COMMUNITY ENVIRONMENTAL RESPONSE FACILITATION ACT LETTER REPORT

APPENDIX A

COMMUNITY ENVIRONMENTAL RESPONSE FACILITATION ACT LETTER REPORT

EXECUTIVE SUMMARY

This letter report presents the results of the Community Environmental Response Facilitation Act (CERFA) investigation conducted by the Army Environmental Center at Fitzsimons Army Medical Center, a U.S. government property selected for closure in 1995 by the Base Realignment and Closure (BRAC) Commission under Public Laws 100-526 and 101-510. Under CERFA (Public Laws 102-426), Federal agencies are required to expeditiously identify real property that can be immediately reused and redeveloped. Satisfying this objective requires the identification of real property where no hazardous substances, regulated by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), and no petroleum products or their derivatives were stored for 1 year or more, known to have been released, or disposed.

Information in this letter report was obtained during the preparation of the Environmental Baseline Survey (EBS) for Fitzsimons Army Medical Center and was current as of January 8, 1995. This information was used to divide the installation into seven categories of parcels. These categories, as defined by the Department of Defense BRAC Cleanup Plan (BCP) Guidebook, Fall 1993, are as follows:

1. Areas where no storage, release or disposal of hazardous substances or petroleum products has occurred (including no migration of these substances from adjacent areas) [white]

2. Areas where only storage of hazardous substances or petroleum products has occurred (but no release, disposal, or migration from adjacent areas has occurred) [blue]

3. Areas where storage, release, disposal, and/or migration of hazardous substances or petroleum products has occurred, but at concentrations that do not require a removal or remedial action [light green]

4. Areas where storage, release, disposal, and/or migration of hazardous substances or petroleum products has occurred, and all remedial actions necessary to protect human health and the environment have been taken [dark green]

5. Areas where storage, release, disposal, and/or migration of hazardous substances or petroleum products has occurred, removal and/or remedial actions

are under way, but all required remedial actions have not yet been taken [yellow]

6. Areas where storage, release, disposal, and/or migration of hazardous substances or petroleum products has occurred, but required response actions have not yet been implemented [red]

7. Areas that are unevaluated or require additional evaluation [gray]

Areas of the facility which contained Non-CERCLA related environmental or safety issues, including asbestos, lead-based paint, PCB, radon, UXO, and radionuclides, have also been identified in separate parcels.

This letter report contains a map that summarizes the categorization of Fitzsimons Army Medical Center on the basis of the above definitions. This report should be read only in conjunction with the complete EBS report for this installation. The EBS report provides the relevant environmental history to substantiate the parcel categorization. This report does not address other property transfer requirements that may be applicable under the National Environmental Policy Act, nor does it address natural resource considerations such as the threat to plant or animal life.

Worksheet A: Review of Storage of Hazardous and Non-Hazardous Substances and Petroleum Products

Storage Site or Area	Substances Stored	Largest Quantity Stored	Length of Time of Storage	Is Notification of Storage Required Under CERCLA120(h)?	Category of Environmental Condition of Property *	Has a Release Occurred? (If Yes, See Worksheet B)
600	Buffer solution: pH 4 solution	150	>1 year	Yes	2	No
600	Buffer solution: pH 7 buffer solution	1700 ml	>1 year	Yes	2	No
600	Buffer solution: pH 7 solution	100	>1 year	Yes	2	No
600	Buffer, Genomic DNA isolation system		>1 year	Yes	2	No
600	Calcium carbonate	1 lb	>1 year	Yes	2	No
600	Calcium chloride, anhydrous	25 gr	>1 year	Yes	2	No
600	Calcium chloride, dihydrate	500 gr	>1 year	Yes	2	No
600	Cesium chloride, Ultra pure	2 kg	>1 year	Yes	2	No
600	Charcoal, activated N.F.	454 gr	>1 year	Yes	2	No
600	Chloramine T	25 gr	>1 year	Yes	2	No
600	Chloramphenicol	25 gr	>1 year	Yes	2	No
600	Chloranilic acid	10 gr	>1 year	Yes	2	No
600	Chloroform	500 ml	>1 year	Yes	2	No
600	Chloroform/Isoamyl alcohol	15 ml	>1 year	Yes	2	No
600	Ciprofloxacin, hydrochloride	100 mg	>1 year	Yes	2	No
600	Citric acid	100 gr	>1 year	Yes	2	No
600	Compressed air (H-tank)	3	>1 year	Yes	2	No
600	Coomassie brilliant blue R-250	20	>1 year	Yes	2	No
600	crystalline	50	>1 year	Yes	2	No
600	Cupric sulfate, pentahydrate	700 gr	>1 year	Yes	2	No
600	Cyanoethyl phosphoramidite: Bz dA	11,500 mg	>1 year	Yes	2	No
600	Cyanoethyl phosphoramidite: BZ dC	11,500 mg	>1 year	Yes	2	No
600	Cyanoethyl phosphoramidite: i Bud G	11,500 mg	>1 year	Yes	2	No
600	Cyanoethyl phosphoramidite: T	11,500 mg	>1 year	Yes	2	No
600	Cytosine	1 gr	>1 year	Yes	2	No
600	Denaturing solution for RNA		>1 year	Yes	2	No
600	Denhardts solution	5 ml	>1 year	Yes	2	No
600	Deoxycholic acid	10 gr	>1 year	Yes	2	No

* Note: Facilities may have been recategorized, as presented in Worksheet B.

Worksheet A: Review of Storage of Hazardous and Non-Hazardous Substances and Petroleum Products

Storage Site or Area	Substances Stored	Largest Quantity Stored	Length of Time of Storage	Is Notification of Storage Required Under CERCLA120(h)?	Category of Environmental Condition of Property *	Has a Release Occurred? (If Yes, See Worksheet B)
600	Deoxycytidine: 2'-Deoxycytidine HCl	100 mg	>1 year	Yes	2	No
600	Developer and replenisher	400	>1 year	Yes	2	No
600	Developer: Kodac HC-110	473 ml	>1 year	Yes	2	No
600	Dextran	10gr	>1 year	Yes	2	No
600	Diethyl pyrocarbonate	50 ml	>1 year	Yes	2	No
600	Diethyl pyrocarbonate	50 ml	>1 year	Yes	2	No
600	Diethyl pyrocarbonate	50 ml	>1 year	Yes	2	No
600	Dimethlyl sulfoxide	1 l	>1 year	Yes	2	No
600	Dimethylformamide	500 ml	>1 year	Yes	2	No
600	Dinitrophenol: 2,4-dinitrophenol	100 gr	>1 year	Yes	2	No
600	Dithiothreitol, Electrophoressis grade	5 gr	>1 year	Yes	2	No
600	Drierite	908	>1 year	Yes	2	No
600	EDTA	250 gr	>1 year	Yes	2	No
600	EDTA, tetrasodium salt	1500 gr	>1 year	Yes	2	No
600	Electrode filling solution	100 ml	>1 year	Yes	2	No
600	Electrode filling solution	100 ml	>1 year	Yes	2	No
600	Electrophoresis grade	1000	>1 year	Yes	2	No
600	ethanesulfonic acid)	100 gr	>1 year	Yes	2	No
600	Ether, anhydrous	500 ml	>1 year	Yes	2	No
600	Ether, anhydrous	500 ml	>1 year	Yes	2	No
600	Ethidium bromide	1 gr	>1 year	Yes	2	No
600	Ethylenediamine tetraacetic acid	100 gr	>1 year	Yes	2	No
600	Ethylenediaminetetraacetic		>1 year	Yes	2	No
600	Ethyleneglycol-bis-(B-amino-ethyl-ether)		>1 year	Yes	2	No
600	Extran 1000	1 gal	>1 year	Yes	2	No
600	Ficoll, molecular biology reagent	50 gr	>1 year	Yes	2	No
600	Fixer and replenisher	400	>1 year	Yes	2	No
600	Flurbiprofen	1 gr	>1 year	Yes	2	No

* Note: Facilities may have been recategorized, as presented in Worksheet B.

Worksheet A: Review of Storage of Hazardous and Non-Hazardous Substances and Petroleum Products

Storage Site or Area	Substances Stored	Largest Quantity Stored	Length of Time of Storage	Is Notification of Storage Required Under CERCLA120(h)?	Category of Environmental Condition of Property *	Has a Release Occurred? (If Yes, See Worksheet B)
600	Folin & Ciocalteu's phenol reagent	500 ml	>1 year	Yes	2	No
600	Formadehyde	3 pts	>1 year	Yes	2	No
600	Formamide	50 mg	>1 year	Yes	2	No
600	Fructose: B-D(-) fructose fura 1 AM	500 gr	>1 year	Yes	2	No
600	Galactose: D(+) galactose	10 gr	>1 year	Yes	2	No
600	Gelatin	454 gr	>1 year	Yes	2	No
600	Gelatin	2 lbs	>1 year	Yes	2	No
600	Glucose: 2-deoxy-D-glucose	50 gr	>1 year	Yes	2	No
600	Glucose: alpha-D-(+) Glucose	1 kg	>1 year	Yes	2	No
600	Glucose: B-D(+) glucose	100 gr	>1 year	Yes	2	No
600	Glutamic acid	100 gr	>1 year	Yes	2	No
600	Glutamine: L-glutamine	10 gr	>1 year	Yes	2	No
600	Glyceraldehyde: DL-Glyceraldehyde	5 gr	>1 year	Yes	2	No
600	Glycerin	200 gr	>1 year	Yes	2	No
600	Glycerol	475 ml	>1 year	Yes	2	No
600	Glycerol, Ultra pure	500 ml	>1 year	Yes	2	No
600	Glycylglycine	25 gr	>1 year	Yes	2	No
600	Guanadine thiocyanate	100 gr	>1 year	Yes	2	No
600	Guandidine thiocyanide	100 gr	>1 year	Yes	2	No
600	Guanidine, HCl	1000 gr	>1 year	Yes	2	No
600	HCl	100 ml	>1 year	Yes	2	No
600	Heikol-1 glassware washing	25 lb	>1 year	Yes	2	No
600	Helium (H-tank)	2	>1 year	Yes	2	No
600	Helium (H-tanks)	2 ea	>1 year	Yes	2	No
600	Hepes	145	>1 year	Yes	2	No
600	Heptnesulfonic acid: 1-Heptanesulfonic acid	5 gr	>1 year	Yes	2	No
600	Hexadecyltrimethylammonium Cl	50 gr	>1 year	Yes	2	No
600	HPLC hazardous waste	4 gal	>1 year	Yes	2	No

* Note: Facilities may have been recategorized, as presented in Worksheet B.

628	Neutracit-2	--	>1 year	Yes	2	No
628	Neutralizer ST 391Q	--	>1 year	Yes	2	No
628	No. 7 antirust & water pump lubricant 2412N	--	>1 year	Yes	2	No
628	Nonsilicone defoamer	--	>1 year	Yes	2	No
628	Opti-clean	--	>1 year	Yes	2	No
628	Opti-speed EP plastic lens polish ST6090G & ST 6090-5	15 gal	>1 year	Yes	2	No
628	Opti-speed lens coat	4 gal	>1 year	Yes	2	No
628	Opti-Speed lens coat	4 gal	>1 year	Yes	2	No
628	Opti-speed powder	5 gal	>1 year	Yes	2	No
628	Ozium air freshener	--	>1 year	Yes	2	No
628	Paint	2 gal	>1 year	Yes	2	No
628	PAM	--	>1 year	Yes	2	No
628	Permatix super weatherstrip adhesive No. 80S	--	>1 year	Yes	2	No
628	Phantom dyes	--	>1 year	Yes	2	No
628	Pine oil	--	>1 year	Yes	2	No
628	Plastic surfacing pads	--	>1 year	Yes	2	No
628	Predye ST-180	--	>1 year	Yes	2	No
628	Protective glove hand cream	--	>1 year	Yes	2	No
628	Prowhite for marking/spotting	--	>1 year	Yes	2	No
628	Rainbow tints-Perma dye	--	>1 year	Yes	2	No
628	Ray-O-Vac batteries	--	>1 year	Yes	2	No
628	Red-away liquid dye	--	>1 year	Yes	2	No
628	remover, floor polish	--	>1 year	Yes	2	No
628	Rinse Away	--	>1 year	Yes	2	No
628	Rinse-Dry	20 gal	>1 year	Yes	2	No
628	Rocket 216	72 X 24 oz	>1 year	Yes	2	No
628	Rocket Cherokee oil	1 gal	>1 year	Yes	2	No

* Note: Facilities may have been recategorized, as presented in Worksheet B.

Worksheet A: Review of Storage of Hazardous and Non-Hazardous Substances and Petroleum Products

Storage Site or Area	Substances Stored	Largest Quantity Stored	Length of Time of Storage	Is Notification of Storage Required Under CERCLA120(h)?	Category of Environmental Condition of Property *	Has a Release Occurred? (If Yes, See Worksheet B)
628	Rocket Kool lube 80110-70	2 gal	>1 year	Yes	2	No
628	Rubber and gasket adhesive Scotch Grip 847	18 oz	>1 year	Yes	2	No
628	S-750 adhesive	2 gal	>1 year	Yes	2	No
628	S-750 adhesive	2 gal	>1 year	Yes	2	No
628	Scouring powder w/chlorine bleach A-A-269 type I	--	>1 year	Yes	2	No
628	Semi-gloss latex/enamel paint	22 gal	>1 year	Yes	2	No
628	Silicone lubricant	18 oz	>1 year	Yes	2	No
628	Simple green	170 gal	>1 year	Yes	2	No
628	Simple green degreaser	165 gal	>1 year	Yes	2	No
628	Snap Back Liquid Floor wax	--	>1 year	Yes	2	No
628	Snap Back Pressurized	--	>1 year	Yes	2	No
628	Snap Back UHS Restorer	--	>1 year	Yes	2	No
628	So-Sure gray 16307	--	>1 year	Yes	2	No
628	So-Sure laquer green 14602	--	>1 year	Yes	2	No
628	So-Sure laquer red 11105	--	>1 year	Yes	2	No
628	Spray on/wipe off class I detergent	--	>1 year	Yes	2	No
628	Spray paint	36 cans	>1 year	Yes	2	No
628	Super weatherstrip adhesive	18 oz	>1 year	Yes	2	No
628	Synthetic rust inhibitor	5 gal	>1 year	Yes	2	No
628	Talcum powder	--	>1 year	Yes	2	No
628	Toner, copier	--	>1 year	Yes	2	No
628	Ultradex	--	>1 year	Yes	2	No
628	UV solution	--	>1 year	Yes	2	No
628	Vita ERB	--	>1 year	Yes	2	No
628	Waste	325 gal	>1 year	Yes	2	No
628	Waste, blue tape	2 bags	>1 year	Yes	2	No
628	Wax, floor	12 qts	>1 year	Yes	2	No
628	ZEP PLS	--	>1 year	Yes	2	No

* Note: Facilities may have been recategorized, as presented in Worksheet B.

Worksheet A: Review of Storage of Hazardous and Non-Hazardous Substances and Petroleum Products

Storage Site or Area	Substances Stored	Largest Quantity Stored	Length of Time of Storage	Is Notification of Storage Required Under CERCLA120(h)?	Category of Environmental Condition of Property *	Has a Release Occurred? (If Yes, See Worksheet B)
628	ZEP-45	--	>1 year	Yes	2	No
628	ZEP-O-Kreme	--	>1 year	Yes	2	No
628	ZEPredigrease	--	>1 year	Yes	2	No
628	ZEPreserve	--	>1 year	Yes	2	No

* Note: Facilities may have been recategorized, as presented in Worksheet B.

Worksheet B: Review of CERCLA, IRP, or Cleanup Sites

Site or Area Where Release or Disposal of CERCLA Hazardous Substances	Current Bldg No.	Category of Environmental Condition of Property					Comments
		3	4	5	6	7	
Commanding Officers' Storehouse	3					√	storage of motor oil, gasoline, lawn equipment
Generals' Park General Storehouse	5					√	former storage of fertilizers on wood floor
General Storehouse - Youth Services	7					√	former storage of fertilizers on wood floor
Golf Course	100					√	improper treatment of irrigation water
Golf Course Waiting Shelter	101					√	ground beneath shelter may be contaminated
Golf Course Waiting Shelter	102					√	ground beneath shelter may be contaminated
Golf Course Waiting Shelter	103					√	ground beneath shelter may be contaminated
Golf Course Waiting Shelter	104					√	ground beneath shelter may be contaminated
Golf Course Public Restroom	105					√	ground beneath shelter may be contaminated
General Storehouse	106					√	pesticide storage on dirt floor
General Storehouse	107					√	equipment storage on dirt floor
Golf Course Waiting Shelter	108					√	ground beneath shelter may be contaminated
Pest Control/Storage	122					√	poor condition of sewer lines beneath the facility
Tractor Shop	128					√	poor condition of sewer lines beneath facility
Post Exchange Service Station	135				√		leaking piping. Currently under investigation/remediation.
Greenhouse	138					√	storage of pesticides and fertilizers
Underground Storage Facilities	139					√	pesticides and fertilizers stored on a dirt floor
Greenhouse	140					√	storage of pesticides and fertilizers
Roads & Grounds General Storage/Fuel Farm Area	142					√	ground beneath facility may be contaminated
Storehouse	143					√	stained concrete/dirt floor, formerly maintenance
Shared Storage/Vehicles	144					√	petroleum stains on a dirt floor

Worksheet B: Review of CERCLA, IRP, or Cleanup Sites

Site or Area Where Release or Disposal of CERCLA Hazardous Substances	Current Bldg No.	Category of Environmental Condition of Property					Comments
		3	4	5	6	7	
Self-Help Storehouse/Metals Shop	145					√	storage of paints, stains noted in metals shop
Electrical and Plumbing Shop	148					√	storage of gasoline, and a solvent dip tank
Golf Course Maintenance	167					√	storage of petroleum and maintenance chemicals
Golf Club Storage Building	171					√	dirt floor, storage of oils for golf course
Temporary Garage Storage	201					√	presence of grease pit
Motor Repair Shop	202					√	Presence of floor drains, grease pits
Driver Testing Office & Garage Motor Pool	204					√	Presence of floor drains, grease pits
NCO Club	206					√	formerly used as post print shop
DEH Paint Storage	209					√	presence of floor drains and paint booth, dip tank
Maintenance Shop/Administration	212					√	dip tank solvents dripped to soil beneath facility
Refrigeration and Air Conditioning	213					√	ammonia use in process of making ice, floor drains
Powerhouse	215				√		remediation under existing construction contract
General Storehouse	217					√	ground beneath may be contaminated
Substation Building	219					√	ground beneath may be contaminated
Entomology Division Laboratory and Military Dogs	228					√	pesticide mixing facility, numerous floor drains
General Storehouse	248					√	equipment storage, dirt floor, transformer storage
Old Linen Storage	250					√	located within salvage yard, spills occurred
Plumbers' Storehouse	251					√	located within salvage yard, spills occurred
Storage Shed	252					√	located within salvage yard, spills occurred
Univ. of Colorado Perinatal Research Laboratory	260					√	storage of hazardous materials, radionuclides
Refuse Collection/Transfer Building	261					√	Accumulation of hazardous waste

Worksheet B: Review of CERCLA, IRP, or Cleanup Sites

Site or Area Where Release or Disposal of CERCLA Hazardous Substances	Current Bldg No.	Category of Environmental Condition of Property					Comments
		3	4	5	6	7	
Autoclave	264					√	Autoclave
Automobile Service - Marty's Garage	270					√	two oil water separators, floor drains
DOIM Adminstration and Print Plant	316					√	formerly post print shop
USARAMEDD	327					√	ground beneath facility may be contaminated
Officers' Quarters	402					√	potential for radionuclides use
Gastrointerology Clinic	403					√	ground beneath may be contaminated
Opthamology Clinic	404					√	ground beneath may be contaminated
Pharmacy	410					√	ground beneath may be contaminated
Main Hospital	500					√	ground beneath may be contaminated
Office of Provost Marshall	504					√	ground beneath may be contaminated
Dental Clinic	505					√	storage of dental chemicals; radionuclides present
Records Management Storage	510					√	formerly a pharmacy/dry cleaners
Medical Clinic Administration/Nuclear Medicine	511					√	ground beneath may be contaminated
Housekeeping	513					√	formerly a dental lab, ground beneath may be contaminated
Hospital Clinic/Photolab	515					√	former dry cleaning facility
Inflammable material Storage	519					√	former accumulation of hazardous waste
Theater/Finance & Accounting	521					√	formerly print shop
Laundry	529					√	former potential dry cleaning facility/accumulated hazardous waste from OFL
Military Clothing	530					√	may be contaminated from leaking underground pipes
Directorate of Plans and Training	600					√	ground beneath may be contaminated
Laboratory	601					√	ground beneath may be contaminated

Worksheet B: Review of CERCLA, IRP, or Cleanup Sites

Site or Area Where Release or Disposal of CERCLA Hazardous Substances	Current Bldg No.	Category of Environmental Condition of Property					Comments
		3	4	5	6	7	
Laboratory	602					√	ground beneath may be contaminated
ADP/USAEHA/Radiation Protection Waste Storage	603					√	ground beneath may be contaminated
Flammable Material Storehouse	607					√	former hazardous accumulation
Medical Research Laboratory	610					√	use of radioactive material
Incinerator Smoke Stack	615					√	former incinerator
Incinerator/Hazardous Waste Staging Facility	616					√	former hazardous waste storage
Optical Equipment and School/Laboratory	628					√	numerous spills
Maintenance Facility	821				√		contamination may be beneath facility. Under investigation.
Family Support	823			√			gas station across the street had a spill. Under investigation.
Bldg. No. 23	23					√	Equipment, gasoline stored outside on dirt ground
Golf course, driving range						√	Untreated wastewater irrigation. Limited radiological sampling was performed.
Golf course maintenance area						√	spills from ASTs, equipment stored outside on dirt
north and west of Bldg. No. 128						√	spills from AST, batteries, waste oil applied to ground
Area between Bldg. Nos. 145, 146, & 148						√	former storage of equipment and chemcials
North of Bldg. No. 142						√	spills have occurred from ASTs/drums/former UST
Area between Bldg. Nos. 152 & 153						√	former location of fuel farm
Area surrounding Bldg. Nos. 200, 201, 202, 204.						√	grease pits, former maintenance
Area surrounding Bldg. Nos. 207, 208, and 209.						√	sump in driveway
Area east of Bldg. No. 316						√	former storage of inks/dyes for printing operation

Worksheet B: Review of CERCLA, IRP, or Cleanup Sites

Site or Area Where Release or Disposal of CERCLA Hazardous Substances	Current Bldg No.	Category of Environmental Condition of Property					Comments
		3	4	5	6	7	
Area north of Bldg. No. 215						√	storage of equipment on dirt, spills
Salvage yard - Area adjacent to Bldg. No. 250/251/252						√	storage of PCB transformers/equipment on dirt
Area south of Bldg. No. 246						√	location of chemical fire
Area surrounding Bldg. No. 212						√	leakage from dip tank
Area surrounding Bldg. No. 628	628					√	standing liquid contamination in pipe area
Area southeast of Bldg. No. 521						√	former location of OFL
Area north of Bldg. No. 222						√	former location of outdoor recreation storage
UST	135				√		Bldg. 135 UST, tank remains, piping remains. Under investigation
UST	230		√				Bldg. 230 UST, tank removed, soil remediated. 1992, soil excavated, incinerated off-site.
UST	215				√		Bldg. 215, numerous spills from tank
UST	500					√	Bldg. 500, tank removed, no soil samples collected
UST	821				√		Bldg. 821, tank removed, samples > action levels. Investigation/remediation underway.
UST	500					√	Bldg. 500, tanks not formally closed
UST	122					√	east of Bldg. 122, 3 USTs removed, currently under investigation
Incinerator 1	212					√	Disposal/incineration of waste
Incinerator 2	616					√	Disposal/incineration of waste
Incinerator 3	264					√	Disposal/incineration of waste
Incinerator 4	265					√	Disposal/incineration of waste
Incinerator 5	500					√	Disposal/incineration of waste
Incinerator 6	625					√	Disposal/incineration of waste
Lagoon 271 - east lagoon						√	Holds water discharged from wastewater treatment

Worksheet B: Review of CERCLA, IRP, or Cleanup Sites

Site or Area Where Release or Disposal of CERCLA Hazardous Substances	Current Bldg No.	Category of Environmental Condition of Property					Comments
		3	4	5	6	7	
Lagoon 272 - west lagoon						√	Holds water discharged from Lagoon 271
Landfill 1 - west of STP						√	Disposal of solid waste
Landfill 2 - east of STP						√	Disposal of solid waste
Landfill 3 - northeast corner of FAMC						√	Disposal of construction debris
Landfill 4 - east of Bldg. No. 616						√	Disposal of incinerator ash
Landfill 5 - east of Bldg. No. 642						√	Disposal of radioactive waste. 1970, site (1, 10, 11, 12) were excavated/sampled.
Landfill 6 - south and west of Bldg. No. 817						√	3 drums found at construction of PX parking lot
Spill	247					√	leaking container of methylene chloride. Methylene chloride was repackaged and reutilized.
Spill	500					√	Spill of formaldehyde solution. Spill cleaned up.
Spill	628					√	Spill of cadmium and lead corrosive. Spill cleaned, damage to floor.
Spill	212					√	leaking drum of acetic acid. Spill cleaned, damage to floor.
Spill	410					√	accident with trichloroacetic acid. Spill cleaned, damage to equipment.
Spill	628					√	Deblocking wastewater crack in bottom of drum. Spill cleaned, disposed.
Spill	628					√	Spill of wastewater. Spill cleaned.
Spill	628					√	Spill of wastewater. Spill cleaned.
Spill	500					√	Spill of formaldehyde and biological specimen. Spill cleaned.
Spill	410					√	Spill of parafushsin solvents/resorcinol. Spill cleaned, stained floor.
Spill	211					√	Spill of fixer-ammonia thiosulfate. Spill mopped, went down sanitary sewer.
Spill	628					√	cerium oxide/glass particle to navigable waters
Spill	500					√	mercury spill. Waste taken to building 261 for disposal.
Spill	500					√	fluorouracil spill. Spill cleaned.

Worksheet B: Review of CERCLA, IRP, or Cleanup Sites

Site or Area Where Release or Disposal of CERCLA Hazardous Substances	Current Bldg No.	Category of Environmental Condition of Property					Comments
		3	4	5	6	7	
Spill	500					√	Taxol spill. Spill cleaned.
Spill	north of 528	√					diesel spill. Spill cleaned.
Spill	215					√	mercury spill. Spill cleaned.
Spill	327					√	DDT spill
Spill	unknown						sodium hydroxide spill. Spill cleaned up, sent off-site in 33 drums.
Spill	west of 300					√	PCB spill. Contamination removed, staged in a drum.
Spill	former 245					√	chemical fire
Spill	unknown						leaking liquid nitrogen tank. Valve was turned off.
Spill	215					√	fuel oil got onto ground, street

Worksheet C: Review of Other Known or Potential Hazards

Site or Area	Current Bldg No.	Status and Description of Hazards			Disclosure of Hazard Required in Deed?		Restrictions on Use Required in Deed?		List of Restrictions, if Required

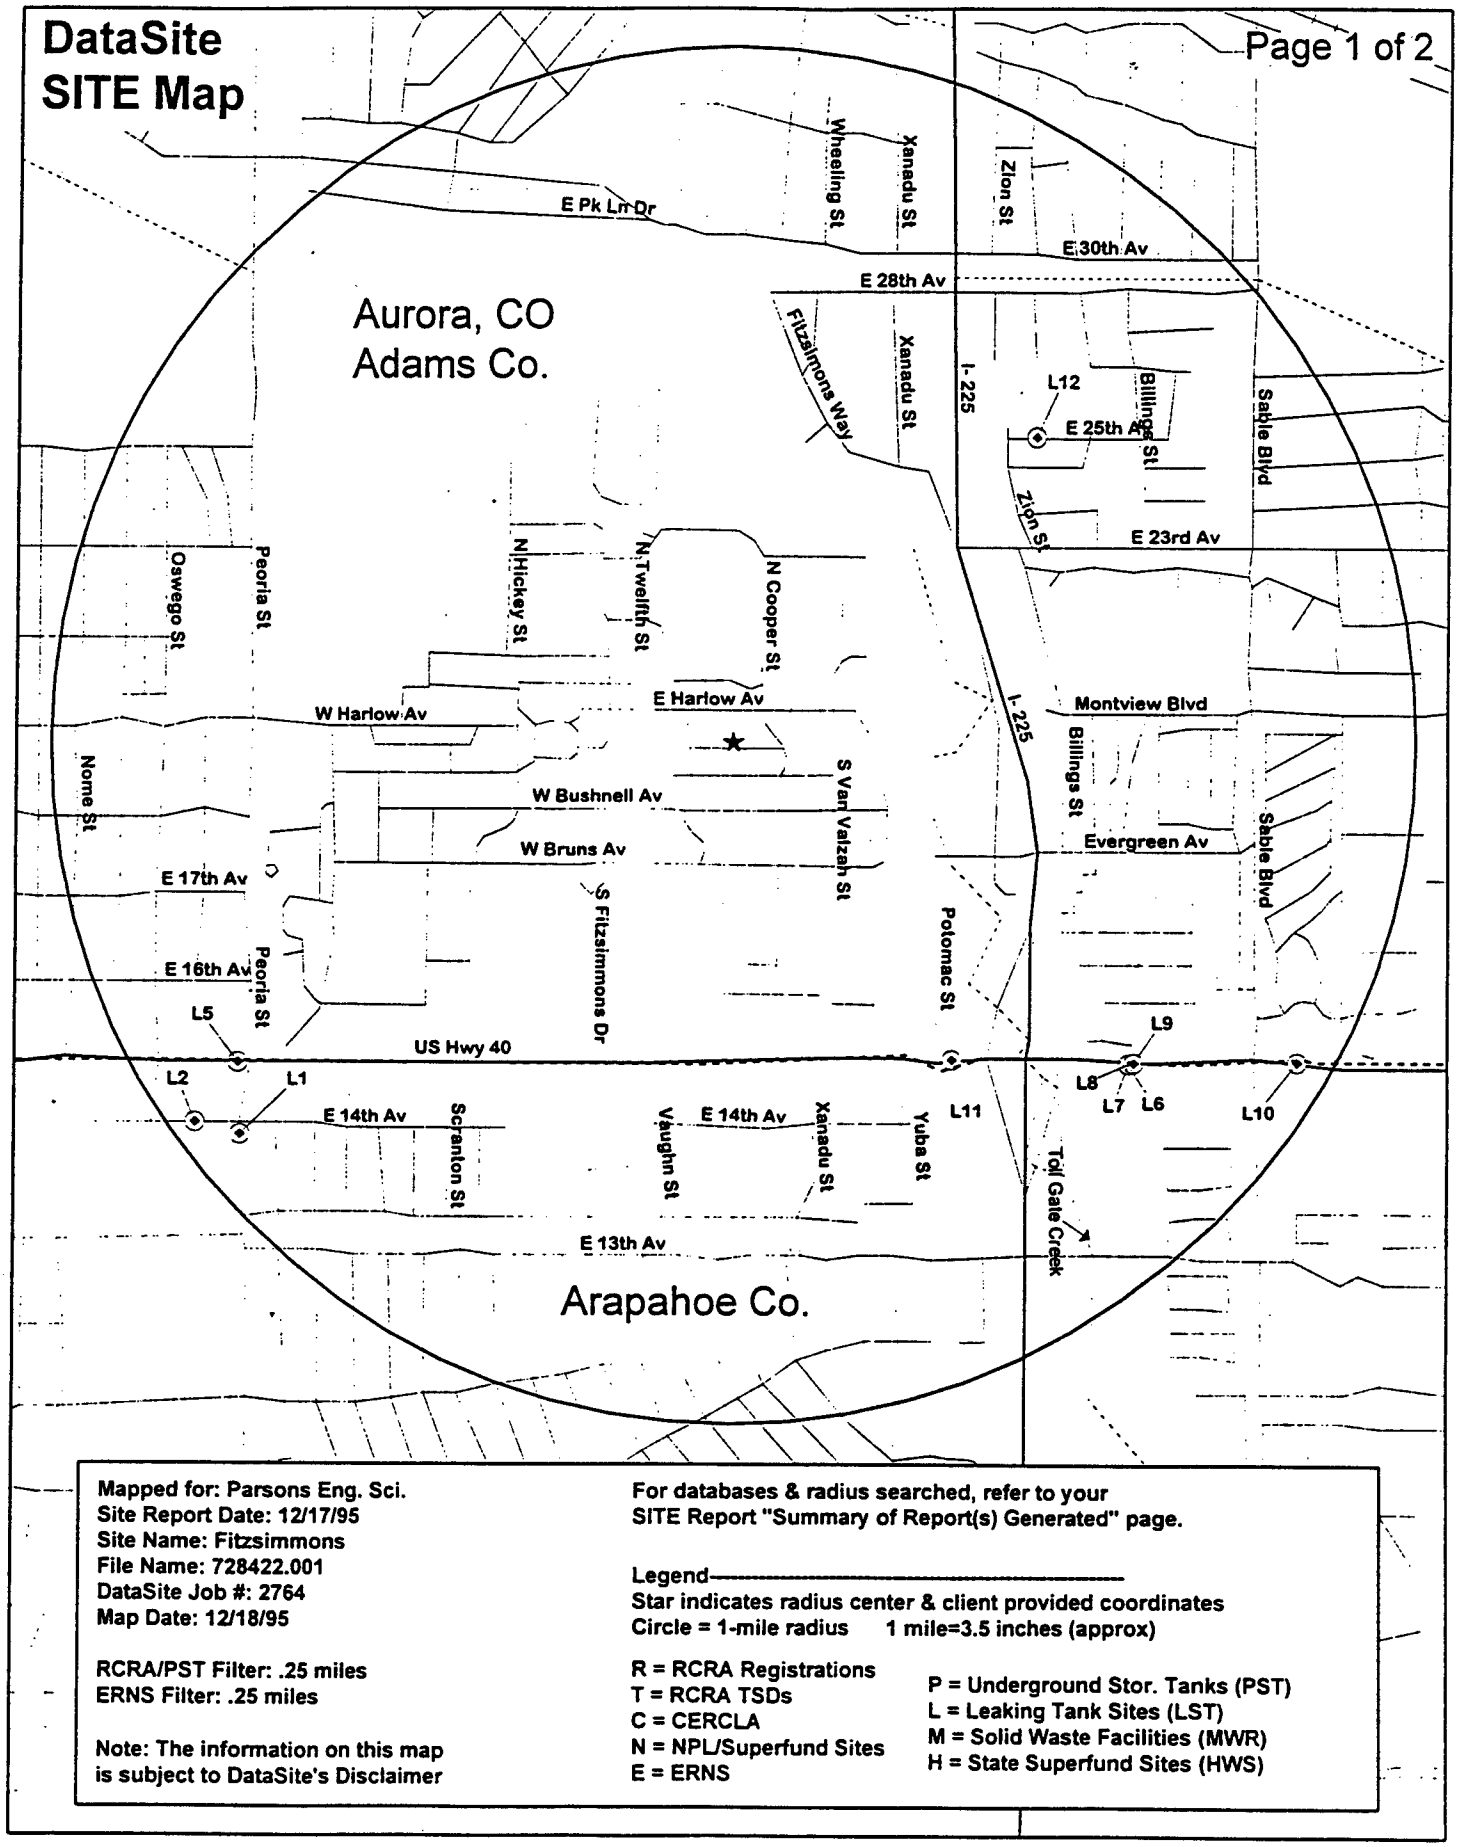
DataSite SITE Map



Mapped for: Parsons Eng. Sci.
Site Report Date: 12/17/95
Site Name: Fitzsimmons
File Name: 728422.001
DataSite Job #: 2764
Map Date: 12/18/95

RCRA/PST Filter: .25 miles
ERNS Filter: .25 miles

Note: The information on this map is subject to DataSite's Disclaimer

For databases & radius searched, refer to your SITE Report "Summary of Report(s) Generated" page.

Legend
Star indicates radius center & client provided coordinates
Circle = 1-mile radius 1 mile=3.5 inches (approx)

R = RCRA Registrations
T = RCRA TSDs
C = CERCLA
N = NPL/Superfund Sites
E = ERNS

P = Underground Stor. Tanks (PST)
L = Leaking Tank Sites (LST)
M = Solid Waste Facilities (MWR)
H = State Superfund Sites (HWS)

SITE Map Notes

Updated 8/31/95

Please Read:

1. The attached SITE Map reflects the database searches you requested for the referenced project. It only includes those databases listed on your SITE Report "Summary of Report(s) Generated" page as having the radius search, indicated by latitude/longitude values next to the database name.

2. The attached SITE Map does not reflect a radius search of those records listed on your zip code searched SITE Reports that have a (**) under the RI column. For these records DataSite has not determined whether they are inside or outside the radius area. For this reason it is important to review all zip code reports within your desired radius when requesting a Radius Report.

3. RCRA/PST Filter & ERNS Filter
   As a matter of policy, DataSite filters RCRA Generator and PST plots from any SITE Map containing more than thirty (30) *total* plotted records within a one mile radius. RCRA TSD sites are not affected by this filtering. Refer to the lower left portion of your SITE Map for filter distances. ERNS records are automatically filtered beyond 1/4 mile on all SITE Maps. DataSite's RCRA/PST and ERNS filtering procedures exceed current ASTM standards.

   Client requested un-filtered SITE Maps containing more than 30 records may be considered as *custom* SITE Maps and will be billed at an hourly rate of $50 per hour.

4. Due to software technology limitations, the attached SITE Map may have some sites plotted inaccurately. Due to that possibility, DataSite has designed its Radius Report to allow you the opportunity to review your reports under two search criteria versus just one (Radius *plus* Zip vs. Radius only). This unique format makes DataSite's SITE Reports the most accurate and reliable in the industry.

5. SITE Map Corrections
   Upon customer's request DataSite will, at no charge, re-map a site if a plotted record is found to be more than 1/4 mile from its exact location. All other customer requested changes to the SITE Map will be billed at an hourly rate.

The information contained in the SITE Reports, databases and maps provided by DataSite is obtained directly from government sources. Although great care has been taken by DataSite to ensure that all its databases contain current and accurate information, DataSite disclaims any and all liability for any errors, inaccuracies or omissions found in these databases. DATASITE WILL PROVIDE SERVICES TO ITS CUSTOMERS ON AN "AS IS, AS AVAILABLE BASIS" WITHOUT WARRANTIES OF ANY KIND. Use of the environmental information and records contained in these databases is not a substitute for a complete environmental assessment and buyer proceeds at his own risk in choosing to rely on this information, in whole or part, prior to proceeding with any transaction. DataSite shall not be held liable for any special, consequential or exemplary damages resulting, in whole or part, from buyer use of the data. DataSite's liability shall not exceed the monetary value paid for its information.

RCRA/TSD SITE REPORTS

from the

EPA RCRIS Database

********** Comments: RCRA record search for Zip Code(s) 80010, 80011, 80045, 80207, 80239 **********

RCRIS Database Description: The EPA Resource Conservation and Recovery Information System (RCRIS) serves to track the status of registrations, permits, reports, inspections, enforcement activities, and financial data of those regulated under the Resource Conservation and Recovery Act (RCRA).

Key to Printout Codes:

G: Code indicating:

1 Handlers which generate greater than 1000 kg of hazardous waste during any calendar month; generate 1 kg or more of acutely hazardous waste; generate more than 100 kg of any residue of contaminated soil, waste or other debris resulting from the cleanup of a spill into or on any land or water, of acutely hazardous waste; or accumulate greater than 1000 kg of hazardous waste or 1 kg or more acutely hazardous waste.

2 Handlers which generate 100-1000 kg of hazardous waste during any calendar month; generate less than 1 kg of acutely hazardous waste; generate less than 100 kg of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill into or on any land or water, of acutely hazardous waste; or accumulate 100-1000 kg of hazardous waste or less than 1 kg acutely hazardous waste.

3 Handlers which generate less than 100 kg/month Conditionally Exempt Waste.

4-9 Other state regulated waste to be defined locally to correspond to individual state needs.

N Other state regulated waste to be defined locally to correspond to individual state needs.

S: Entry indicates facility is engaged in the off-site transportation of hazardous waste by air, rail, road, and/or water.

C Handler transports wastes for hire (i.e., commercial transport).
S Handler transports wastes for self.
X Handler transports wastes, but commercial status is unknown.
N Not a transporter, verified.

T: Code indicating that an activity of the facility is the treatment, storage and/or disposal of hazardous waste.

X TSD facility
N Not a TSD, verified

****
* RCRA Detail & RCRA Violator/Enforcement *
* Reports are available through On-line *
* access or by faxing a request to DataSite.*
* Detail reports list wastes generated, *
* notification dates, current and previous *
* owners. Violator/Enforcement reports *
* lists compliance and enforcement *
* records. *
****

V: 'Y' indicates facility has violation investigation record.
R: 'Y' indicates facility has enforcement records in the RAATS (RCRA Administrative Action Tracking System) database.
C: 'X' indicates corrective actions are indicated for facility
RI: Radius Indicator Codes
R1(ex.) - Letter/Numeric combination indicates record in requested radius. Corresponding reference found on radius report.
(Blank) - Indicates location is most likely outside requested radius. Further review is suggested.
** - Indicates location may or may not be in requested radius. Site has not been assigned a latitude/longitude coordinate. Further review recommended.

EPA RCRA / TSD Listing Report - Zip Code(s)

RCRA VIOLATOR SITE REPORTS

from the

EPA RCRIS Database

RCRIS Database Description:

The EPA Resource Conservation and Recovery Information System (RCRIS) serves to track the status of registrations, permits, reports, inspections, enforcement activities, and financial data of those regulated under the Resource Conservation and Recovery Act (RCRA).

Key to Printout Codes:

VL#: Sequence violation number

GOV: Evaluating Agency
- S - State
- E - EPA

CLASS: Class of violation.
- 1 - Deviation from regulations, or provisions of compliance orders, consent agreements, consent decrees or permit conditions which could result in a failure to (A) Assure that hazardous waste is destined for and delivered to authorized TSD facilities; or (B) Prevent releases of hazardous waste or constituents, both during the active and any applicable post-closure periods of the facility operation where appropriate; or (C) Assure early detection of such releases; or (D) Perform emergency clean-up operation or other corrective action for releases.
- NOTE: Currently EPA is not providing Class 2 and 3 violation information with the data issue they are providing to the public.
- 2 - Any violation of a RCRA requirement that does not meet the criteria above for Class I Violations.
- 3 - State level violation
- P - Pending possible violation

VIOL: Area of Violation
- CAS - TSD-Corrective Action Compliance Schedule
- DCH - TSD-Chemical/Physical/Biological Requirements
- DCL - TSD-Closure/Post-Closure Requirements
- DCP - TSD-Contingency Plan Requirements
- DFR - TSD-Financial Responsibility Requirements
- DGS - TSD-General Standards
- DGW - TSD-Groundwater Monitoring Requirements
- DIN - TSD-Incineration Requirements
- DLB - TSD-Land Ban Requirements
- DLF - TSD-Landfills Requirements
- DLT - TSD-Land Treatment Requirements
- DMC - TSD-Containers Requirements
- DMR - TSD-Manifest Requirements
- DOR - TSD-Other Requirements (implementer only)

Key to Printout Codes (cont.):

VIOL: Area of Violation (cont.)

- DOT - TSD-Other Requirements (oversight level) (re-code of DGS,DCP,DMR,DMC,DTR,DSI,DWP,DLT,DLF, DIN,DTT,DCH,DPB,DOR and any other implementer codes beginning with 'D' that are not DGW,DCL, DFR, or DLB).
- DPB - TSD-Part B Permit Application
- DPP - TSD-Preparedness/Prevention Requirements
- DSI - TSD-Surface Impoundments Requirements
- DTR - TSD-Tanks Requirements
- DTT - TSD-Thermal Treatment Requirements
- DWP - TSD-Waste Piles Requirements
- FEA - Former Enforcement Agreement
- GER - Generator-All Requirements (re-code of implementer codes beginning with 'G' except GLB)
- GGR - Generator-General Requirements
- GLB - Generator-Land Ban Requirement
- GMR - Generator-Manifest Requirements
- GOR - Generator-Other Requirement
- GPT - Generator-Pre-Transport Requirements
- GRR - Generator-Recordkeeping Requirements
- GSC - Generator-Special Conditions
- GSQ - Generator-Small Quantity Generator Requirements
- PER - State Permit Provision Rules
- SGW - State Groundwater Contamination
- SMR - State Manifest Requirements
- SWR - State Solid Waste Rule
- TGR - Transporter General Requirements
- TMR - Transporter-Manifest/Record-Keeping Requirements
- TOR - Transporter-Other Requirements
- TRR - Transporter-All Requirements (re-code of all implementer codes beginning with 'T')
- TWD - Transporter-Haz. Waste Discharges
- UIC - State Underground Injection Rules

VDATE: The date a determination was made that a violation exists.

SDATE: The date by which the handler is to submit to the agency its documentation that the violation has been brought into compliance.

ADATE: The date the agency determines that the handler demonstrated physical compliance.

PRY: Indicator from 0 to 9 or A to Z indicating the relative priority assigned to a violation or pending violation. Example '9' indicates high priority status.

RCRA VIOLATOR ENFORCEMENT SITE REPORTS

from the

EPA RCRIS Database

RCRIS Database Description:

The EPA Resource Conservation and Recovery Information System (RCRIS) serves to track the status of registrations, permits, reports, inspections, enforcement activities, and financial data of those regulated under the Resource Conservation and Recovery Act (RCRA).

The following report may or may not include all EPA enforcement records for the chosen site. Please read RCRIS Violation and Enforcement Database NOTICE!

Key to Printout Codes:

VL#: Sequence violation number

GOV: Code of agency responsible for issuing the enforcement action.
- E - EPA
- S - State
- X - EPA Oversight

DATE: The date enforcement action was issued.

ACTION: Code identifies the type of action being taken against a handler.
- 100 - Series Informal Administrative Actions
- 110 - Verbal Informal
- 120 - Written Informal
- 190 - Combination of Above
- 200 - Series Initial Formal Administrative Actions
- 210 - 3008(a) Compliance Order
- 220 - Imminent Hazard Order
- 230 - Monitoring, Analysis & Testing Order
- 240 - 3008(h) Interim Status Corrective Action Orders (only for non-HSWA violations)
- 250 - Notice of non-compliance (federal facilities only)
- 290 - Combination of above
- 300 - Series Final Formal Administrative Actions
- 310 - 3008(a) Compliance Order
- 320 - Imminent Hazard Order
- 330 - Monitoring, Analysis and Testing Order
- 340 - 3008(h) Interim Status Corrective Action Orders (only for non-HSWA violations)
- 350 - Federal Facility Compliance Agreement
- 360 - CERCLA 106 Order
- 370 - CERCLA 104 Order
- 390 - Combination of above
- 400 - Series Judicial Referrals
- 410 - Referral to AG
- 420 - Referral to DOJ
- 430 - Referral to District Attorney or City Attorney

ACTION: (cont.)
- 490 - Combination of above judicial referrals
- 500 - Series Civil Actions
- 510 - Civil Action for Compliance
- 520 - Civil Action for Imminent Hazards
- 530 - Civil Actions to Compel Compliance with Previously Issued Actions
- 540 - Civil Action for interim corrective action
- 550 - Civil Action for Monetary Penalties
- 590 - Combination of above
- 600 - Series Final Judicial Actions
- 610 - Consent Decrees
- 620 - Judicial Orders
- 700 - Series Criminal Actions
- 710 - Criminal Actions
- 800 - Series Administrative Referrals
- 810 - State to EPA
- 820 - EPA to State
- 830 - EPA RCRA to EPA CERCLA
- 850 - Federal Facility Referral to EPA HQ
- 890 - Combination of above active referrals

ASSESS: Dollar amount of any penalty assessed against the handler.

SETTLE: Dollar amount of any settlement agreed to between the responsible agency and handler.

CERCLA/NPL SITE REPORTS

from the

EPA CERCLIS Database

********** Comments: CERCLA record search for Zip Code(s) 80010, 80011, 80045, 80207, 80239 **********

EPA Contact Number - Call Regional EPA Office

CERCLIS Database Description:

The EPA Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) Information System (CERCLIS) serves to track sites that have come to EPA's attention as having potential for releasing hazardous substances into the environment. The following reports do not include those sites EPA has designated as needing no further action.

NPL Status: Categorizes a site's NPS Status for statistical analysis and reporting purposes.

- F Currently on the final NPL
- N Not currently nor was formerly on proposed or final NPL
- O Not valid site or incident
- P Currently proposed from the final NPL
- R Removed from the proposed NPL
- A Being investigated as part of NPL contam.
- S Has SCAP plan remedial activities
- D Deleted from final NPL

Site Category: Overall physical classification of the site incident.

- A Abandoned
- B Chemical plant
- C City contamination
- D Dioxin
- F Federal facility
- G Groundwater
- H Housing area, farm
- I Industrial waste treatment
- J Inorganic Waste
- L Landfill
- M Manufacturing plant
- N Military related
- O Other
- P Pure Lagoons
- R Radioactive
- V Waterways/creeks/rivers
- W Wells

Owner: Code that indicates the current ownership status of the site or incident

- CO County
- DI District
- FF Federal
- IL Indian Lands
- MN Municipality
- MX Mixed Ownership
- OH Other
- PR Private
- ST State
- UN Unknown
- SR PRP Lead Under State

Program: Code which identifies the overal programmatic classification for NPL sites after PRP search

- F Fund Lead
- FE Federal Enforcement
- ND No Determination
- NG Fund Lead Negotiation
- SE State Enforcement

Lead: Code which identifies the organization with primary responsibility for the event

- CG Coast Guard
- EP EPA In-house
- F EPA Fund-financed
- FE Federal Enforcement
- FF Federal Facilities
- MR Mixed Funding Federal/RP
- PS PRP Response Under State
- RP Responsible Party
- S State, Fund Financed
- SN State, No Fund Money

Cont'd on next page

Result - Code to indicate the resulting action priority level arising from an event.

Administrative Record
- E - Admin Record Compilation/Remedial Event
- V - Admin Record Compilation/Removal Event

Integrated Assessment
- A - Site is part of NPL site
- D - Deferred to RCRA (Subtitle C) or NRC
- H - Higher Priority
- L - Lower Priority
- N - No Further Remedial Action Planned

Listing Site Inspection
- A - Site is Part of NPL Site
- G - Recommended for HRS Scoring
- N - No Further Remedial Action Planned

Hazard Ranking
- N - No Further Remedial Action Planned

Preliminary Assessment
- A - Site is Part of NPL Site
- D - Deferred to RCRA (Subtitle C) or NRC
- F - Referred to Removal, Needs More Remedial
- H - Higher Priority
- L - Lower Priority
- N - No Further Remedial Action planned
- W - Referred to Removal, No Further Remedial

Removal
- C - Clean-Up
- P - Partial Cleanup
- S - Stabilization

Screening Site Inspection
- A - Site is Part of NPL Site
- D - Deferred to RCRA (Subtitle C) or NRC
- F - Referred to Removal, Needs.More Remedial
- H - Higher Priority
- L - Lower Priority
- N - No Further Remedial Action Planned
- W - Referred to Removal, No Further Remedial

Remedial Pipeline Events
- H - High
- L - Low

NPL SUMMARY SITE REPORTS

from the

EPA CERCLIS Database

********** Comments: NPL record search for County ADAMS **********

EPA Contact Number - Call Regional EPA Office

NPL Summary Description:

This report is automatically generated with each CERCLA report request. It is designed to provide a double check of NPL locations by providing a simple report on NPL sites within a county.

Status: Categorizes a site's NPL Status for statistical analysis and reporting purposes.

- F Currently on the final NPL
- N Not currently nor was formerly on proposed or final NPL
- O Not valid site or incident
- P Currently proposed for the final NPL
- R Removed from the proposed NPL
- A Being investigated as part of NPL contam.
- S Has SCAP plan remedial activities
- D Deleted from the final NPL

Alias: Designates site is alias site of an NPL site. The associated NPL site is listed above alias site and has same id but no alias designation.

| Potentially Responsible Party (PRP) Reports are also available for company and site searches. Call 512/250-2100 for details.

FINDS SITE REPORTS

from the

EPA Facility Index System (FINDS) Database

********** Comments: Facility Index System record search for Zip Code(s) 80010, 80011, 80045, 80207, 80239 **********

EPA Contact Number - (800) 908-2493

FINDS Database Description:
The EPA Facility Index System (FINDS) acts as an inventory of facilities regulated by the EPA.

Key to Printout Codes:

Loc Zip: Location Zip Code

Source Codes for FINDS printout (Code, Acronym, Definition)

01 RCRIS: Resource Conservation and Recovery Information System
**Subject Emphasis: RCRIS is a national system which supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities which generate, transport, and treat, store, or dispose of hazardous waste.
**Information in System: RCRIS tracks a range of information related to facilities involved with hazardous waste, including handler identification, permit application status, compliance monitoring and enforcement information, RCRA program management information, and facility management planning information. RCRIS also tracks corrective-action information which supports the permit-writing and enforcement activities of the corrective-action program.

02 PCS: Permit Compliance System
**Subject Emphasis: PCS is a computerized management information system which contains data on National Pollutant Discharge Elimination System (NPDES) permit-holding facilities. PCS keeps extensive records on more than 65,000 active water-discharge permits
**Information in System: There are 13 types of data within PCS: permit facility, permit event, compliance schedule, compliance schedule violation, outfall schedule, permit limit, discharge monitoring report, single event violation, enforcement action, inspections, pretreatment compliance inspection/audit, pretreatment performance summary, and evidentiary hearing> Each permit record contains many types of information including that which: identifies and describes the facility to which the permit has been granted, specifies the pollutant discharge limit for that facility, records the actual amounts of pollutants measured in the facility's wastewater discharges, and tracks the facility's compliance schedule and violations.

03 AIRS(AFS): Aerometric Information Retrieval System
**Subject Emphasis: AIRS is the national repository for information about airborne pollution in the United States. AIRS is comprised of three subsystems: the Air Quality Subsystem (AQS); the AIRS Facility Subsystem (AFS), and the Geo-Common Subsystem (GCS). A fourth subsystem, the AIRS Area/Mobile Source Subsystem (AMS), is presently under development.
**Purpose of System: There are seven "criteria pollutants" for which data must be reported to EPA and stored in AIRS: PM 10 (particulate matter less than 10 microns in size), carbon monoxide, sulfur dioxide, nitrogen dioxide, lead, reactive volatile organic compounds (VOC), and ozone. States are required by the Code of Federal Regulations to report ambient air quality data on a quarterly basis and point-source emission data on an annual basis for the above-mentioned criteria pollutants.

03 AIRS (cont.)

**Information in System: The subsystems in AIRS contain the following information:

AFS has emissions and compliance data on air pollution point sources tracked by EPA and state and local environmental regulatory agencies.

AQS contains measurements of ambient concentrations of air pollutants and associated meteorological data.

GCS stores reference information (such as codes and code descriptions to identify places, pollutants, processes, geopolitical entities, and numerical values) to be used with all of the AIRS subsystems.

AMS will contain estimates of area-wide emissions from mobile sources, forest fires, fugitives transport, and other area-wide emission sources.

04 SSTS: Section Seven Tracking System (Evolved from FIFRA and TSCA Enforcement System (FATES)

**Subject Emphasis: SSTS tracks the registration of all pesticide-producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and devices that are produced, sold, or distributed in each year.

**Information in System: SSTS includes information on the types and amounts of pesticides, active ingredients, and devices that are produced, sold, or distributed. The system also contains the names and addresses of the pesticide-producing establishments and their parent companies.

05 CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

**Subject Emphasis: CERCLIS is the Superfund database which contains information on all aspects of hazardous waste sites from initial discovery to listing on the National Priorities List.

**Information in System: CERCLIS maintains information on hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

06 NCDB(FTTS): National Compliance Database. Pesticides program enforcement information system. Maintained by the Office of Pesticides and Toxic Substances (OPTS). (FTTS - FIFRA/TASCA Tracking System)

07 DOCKET: Enforcement Docket

**Subject Emphasis: The Enforcement Docket tracks information on civil judicial enforcement cases for all environmental statues.

**Purpose of System: DOCKET is used to manage and track EPA's civil judicial caseload.

**Information in System: All information related to civil judicial enforcement activity, including case information, facility information, and defendant information, is maintained in DOCKET. The system is also capable of tracking administrative enforcement cases.

09 CRIMINAL DOCKET:

11 FFIS: Federal Facility Information System. Facilities that have submitted specific environmental project budget plans. Maintained by the Office of Federal Activities (OFA).

13 CICIS: Chemicals in Commerce Information System

**Subject Emphasis: CICIS contains an inventory of chemicals manufactured in commerce or imported for Toxic Substances Control Act regulated commercial purposes.

**Information in System: CICIS maintains certain data on substances including chemical identification information (Chemical Abstract Services Registry numbers, synonyms, and definitions of substances), production volumes in ranges, and submitter identification information.

14 STATE: Facilities that are regulated by a state environmental program. Maintained by the Office of State Program (OSP).

15 PADS: PCB Activity DATA System. PCB generators, storers, transporters or permitted disposers. Maintained by the Office of Toxic Substances (OTS).

17 TRI: Toxic Release Inventory

**Subject Emphasis: TRI contains information from facilities on the amounts of over 300 listed toxic chemicals that the facilities release directly to air, water, or land or that are transported (transferred) off-site.

**Information in System: TRI contains facility and substance identification, environmental chemical release, off-site waste transfer, and waste treatment/minimization information.

18 CUS: Chemical Update System. Facilities which manufacture or import in excess of 10,000 pounds of specific toxic chemicals during the preceding fiscal year. Maintained by the Office of Toxic Substances (OTS).

60 Facility has active Dun & Bradstreet record

80 Facility is inactive and is not currently operating under any EPA program.

RI: Radius Indicator Codes (ONLY VALID FOR RADIUS SITE REPORTS!)

F1(ex.) - Letter/Numeric combination indicates record in requested radius. Corresponding reference found on radius report.

(Blank) - Indicates location is most likely outside requested radius. Further review is suggested.

** - Indicates location may or may not be in requested radius. Site has not been assigned a latitude/longitude coordinate. Further review recommended.

ERNS SITE REPORTS

from the

EPA Emergency Response Notifications System (ERNS)

********** Comments: Emergency Response Notification record search for Zip Code(s) 80010, 80011, 80045, 80207, 80239 **********

EPA Contact Number - (202) 260-2342

ERNS Database Description:
The EPA Emergency Response Notification System serves to store information on releases of oil and hazardous substances. Releases are recorded in ERNS when they are initially reported to the federal government by any party. ERNS combines data from the National Response Center and the EPA.

PLEASE NOTE: Some waterway and offshore spills have been excluded from the source database in an effort to eliminate non-pertinent record reviews.

****
*
* ERNS Site Detail Reports Available *
*
* To obtain a detail report on a particular ERNS spill site, you can either *
* run the detail report online or fax in a detail request to 512-250-9200. *
* Use the Case# as ID#. Detail reports include PRP address and contact, *
* materials spilled, action taken, reason for spill, agency contacted, etc. *
* Currently there is no charge for this service for online users. *
*
****

Code Definitions for Detail Report:
L - Location
D - Description of spill
A - Action Taken
M - Memo issued

RI: Radius Indicator Codes (ONLY VALID FOR RADIUS SITE REPORTS!)
El(ex.) - Letter/Numeric combination indicates record in requested radius. Corresponding reference found on radius report.
(Blank) - Indicates location is most likely outside requested radius. Further review is suggested.
** - Indicates location may or may not be in requested radius. Site has not been assigned a latitude/longitude coordinate. Further review recommended.

ERNS SITE REPORTS

from the

EPA Emergency Response Notifications System (ERNS)

********** Comments: Emergency Response Notification record search for City (No Zip) AURORA **********

EPA Contact Number - (202) 260-2342

ERNS Database Description:

The EPA Emergency Response Notification System serves to store information on releases of oil and hazardous substances. Releases are recorded in ERNS when they are initially reported to the federal government by any party. ERNS combines data from the National Response Center and the EPA.

PLEASE NOTE: Some waterway and offshore spills have been excluded from the source database in an effort to eliminate non-pertinent record reviews.

****

ERNS Site Detail Reports Available

To obtain a detail report on a particular ERNS spill site, you can either run the detail report online or fax in a detail request to 512-250-9200. Use the Case# as ID#. Detail reports include PRP address and contact, materials spilled, action taken, reason for spill, agency contacted, etc. Currently there is no charge for this service for online users.

****

Code Definitions for Detail Report:

L - Location
D - Description of spill
A - Action Taken
M - Memo issued

RI: Radius Indicator Codes (ONLY VALID FOR RADIUS SITE REPORTS!)

El(ex.) - Letter/Numeric combination indicates record in requested radius. Corresponding reference found on radius report.
(Blank) - Indicates location is most likely outside requested radius. Further review is suggested.
** - Indicates location may or may not be in requested radius. Site has not been assigned a latitude/longitude coordinate. Further review recommended.

EPA Contact Number - (202) 260-2614

Civil Enforcement Docket Database Description:

The Civil Enforcement Docket is the EPA's system for tracking civil judicial cases filed on the Agency's behalf by the Department of Justice. This Docket contains information on civil cases filed from 1972 to the present.

Key to Printout Codes:

Law Viol. - Environmental statute violation prosecuted by EPA

CAA	Clean Air Act
CERCLA	Comprehensive Environmental Response, Compensation, and Liability Act (Superhand)
CWA	Clean Water Act
EPCRA	Emergency Planning & Community Right to Know Act
FIFRA	Federal Insecticide, Fungicide & Rodenticide Act
MPRSA	Marine Protection, Research & Sanctuaries Act
MWTA	Medical Waste Tracking Act
RCRA	Resource Conservation & Recovery Act
SDWA	Safe Drinking Water Act
TSCA	Toxic Substance Control Act

Viol. Code - Type of violation as identified in the filed complaint

ACC	Accreditation
ACORD	CERCLA 104E Access order/case
ARSN	Arsenic
ASB	Asbestos
CLO	Closure & post-closure plan
CON	Container
DSP	Disposal
EFF	Effluent
EMIS	Emissions
FIFRA	FIFRA
FIN	Financial responsibility
GFR	General facility requirements
GRANT	P.L. 92-500 facility
GWM	Groundwater monitoring
IMP	Imports
IND	Industrial source
INFO	CAA/114 (Info)
IP	Interim prohibition violation
LBAN	Land Ban
LDT	Land disposal & treatment
MPRSA	MPRSA
N/A	Not applicable
PNESHAP	Nat'l Emission Std for Hazardous Air Pollutant
NODMR	Failure to submit a Discharge Monitoring Report
NONOTE	Failure to notify
NOPRMT	Discharge without a permit
NORPTG	No reporting or monitoring
NSPS	New Source Performance Standard

Viol. Code (cont)

NSR	New Source Review
OP	Opacity
PCB	Polychlorinated Biphenyl
PM	Particulate matter
PMN	Pre-manufacturing notice
PRETMT	Pretreatment
PRMTVL	Permit violation
PSD	Prevention of significant deterioration
PWSM/R	PWS monitoring/reporting
PWSMCL	PWS maximum containment level
PWSNP	PWS notification to public
PWSSA	PWS sampling & analyzing
REC	Required records maintenance
REP	Reporting violations
SIP	State implementation plan
SIPA1	SIP - A1 Source
SIPA2	SIP - A2 Source
SIPB	SIP - B Source
SLUDGE	Sludge
SPILL	Spill
STR	Storage
TRI	Toxic release inventory (Section 313)
TRT	Treatment
UIC	Underground Injection Control (SDWA)
UICCAC	UIC casing and cementing
UICMFL	Fluid movement in u/ground drinking water
UICMIN	Mechanical integrity
UICMON	Monitoring
UICNPA	No approved plugging and abandonment plan
UICOIN	Injection between outermost casing
UICPRS	Injection beyond authorized pressure
UICUNI	Unauthorized injection
UICUNO	Unauthorized operation of a Class IV well
UICVPA	Compliance with plugging & abandoment plan
UST	Leaking underground storage tank
VHAP	Volatile hazardous air pollutants
VOC	Volatile organic compound
WKPR	Work practices (Asbestos D/R)
WRP	Worker Protection
404PMT	Wetlands Protection (404/CWA)

Key to Printout Codes (cont.):

Pollutant - As cited in complaint. Codes not listed here are not identifiable by EPA

ACM	Asbestos contaminated material
ARSN	Arsenic
ASB	Asbestos
BANVEL	Portate & 2,4-D
BENZ	Benzene
BOD	Biological oxygen demand
CBOD	Chemical biological oxygen demand
CD	Consent Decree
CHROM	Chromium
CO	Carbon monoxide
COD	Chemical oxygen demand
CON	Container
CON. DEC. VIOLATIONS	Consent Decree Violations
CONV	Consent Decree Violations
CR	Chromium
CU	Copper
FC	Fecal Coliform
HI	Hydrogen Iodide
H2S	Hydrogen Disulfide
NH3	Chemical compound
NH3-H	Chemical compound
NH5-N	Chemical compound
NH5-N-FE	Chemical compound
NH6-H	Chemical compound
NOX	Nitrogen Oxide
OP	Opacity
PM	Particulate Matter
PMSO2	Particulate Matter plus Sulfur dioxide
POTW	Publicly owned treatment works
PSD	Prevention of significant deterioration
PWSMCL	PWS maximum containment level
RDNC	Radium & its decay products
S-S	Disulfur compounds
SO2	Sulfur Dioxide
TCE	Trichloroethylene/Tetrachloroethylene
TDS	Total dissolved solids
TOX	Toxics
TRC	Total residual chlorine
TSP	Total suspended particles
TSS	Total suspended solids
VIOLATION OF CAFO.	Violation of Final Order
VNCL	Vinyl Chloride
VOC	Volatile organic compound
VOL	Volatile
ZN	Zinc

Result - Disposition of case

CB	Consent decree with penalty & cost recovery
CN	Consent decree with no penalty
CO	Case was combined with another case
CP	Consent decree with penalty
CR	Consent decree with cost recovery
DB	Default order with penalty & cost recovery
DC	Court dismissed
DN	Default order, no penalty
DP	Default order with penalty
DR	Default order with cost recovery
LB	Litigated with penalty and cost recovery
LN	Litigated no penalty
LP	Litigated with penalty
LR	Litigated with cost recovery
VD	Voluntarily dismissed

NO FURTHER REMEDIAL ACTION PLANNED (NFRAP)

CERCLIS SITE REPORTS

from the

Environmental Protection Agency,
Office of Emergency and Remedial Response's
Sites Removed From CERCLIS Database

********** Comments: EPA NFRAP CERCLA Sites record search for Zip Code(s) 80010, 80011, 80045, 80207, 80239 **********

Contact Number: (703) 603-8918

Summary: The Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL. As of February 1995, CERCLIS sites designated 'No Further Remedial Action Planned' (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration.

EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties, which made it difficult to secure loans. This policy change is part of EPA's Brownfields Redevelopment Program to help cities, states, private investors, and affected citizens promote economic redevelopment of unproductive urban sites.

Key to printout codes:

RI: Radius Indicator Codes

A1(ex.) - Letter/Numeric combination indicates record in requested radius. Corresponding reference found on radius report.

(Blank) - Indicates location is outside requested radius. Further review is suggested.

** - Indicates location may or may not be in requested radius. Site has not been assigned a latitude/longitude coordinate. Further review recommended.

| Site Detail reports are available by faxing a site detail request to |
| DataSite at 1-512-250-9200. The reports will be returned by fax. |

TANK DETAIL REPORT

from the

Colorado State Oil Inspection Offices
Underground Storage Tank Database

********** -- NO DATA FOUND **********

Contact Number - (303) 289-5643

Key to Printout Codes:

Status:
OOS - Temporarily out of service

Age: Age of tank in years as of 4-1-94
UNK - Unknown

Material: Construction material of the tank
COMP - Composite of steel and fiberglass
CONCR - Concrete
FRP - Fiberglass reinforced plastic
OTH - Other
STL - Steel
UNK - Unknown

INTERVIEW SUMMARIES

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Storehouse
Building No: 5
Date: 11/21/95
Name of Interviewee: Greg Jones X-8956
Job Title: Recreational Assistant
Storage Site or Area:
Time worked in Area: 2 years
How many people work in this area:
Has this area ever had another use: Formerly an office for day camp, currently storage.
Description of job functions in area: Recreational outlet.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: No

What substances are or were historically stored in this area:
Currently shelving, picnics and parties, soda dispenser, refrigerator, table, file cabinet/safe. Concrete floor.

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
None

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area:
None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
No

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Storehouse
Building No: 7
Date: 11/21/95
Name of Interviewee: Chris Meyer X-3178
Job Title: School Age Services Director
Storage Site or Area: Entire facility
Time worked in Area: 5 years
How many people work in this area:
Has this area ever had another use: Always been storage.
Description of job functions in area:
School age service director.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: No

What substances are or were historically stored in this area:
Paper goods, office supplies, basketballs

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
None

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area:
None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
No

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: ITR
Building No: 23
Date: 11/14/95
Name of Interviewee: Greg Jones
Job Title: Recreational Assistant
Storage Site or Area: Outdoor Recreation
Time worked in Area: 2 years
How many people work in this area: 3
Has this area ever had another use: Garage/Hangin' Tree Bar (before Officer's Club)
Description of job functions in area: - Storage area in Bldg. 23 has material removed from Officer's Club. - Recreational Retail Outlet.

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Manager of Community Club (new)

What substances are or were historically stored in this area:
Gasoline, batteries, and other maintenance materials.

Largest quantity stored: 5 gal/1 gal. gasoline cans
Length of time stored: indefinite - as needed
What hazardous or regulated materials or wastes are stored in this area:
Gasoline, oil, paint, batteries, sell propane.

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Same as historical material stored.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
Don't know of other hazards.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area: None

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area: None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). No

What remedial actions have occurred to remedy any releases: N/A

Do you know of other hazards located within this area (example asbestos, radon):
No. (Repainted last year.)

Do you know of any records that may assist us in determining past practices for this division, and/or area: No (DPW)

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: DFE Maintenance Shop (Tractor Shop)
Building No: 128
Date: 11/9/95
Name of Interviewee: Terry Mitchell/Virgil Thompson
Job Title: Supervisor
Storage site or area: Entire Facility
Time worked in area: 3 years/10 years
How many people work in this area: 3
Has this area ever had another use: Mule Barn
Description of job functions in area:
Maintenance - lawnmowers to road graders.
Parts cleaner to DPW for disposal.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself:

Vince Gelic (before 1984).

What substances are or were historically stored in this area:
Water-based soap solvent.
For 1 year, switched acid out of batteries and brought acid to Arsenal. Batteries stored on pallets. Once in a while, spills from batteries occurred. Used oil was stored. Antifreeze. Typical vehicle maintenance materials.

Largest quantity stored: 55 gal. drums (approximately 5)
Length of time stored: Indefinite - until used.
What hazardous or regulated materials or wastes are stored in this area:
Used oil hauled off for recycle.
Antifreeze is recycled now. Formerly, went down drain.
Floor drain to sanitary sewer.

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Used oil (500 gallon) tank - 4/5 years it has been in service.
Prior to the waste oil tank, all waste oil was stored on pallets and when 4-6 drums accumulated, brought to AAFES waste oil tank.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). No spills. Small oil stains on floor.

Approximately 5 years ago, a concrete pad was installed to hold the waste oil tank. At that time, the environmental department dug up soil that was saturated with waste oil. Road and Grounds took contaminated soil away.

What remedial actions have occurred to remedy any releases:
None

Do you know of other hazards located within this area (example asbestos, radon):
Removed asbestos from attic 2 years ago to install exhaust fans.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Transportation Division/Scale House (formerly animal research)
Building No: 130/210
Date: 11/8/95
Name of Interviewee: Harold Montgomery X-3006
Job Title: Chief of Transportation
Storage Site or Area: Both facilities
Time worked in Area: 12 years
How many people work in this area:
Has this area ever had another use: Building 130
1977 - Administrative Building (office of transportation).
Don't know prior. Heard may have been Beauty Shop, Orderly Room (Admin), or Snack Bar.

Building 210
1983 - Administrative Building/Scale House. Can't remember anything different.

Description of job functions in area:
Chief of Transportation

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself:
Anne Boyd, X-3938 - worked in Building 210 in 1980's
Mr. Porter, X-3922

What substances are or were historically stored in this area:
Not aware of any

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area: None

Is notification of storage required under CERCLA/RCRA: N/A

What hazardous or regulated materials or wastes are used in this area: None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). No

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
Asbestos removal in Building 130 in 1987/1988.
Asbestos removal in Building 210 in 1993/1994.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Army Community Service
Building No: 131
Date: 11/21/95
Name of Interviewee: Mr. Kubera X-8709
Job Title: Chief of Housing Divisions
Storage Site or Area: Entire Facility
Time worked in Area: 16 years
How many people work in this area:
Has this area ever had another use: Office space only
Description of job functions in area:
Chief of the housing division.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: No

What substances are or were historically stored in this area:
None

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
None

Is notification of storage required under CERCLA/RCRA:
No

What hazardous or regulated materials or wastes are used in this area:
None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
Not that he knows of.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
Not that he knows of.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Welcome Center
Building No: 132
Date: 11/21/95
Name of Interviewee: SFC Robert Sykes, Jr. X-8517
Job Title: Chief personnel processing center
Storage Site or Area: Entire facility
Time worked in Area: 1 year
How many people work in this area:
Has this area ever had another use: Currently has office furniture, air conditioners
Description of job functions in area:
NCOIC of building process, id cards, transfers, etc.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: No

What substances are or were historically stored in this area:
Currently stores office furniture and air conditioners.

Largest quantity stored:
Length of time stored:
What hazardous or regulated materials or wastes are stored in this area:
None

Is notification of storage required under CERCLA/RCRA:
No

What hazardous or regulated materials or wastes are used in this area:
None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No

What remedial actions have occurred to remedy any releases:

Do you know of other hazards located within this area (example asbestos, radon):
Heating pipes erupted and asbestos was an issue so my office moved to another location.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Danny Sullivan

What substances are or were historically stored in this area:
None

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area: None

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area:
None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
Believe asbestos abatement performed prior to 1979.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Storehouse/Archie's Warehouse
Building No: 145 (lumber) & 146
Date: 11/14/95
Name of Interviewee: Archie Jaramillo X-8083
Job Title: Tool & Parts Attendant (Truck Driver)
Storage Site or Area: Entire Facility
Time worked in Area: Approximately 22 years
How many people work in this area: 1
Has this area ever had another use: Has always been used as warehouse.
Description of job functions in area:
Warehouse manager receive, issue, deliver & stock lumber "Hugh M. Woods"

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Maloceous "Chicky" Cordova (worked for DPW)

What substances are or were historically stored in this area:
Outside was clay ground. Forklift used to get stuck. Drainage floor in middle goes to storm system. Sell to engineers just to DPW. Typical quantities as seen. Several solvents and chemicals present.

Largest quantity stored:
Length of time stored:
What hazardous or regulated materials or wastes are stored in this area:
See above

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Same as material historically stored.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
None to his knowledge. Many times unloaded material on streets.

What remedial actions have occurred to remedy any releases:
None

Do you know of other hazards located within this area (example asbestos, radon):
None

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Electrical and Plumbing Shop
Building No: 148
Date: 11/13/95
Name of Interviewee: Dave Wilcox
Job Title: Plumbing and Electrical Supervisor
Storage Site or Area: Entire Facility
Time worked in Area: 17 years
How many people work in this area: 15
Has this area ever had another use: Used to be horse stable.
Description of job functions in area: First line supervisor

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Danny Sullivan, Paul Davis

What substances are or were historically stored in this area:
Used to be small dip tank (small 5 gal.) but knows of no spill. Two flammable storage cabinets. Some chemicals stored inside and some chemicals stored in 116 and 251. Acids for formerly drain cleaners. Sulfuric acid used to be stored in Self Help Building. Leaks in 212 were so strong plumbers couldn't stand to go underneath.

Largest quantity stored: By pallet load; but not now.
Length of time stored: As needed.
What hazardous or regulated materials or wastes are stored in this area:
Same as historically stored.

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Same as historically stored.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No major spills.
Spills or leaks:

- About every building on post has had a sanitary sewer leak.
- Warehouse that burned in early 80s. Thinks it's next to Building 244.
- Manholes leak. Sides are brick with concrete bottoms.
- Storm system needs to be upgraded (according to code), but not as bad as sanitary sewer. Lines are undersized, problem with silt.

French drains:

- Basement stairwells. All 800-700 series have french drains
- Building 270 has sand pit and all floor drains
- Building 821 has outside washrack - sanitary sewer
- T-128 drains to pit and drains to sanitary sewer
- Washrack at sewer plant went to sand pits. Have bottoms on pits.
- Problems with leaks in steam lines (condensation)
- Some piping is direct buried piping and having problems. Usually didn't find asbestos in direct buried lines.(631, 630, 620, 621)
- Only center part of 251 (which formerly stored acids) was concrete.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
Some asbestos abatement, not done.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name:
Building No: 150, 145, 209, 208, 207, 149, 147
Date: 11/14/95
Name of Interviewee: Carol Mills
Job Title: Supervisor
Storage Site or Area:
Time worked in Area: 2 years
How many people work in this area: 6 carpenters, 12 people total for Bldg. No. 149
Has this area ever had another use: Bldg. 207 used to be preventive maintenance; pseudocarpenter shop. Building 150 has always been warehouse to her knowledge. Paint shop and metal shop are problem areas. In metal shop, stains on floor from leaking equipment.
Description of job functions in area:
First line supervisor

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Jimmy Martinez, X-8278; Angel Murquero, X-8556 (may know about root cellar)

What substances are or were historically stored in this area:
Bldg. 144 - Flammable Material Storage
- deal with hazardous materials
- don't generate haz. waste; except paints
- paints
- oily rags

Bldg. 147 may have plaster products with lime.
In Bldg. 150, locksmith was moved from 149 to 150 and sign shop was two different areas in 150.
Bldg. 207 has housing supplies

Largest quantity stored: 1 gal. quantity
Length of time stored: as needed
What hazardous or regulated materials or wastes are stored in this area:
Same as historically stored.

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Same as historically stored.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).

None that she's aware.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
Don't know of any other hazards. Asbestos on roof of 207.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Furnishing/Lumber/Sign Shop
Building No: 150
Date: 11/14/95
Name of Interviewee: Edward Hernandez, X-8185
Job Title: Maintenance Mechanic and Locksmith
Storage Site or Area: Carpenter Warehouse (west end of building)
Time worked in Area: 23 years
How many people work in this area:
Has this area ever had another use: Not to his knowledge.
Description of job functions in area:
Work on locks, doors, repair of roofs, windows, some electrical and plumbing.

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Leo Rguello

What substances are or were historically stored in this area:
Floor used to be wooden. Warehouse always used as furnishing warehouse. Always storage for grout. Contractors materials stored here before use.

- Remembers dip tank in 212 for stripping. Said strong solvent for stripping. Stripped car parts, furniture.
- Bldg. 327 used to have wood floor with barrels of pesticide leaking (SW corner).
- Bldg. at DPW AST storage yard (Building No. 142) used to be building where pesticides were stored years ago.
- At chicken shed north of general's garage used to store (Bldg. 3) weed killers.
- Bldg. 144 always used for storage (roads and grounds)
- Furnishing warehouse
- Store new appliances

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
None

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area:
None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No spills. Never handled hazardous materials.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
No

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Golf Course
Building No: 166/167/106/107
Date: 10/17/95
Name of Interviewee: Jim Long
Job Title: Golf Professional
Storage Site or Area: Golf Course
Time worked in Area: 3 1/2 years
How many people work in this area:
Has this area ever had another use: No
Description of job functions in area: Golf professional

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: No

What substances are or were historically stored in this area:
Gas/oil for maintenance of golf carts and golf course. Other maintenance chemicals and paint.

Largest quantity stored: 55 gal. drums
Length of time stored: as needed
What hazardous or regulated materials or wastes are stored in this area:
Gas/oil in general golf course maintenance areas
Building 106 - fertilizers (just poured 1/2 concrete floor last year).
Building 107 - shovels, rakes - has a dirt floor.

Is notification of storage required under CERCLA/RCRA: Yes

What hazardous or regulated materials or wastes are used in this area:
Waste oil tank on concrete pad outside of Building 167. Concrete pad was cracked. This pad formerly stored fertilizers and old batteries stored outside.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe):
When constructed new golf cart storage building approximately one year ago, they moved the gasoline tanks and waste oil tanks. Environmental office required golf course to dig up dirt under the tanks. New building has a floor drain that discharges to the ground.

What remedial actions have occurred to remedy any releases:
Environmental office required dirt in area to be dug up. Monitoring wells on golf course closed with pea gravel one year ago.

Do you know of other hazards located within this area (example asbestos, radon):
No

Do you know of any records that may assist us in determining past practices for this division, and/or area: No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Driver Testing Office and Garage Motor Pool
Building No: 204
Date: 11/13/95
Name of Interviewee: Karla Haley
Job Title: Project Manager/Supervisor of Motor Pool Area - Contracted Phoenix Management
Storage Site or Area: Motor Pool Area
Time worked in Area: 6 years
How many people work in this area: 3 people
Has this area ever had another use: Not to her knowledge
Description of job functions in area: Dispatch vehicles. Following up on scheduled maintenance. Discontinued vehicle maintenance at buildings in 1988.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Dennis Newmiller (QA) X-8237. Ran motor pool before went to work for contractor.

What substances are or were historically stored in this area:
Doesn't know.

Largest quantity stored: 2 gallon containers; maybe 3 at a time.
Length of time stored: as needed
What hazardous or regulated materials or wastes are stored in this area:
Antifreeze, oil, vehicle fluids as needed. Vehicle soap.

Is notification of storage required under CERCLA/RCRA:
Unknown.

What hazardous or regulated materials or wastes are used in this area:
Same as material currently stored.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
None to her knowledge.

What remedial actions have occurred to remedy any releases:
None

Do you know of other hazards located within this area (example asbestos, radon):
Checked on asbestos, but no abatement.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
See Dennis Newmiller

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Supply Services
Building No: 205
Date: 11/13/95
Name of Interviewee: Major Williams, X-8002
Job Title: Contacting Officer
Storage Site or Area: Entire facility
Time worked in Area: 1 year
How many people work in this area: 28
Has this area ever had another use: 25 years ago turned to supply service, prior used as school building
Description of job functions in area:
Paperwork for contracts that occur on the post - all administrative

What permits are in use in the area: None
Have these permits ever been violated (please describe): No

Can you recommend others that may know the historical processes in this area better than yourself: No

What substances are or were historically stored in this area: None

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area: None

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area: None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). No

What remedial actions have occurred to remedy any releases: N/A

No

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: 213
Building No: Refrigeration and AC
Date: 11/15/95
Name of Interviewee: Orlando Argon, X-8860
Job Title: Maintenance Operation Supervisor
Storage Site or Area: West half of facility
Time worked in Area: 20 years (FAMC 23 years)
How many people work in this area:
Has this area ever had another use:
Description of job functions in area: 2 sides to the building. East side was used as meat cutting plant (shut down 20 years) and now used by food services for storage. Other side formerly used for ice making. Currently refrigeration maintenance.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: George Montano - Arvada

What substances are or were historically stored in this area:
- Ammonia system used to cool meat cutting plant refrigerants
- Refrigerants - water treatment chemical and oils
- Coil cleaners
- Solvents

Largest quantity stored: Numerous one gallon containers
Length of time stored: as needed
What hazardous or regulated materials or wastes are stored in this area:
Same as historical material stored

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Same as historical material stored

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
None other than ammonia many years ago. Ammonia system always had leaks. Would spill inside building.

What remedial actions have occurred to remedy any releases:
None

Do you know of other hazards located within this area (example asbestos, radon):
All asbestos removed completely and reinsulated or pipes.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Powerhouse
Building No: 215
Date: 11/15/95
Name of Interviewee: Dave Alitz
Job Title: Boiler Plant Foreman
Storage Site or Area:
Time worked in Area: 22 years (1973)
How many people work in this area: 10
Has this area ever had another use: No
Description of job functions in area:
Supervisor/Operator

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself:

What substances are or were historically stored in this area:
- chemicals stored upstairs
- boiler chemicals
- chemical solvents
- lime treatment
- sulfide (1848)
- steam cylinder oil (9150)
- light oil #68
- hydraulic oil #98
- advantage +1400

Largest quantity stored: 55 gal. drums
Length of time stored: as needed
What hazardous or regulated materials or wastes are stored in this area:
Used to store chemicals in chemical room. Most waste is turned in. Waste oil was stored throughout plant or down the drain. Additive put into tanks to disperse.

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Thinks changed from coal to oil in 1950s. Tool room/parts shop used to be oil.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
Many small spills in boiler plant. Some of tanks in tank farm have boiled over and/or leaker. Put sand on boiled over and removed somewhere. 3,400 gallons. Parking area filled 3/4" deep. Coal - oil - gas

What remedial actions have occurred to remedy any releases:
Boilers for oil/gas built in 1946. Ash pits are covered with cement and boilers.

Do you know of other hazards located within this area (example asbestos, radon):
Asbestos throughout.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
Elmer Widdmier (11/17/95).
Spills:
Late 70's waivers were not in correct configuration and large overflow. Thinks some went down the storm drain.
Early 80's tank overheated and came out tube (20-50 gal. tubes).
Tanks in tank farms are sitting in saddles (made out of concrete) outside in ground and filled in gravel.
Tanks 7 & 13 suspected leaks. Have been emptied as much as possible. Emptied tanks are no longer needed.
15 tanks total
leakers are not necessarily older tanks.
early 1960's

Building No: 228
Date: 11/15/95
Name of Interviewee: Spc. Swanson
Job Title: Preventive Medic Specialist
Storage Site or Area: Entomology
Time worked in Area: 2 1/2 years
How many people work in this area:
Has this area ever had another use: Used to be jail.
Description of job functions in area: Perform research on insects and rodents.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Francis Maloney (X-8189/5836)

What substances are or were historically stored in this area:
Pesticides. Acetone. Methylene chloride. Dispose 833 - hospital disinfectant, sometimes bleach, alcohol, acetone down the drain.

Largest quantity stored: 5 gallons
Length of time stored: as needed
What hazardous or regulated materials or wastes are stored in this area:
See materials historically stored.

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
See materials historically stored.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No spills known.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
No

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Flammable/Corrosives Material Storage
Building No: 243/244
Date: 10/5/95
Name of Interviewee: Doris Lewis
Job Title: Quality control with hazardous materials. Coordinator for supply branch logistics.
Storage Site or Area: 211 former hazardous waste storage. 243/244 always hazardous materials.
Time worked in Area: 16 years
How many people work in this area: 1
Has this area ever had another use: Always been used for hazardous material storage.
Description of job functions in area: Pharmacy - packages all expired materials. All materials that expire are disposed through DPW. Sell materials to hospital. 2 years ago hazardous waste tracking began (DPW).

What permits are in use in the area: None.
Have these permits ever been violated (please describe):
N/A

Can you recommend others that may know the historical processes in this area better than yourself:
1. Ted Moore - Photo Lab
2. Pathology
3. Pharmacy
4. Golf course (machine shop)
6. Sammy Stabbard 243/244
7. PX garage
8. Medical maintenance
9. Paint shop DPW (Nathaniel Howard)

What substances are or were historically stored in this area:
All types of flammable or corrosive material.

Largest quantity stored: as ordered
Length of time stored: Shelf life or until someone comes to get it.

What hazardous or regulated materials or wastes are stored in this area:
Elise - 1 year ago came to get all chemicals.

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
Developer and Fixer solution - southwest recycle - part of logistics - Contractor picks up (started approx. 1 year ago). Radiographics pours waste down the drain.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe)
Optical Fab - LC100. Temp fluctuated and product came out at seams of 55 gallon drum (2 years ago). 1 55 gallon drum of formaldehyde spilled when a Forklift turned too fast. No cracks in floor.

What remedial actions have occurred to remedy any releases:
MSDS mop up with soap and water - turned over to DPW for disposal. SPCC plans were followed.

Do you know of other hazards located within this area (example asbestos, radon):
Asbestos - has been removed from numerous buildings.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
Mary Tankersky - order all chemicals 243/244.

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Wastewater Treatment Plant
Building No: 265/19/253/267
Date: 10/17/95
Name of Interviewee: Shari Matousek
Job Title: Wastewater treatment plant operator
Storage Site or Area: Entire treatment plant
Time worked in Area: 3 years
How many people work in this area: 2
Has this area ever had another use: No
Description of job functions in area: Lab testing, maintenance, grounds keeping.

What permits are in use in the area: NPDES
Have these permits ever been violated (please describe): Need to go to NPDES records

Can you recommend others that may know the historical processes in this area better than yourself: Dan Sullivan - 2nd level manager X-3500. Sue Errett

What substances are or were historically stored in this area:
Sludge, chlorine, lab chemicals down drain, digester/heat exchange system.

Largest quantity stored: 3, 1-ton cylinders of chlorine
Length of time stored: 1 tank - 1 1/2 months
What hazardous or regulated materials or wastes are stored in this area:
Building 265 chlorine, lab chemicals.
Building 253 chlorine cylinder (formerly)
Building 19 1 chlorine cylinder at a time

Is notification of storage required under CERCLA/RCRA:
Yes

What hazardous or regulated materials or wastes are used in this area:
chlorine, lab chemicals

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe)
- minor leak (approximately 6 mos. ago) chlorine
- cases where elevated pH or discolored water noted

What remedial actions have occurred to remedy any releases:
No remedial actions.

Do you know of other hazards located within this area (example asbestos, radon):
- LBP - yes

Do you know of any records that may assist us in determining past practices for this division, and/or area:

daily logs - have
- phosphorus
- BOD
- suspended solids
- COD
- ammonia
- O&G
- volatile acids
- pH
- alkalinity

Length of time stored: as needed
What hazardous or regulated materials or wastes are stored in this area:
Toner for copy center.

Is notification of storage required under CERCLA/RCRA:
No

What hazardous or regulated materials or wastes are used in this area:

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). No

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
This building is still full of asbestos.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Printing Operations - Postwide
Building No: 316/630 [also chemical storage 333/521]
Date: 11/22/95
Name of Interviewee: Rocky Eldridge (340-3494)
Job Title: Production Supervisor
Storage Site or Area:
Time worked in Area: 15 years
How many people work in this area: 5 people when print shops were operating
Has this area ever had another use: 316 ground floor - print shop. Formerly barracks.
Description of job functions in area: 316/630. No haz. waste other than toner. In 1992, all print shops went to high speed duplicators. In 1981, print operations were conducted in room behind curtain in Bldg. 521. Estimate used as print shop for 8 years, moved in 1982 moved to 316. Chemicals were stored by printers, paper was under stage. Up to approximately 1985, chemicals/conversion solution was put down sink. At theater as well. Suspects something wrong with piping. Thinks printing press may have been in Bldg. 630 approximately 10 years. Recommend calling Bill Orchard for confirmation. Contacted Bill Orchard. He stated to his knowledge print press was located in Building 611, not 630. Removed press approximately 10 years ago. Kept inks and solvents in Building 611. Use Bldg. 630 for duplicating and supply area (toner, paper, pencils, ink).

What permits are in use in the area: No
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Bill Orchard 361-1300

What substances are or were historically stored in this area:
Chemicals were solvents, inks.

Largest quantity stored: 5 gal. containers
Length of time stored: as needed basis
What hazardous or regulated materials or wastes are stored in this area:
None other than toner.

Is notification of storage required under CERCLA/RCRA:
No

What hazardous or regulated materials or wastes are used in this area:
N/A

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No spills

What remedial actions have occurred to remedy any releases:
No

Do you know of other hazards located within this area (example asbestos, radon):
asbestos abatement under Bldg. 316 approximately 5 years ago.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Selective Service Administration
Building No: 318
Date: 11/8/95
Name of Interviewee: Dorothy Morris, X-4890

What substances are or were historically stored in this area: None

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area: None

Is notification of storage required under CERCLA/RCRA:
No

What hazardous or regulated materials or wastes are used in this area: None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). None to her knowledge.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
Have done some asbestos removal 4 years ago.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Leased Land South of Building 500
Building No: N/A
Date: 11/22/95
Name of Interviewee: Mr. Hanson (364-7530)
Job Title: Farmer - Hanson Farms
Storage Site or Area: Leased Land South of Building 500
Time worked in Area: Approximately 15 years
How many people work in this area: 1
Has this area ever had another use: Not to his knowledge
Description of job functions in area: No pesticides or chemical fertilizer on any land. Grows alfalfa and wheat for hay. Nothing put on land that would harm environment. One person before him, but never did anything with land. Prior to 1975 or '76, FAMC managed the land.

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: No

What substances are or were historically stored in this area:
None

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
None

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area:
None

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
No. Cement trucks doing general construction would dump cement on land and Hanson would clean up.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
No

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name:
Building No: 314,333,247
Date: 11/30/95
Name of Interviewee: Byron O'Bailey/Paul Davis
Job Title: Chief Property Management Branch, Property Installation Book Officer/Chief of Engineering & Operating Maintenance Division.
Storage Site or Area:
Time worked in Area: 30 yrs./22 yrs.
How many people work in this area:
Has this area ever had another use:
Description of job functions in area: See job titles.

What permits are in use in the area:
Have these permits ever been violated (please describe): No

Can you recommend others that may know the historical processes in this area better than yourself: Rodney Hair

What substances are or were historically stored in this area:

<u>314</u>

- An enclosed storage area for outboard motors.
  - Carpet
  - X-ray transformer (<0.0002 PCBs).
  - Maintenance records.
  - X-ray cables/shipping containers
- Always had a concrete floor.
  - No floor drains.
- X-ray transformers since 1969--no measurable PCBs.

<u>333</u>

- Wood floor buckling.
  - Theater with stage.
- Used for storage of beds and cabinets and chairs.
- Cabinet with lead shielding

- Dental X-rays.

- After Korean War, 1965-used as storage.

249

- Pipes broke--frost line 12' of building.
- Concrete--fix leaks in sewer lines

500

- 3 tanks pulled 89/90.
- Not leaking--Paul Davis.
- 1976 267 tank installed pulled 81/93. Tank wasn't leaking.
- 616 only incident with water

245

- Metal beds/chairs.
- Cabinets.
- Sweeping compound.
- Medical detergent used for cleaning glassware. (25 drums).
- F-11 baking soda--white powder.
- Squirrel ate through the cable--electrical problem cause of fire that destroyed building.

247/249

- O11 drip from forklifts.
- Warehouse--concrete sealer in most buildings.

532

- Overfilled tanks when initially installed - approximately 10 gallons.

519

- Old hazardous waste storage since 1920. Always a concrete floor.

600

- Nitrogen tank --300 lb. approximately 10 years.
- Never been hydrostatic tested.

628

- Dumped ground glass into sewer system.
- Neutralized baking soda.
- Drain line broken.
- Cleaned their drums out on back dock.

529

- Lead bricks--crated up.

601/602/603

- Research side.
- Electron microscopes, etc.
- Flammables, rads.
- Outbreak - research.

602/603

- Nut lab.
- Biological and chemical research.
- Mid '70's - operation transferred to Maryland.
- LSD research.

141

- Wash rack.

Landfill

- Sludge from solvent tanks.
- Mercury

Sewage Treatment Plant

- Mercury down sewer system.

1987/89

- Project to convert of all mercury switches.
- Approximately 2 years ago 400/500 series.

500

- Concrete now because spilled mercury.

1974

- Built PX--found 3 drums in parking lot of PX.
- Exercise area south of PX--suspect.

615 (625)

- Incinerator

529

- Old dry cleaning.

128

- North side.

206/207/208/209

- 209-catch basin--pump it out. Put it in 1984/85.
- In-suspect dumped paint and solvent onto ground (Joe Fergison (35 years-painter).

RV Park--Landfill

- 223
  - Former hobby shop.
  - Crafts, with chemicals--solvents, lead.
- 600 series -- bad piping problems.
- 612/613--waste oil/solvents, sprayed and found post for dust control.
- 600 area higher risk than 400 area.
- 511/514/515 as high as 600/
- 503/504/505 last of hazards
- Basement of 500--ash pit from incinerator--roach infested.

Paul Davies

Any x-ray transformer bought after '67/'68 would contain very little PCB.

- Some of radioactive tumors were disposed in landfill.

- Area south of hospital has always been agricultural/hay field.
- Building 529 and 515 used to be dry cleaning. Had chemicals to do cleaning. building 510 used to be dry cleaning drop off and dry cleaner short period of time.
- Building 519 old chemical storage. Building 515 used to be practice surgery.
- Also burned material in landfills behind (accidents). 6-7 gal. frozen drums of LBP in landfills.
- 314/333/247/249/508 (part)/507/529
  - Old pediatric unit used to dispose mercury down drain. Used to be lab in 507.
  - Building 529 considered most contaminated. Steam and water lines are disintegrated.
  - Between 249 and new steam line up to boiler plant used to be gas line.
  - Building 212--under dip tank (hold 10,000 gal.), in crawl space was septic tank.
  - Semi-dip tank in building 209 suspect septic tank for draining tank.
  - Old x-ray hypo solution used to be flushed down drain. Buildings 212, 211, 500, 504 recovery units for hypo solution down drain.
  - Salvage yard used to store bulk chemicals for OFL.
  - NaCl used in sand piles.
  - Basement of 515, 529 can see asbestos.
  - Used to use lime whitewash exterior of buildings.
  - Rodney Hair (building 500) SGS.

Largest quantity stored: Bulk
Length of time stored: As needed.
What hazardous or regulated materials or wastes are stored in this area:
See substances historically stored.

Is notification of storage required under CERCLA/RCRA:
Yes.

What hazardous or regulated materials or wastes are used in this area:
Se substances historically stored.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). As discussed.

What remedial actions have occurred to remedy any releases: MST information.

Do you know of other hazards located within this area (example asbestos, radon):
See above.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
No.

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: N/A
Building No: N/A
Date: 11/28/95
Name of Interviewee: Angel Marquez X-8556
Job Title: Pest Control Applicator
Storage Site or Area:
Time worked in Area: 28 years
How many people work in this area:
Has this area ever had another use:
Description of job functions in area: Pest Control Applicator

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: N/A

What substances are or were historically stored in this area:
Approximately 8 years ago, all the pesticides and fertilizers were consolidated in Building 122. Prior to that time, these chemicals were stored at numerous locations at the post.

Building 141 still stores some pesticides that control mites on flowers.

Formerly fertilizers and herbicides were stored in Buildings 152 and 153. Fertilizers, including cyanide were stored in the bathrooms at the golf course. Fertilizers were also stored in Buildings 3, 5, and 7 on wood floors near the general's park. Building 142 formerly stored herbicides, and Building 519 formerly stored pesticides. Building 327 was used for pesticide and fertilizer storage for years. That building formerly stored malafolo, an all-purpose fly and insect pesticide.

The outdoor recreation center was formerly located at Building 222 and Building 632. Storage of equipment was located on the north side of both of these buildings.

Building 172 formerly stored pesticides and had stored motor oil and gasoline for years on a wood floor. This building has been demolished, but was formerly located to the south of Building 171.

In 1975, 30-40 drums were buried immediately east of the new central energy plant. Gasoline, diesel fuel, and fuel oils were present in some of these drums.

Building 609 formerly had a basement full of drums.

In 1986/1987, Building 245 burned down. The building stored ammonia, floor wax polishers and paper products. This building was a transfer point of pesticides. Pesticides were picked up the same day they were delivered.

The FAMC hazardous materials team responded to the fire with SCBAs and protective clothing. The City of Aurora hazardous materials team may have been there but he doesn't recall them being present.

Building 500 was formerly a bomb shelter and stored food and water supplies. X-ray films formerly were scattered all over the basement. The basement had a dirt floor until approximately 1990 when they covered the floor with concrete. An old corroded tank is present in the basement that is most likely associated with the sewer system.

Pesticides and fertilizers are not applied to the front open space.

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
N/A

Is notification of storage required under CERCLA/RCRA:
N/A

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: Clinical Investigations-Hazardous Waste
Building No: N/A
Date: 11/22/95
Name of Interviewee: Sharon Noble (X-4029)

- Ask about chemicals in 610.

Job Title: Chemist/Chemical Hazard Officer
Storage Site or Area:
Time worked in Area: 29 yrs.
How many people work in this area:
Has this area ever had another use:
Description of job functions in area: 602 used to be CI (all kinds of chemicals). CI was also I n 601 and 600. 600 used to be biochemistry except for TB Ward--always for CI biochemical chemical TB research. 228--one department (biochemistry).

What permits are in use in the area: None
Have these permits ever been violated (please describe): N/A

- **Can you recommend others that may know the historical processes in this area better than yourself:** Don Paine TB contact.

  - Doesn't know about under 601.

  - Underneath Bldg. 600 there used to be a leak--storage of radioactivity.

What substances are or were historically stored in this area:

- Most substances went down drain (historically).

- Never threw anything away.

Largest quantity stored: Historically ordered bulk chemicals -- ordered as needed, not lbs.--607 stored hazardous material.
Length of time stored:
What hazardous or regulated materials or wastes are stored in this area: All kinds.

Is notification of storage required under CERCLA/RCRA: Yes

What hazardous or regulated materials or wastes are used in this area: All kinds.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe). Floor in 600 had to be renovated because of radioactivity.

What remedial actions have occurred to remedy any releases: None.

Do you know of other hazards located within this area (example asbestos, radon): 602--some abatement.

Do you know of any records that may assist us in determining past practices for this division, and/or area: No

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: N/A
Building No: N/A
Date: 10/11/95
Name of Interviewee: Elise Sherva
Job Title: Environmental Protection Specialist - FAMC
Storage Site or Area: Entire Post
Time worked in Area: 2 years
How many people work in this area:
Has this area ever had another use:
Description of job functions in area:
Hazardous waste management. Not expired pharmaceuticals. Not film - silver (director of logistics). RCRA waste. Hazardous materials tracking through EPCRA. Silver fixer-recycle - not exceeded and chlorine. Sign manifests to DRMO and ENSCO for waste disposal (1 years so far).

What permits are in use in the area:
Have these permits ever been violated (please describe):

Can you recommend others that may know the historical processes in this area better than yourself: Ken Neeper, Joe Booth, Patty D.

What substances are or were historically stored in this area:
607 hazardous materials - former storage (nothing there now).
528 optical fabrication lab used until beginning 1994.
261 all hazardous wastes.

Largest quantity stored:
Length of time stored:
What hazardous or regulated materials or wastes are stored in this area:
wastes from DCI (Department of Clinical Investigation) formerly went down the drain to the wastewater treatment plant.

Is notification of storage required under CERCLA/RCRA:

What hazardous or regulated materials or wastes are used in this area:
Records have been kept for the last 2 years for hazardous waste disposal including manifests, inspections, hazardous waste profiles, disposal contracts.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe)

What remedial actions have occurred to remedy any releases:

Do you know of other hazards located within this area (example asbestos, radon):

Do you know of any records that may assist us in determining past practices for this division, and/or area:

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: N/A
Building No: N/A
Date: 11/28/95
Name of Interviewee: Lieutenant Colonel Skillman X-3194
Job Title: Chief of Infections Disease
Storage Site or Area: N/A
Time worked in Area: N/A
How many people work in this area:
Has this area ever had another use: N/A
Description of job functions in area: N/A

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: N/A

What substances are or were historically stored in this area:
The tuberculosis (TB) wards located on FAMC in 1918 were primarily used for TB patients to rest, and ingest food with good nutritional value. The TB wards at FAMC were good because of the amount of sunshine and the elevation of the facility. The bacteria in the lungs need oxygen so the higher elevation decreased the amount of oxygen available to the bacteria. Surgery was used to collapse the patients lungs and some patients lungs were filled with ping pong balls to restrict the amount of oxygen available to the bacteria. No drugs were used to treat the patients until drugs were invented in the 1930s/1940s.

The first successful drug available to treat TB was strictomycin. This drug caused some side effects including kidney failure in some patients.

The infections formerly present at FAMC should not be living today. The only disease that is known to live for decades is anthrax, which was not treated at FAMC. For all of the diseases treated at FAMC, the infections would have been dead within a short time frame.

Any medical waste that was washed down the drains at FAMC and potentially may have leaked through cracked piping systems should have been dead within a short time frame and should not pose a current problem to FAMC. The incinerators at FAMC used to burn medical waste since 1918 should not pose any current biological problems.

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: N/A
Building No: N/A
Date: 11/27/95
Name of Interviewee: Dan Sullivan
Job Title: Chief of Utilities
Storage Site or Area:
Time worked in Area: 19 years
How many people work in this area: N/A
Has this area ever had another use: N/A
Description of job functions in area:

What permits are in use in the area:
Have these permits ever been violated (please describe):

Can you recommend others that may know the historical processes in this area better than yourself: Mr. Chester Goodwin 423-9128 (formerly plumbing foreman)
Gary Wolf/Lou Eirogon X-3258 (planners)
Vince Gelic-mechanic in Building 128

What substances are or were historically stored in this area:
N/A

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
N/A

Is notification of storage required under CERCLA/RCRA:
N/A

What hazardous or regulated materials or wastes are used in this area:

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe).
All of the piping beneath the buildings at FAMC have had leaks at one time or another. I would feel comfortable saying that buildings greater than 50 years old that have consistently poured hazardous waste down the drains have contaminated the soil beneath these buildings.

I formerly dumped dip tank solvents on the west side of Building 149 for weed control.

Building 3 formerly stored lawn equipment, oils and gases.

Building 328 has been an office building, however, this facility used to be a veterinary clinic and have animals.

Building 165 is currently storage of computer equipment. Formerly was residential.

Building 171 is an old building with a wooden floor soaked with oils and greases located east of maintenance garage.

Building 212 had a solvent dip tank that has contaminated the soil beneath the building. It smelled like MEK.

Building 137 formerly stored lawn equipment, paints and gasoline.

Building 141 currently stores some pesticides.

Wash racks were formerly located near Buildings 264, 820/821, and 313. Only the one at 820/821 is still operational.

A man who formerly worked at FAMC roads and grounds and is currently deceased told Dan Sullivan that he buried drums of hazardous waste on the east side of post.

What remedial actions have occurred to remedy any releases:
N/A

Do you know of other hazards located within this area (example asbestos, radon):
N/A

Do you know of any records that may assist us in determining past practices for this division, and/or area:

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: N/A
Building No: N/A
Date: 10/20/95
Name of Interviewee: Jes Taffola
Job Title: Retired Fire Chief - FAMC
Storage Site or Area: Fire Department
Time worked in Area: 1965-1985
How many people work in this area:
Has this area ever had another use:
Description of job functions in area:
Acted as fire chief for FAMC from 1965-1985.

What permits are in use in the area:
Have these permits ever been violated (please describe):

Can you recommend others that may know the historical processes in this area better than yourself:

What substances are or were historically stored in this area:

Largest quantity stored:
Length of time stored:
What hazardous or regulated materials or wastes are stored in this area:
Think dumps at FAMC are surface dumps.
1970s - demolished incinerators south of wastewater treatment plant.
Landfills - everything in there - doesn't know if hazardous.
Lots of bricks (fire) in the landfill.
When demolished incinerators, waste went into dump.

Is notification of storage required under CERCLA/RCRA:

What hazardous or regulated materials or wastes are used in this area:
Always kept biomedical wastes separate.

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe)
A fire occurred in the barracks area.
For small gas spills we used absorbent.

What remedial actions have occurred to remedy any releases:

Do you know of other hazards located within this area (example asbestos, radon):

Do you know of any records that may assist us in determining past practices for this division, and/or area:

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: City of Aurora
Building No: N/A
Date: 10/19/95
Name of Interviewee: Mr. Jones
Job Title: Fire Chief - City of Aurora
Storage Site or Area:
Time worked in Area: 22 years
How many people work in this area: N/A
Has this area ever had another use: N/A
Description of job functions in area: Responded to fires, hazardous materials logbooks are available. Every building within Aurora inspected one time per year for hazardous materials and a fire prevention inspection. 200 businesses are audited for hazardous materials response.

What permits are in use in the area: N/A
Have these permits ever been violated (please describe):
SARA Title III - 4-5% compliance within responsible area.

Can you recommend others that may know the historical processes in this area better than yourself:
Carol and Barton Wong - all waste sites in Aurora.
Earle Collins - Assistance Fire Marshall
-Fire inspection files
-Hazmat audit - both here and at Station 1
Tammy Painter - office
-Senior Inspector (writes up inspection)
Tim Sawyer - Field hazmat person

What substances are or were historically stored in this area:
Many old facilities with spills - need address or name of business. Late 60s/early 70s - Interstate 225 was built.

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:
See hazmat inspection reports.

Is notification of storage required under CERCLA/RCRA:
Possibly.

What hazardous or regulated materials or wastes are used in this area:
See hazmat inspection reports

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe)
- Bachelor officers quarters fire
- Building fire - 1980/1981 (chemical 55-gallon drums)

What remedial actions have occurred to remedy any releases:
See City records - Tri-County Health Department

Do you know of other hazards located within this area (example asbestos, radon):

Do you know of any records that may assist us in determining past practices for this division, and/or area:
Bruce Wilson - Tri County Health Department #220-9200

GENERAL INTERVIEW QUESTIONNAIRE
FITZSIMONS ARMY MEDICAL CENTER

Building Name: City of Aurora, Fire Station No. 1
Building No: N/A
Date: 10/25/95
Name of Interviewee: Captain Jack Brenan
Job Title: Fire Chief
Storage Site or Area:
Time worked in Area: 9 years
How many people work in this area:
Has this area ever had another use:
Description of job functions in area:
The City of Aurora Fire Department backs up the FAMC Fire Department on a regular basis.

What permits are in use in the area: N/A
Have these permits ever been violated (please describe): N/A

Can you recommend others that may know the historical processes in this area better than yourself: Ralph Scalf - Retired Fire Chief at 366-8497

What substances are or were historically stored in this area:
On familiarization tours - we noted PCB transformers in the basement of 500.

Largest quantity stored: N/A
Length of time stored: N/A
What hazardous or regulated materials or wastes are stored in this area:

Is notification of storage required under CERCLA/RCRA:

What hazardous or regulated materials or wastes are used in this area:

Do you know if any spills or incidents (past or present) that have caused release of regulated materials in this area (Please describe)
Trailer park across river to the east of Fitzsimons old landfill is located in that area. People in the area on wells, the wells are contaminated (in trailer park), and houses south of trailer park.

What remedial actions have occurred to remedy any releases:

Do you know of other hazards located within this area (example asbestos, radon):
asbestos - barracks fire; PCBs in basement of 500.

Do you know of any records that may assist us in determining past practices for this division, and/or area:
Surrounding properties - no significant problems. Numerous old filling stations in the area.

APPENDIX F

VISUAL INSPECTION SUMMARIES

VISUAL INSPECTION FORM

BUILDING NO: N/A

BUILDING NAME: Landfill 2

LOCATION: Northern End of Post

DATE OF INSPECTION: 10/17/95

OBSERVATIONS:

Due to the construction project currently underway for a central energy plant, Landfill 2 was being used as a staging area for construction debris at the time of our visit. Concrete, asphalt, piping and wood debris were observed. In addition, what appeared to be ash and an empty 55-gallon drum were observed. Given that Landfill 2 is being used as a staging area, no waste was exposed from below the ground surface.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 3

BUILDING NAME: Store House

LOCATION: West Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Wood structure with a wood floor.
- Storage for sprinklers, hoses, lawnmowers, gas.
- Gravel area with reinforcing bar and hoses.
- No evidence of staining observed.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 15

BUILDING NAME: Garage

LOCATION: West Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floors, no floor drains.
- Wood structure.
- Personal belonging storage.
- No evidence of staining was observed.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 19

BUILDING NAME: Chlorine House

LOCATION: West Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Formerly stored only 1 bottle of chlorine in facility. Gas cylinder no longer present.
- No evidence of staining or unhealthy vegetation.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 20

BUILDING NAME: Water Reservoir Pumping Station

LOCATION: West of Building 19

DATE OF INSPECTION: 10/17/95

OBSERVATIONS:

Backup diesel tank; tank approximately 6 months old. Historical reservoir (1,000,000 gal) used for emergency purposes only. Historically, City of Denver water pumped directly to water tower and then to consumers. When tower was demolished, the backup reservoir has been committed to be used permanently. No chlorination is done here, however formerly it was. The City of Denver provides pressure sufficient for distribution system. The post constantly circulates water in the reservoir. No signs of contamination were noted in this area.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 21

BUILDING NAME: Garage

LOCATION: West Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Dirt floor with wood frame structure.
- Storage for Boy Scouts including tents, flags, camping equipment.
- No hazardous materials noted.
- No evidence of a release of a hazardous constituent or petroleum product was observed.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 23

BUILDING NAME: ITR

LOCATION: Northwest Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Retail store-skiing and rental.
- Garage storage (storage for Officer's Club).
- Gasoline and oil, paint, batteries for maintenance on their equipment.
- Equipment stored on asphalt (Roy-new Officer's Club manager)

NOTES:

- Boats, camper, tractors, bikes, snow blowers, lawnmowers.
- Troph with used oil, batteries, gas tanks, dirt ground.
- 1, 55-gallon empty drum, gas tanks.
- Batteries being recharged.
- Indications of staining on ground.

VISUAL INSPECTION FORM

BUILDING NO: 115

BUILDING NAME: Storehouse

LOCATION: Centrally Located on the Post

DATE OF INSPECTION: 11/30/95

OBSERVATIONS:

- Storage for furniture, maps.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 122

BUILDING NAME: Pesticide Storage

LOCATION: Centrally Located on the Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Concrete floors, drop ceiling.
- Office space.
- Mixing room -- concrete floor , sink with separate vent hood, all equipment--respirators, etc. present.
- Locked dangerous chemical storage.
- Overpacked drums, equipment, gloves.
- No evidence of spills were observed.

NOTES:

Herbicides

- Roundup, herbicides, weed killer.
- 55-gallon drums.
- Floor is rusted, stained.

Insecticides

- Organic phosphate.
- Naphthalene.

VISUAL INSPECTION FORM

BUILDING NO: 128

BUILDING NAME: Maintenance Shop/Tractor Shop

LOCATION: West Side of Post

DATE OF INSPECTION: 11/9/95

OBSERVATIONS:

- Antifreeze used to be disposed via drain till about 8 months ago.
- Waste oil is recycled.
- Floor drain is connected to sanitary sewer.
- Used oil tanks are drained by outside contractors.
- Used oil used formerly stored in 55 gallon drums.
- For about 1 year, used to drain acid from batteries.
- Stained concrete floor from oil.
- Sump in floor drain.
- Trash truck is sprayed off outside.
- Removed asbestos from attic (about 2 years ago).
- Soil underneath pallets outside where 55 gallon drums were stored was dug up.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 129

BUILDING NAME: Garage

LOCATION: Northwest Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floor, wood framed structure.
- Unit III-I, concrete over a rectangular area.
- Storage for family housing.
- No evidence of staining was observed.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 143

BUILDING NAME: Marty's Garage (former-currently vacant)

LOCATION: West Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Concrete floor, wood structure.
- Floor drain and manhole, stained floors
- Power plant chemicals
  - 13, 55 gallon drums.
  - Lubricating oil.
  - Combustion improver.
  - Deposit inhibitor
  - Caustic soda.
  - Catalyzed sulfide.

NOTES:

- Dirt floor on west side -- storage of tractors, trucks.
- Large oil stain.
- Evidence of poor housekeeping.

VISUAL INSPECTION FORM

BUILDING NO: 144

BUILDING NAME: Garage

LOCATION: Northern Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Garage still has a dirt floor and clay tile roof. Concrete and wood structure.
- Petroleum stains were observed.
- Equipment, tractors, vehicles, a generator, ceiling tile, air conditioning units, refrigerator.
- Desks and medical equipment, street signs are stored in this building.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 145

BUILDING NAME: Self Help Center

LOCATION: Northwest Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

Self Help Center

- 200 gallons of paint.
- Air filters
- Garden maintenance tools, grass seed, screens, light bulbs.
- Black stain (oil) noted on concrete floor/wood structure.

Metals Shop

- Machine shop (potential for PCB).
- Stains all over floor in several locations.
- Air compressor is leaking
- Northernmost garage bay appears to have been trench drain at one time (?).
- Appears to have been a reinforced slab or used for another purpose in the past.

Outside

- Wood plywood storage.
- Lawnmowers.
- Old transformers on pallets.
- 3, 55-gallons of floor wax on pallets.
- Grate to collect runoff--where does it go? Archie says to storm sewer.
- Formerly no pavement, dirt parking lot. Potential for spills to enter dirt parking lot.

VISUAL INSPECTION FORM

BUILDING NO: 146

BUILDING NAME: Archie's Warehouse

LOCATION: Center of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Wood structure with concrete floors.
- Storage of radlyne, pipe opener, adhesive, paint, sinks, turpentine, enamels, spray paint, clean rags.
- Flammable cabinet with compressed gas propane, concrete sealer.
- Materials including parts, valves, plumbing equipment, light bulbs.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 147

BUILDING NAME: Storage Shed

LOCATION: Centrally Located on Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Cement storage, tiles, plaster, sheetrock, concrete sealant.
- Concrete floors and walls.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 148

BUILDING NAME: Plumbing Building

LOCATION: Centrally Located on Post

DATE OF INSPECTION: 11/13/95

OBSERVATIONS:

- Flammable storage--gasoline only. Floor drain--to sanitary sewer.
- Plumbing equipment and supplies.
- Concrete floor, wood structure, and ceiling.
- Large manhole and vault to heating lines.

NOTES:

- Questionable piping beneath facility - may be a pathway to soil beneath facility.

VISUAL INSPECTION FORM

BUILDING NO: 149

BUILDING NAME: Carpenter's Shop

LOCATION: Center of Base

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Concrete floor, wood framed structure.
- Wood cutting/shaping equipment.
- Flammable cabinet with spray paint, paint thinner.
- An air compressor was observed.
- Tools in a separate room.
- Office space with tables and chairs, refrigerator.
- Locksmith area--formerly cut keys.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 150

BUILDING NAME: Sign Shop/Housing Warehouse/Self Help Center/Facility Engineering Receiving

LOCATION: Northern Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

Locksmith

- Locksmiths--old paint booth from former sign shop.
- Flammable storage cabinet with paint, adhesives, charcoal lighter fluid.
- Equipment for door knobs, handles, etc. Key grinders.

Furnishing Warehouse

- No entry--store stoves, refrigerators, new appliances.

DEH Sign Shop

- Linoleum floor, wood/concrete block structure.
- Flammable cabinet with lacquer, solvent degreaser, paint, paint thinner.
- Equipment including wood saws, saws, drills, materials to make signs such as plastics, papers, tape.

Warehouse Storage Area

- Storage for piping, lights, wiring, screens, furnace, roofing cement, 5-gallon pails of aluminum coating.
- Pallet with paints and lacquer--rusting.
- No evidence of staining was noted.

VISUAL INSPECTION FORM

BUILDING NO: 152

BUILDING NAME: Farm Implement Sheds

LOCATION: Northern Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Salt placed over a black oily spill.
- Equipment including tractors, shredders, lawnmowers, backhoe, grader.
- Building has concrete floor, wood structure corrugated steel siding.
- 2 pallets of cement.

<u>To the West</u>

- Fencing, blockades, piping, paneling, saw horses, gravel corner lot.

<u>Temporary Shed</u>

- Wood frame and wood floor, storage of racks, fertilizer, sprinkler, hoses.
- Asphalt placed on south side.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 153

BUILDING NAME: Farm Implement Shed

LOCATION: Northern Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Asphalt floor staining with oil and salt. Wood frame and corrugated steel siding.
- Stores graders, road sweepers, backhoe, telephone truck.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 155

BUILDING NAME: Garage

LOCATION: North End of Base

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Entered northern most garage. Wood siding inside, and concrete floor.
- A concrete structure in the floor resembled a grease pit. Two concrete slabs (3' x 2') together in the floor--access to steam piping beneath.
- The other units don't have the concrete slabs--no floor drains either, just concrete slab.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 156

BUILDING NAME: Garage

LOCATION: North Side of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- The units have concrete floors, wood interior.
- No floor drains were noted. No access to piping vault.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 166

BUILDING NAME: Garage

LOCATION: West Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floor and wood structure.
- Storage of refrigerator, soda, tables.
- Motors, rototillers, water tank, spray paint, lawnmowers, facility used for painting infrequently.
- Crawl space for piping systems.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 167/16/107

BUILDING NAME: Golf Course Garages

LOCATION: Northwest Corner of Post

DATE OF INSPECTION: 10/17/95

OBSERVATIONS:

- Construction debris located adjacent to Building T-106. Maintenance equipment tractors, etc. stored outside.
- Two ASTs holding diesel fuel with dirt berm located adjacent to Building T-107.
- New golf cart storage facility has a floor drain that discharges to the ground.
- Waste oil tank located on cracked concrete pad which formerly stored pesticides.
- Old batteries stored on wooden palette above dirt ground.

NOTES:

Please see interview questionnaire.

VISUAL INSPECTION FORM

BUILDING NO: 169

BUILDING NAME: Garage

LOCATION: Northwest Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floor and wood framed structure.
- Storage for fire department including fire extinguishers, calcium chloride pellets, gasoline, paint, ladder, jack, brooms, buckets, lacquer thinner, paint thinner, turpentine.

Shed

- Empty gas can and fire extinguishers.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 171

BUILDING NAME: Driving Range

LOCATION: East of Golf Course

DATE OF INSPECTION: 11/30/95

OBSERVATIONS:

- Wood floor--wood structure.
- Golf ball washer with soap suds on the floor.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 200

BUILDING NAME: Motor Pool - Old Dispatch Office

LOCATION: Center of Post

DATE OF INSPECTION: 11/13/95

OBSERVATIONS:

- Small bathroom.
- Keep microwave and refrigerator and copy machine.
- Currently used for office storage.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 201

BUILDING NAME: Motor Pool - Garage

LOCATION: Center of Post

DATE OF INSPECTION: 11/13/95

OBSERVATIONS:

- Grease pits (3) connected via tunnels.
- Storage area to side with junk and pump and drum (plastic) for storing wash fluid for washing vehicles.
- Storage area within tunnel system.
- Appeared to formerly be very busy maintenance area with oils and greases.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 202

BUILDING NAME: Motor Pool - Garage

LOCATION: Center of Post

DATE OF INSPECTION: 11/13/95

OBSERVATIONS:

- Keep scooters here and perform maintenance.
- Vehicles used to be washed here.
- Has grated pit but not sure where it goes--full of mud.
- Air compressor in side room--empty barrels of oil.
- Cemented pit where General stores his jeep and cannon for parade.
- Appeared to formerly be very busy maintenance area with oils and greases.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 203

BUILDING NAME: Wash Rack Area--Motor Pool

LOCATION: Center of Post

DATE OF INSPECTION: 11/13/95

OBSERVATIONS:

- New building used only for washing vehicles
- Floor drain in middle of building connected to sewer.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 204

BUILDING NAME: Motor Pool - Dispatch Office and Garage Area

LOCATION: Center of Post

DATE OF INSPECTION: 11/13/95

OBSERVATIONS:

- Building split up by 4ths.
- Appears to have grease pits (2) in 204. One is cemented, one is covered by wood boards.
- Storage area to side of building.
- All cement floors.
- Storm sewer manhole located north of dispatch office.
- Sewer drain located in middle of complex parking lot.
- Appeared to formerly be very busy maintenance area with oils and greases.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: **207/208/209**

BUILDING NAME: **Warehouse/Paint Storage/Paint Shop**

LOCATION: **Center of Post**

DATE OF INSPECTION:11/14/95

OBSERVATIONS:

#207 Concrete floors, wood framed structure, drop wood ceiling

- Screens, molding, blinds, doors.
- Metal covering concrete floor.
- Flammables cabinet with caulking, adhesive, grease spray, propane.

#208

- Outside-sump (square cover adjacent to a manhole).
- Paint storage.

#209 concrete floor, concrete structure, drop ceiling.

- 55-gallon drum of rags outside.
- Flammable storage cabinet outside.
- Paint, thinner, stains, spray paint.
- Floor drain (stained).

NOTES:

- Questionable area

VISUAL INSPECTION FORM

BUILDING NO: 212

BUILDING NAME: Maintenance Shop

LOCATION: Industrial Ave

DATE OF INSPECTION: 11/9/95

OBSERVATIONS:

- Machine Shop.
- Upholstery Shop.
- Electronic Shop.
- Asbestos Abatement approximately 2 years ago.
- Check on connections to sanitary sewer.
- Batteries are located on pallets next to floor drain.
- Fix X-ray equipment (shielded behind lead wall).
- Supply for paints.
- Fix all medical equipment on post.

NOTES:

- Cold storage area. Think might be poison room.
- Dip tanks to strip furniture removed about 12 years ago. Piping system deteriorated beneath dip tank and solvents dripped on the ground.

VISUAL INSPECTION FORM

BUILDING NO: 213

BUILDING NAME: Refrigeration Plant

LOCATION: Centrally Located on Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Entrance--floor drains to sanitary sewer.
- Concrete floor, brick structure building.
- Refrigerants, solvents, coil cleaners.
- Work tables, oils, equipment, propane, compressed gas cylinders of nitrogen, oxygen.
- Recover refrigerant (R-12) for reuse.
- Numerous 55-gallon containers of acids.
- Evaporator system always run with ammonia through the piping--brine solution around the stainless steel tanks for freezing the water.
- Cork insulation.
- Ammonia system 2nd dry containment run outside the brine solution.
- Concrete poured in 21' -- maybe wood prior to that.
- Shower--drip spot to sanitary sewer.

Drain Cellar Storage

- Swamp cooler pads.
- Fans.
- Filters.
- Heat exchanger.
- Refrigerants, solvents, coil cleaners
- Questionable area.

VISUAL INSPECTION FORM

BUILDING NO: 228

BUILDING NAME: Entomology Lab/Veterinary Clinic

LOCATION: Northeast End of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floor, sheetrock walls.
- Laboratory used to evaluate Limes disease.
- Flammable cabinet.

ID Room

- Microscopes, floor drain (smells sometimes, so they flush it).
- Floor drains in glassware cleaning area.

Insectery

- Floor drains.
- Storage of bugs, dead rats.

Laboratory

- Floor drains, laboratory equipment, microscopes, test tubes, refrigerator, sink.
- Hood labeled contaminated with pesticide.

Jail Cells

- Storage for equipment.

Animal Clinic

- Concrete floor.
- Kennels with floor drains to sanitary sewer.
- Generate medical waste.

- Cleaning supplies and alcohol.
- 12 years veterinary clinic.

Storage Shed 229

- Concrete floor in poor condition with wood frame.
- Appears to be a former outside kennel for military dogs.

NOTES:

- May be questionable area if piping beneath facility has had problems.

VISUAL INSPECTION FORM

BUILDING NO: 239

BUILDING NAME: Former Water Tower

LOCATION: Centrally located on the post southeast corner of the baseball fields

DATE OF INSPECTION: 10/17/95

OBSERVATIONS:

The location of the former water tower appears to be void of vegetation due to removal of soil when tower was removed. A concrete pad is located where the tower once stood. No significant indications of staining were noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 246

BUILDING NAME: Storehouse

LOCATION: Northern Portion of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floors and wood frame structure.
- Storage for sprayer, tank, mower, shredder, motors, air compressor, augers. Evidence of stains.
- Creosote around pole on ground.
- Concrete curbed area with ramp--use unknown.
- Concrete curbed area--filled with dirt.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 248

BUILDING NAME: Storehouse

LOCATION: North Central Portion of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floor and wood framed structure.
- 3 transformers, chairs, boxes, pallets.
- Dirt floor on east end of building.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 249

BUILDING NAME: Storehouse

LOCATION: North Central portion of post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

Commissary Storage

- Concrete floor with brick walls.
- Flammable cabinet with paint.
- Pallets, paper and plastic bags, couches, business furniture.
- Floor drain near handwash.

Refrigerator

- Stored shelves with brick walls
- No evidence of stains were noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 253

BUILDING NAME: Chlorine Storage

LOCATION: North Side of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floor in poor condition with wood framed structure.
- Empty facility.
- Evidence of staining on concrete (white).

NOTES:

A poster was noted on the wall that indicated power mowers and edgers were stored in this facility.

VISUAL INSPECTION FORM

BUILDING NO.: 265

BUILDING NAME: Wastewater Treatment plant

LOCATION: North Side of Plant

DATE OF INSPECTION: 10/17/95

OBSERVATIONS:

- An old 55-gallon drum used as a muskrat trap in lagoon.
- Piles from construction - construction debris east of waste water treatment plant.
- Produce 2 tons of sludge per year - sludge goes to a compost prior to being spread on flower beds. Recently, personnel been burying sludge.
- Lagoon discharges to lagoon to the west for irrigation of golf course.

NOTES:

Planned project to remove vegetation-liner system. 12 mil for vegetation control.

VISUAL INSPECTION FORM

BUILDING NO: 270

BUILDING NAME: Marty's Garage

LOCATION: North End of Post

DATE OF INSPECTION: 11/14/95

OBSERVATIONS:

- Concrete floors with floor drains (6) to front sump to sanitary sewer.
- Concrete blocks walls, no ceilings.
- Storage of degreasers, motor oil, transmission fluid, antifreeze, batteries.
- Parts, hoses.
- Hydraulic lift--potential for PCBs.

NOTES:

- Used oil storage (same place as UST pulled from)
- Oil water separator south side--from pressure washing drain in driveway.
- Oil water separator north side to collect from inside the building.

VISUAL INSPECTION FORM

BUILDING NO: 316

BUILDING NAME: Print Shop/Reproduction

LOCATION: East side of post

DATE OF INSPECTION: 11/9/95

OBSERVATIONS:

Printing operations were removed in 1993. Printing operations used to be located under stage in theater/finance building. Currently, no printing operations are going on at FAMC, all printing is subcontracted out. A small metal building was observed immediately east of Building No. 316. Informed that it formerly stored chemicals for printing operations. No signs of contamination were observed.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 328

BUILDING NAME: Veterinary Headquarters

LOCATION: Northeast Side of Post

DATE OF INSPECTION: 11/30/95

OBSERVATIONS:

- Strictly office space for at least five years.
- Desks, chairs, file cabinets.
- No hazardous materials or wastes present.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 502

BUILDING NAME: Medical Clinic

LOCATION: Southwest Corner of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Physical clinic and no chemicals found.
- Neurology clinic with some pharmaceuticals (minimal).
- Research clinic (need to go back).
- X-rays performed downstairs--treatment room.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 533

BUILDING NAME: Accelerator/MRI/CT

LOCATION: Centrally Located on the Post

DATE OF INSPECTION: 11/30/95

OBSERVATIONS: New Facility

Simulator Room

Laboratory

- Cadmium and lead used in ventilation hood. Waste is disposed via DPW.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 607

BUILDING NAME: Flammable Storage

LOCATION: Centrally Located on the Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Wood floor with concrete beneath.
- Concrete block walls.
- Wooden shelves.
- No hazardous materials stored at the time of our inspection.
- No evidence of staining was noted.

NOTES:

VISUAL INSPECTION FORM

BUILDING NO: 633

BUILDING NAME: Garage

LOCATION: West Central Portion of Post

DATE OF INSPECTION: 11/15/95

OBSERVATIONS:

- Concrete floor, wood framed structure.
- Storage for family housing. No hazardous materials, petroleum products, or staining noted.

NOTES:
