Emerging Role of Banks in E- Commerce

John Wenninger

Federal Reserve Bank of N.Y.

20020314 061

AGI 02-06-1000

What is E-Commerce

- Business conducted on line over computer networks (B2B > B2C)
- Supply chain management -- procurement and distribution
- Electronic exchanges

Likely Role of Banks

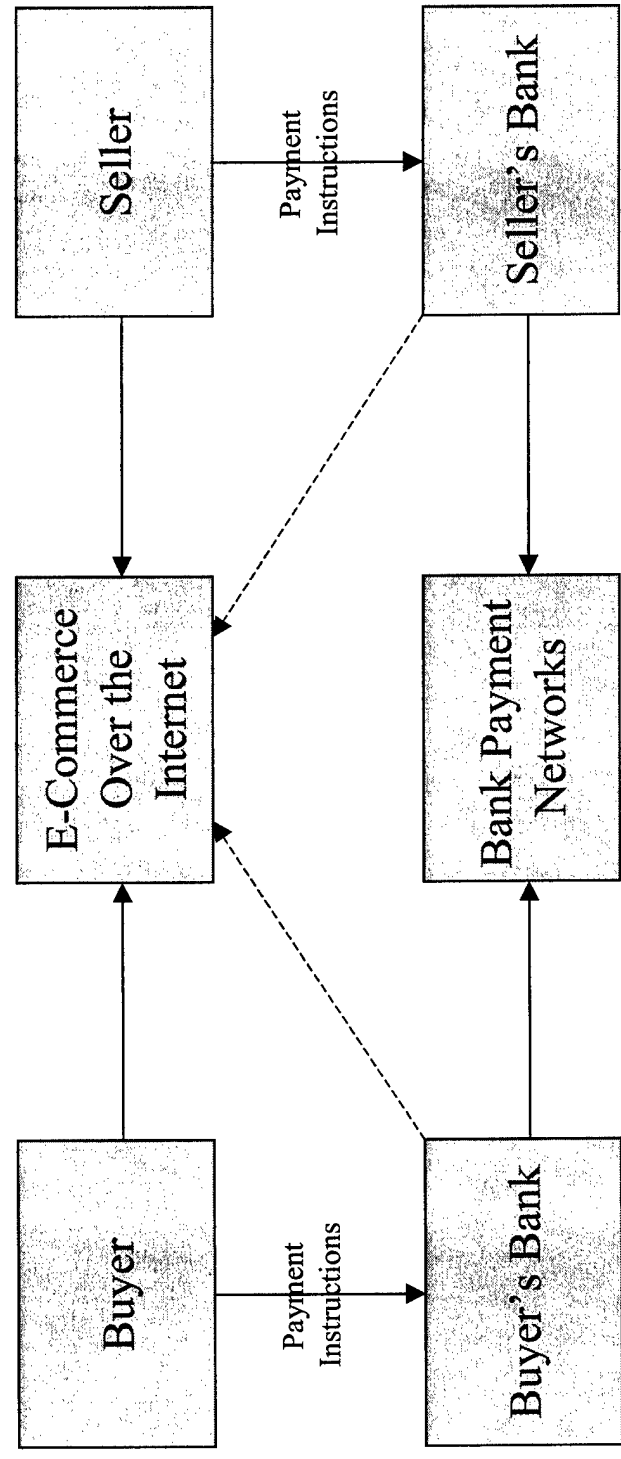

- Access to Conventional Banking Products over the Internet
- Development of New Products to Facilitate E-Commerce

Banking Networks

Transactional vs. Marketing

Role of Banks in E-Commerce

Conventional Products

- **Brochure Sites**

- Product Offerings
- Information about the Bank

- **Transactional Sites**

- Account Information EFT
- Balance Transfer Letters of Credit
- Credit Applications Cash Management
- Bill Payment Foreign Exchange

Bank Advantages E-Commerce Products

- Account Relationships
- Trusted Third Parties for Transactions
- Strong Brand Names

Why Develop New E-Commerce Products

- Strengthen Relationships
- Create Opportunities to Sell Products
- Prevent Technology Companies and
Nonbank Financial Companies from Taking
Their Customers

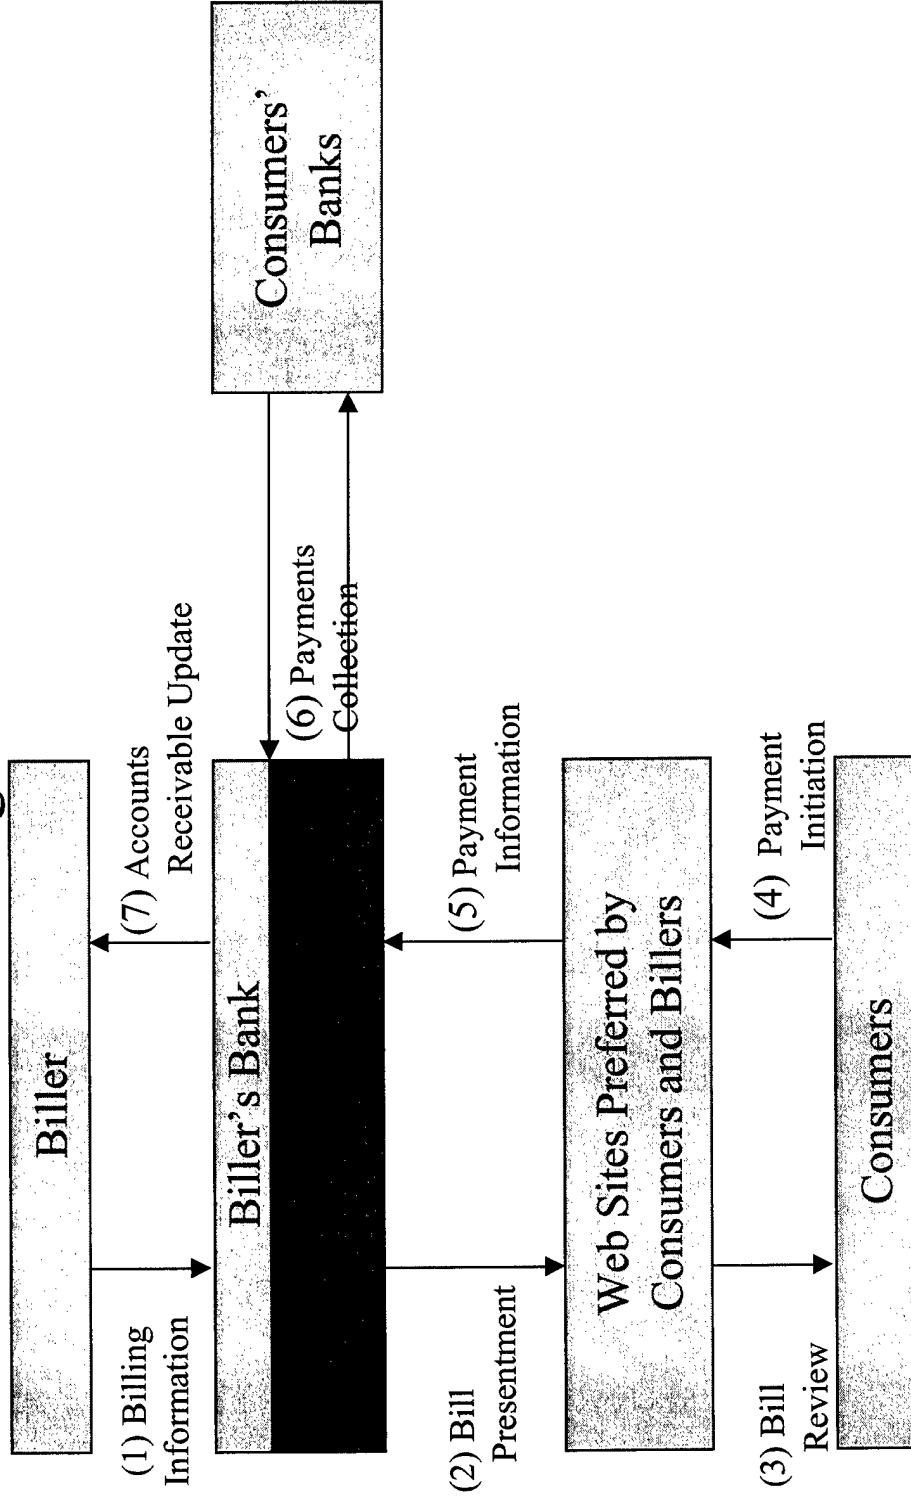

New Products

- **Establishing Internet Portals**
- **Verifying Identities**
- **Offering P2P Payment Services**
- **Enabling B-to-B E-Commerce (supply and demand chain management)**
- **Issuing Electronic Money and Checks**
- **Electronic Bill Presentment and Payment**

Internet Payments

- <http://www.emoney.com> (Bank One)
- <http://www.tradesafe.com> (FleetBoston)
- <http://www.billpoint.com> (Wells Fargo)
- <http://www.x.com> (X.com)
- STAR and NYCE (ATM Payments)
- <http://www.nobil.com> (credit cards)

E-Billing Bank Operated Cash Management Model

Risks Banks Face

- Strategic Risk
- Operational Risk

Strategic Risk

- Competitive (Internet-only banks, technology companies acting as banks, and information aggregators)
- Adjustment (Optimum size of branch networks, and involvement in conventional banking networks)

Operational Risk

- Computer or network failures could damage bank reputations.
- Hackers could create fraudulent transactions
- Concentration of risk if extensive outsourcing to common service provider

Risk Management

- Improved Information Systems
- Back Up Systems (wholesale payments model)
- Emphasis on Electronic Security

Conclusions

- Banks are already active in E-Commerce
- Traditional and new products
- Facilitators of E-Commerce
- Risks and Risk Management (strategic and operational risks)

Not Just Banking

- <http://www.tradeweb.com/>
- <http://www.cfoweb.com/>
