1 March 1989

14TH INTERNATIONAL PYROTECHNICS SEMINAR, 18-22 SEPTEMBER 1989

Background. The International Pyrotechnics Society (IPS), has announced that the 14th International Pyrotechnics seminar will be held at the Hotel de France in Jersey, Channel Isles, UK. It is hosted by the Royal Armament Research and Development Establishment (RARDE) in conjunction with the British pyrotechnic industry and continues the annual series of IPS seminars held in the United States, France, and West Germany.

Objective. The objective of the IPS seminars is to provide a forum for the exchange of technology and information developments in the field of pyrotechnics. These include:

- Energy output manifested by liberation of heat, light, sound, gas, or smoke
- Associated factors concerning ignition, combustion, and time delay
- Deflagration and detonation mechanisms
- Research and development (both analytical and experimental), as well as production and manufacturing operations.
- Safety and environmental considerations.

The proceedings of this seminar will be published in a hard-bound edition and will be available at time of registration to all delegates.

The deadline for submission of abstracts of presentation papers was February 10th; however, short abstracts for poster session papers involving on-going research will be accepted up to 1 April 1989.

To be included in the Conference Proceedings all paper must be in accordance with the instructions issued on acceptance of the paper and be received at RARDE by the absolute deadline of June 9th 1989. Please note that all papers submitted must involve previously unpublished work, be unclassified, and be cleared for public release.

The official language for the seminar is English.

Poster Session. Authors are encouraged to consider this alternative means of presentation, which provides a greater forum for technical/promotional exchanges with delegates than a 20-minute oral presentation. Furthermore, all Poster Session manu-

scripts will be published in the Proceedings. Work presented during the poster session must be of the same high quality as that of the oral presentations. To facilitate planning, authors who desire to participate in the Poster Session should send their abstracts to RARDE.

Address all abstracts to or for further information contact Dr. F.W.S. Carver, RARDE, Fort Halstead, Sevenoak, Kent, TN14 7BP, UK; telephone: 0959-32222, telex 95267, facsimile: 0959-32900.

Exhibition. There will be an exhibition of products related to pyrotechnics at the seminar. Companies or individuals who are interested in exhibiting should contact Dr. N. Davies, Royal Ordnance, Glascoed, Usk, Gwent, NP5 1XL, UK; telephone: 02913-2211 Ext 2800.

Organizing Committee

Dr. F. Carver	RARDE Co-Chairman
Dr. A. Owen	RARDE Co-Chairman
Mr. A. Cardell	RARDE
Mr. J. Queay	RARDE
Mr. F. Blewett	CDE
Dr. R. Brown	Nobels Explosive Co
Dr. N. Davies	Royal Ordnance Plc
Dr. R. Kelly	Royal Ordnance Plc
Mr. G. Law	DQA/TS
Dr. D. Glyde	Wallop Industries
Dr. J. Goodfield	Pains Wessex Ltd
Dr. J. Robertson	Standard-Brocks
Mr. G. Simpson	Haley and Weller
Dr. B. Thomson	HSE
Mr. R. Topping	Astra Pyrotechnics

Steering Committee

Dr. A.J. Tulis	Chairman
Mr. R.M. Blunt	Chairman Emeritus
Dr. D.H. Anderson	Sandi Laboratories
Mr. D.H. Dillehay	Morton-Thiokol
Dr. B.E. Douda	NWSC Crane
Dr. F. Volk	ICT, FRG
Mr. A. Fauconier	SNPE
