 - (e) Secretary of Defense Memorandum, "Interpretation of the Health Affairs Charter (DoD Directive 5136.1)," August 7, 1985
 - (f) DoD 4270.1-M; "Construction Criteria," December 1983, authorized by DoD Directive 4270.1, July 11, 1983

A. REISSUANCE AND PURPOSE

This Directive reissues reference (a) to update DoD policies on developing proposals for new construction, major alteration, or acquisition of military health care facilities.

B. APPLICABILITY

This Directive applies to the Office of the Secretary of Defense (OSD) and the Military Departments.

C. DEFINITIONS

1. Military Health Facility. A military facility, or complex of facilities, capable of providing a level of health services or health service support commensurate with its mission and functions. These facilities are within the Military Construction Program Category Code 500 Series.

2. Military Readiness. The ability of forces, units, weapons systems, or equipment to perform as they were intended, and to deploy and employ without unacceptable delays.

D. POLICY

1. The Department of Defense shall provide quality health care for active duty military personnel, their dependents, and other authorized personnel; provide sufficient military health facilities to maintain the combat effectiveness of the military force; provide for essential teaching and training of the military medical force; and ensure support for expanded missions during periods of mobilization or national emergency.

This document has been approved for public release and sale; its distribution is unlimited.

93-27362

2. Military health facility planning, programing, design and construction shall be based primarily upon military readiness requirements.

3. The Department of Defense shall propose construction, alteration, or acquisition of a military health facility when physical deterioration, functional inadequacy, or new requirements are evident and one or more of the following criteria are met:

a. Current facilities can not provide the direct military health support required by the military readiness mission.

b. Local civilian or governmental health care capabilities are or are projected to be either inadequate or unavailable, as determined by a DoD analysis or on-site survey.

c. Construction replacement, major alteration, or acquisition of a military health facility is required to support teaching, training, and skills maintenance requirements necessary to ensure military readiness.

d. Providing authorized health services in a military health facility is most cost effective for the Government, using DoD- approved Military Health Service System sizing and economic analysis procedures.

4. The Assistant Secretary of Defense (Health Affairs) shall recommend construction of military health facilities in accordance with the provisions of 10 U.S.C. 1087 (reference (b)).

5. Contingency planning to permit increased medical facility capability shall be conducted in accordance with DoD Instruction 6015.17 (reference (c)).

E. RESPONSIBILITIES

1. The Assistant Secretary of Defense (Health Affairs)(ASD(HA)), to carry out the responsibilities of DoD Directive 5136.1 and Secretary of Defense Memorandum (references (d) and (e)), shall:

a. Administer the medical military construction program by serving as program manager for all military health facility construction.

b. Establish priorities for the construction, major alteration, or acquisition of military health facilities.

c. Plan, program, and budget for all military health facility construction projects requiring congressional notification or approval. This includes the compilation or development of all necessary supporting documentation.

d. In conjunction with the Assistant Secretary of Defense (Comptroller), allocate military health facility construction funds to the DoD construction/contracting agents.

Apr 15, 86
6015.16

e. Assign responsibility to the Military Departments for providing specialized health services such as burn treatment, radiation therapy, and open heart surgery.

f. Review and approve all concept proposals and certify all military health facility designs as 35 percent complete as defined in DoD 4270.1-M (reference (f)) before inclusion in the Defense Budget.

g. Establish or participate in the establishment of military health facilities planning and design guidance supporting the missions of the Military Health Services System, including:

(1) A DoD-approved Military Health Services System (MHSS) sizing methodology.

(2) Economic analysis procedures.

(3) Space planning criteria.

(4) Health facility engineering policies and criteria.

2. The Secretaries of the Military Departments shall:

a. Provide the information and support required to enable the Office of the Assistant Secretary of Defense (Health Affairs) OASD(HA) to execute its responsibilities for the planning, programing, budgeting, design and construction of military health facilities detailed in subsection E.1., above.

b. Submit an annual statement of the Military Departments' health facility requirements on February 1 to the OASD(HA) to assist in the implementation of the policies set forth in subsections D.1. through D.3., above. This submission shall reflect the requirements for the Budget Year and the next five program years.

c. Carry out assigned design and construction activities required to accomplish approved military health facility construction projects.

1. Execute design upon release of design instructions and funds from OASD(HA).

2. Execute construction upon release of construction directives and funds from OASD(HA).

F. EFFECTIVE DATE AND IMPLEMENTATION

This Directive is effective immediately. Forward two copies of implementing documents to the Assistant Secretary of Defense (Health Affairs) within 60 days.
