NARRATIVE

1. The Office of the Deputy Secretary of Defense issued Defense Management Headquarters guidance dated 30 August 1995. United States Special Operations Command (USSOCOM) incorporated these controls to include a 2% reduction for FY 1997, FY 1998 and FY 1999. United States Army Special Operations Command (USASOC), experienced hiring delays in FY 1996, because of civilian personnel office regionalization. This impact was carried forward to FY 1997 with a reduction of three workyears at their headquarters level. In addition, USSOCOM provided an Army Officer billet to meet the Joint Vision 2010 requirement.

NARRATIVE Cont'd

2. Civilian (FTE) workyears are used to reflect DMHA control totals. Since the fill actions were delayed in FY 1996 the execution level of 1598 is misleading. Actual on-board civilian end strength totaled 552 vice workyears of 531. Therefore, FY 1996 Actuals is more appropriately viewed as (552 CIV + 1067 MIL) 1,719. FY 1997 through FY 1999 will bear the reductions as programmed.

3. Defense Management Headquarters' Authorization ceiling incorporates United States Special Operations Command (USSOCOM) as a Unified Headquarters, Joint Special Operations Forces Institute (JSOFI) and the component headquarters of United States Army Special Operations Command (USASOC), Air Force Special Operations Command (AFSOC), and Naval Special Warfare Command (NAVSPECWARCOM). The subactivity entitled Management Operational Headquarters, which is reflected within this budget, encompasses additional command units as operational headquarters support. These units include the Theater Special Operations Commands (SOCS) and Command Support Elements (CSE).

Summary of Increases/Decreases

1. FY 1996 Program to FY 1996 Actuals (E/S 2749 - 2630) (FTE 2696 - 2599)

By the close of FY 1996, 119 positions remained unfilled with underexecution of workyears totaling 97. Primary factor for underexecution was the transition during the civilian personnel office regionalization. Recruitment actions were seriously delayed. The requirement for FY 1997 is to stabilize the force and attain authorized staffing level.

	Budget	Actual	Estimate
	<u>FY 1996</u>	<u>FY 1996</u>	<u>FY 1997</u>
End Strength	2749	-119 2630	109 2739
Workyears (FTE)	2696	-97 2599	77 2676

The following narrative supports the additional full-time equivalent workyears that will be executed in FY 1997 to support program objectives within validated staffing levels.

2. FY 1996 Actuals to FY 1997 Current Estimate (E/S 2630 - 2739) (FTE 2599 - 2676)

- a. The Army Reserve force supporting United States Army Special Operations Command (USASOC) was programmed for 176 end strength with 174 workyears. FY 1996 actuals were short by eight. Full realization of Civil Affairs manning will require the full programmed level of workyears.
 (Baseline FTE 166 - 174)

- b. United States Army Special Operations Command (USASOC) suffered hiring delays during the regionalization of the civilian personnel function. Underexecution in FY 1996 reflected 52 positions and 38 FTE.

Summary of Increases/Decreases

2. FY 1996 Actuals to FY 1997 Current Estimate (E/S 2630 - 2739) (FTE 2592 - 2676) Cont'd

- b. Since full recovery cannot be achieved during FY 1997, a reduction of 19 workyears (-3 Headquarters/-16 Training and Education) was applied to FY 1997. The get-well posture has been delayed until FY 1998. The training and education subactivity which includes the John F. Kennedy Center and Schoolhouse, language proficiency training, military freefall, and Special Operations Medical Training Center will defer hiring until fourth quarter of FY 1997 and remain within current FTE constraints. During FY 1997, execution should attain a net increase of 15 workyears based on employment plan goals: Flight Operations +3, Classified +5, Intelligence and Communications +1, Management Headquarters +6, Other Operations and Operational Support +13, offset by lower execution in Training and Education -13.
(Baseline 861 - 876) 15
- c. Joint Special Operations Command (JSOC) experienced seven vacancies at the close of FY 1996. Fill actions are in process and full level of programmed workyears will be required to support manning in FY 1997.
(Baseline 129 - 133) 4
- d. Naval Special Warfare Command was not programmed for growth between FY 1996 and FY 1997. Actual execution, however, reflected three vacancies at the close of FY 1996 with total underexecution of 11 FTE. Full staffing complement has been met as we enter FY 1997, requiring total programmed workyear level to support +3 for Headquarters and +8 for Naval Special Warfare Groups I and II.

2. FY 1996 Actuals to FY 1997 Current Estimate (E/S 2630 - 2739) (FTE 2599 - 2676) Cont'd

e. Air Force Special Operations Command (AFSOC) closely aligned programmed goals for FY 1996. Underexecution was limited to headquarters (-3ES/-3FTE) and operational units (-7ES/-4FTE). Full realization of manning in FY 1997 will require programmed workyear level. The Depot Maintenance function has been required to defer recruitment of 17 positions until the close of FY 1997 to remain within workyear constraints.

(Baseline 447 - 454)

7

f. Air Reserves are programmed for 275 FTE in FY 1997. FY 1996 reflects overstrength of 1 workyear.

(Baseline 276 - 275)

-1

g. United States Special Operations Command (USSOCOM) and Special Operations Acquisition Center (SOAC) at MacDill, Air Force Base reflected an underexecution of 24 FTE. This was the result of delays in filling recruitment actions. By the close of FY 1996, only four vacancies remained at USSOCOM and six at SOAC. Full level of programmed workyears is required to support approved manning for FY 1997.

(Baseline 266 - 290)

24

h. The Theater Special Operations Commands (SOCs) ended FY 1996 with four vacancies to include -2 for SOCSOUTH, -1 SOCACOM and -1 for SOCCENT. Workyears will be required in FY 1997 to support full manning. In addition, USSOCOM validated a priority for SOC Korea manning with five end strength and projection of five workyears. This requirement includes Personnel Administrator, Site Security, Logistics Plans Superintendent, Planning Officer and Budget Analyst.

- (1) Air Force Special Operations Command (AFSOC) supports a maintenance instructor cadre for the CV-22. One civilian workyear provides lead time for development of training in advance of the CV-22 arrival. 1
- (2) The 19th Special Operations Squadron was provided five FTE to support the Central Training Flight (CTF). CTF activation in FY 1998 is required to train AFSOC AC-130U gunship crews. 5
- (3) The 919th Special Operations Wing reflects an increase of 9 FTE to support a full-time crew to conduct MCL30-E (Talon I) training. This increase for the Air Reserves consists of military technicians. 9

c. MANAGEMENT/OPERATIONAL HEADQUARTERS

(1)

USASOC

In FY 1996 a restructure of this command and its major subordinate commands (MSCs) was exercised to redistribute resources. Primary focus was to minimize the need for MSC commanders to deal with issues other than the priorities of training and readiness. Provisional reorganization reduced overhead and eliminated one MSC. Administrative, personnel and logistics support was redirected to the MACOM as a functional proponent's office, with all other functions carried under management headquarters ceiling. USASOC Defense Management Headquarters Authorization (DMHA) was approved at 258 civilians/214 military for FY 1996 - FY 1997. A scrub of provisional TDAs (table of distribution allowances) has been accomplished using the 50% threshold criterion to reduce positions involved in direct management and oversight. Realistic linkage of workload, as it supports operational units day-to-day functions, vice management responsibilities of policy, evaluation, resource distribution, mid to long-range planning, programming and budgeting was applied. A total redistribution of 17 workyears to the Field Operation Element (FOE) was identified for FY 1998. In addition, the three workyears previously reduced during FY 1997 will be necessary to support full-realization of headquarters' staffing. Net impact is a 14 workyear reduction (-17/+3).

c. (2) NAVSECFWARCOM

Since assignment as Major Claimancy and component headquarters in FY 1990, the volume and complexity of workload has evolved for NAVSECFWARCOM. Attaining adequate staff has been incremental with initial growth approved in the FY 1997 President's Budget (37 to 43 FTE). The final phase reflects an increase of 15 FTE. Positions include: Training/Readiness Assistant (SORTS), Management Analyst (Deputy Ops), Facilities Environmental Engineer, Computer Specialist (VT), three program analysts, manpower analyst and seven administrative support. Position descriptions and impact statements have been prepared and are available to support this priority.

(Baseline 43 - 58)

d. DEPOT MAINTENANCE

Air Force Special Operations Command support an increase of two workyears for the Air Logistics Center at Warner Robins to accommodate fill action on existing vacancy and to provide depot maintenance at WR-ALC for the CV-22.

(Baseline 229 - 231)

e. OTHER OPERATIONS

An increase of three FTE are provided to the 24th and 720th Tactical Squadron and Group which represents one new hire and sufficient workyears to support existing positions.

f. OPERATIONAL SUPPORT

Non-DMHA functions and spaces are programmed within the United States Army Special Operations Command Field Operational Element (FOE). These transferred workyears (+17) are associated with functions that do not fall under the criteria of DoD Directive 5100.73. These functions support Major Subordinate Commands and are consolidated to provide optimum utilization of workyear resources. Centralization of these functions in the FOE eliminates duplication and layering within units. These were realigned from Management Headquarters at United States Army Special Operations Command.

(Baseline 70 - 87)

17

g. SPECIALIZED SKILL TRAINING

This is the necessary restoration of 16 workyears to support the manning requirements for the John F. Kennedy Center and School at United States Army Special Operations Command. The reduction was applied in FY 1997 as the result of initial underexecution in FY 1996. It is projected that all personnel will be filled by the close of FY 1997. The problems created during FY 1996 with the regionalization of the Civilian Personnel function have settled and improved response time is anticipated to continue.

Summary of Increases/Decreases

4. FY 1998 Budget Estimate to FY 1999 Budget Estimate (E/S 2766 - 2768) (FTE 2727 - 2729)

a. MANAGEMENT/OPERATIONAL HEADQUARTERS

Functional transfer of eleven workyears to the Field Operational Element (FOE) of United States Army Special Operations Command reduces the Defense Management Headquarters Authorization level.

(Baseline 239 - 228)

-11

b. OPERATIONAL SUPPORT

United States Army Special Operations Command (USASOC) evaluated the functions within the Military Personnel Division. Pursuant to the Management Headquarters streamlining initiative, 11 civilian workyears to include personnel specialists and a secretary billet were functionally transferred to the Field Operational Element (FOE) as direct support to the MSC units. Since the FY 1996 reorganization, business processes, systems, workload distribution has been significantly adjusted. This action was delayed until FY 1999 to minimize turbulence in the work environment.

(Baseline 87 to 98)
