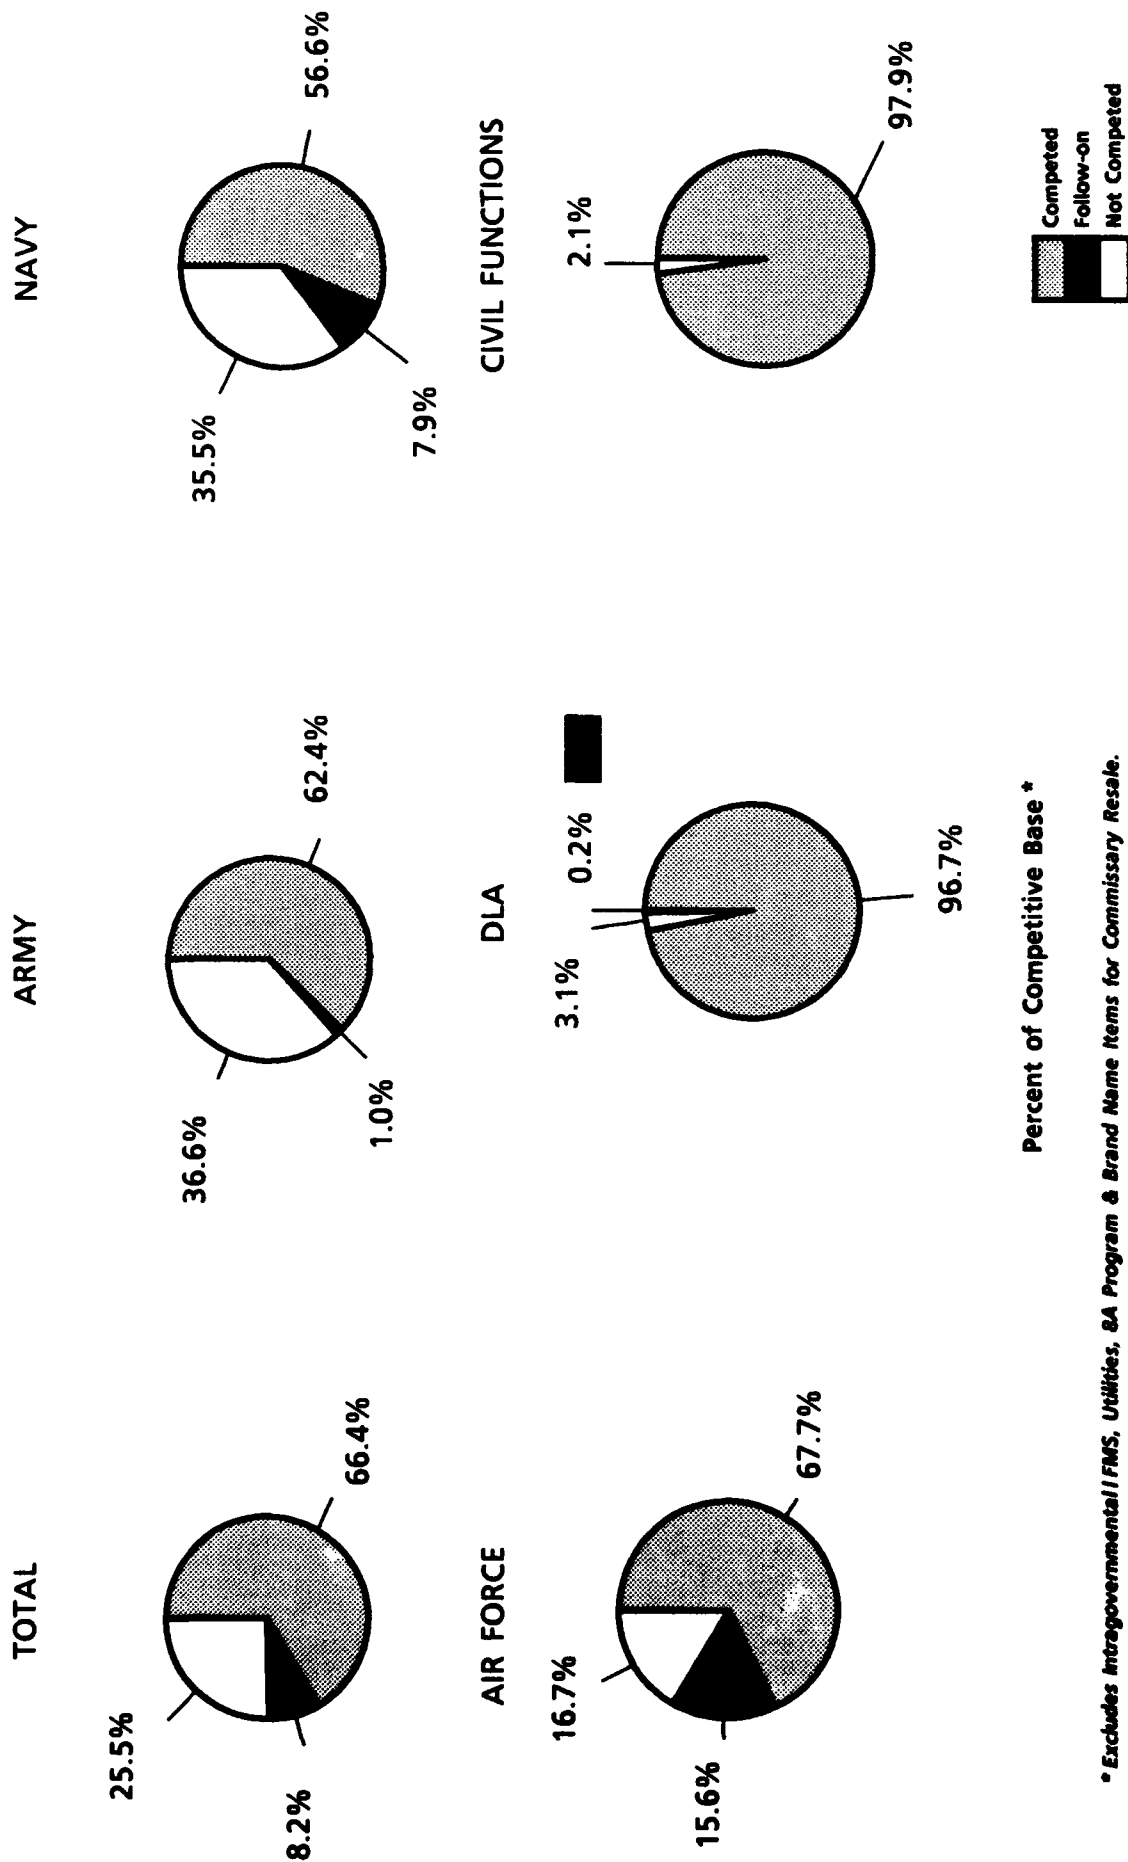

Tables 13 and 14 highlight the dollars and procurement actions respectively, for each of the CICA solicitation procedures used by the Department of Defense to procure supplies and services during the first half of both FY 1992 and FY 1991. See the Federal Acquisition Regulation, Part 6 for a more descriptive definition of the solicitation procedures listed in these tables. Similar data are not collected on awards in support of the Foreign Military Sales (FMS) program and awards of \$25,000 or less.

As can be seen in Table 13, the total awards reported during the first half of FY 1992 amounted to \$56.5 billion which was a \$8.3 billion decrease from the first half of FY 1991. Of the first half FY 1992 total, \$8.7 billion (15.5 percent) were for "Foreign Military Sales" and "Actions of \$25,000 or Less". Of the remaining \$47.8 billion, \$45.7 billion (80.9 percent) were pursuant to CICA procedures. The "Full & Open Competition" category accounted for \$22.8 billion, or 50.0 percent. The "Other Than Full & Open Competition" category accounted for \$22.8 billion, also 50.0 percent. Similar data are also depicted by DoD component in this table.

Table 14 shows a total of 4,517,657 procurement actions during the first half of FY 1992, a decrease of 341,033 over the first half of FY 1991. The major change was a decrease in actions of \$25,000 or less. Distribution by kind of contracting action is also depicted.

Chart IV shows percent distribution of DoD awards by extent of competed procurement according to Defense Component for the first half of FY 1992.

Chart IV
Percent Distribution of DoD Awards by Extent of Competed Procurement
According to Defense Component: First Half Fiscal Year 1992

* Excludes Intragovernmental / FMS, Utilities, BA Program & Brand Name Items for Commissary Resale.

 Operations and Reports

AWARDS BY TYPE OF CONTRACT PRICING PROVISION

Table 16 shows the net value and percent distribution of DoD prime contract awards over \$25,000 for the first half of fiscal years 1992 and 1991. Data are shown by type of contract pricing provision, according to Defense component. Table 17 provides annual data for fiscal years 1982 through 1991.

During the first half of FY 1992 awards over \$25,000 (excluding intragovernmental awards) totaled \$47,419 million, of which \$30,587 million, or 64.5 percent, were awarded under fixed price procedures and \$15,542 million, or 32.8 percent, under cost reimbursement procedures. Other types (time and materials and labor hours) accounted for \$1,289 million, or 2.7 percent.

Cost-plus-fixed fee (CPFF) contracts accounted for 13.5 percent of the total contract awards over \$25,000 during the first half of FY 1992. The use of incentive contracts (both

fixed price and cost-type combined) increased from 17.9 percent of total contract dollars in the first half of FY 1991 to 18.6 percent this year. The use of firm fixed-price contracts decreased from 51.0 percent to 45.9 percent.

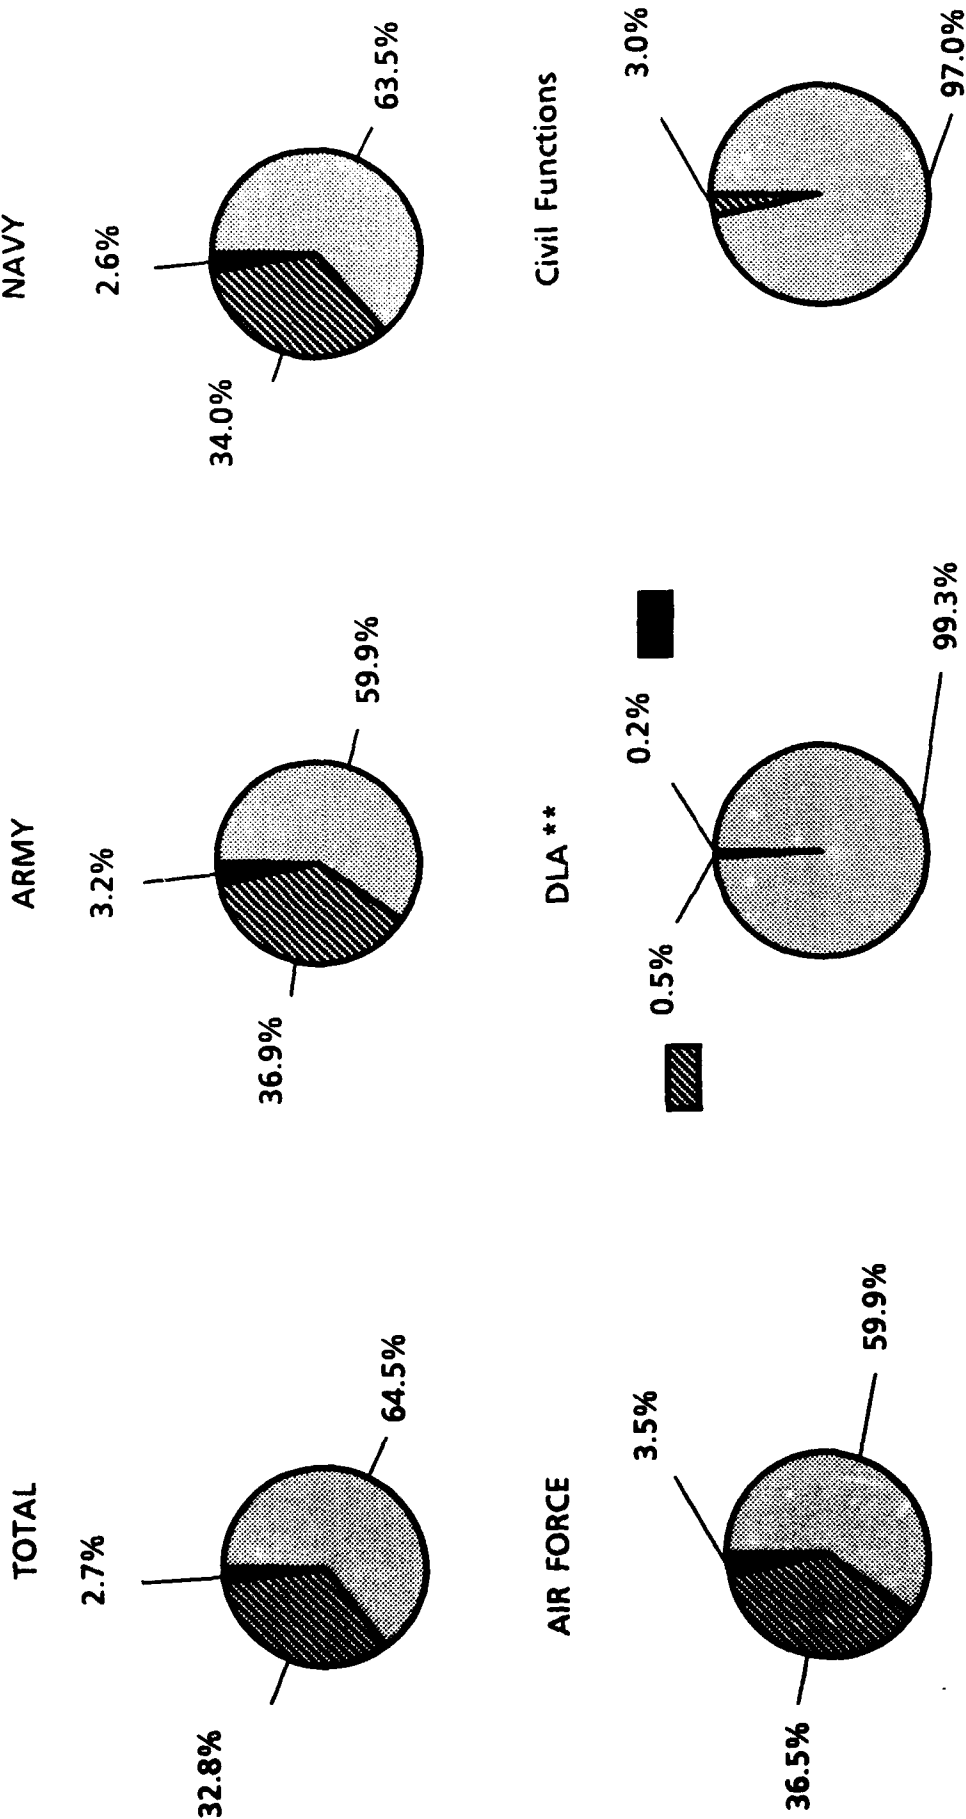

The total of 74,674 contract actions over \$25,000 for the first half of fiscal year 1992 (see Table 16) includes 24,975 original contract actions and modifications calling for additional work and 49,699 actions representing delivery orders and modifications made pursuant to the terms of existing contracts. Actions for new work decreased by 17.1 percent and actions representing delivery orders and modifications pursuant to the terms of the original contract decreased by 11.0 percent.

Chart V shows percent distribution of DoD Prime Contract Awards by contract pricing provision, according to Defense Component for the first half of FY 1992.

DOD SMALL BUSINESS SUBCONTRACTING PROGRAM

Commitments for DoD small business subcontracting work by 1,709 reporting large contractors totaled \$57,053 million in FY 1991, which was a 4.3 percent increase from the \$54,708 million reported by 1,664 large contractors in FY 1990.

Small businesses received 34.0 percent of the total committed for subcontracting work during FY 1991, compared with 39.3 percent for FY 1990. Comparative data for FY 1982 through FY 1991 are given below.

(Amounts in Millions)

	1991	1990	1989	1988	1987	1986	1985	1984	1983	1982

GLOSSARY OF TERMS

Businesses. Businesses are companies, individuals, or partnerships organized for profit, including small businesses as defined below.

Civil Functions. Functions primarily associated with the Civil Works program of the Army Corps of Engineers. This program encompasses planning, programming, designing, constructing, and operating Federal Water resource projects for navigation, flood control, hydroelectric power production, water supply, recreation, and related activities. Also included are cemetery work and conservation management.

Competed Procurement.

For solicitations issued prior to the Competition in Contracting Act (CICA):

Price Competition - Two or more bids or offers were received under formal advertising or negotiated methods of procurement, and award was made to the lowest responsive and responsible bidder or offeror.

Technical & Design Competition - Two or more offers were received, and award was made to the offeror with the best overall technical and design proposal. Cost is one of the factors in the evaluation. Sources for most major weapon systems resulted from initial competition in the design and development stage.

For solicitations issued subsequent to the Competition in Contracting Act:

Awards where solicitations were issued pursuant to full and open competition procedures or awards where two or more

offers were received following solicitation pursuant to other than full and open competition procedures, and award was made to the lowest responsive and responsive offeror.

Educational and Nonprofit Institutions. Any corporation, foundation, trust, or institution operating on a not-for-profit basis. Included are educational and scientific institutions, hospitals of a nonprofit nature, and state, local, and other non-Federal government agencies. If the work of these institutions meets the criteria of the category "Work Outside the United States" (see below), it is included in the data for that category.

Intragovernmental Order. Orders written by a military department or Defense agency purchasing office requesting that a non-Defense Federal agency furnish supplies or services from its stocks, in-house manufacturing facilities, or contracts.

Location of Work. The place where an item is to be manufactured, assembled, or otherwise supplied by the prime contractor; the place where the service is to be performed; or the site of a construction project.

Military Functions. Activities normally associated with the support of the Uniformed Services.

Net Value. The net amount of debit and credit procurement actions recorded during the period.

WHS Contracting Office

Prime Contract Award. A legally binding agreement executed by a department of an agency of DoD to obtain supplies, services, or construction.

Procurement Action. An action involving the obligation or deobligation of funds which officially awards or changes a prime contract. This may include the award of a new prime contract, a debit or credit change to an existing prime contract, or an order written against an indefinite delivery-type contract or basic ordering agreement.

Small Businesses. A small business is defined by the Small Business Administration in the Federal Register (Title 13, Chapter 1, Part 121). The definition also appears in the

Federal Acquisition Regulation (19.101). Generally, a small business is one that is independently owned and operated, is not dominant in its field of operations, and with its affiliates does not employ more than a specified number of employees (usually not more than 500, 750, or 1,000, depending on the type of product called for by the contract). For construction and some service industries, the criterion is a specified annual dollar volume of sales or receipts, rather than the number of employees.

Subcontract Commitment. A legal agreement between contractors establishing the value of goods and services required to fulfill a contract. The goods or services are provided by one contractor (called the subcontractor) to the contractor with the major or prime contract.

Subcontract Payment. A cash payment made by one contractor to another for supplies, services, or construction required by a prime contract.

United States. The 50 states, the District of Columbia, and the outlying areas of the United States.

Work Inside the United States. An award to a U.S. or foreign business, an educational or nonprofit institution, or a Government agency with a place of performance inside the United States (see above).

Work Outside the United States. An award to a U.S. or foreign business, an educational or nonprofit institution, or a Government agency with a place of performance outside of the United States (see above).
