TITLE AND DESCRIPTION	Estimated Availability Date
<u>Miscellaneous Publications</u>	
L02 Selected Medical Care Statistics (Quarterly)	1st of March, June, September, December
Selected data concerning medical care provided at fixed military medical facilities are displayed. This report shows quarterly medical facilities' utilization statistics for operating beds, beds occupied on a daily average, operating bassinets, admissions, outpatient visits, and live births by six major categories of eligible personnel, according to Defense Component. (Approximately 25 pages)	
L03 Atlas/Data Abstract for the United States and Selected Areas (Annual)	April 1
This publication contains summary data related to DoD personnel strengths, payrolls, and prime contract award values for each state, selected U.S. territories, and foreign countries. Strength figures for active duty military, civilian, and Reserve and National Guard are shown by Military Department and in total for the Other Defense Activities. Military and civilian dependent populations are also shown in the foreign countries. Payroll outlays are presented for active duty military pay, civilian pay, Reserve and National Guard pay, and retired military pay. Prime contract award data is summarized by Component and type of contract.	
In addition, information is provided for each state as follows: (1) top ten locations with the largest payroll and contract expenditures and most DoD personnel; (2) total prime contract awards by Military Service for the past three fiscal years; and (3) the top five contractors in each state, their total awards, major products or services, and major locations of performance. Maps showing military installations and cities with significant concentrations of DoD activity are also included for each state and selected area. (Approximately 165 pages)	
<u>DoD Work Force Publications</u>

January**

This publication consists of 28 statistical tables which contain data pertaining to military personnel on active duty. In addition to summary data, detailed data on personnel are included for the Military Services and Defense Components by type (officer/enlisted), grade, and location. Selected tables also provide data on active duty women in the military. (Approximately 50 pages)

M04 Civilian Manpower Statistics (Quarterly)
**15th of
March,
June,
September,
December**

This publication is comprised of seven tables containing official quarterly summary data on DoD civilian employment levels. Data are broken down by major Defense Component, employment category, and location. Selected data on trends in civilian employment, as well as accession and separation rates, are provided. (Approximately 15 pages)

M05 Worldwide Manpower Distribution by Geographical Area (Quarterly)
**15th of
April,
July,
October,
January**

Summary data on the worldwide distribution of DoD active duty military and civilian personnel and their dependents are shown in this report. Aggregate figures are shown for the 48 contiguous states, Alaska, Hawaii, the U.S. territories, and selected locations. Separate data are provided for each foreign country where personnel are located. Data on active duty military personnel are shown by location, according to Military Service. Civilian data are provided for each Defense Component, by regional area and country, with discrete data for U.S. citizen direct hires, foreign national direct hires, and foreign national indirect hires. Types and numbers of dependents of both active duty military and civilian personnel are displayed by location, according to Defense Component. (Approximately 95 pages)

P03 Prime Contract Awards (Semiannual)

 15th of
July,
March

This report presents, in both tables and charts, a variety of current and historical data on the net value of DoD prime contract awards. Data are presented in six major sections: awards by type of contractor; awards publicized to small business; awards by procurement program (a standard DoD grouping of supplies and services); awards for Research, Development, Test, and Evaluation (RDT&E); awards by method of procurement; and awards by type of contract pricing provision. The sixth section has data on awards made under the DoD Small Business Subcontracting Program. Data are provided in a variety of ways, including by Defense Component, fiscal year, and type of award. Percent distributions are included in several tables. Analytical summaries are provided for each section. (Approximately 65 pages)

P04 Educational and Other Nonprofit Institutions Receiving Prime Awards of Contracts, Grants, and Agreements for RDT&E (Annual)

June 15

This report presents data on DoD prime awards of contracts over \$25,000 and all grants and agreements for Research, Development, Test, and Evaluation (RDT&E) made to educational and nonprofit institutions during the fiscal year. The data are presented in three tables which list awards made to educational and nonprofit institutions for the two categories (Technology Base and Development) of RDT&E and awards made to U.S. Federal, state, and local governments. Each table lists contractors alphabetically and gives the net value of awards to each recipient, including awards made for each location where the work was to be performed. Bar graphs illustrate the relationship between awards made to educational and nonprofit institutions as compared to the previous fiscal year. (Approximately 40 pages)

P06 Prime Contract Awards by Region and State (Annual)

June 1

This report contains data on the net value and percent distribution of DoD prime contract awards for the latest three fiscal years, by census region and principal state of performance. In addition to summary data, information is provided on awards within the 25 major procurement programs, by state. Individual tables show the net value and percent distribution of awards for work in Research, Development, Test, and Evaluation (RDT&E), by region and state, according to type of contractor (educational institution, other nonprofit institutions, or business firm) for the latest three fiscal years. (Approximately 90 pages)

Date****Prime Contract Data Publications (Continued)****P07 Prime Contract Awards by Service Category and Federal Supply Classification (Annual)** June 1

This report contains data on the net value of DoD prime contracts for work in Research, Development, Test, and Evaluation (RDT&E); other services and construction; and supplies and equipment awarded during the latest four fiscal years. Data on both military and civil functions are included. Data on RDT&E awards are presented by DoD procurement program and RDT&E category; other services and construction data are by service code; and supplies and equipment are by Federal Supply Classification (FSC) code. The report contains about eight pages of explanatory notes and comparative analyses. A detailed table showing totals for the latest fiscal year by FSC/service code and DoD Component was added in FY 1990. (Approximately 80 pages)

P08 Prime Contract Awards, Size Distribution (Annual) May 1

Data on DoD prime contract awards over \$25,000 awarded during the fiscal year are arrayed by 11 size (dollar range) categories. This report contains seven tables: awards by size and awarding Department; cumulative data by size and awarding Department; cumulative data by size and type of contract; cumulative data by size and extent competed; cumulative data by size and kind of procurement action; cumulative data by size and by selected procurement programs; and cumulative data by size and by labor standard statutes. Data shown in each table include the number of actions, net value of awards, and the percent distribution within each size group. Five pages of explanation and analyses are provided. (Approximately 20 pages)

P09 Prime Contract Awards by State (Annual) April 1

This report provides a variety of information on DoD military and civil functions procurements. The data are presented by principal state of performance and include the net value and percent distribution of the awards. The net value of awards for the four latest fiscal years for DoD Components are provided in two tables; one includes civil functions while the other excludes civil functions. Data are also included on the net value of military procurement actions for the current reporting year, by Military Department, and data on the total net value of civil functions procurement actions for the latest four fiscal years. A table showing totals by county, within each state, for the latest fiscal year by DoD Component was added in FY 1993. (Approximately 40 pages)
