19. ABSTRACT (Continue on reverse if necessary and identify by block number)

This report presents detailed cost data for each of fourteen categories of Outpatient Nonavailability Statement (ONAS) CPT-4 procedures, grouped by inpatient and ambulatory professional services, performed within assigned and unassigned Army billable medical treatment facility catchment areas during the Fourth Quarter Fiscal Year (FY) 1993 and full year FY 1993. Ambulatory professional services have the OCHAMPUS-assigned procedures associated with each category's facility-related charges listed in separate groupings. Appendices A and C summarize by category of ONAS procedures and catchment area, the Fourth Quarter and annual FY costs respectively, for amounts billed by the provider for ONAS services (ABS), amounts allowed for the services by the fiscal intermediary (AAS), payments made by the patient and other sources (TPP), total government payments for the services (TGP), percentages of TGP to ABS and to AAS, and of TPP to TGP. All claims for unassigned catchment areas are combined into one group and analyzed like a catchment area. Appendices B and D correspondingly show the number of services and patient episodes, and averages of ABS, AAS, and TGP by service and by episode. Appendix E compares the unassigned and assigned catchment areas' inpatient, ambulatory, and total ONAS professional services totals over the Third and Fourth Quarters FY 1993. All appendices contain summaries combining data for all assigned and unassigned catchment areas.

E. Outpatient Nonavailability Statement (ONAS) Procedures, Third Quarter to Fourth Quarter FY 1993 Comparison . . E-1-39

Executive Summary

This report presents detailed cost data for each of fourteen categories of Outpatient Nonavailability Statement (ONAS) CPT-4 procedures, grouped by inpatient and ambulatory professional services, performed within assigned and unassigned Army billable medical treatment facility catchment areas during the Fourth Quarter Fiscal Year (FY) 1993 and full year FY 1993. Ambulatory professional services also have the OCHAMPUS-assigned procedures associated with each category's facility-related charges listed in separate groupings. Appendices A and C (pp. A-1-120, C-1-151) summarize by category of ONAS procedures and catchment area, the Fourth Quarter and annual FY costs respectively, for amounts billed by the provider for ONAS services (ABS), amounts allowed for the services by the fiscal intermediary (AAS), payments made by the patient and other sources (TPP), total government payments for the services (TGP), percentages of TGP to ABS and to AAS, and of TPP to TGP. All claims for unassigned catchment areas are combined into one group and analyzed like a catchment area. Appendices B and D (pp. B-1-120, D-1-151) correspondingly show the number of services and patient episodes, and averages of ABS, AAS, and TGP by service and by episode. Appendix E (pp. E-1-39) compares the unassigned and assigned catchment areas' inpatient, ambulatory, and total ONAS professional services totals over the Third and Fourth Quarters FY 1993. All appendices contain summaries combining data for all assigned and unassigned catchment areas.

Outpatient Nonavailability Statement professional workload is presented by both services and episodes. Episodes were computed by sorting claims by patient identification number, treatment ending date, and procedure. All claims for a unique patient/date/procedure level were counted as being one episode. Using the patient per episode logic effectively controls for service billings where, when applicable, the technical and professional components are billed separately.

Total government payments for the claims, amounts billed and allowed for the ONAS services (ABS, AAS), number of services, number of episodes, and additionally the total amount allowed for the claims were then grouped and summed by billable medical treatment facility catchment area, by type of professional service (inpatient, ambulatory non-facility services, or ambulatory facility-related charges), and by ONAS category of procedures. Government payment for each category of ONAS procedures was estimated by aggregating within each group the sum of the total amount allowed for the service, the total amount allowed for the entire claims, and the total government payments for the claims. Each group's amount allowed for services was then divided by its amount allowed for claims. This ratio was multiplied by the category's sum of government payments for the claims, thus obtaining the total government payment for the

category of ONAS services. Transactions having no government cost, no patient cost, and no total amount allowed were deleted prior to summation, as well as those where the fiscal intermediary denied the claim.

Each ONAS procedure record in a quarter's data in FY 1993 was extracted from the TCSDP main database based upon a processing date during that quarter. Full year FY 1993 data are the concatenation of First through Fourth Quarter data in the fiscal year. Amounts in these tables may reflect an unstable condition due to part of a claim payment being processed outside the time interval (i.e., for the Fourth Quarter FY 1993, the Third Quarter FY 1993 and First Quarter FY 1994 would not fall in the interval; for the full year FY 1993, the Fourth Quarter FY 1992 and First Quarter FY 1994 would be outside). Whenever possible, obvious unstable conditions were marked with an asterisk (*). Sometimes under these unstable conditions, some equations were not computed. In such cases, a decimal point (.) was used to fill space for answers not computed. Decimal point notation was also used to fill space when a variable had no data for a grouping. In addition, on several occasions the number of episodes for a procedure is greater than the number of services. This occurred when one of the services was an adjustment and no workload credit was given.

In June 1993, OCHAMPUS revised the CPT-4 procedure code groupings for categories #61 GYN Laparoscopy, #62 Cataract Removal, and #72 Strabismus Repair. These changes in CPT-4 procedure code ranges were detailed in Table 1 at the end of the Summary in the Third Quarter FY 1993 ONAS report (Health Services Command Publication Outpatient Nonavailability Statement Procedures, Health Services Command Catchment Areas, Third Quarter, Fiscal Year 1993 With Comparisons To Second Quarter, Fiscal Year 1993 , RP 93-018, DTIC: AD A269 047, August 1993). All changes were effective and implemented at the fiscal intermediary level as of June 14, 1993. The Third and Fourth Quarter FY 1993 data in this report incorporate all CPT-4 procedure code modifications made as of that effective date; changes to First and Second Quarter data were not necessary. Codes recently dropped from ONAS categories were included in this report if the patient's Care Begin Date on the claim was prior to June 14. This allows late transactions, whether from tardy submissions or claim clarifications, to be counted, as well as any adjustments to prior claims. If the Care Begin Date was on or after June 14, transactions with these deleted procedure codes were excluded from this report.

Another major OCHAMPUS change which occurred during the Third Quarter was to require CHAMPUS claims processors to report facility-related ambulatory surgery charges from a non-institutional claim when an ONAS is required. Previously, CHAMPUS claim processors had been requested to report these

facility charges, but the policy was not mandated until April 6, 1993. Table 1 in the Third Quarter report referenced above also lists the OCHAMPUS-assigned facility procedure codes for each of the fourteen ONAS categories. The outcome of the above action on this ONAS report is that Appendices A through D summarize and segregate, for the unassigned and assigned catchment areas, all reported facility-related charges for each ONAS ambulatory surgery category for the Fourth Quarter. Appendix E compares Third and Fourth Quarter FY 1993 inpatient and ambulatory professional services procedures costs, and contains no facility related charges (pp. E-1-39).

The above changes directed by OCHAMPUS during the Third Quarter FY 1993 resulted in the revealing of an erroneous situation that had occurred in previous reportings of the #72 Strabismus Repair category for ambulatory professional services. Prior to June 1993, OCHAMPUS defined this ONAS category as being comprised of CPT-4 procedures 67311-67343. However, the OCHAMPUS-assigned procedure code for the facility-related charges for the Strabismus Repair category (#67338) fell within this legitimate range of ONAS CPT-4 professional services procedure codes for the category. As a result, any charges for this facility code were inadvertently incorporated with the Strabismus Repair ambulatory professional services procedures on earlier ONAS quarterly reports. However, according to OCHAMPUS, few CHAMPUS claims processors were reporting facility charges during prior time periods, necessitating OCHAMPUS to issue the compulsory procedure statement in April 1993. First and Second Quarter data were reprocessed to segregate this one facility charge from the ambulatory professional services procedures Strabismus Repair category and to label it as a facility charge. However, Fourth Quarter FY 1993 Appendices A and B have all reported facility-related charges categorized under their separate area, and Third Quarter data in the previous ONAS report was classified this way as well. Consequently, full year FY 1993 data in Appendices C and D contain the Third and Fourth Quarters' data with facility charges correctly pulled and labeled. The First and Second Quarters' data however only contain the one facility charge 67338 for the Stratismus Repair category which, was moved from the ambulatory professional services procedures grouping into the ambulatory facility charges grouping.

Thirty-three medical treatment facility catchment areas and the unassigned area were credited with some ONAS ambulatory facility-related charges during the Fourth Quarter of FY 1993, and in total, all fourteen ONAS categories showed activity of this kind. Four catchment areas had no reported facility charges, down from six the previous quarter. Total government payments for all Fourth Quarter ambulatory facility-related charges were $0.94 million, with ABS, AAS, and TPP at $1.14, $1.03, $0.09 million respectively for a total of 3,495 services and 674 episodes (pp. A-119-120, B-119-120). The highest in government payments for any one ONAS category during the quarter

was $163,419 in the #64 Myringotomy/Tympanostomy category with $186,071 in billings, $170,407 allowed, $6,989 paid by the patient and other sources, 598 services, and 161 patient episodes. The category with the lowest government cost for this type of charge was the #69 Hernia Repair category at $16,280, $19,265 billed, $17,925 allowed, $1,645 paid by patient sources, 113 services and 12 episodes (pp. A-119-120, B-119-120). Average amounts billed per episode for an ONAS facility-related ambulatory category ranged from $449 to $3,704 during the quarter, while the corresponding average amounts allowed per episode for these two categories were $291 to $3,089, and similarly averge government payments per episode were $243 to $2,658 (pp. B-119-120). Note that the remaining statistics presented in this Summary are applicable only to ONAS inpatient and ambulatory professional services procedure categories, exclusive of facility-related charges.

Professional claims submitted while the patient was either an inpatient at a hospital, or when a hospital submitted institutional billings for an ambulatory episode in conjunction with ONAS professional billings are services labeled Inpatient Professional Services in Appendices A-E. From Appendix E, TGP for all inpatient and ambulatory professional services procedures in a catchment area for the Fourth Quarter FY 1993 ranged from a low of $9,299 to a high of $157,435, with the corresponding ABS from $24,496 to $440,213, AAS from $13,399 to $252,373, TPP from $4,786 to $106,937, number of services from 24 to 787, and number of episodes from 18 to 693 (pp. E-6, E-28). Total government payments for all ONAS procedures, whether inpatient or ambulatory, in all catchment areas for the quarter were $4.62 million, while ABS, AAS and TPP for the identical services/episodes were $11.37, $6.72 and $3.45 million respectively (pp. E-39). The number of services for ONAS procedures in total across all assigned and unassigned catchment areas was 21,524 with 16,267 patient episodes (pp. E-39). In the Fourth Quarter, 23.2% of TGP for all ONAS professional service procedures, 19.8% of the corresponding number of services, and 21.6% of the episodes were for inpatient professional services (pp. E-39). System-wide, the professional services ABS per episode ranged from $361.64 to $1,740.69 for ambulatory professional services depending on the category of ONAS procedure (pp. B-118-119).

Total government payments rendered for ONAS inpatient and ambulatory professional services over all catchment areas for the Fourth Quarter ranged from only 34.8% to 86.0% of what was actually billed by the provider (pp. A-117-120). Again, the government paid from only 56.8% to 100.0% of the amount allowed by the fiscal intermediary, when examining all catchment areas as a whole. Some tables in Appendices A or C may compute TGP as being 100% of AAS and/or ABS. This condition usually occurs when the patient is treated on an inpatient basis and there is no co-pay. The differences between what the government actually

paid and what was either allowed or billed were a result of disallowed charges, patient co-pays and deductibles, and coordination of benefits (other health insurance payments) which designated CHAMPUS as second payer. These "adjustments" to billed and allowed charges, as demonstrated above, are substantial. Depending on the category of ONAS inpatient and ambulatory professional services, the total amount paid by patients and other sources (TPP) over all catchment areas ranged from 11.4% to 130.6% of the total amount paid by the government (pp. A-117-120). Correspondingly, for the two ONAS categories comprising the endpoints of the range noted above, TPP varied from 9.8% to 45.9% of the amount billed by providers (ABS) and from 11.4% to 85.9% of the amount allowed by the fiscal intermediary (AAS) (pp. A-117-120).

Appendix E compares Third Quarter to Fourth Quarter FY 1993 summary totals by catchment area and type of professional service including an analysis for the unassigned area (pp. E-1-38). A summary table combining the unassigned and all assigned catchment areas is also presented (p. E-39). This recapitulation table points out that inpatient professional services decreased between the two quarters in all measures. The reduction in number of services was -17.55%, number of episodes -20.01%, TGP -18.97%, ABS -19.47%, AAS -17.70%, and TPP -10.97%. Ambulatory professional services over all areas also exhibited across the board reductions between quarters. Ambulatory professional services decreased in number -11.66%, episodes in number -10.58%, TGP lowered -11.40%, ABS -7.75%, AAS -10.75%, and TPP -4.73%. Between the Third and Fourth Quarters, combined inpatient and ambulatory ONAS professional services for all areas decreased in TGP by $-707,390 (-13.28%), ABS by $-1,344,047 (-10.57%), AAS by $-943,201 (-12.30%), TPP by $-218,617 (-5.95%), number of services by -3,186 (-12.89%), and episodes by -2,387 (-12.80%) (p. E-39).

Appendices C and D, summaries for the complete year FY 1993, show that TGP for ONAS inpatient and ambulatory professional services procedures in a catchment area ranged from a low of $34,017 to a high of $689,299, with the corresponding ABS from $89,975 to $1,068,920, AAS from $51,464 to $771,870, TPP from $29,598 to $107,067, number of services from 141 to 2,829, and number of episodes from 127 to 2,348 (pp. C-93, C-126, D-93, D-126). Total government payments for all ONAS procedures in all catchment areas for the fiscal year was $20.47 million, while ABS, AAS and TPP for the identical services/episodes were $46.83, $29.15 and $13.66 million respectively (pp. C-151). The number of services in total across all catchment areas for ONAS inpatient and ambulatory professional services procedures was 87,372, with 69,144 patient episodes (pp. D-151). Inpatient Professional Services accounted for 24.4% of TGP for all ONAS procedures, 21.8% of the corresponding number of services, and 23.7% of the episodes (pp. C-147-151, D-147-151). System-wide, the professional services ABS per episode ranged from $347.91 to

$1,694.66 for ambulatory professional services depending on the category of ONAS procedure (pp. D-148-149). Total government payments rendered for ONAS professional services over all catchment areas for the fiscal year ranged from only 56.6% to 99.4% of what was actually allowed by the fiscal intermediary for the same services (pp. C-148-151). The government paid from only 35.3% to 59.0% of the amount billed by the provider, when examining all catchment areas as a whole (pp. C-147-149).
