NOTE

JPRS publications contain information primarily from foreign newspapers, periodicals and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained.

Headlines, editorial reports, and material enclosed in brackets [] are supplied by JPRS. Processing indicators such as [Text] or [Excerpt] in the first line of each item, or following the last line of a brief, indicate how the original information was processed. Where no processing indicator is given, the information was summarized or extracted.

Unfamiliar names rendered phonetically or transliterated are enclosed in parentheses. Words or names preceded by a question mark and enclosed in parentheses were not clear in the original but have been supplied as appropriate in context. Other unattributed parenthetical notes within the body of an item originate with the source. Times within items are as given by source.

The contents of this publication in no way represent the policies, views or attitudes of the U.S. Government.

PROCUREMENT OF PUBLICATIONS

JPRS publications may be ordered from the National Technical Information Service, Springfield, Virginia 22151. In ordering, it is recommended that the JPRS number, title, date and author, if applicable, of publication be cited.

Compensatory subsidies	22,008,570
Expenditures	187,206,380
Reserves	1,012,766

in keeping with Appendix 2.

Article 4. 1. The individual income of the local budgets includes:

- 1) Payments of the enterprises and cooperative organizations included in the local plan, except tax on the payroll fund and other payments which are central budget income, by virtue of the regulations governing the principles of the financial administration of the enterprises and cooperative organizations,
- 2) Receipts defined as a percentage of the value of the retail sales and services of socialized trade and service units included in the central and local plan up to 101% of the amounts of such payments specified in Appendix 2,
- 3) Payments from general savings banks in the amount set by the Minister of Finance as a percentage of the amounts of savings on deposit,
- 4) Fees for benefits and services rendered by budget-financed units subordinate to the people's councils and income of an administrative and property nature collected by these units and agencies of local bodies of the state administration,
- 5) Payments of budget-financed establishments subordinated to the people's councils,
- 6) Taxes on political, social, and professional organizations, agrarian circles, cooperatives of agrarian circles, and other organizational units supervised by voivodship unions of agrarian circles, except for payroll tax,
- 7) Income tax on cooperative banks and turnover tax from enterprises and organizations conducting games of chance cleared through local budgets,
- 8) Land tax except for the part collected for the Agricultural Development Fund, payments for the State (Agricultural) Land Fund, and fees for reclamation, installation of electricity, and the construction of water installations,
- 9) Turnover and income taxes on physical and legal parties which are not units of the socialized economy, except for taxes on physical and legal parties with a foreign residence or headquarters although they conduct economic activity or receive income within the Polish People's Republic,

- 10) taxes on earnings, compensatory taxes, and inheritance and gift taxes, as well as other taxes and fees collected on the basis of the regulations on certain local taxes and fees,
  - 11) treasury fees,
  - 12) income from fines and penalties assessed in misdemeanor cases, penal treasury cases, and other administrative cases in which the ruling is handed down by local bodies of the state administration or voivodship commissions (in towns with voivodship rank, town commissions) handing down rulings in budget-discipline violation cases,
  - 13) fees other than those mentioned in Points 4, 8, 10, and 11, collected by organizational units subordinate to the people's councils and by the agencies of local bodies of the state administration,
  - 14) receipts from back payments in compensation for cancelled taxes and equivalent, if they represented local budget income prior to their cancellation.
2. The income referred to in Paragraph 1, Point 14 is not treated as part of the plan.
  3. Income mentioned in Paragraph 1, Points 2 and 3 is direct income of the individual voivodship budget. The Voivodship People's Council determines what income mentioned in Paragraph 1, Points 1 and 4-14 is to be included in the direct income of the towns, city sections, and gminas (towns and gminas) and which is to be included in the income of the individual budget of the voivodship, taking into account the possibility that the size of the income from these sources may be influenced by the people's councils and the local bodies of the state administration.
  4. The voivodship People's Council can determine the proportions in terms of the following:
    - 1) the voivodship's own budget as a share of the income of other local individual budgets included in the joint voivodship budget,
    - 2) the budgets of the towns, city sections, and gminas (towns and gminas) as a share of the individual budget of the voivodship.

Article 5. Budget income which is not local budget income is central budget income.

Article 6. 1. By 31 January 1977 the Minister of Finance will set the percentage rates discussed in Article 4, Paragraph 1, Point 2, for the joint budgets of the voivodships.

2. In the event that the income discussed in Article 4, Paragraph 1, Point 2 is not obtained in the amounts set in Appendix 2, the Minister of Finance

will make up the shortage, up to 99 percent of the amount, from the central budget.

Article 7. 1. The people's councils will approve the individual local budgets divided into sections and subsections.

2. The voivodship people's councils may approve local budget expenditures amounting to more than the figures established in the budget law, and the people's councils at the lowest level can approve sums higher than those implied by the resolution of the Voivodship People's Council, provided that their own income is set higher, except for income specified in Article 4, Paragraph 1, Point 2.

3. The regulation of Paragraph 2 also applies in the cases described in Article 42, Paragraph 3 of the law dated 25 November 1970, Budgetary Law (DZIENNIK USTAW, No 29, Item 244).

Article 8. A reserve is established for unforeseen expenditures in the joint budgets of the voivodship and amounts to 0.5 percent of ongoing expenditures.

Article 9. The transfer of credit in the local budgets must not cause

- 1) an increase in the reserves for unforeseen expenditures,
- 2) an increase in the total size of credit in the sections "Municipal Economy or "Housing Economy and Nonmaterial Municipal Services" or credit in the section "State Administration," except for transfers related to the execution of Council of Ministers' resolutions or the activation of funds from reserves for unforeseen expenditures,
- 3) a reduction in credit in the "Agriculture" section.

Article 10. 1. Local bodies of the state administration are charged with seeing that current budget balance is maintained, assuring that income is received promptly, and preventing expenditures exceeding the amount of income received plus the funds from reserves.

2. The Minister of Finance establishes the principles and frequency of bank monitoring of local budget balance.

3. If it is found that balance is not maintained in the budget of a town, city section, or gmina (town and gmina), then the local body of the state administration will issue a request to give a repayable cash grant out of the voivodship reserve fund.

4. In the event balance is not maintained in an individual voivodship's budget or there is a shortage of funds in the voivodship reserves for awarding the cash grant mentioned in Paragraph 3, the voivodship head issues a request that the bank grant bank credit.

5. Failure to issue a request for the issuance of a cash grant (Paragraph 3) or the issuance of bank credit (Paragraph 4) constitutes a violation of budget discipline in the sense of the regulations of Article 84, Paragraph 2 of the Budgetary Law.

6. Bank credit is subject to repayment from the voivodship reserve fund. Interest on credit incurred to balance the individual budget of the voivodship is paid out of the voivodship reserve fund, and in other instances, out of the reserve fund of the budget which was awarded the cash grant which caused the credit to be incurred.

Article 11. 1. As the result of carrying out the 1976 budget, the people's councils have available the following:

- 1) the income which is not part of the plan, as described in Article 4, Paragraph 1, Point 2,
- 2) income from ad hoc property tax, except for the part designated in 1976 to increase budget-financed outlays,
- 3) consolidated moneys due and income from repayment of liabilities from cancelled taxes and equivalent moneys owing,
- 4) half the income not included in the plan, from other sources,
- 5) unutilized budget-financed credit for the communal and housing economy,
- 6) half the unutilized budget-financed credit for state administration,
- 7) unutilized reserves for unforeseen expenditures.

2. Half the funds discussed in Paragraph 1, Points 1-4 and 6 are transferred to the local reserve funds, and the rest, along with the funds mentioned in Paragraph 1, Points 5 and 7, go to increase the reserves for unforeseen expenditures.

3. Income not in the plan and unutilized credit which the people's councils do not have at the disposal -- under Paragraph 1 -- are transferred to the central budget.

4. The part of the reserves for unforeseen expenditures derived from the funds mentioned in Paragraph 1 is at the disposal of the people's council or, with its authorization, the local body of the state administration.

5. In the event that the planned income for 1976 is not obtained, only that amount of unutilized credit which does not create or increase a budget shortage is subject to transfer to the central budget.

6. The Minister of Finance can establish the instances in which income not included in the plan and unutilized credit, owing to their negligible size, are not subject to transfer to the central budget.

Article 12. The local reserve fund is a cash reserve of the individual local budget.

2. The reserve fund may be allocated to
  - 1) cover a shortage of the individual local budget at the end of the year,
  - 2) make up shortages in the turnover funds of the enterprises included in the local plan,
  - 3) make repayable cash grants to budget-financed establishments.

In addition, the voivodship's reserve fund may be allocated to grant, during the year, repayable cash grants to the budgets of towns, city sections, and gminas (towns and gminas) and to cover shortages in these budgets, if they cannot be covered out of their own reserve funds.

3. The decision to allocate the reserve fund to make up shortages is made by the appropriate people's council, and the decision to make repayable cash grants from this fund is made by the local body of the state administration.

Article 13. The people's council determines the scope and deadline for the local body of the state administration to file information on changes in the budget.

Article 14. Local road maintenance expenditures for which the Minister of Transportation is the chief body of state administration are financed from the central budget.

2. Gmina people's councils (people's councils of towns and gminas), in addition to the purposes defined in the law on the gmina fund, dated 29 November 1972 (DZIENNIK USTAW, No 49, Item 313), may also allocate gmina funds as partial aid to cover costs of transporting pupils to joint schools.

Article 15.1. The Minister of Finance is authorized to:

- 1) take the financial effects of changes in prices and charges and changes in the principles of the self-financing system for enterprises and other organizational units into account in budget expenditures and income,
- 2) repay out of central budget surpluses the bank credit incurred to finance investments and assets of the State Insurance Bureau.

2. The Minister of Finance is charged with amending the state budget in connection with changes in the principles of taxing nonsocialized units of the economy and with increasing compensatory subsidies to the joint voivodship budgets, in order to make up for any decline in their income resulting therefrom.

Article 16. Regulations of the law concerning:

- 1) Voivodship People's Councils also apply to the people's councils of towns with the rank of voivodship,
- 2) voivodship administrators also apply to the presidents of towns with voivodship rank,
- 3) voivodship budgets also apply to the budgets of towns with voivodship rank,
- 4) the voivodship reserve fund also applies to the reserve fund in towns with voivodship rank.

Article 17. In 1977, Article 5, Paragraph 2, Point 1 will not apply in the realm of local budgets, Articles 16-20, Article 42, Paragraph 2, and Article 43, Paragraph 1, Point 2 will not apply in the realm of the division of the local budget into parts, and Article 67, Paragraph 1 will not apply in the realm of the transfer of credit between parts or the transfers referred to in Article 9 of this law, Article 73 and Articles 75-78 of the law dated 25 November 1970 -- Budget Law (DZIENNIK USTAW, No 29, Item 244).

Article 18. The law is effective as of 1 January 1977.

Chairman of the Council of State: H. Jablonski  
Secretary of the Council of State: L. Stasiak
