INTRODUCTION

I-1. AUTHORIZATION

a. Authority for acquisition of reference book sets appears in the following types of authorization documentation documents:

- (1) Table of Organization and Equipment (TOE).
- (2) Modified Table of Organization and Equipment (MTOE).
- (3) Bills of materials for special purpose medical units when authorized by The Surgeon General (TSG).

b. The Commander, U.S. Army Medical Department Center and School (USAMEDD C&S) will be responsible for determining the components of each book set. The book sets shall be reviewed every year and published in a revised DA SB 8-75-S9 edition. The next major revision is scheduled for the year 2002.

c. This publication contains the basis of issue for all medical book sets authorized for medical TOE Units.

I-2. BOOK LISTINGS

a. The National Stock Number (NSN) for each book set is assigned by the Defense Supply Center Philadelphia (DSCP). The NSN is then published in the monthly issue of the Universal Data Repository (UDR) on CD-ROM format.

b. Appendix A lists by the Line Item Number (LIN), the NSN/Nomenclature, and the TOE for each book set.

c. Appendix B identifies each book set by title, price, and the number of copies required for each unit. Activities will note that the listing of the component volumes is segregated by specific medical categories for reference purposes.

d. Appendix C lists, in alphabetical order, the names and addresses of the publishers referred to in this Supply Bulletin.

e. Edition numbers and publication dates are based on the latest available information. The price of each book is subject to change without prior warning.

I-3. ACQUISITION OF BOOK SETS

a. Activities shall requisition book sets listed in Appendix B from DSCP, located in Philadelphia, PA. Book sets are authorized by a separate LIN on the TOE/MTOE and are not listed as components of current unit assemblages.

b. Activities will submit requisitions to meet the following conditions:

(1) Initial Issue for Units. Station or Unit Supply Officers will requisition book sets as authorized by TOE/MTOE.

(2) Security Assistance Program (SAP). The U.S. Army Medical Materiel Agency (USAMMA) will coordinate with DSCP for inclusion of appropriate book sets with major medical assemblages destined for a SAP country.

1-4. MAINTENANCE OF BOOK SETS

Units will maintain book sets on a yearly basis as reflected in the current DA SB 8-75-S9.

1-5. REPLACEMENT BOOKS

a. All active Army, Army Reserve, and National Guard Units requiring individual reference books to replace outdated or lost volumes (or as additions to book sets in TOE Units), may obtain such volumes by submitting requests to their supporting medical supply account. Requests should always specify that the "Latest Edition" is required. For specific local procedures, the supporting medical supply account should be consulted.

b. When purchasing replacement books, order the most current edition for those books that are published on a yearly basis.

c. When ordering Field Manuals (FM), Technical Manuals (TM), or any other Army publication, request the most current edition from the US Army Publications Agency (USAPA), Alexandria, VA, at their WEB site (<http://www.usapa.army.mil>).

d. CONUS and OCONUS medical supply accounts may obtain individual medical reference books under one of the following procedures:

(1) Through the Decentralized Blanket Purchase Agreement(s) (DBPAs) with:
