INFORMATION ASSURANCE TESTING:

JAMMING IS NO LONGER ENOUGH

Presented by Colonel Hugo Keyner
Commander, Electronic Proving Ground
Fort Huachuca, AZ
26 April 2001

REPORT DOCUMENTATION PAGE

Form Approved OMB No. 0704-0188

1. REPORT DATE (DD-MM-YYYY)	2. REPORT TYPE	3. DATES COVERED (FROM - TO)
26-04-2001		xx-xx-2001 to xx-xx-2001

4. TITLE AND SUBTITLE
Information Assurance Testing: Jamming Is No Longer Enough
Unclassified

5a. CONTRACT NUMBER
5b. GRANT NUMBER
5c. PROGRAM ELEMENT NUMBER

6. AUTHOR(S)
Keyner, Hugo ;

5d. PROJECT NUMBER
5e. TASK NUMBER
5f. WORK UNIT NUMBER

7. PERFORMING ORGANIZATION NAME AND ADDRESS
Booz Allen & Hamilton
8283 Greensboro Drive
McLean, VA22102

8. PERFORMING ORGANIZATION REPORT NUMBER

9. SPONSORING/MONITORING AGENCY NAME AND ADDRESS
Electronic Proving Ground
Fort Huachuca, AZ

10. SPONSOR/MONITOR'S ACRONYM(S)
11. SPONSOR/MONITOR'S REPORT NUMBER(S)

12. DISTRIBUTION/AVAILABILITY STATEMENT
APUBLIC RELEASE
,

13. SUPPLEMENTARY NOTES

14. ABSTRACT
A briefing relating to IA testing.

15. SUBJECT TERMS
IATAC COLLECTION; Army C4I; IA testing

16. SECURITY CLASSIFICATION OF:			17. LIMITATION OF ABSTRACT	18. NUMBER OF PAGES	19. NAME OF RESPONSIBLE PERSON
a. REPORT	b. ABSTRACT	c. THIS PAGE	Public Release	15	Fenster, Lynn lfenster@dtic.mil

Agenda

- EPG's role in Army C4I Testing
- Our approach to testing IA
- Challenges in IA Testing
- Thoughts on how to improve IA Testing

An approach of IA testing for Tactical C4I Systems

EPG'S ROLE –
Development Testing for Army C4I Systems

EXPERIMENTATION

AWEs

- Division Capstone Exercise (DCX)
- Joint Contingency Force (JCF)
- Division XXI (DAWE)
- Prairie Warrior
- BDE TF XXI
- Tactical Internet Demo
- Warrior Focus
- Focus Dispatch

Advanced Warfighting Experiments

ACQUISITION CYCLE

FBCB2

TEST EVENTS

FBCB2 IOTE
FBCB2 LUT3 (NTC)
FT3
FBCB2 LUT2/FDTE
FT2
FBCB2 LUT1
FT1
EPLRS
SINCGARS
NTDR

ATCCS

TEST EVENTS

MCS TT
ISYSCON TT
MCS IOTE
CSSCS IOTE
ASAS BLK II
MSE ATM

First Digitized Division

FIELDING FY00 — FY 04

First Digitized Division

DIGITAL CORP

47 Years of Experience

Leaders in Dynamic Test Control, Sim/Stim, Digital Data Capture, with a Systems Approach to Test Design and Data Analysis.

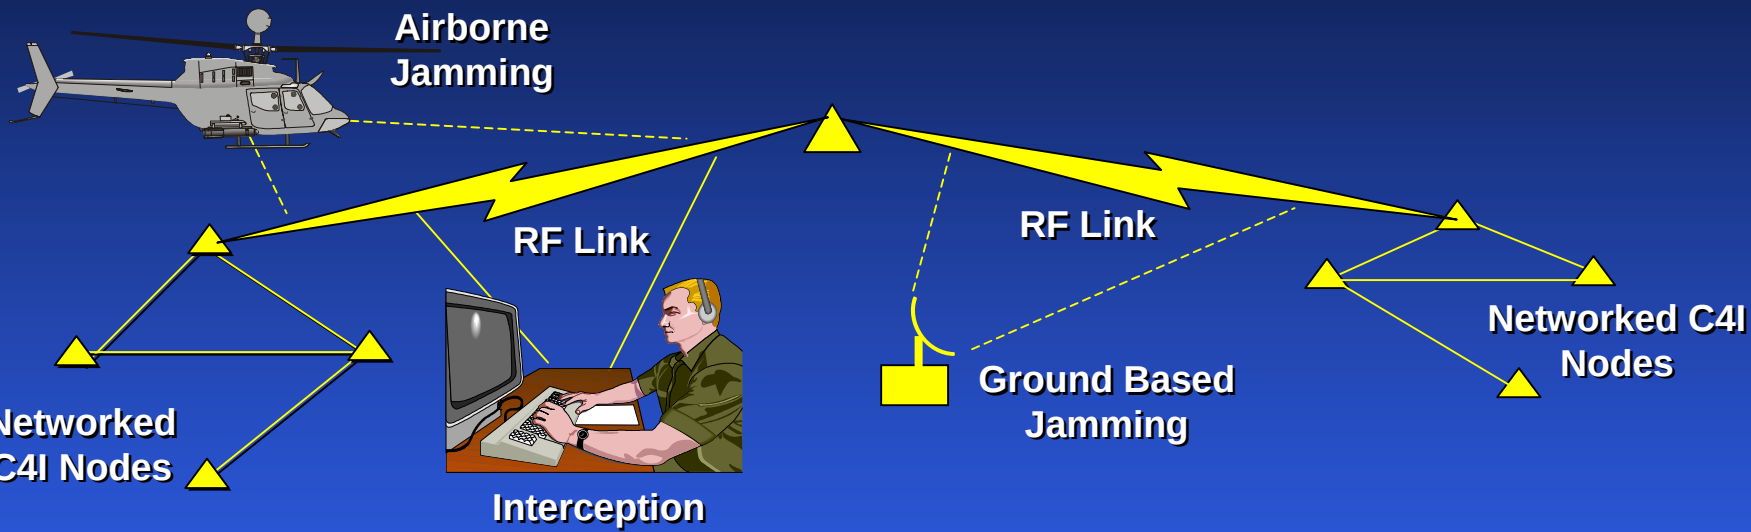
What is Information Assurance?

"Information Operations that protect and defend information and information systems by ensuring their availability, confidentiality, and non-repudiation. This includes providing for restoration of information systems by incorporating protection, detection, and reaction capabilities."

- Joint Pub 3-13

IA is not SECURITY (But Security is an important IA Subset)

The Old Paradigm – Focus on the RF Links



Things That Deny, Delay, Disrupt and Corrupt Information Flow

- *Jamming*
- *Co-Site*
- *Interception*
- *Xmtr/Rcvr Destruction*

What is the “Threat?”

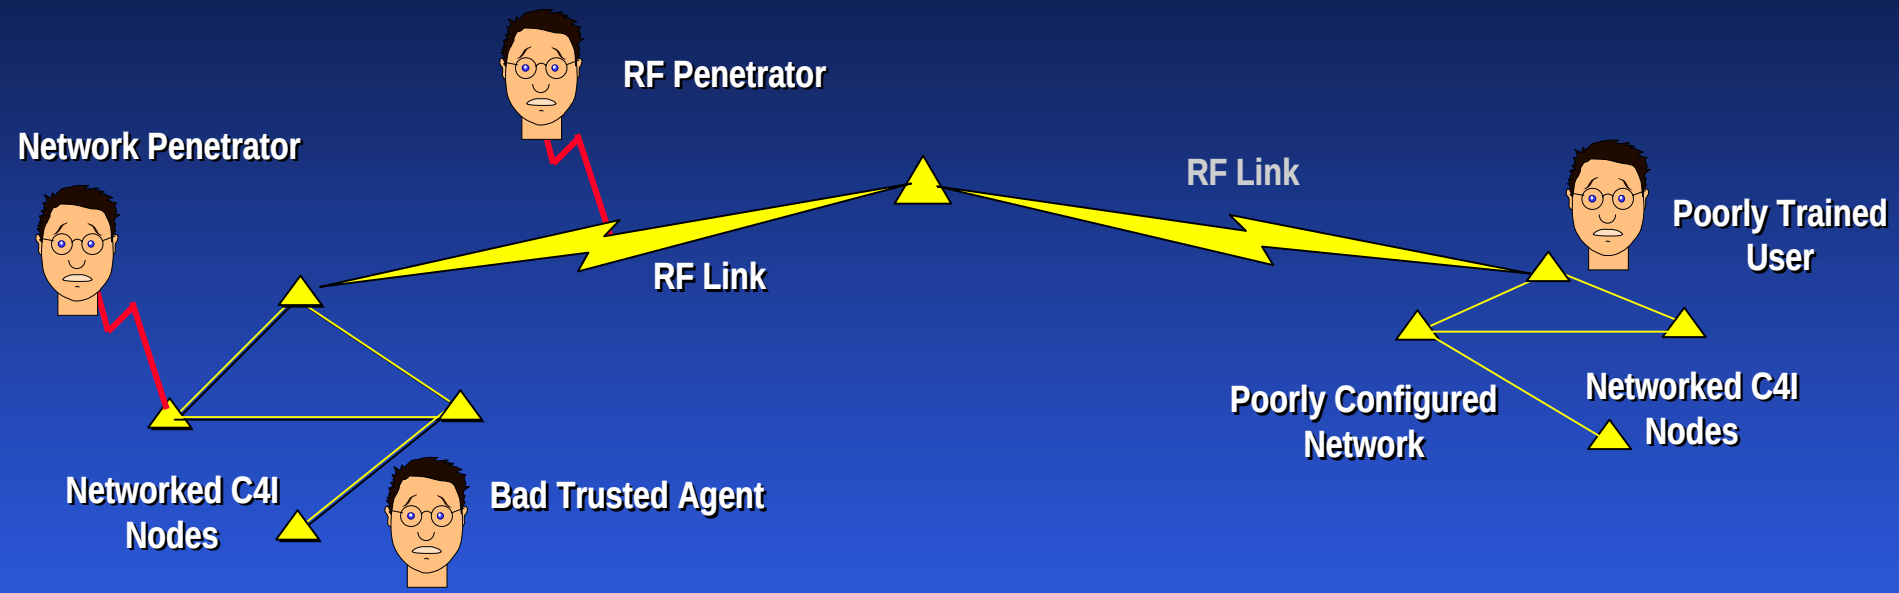
- Sources
  - NSA STAR
  - DISA IASE
  - FBI CyberNotes
- Threat Profile
  - Natural Disaster
  - Power Outages
  - Poorly Configured Equipment
  - Poorly Trained or Error Prone User
  - Bad Trusted Insider (Biggest Single Threat)

----------over 80% of threat----------

  - External Hacker
  - Malware (Trojan, Virus, etc.)

Aim is to deny, delay, disrupt, or corrupt information flow thereby denying us information dominance.

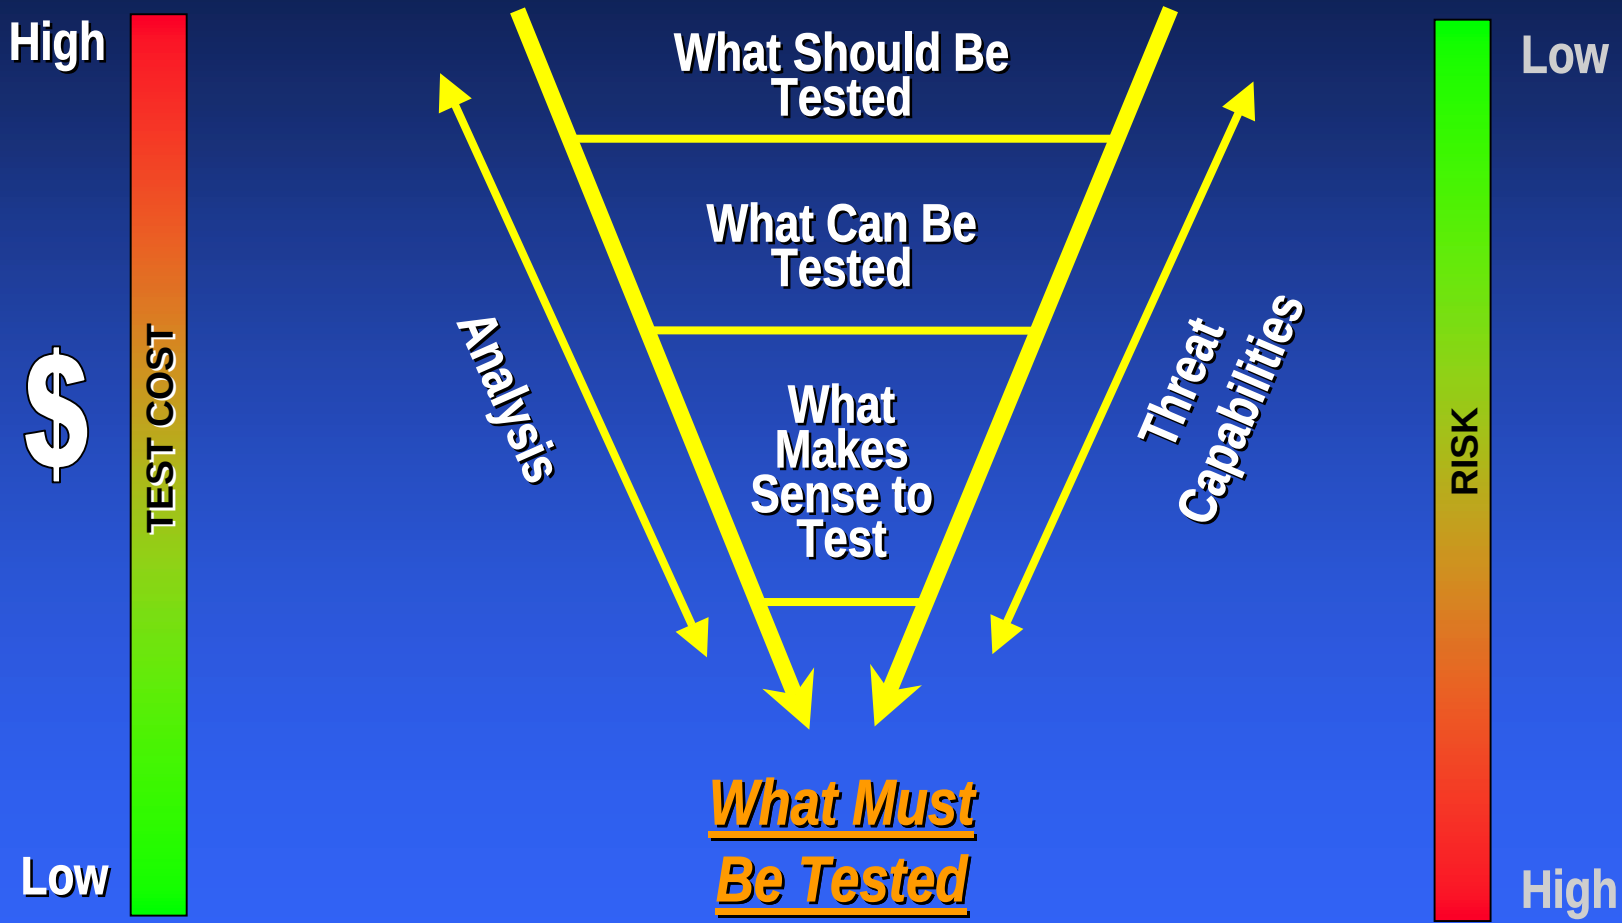
The New Paradigm – Focus on the Networks and RF Links



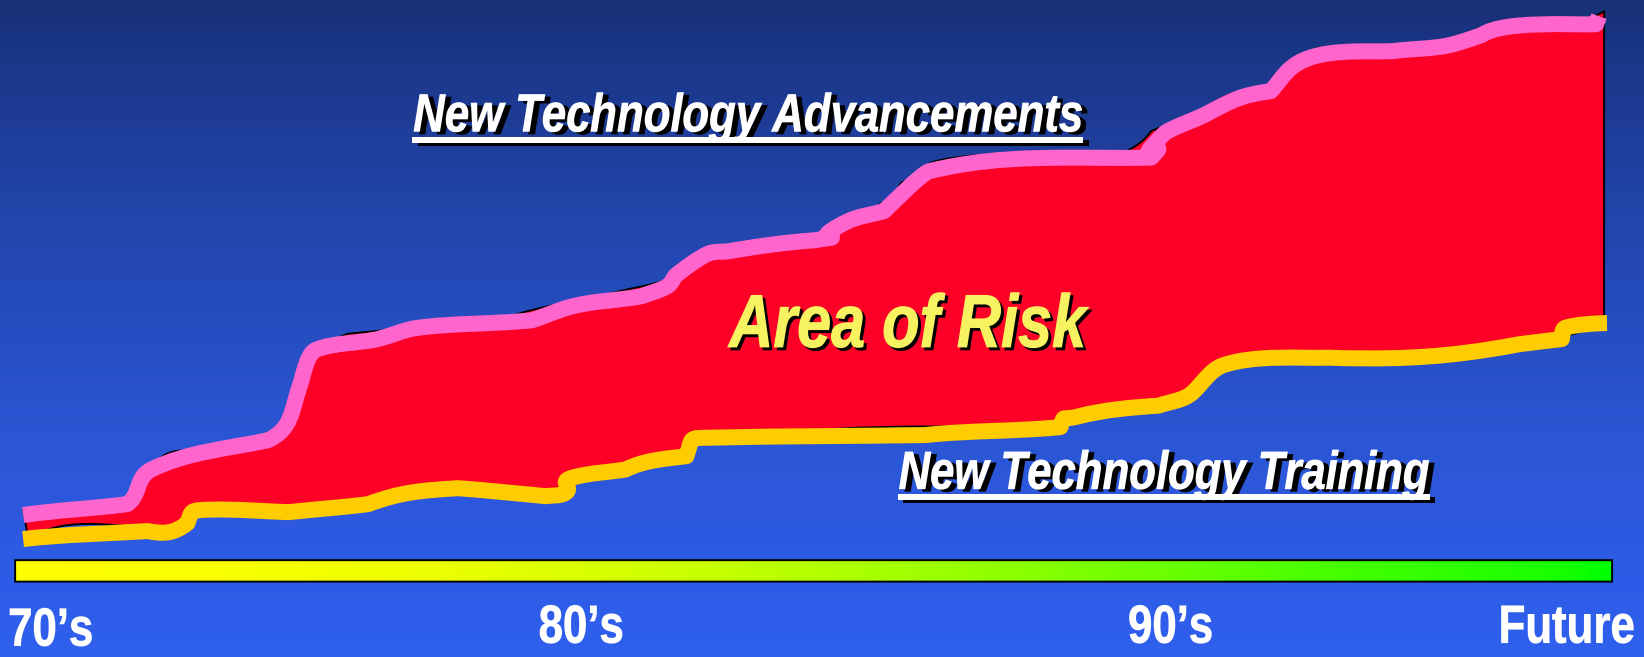
Things That Deny, Delay, Disrupt and Corrupt Information Flow

- ***Poorly Trained User***
- ***Viruses***
- ***Bad Trusted Agent***
- ***Xmtr/Rcvr/Node Destruction***

Developing a Strategy for IA Testing



Training Lag



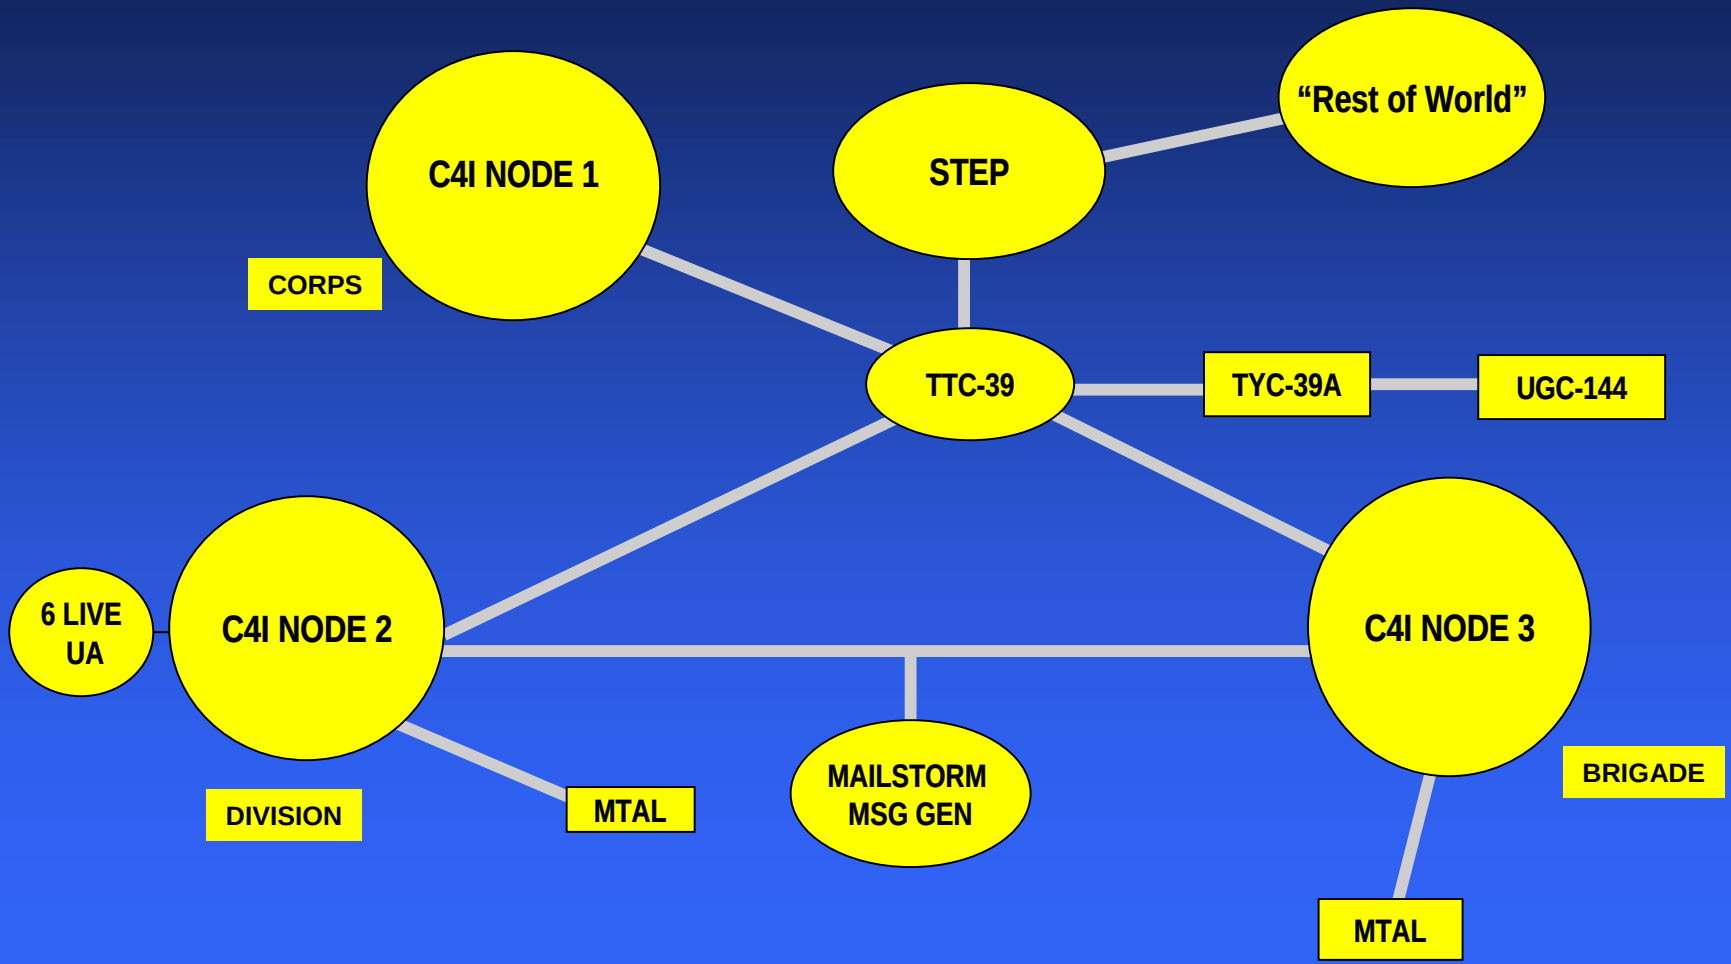
Pragmatic Realities Related to IA Testing of a Tactical C4I System

- Should test technical and non-technical elements of IA. However, DiD Architecture, IA procedures, or IA related training may not be in place prior to DT.
- IA MOPs may have been addressed by another test venue (e.g., DITSCAP, JITC, etc.)
- If a DITSCAP is conducted – before or after DT?
- Programs are short of time and money. How can you afford not to do the "Must Be Tested"?

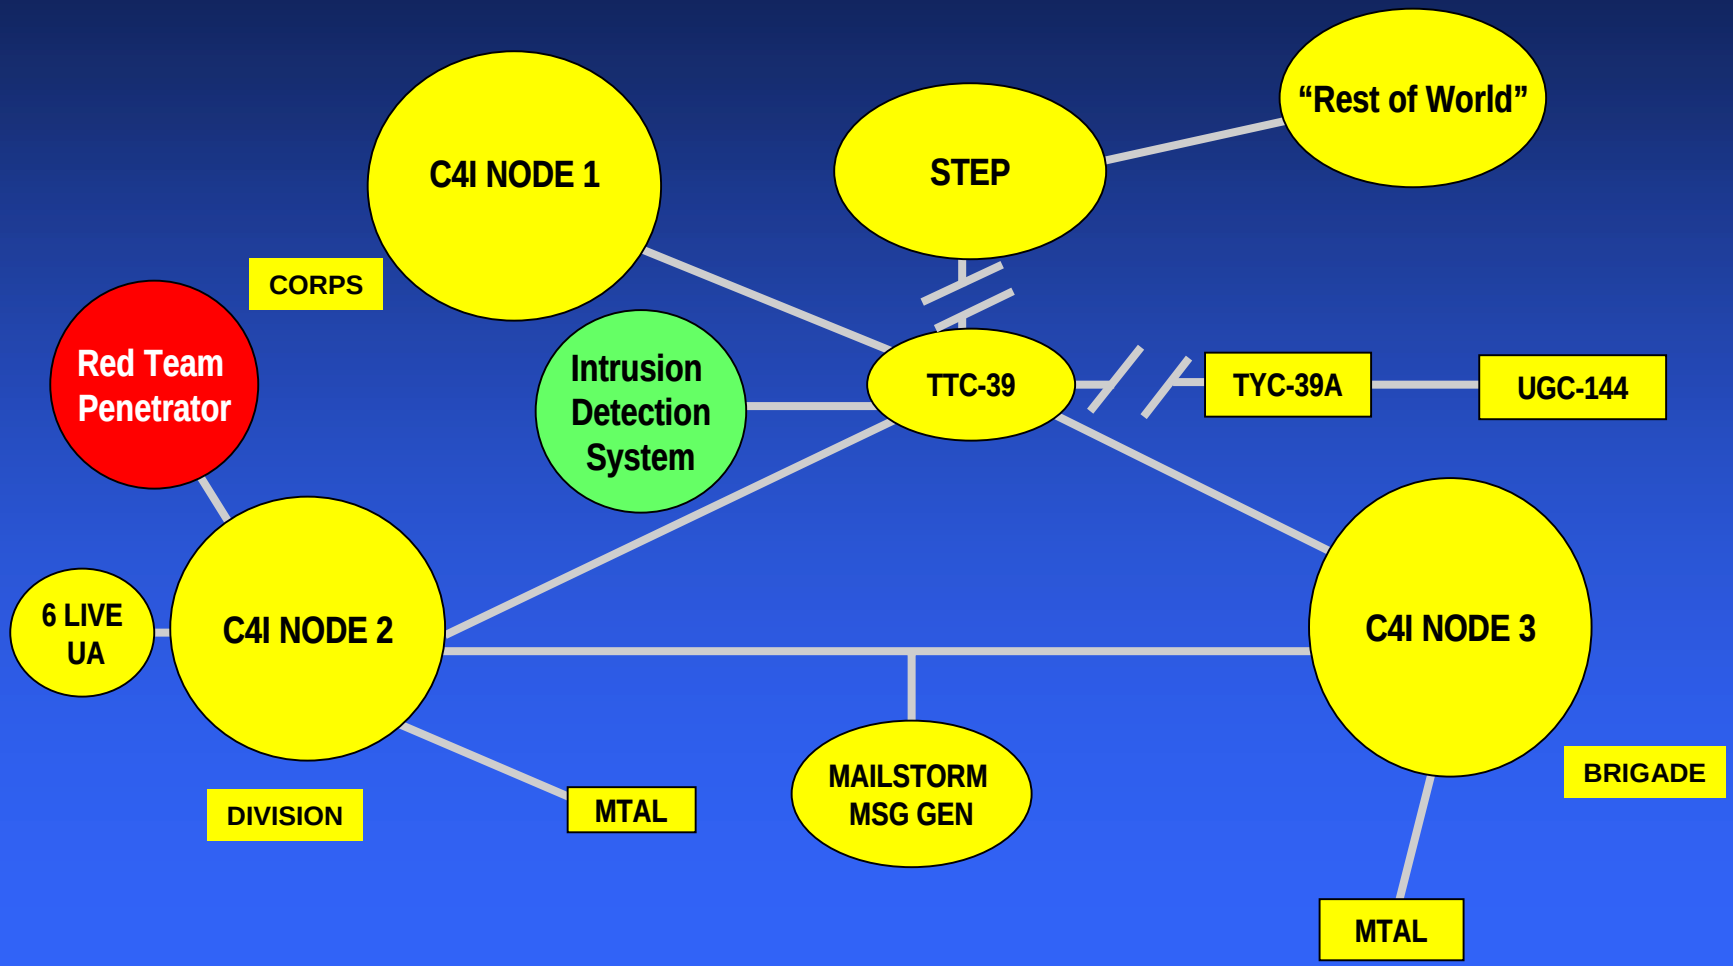
Key Elements in EPG's Approach to IA Testing of Tactical C4I Systems

- Use C-TNOSC as "network monitor"
- Pursue parallel Red Team support from multiple sources (e.g., LIWA and 902nd)
- Added Special Requirements of Virus Testing
  - Conduct at end of Test Window
  - Insure physical isolation of Test Network
  - Protect Test Instrumentation
  - Conduct Post Test system sanitization

Typical Test Configuration - Performance Scenario



IA Test Configuration



Lessons Learned

- Use a “System of Systems” test approach.
- If a DITSCAP is done, then SSAA must be completed in time to support DT/OT planning.
- Cost effective IA Testing requires an integrated Test Strategy
  - Risk assessment, DITSCAP, DT and OT under the construct defined in DOT&E policy (include non-oversight programs).
- IA procedures and trained operators must be developed in a timely manner to support testing
  - DT and DITSCAP Phase II & Phase III offer the best opportunity for testing IA on Tactical C4I Systems.
- IA testing should be approached as a multi-organizational process.
