INTRODUCTION

Almost every naval officer will have contact with an administrative investigation (commonly referred to as a "JAGMAN" investigation) during their military career, either as an investigating officer or as a convening authority. The basic regulations governing such investigations are contained in the *Manual of the Judge Advocate General* (JAGMAN). The primary purpose of an administrative investigation is to provide the convening authority and reviewing authorities with information regarding a specific incident which occurs in the Department of the Navy. These officials will then make decisions and take appropriate action based upon the information contained within the investigative report.

Incidents investigated pursuant to the JAGMAN often provide the basis for a later claim against the Navy. This claim may even evolve into a lawsuit. When a suit is filed, the first document that is requested by both the attorneys representing the Navy and attorneys on the other side is the JAGMAN investigation. **There is nothing that will serve and protect the Navy's interest more effectively than a thorough, comprehensive and properly documented investigation.** Once a lawsuit is filed, it is likely the investigating officer will have been transferred and witnesses will have left the area. It is time-consuming, frustrating, and often counter-productive to try to reconstruct an incident or correct a slipshod investigation after months or years have passed. The key, then, is a thorough investigation conducted as soon after the incident as possible.

This handbook is designed to assist commanding officers and investigating officers with the administrative investigation process. There is no substitute for a working knowledge of Chapter II of the JAGMAN; this handbook is **not** designed to replace reference to, and study of, the source document. Rather, this publication gives you a simplified "nuts and bolts" summary to initially orient your approach to the investigative process.

The organizational approach to this handbook is to discuss how an investigating officer (IO) goes about conducting a Preliminary Inquiry, Command Investigation, or Litigation Report Investigation¹. Sample forms and report formats are provided. The checklists contained in this handbook will be particularly useful to both the IO and the convening authority (CA) in ensuring that the investigative report includes all necessary information and enclosures. The IO should review the checklists contained herein **prior** to initiating his/her investigative effort to see if there are specific informational requirements given the nature of the incident under investigation.

Additional information is provided regarding Line of Duty/Misconduct determinations and special considerations that apply in death cases. A discussion of command endorsements is also included.

Should you have any questions regarding JAGMAN investigations that are not answered

¹ Courts and Boards of Inquiry are not addressed - refer to JAGMAN, Chapter II, and JAGINST 5830.1 for procedures applicable to these more formal investigations.

in this handbook, you are encouraged to contact your station or staff judge advocate or the nearest Naval Legal Service Office/Marine Law Center. Questions may also be directed to the Civil Law Department, Naval Justice School, DSN 948-4437, COMM (401) 841-4437.

PRELIMINARY INQUIRY

The preliminary inquiry (PI) is a quick and informal investigative tool that can be used to determine initially whether a particular incident is serious enough to warrant some form of JAGMAN investigation. A PI is not necessarily required, however, it is "advised" for all incidents potentially warranting an investigation.

Method of inquiry. The convening authority (CA) may conduct a PI personally or appoint a member of the command to do so. There are no requirements nor restrictions governing how the inquiry is to be accomplished. The goal is to take a "quick look" at a particular incident (e.g., a minor fender-bender), and gather enough information so that an informed decision can be made regarding whether some sort of JAGMAN investigation is truly necessary. Generally, the PI should not take any longer than three (3) working days. If more time is required, it means that the inquiry officer is attempting to do too much or has not been sufficiently instructed as to what issue(s) is to be addressed (see page II-3 for a PI checklist). Upon completion of the PI, a report is tendered to the CA. The PI report need not be in writing, but some form of limited documentation is advisable (see page II-5 for a sample PI report). JAGMAN 0204.

Command options. Upon reviewing the results of the PI, the CA should take one of the following actions:

1. Take no further action. Where further investigation would serve no useful purpose, there is no need to convene a JAGMAN investigation. This is an appropriate course where the PI reveals that the incident is likely to be of little interest to anyone outside the immediate command or that the event will be adequately investigated under some other procedure (e.g., NCIS investigation, MLSR/survey procedure, etc.). JAGMAN 0205a(2)(a), 0207. As a matter of practice, documentation of the PI and the command decision is advisable.
2. Conduct a command investigation. JAGMAN 0205a(2)(b).
3. Convene a litigation-report investigation. *Consultation with the "cognizant judge advocate" is required.* JAGMAN 0205a(2)(c).
4. Convene a court or board of inquiry. If the CA is not a general court-martial convening authority (GCMCA) and therefore not empowered to convene a court or board of inquiry, the CA may request, via the chain-of-command, that an officer with such authority convene the investigation. JAGMAN 0205a(2)(d).

NOTE: It is always appropriate for the CA to consult with a judge advocate before deciding how to proceed. JAGMAN 0206.

Reporting the results of PIs. After deciding which of the command options to exercise, the CA is to report that decision to his/her immediate superior in the chain-of-command. This does **not** require a special, stand-alone report; command decisions on PIs are to be relayed in the context of existing situational reporting systems. JAGMAN 0204h(2). You should determine if your ISIC has issued guidance on what types of incidents should be or should not be reported.

Review of command decision. The initial determination of which option to exercise is a matter of command discretion. Superiors in the chain-of-command may direct that an option be reconsidered or that a particular course of action be taken. For example, a superior may feel that a litigation-report investigation may be the preferred method of investigating and documenting a particular incident and direct that a subordinate convene such an investigation rather than a command investigation. JAGMAN 0204i and 0205b.

PRELIMINARY INQUIRY CHECKLIST

- ___ CA appoints a preliminary inquiry officer.
- ___ Begin work on the inquiry immediately upon hearing that you are to be appointed, whether or not you have received an appointing order in writing.
- ___ Decide what the purpose and methodology of your inquiry will be.
 - ___ Can this preliminary inquiry be completed in three working days? If not, you may be trying to do too much. Further clarification from the CA may be necessary.
- ___ Has this incident involved a member of the command and/or occurred within the command? If not, are you the appropriate command to conduct the preliminary inquiry and/or any administrative investigation?
- ___ Is this incident under investigation by NCIS, the FBI, or local civilian law enforcement agencies? (If yes, refer to JAGMAN 0204c).
- ___ Is this considered a "major" incident? (Refer to JAGMAN Appendix A-2-a for a definition of a "major" incident.)
 - ___ If believed to be a "major" incident, refer to JAGMAN 0204g, 0204h, 0205a(1), and 0211e(1).
- ___ Obtain any available documentation pertaining to the inquiry, i.e. copies of rules and regulations, instructions, correspondence and messages, logs, standard operating procedures, personnel records, medical records, official reports, vehicle accident report forms, etc.
- ___ Locate and preserve evidence, i.e. real objects (firearms, bullets, etc.) and note physical locations (accident sites, etc).
- ___ Draw up a list of possible witnesses.
 - ___ Conduct an interview of any witness you deem relevant to your inquiry, those that will provide you with enough information to understand what occurred and enable you to make an informed recommendation to the CA.
 - ___ If a witness is not physically available, an interview may be conducted via telephone or message.

- ☐ Advise any military witness who may be suspected of an offense, misconduct, or improper performance of duty, of his/her rights under Article 31, UCMJ. (Refer to page VIII-1 of this handbook for a sample form.)
- ☐ Advise each witness prior to signing any statement relating to the origin, incident, or aggravation of any disease or injury that he/she has suffered, of his/her right not to sign such a statement. (Refer to page VIII-2 of this handbook for a sample form). See JAGMAN 0221b.
- ☐ Is a Privacy Act statement required for any witness interviewed? JAGMAN 0216 requires that Privacy Act statements be obtained from each witness from whom personal information is taken. (Refer to page VIII-3 of this handbook for a sample form.)
- ☐ Does the CA desire/require the outcome to be documented in writing? (If yes, refer to page II-5 of this handbook for sample format.)
- ☐ The preliminary inquiry officer makes his/her report to the CA.
- ☐ Which of the command options does the CA choose in light of the preliminary inquiry?
 - ☐ No further action.
 - ☐ Command investigation.
 - ☐ Litigation-report investigation.
 - ☐ Recommend court/board of inquiry to GCMCA.

COMMAND INVESTIGATIONS

By far the most common administrative investigation is the Command Investigation (known under previous versions of the JAGMAN as "informal investigations" or "investigations not requiring a hearing"). The Command Investigation (CI) functions to search out, develop, assemble, analyze, and record all available information relative to the incident under investigation. The findings of fact, opinions and recommendations developed may provide the basis for various actions designed to improve command management and administration, publish "lessons learned" to the fleet, and allow for fully informed administrative determinations.

When required. CIs are likely to be the appropriate investigative tool for incidents involving: aircraft mishaps; explosions; ship stranding or flooding; fires; loss of government funds or property; firearm accidents; security violations; injury to servicemembers, where such injury is incurred while "not in the line of duty"; and deaths of servicemembers where there is a "nexus," or connection, to naval service.

A CI would **not** be used for the following: "Major" incidents, (*see* JAGMAN Appendix A-2-a for definition); incidents that have resulted or are likely to result in claims or litigation against or for the Navy or the United States. If a "major" incident, the GCMCA will assume cognizance of the case and decide whether to convene a court or board of inquiry. If a claim or litigation issue appears to be the *primary purpose* for the investigation, then a litigation-report investigation is required.

Rules on Convening. A CI will be convened, in writing, by the CA (*see* page III-3 for a sample convening order). When the CA feels that the investigation of an incident is impractical or inappropriate for the command to investigate, another command may be requested to conduct the investigation. *See* JAGMAN 0209c. When circumstances do not allow for completion of an investigation, (e.g., deployments), requests for assistance may be directed to superiors in the chain-of-command. When more than one command is involved, a single investigation should be conducted and coordination/cooperation is required. Special convening rules for incidents involving injuries to Marine Corps personnel are contained in JAGMAN 0209c(5).

Time Periods. The CA will prescribe when the report is due, normally 30 days from the date of the convening order. The CA may grant extensions as needed. Requests and authorizations for extensions need not be in writing, but must be noted in the preliminary statement of the final report.

Conducting the Investigation: Helpful Hints. The general goal is to find out who, what, when, where, how and why an incident occurred. The IO should decide what the purpose and methodology of his/her investigation is **before** starting to collect evidence. The IO should review **all** applicable checklists contained in Part G of the JAGMAN (sections V and IX of this handbook) to determine what specific informational requirements exist.

One of the principle advantages of the CI is that the IO is **not** bound by formal rules of evidence: the IO may collect, consider and include in the record any matter relevant to the investigation that is believable and authentic. Photographs, maps, sketches, etc., are always helpful to reviewing authorities in understanding what has occurred. So too are present sense impressions (e.g., noise, texture, smell, observations) that are not adequately portrayed in other evidence. You may record these impressions in a simple memorandum for inclusion in the CI record.

In handling witnesses, there are several things to keep in mind. You may obtain information by personal interview, correspondence, or telephone inquiry. If a witness is unable to review and/or sign a statement, you may simply make a summary of the conversation and certify it to be accurate. Before interviewing witnesses, ensure you understand when and what rights advisements may be required: if you suspect a military member has committed a criminal offense, Article 31, UCMJ, warnings are required; when interviewing a service member concerning the incurring of injury, warning under JAGMAN 0221b is required; if you are asking for personal information (as opposed to information related to performance of duty), Privacy Act advice is necessary. Refer to section VIII of this handbook for forms.

Each witness should be interviewed separately. Let the witness tell what happened; don't ask questions that suggest answers. Ask for clarification if the witness is speaking in broad or vague terms (e.g., "He was drunk"; "What gave you that impression?"; "He had an odor of alcohol about him, his eyes were bloodshot, he was slurring his speech and unable to maintain his balance"). Try to obtain as much information during the interview as possible; the relevance of a particular fact may not become clear until later in the investigation.

A checklist to help you conduct the CI is contained on page III-4.

Writing the Investigation: Helpful Hints. The key to writing a good CI is **organization**. As IO, you must take the time to reconstruct the incident in your mind, pulling together all the evidence. You must then document the incident in a **readable** fashion. Remember, the CA and reviewing authorities will want to understand the incident from a reading of the facts. Often a recitation of the facts in chronological, step-by-step form is easiest to follow. Keep your findings of fact as clear and concise as possible.

In drafting opinions and recommendations, the IO should address responsibility and accountability. All areas which need corrective action must also be addressed.

A checklist to help you prepare the CI report is contained on page III-8.

- ___ Carefully examine the convening order to determine the scope of your investigation.
- ___ Determine when the investigative report is due to the CA.
 - ___ If you can not reach that deadline, request an extension.

- ___ Determine which checklists may apply to your investigation and review them carefully to determine what information is required. Refer to sections V and IX of this handbook.
- ___ Decide what the purpose and methodology of your investigation will be.
 - ___ Where is evidence likely to be located?
 - ___ How can such evidence best be obtained and preserved?
- ___ Has this incident involved a member of the command and/or occurred within the command? If not, are you the appropriate command to conduct the investigation?

- ___ Is this considered a "major" incident? (Refer to JAGMAN Appendix A-2-a for definition.)
 - ___ If believed to be a "major" incident, refer to JAGMAN 0204g, 0204h, 0205a(1), and 0211e(1).

II. HANDLING WITNESSES

(NOTE: You may wish to gather and review other types of evidence before interviewing any or all witnesses.)

- _____ Draw up a list, to be supplemented as the investigation progresses, of all possible witnesses.
- _____ Determine if witnesses are transferring, going on leave, hospitalized, etc., which might take them out of the area before review of the investigation is completed.
 - _____ Inform the CA, orally, with confirmation in writing, immediately upon learning that a material witness might leave the area before review of the investigation is completed.
- _____ Conduct an intensive interview of each witness, i.e. names, places, dates, and events that are relevant.
- _____ Witness statements should be as factual in content as possible. If a witness makes a vague statement ("he was drunk"), try to pin down the actual facts.
- _____ If a witness is not physically available for an interview, attempt to conduct it via telephone, mail or message.
- _____ Advise any military witness who may be suspected of an offense, misconduct, or improper performance of duty, of his/her rights under Article 31b. (Refer to page VIII-1 of this handbook for a sample form.)
- _____ Advise each witness prior to signing any statement relating to the origin, incident, or aggravation of any disease or injury that he/she has suffered, of his/her right not to sign such a statement. (Refer to page VIII-2 of this handbook for a sample form). See JAGMAN 0221b.
- _____ Is a Privacy Act statement required for the witness interviewed? JAGMAN 0216 requires that Privacy Act statements be obtained from each witness from whom personal information is taken. (Refer to page VIII-3 of this handbook for a sample form.)
- _____ Record the interview of each witness in detailed notes or by mechanical means.
- _____ Reduce each witness' statement to a complete and accurate narrative statement.

- _____ If possible, obtain the signature of each witness, under oath and witnessed, on the narrative statement of his/her interview. If not possible, indicate on the narrative statement that it represents either an accurate summary, or verbatim transcript, of oral statements made by the witness.
- _____ Direct witnesses subject to naval authority not to discuss their statements. Witnesses not subject to naval authority may be requested not to discuss their statements.
- _____ Review your list of possible witnesses to ensure that you have interviewed all such witnesses.

III. DOCUMENTARY EVIDENCE

- _____ Make a list, to be supplemented as the investigation proceeds, of all possible documents, to include:
 - _____ Copies of relevant rules, regulations, instructions, standard operating procedures;
 - _____ relevant correspondence and messages;
 - _____ personnel records;
 - _____ medical records (clinical and hospital records, death certificates, autopsy reports, etc.);
 - _____ official logs and reports; and
 - _____ required forms (personnel injury forms, vehicle accident reports, etc.).
- _____ Examine your list of possible documents to ensure that you have obtained all such documents available to you.
- _____ If unable to obtain a certain document, attempt to obtain it via fax, message, telephone, or mail.
- _____ Obtain originals or certified true copies of all documents available to you.

IV. OTHER EVIDENCE

- _____ Make a list of any other information which may be of assistance to reviewing authorities in understanding the incident investigated (real objects, physical locations, maps, charts, photographs, your personal observations, etc.).

- Examine your list of possible information to ensure that you have obtained all such information personally available to you.
- If unable to obtain certain information, attempt to obtain it via fax, message, telephone, or mail.
- Attempt to reduce such information to a form, such as photographs or sketches, which can be conveniently included in your investigative report.
- Take all steps possible to insure that any evidence not an enclosure to the investigative report will be kept in an identified place, safe from tampering, loss, theft, and damage, pending review of the investigation.

RETENTION AND RELEASE OF COMMAND INVESTIGATIONS

Change 2 to Chapter II of the JAGMAN has transferred responsibility for storage and retention of Command Investigations (CI) to the fleet. The GCMCA to whom the CI is ultimately forwarded is the authority who decides whether release under the Freedom of Information Act (FOIA) or Privacy Act (PA) will be made. While FOIA/PA releases are nothing new to fleet units, the release of JAGMAN investigations is new. SECNAVINST 5720.42E and SECNAVINST 5211.5D should be consulted before releasing a CI. OJAG has also published a Handbook for the Maintenance and Release of JAGMAN Investigations that provides useful guidance. Further questions should be directed to the Office of the Judge Advocate General (Claims, Investigations, and Tort Litigation Division) (Code 35) at (703) 325-9880 (commercial) or 221-9880 (DSN).

Release of litigation-report investigations. OJAG is the custodian and the only release authority for litigation-report investigations. FOIA/PA requests must be forwarded to the Judge Advocate General for action and the requester informed. JAGMAN 0220c.

Release of CI's. Upon receipt of a FOIA/PA request for release of a CI, the first inquiry is to determine the appropriate release authority. The GCMCA determines who is the release authority to whom the CI is ultimately forwarded and forwards it for action. Each custodian with release authority will either release the record in its entirety or forward it to an Initial Denial Authority (IDA) recommending withholding some or all of the record. Normally, except for an official release (e.g. responding to a Congressional Inquiry, a Federal Court Order, or to another Federal Agency) something is withheld from every investigation rendering the release a partial denial. Even withholding one social security number or home address requires forwarding the record to an IDA for release. The same is true for a total denial. Check with your ISIC for more specific guidance.

Frequent communication with the requester is important. Keep them informed of their request's status. Remember FOIA is a *release statute* and it is DoN's policy is to release as much as the rules allow. Where the requested investigation is not complete, keep the requester informed as to its progress and estimated release date.

While each CI must be completely reviewed, the following are normally withheld: social security numbers, home addresses, and telephone numbers (including home E-mail addresses), dates of birth, names of certain officials (NCIS, FBI, CIA agents, and confidential informants/sources), state/local civilian law enforcement material, military death certificates, descriptions of injuries of others, medical records of a living individual, medical boards, medical specialty reviews and peer reviews, alcohol and /or drug classes for living individuals, embarrassing items, names on rosters (also plans of the day) of deployable units, fitness reports and evaluations (including NATOPS, training records, grades, and class status), references to disciplinary/administrative actions being taken or contemplated (e.g. NJP, letters of reprimand, non-punitive letters, etc.), motor vehicle citations and criminal charges (unless convicted), disapproved findings of fact, opinions, or recommendations (or all findings of fact,

opinions, and recommendations where they relate to claims or potential litigation), classified material, trade secrets, and certain terms (e.g. "FOR OFFICIAL USE ONLY," "CONFIDENTIAL not for release," and "PERSONAL FOR"). The terms listed need not be cited in the cover letter but should be redacted so the requester does not believe he is getting something in violation of law. This list is only a general guide and is not exhaustive.

The following are normally released: BAC results, article 31 warning forms, and non-adverse Line of Duty determinations (which are released if the requester is the subject of the report). For military personnel: name, rank, date of rank, gross salary, present and past duty assignments, office/duty telephone numbers (including office E-mail), source of commission, promotion sequence number, awards and decorations, attendance at professional and military schools, and duty status. For civilians: name, grade, position, date of grade, gross salary, present and past assignments, and office telephone number (including office E-mail).

Time Limit. Under FOIA/PA the recipient of the request has 10 working days (20 working days under FOIA effective 2 October 1997) to initially respond (e.g. grant or deny the request, provide an interim response, or refer the request to the proper records custodian). Under FOIA, this limit can be extended through either formal or informal means. Extension beyond 30 days of PA requests is difficult and is discouraged.

Death Cases. The timing and substance of releasing death case records depends on the identity of the requester. Next-of-kin (NOK) are entitled to a copy of the investigation by federal law. Navy practice is to release an "advance copy" to the NOK as soon as it has been reviewed by a flag officer. Grieving family members should not be further aggravated by obstructing their access to information concerning the member's death. The FOIA/PA "first in/first out" processing rules do not apply to NOK releases which should be given priority. Consideration must be given to the potential impact of such a report. When practical, releasing authorities should ensure hand delivery of the report by someone who can discuss it with the family. Normally this will be the CACO but another appropriate person can be assigned (e.g. a family/personal friend or technical expert). Extreme caution must be taken with regard to release of autopsy reports and other graphic materials. These should be segregated under separate cover and sealed in an envelope with a warning attached. NOK should be advised that they can request the DoD Inspector General (IG) review any military investigation into a death from a self-inflicted cause.

Release to non-NOK requesters is more restrictive. Autopsy reports, graphic materials, and other sensitive items (e.g. suicide notes, last words, highly personal or embarrassing information) are normally *not* released. Although the privacy rights of a deceased are extinguished, remaining family members have a privacy interest where release of the information would cause unreasonable embarrassment or distress to the family.

Copies of all death investigations must be routed to the Veteran's Administration and the Naval Safety Center. In cases involving Naval personnel, a copy must also be provided to

the Chief of Naval Personnel (PERS-62). Copies of death cases involving Marine Corps personnel must be sent to Headquarters, U.S. Marine Corps (MHP-10).

Retention of investigations. The CA must maintain a copy of all CI's for a minimum of 2 years. After two years all CI's should be forwarded to a Federal Record Storage Facility for permanent storage. The JAG Manual gives no guidance concerning retention time for litigation-report investigations only that the convening authority retain a copy of forward the original to OJAG. It is recommended that you retain your copy for at least 2 years then destroy it in accordance with the Records Disposal Instruction.

LITIGATION-REPORT INVESTIGATIONS

The most recently created type of JAGMAN administrative investigation is the litigation-report investigation. Convening such an investigation is appropriate whenever the *primary purpose* of the investigation is to prepare and defend the legal interests of the Navy in claims proceedings or civil litigation. While closely resembling the command investigation in method of evidence collection and report preparation, there are special rules for the litigation-report investigation.

Special requirements. A litigation-report investigation must be: convened only after consultation with a "cognizant judge advocate" (see JAGMAN, Appendix A-2-a for definition); conducted under the direction and supervision of a judge advocate; protected from disclosure to anyone who does not have an official need to know; conducted primarily in anticipation of claims and/or litigation; and ultimately forwarded to the Judge Advocate General.

NOTE: When investigations are conducted in anticipation of litigation but are not conducted under the direction and supervision of a judge advocate or are handled carelessly, they cannot be legally protected from disclosure to parties whose litigation interests may be adverse to the interests of the United States. It is imperative that litigation-report investigations be conducted in accordance with the rules as stated in JAGMAN 0210.

Rules on convening. After first consulting with the cognizant judge advocate, a litigation-report investigation will be convened, in writing, by the CA (refer to page IV-3 of this handbook for a sample convening order). The judge advocate responsible for supervising the investigation will be named in the convening order; this does not mean that the judge advocate acts as the IO, rather the judge advocate will be responsible for overseeing the conduct of the investigation and preparation of the report.

Conducting the Investigation: Helpful Hints. As with the CI, the general goal of the litigation-report investigation is to document who, what, when, where, how and why an incident occurred. The IO **must consult** with the supervising judge advocate and decide what the purpose and methodology of his/her investigation is **before** starting to collect evidence. The IO should review **all** applicable checklists contained in Part G of the JAGMAN (sections V and IX of this handbook) to determine what specific informational requirements exist.

The IO is **not** bound by formal rules of evidence in gathering information: the IO may collect, consider and include in the record any matter relevant to the investigation that is believable and authentic. Photographs, maps, sketches, etc., are always helpful to reviewing authorities in understanding what has occurred. So too are present sense impressions (e.g., noise, texture, smell, observations) that are not adequately portrayed in other evidence. You may record these impressions in a simple memorandum for inclusion in the litigation report.

In handling witnesses, there are several things to keep in mind. You may obtain information by personal interview, correspondence, or telephone inquiry. The IO should **never** obtain signed or sworn statements during the course of a litigation-report investigation **unless** he/she has consulted with the supervising judge advocate. Before interviewing witnesses, ensure you understand when and what rights advisements may be required: if you suspect a military member has committed a criminal offense, Article 31, UCMJ, warnings are required; when interviewing a service member concerning the incurring of injury, warning under JAGMAN 0221b is required; if you are asking for personal information (as opposed to information related to performance of duty), Privacy Act advice is necessary. Refer to section VIII of this handbook for forms.

Each witness should be interviewed separately. Let the witness tell what happened; don't ask questions that suggest answers. Ask for clarification if the witness is speaking in broad or vague terms (e.g., "He was drunk"; "What gave you that impression?"; "He had an odor of alcohol about him, his eyes were bloodshot, he was slurring his speech and unable to maintain his balance"). Try to obtain as much information during the interview as possible; the relevance of a particular fact may not become clear until later in the investigation.

A checklist to help you conduct the litigation-report investigation is contained on page IV-4.

Writing the Investigation: Helpful Hints. The key to writing a litigation-report investigation is **organization**. As IO, you must take the time to reconstruct the incident in your mind, pulling together all the evidence. You must then document the incident in a **readable** fashion. Remember, the CA and reviewing authorities will want to understand the incident from a reading of the facts. Often a recitation of the facts in chronological, step-by-step form is easiest to follow. Keep your findings of fact as clear and concise as possible.

The IO must **not** draft opinions and/or recommendations unless specifically directed to by the supervising judge advocate. Where the IO or CA feels an opinion and/or recommendation from the IO should be included, the supervisory judge advocate should be informed. Where the supervisory judge advocate feels the IO should express an opinion and/or recommendation, such should be directed. Any direction for or authorization to the IO to express an opinion and/or recommendation should be clear and specific.

A checklist to help you prepare the litigation-report is contained on page IV-8.

Protection. The IO must properly mark the litigation-report investigative report. *See*, JAGMAN 0210e(3). Copies of the report, and any of the working notes of the IO, must be maintained in files marked "FOR OFFICIAL USE ONLY: LITIGATION/ATTORNEY WORK PRODUCT" and safeguarded against improper disclosure. A judge advocate should be consulted before releasing the report, or any portion thereof, to anyone.

- ___ The IO must consult with the assigned judge advocate **before** beginning the investigation.
- ___ Carefully examine the convening order to determine the scope of your investigation.
- ___ Determine when the investigative report is due to the CA.
 - ___ If you can not reach that deadline, request an extension.
- ___ Review all relevant instructions on your investigation, e.g. JAGMAN Chapter 2, etc.
 - ___ Determine which checklists may apply to your investigation and review them carefully to determine what information is required. Refer to sections V and IX of this handbook.
- ___ Decide what the purpose and methodology of your investigation will be.
 - ___ Where is evidence likely to be located?
 - ___ How can such evidence best be obtained and preserved?
- ___ Has this incident involved a member of the command and/or occurred within the command? If not, are you the appropriate command to conduct the investigation?
- ___ Is this incident under investigation by NCIS, the FBI, or local civilian law enforcement agencies? (If yes, refer to JAGMAN 0204c).
- ___ Is this considered a "major" incident? (Refer to page 2 of this handbook for definition.)

PRIOR TO OBTAINING ANY OF THE BELOW INFORMATION CONSULT WITH THE ASSIGNED JUDGE ADVOCATE.

II. HANDLING WITNESS

(NOTE: You may wish to gather and review other types of evidence before interviewing any or all witnesses.)

_____ Draw up a list, to be supplemented as the investigation progresses, of all possible witnesses.

_____ Determine if witnesses are transferring, going on leave, hospitalized, etc., which might take them out of the area before review of the investigation is completed.

_____ Inform the CA, orally, with confirmation in writing, immediately upon learning that a material witness might leave the area before review of the investigation is completed.

_____ Conduct an intensive interview of each witness, e.g. names, places, dates, and events that are relevant.

_____ Witness statements should be as factual in content as possible. If a witness makes a vague statement ("he was drunk") try to pin down actual facts.

_____ If a witness is not physically available for an interview, attempt to conduct it via telephone, mail or message.

_____ Advise any military witness who may be suspected of an offense, misconduct, or improper performance of duty, of his/her rights under Article 31b, UCMJ. (Refer to page VIII-1 of this handbook for a sample).

_____ Advise each witness prior to signing any statement relating to the origin, incident, or aggravation of any disease or injury that he/she has suffered, of his/her right not to sign such a statement. (Refer to page VIII-2 of this handbook for a sample). See JAGMAN 0221b.

_____ Is a Privacy Act statement required for the witness interviewed? JAGMAN 0216 requires that Privacy Act statements be obtained from each witness from whom personal information is taken. (Refer to page VIII-3 of this handbook for a sample.)

_____ Record the interview of each witness in detailed notes.

_____ Reduce each witness' statement to a complete and accurate narrative statement.

- _____ Witnesses will not, in most cases, be asked to make a written statement or to sign a statement that the investigator has prepared. **DO NOT attach signed witness statements as enclosures to the investigation, unless the supervising judge advocate so directs.**
- _____ Indicate on the narrative statement that it represents an accurate summary of oral statements made by the witness.
- _____ Review your list of possible witnesses to ensure that you have interviewed all such witnesses.

PRIOR TO OBTAINING ANY OF THE BELOW INFORMATION CONSULT WITH THE ASSIGNED JUDGE ADVOCATE.

LINE OF DUTY / MISCONDUCT DETERMINATIONS

To assist in the administration of naval personnel issues, the commanding officer is required to inquire into certain cases of injury or disease incurred by members of his or her command. When these inquiries are conducted, the commanding officer is required to make what is referred to as a line of duty (LOD)/misconduct determination. As in most matters, the type of inquiry and the degree of formality of the report will depend upon the circumstances of the case.

Reason for LOD/misconduct determinations. Adverse LOD/misconduct determinations can affect several benefits and/or rights administered by the Department of the Navy, including: extension of enlistment; withholding of longevity and retirement multipliers for the time missed, and; denial of disability retirement and/or severance pay.

When LOD/misconduct determinations are required. Findings concerning LOD/misconduct must be made in every case in which a member of the naval service incurs a *disease or injury* that:

1. *Might* result in permanent disability; or
2. results in the physical inability to perform duty for a period exceeding 24 hours (as distinguished from a period of hospitalization for evaluation or observation). JAGMAN § 0221.

Opinions concerning line of duty are prohibited in death cases.

What constitutes "line of duty?" Injury or disease incurred by naval personnel while on active duty service is presumed to have been incurred "in line of duty" unless there is clear and convincing evidence that it was incurred:

1. As a result of the member's own "misconduct." There must be clear and convincing evidence that the injury was intentionally incurred or the result of willful neglect which demonstrates a reckless disregard for foreseeable and likely consequences.
2. While avoiding duty by deserting.
3. While absent without leave, and such absence materially interfered with the performance of required military duties (generally, in excess of 24 hours).
4. While confined under sentence of a court-martial that included an unremitted dishonorable discharge.

5. While confined under sentence of civil court following conviction of an offense that is defined as a felony by the law of the jurisdiction where convicted.

Preliminary Inquiries (PI's). Each injury or disease requiring LOD/misconduct determinations *must* be reviewed through use of a PI. JAGMAN, § 0230a. Upon completion of the PI, the command is to report the results to the GCMCA through use of the Personnel Casualty Report system. JAGMAN, § 0230b, MILPERSMAN 4210100. A copy of the PI report is delivered to the appropriate medical department for inclusion in the health or dental record. If the medical officer and the commanding officer are of the opinion that the injury or disease was incurred "in line of duty" and "not as a result of the member's own misconduct," then appropriate entries stating such are entered in the health record. **No further investigation** is required, unless directed by the GCMCA. JAGMAN, §0230c.

Command Investigations (CI's). As noted above, use of the PI and health record entries will provide sufficient documentation where injuries or disease are found to have occurred while in the line of duty, not due to misconduct. CI's are only required when:

1. the injury or disease was incurred in such a way that suggests a finding of "misconduct" or "not in line of duty" might result (JAGMAN, §§ 0230d(1), (2));
2. there is a reasonable chance of permanent disability and the CA considers an investigation essential to ensuring an adequate official record;
3. the injury involves a Naval or Marine Reservist and the CA considers and investigation essential to ensuring an adequate official record.

In endorsing a CI, the CA must specifically comment on the LOD/misconduct opinion and take one of the following actions:

1. If the CA concludes that the injury or disease was incurred "in line of duty" and "not due to a member's own misconduct," that shall be expressed (regardless of whether it differs from or concurs with the IO's opinion). JAGMAN, § 0231a(1).
2. If, upon review of the report or record, the convening (or higher) authority believes the injury or disease was incurred *not* "in line of duty" or "due to the member's own misconduct," the member *must* be informed of the preliminary determination and afforded an opportunity, not to exceed 10 days, to submit any desired information to try and convince the CA otherwise. The member may be permitted to review the investigative report before providing any information. If the member decides to present information, it shall be considered by the CA and appended to the record. If the member elects not to provide information, or the 10 day period lapses without submission, then such shall be noted in the endorsement. JAGMAN, §§ 0231a(2).

The CI is forwarded to a GCMCA with an assigned judge advocate. The GCMCA shall indicate approval, disapproval or modification of conclusions concerning misconduct and line of duty. A copy of such action will be returned to the CA so that appropriate entries may be made in the member's service and medical records. JAGMAN, § 0231b(1).

Required warning. Any person in the Armed Forces, prior to being asked to make or sign any statement relating to the origin, incidence, or aggravation of any disease or injury that he or she has suffered, shall be advised of the right not to make such a statement. (Refer to page VIII-2 of this handbook for sample form).

Refer to page V-4 of this handbook for a checklist to assist you in preparing LOD/misconduct determinations.

LINE OF DUTY/MISCONDUCT CHECKLIST
(JAGMAN 0221 - 0230)

- _____ Is a LOD/misconduct determination required?
 - _____ Possible permanent disability?
 - _____ Physical inability to perform duties for 24 hours or more?
- _____ A PI must be conducted.
 - _____ See Section II of this Handbook for considerations in carrying out a PI.
- _____ The results of the PI are reported to the GCMCA via the Personnel Casualty Report (MILPERSMAN 4210100).
- _____ Ensure medical receives a copy of the PI.
- _____ If the CA determines this injury was incurred "in the line of duty, not due to misconduct," ensure medical record entries stating as such are made.
- _____ A command must convene a CI when:
 - _____ The results of the PI indicate that the injury was incurred under circumstances which suggest a finding of "misconduct" might result. These circumstances include, but are not limited to, all cases in which the injury was incurred:
 - _____ while the member was using illegal drugs;
 - _____ while the member's blood alcohol content was of .10 percent by volume or greater. This does not preclude the convening of an investigation if the blood-alcohol percentage is lower than .10, if the circumstances so indicate;
 - _____ as a result of a bona fide suicide attempt; and
 - _____ while the member was acting recklessly or with willful neglect.
 - _____ The results of the PI indicate that the injury was incurred under circumstances that suggest a finding of "not in line of duty" might result.
 - _____ Was the servicemember in a desertion status at the time of injury?
 - _____ Was the servicemember UA at the time of injury?

- _____ Was the servicemember in the Brig with a dishonorable discharge at the time of the injury?
- _____ Was the servicemember in jail as a result of a felony conviction at the time of the injury?
- _____ There is a reasonable chance of permanent disability and the commanding officer considers the convening of an investigation essential to ensure an adequate official record is made concerning the circumstances surrounding the incident.
- _____ The injured member is in the Naval Reserve or the Marine Corps Reserve and the commanding officer considers an investigation essential to ensure an adequate official record is made concerning the circumstances surround the incident.

- ___ Nature/extent of injuries, including description of body parts injured.
 - ___ Extent of hospitalization.
 - ___ Cost from any civilian medical facilities.

Remember to consult other applicable checklists for information requirements. For example, if a sailor injured himself in a motor vehicle accident, the IO would also need to gather that information listed in JAGMAN § 0243c for inclusion in the final CI.

SPECIAL CONSIDERATIONS IN DEATH CASES

The circumstances surrounding the death of naval personnel, or of civilian personnel at places under military control, may be recorded in a variety of ways, such as autopsy reports, battlefield reports, and medical reports. Investigations conducted pursuant to the JAGMAN may also focus on such deaths and may incorporate other official reports as enclosures. Since reports pertaining to deaths of military member are, by law, generally releasable to family members, and since the deceased cannot contribute to the investigation process, special considerations prevail in the investigation of death cases.

NOTE: NCIS must be notified per SECNAVINST 5520.3 series in any death case involving actual or suspected criminal conduct.

Preliminary Inquiry (PI). A PI should be conducted into the death of a member of the naval service or into the death of a civilian which occurs at a place under naval control. At the conclusion of the PI, the CA must determine which of the options listed in JAGMAN 0205 will be exercised, and report that decision to the next superior in the chain-of-command.

An investigation under the JAGMAN will normally not be conducted if the PI shows that the death:

(1) was the result of a previously know medical condition and the adequacy of military medical care is not reasonable in issue; or

(2) was the result of enemy action.

Limited Investigations. Where the death of a servicemember occurred at a location within the U.S. and not under military control, while the member was off-duty, and there is no discernable "nexus," or connection, between the circumstances of the death and the naval service, the command need only obtain a copy of the investigation conducted by civilian authorities and retain it as an internal report. JAGMAN, § 0235d. No further investigation is required.

Command Investigations (CI). A CI (or in some cases, a litigation-report investigation) will be conducted if the PI shows:

1. the case involves civilian or other non-naval personnel found dead on a naval installation under peculiar or doubtful circumstances, unless the incident is one over which NCIS has jurisdiction;

2. the circumstances surrounding the death places the adequacy of military medical care reasonably at issue;

3. there exists a probable "nexus," or connection, between the naval service and the circumstances of the death of a servicemember; or
4. it is unclear if enemy action caused the death, such as in possible "friendly-fire" incidents.

Investigation reports will not contain any opinions concerning line of duty/misconduct in death cases. Misconduct will not be attributed to a deceased member.

Even though prohibited from rendering the ultimate line of duty/misconduct opinion, an investigation may uncover evidence which calls into question the propriety of a deceased individual's conduct. In a fair and impartial manner, such facts must be documented in the investigation. To find that the acts of a deceased servicemember may have caused harm or loss of life, including the member's own, through intentional acts, findings of fact must be established through clear and convincing evidence. JAGMAN, § 0240.

Independent Reviews. Prior to endorsement of an investigation which calls into question the deceased's conduct, the CA may wish the report to be reviewed to ensure thoroughness, accuracy of the findings, and fairness to the deceased member. The individual selected to conduct this review shall have no previous connection to the investigative process and must be outside the CA's immediate chain of command. To the extent possible, the reviewer should possess training, experience, and background sufficient to allow critical analysis of the factual circumstances. The reviewer is not to act as the deceased's representative, but rather provide critical analysis from the perspective of the deceased, tempered by the reviewer's own experience, training, and education. If the reviewer believes comments are warranted, such comments shall be completed and provided to the CA within 10 working days of the report's delivery to the reviewer. The CA is to consider any comments submitted by the reviewer and take any action deemed appropriate. The comments shall be appended to the investigative report. JAGMAN, § 0239.

COMMAND ENDORSEMENTS

COMMAND INVESTIGATIONS

Review and forwarding. Upon completing the investigative report, the IO submits the report to the CA, who reviews it and takes one of the following actions:

1. Returns the report to the IO for further inquiry or corrective action, noting any incomplete, ambiguous, or erroneous action of the IO;
2. determines that the investigation is of no interest to anyone outside the command and chooses to file the investigation, without further forwarding, as an internal report;
3. transmits the report by endorsement to the next appropriate superior officer, typically to the GCMCA over the CA. The CA's endorsement will set forth appropriate comments, recording approval or disapproval in whole or in part, of the investigation's proceedings, findings, opinions, and recommendations. In line of duty/misconduct investigations, the CA is required to specifically approve or disapprove the line of duty/misconduct opinion.

If the CA corrects, adds, or disapproves findings of fact, opinions, or recommendations, the following language would be used in the endorsement as appropriate;

- * The finds of fact are hereby modified as follows: (modification)
- * The following additional findings of fact are added: (numbers start after the last findings of fact in the basic investigation).
- * Opinion ____ in the basic correspondence is not substantiated by the findings of fact because _____ and is therefore disapproved (modified to read as follows: _____).
- * The following additional opinions are added: (numbers start after the last opinions in the basic investigation).
- * Recommendation ____ is not appropriate for action at this command; however, a copy of this investigation is being furnished to _____ for such action as deemed appropriate.
- * Additional recommendations: (numbers start after the last recommendation in the basic investigation).
- * The action recommended in recommendation ____ has been accomplished by ____ (has been forwarded to _____ for action; etc.).

The CA's endorsement must specifically indicate what corrective action, if any, is warranted and has been or will be taken. Whenever punitive or nonpunitive action is contemplated or taken as the result of the incident under inquiry, such action should be noted in the endorsement. JAGMAN, §§ 0209g(1), 0218. CA's can expect superior commanders to require subsequent reports on how lessons learned have been implemented; if administrative investigations are to be effective tools, "tenacious follow-up action is required." JAGMAN, § 0203.

Punitive letters, or copies of recommended drafts, shall be included as enclosures. Nonpunitive letters are *not* to be mentioned in endorsements or included as enclosures. JAGMAN, § 0218.

Routing the CI. Upon completion of the endorsement, the CA forwards the original investigative report through the chain-of-command to the GCMCA over the CA. *It is no longer appropriate to list the Judge Advocate General as the ultimate addressee; CI's are not routinely forwarded to JAG.* The subject matter and facts found will dictate the exact routing of the report; for example, area coordinators may be included as via addresses if the investigation relates to an issue affecting their area coordination responsibilities.

One complete copy of the investigation should be forwarded with the original for each intermediate reviewing authority (additional copies are required in death cases). JAGMAN, § 0219a. Advance copies of the report of investigation shall be forwarded by the CA in the following cases:

(a) For CI's involving injuries and deaths of naval personnel, or material damage to a ship, submarine, or Government property (excluding aircraft), advance copies are sent to Commander, Naval Safety Center. In aircraft mishap cases, copies of investigations are sent to the Naval Safety Center only upon request. JAGMAN, § 0219b.

(b) When the adequacy of medical care is reasonably in issue and which involve significant potential claims, permanent disability, or death, advance copies of the CI are sent to the Naval Inspector General, Chief, Bureau of Medicine and Surgery (two copies); and the local NLSO. JAGMAN, §§ 0209g(2)(a), 0219c.

(c) Advance copies are to be provided to servicing NLSOs for CI's involving potential claims or civil lawsuits. JAGMAN, § 0219b.

Retention of CI's. The CA must maintain a copy of all CI's for a minimum of 2 years after which it should be forwarded to a federal records storage facility for storage.

Release of CI's. The GCMCA to whom the CI is ultimately forwarded is the authority who decides whether release under the Freedom of Information Act or Privacy Act will be made.

LITIGATION-REPORT INVESTIGATIONS

Review and forwarding. Upon receiving the litigation-report investigation, the CA reviews the documents and takes one of the following actions:

1. Return the investigation to the supervisory judge advocate for further inquiry; or
2. endorse and forward the report. JAGMAN, § 0210g(1).

Unlike the endorsement of a CI, the CA may only make limited comments in endorsing litigation-report investigations. The CA may comment on those aspects of the report which bear on the administration or management of the command, including any corrective action taken. The CA shall *not* normally approve or disapprove of the findings of fact. JAGMAN, §0210g(1). The CA's endorsement must be marked "FOR OFFICIAL USE ONLY: LITIGATION/ATTORNEY WORK PRODUCT."

Routing the investigation. Upon completion of the endorsement, the CA forwards the original investigative report to the Judge Advocate General (Code 33), via the Staff Judge Advocate of the GCMCA in the chain of command. JAGMAN, § 0210g(2). One complete copy of the investigation should be forwarded with the original for the GCMCA. JAGMAN, §0219a. Copies of the report are to be provided to superiors in the chain of command and to other commands which have a direct need to know, including the servicing Naval Legal Service Office. Dissemination of the report *shall not* otherwise be made without first consulting a judge advocate. JAGMAN, § 0210g(2).

Retention of litigation-report investigations. The original CA is required to retain a copy of the litigation-report investigation, kept in a file marked "FOR OFFICIAL USE ONLY: LITIGATION/ATTORNEY WORK PRODUCT" and safeguard against improper disclosure. JAGMAN, § 0210(g). The JAGMAN does not prescribe a time period for retention; therefore, before destroying, consultation with a judge advocate or OJAG (Code 33) is advised.

Release of litigation-report investigations. For all litigation-report investigations, the Judge Advocate General retains release authority. Convening and reviewing authorities are *not authorized* to release litigation-report investigations or their contents. JAGMAN, §0220c.

Today, _____, 19__, I acknowledge that I have received the following advisement under the guidelines of the Privacy Act.

This statement is provided in compliance with the provisions of the Privacy Act of 1974 (Public Law 93-579) which requires that Federal agencies must inform individuals who are requested to furnish personal information about themselves as to certain facts regarding the information requested below.

1. **AUTHORITY:** 5 U.S.C. 301; 10 U.S.C. 972, 1201-1221, 2733, 2734-2734b., 2737, 5013, 5031-5036, 5131-5150, 5947, 6148, 7205, 7622-7623; 28 U.S.C. 1346, 2671-2680; 31 U.S.C. 240-243, 3521-3531, 3701-3702, 3717-3718; 37 U.S.C. 802; 38 U.S.C. 105; 42 U.S.C. 2651-2653; 44 U.S.C. 3101; 49 U.S.C. 1901.

2. **PRINCIPAL PURPOSES.** The information which will be solicited is intended principally and may be used for the following purposes:

a. Determinations on the status of personnel regarding entitlements to pay during disability, disability benefits, severance pay, retirement pay, increases of pay for longevity, survivor's benefits, involuntary extensions of enlistments, date of expiration of active obligated service, and accrual of annual leave.

b. Determinations on disciplinary or punitive action.

c. Determinations on liability of personnel for losses of, or damage to, public funds or property.

d. Evaluation of petitions, grievances, and complaints.

e. Adjudication, pursuit, or defense of claims for or against the Government or among private parties.

f. Other determinations, as required, in the course of naval administration.

g. Public information releases.

h. Evaluation of procedures, operations, material, and designs by the Navy and contractors, with a view to improving the efficiency and safety of the Department of the Navy.

3. ROUTINE USES: In addition to being used within the Department of the Navy and Defense for the purpose(s) indicated above, records of investigations are routinely furnished, as appropriate, to the Department of Veterans Affairs for use in determinations concerning entitlement to veterans' and survivors' benefits; to Servicemen's Group Life Insurance administrators for determinations concerning payment of life insurance proceeds; to the U.S. General Accounting Office for purposes of determinations concerning relief of accountable personnel from liability for losses of public funds and related fiscal matters; and to the Department of Justice for use in litigation involving the Government. Additionally, such investigations are sometimes furnished to agencies of the Department of Justice and to State or local law enforcement and court authorities for use in connection with civilian criminal and civil court proceedings. The records of investigations are provided to agents and authorized representatives of persons involved in the incident, for use in legal or administrative matters. The records are provided to contractors for use in connection with settlements, adjudication, or defense of claims by or against the Government, and for use in design and evaluation of products, services, and systems. The records are also furnished to agencies of the Federal, State, or local law enforcement authorities, and regulatory authorities, for use in connection with civilian and military criminal, civil, administrative, and regulatory proceedings and actions.

4. MANDATORY/VOLUNTARY DISCLOSURE, CONSEQUENCES OF REFUSING TO DISCLOSE:

a. Where an individual is a subject of an investigation for purpose 2a or 2b, above: Disclosure is voluntary. You are advised that you are initially presumed to be entitled to have the [personnel determination] [disciplinary determinations] in paragraph 2, above, resolved in your favor, but the final determination will be based on all the evidence in the investigative record. If you do not provide the requested information, you will be entitled to a favorable determination if the record does not contain sufficient evidence to overcome the presumption in your favor. If the completed record does contain sufficient evidence to overcome the presumption in your favor, however, your election not to provide the requested information possible could prevent the investigation from obtaining evidence which may be needed to support a favorable determination.

b. Where an individual is a subject of an investigation for purpose 2c, above: Disclosure is voluntary, and if you do not provide the requested information, any determination as to whether you should be held pecuniarily liable for repayment of the Government's loss would be based on the other evidence in the investigative record, which possibly might not support a favorable determination.

c. Where the individual is a claimant or potential claimant in an investigation for purpose 2e, above: Disclosure is voluntary, but refusal to disclose the requested information could prevent the investigation from obtaining sufficient information to substantiate any claim which you have made or may make against the Government as a result of the incident under investigation.

d. Where the individual was treated at Government expense for injuries caused by third parties in connection with a matter being investigated for purpose 2e, above: Disclosure is voluntary, but refusal to disclose the requested information could result in a requirement for you to assign to the Government your medical care claims against third parties in connection with the incident, or authorize withholding of the records of your treatment in naval medical facilities.

e. In any other case: Disclosure is voluntary, and if you do not provide the requested information, and determinations or evaluations made as a result of the investigation will be made on the basis of the evidence that is contained in the investigative record.
