19. ABSTRACT (Continue on reverse if necessary and identify by block number) This report presents detailed cost data for each of fourteen categories of Outpatient Non-availability Statement (ONAS) CPT-4 procedures, grouped by inpatient and ambulatory professional services, performed within assigned and unassigned Army billable medical treatment facility catchment areas during the Second Quarter Fiscal Year (FY) 1993. First Quarter FY 1993 summary data are also presented in comparisons between the two quarters. Appendix A (pp. A-1-70) summarizes by category of ONAS procedures and catchment area, the Second Quarter costs for amounts billed by the provider for ONAS services (ABS), amounts allowed for the services by the fiscal intermediary (AAS), payments made by the patient and other sources (TPP), total government payments for the services (TGP), percentages of TGP to ABS and to AAS, and of TPP to TGP. Appendix B (pp. B-1-70) correspondingly shows the number of services and patient episodes, and averages of ABS, AAS, and TGP by service and by episode. Each of these appendices contains a summary combining data for all areas (pp. A-69-70, B-69-70). Appendix C compares the unassigned area and each catchment area's inpatient, ambulatory, and total ONAS professional services totals over the two quarters (pp. C-1-38), and provides a summary over all areas (C-39).

Executive Summary

This report presents detailed cost data for each of fourteen categories of Outpatient Nonavailability Statement (ONAS) CPT-4 procedures, grouped by inpatient and ambulatory professional services, performed within assigned and unassigned Army billable medical treatment facility catchment areas during the Second Quarter Fiscal Year (FY) 1993. First Quarter FY 1993 summary data are also presented in comparisons between the two quarters. Costs and workload factors include amounts billed by the provider for ONAS services (ABS), amounts allowed for the services by the fiscal intermediary (AAS), payments made by the patient and other sources (TPP), total government payments for the services (TGP), number of services, corresponding number of patient episodes, percentages of TGP to ABS and to AAS, of TPP to TGP, and averages of ABS, AAS, and TGP by service and by episode. For the Second Quarter of FY 1993, Appendix A (pp. A-1-70) summarizes by category of ONAS procedures and type of professional service provided, ABS, AAS, TPP and TGP, and the percentages of TGP to ABS and to AAS, and of TPP to TGP. Appendix B (pp. B-1-70) presents in the same sort order, the number of services and episodes, and the averages of ABS, AAS and TGP per service and per episode. Appendices A and B contain corresponding tables for every Health Services Command catchment area including tables for the unassigned area (pp. A-1-68, B-1-68), and summaries which combine data for all areas (pp. A-69-70, B-69-70). Appendix C compares the unassigned and assigned catchment areas' totals for inpatient, ambulatory, and total ONAS professional services for the two quarters (pp. C-1-38), computes the differences between the quarters' dollar totals, number of services and episodes, and displays the percentage changes from the previous quarter. A table of summary totals over all areas is provided at the end of Appendix C (p. C-39).

Outpatient Nonavailability Statement professional workload is presented by both services and episodes. Episodes were computed by sorting claims by patient identification number, treatment ending date, and procedure. All claims for a unique patient/date/procedure level were counted as being one episode. Using the patient per episode logic effectively controls for service billings where, when applicable, the technical and professional components are billed separately.

Total government payments for the claims, amounts billed and allowed for the ONAS services (ABS, AAS), number of services, number of episodes, and additionally the total amount allowed for the claims were then grouped and summed by billable medical treatment facility catchment area, by type of professional service (inpatient/ambulatory), and by ONAS category of procedures. Government payment for each category of ONAS procedures was estimated by aggregating within each group the sum

of the total amount allowed for the service, the total amount allowed for the claims, and the total government payments for the claims. Each group's amount allowed for services was then divided by its amount allowed for claims and this ratio was multiplied by the group's sum of government payments for the claims, thus obtaining the total government payment for the group of ONAS services. Transactions having no government cost, no patient cost, and no total amount allowed were deleted prior to summation, as well as those where the fiscal intermediary denied the claim.

Each ONAS procedure record in the Second Quarter FY 1993 data was extracted from the TCSDP main database based upon a processing date in that quarter. Amounts in these tables may reflect an unstable condition due to part of a claim payment being processed outside the time interval (i.e., FY 1992, the First Quarter FY 1993, or the Third Quarter FY 1993). Whenever possible, obvious unstable conditions were marked with an asterisk (*). Sometimes under these unstable conditions, some equations were not computed. In such cases, a decimal point (.) was used to fill space for answers not computed. Decimal point notation was also used to fill space when a variable had no data for a grouping. In addition, on several occasions the number of episodes for a procedure is greater than the number of services. This occurred when one of the services was an adjustment and no workload credit was given.

As of January 1993, responsibility for Forts Dix and Eustis were assumed by branches of service other than the US Army. As a result, those catchment areas are no longer included in this report. Similarly, the Health Services Command accepted accountability for the USAF Academy Hospital area; Second Quarter FY 1993 data for that area are encompassed in these tables. As shown in Appendices A and B, TGP for all ONAS professional services procedures in a catchment area for the Second Quarter FY 1993, ranged from a low of \$4,838 to a high of \$180,610, with the corresponding ABS from \$15,176 to \$464,440, AAS from \$8,249 to \$255,638, TPP from \$7,427 to \$140,736, number of services from 23 to 926 and number of episodes from 21 to 643 (pp. A-44, A-64, B-44, B-64). Total government payments for all ONAS procedures in all catchment areas for the quarter were \$5.02 million, while ABS, AAS and TPP for the identical services/episodes were \$10.98, \$7.07 and \$3.10 million respectively (pp. A-69-70). The number of services for ONAS procedures in total across all assigned and unassigned catchment areas was 20,097 with 16,366 patient episodes (pp. B-69-70). In the Second Quarter, 24.7% of TGP for all ONAS procedures, 22.7% of the corresponding number of services, and 24.3% of the episodes were for professional claims submitted while the patient was either an inpatient at a hospital, or when a hospital submitted institutional billings for an ambulatory episode in conjunction with the ONAS professional billings (pp. A-69-70, B-69-70). These services are labeled

Inpatient Professional Services in Appendices A-C. System-wide, the professional services ABS per episode ranged from \$340.42 to \$2,124.76 for ambulatory professional services depending on the category of ONAS procedure (pp. B-69-70).

Total government payments rendered for ONAS professional services over all catchment areas for the Second Quarter ranged from only 36.3% to 67.9% of what was actually billed by the provider (pp. A-69-70). Again, the government paid from only 56.6% to 100.0% of the amount allowed by the fiscal intermediary for the same services, when examining all catchment areas as a whole. Some tables in Appendix A may compute TGP as being 100% of AAS and/or ABS. This condition is usually confined to when the patient is treated on an inpatient basis and there is no co-pay. The differences between what the government actually paid and what was either allowed or billed were a result of disallowed charges, patient co-pays and deductibles, and coordination of benefits (other health insurance payments) which designated CHAMPUS as second payer. These "adjustments" to billed and allowed charges, as demonstrated above, are substantial. Depending on the category of ONAS professional services, the total amount paid by patients and other sources (TPP) over all catchment areas ranged from 0.0% to 107.6% of the total amount paid by the government (pp. A-69-70). Correspondingly, for the two ONAS categories comprising the endpoints of the range noted immediately above, TPP varied from 0.0% to 39.0% of the amount billed by providers (ABS) and from 0.0% to 61.7% of the amount allowed by the fiscal intermediary (AAS) (pp. A-69-70).

Appendix C compares First Quarter to Second Quarter FY 1993 summary totals by catchment area and type of professional service (pp. C-1-38) including an analysis for the unassigned area. A summary table combining the unassigned and all assigned catchment areas (p. C-39) is also presented. This recapitulation table shows that inpatient professional services decreased between the two quarters in number of services (-9.31%), number of episodes (-11.71%), and in all money amounts. ABS for inpatient professional services decreased -9.65%, AAS -9.01%, TPP -19.49%, and TGP -9.42%. Ambulatory professional services over all areas between quarters decreased in number of services (-4.39%) and episodes (-7.32%), ABS lowered -6.52%, AAS -8.79%, TPP -7.71%, and TGP -9.93%. Between the First and Second Quarters, combined inpatient and ambulatory ONAS professional services for all areas showed a decrease in TGP by -\$545,163 (-9.80%), ABS by -\$856,504 (-7.24%), AAS by -\$685,163 (-8.84%), TPP by -\$337,803 (-9.84%), number of services by -1,181 (-5.55%), and number of episodes by -1,506 (-8.43%) (p. C-39).

Detailed First Quarter FY 1993 statistics may be found in the Health Services Command Publication Outpatient Nonavailability Statement Procedures, Health Services Command Catchment

Areas, First Quarter, Fiscal Year 1993 With Comparisons
To Fourth Quarter, Fiscal Year 1992, RP 93-010, DTIC: Not Yet
Known, February 1993).
