PREFACE

The *Air University Library Index to Military Periodicals* is a subject index to significant articles, news items, and editorials appearing in 79 English language military and aeronautical periodicals. It originated with 23 titles as a quarterly publication in 1949 and has continued on a quarterly basis superseded by annual cumulations (triennial cumulative issues were published from 1952 through 1967). From 1949 to 1962 the *Index* was issued as *Air University Periodical Index*. Staff members of the Air University Library index all of the periodicals with the exception of seven titles which are indexed by other Air Force, Army, Marine Corps, and Navy libraries. The *Air University Library Index to Military Periodicals* serves primarily the educational and research programs of Air University; it is available to other libraries upon request.

This publication has been reviewed and approved by competent personnel of the preparing command in accordance with current directives on doctrine, policy, essentiality, propriety, and quality.

ROBERT B. LANE
Director
Air University Library

PERIODICALS INDEXED

Air Defense Artillery (bim) \$14.00. Air Defense/Artillery Assoc, P.O. Box 6101, Ft Bliss, TX 79906.

Air Force Comptroller - AFRP 170-2 (q) No price given. The Air Force Comptroller, SAF/FM (Editor), Washington, DC 20330-1000.

The following abbreviations are used to denote frequency of issue:

a	annual
bim	every two months
biw	every two weeks and/or twice a month
m	monthly
q	quarterly
sa	twice a year
w	weekly

* Titles added since the 1991 Cumulative issue

** Titles changed since the 1991 Cumulative issue

ARRANGEMENT

The subject entries are constructed on the direct entry principle. Most sponsor agency entries under U.S. have been eliminated and entry is directly under subject agency, e.g., AIR COMBAT COMMAND, not U.S. AIR FORCE. AIR COMBAT COMMAND. Specific military services of various countries are entered under their name, followed by the name of their country, e.g., AIR FORCE - Great Britain; ARMY - United States.

Material on United States military aircraft by name has been entered under the headings HELICOPTER TYPE and MISSILE TYPE. United States space vehicles by name have been entered under the heading SPACE PROJECT. Material on United States and foreign military aircraft by name has been entered under the heading AIRPLANE TYPE.

AERONAUTICS here embraces the technical and technological aspects of aviation and aircraft; AVIATION the art of flying, both military and civilian; and AIRLINES the commercial transportation companies; FLYING popular, nontechnical articles on pleasures of flying.

Government departments are listed alphabetically by department title, e.g., DEFENSE DEPT - United States, not DEPARTMENT OF DEFENSE.

Name entries are included for all authors of articles and books reviewed as well as for information about generals, admirals, Department of Defense officials, and others who are prominent in some field of *Index* interest.

In subject headings, abbreviations and acronyms are listed at the beginning of their alphabetical section. However, the artificial words LASERS and LORAN are accepted as normal words and are so listed alphabetically. Also, in subdivisions of subject headings and titles of articles, acronyms file in a normal alphabetical order.

Reviews of books are grouped under BOOK REVIEWS. Military poetry is listed under POEMS.
