C E R T I F I C A T E

The undersigned Mr. Richard R. Rosenberger and Mr. J. Robert Doyle of Harland Bartholomew & Associates, Inc., St. Louis, Mo, as Architect/Engineer Contractor for the US Army Corps of Engineers, Omaha District, hereby certify that a PROPERTY INVENTORY AND CONDITION SURVEY was performed for the Group II Chemical Plant Property and the Group IV Utility Systems Property within the Shell Oil Company Leasehold area at the US Army Rocky Mountain Arsenal between 23 August 1982 and 15 September 1982 and that the following report and accompanying volumes correctly describe the existence and condition of the facilities therein as of 15th day of September 1982.

Signed this 21st day of September 1982

HARLAND BARTHOLOMEW & ASSOCIATES, INC.

A handwritten signature in dark ink, reading "Richard R. Rosenberger", written over a horizontal line.

Richard R. Rosenberger, P.E.
Associate and Project Manager

A handwritten signature in dark ink, reading "J. Robert Doyle", written over a horizontal line.

J. Robert Doyle, P.E.
Resident Engineer

FOREWORD

This PROPERTY INVENTORY AND CONDITION SURVEY has been prepared by Harland Bartholomew & Associates, Inc. under the direction of the US Army Corps of Engineers, Omaha District, and in accordance with the provisions contained in Contract No. DACA 45-82-C-0035, Modification No. P00001. Portions of this contract outlining the specific responsibilities of the Contractor in regard to the inventory and condition surveys of the Group II and Group IV properties are as follows:

4. WORK TO BE ACCOMPLISHED BY THE CONTRACTOR.

a. The Contracting Officer will provide the contractor the original, or a copy of the lease agreement, and all subsequent supplement agreements and exhibits. The contractor will be required to thoroughly familiarize himself with all provisions of the lease agreements. Particular attention shall be paid to Supplement Agreement No. 5 with Exhibits G and H-1 through H-14 and Supplement Agreement No. 22.

b. The contractor shall utilize the existing condition surveys and inventory information of the Group II, and the Group IV properties to conduct a new condition survey and inventory of the Group II and Group IV properties, identified below. The new survey shall be performed in the same format as the old survey, all property items not shown on the existing survey shall be properly identified on the new survey. All property shown on the existing survey and not found on the new survey shall be noted. The contractor will not be responsible to determine ownership, but to merely identify each and every item and condition that has to be resolved in negotiations between the U.S. Government and Shell Oil Corp. All discrepancies shall be clearly pointed out. Photographs are required which will allow government negotiators to compare current conditions with prior conditions. All property previously photographed shall be rephotographed to the best extent possible. the contractor's

FOREWORD

(Continued)

inspection teams shall invite a representative of the U.S. Government and a representative of Shell Oil Corp. to accompany the survey team. The Group IV conditional survey and inventory shall be completed first. The Group II conditional survey and inventory shall be completed after the Group IV inventory has been submitted. The Contracting Officer will provide the original, or a copy of what is available, of subsequent conditional surveys and inventory of leased property, of Group II and Group IV properties that was performed at the time the facility was leased to Shell Oil Corp. There are six buildings included in the Group II leasehold and approximately 28 structures, adjacent land areas, and three lakes in the Group IV lease. These are tentatively identified as follows:

GROUP II BUILDINGS

<u>BUILDING/ FACILITY NO.</u>	<u>DESIGNATION</u>	<u>SIZE</u>
311	Post cafeteria general warehouse	4,597 S.F.
333	General purpose warehouse	11,037 S.F.
335	General purpose warehouse (Including 47 items of "Hastelloy" equipment)	11,037 S.F.
336	General purpose warehouse	11,037 S.F.
356	General purpose warehouse	11,637 S.F.
728	General purpose warehouse	22,775 S.F.

GROUP IV UTILITIES

<u>BUILDING/ FACILITY NO.</u>	<u>DESIGNATION</u>	<u>SIZE</u>
321	Central heat plant gas	56,479 S.F.

552	Valve Pit	
-	South Plants Lakes	

FOREWORD

(Continued)

In addition to the buildings or structures noted above, all utility systems within the Shell Leasehold shall be included in the Group IV inventory and condition survey. These involve electrical, steam, potable and process water, and other utilities. Also, there are extensive amounts of equipment leased to Shell which must have a condition survey and inventory.

g. (1) The contractor shall review the past maintenance records of Rocky Mountain Arsenal's Water Distribution System, presently being operated by Shell Oil Corp. All maintenance records will be acquired from Shell Oil Corp. From these past maintenance records, the contractor shall develop a report which projects the yearly estimated maintenance and repair expenditures of the water distribution system. This report shall give a five-year projection of all maintenance and repair cost.

(2) The contractor shall attend a pre-start meeting at Rocky Mountain Arsenal. The contractor shall present a proposed inventory schedule to the U.S. Government and Shell Oil Corp. representatives. Other reporting information shall be included in the meetings as outlined in the basic contract.

6. SUBMITTALS.

a. The Group IV utilities condition and inventory survey shall be completed within 35 days after receipt of the NTP. Fifteen copies of the report shall be provided to the Contracting Officer.

b. The Group II buildings condition and inventory survey shall be completed within 55 days after receipt of the NTP. Fifteen copies of the report shall be provided to the Contracting Officer.

FOREWORD

(Continued)

Personnel from Harland Bartholomew & Associates, Inc. participating in the field evaluations, research, and report preparation aspects of the property inventory and condition surveys are identified in Section 1.00: GENERAL, of each Building/Facility report. Personnel from Shell Oil Company and the US Army Rocky Mountain Arsenal offering technical assistance to the evaluation teams are also acknowledged in this section. The Contractor is extremely grateful of the degree of cooperation and valuable assistance offered them by representatives of Shell Oil Company and the Arsenal to insure the accuracy and timely completion of this report.

For assistance in the field evaluation, research and report preparation for Building No. 321, Building No. 325 and other selected facilities in the Shell Oil Company leasehold area the Contractor has engaged the firm of Gilbert/Commonwealth, Commonwealth Associates, Inc. under a subcontract agreement. Personnel from Commonwealth Associates, Inc. participating in this portion of the Group II and Group IV property surveys are identified in Section 1.00: GENERAL, of the respective Building/Facility reports.

The overall field investigations and condition surveys for the Group IV: Utility Systems Properties were initiated on 23 August 1982 and completed on 15 September 1982. The actual date (or dates) that the physical survey was accomplished is entered in Section 1.00: GENERAL, of the individual Building/Facility reports. Field surveys of the Group II: Chemical Plant Properties commenced on 13 September 1982 and were completed on 15 September 1982. The existence and condition of the buildings, facilities and equipment outlined in this report and accompanying reports of the Group II and Group IV properties are considered to reflect the information obtained by the field evaluation teams as of the date indicated on the individual survey reports. Additions or removals of property after 15 September 1982 are not contained herein.

CRITERIA

Pursuant to the requirements contained in Article 4, Paragraph b (work to be accomplished by contractor), this PROPERTY INVENTORY AND CONDITION SURVEY and accompanying volumes has been prepared in a format similar to previous condition surveys performed for the Group II and Group IV properties. Some license was taken by the Contractor to standardize the individual condition report format to include the following decimal notation:

- 1.00 GENERAL
- 2.00 DESCRIPTION OF BUILDING/FACILITY
- 3.00 PRESENT CONDITION
 - .10 Exterior
 - .20 Interior (by rooms)
- 4.00 RECORD OF INSTALLED EQUIPMENT
- 5.00 PHOTOGRAPHS

Photographs of the various buildings, facilities and equipment were taken on the dates noted under each photograph in Section 5.00. To the extent practicable, views were selected to match previous photographs taken during the 01 February 1950 condition surveys. New photographs were taken of additional equipment installed after the previous surveys.

During the progress of the field surveys, each item listed in previous surveys as well as newly installed items were inspected by the field evaluation teams and conditions noted at the time of the survey. The terms used in denoting the present condition of architectural, structural, mechanical, electrical and finish features of the buildings and facilities are as follows:

VERY GOOD CONDITION (VG)

A reasonably high order of perfection when compared to similar types of installations or structures of the same age.

CRITERIA

(Continued)

GOOD CONDITION (G)

Better than average condition when compared to similar types of installations or structures of the same age.

FAIR CONDITION (F)

Average or typical of the condition of similar types of installations or structures of the same age.

POOR CONDITION (P)

Below average condition when compared to similar types of installations or structures of the same age.

REPAIRS NEEDED (RN)

Condition of installation or structure is such that repairs or service is needed.

The code used to describe the condition of equipment entered under Section 4.00 RECORD OF INSTALLED EQUIPMENT is as follows:

<u>Term</u>	<u>Meaning</u>
N	New
E	Used, Reconditioned
O	Used, Usable w/o Repairs
R	Used, Unserviceable

<u>Term</u>	<u>Meaning (with percent of usable life remaining)</u>
1	Excellent (90-100)
2	Good (75-90)
3	Fair (50-75)
4	Poor (below 50)

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

2.00 DESCRIPTION OF BUILDING/FACILITY. Building No. 321 is a three story 80' x 220' x 69' high structure with a concrete foundation and concrete column and beam construction. The spaces between the columns at the exterior walls are filled with structural clay tile. At the west end of the structure is an integral one story 30' x 82' wing of the same construction as the main building. The structure has four different roof levels; the west roof is 19 feet above the first floor. The north one third of the main building is 52' above the 1st floor, the center one third is 69' above the 1st floor and the south one third is 60' above the 1st floor. The building has three sliding vehicle doors and seven man doors. There are several metal frame extra high double hung windows throughout the structure, many of which have replaced the original wood double hung windows. The third floor is only one half as large as the 1st and 2nd floor and provides access to the top of the boilers and supports the induced draft fans. The first floor is generally open space except for 3 offices, 2 toilet rooms and a locker/change room in the middle of the building along the south wall. At the east end of the 1st floor, a 25' x 37' x 20' high insulated sound enclosure has been constructed around three air compressors. There is also a 5' x 7' x 7' high portable soundproof control office on the second floor. The building originally had four wood coal bunker structures outside the north side of the building, but have since been destroyed by fire.

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

- .10 MECHANICAL: This boiler house is heated by a few unit heaters and heat losses from the steam equipment. The office is heated with an 800 cfm air handler which has a steam unit. An 8" potable water service (which is softened) for boiler house process, a 2" potable water service for toilets, showers and drinking and a 4" lake water service softened by two additional softeners identical to the potable water softeners for the process water cooling tower make-up serve the facility. Four 100,000+ pound/hour boilers capable of burning pulverized coal, number 6 fuel oil and natural gas to produce 175 psig saturated steam for heating and process for RMA north and south plants. Many controls have been removed from boilers No. 1 and 2 to service boilers No. 3 and 4. Boilers No. 3 and 4 are still operable. Also the coal handling system is in need of very extensive repair and replacement before placing back into service. This facility also houses 3 rotary air compressors, each with capacity of 1220 cfm at 100 psig for distribution to south plants; 2 stand-by reciprocating air compressors, each with capacity of 880 cfm at 100 psig process air stand-by with filters and desiccant air driers and 3 vane type rotary air compressors for emergency breathable air for south plants.
- .20 ELECTRICAL: Electric service is provided at 2300 and 480 volts from a substation located outdoors on the southeast corner of the building. The 2300 and 480 volt service is fed underground to the main switchgear and distributed to motor and incandescent lighting loads through-

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

out the building. The electrical service is in good operating condition throughout the building with the exception of the abandoned coal handling electrical equipment.

3.00 PRESENT CONDITION. Building 321 is generally in good condition except for the roofs which are in such poor condition that major leaks have developed. The estimated useful life of this building (except the roof) from August 1982 with minimal maintenance and no building use change is 20 years.

.10 EXTERIOR: Building 321.

Foundation: Concrete columns & beams (G).

Walls: Structural clay tile (G) each wall has several damaged tiles.

Paint finish: Door sash trim (P).

Doors: 3 - Built up wood sliding (F).

6 - Hollow metal solid hinged (G).

1 - Wire glass (F).

1 - Wood panel solid hinged (F).

Hardware: Hinges, locks, rails (G).

Windows: Wood sash pivot (F)

Metal sash, double hung (G).

Two west lights broken (P).

Glazing: Common clear (F).

Roofing: Built-up, tarred felt (P).

Flashing: Tarred felt (P).

Cornice/Trim: Concrete (G).

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

Miscellaneous: Eight RLM light fixtures (F).

One north roof floodlight (F).

Two gooseneck RLM light fixtures over doors (G).

General condition of the building exterior is good.

.20 Interior: Tank Room - First Floor.

Floor: Concrete (G).

Wall: Structural clay tile (G).

Ceiling: Concrete (G).

Paint finish: Doors, sash, trim (P).

Doors: 1 - Built up wood sliding glazed (F).

1 - Hollow metal solid hinged (G).

Hardware: Hinges, locks, rails, rollers (G).

Window: Metal sash double hung (G).

Glazing: Common clear (G).

Electrical: As shown on plans (7 mercury vapor) (G).

Plumbing: None.

Heating: Wall hung pipe radiators (F).

Miscellaneous: 1 - U.S. Electric Tool Co. Grinder pedestal type

Serial No. 220240, 3 H.P. (G).

1 - Laminated wood/metal covered work bench (F).

1 - Columbia bench vise (F).

1 - Pipe vise (G).

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

1 - Blue Point bench grinder 1/3 H.P. LR 15582

Shell Number 10500 (F).

2 - Shop made wood cabinet (5' x 2' x 7') w/4 doors.

1 - Metal tool cabinet (3' x 7') w/wood doors (G).

General condition of the tank room is good.

.21 Interior: Main Boiler and Compressor Room - First Floor.

Floor: Concrete (G).

Wall: Structural tile (G).

Ceiling: Concrete (G).

Paint finish: Sash, doors, trim (P).

Doors: 1 - Hollow metal wire glazed (G).

2 - Hollow metal solid hinged (G).

2 - Built up wood sliding (F).

Hardware: Hinges, locks (G).

Window: Metal sash double hung (G).

Glazing: Common clear (F).

Electrical: As shown on plans.

Plumbing: One floor mounted drinking fountain (G).

One shower/eye wash (F).

Heating: Steam unit heaters (F).

Miscellaneous: 1 - 50 lb. CO₂ fire extinguisher and cart

Serial. No. 402271 (G).

5 - 20 lb. fire extinguisher (G).

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

- 1 - Shop made metal cabinet (grease/oil storage
5' x 8' x 2') (G).
- 1 - Metal foreman's desk (G).
- 1 - Shop made wood electrician cabinet (4 x 4 x 2) (G).
- 1 - Shop made wood bench 34" x 96" (F).
- 5 - Workmen's tool boxes (G).

General Condition of the main boiler and compressor room is good.

.22 Interior: Office Room No. 1 - First Floor.

Floor: Concrete w/vinyl asbestos tile (G).

Wall: Structural clay tile and wood panel with wired window opening (F).

Ceiling: Wood frame w/fiberboard (F).

Paint finish: Walls, ceiling, doors, sash, trim (P).

Doors: Wood panel solid hinged (F)

Wood panel glazed hinged (G).

Hardware: Hinges, locks (F).

Windows: Metal sash double hung (G).

Glazing: Common clear (G).

Electrical: 1 - 2 tube flourescent ceiling units (F).

3 - Toggle switches (F).

2 - Duplex receptacles (F).

Plumbing: None

Heating: Forced hot air.

Misc: 1 - Square 'D' light panel (G).

2 - Bulldog switches Cat. No. 224321S/226422 (G).

1 - Weyco light panel (F).

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

- 1 - Map cabinet (F).
- 1 - Disc record bin (F).
- 1 - Wood table 18" x 5' (F).

General condition of office room is good.

.23 Interior: Office Room No. 2 - First Floor.

Floor: Concrete w/vinyl asbestos tile (G).

Wall: Structural clay tile (G) and wood panel (F).

Ceiling: Wood frame w/fiberboard (F).

Paint Finish: Walls, ceiling, doors, sash, trim (P).

Doors: See Office No. 3.

Hardware: Hinges, locks (F).

Window: Metal sash double hung (G).

Glazing: Common clear (F)

2 - Thermostats (G)

4 - 2 tube flourescent ceiling units (G)

Electrical: 3 - Toggle switches (G).

3 - Duplex receptacles (G).

1 - Westinghouse Safety Switch, Cat.No. CF352 (F).

2 - Federal Elect. Co. Reset Switch, Type TG-2 RMA No.
3276 (F).

Plumbing: None

Heating: Forced hot air

Misc: 2 - Metal office desks and chairs & desk lamp (G).

3 - Metal file cabinets (G).

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

- 2 - Metal bookcases (G).
- 2 - Straight metal chairs (G).
- 1 - Swivel secretary chair (F).
- 2 - Wood tables (F).
- 1 - Electrical clock (F).

General condition of office room is good.

.24 Interior: Office Room No. 3. - First Floor.

Floor: Concrete (G) w/vinyl asbestos tile (G).

Wall: Wood frame w/fiberboard (F).

Ceiling: Wood frame w/fiberboard (F).

Paint Finish: Walls, ceiling, doors, trim (F).

Doors: 1 - Wood glazed hinged (G)

1 - Wood panel solid hinged (G).

Hardware: Hinges, locks (G).

Window: None.

Glazing: See doors.

Electrical: 3 - 2 tube fluorescent ceiling units (F).

2 - Incandescent pendant type ceiling units (F).

Plumbing: None.

Heating: American blower unit heater RMA 6107.

Misc: 1 - Metal office desk (G)

1 - Metal bookcase (G)

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

3 - 2-tube flourescent ceiling units.

4 - Metal file cabinets (G)

1 - Wood cabinet (F)

1 - Drafting desk (F)

1 - Blueprint cabinet (F)

General condition of the office room is good.

.25 Interior: Office Wash Room - First Floor.

Floor: Concrete w/vinyl asbestos tile (G).

Wall: Structural clay tile (G) and fiberboard (F).

Ceiling: Fiberboard (F).

Paint Finish: Walls, ceiling, door, trim (G).

Doors: Wood panel solid hinged (F).

Hardware: Hinges, locks (F).

Window: None

Glazing: None

Electrical: 1 - Duplex receptacle (G).

1 - Toggle switch (G).

1 - Incandescent ceiling unit (F).

Plumbing: 1 - Water closet, flush valve (G).

1 - Lavatory (G).

Heating: Forced hot air.

Miscellaneous: 4 - Shop made wood clothes lockers (F).

1 - Mirror, towel dispenser, soap dispenser (F).

General condition of wash room is good.

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

.26 Interior: Men's Locker Room - First Floor

Floor: Concrete w/vinyl asbestos tile (G).

Wall: Structural clay tile (G).

Ceiling: Wood frame w/fiberboard (F).

Paint finish: Walls, ceiling, doors, sash, trim (F).

Doors: 1 - Wood panel solid hinged (G)

1 - Hollow metal solid hinged (G).

1 - Wood panel glazed hinged w/interior wood screen door (G).

Hardware: Hinges, locks (G).

Window: Metal sash double hung (G).

Glazing: Common clear (G).

Electrical: 4 - R.L.M. fixtures (F).

3 - Toggle switches (F).

3 - Duplex receptacles (F).

Plumbing: None

Heating: Forced hot air.

Miscellaneous: 47 - Metal full height clothes lockers (G).

1 - Shop made wood table (F).

2 - Shop made wood benches.

1 - International electric time recording clock

RMA 4240 (stored) (P).

4 - Sections Simplex metal time card holder (G).

2 - 6' Picnic table (G).

General condition of locker room is good.

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

.27 Interior: Men's Toilet Room - First Floor

Floor: Concrete w/vinyl asbestos tile (G).

Wall: Structural clay tile painted (G).

Ceiling: Wood frame w/fiberboard (F).

Paint finish: Walls, ceiling, doors, sash, trim (F).

Doors: Wood panel glazed hinged (F).

Hardware: Hinges, locks (G).

Window: Metal sash double hung (G).

Glazing: Common clear (F).

Electrical: 2 - Incandescent pendant type ceiling units (F).

1 - 2-tube fluorescent ceiling unit.(F).

1 - Toggle switch (F).

1 - Duplex receptacle (G).

Plumbing: 2 - Water closets (G).

2 - Wall urinals (1 - inoperative).

2 - Lavatories (G).

2 - Showers (G).

1 - Service sink (F).

Heating: Forced hot air.

Miscellaneous: 1 - 3' x 2'-6" wall mirror (F).

1 - Shop made wood bench (F).

1 - Plastic trash can (F).

1 - 100 gal. hot water heater (F).

BUILDING NO. 321

CENTRAL HEAT PLANT GAS

2 - Metal lockers (F).

1 - Shop made wood linen storage (F).

General condition of toilet room is good.

.30 Interior: Boiler Room - Second and Third Floor.

Floor: Concrete (G).

Wall: Structural clay tile (G).

Ceiling: Concrete (G).

Paint finish: None

Doors: 1 - Hollow metal hinged (F).

1 - Wood panel solid hinged (F).

Hardware: Hinges, locks (F).

Window: Metal sash horizontal pivot (G).

Metal sash double hung (G).

Glazing: Common clear (F).

Electrical: As shown on plans.

Plumbing: 1 - Wall hung vitreous china drinking fountain (P).

1 - Floor mounted drinking fountain (F).

1 - Shower/eyewash (F).

1 - Shower (third floor) (F).

Heating: None

Miscellaneous: Concrete stairs and wood catwalks (G).

One wood tower w/ fire siren RMA 2587 (roof) (P).

10 - Fire extinguishers (G).

General condition of second and third floor boiler room area is good.
