NATIONAL GUARD PERSONNEL, AIR FORCE

INTRODUCTION

The National Guard Personnel, Air Force appropriation provides the required funding to assure accomplishment of the Air National Guard (ANG) mission; and to provide trained units to selectively augment the Active Force. The FY 2000/2001 Biennial Budget Estimates are based on an average strength of 105,888 in FY 2000 and 105,179 in FY 2001 who will be assigned to ANG flying and mission support units. In addition to annual 15-day tours and 48 drill periods; tours of active duty will provide training for selected ANG personnel. Included in the above average strengths are 10,866 full time active duty ANG personnel in FY 2000, with 10,945 in FY 2001.

The ANG will continue to support the active Air Force mission as required. Training resources, however, are constrained due to understated payroll costs in prior years' estimates. As in past years we expect to receive military man-days to support the active Air Force. These days are in addition to our programmed funds. Some of these man-days are necessary to satisfy the total annual and special training requirements. If consistent with previous years, we estimate approximately \$33.4 million of annual and special training normally within the ANG MPA will be covered by a portion of the active Air Force military man-day program. To balance to program, we have constrained our school and special training programs. We have reduced School Training by 16% and Special Training by 8% in FY 1999. We also reduced Education Benefits by \$2.4 million. Throughout this budget, work years and rates reflect an executable program based on FY 1998 actual data.

All funding is based on 1998 actual execution rates and given economic assumptions. An active Air Force military man-day program will supplement the FY 1999 School Training and Special Training programs. The end strength programs for FY 2000 and FY 2001 are adjusted to reflect an executable program, considering the draw down of traditional enlisted personnel, the staff integration test program and the development of personnel through training and pipeline resources.

Our budget also reflects a reimbursable program to support the Foreign Military Sales (FMS) program of F-16 training for foreign pilots and the National Science Foundation (NSF) Antarctic mission transferred from the Navy. Reimbursable average strengths are 952 in FY 2000, 966 in FY 2001.

This budget request represents the minimum level of funding required to accomplish the Air National Guard share of the National Defense mission. With the resources requested, the ANG will provide nearly 32 percent of the total Air Force flying capability, ranging from 100 percent of the interceptor and conventional reconnaissance capability, to 8 percent of the strategic airlift capability. Further the ANG will provide significant non-flying mission support capability in areas such as combat communications and civil emergency support.

The Air National Guard serves proudly and validates the credibility of our training program. As the total force is restructured, the Air National Guard continues to accept new and increased national defense challenges. We have been very successful in accepting these challenges in the past, and can continue to do so with full funding of this request.

ECONOMIC ASSUMPTIONS

The following are the economic assumptions employed in pricing the approved programs. Social Security costs are based on the percentage rate set by law on a member's salary for a calendar year. P.L. 98-21, "Social Security Amendment of 1983" dated 20 April 1983 established the tax rate while the maximum taxable income is determined by the Social Security Administration. The Old Age, Survivor, and Disability Insurance (OASDI) rate is 6.2% and the Hospital Insurance (HI) is 1.45%. There is no wage cap on the 1.45 percent medical contribution. The Government's contribution is based on the percentage rate set by law on member's salary for a calendar year. Rate protection still applies to all housing allowances.

-----------------------------	-----------	-----------------------------	-----------	---------------------	-----------	---------------------	-----------

PART I - PURPOSE AND SCOPE

This budget activity provides for pay and allowances, retired pay accrual, clothing, subsistence and travel for Air National Guard officers and enlisted personnel assigned in Pay Group A. These personnel are authorized 15 days paid annual training and 48 paid inactive duty drill periods each fiscal year, additional flying training periods for personnel on flying status, and training period preparation assemblies for traditional Guardsmen with trainer responsibilities.

Program requirements are based on average strength and training participation rates for each fiscal year. The dollar rates used for pricing the program requirements are based on actual experience and reflect the applicable approved economic assumptions identified on page 2.2.

The end strength and average strength are adjusted to an executable program for FY 99 through FY 01. Completion of the full annual training program requires use of active duty man-days to allow full participation. Based on prior years' experience, the ability to complete annual training using active duty mandays to support the active Air Force in mission accomplishment is beneficial for both the Air Force and the Guardsman. Approximately \$33.4 million additional funding would be required to complete the full Air National Guard annual training and special training programs if active duty man-days were not available.

Uniforms for enlisted are supplied through unit supply. On 1 Oct 1999, the Air Force Class A uniform will be obsolete. This is the most expensive item in the uniform bag. The issue of new Class A uniforms, along with replacement of obsolete stocks, will occur in FY 99 through FY 01.

PART I - PURPOSE AND SCOPE

This budget activity provides for pay and allowances, retired pay accrual, clothing, subsistence, travel, and per diem for Air National Guard officers and enlisted personnel performing tours of paid active duty for formal school training. This program is designed to increase the mobilization potential and readiness of Guardsmen through training at military service schools. This school training improves individual proficiency and cross-trains individuals into critical skill career fields. The length of each course includes the actual period of instruction, travel time as prescribed by appropriate travel regulations, and accrued leave at a rate of 2-1/2 days per month when training is in excess of 30 days.

School tours are programmed and budgeted in six separate categories as follows:

- (1) Career Development Training
- (2) Initial Skill Acquisition Training
- (3) Officer Candidate School
- (4) Refresher and Proficiency Training
- (5) Undergraduate Pilot and Navigator Training
- (6) Unit Conversion Training

The FY 99 school program is constrained to remain within current total obligation authority. The total school program reduced approximately 16%, however individual categories of schools may be retained at higher levels due to scarce skills or lengthy school attendance requirements.

The following pages present the requirements for each of the six categories and describe more precisely what is included in each category. The dollar rates used for pricing the program requirements are based on actual experience and reflect the approved economic assumptions identified on page 2.2.

This budget activity provides for pay and allowances including retired pay, government's Social Security contributions, subsistence, travel and per diem for Air National Guard (ANG) officers and enlisted personnel who will perform tours of paid active duty other than those converted by Pay Groups A, F, P and School Training. These tours include ANG Air Defense and Air Combat Command (ACC) Alerts, Joint Chiefs of Staff Exercises, United States Air Force Mission Support, conversions and other special training necessary to improve combat proficiency or to increase mobilization readiness of Air National Guard units. The FY 99 special training program is constrained to remain within current total obligation authority. The total special training program is reduced approximately 8%, however individual categories may be retained at higher levels due to scarce skills or lengthy school attendance requirements.

The special tours are programmed and budgeted in nine categories as follows:

- (1) Competitive Events
- (2) Command/Staff Supervision
- (3) Management Support
- (4) Exercises
- (5) Operational Training
- (6) Service Mission/Mission Support
- (7) Unit Conversion Training
- (8) Drug Interdiction
- (9) Active Duty for Special Work (ADSW)

The following pages present the requirements in each of the nine categories and describe more precisely what is included in each category. The dollar rates used for pricing the program requirements are based on actual experience and reflect the economic assumptions identified on page 2.2.

PART I - PURPOSE AND SCOPE

Funds are for payment to the Department of Defense Education Benefits Fund. The program is governed by Title 10 U.S.C., Chapter 106. This program will fund educational benefit payments in their entirety for eligible individuals in the Selected Reserve. This program is budgeted on an actuarial basis. Actual payments to individuals are made by the Veterans Administration from funds transferred from the trust account. Changes in criteria for eligibility caused program increases.

 DETAIL OF REQUIREMENTS
 (AMOUNTS IN THOUSANDS OF DOLLARS)

All individuals enlisting, re-enlisting, or extending for not less than six years in the Selected Reserve after 1 July, 1985, except those who have received a commission from a service academy or completed an ROTC scholarship program, are eligible to receive educational assistance unless they are entitled for assistance under Chapter 30 of Title 38 U.S.C. The individuals must also meet initial training and high school diploma or equivalency requirements. Cost estimates are actuarially based and reflect eligibility estimates adjusted by an estimate of ultimate benefit utilization and partially offset by an estimate of interest earned on investments of the Education Benefits Fund. The program will provide funds adequate to allow for one of three levels of assistance. These levels are \$251 per month for full-time educational pursuit, \$188 for three quarter time pursuit and \$125 for half time pursuit. The maximum total benefit that can be paid is \$9,036.

The G.I. Bill is considered a prime recruiting benefit. The air national Guard foresees the increased competition for quality personnel and increased demand for education benefits among its current and future enlisted populations.

FY 99 (*) is constrained due to reduced fund availability. To fully fund FY 99, \$2.7 million additional funding is required.

The following table displays the estimated eligible population and estimated per capita dollar rate for each fiscal year:

Part I - Purpose and Scope

Congress approved in the 1997 Fiscal Year DoD Authorization Act the payment of a COLA to members assigned to high cost areas in CONUS.

Part II - JUSTIFICATION OF FUNDS REQUESTED

High cost areas are grouped as Housing Areas (MHA) where the cost of food and services exceeds 109 percent of the national cost of living average. Computation of program cost is the product of military members by grade and dependency status, the number of members assigned to the designated high-cost area of CONUS, and the percent by which an area's cost of non-housing goods and services exceeds 109 percent of the national cost of living average.
