

DEFENSE HEALTH PROGRAM

Real Property Maintenance and Minor Construction

FY 1999 Amended Budget Estimates
Volume III

February 1998

The Defense Health Program spans the globe to support the Department of Defense's most important resource--active and retired military members and their families.

BACKLOG OF MAINTENANCE AND REPAIR (BMAR) OF REAL PROPERTY

DoD Component:
Appropriation:

	FY97 -----	FY98 -----	FY99 -----
A. Backlog - Beginning Of Year	595,640	684,828	819,918
(Backlog Carried Forward From Prior Years)	587,536	675,307	817,115
(Minus Backlog More Than Four Years Old)	4,309	4,301	5,347
(Adjusted Backlog Carried Forward)	583,227	671,006	811,768
(Inflation Adjustment)	12,413	13,822	14,552
(Foreign Currency Revaluation)	0	0	0
B. Requirements:	445,796	447,221	456,746
(Recurring Maintenance & Repair)	235,761	246,035	248,367
(Major Repair Projects)	176,675	164,920	169,205
(Backlog Deterioration)	33,360	36,266	39,174
C. Total Requirements (A + B)	1,041,436	1,132,049	1,276,664
D. Program Adjustments:	366,129	314,934	320,199
(Direct Program Funding)	366,129	314,934	320,199
(Funds Migration From Other Program Areas)	0	0	0
(Net Other Adjustments) a/	-12,882	-14,847	-7,161
E. Backlog - End Of Year (C - D) b/	675,307	817,115	956,465
F. Percent BMAR Change (E / A)	13%	19%	17%

a/ Net other adjustments - Projects dropped from BMAR program, project cost changes, new BMAR projects added, non - qualifying unfinanced work, other changes. Attached a footnote highlighting the major items reflected in the estimate.

b/ BMAR is defined as the total maintenance and repair which remains as a verified firm requirement that was not started during the fiscal year due to lack of resources.

Defense Health Program Appropriation
 FY 1999 Amended Budget Estimates
 Operation & Maintenance Costs
 Real Property Maintenance and Minor Construction Projects
 (HISTORIC BUILDING COSTS)

DoD Component: DHP
 Appropriation: O&M

HISTORIC BUILDINGS (Excluding Family Housing)

	FY 1997	FY 1998	FY 1999
A. No. of Facilities	17	17	17
B. Minor Construction	155	160	165
C. Major Repair (projects costing over \$25,000.00)	2,647	2,403	2,475
D. Recurring Maintenance (projects costing \$25,000.00 or under)	655	667	680
Grand Total	3,457	3,230	3,320

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u> <u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
AK	Eielson AFB (PACAF)	Repair Roof	911
	<p><u>Justification:</u> Remove and salvage the insulation and pavers from existing inverted roofing membrane assembly. Remove and scrap the existing membrane and replace with membrane and install new pavers where possible.</p>		
AZ	Bliss Army Hospital	Replace Roof, Bldg 45001	800
	<p><u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to critical systems.</p>		
CA	Edwards AFB (AFMC)	Replace Air Handler Units (AHU)	635
	<p><u>Justification:</u> Repair by replacement of eight AHU's for the hospital. Includes electrical upgrade to provide direct digital controls, electrical load center, new ductwork, selective demolition, and asbestos abatement. Provides temporary air conditioning during construction. The existing AHU's are over 30 years old and well beyond their useful life expectancy. The current AHU's fail constantly and require excessive repair work.</p>		
CA	NH CPEN	Repairs to Air Conditioning System, Bldg. H-100	1165
	<p><u>Justification:</u> Phase II. Repair by replacement needed to HVAC system by replacing with an energy efficient system. Repairs needed frequently to deteriorating existing system. Adversely affecting mission, safety.</p>		

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u> <u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
CA	NMC SDIEGO	Upgrade Secondary Electrical Wiring (BEQ), Bldg. 26	619
		<u>Justification:</u> Repair by replacement to the wiring system. The secondary electrical wiring system is antiquated, no longer meeting students needs for computers and other modern electrical equipment. There is only one receptacle per room. Occupants run extension cords and/or utilize multiple outlet adapters in order to operate equipment and appliances, in violation of NFPA and NEC standards. Upgrading the secondary electrical wiring system will correct these deficiencies.	
CA	NMC SDIEGO	Repair Parking Structure, R16-95, Bldg. 21	750
		<u>Justification:</u> Repairs required to this post tensioned parking structure. Showing signs of potential major structural problems. Tension sheaths are worn through in several locations. Also, due to either seismic activity and/or soil erosion over the years, seismic joints are reaching their limit of expansion.	
CA	NMC SDIEGO	Retrofit Fire Protection Sprinkler Heads, R4-96, Bldg. 1	749
		<u>Justification:</u> Repair by replacement to approximately 16,250 fire sprinkler heads throughout building 1 with quick response type heads. The new quick response sprinkler heads will eliminate the requirement of the overhead duct detectors. This will also result in a tremendous cost reduction within the sprinkler head maintenance package..	

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u> <u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
CA	NMC SDIEGO	Replace Windows (BEQ), R3-96, Bldg. 26	863
	<p><u>Justification:</u> Project will replace 30 year old windows throughout Building 26 (Bachelor Enlisted Quarters) with new sound dampening windows. Approximately 15 percent of them are broken and repair parts are difficult or impossible to find. Other windows are showing signs of wear and tear.</p>		
CA	Travis AFB (AMC)	Repair HVAC System	1,000
	<p><u>Justification:</u> Repair, test, and balance an aging HVAC system throughout the medical facility.</p>		
CU	NH GITMO	Mechanical Repairs (HVAC), R1-96, Bldg. H1	975
	<p><u>Justification:</u> Repairs to HVAC, plumbing, electrical systems. These deteriorated, failing, and inefficient systems are currently in dire need of major repairs.</p>		
DE	Dover AFB (AMC)	Repair Care Provider Center	950
	<p><u>Justification:</u> Repair mechanical, electrical, plumbing of the center that houses the following clinics, substance abuse, mental health, family advocacy and the demand reduction office.</p>		
DC	AFIP	Repair BL3, Lab, Bldg 54	500
	<p><u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to critical systems.</p>		

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

FY 1997 State	<u>Location/Installation</u>	<u>Project Title</u>	(\$000) <u>Cost</u>
DC	WRAMC	Correct Life Safety Deficiencies--Phase I	2,500
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to critical systems	
DC	Bolling AFB (11th Wing)	Repair HVAC/Install DDC System	650
		<u>Justification:</u> Repair the existing heating, ventilation and air conditioning systems and install direct digital control system in building 1300.	
FL	NH JAX	Repair Air Handling Unit #4, R1-96, Bldg. 2080	1,196
		<u>Justification:</u> Repair by replacement to the existing air handling unit. This air handling unit (AHU) is the original built equipment, constructed in 1967. The existing air handling unit has reached the end of its useful life. The system has become unreliable and is highly inefficient. The unit shows significant signs of corrosion and deterioration.	
FL	NH PNCLA	Laboratory Renovation, R1-97, Bldg. 2268	503
		<u>Justification:</u> Repairs necessary to existing laboratory in order to meet current standards and life safety codes. Existing lab was constructed in 1976 as part of the original hospital. Demand for services is greater than anticipated and the original facility is unable to adequately meet the demands of changing technology. Current situation adversely affects production.	

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

FY 1997 State	<u>Location/Installation</u>	<u>Project Title</u>	(\$000) <u>Cost</u>
GA	EAMC	Clinical Investigation Lab Renewal <u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to critical systems	1,200
GA	EAMC	Repair Endoscopy Suite	900
GA	EAMC	<u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to critical systems	930
GA	Winn Army Hospital	Repair Ward <u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to critical systems	720
GA	Pulaski Bks	Replace Electrical Breakers <u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to critical systems	2,900
		Renewal of Dental Clinic <u>Justification:</u> Repair/replace because of impact to Mission of Operations.	

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u>
<u>State</u>			<u>Cost</u>
GE	Ramstein AB (USAFE)	Repair aeromedical staging facility	2,000
		<u>Justification:</u> Project will provide much needed life safety upgrades and expand floor space to accommodate 30 bed spaces. The existing space cannot support operational requirements.	
GU	NH GUAM	Replace Elevators, R1-95, Bldg. 1	1,942
		<u>Justification:</u> Repair by replacement to deteriorating, unreliable elevator. Elevator is in need of major overhaul. Constant repairs to the elevator makes the elevator unavailable for use.	
GU	NH GUAM	Replace Air Conditioning and Refrigeration Equipment, R2-94, Bldg. 1	1,099
		<u>Justification:</u> Repair by replacement to the existing air conditioning and refrigeration systems with an environmentally conforming type air conditioning and refrigeration system. Current systems are using Freon 11 and 12 which are considered hazardous substances due to toxic vapors that they emit.	
HI	Tripler	Duct Cleaning--Phase II	996
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to support functions..	

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

FY 1997 State	<u>Location/Installation</u>	<u>Project Title</u>	(\$000) <u>Cost</u>
HI	Tripler	Upgrade Fire Sprinkler System, Bldg. 1A	1,100
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, environmental, or JCAHO impacts to support functions..	
HI	Tripler	Repair Bldg 686, Schofield Barracks	2,850
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, enviro, or JCAHO impacts to support functions	
HI	Tripler	Repair Bldg 685, Schofield Barracks	2,875
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, enviro, or JCAHO impacts to support functions	
IL	Scott AFB (AMC)	Emergency Power Generator System	929
		<u>Justification:</u> Replace an aging emergency power generator system that has reached its life expectancy.	
IL	Scott AFB (AMC)	Life Safety Code Deficiencies	504
		<u>Justification:</u> Repair numerous life safety code deficiencies in the Medical Center.	

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u>	<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
IL		Scott AFB (AMC)	Upgrade Elevators	590
		<u>Justification:</u> Repair and upgrade aging elevators in the Medical Center.		
IL		NH GLAKES	Mechanical Repairs (Med/Den Clinic), R1-92, Bldg. 2378	600
		<u>Justification:</u> Repairs to HVAC, plumbing, electrical and lighting systems. The cooling equipment has exceeded its useful life expectancy and is beyond economical repair. The building's plumbing and HVAC piping insulation is either loose, missing or environmentally unsafe in most areas. The electrical and lighting systems will be replaced to meet current requirements for safe and health operations.		
IT		Aviano AB (USAFE)	Dental Expansion	797
		<u>Justification:</u> Renovate 2nd floor building 121 for dental operations. The project is under design and will provide additional DTR's for the overseas DoD dependent dental care program.		
JA		Misawa AB (PACAF)	Paint Interior of Hospital Building	500
		<u>Justification:</u> Paint designated interior rooms with semi-gloss enamel paint. Existing latex paint is stained and can not be cleaned.		
JA		Yokota AB (PACAF)	Electrical Repair	2,205
		<u>Justification:</u> Repair electrical systems throughout the facility to comply with NFPA standards.		

Defense Health Program Appropriation
FY 1999 Amended Budget Estimates
Real Property Maintenance Activities
Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u>	<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
JA	Yokota AB (PACAF)	Life Safety Code Upgrades	<u>Justification:</u> Repairs to comply with current NFPA standards. Install sprinklers, upgrade existing corridors, replace smoke dampers, replace fire doors, replace fire alarm systems, install humidity control system, modify isolation rooms to meet OSHA standards, repair plumbing, structural, medical gas systems and miscellaneous mechanical repairs.	1,450
JA	NH OKI	Replace HVAC System (Phase I), Rt-93(1), Bldg. 6000	<u>Justification:</u> Phase I. Repair by replacement of entire (1950's vintage) deteriorating heating, ventilation, and air conditioning system (HVAC). The HVAC system is presently not air-balanced, which affects compliance to room pressurization criteria, indoor air quality, as well as the overall system performance. For cooling, high room humidifiers have resulted in dew point condensation with resulting dampness, mildew and fungus growth, odors, accelerated corrosion and deterioration of medical equipment.	1,160
KY	Blanchfield Army Hospital	Replace Roof on Hospital	<u>Justification:</u> Repair/replace because of impact to mission of operations	1,743
KO	Kunsan AB (PACAF)	Upgrade Mechanical Electrical Systems	<u>Justification:</u> Replace two air handling units, revise HVAC controls correct code deficiencies, replace fire detection and alarm systems, upgrade existing power distribution system.	598

**Defense Health Program Appropriation
 FY 1999 Amended Budget Estimates
 Real Property Maintenance Activities
 Major Repair/Major Repair With Concurrent Minor Construction Projects
 (Costing more than \$500,000.00)**

FY 1997 State	<u>Location/Installation</u>	<u>Project Title</u>	(\$000) <u>Cost</u>
KO	Osan AB (PACAF)	Repair and Replace Operating Room Air Handling Units, Repair HVAC Controls	500
		<u>Justification:</u> Replace single air handling unit with two air handling units for the operating suite and recovery room. Repair damage in an air handling unit which currently is creating problems in airflow, balance air flow in entire hospital to meet code standards.	
LA	Bayne-Jones Army Hospital	Replace Air Handling Units	1,283
		<u>Justification:</u> Repair/Replacement for amelioration of health, safety, envir, or JCAHO impacts to critical systems	
LA	Bayne-Jones Army Hospital	Upgrade Heating & Cooling Capacity	1,055
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, envir, or JCAHO impacts to critical systems	
MD	Andrews AFB (AMC)	Renovate Bldg. 1075 Auditorium	703
		<u>Justification:</u> Upgrade and renovate the Auditorium.	
MD	Andrews AFB (AMC)	Phase I HVAC	4,000
		<u>Justification:</u> Phase I to upgrade the medical facility, replace aging HVAC system.

Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u> <u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
MD	NNMC Bethesda	Repair Expansion Joints (Parking Structure), R8-95, Bldg. 54	1,364
		<u>Justification:</u> Repair by replacement needed to all expansion joints from level two to five. This is a six story parking facility with parking capacity for approximately 928 vehicles. 110 guardrail posts have been significantly corroded and need repair. Remove and re-patch all delaminated concrete topping slab. Repairs also include 22 damaged column caps and concrete curbs.	
MS	Columbus AFB (AETC)	Maintenance and repair of various areas within the medical facility	853
		<u>Justification:</u> Includes radiology department repairs, move of Bioenvironmental engineering office from outlying building to inside the medical facility and warehouse and kitchen renovations.	
MS	Keesler AFB (AETC)	Life Safety Repairs	1,200
		<u>Justification:</u> Corrects numerous violations of NFPA Life Safety Code to include damages missing or sub-standard fire doors, dead-end corridors, missing or incorrect exit lights and mechanical problems in the HVAC system.	
MS	Keesler AFB (AETC)	Hot Water System Repairs	812
		<u>Justification:</u> Corrects the following deficiencies: No check valves on return pipes, hot water pipes are clogged with mineral deposits, mixing valves leak, fixtures often tap into return lines instead of supply lines, uninsulated pipes exist in main mechanical room and crawl spaces.

FY 1997 State	<u>Location/Installation</u>	<u>Project Title</u>	(\$000) <u>Cost</u>
MO	Gen Leo. Wood Army Hospital	Repair Vet Clinic	765
	<u>Justification:</u> Repair/replacement for amelioration of health, safety, envir, or JCAHO impacts to critical systems		
ND	Grand Forks AFB (AMC)	Replace HVAC	4,100
	<u>Justification:</u> Replace HVAC which has reached its life expectancy.		
ND	Grand Forks AFB (AMC)	Repair Interior Finishes	500
	<u>Justification:</u> Upgrade interior finishes within the hospital.		
OH	Wright-Patterson AFB (AFMC)	Replace Domestic Water, Phase II	800
	<u>Justification:</u> Replace damaged water lines and install valves to various sections within the Medical Center.		
OH	Wright-Patterson AFB (AFMC)	Chiller Replacement	660

Justification: Replace two 1200-ton Chillers with Non-CFC Chillers. Project will encompass a system which uses a more energy efficient means such as natural gas and steam powered chillers. The Medical Center is currently using CFC chillers.

Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1997</u>	<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
PR	NH	ROOSRD	Correct NEC Deficiencies/Replace Lightning Protection R13-96, Bldg. 1790	931
			<u>Justification:</u> Repairs to correct National Electrical Code (NEC) deficiencies. Repairs include the lighting protection system, install grid system over the roof. Transformers located in the electrical rooms on the roof are not grounded according to the NEC. Hospital currently functions in violation of the NEC and NFPA regulations and puts patients and hospital personnel at risk on a daily basis.	
RI	NH	NPT	Repairs and Alternations, RC1-95, Bldg. 43	4,150
			<u>Justification:</u> Project is a whole building repair project which includes improvements to the exterior and interior spaces. Interior repairs include upgrading the electrical distribution system, heating system, hot and cold potable water systems, and fire sprinkler systems. All building systems are over 50 years old. Exterior repairs include repainting and sealing the exterior brick veneer.	
RI	NH	NPT	Repairs and Alternations to Interior, RCE1-91(2), Bldg. 44	1,583

Justification: Facility was constructed 1942. Interior repairs include replacing the elevator, the electrical distribution system, the heating system, the hot and cold potable water systems, the fire sprinkler and alarm systems, and interior finishes. All the major building systems are deteriorated, energy inefficient, and beyond their useful life.

<u>FY 1997</u>	<u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
	SC	NH CHASN	Replace Exterior Windows, R4-89, Bldg. NH-1	1,953
			<u>Justification:</u> Repairs required to stop deterioration to window wall joints where cracked and allows water penetration. Also, water penetration and mildew evident within mortar, bricks, and precast concrete panels. Adversely affects safety, morale.	
	TX	NH CORPUS	Repair Potable Water Distribution, R1-96, Bldg. H100	627
			<u>Justification:</u> Repairs to deteriorated potable water lines. The potable water distribution lines are old and deteriorated. The frequency and cost of repairs is rising. Repairs require loss of water for most areas of the hospital until leaks are fixed. Continuing deterioration of the water lines, longer repair times have an adverse impact on patient care.	
	TX	Sheppard AFB (AETC)	Sprinklers and Standpipes	1,052
			<u>Justification:</u> Install new sprinklers and standpipes to correct fire safety deficiencies in mechanical rooms.	
	TX	Wilford Hall Med. Ctr (AETC)	Replace Elevators	800
			<u>Justification:</u> Replacement of aging elevator systems throughout the medical center; includes cars, cables and controls.	
	TX	Wilford Hall Med. Ctr (AETC)	Replace Chillers	2,700
			<u>Justification:</u> Replacement of aging chiller system in total within the energy plant.

 (Costing more than \$500,000.00)**

<u>FY 1998</u> <u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
FL	Eglin AFB (AFMC)	Replace Roof and Drain System	2,700
	<u>Justification:</u> Project includes construction of a new combination hip and gable standing-seam metal roofing systems over the existing flat built-up roofing systems. Included are lightening arresting system, external rainwater collection system, down spouts and connections to existing underground storm water drainage system. Existing roof has been patched and partially replaced several times over the past 20 years.		
FL	MacDill AFB (AMC)	Upgrade Electrical System	750
	<u>Justification:</u> Upgrade and improve the electrical service provided to the medical facility.		
GA	EAMC Eisenhower	Renewal of CIF Bldg.	1,000
	<u>Justification:</u> O&M project associated with MILCON project.		
GE	Ramstein AB (USAFE)	Add/Alt Patient Movement Items Warehouse	981
	<u>Justification:</u> Construct addition to existing warehouse, repair interior to accommodate PMI in Europe. Minor construction portion of project is less than \$500K.		
GE	Spangdahlem AB (USAFE)	Install Fire Rated Doors	591
	<u>Justification:</u> Install fire rated doors at Bitburg AB and Spangdahlem bldgs. 57,67, 137, 16, and 175. Additional work will include sealing wall penetrations and adding exit lights to all facilities.

GE	Wuerzburg	Renewal of Hospital Outpatient Clinic	7,000
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, envir., or JCAHO impacts to critical systems.	
HI	Tripler	Renewal of Bldg. 677, Schofield Barracks	3,800
		<u>Justification:</u> Repair/replacement for amelioration of health, safety, envir., or JCAHO impacts to critical systems.	
IL	NH GLAKES	Historical Renovation, R6-90, Bldg. 1H	4,103
		<u>Justification:</u> Repairs necessary to this 87 year old facility. The exterior is deteriorating due to exposure to weather elements. Repairs and replacements include brickwork, tuckpointing, windows. Economical repair is not feasible due to antiquated parts that have not been made for many years. Propose to restore to the original appearance of the building. The work performed will be in compliance with criteria for an Historic District.	
IL	NH GLAKES	Repairs to Elec/Mech/Roof, R4-95, Bldg. 38H	1,553
		<u>Justification:</u> This building was built in 1946. Project will replace existing deteriorating hot and cold galvanized water lines and asbestos containing pipe insulation with copper water lines, and installation of backflow preventer, zone and shutoff valves. Steam radiator heating, partially central and window a/c unit system will be replaced by central HVAC system. Minor construction portion of project is less than \$500 K. Repair roof that is deteriorated and leaks.

Major Repair/Major Repair With Concurrent Minor Construction Projects
(Costing more than \$500,000.00)

<u>FY 1998</u> <u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	(\$000) <u>Cost</u>
IL	Scott AFB (AMC)	Repair Facility Infrastructure Deficiencies	1,946
	<u>Justification:</u> Corrects critical mechanical plumbing, medical gas, and electrical deficiencies. Repairs or replaces air handling units, chiller cooling towers, condenser units, exhaust fans, sump pumps, domestic water and storm water drain piping, upgrades, controls to digital technology. Upgrades existing HVAC energy conservation management system to a digital distributed control network, includes asbestos abatement		
IL	Scott AFB (AMC)	Upgrade and Repair Bathroom	640
	<u>Justification:</u> Upgrade and repair bathroom to comply with Americans with Disabilities Act		
IL	Scott AFB (AMC)	Pharmacy Drive Through	500
	<u>Justification:</u> Construct a drive-through at the pharmacy		
JA	NH OKI	Replace HVAC System (Phase II), R5-93(2), Bldg. 6000	3,365
	<u>Justification:</u> Phase II. Repair by replacement of entire (1950's vintage) deteriorating heating, ventilation, and air conditioning system (HVAC). The HVAC system is presently not air-balanced, which affects compliance to room pressurization criteria, indoor air quality, as well as the overall system performance. For cooling, high room humidifiers have resulted in dew point condensation with resulting dampness, mildew and fungus growth, odors, accelerated corrosion and deterioration of medical equipment.

 FY 1999 Amended Budget Estimates
 Real Property Maintenance Activities
 Major Repair/Major Repair With Concurrent Minor Construction Projects
 (Costing more than \$500,000.00)**

FY 1998 State	<u>Location/Installation</u>	<u>Project Title</u>	(\$000) <u>Cost</u>
NM	Kirtland AFB (AFMC)	Repair Medical Clinic Settlement	515
	<u>Justification:</u> Evaluate settling of Bldg. 1209, east side. Southeast corridor linking of the AF ambulatory surgery unit with the VA bridge. Southeast corridor has settled and has two sections of hallway that are sinking. This has created a ledge of approximately one inch or more. This has become a tripping hazard for patients, staff, and visitors and also has created a difficulty transporting post operative patients.		
OK	Altus AFB (AETC)	Repair Walls in Medical Facility	528
	<u>Justification:</u> Needed repairs to the walls are required in various wall penetrations and the need to replace outdated and worn wall coverings		
OK	Tinker AFB (AFMC)	Repair Dental Facilities	581
	<u>Justification:</u> The Dental Clinic requires aesthetic and ergonomic dental cabinetry with smooth easy to clean surfaces to facilitate asepsis. Complete mechanical upgrade of plumbing system, new floor tiles and wall finishing. The office areas need modification to be able to treat handicapped in accordance with American with Disabilities Act. (ADA)		
OK	Tinker AFB (AFMC)	Replace Controls/Upgrade HVAC	516
	<u>Justification:</u> The existing HVAC systems are obsolete and in critical shape. Most of the existing HVAC systems range in age form 40 years old to some new single loop systems installed within the last year. The HVAC systems have been patched and patched and pieced together from various parts just to keep them running.

		<u>Justification:</u> O&M project associated with MILCON project.	
SC	NH Beaufort	Upgrade Fire Sprinkler System, R5-94, Bldg. 1	3,000
		<u>Justification:</u> Install 3,350 automatic fire sprinkler heads and an electric fire pump. The facility will be in compliance with the National Fire Protection Association Life Safety Code.	
SC	NH Beaufort	Remove Asbestos, R8-94, Bldg. 1	2,648
		<u>Justification:</u> This project will remove all asbestos containing materials in the building which pose a health hazard to the hospital occupants.	
TN	NH Millington	Construct/Repair (NSA Memphis Clinic), RC1-96, Bldg. S771	2,854
		<u>Justification:</u> As a result of the scheduled closure of the existing NAVHOSP Millington and change in the Naval Support Activity mission, the Basic Facility Requirements (BFR) for subject project must be accommodated for this facility. Repairs are necessary to the HVAC, plumbing, and mechanical systems. Additional repairs include; floor, roof, structural. Minor construction - \$248K.

<u>FY 1998</u> <u>State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000)</u> <u>Cost</u>
TX	NH CORPUS	Emergency Electrical Distribution, Reconfiguration, Bldg. H100	862
	<u>Justification:</u> Project will redirect electrical services into critical and non-critical branches to comply with NAVFAC DM 33.02 and NFPA 99 requirements.		
TX	NH CORPUS	Elevator System Upgrade, R6-96, Bldg. H100	557
	<u>Justification:</u> This project will repair deteriorating elevators located in the hospital. Replace outdated controls, re-rope all elevators, and replace dilapidated hardware which will allow smoother operation and greater reliability of these units. Repairs will enhance patient care and support.		
TX	NH CORPUS	Replace Chilled Water Lines, R3-96, Bldg. H100	648
	<u>Justification:</u> The chilled water distribution lines are old and deteriorated. Repairs require increased down time due to poor condition of chilled water pipes. Continuing deterioration of the chilled water lines and longer repair times have an adverse impact on patient care.		
TX	Dyess AFB (ACC)	Clinic Alteration Project	5,100
	<u>Justification:</u> A major renovation project is taking place to update an aging clinic. Numerous projects will be taking place to bring the clinic support area up to code and modernization		
TX	Sheppard AFB (AETC)	Replace Room Induction Units	579
	<u>Justification:</u> Replace room induction units to provide adequate heating and cooling within medical facility

<u>FY 1999 State</u>	<u>Location/Installation</u>	<u>Project Title</u>	<u>(\$000) Cost</u>
SC	NH Beaufort	Replace Waste Drains, R8-96, Bldg. 1 <u>Justification:</u> This project will replace the drain, waste, and vent piping throughout the facility including Y's and traps. The existing system is old, deteriorated and beyond its service life. The waste drains are an integral part of the drainage system and are essential for the well being of both the patients and administrative staff.	572
SC	NH Beaufort	Replace Electrical Subpanels, R10-96, Bldg. 1 <u>Justification:</u> The project will replace the electrical subpanels throughout the hospital. The subpanels throughout the hospital. The subpanels are aged, bus bars corroded, and door trim covers are not bonded to cabinets. This project is in direct support of the activity's mission to provide adequate patient care and administration in the hospital.	531
SC	NH Beaufort	Replace Plumbing Fixtures, R7-96, Bldg. 1 <u>Justification:</u> This project will replace the outdated plumbing fixtures throughout the entire facility. The fixtures are corroded and tarnish has set in. Some of the fixtures date back to the 1940's. The plumbing fixtures have exceeded their service life according to ASHRAE guidelines.	542
