Study Title: Aerospace Physiology

AFSC(s): 4M0X1

AFOMS Analyst: 1Lt. Larry Beer

AFOMS CODAP Programmer: Mrs. Jeanie C. Guesman

Office/DSN: AFOMS/OMYO, 487-6811, Ext 3038

Job Inventory Date: July 2001

OSR Date: May 2002

Training Extract Date: May 2002

THE TRAINING EXTRACT

The enclosed Training Extract has been compiled to assist you in making training decisions. It is comprised of a series of computer printouts which show data collected from your specialty. By learning to understand this document and how it applies to training programs, you will find it to be a valuable source of information.

READING THE TRAINING EXTRACT

TABLE OF CONTENTS: The first page of the Training Extract lists a Table of Contents. The Table of Contents reports five things:

1. Report Number - shows the number and sequence of computer products in the Training Extract.
2. Element - shows the report ID of each computer product in the Training Extract. These numbers are of use only to OMSQ personnel.
3. Program - shows the types of computer products included in the Training Extract. Usually there will be three types listed: (1) PRTMOD, (2) VARSUM, and (3) PRTFAC. Each type of printout will be discussed in more detail below.
4. Report Title - describes the general contents of each computer product included in the Training Extract.
5. Page Number - shows the page on which the respective products begin. These numbers are located at the bottom center of the page.

TYPES OF COMPUTER PRODUCTS:

PRTMOD: This computer product can display occupational survey data in a variety of ways. Primary displays included in most Training Extracts are:

- (1) in job inventory order (by duty)
- (2) in STS order
- (3) in POI order

The first page of each PRTMOD contains information which is useful primarily to OMSQ Analysts. Of primary interest to the user is the "Description of Reported Task Factors" section at the bottom of the page. This section lists the full titles and the number of members in each data group represented across the various columns of the printout. The actual data display begins on page 2 of the individual printout. This page begins with an introductory paragraph which describes the type of data contained in the product. The actual data follows the introductory paragraph. For information on groups or task factors displayed in the column headings, refer to the listing on page 1. When a column heading describes a group of incumbents, the numbers listed below represent the percent of group members who are performing the task listed at the left-hand side of the page. Where the column heading describes a task factor such as Training Emphasis, Task Difficulty, or Automated Training Indicator (ATI), the numbers below represent the value of that task factor for the given task.

Training emphasis refers to the importance of providing training of the given task in some type of formal structured training program, such as resident technical training schools, field training, or formal OJT. It only applies to recommended training for first-enlistment personnel (those with 1-48 months TAFMS) or, in the case of lateral career ladders, first-assignment or first-job personnel (those with 1-48 months TICF). It does not apply when examining advanced courses for a career ladder. Tasks which senior career ladder personnel believe should be trained for first-enlistment personnel have high training emphasis values, while those tasks which they believe do not require formal training have low training emphasis values.

Task difficulty refers to the length of time required for the average job incumbent to learn to perform a task. Task difficulty ratings are always standardized so that tasks having average task difficulty have a mean of 5.0. Tasks with values above 5.0 are considered more difficult to learn than those with values below 5.0.

VARSUM: While the PRTMOD product provides data on the various tasks being performed, the VARSUM product presents information concerning the responses of career ladder incumbents to the various background questions in the job inventory. Page 1 of the VARSUM lists the groups which are displayed on the product, showing a group ID number, group title, and number of people in the group. These group identities define the groups which comprise the column headings on each page of the VARSUM product. Along the left-hand side of each page, you will see a series of variable numbers, followed by their respective descriptions (i.e. V0000 Equip Used - Automatic Film Processors). Each variable represents a response to a background question. For background questions which allow multiple responses, each response is given below the variable number. In most cases, only the "yes" responses will be displayed. The numbers to the right of each response represent the percentage of the given group (as identified on the first page of the product) who gave that particular response to the question.

PRTFAC: This product is very similar to the PRTMOD in that it displays percentages of people performing tasks, as well as Training Emphasis, Task Difficulty, and Automated Training Indicator (ATI) data. The PRTFAC product however, is used to display task data in descending order of some task factor, such as training emphasis. The two primary PRTFAC products included in the Training Extract display inventory tasks in descending order of Training Emphasis value, and inventory tasks in descending order of the computed Automated Training Indicator (ATI) value.

To help in interpreting Training Emphasis ratings shown on several of the data products, standardized abbreviations are used. These abbreviations are as follows:

MEAN = Average Training Emphasis Rating

1 SD = 1 Standard Deviation above Mean Training Emphasis Rating

2 SD = 2 Standard Deviations above Mean Training Emphasis Rating

ABOVE AVG = "ABOVE AVERAGE" in Training Emphasis; Tasks that fall between the Mean and 1 SD

HIGH = "HIGH" in Training Emphasis; Tasks that fall between 1 SD and 2 SD

VERY HIGH = "VERY HIGH" in Training Emphasis; Tasks that fall above 2 SD

This document has been designed and prepared as a final summary document containing data printouts which were used in analyzing the occupational survey data collected on this AFSC. We hope this brief summary assists you in utilizing the data presented in this Training Extract. If you need additional information that is not contained in this Extract, please feel free to contact one of our analysts at DSN 487-6811 for assistance.

AFSC 4M0X1 (AD) tasks are presented in USAF Job Inventory order under Duty headings.

The percent of TAFMS/DAFSC group members performing each task, as well as task difficulty and training emphasis ratings, are presented to the right of each task.

Note that tasks are listed in alphabetical order under each Duty heading so that tasks may be easily located and cross-referenced. Differences between groups may be highlighted where there are large differences in percent members performing each task across the various groups.

STS 4M0X1, Aerospace Physiology, dated June 2001, is presented below with matched job inventory tasks and occupational survey data.

STS items are listed below the dotted line, followed by a listing of matched tasks. Pertinent survey data are printed to the right of each task. This printout is extremely useful during utilization and training workshops (U&TWs) to validate STS content and in determining appropriate training codes for STS items. In addition, tasks which were not matched to any STS item are listed in a "Tasks Not Referenced" section at the end of the printout. These unreferenced tasks should be carefully reviewed to identify new areas which may warrant inclusion in the STS. For assistance in interpretation of this printout, contact AFOMS/OMY0, at DSN 487-6811.

POI B3ABY4M031, Aerospace Physiology, dated June 2001, is presented below with matched job inventory tasks and occupational survey data.

POI behavioral learning objectives are listed below the dotted line, followed by a listing of matched tasks which are taught in the basic resident training course. Pertinent survey data are displayed to the right of each task. Behavioral learning objectives should be reviewed using the percent performing data, as well as the task difficulty and training emphasis ratings, and Automated Training Indicator (ATI) value for each task (see Course Training Decision Logic Table in AETCI 36-2601, Attachment 1). Behavioral learning objectives which are not supported by the criteria listed in AETCI 36-2601 should be considered for deletion from the course.

Tasks which were not matched to a POI behavioral learning objective are listed in a "Tasks Not Referenced" section at the end of the printout. These unreferenced tasks should be carefully reviewed to identify tasks which may warrant inclusion in formal training programs. For assistance in interpretation of this printout, contact AFOMS/OMYO, at DSN 487-6811.

0294 II.13.a. OBJECTIVE:

0295 II.13.a.(1). Identify the duties of the recorder
and the pertinent information necessary to document
reactor information

0296 II.13.b. SAMPLES OF BEHAVIOR:

0297 II.13.b.(1). Select the duties of the recorder
during hypobaric chamber flights

0298 II.13.b.(2). Identify the purpose of AF Form 699

0299 II.13.b.(3). Select the correct procedures for
deriving total time, denitrogenation time, and
time spent at or above 30,000 ft

0300 II.13.b.(4). Select the correct grade assigned to
reactors in the hypobaric chamber

0301 II.13.b.(5). Select the correct code assigned to
reactors in the hypobaric chamber

Aerospace Physiology
Reported AFSC(s): 4M0X1

----- Variable/Group Distributions -----

The percent of reported group members who use, maintain or operate various types of equipment are presented under the column headings for the appropriate group. This percent using, maintaining, or operating equipment may be valuable in determining the relevancy of training and testing on or about these types of equipment.

Reports on the following groups were requested:

gp0002: All Active Duty Airmen with DAFSC 4M0X1	(n = 168)
gp0003: All Active Duty Airmen with DAFSC 4M031	(n = 41)
gp0004: All Active Duty Airmen with DAFSC 4M051	(n = 81)
gp0005: All Active Duty Airmen with DAFSC 4M071	(n = 40)
gp0006: All Active Duty Airmen with DAFSC 4M091	(n = 6)

Aerospace Physiology
Reported AFSC(s): 4M0X1

----- Variable/Group Distributions -----

The percent of reported group members who use, maintain or operate various types of equipment are presented under the column headings for the appropriate group. This percent using, maintaining, or operating equipment may be valuable in determining the relevancy of training and testing on or about these types of equipment.

Reports on the following groups were requested:

gp0008: All DAFSC 4M0X1 AD Airmen with 1-24 Months TAFMS	(n = 23)
gp0009: All DAFSC 4M0X1 AD Airmen with 25-48 Months TAFMS	(n = 31)
gp0010: All DAFSC 4M0X1 AD Airmen with 1-48 Months TAFMS	(n = 54)
gp0011: All DAFSC 4M0X1 AD Airmen with 49-96 Months TAFMS	(n = 24)
gp0012: All DAFSC 4M0X1 AD Airmen with 97+ Months TAFMS	(n = 90)

STS 4M0X1, Aerospace Physiology, dated June 2001, is presented below with matched job inventory tasks and occupational survey data.

STS items are listed below the dotted line, followed by a listing of matched tasks. Pertinent survey data are printed to the right of each task. This printout is extremely useful in identifying task differences across the various MAJCOMs. This information can be used during utilization and training workshops (U&TWs) to validate STS content and determine appropriate training codes for STS items. This printout can also be used to decide which tasks should be included in the STS or be placed in MAJCOM JPGs or MAJCOM-specific training packages. In addition, tasks which were not matched to any STS item are listed in a "Tasks Not Referenced" section at the end of the printout. For assistance in interpretation of this printout, contact AFOMS/OMYO at DSN 487-6811.

0017	3.4.3.	Equipment	b	c	-								
A0006	Perform inside observer duties during hypobaric chamber flights, other than research flights				7.45	91	92	58	65	82	100	0	5.95
A0010	Perform operational and emergency procedures as crew chief				7.34	63	84	73	65	91	100	0	5.97
C0084	Conduct classroom instruction concerning use of oxygen equipment				6.14	52	80	42	41	91	89	100	5.72
A0024	Perform Type 2 chamber flights				6.00	74	94	54	71	91	100	0	4.91
B0040	Inspect or maintain life support equipment				5.86	44	51	23	47	64	33	0	5.08
A0023	Perform Type 1 chamber flights				5.83	72	80	54	65	91	100	0	4.69
A0007	Perform general maintenance on hypobaric chambers or subassemblies				5.72	35	53	35	41	36	44	0	5.68
A0026	Perform Type 4 chamber flights				5.69	76	94	54	65	91	89	0	4.72
B0038	Fit students with oxygen masks				5.62	70	86	62	71	91	78	0	2.55
A0008	Perform general maintenance or inspections on vacuum pumps				5.59	35	47	27	53	36	44	0	5.55
B0037	Fit students with flight helmets				5.38	69	84	62	65	91	78	0	2.21
B0032	Clean flight helmets or oxygen masks				5.21	67	84	58	65	64	56	0	1.71
A0027	Perform Type 5 chamber flights				5.03	52	43	27	53	91	44	0	4.70
A0025	Perform Type 3 chamber flights				4.97	61	47	42	65	82	89	0	4.76
A0015	Perform oxygen flow checks of narrow panel pressure-demand oxygen regulators				4.86	44	73	38	41	55	56	0	2.78
A0030	Replace oxygen equipment on consoles				4.79	33	51	27	35	27	44	0	5.07
C0069	Conduct classroom instruction concerning ground egress escape procedures				4.72	20	65	31	47	73	78	100	5.88
A0017	Perform periodic inspections of hypobaric chamber assemblies				4.69	28	39	19	41	27	44	0	5.53
A0003	Maintain hypobaric chamber instrumentation				4.52	39	47	31	41	36	33	0	3.13
C0066	Conduct classroom instruction concerning crash survival principles and procedures				4.48	43	47	31	53	91	89	100	5.85
A0029	Replace high pressure C-1 regulators				4.45	26	43	15	29	18	44	0	5.74
B0043	Maintain records on oxygen masks, helmets, and Critical Respiratory Unit (CRU) connections				4.45	31	35	19	35	27	33	0	3.46
B0039	Fit students with life support equipment, such as parachute harnesses, gravitational force protective devices, other than flight helmets or oxygen masks				4.34	20	35	35	12	9	0	0	4.04
C0075	Conduct classroom instruction concerning parachuting principles and procedures				4.34	7	41	15	24	18	56	100	6.04
A0004	Maintain hypobaric chamber intercommunication systems				4.28	35	43	31	41	36	33	0	3.98
B0057	Store training aids or life support equipment				4.28	44	63	35	24	36	56	0	2.41
A0020	Perform special inspections of hypobaric chamber assemblies				4.21	33	41	23	35	27	44	0	5.93
G0254	Inspect and maintain protective helmets				4.14	13	12	12	12	27	0	0	3.10
G0246	Clean protective helmets				4.10	26	16	9	12	27	11	0	1.16

C0060	Conduct briefings on use of personal protective equipment	4.00	17	53	31	29	45	44	50	4.80

Aerospace Physiology
Reported AFSC(s): 4M0X1

----- Variable/Group Distributions -----

The percent of reported group members who use, maintain or operate various types of equipment are presented under the column headings for the appropriate group. This percent using, maintaining, or operating equipment may be valuable in determining the relevancy of training and testing on or about these types of equipment.

Reports on the following groups were requested:

gp0024: All DAFSC 4M0X1 AD Amn in USAFA with 1-48 Mos TAFMS	(n = 5)
gp0025: All DAFSC 4M0X1 AD Amn in AETC with 1-48 Mos TAFMS	(n = 16)
gp0026: All DAFSC 4M0X1 AD Amn in PACAF with 1-48 Mos TAFMS	(n = 4)
gp0027: All DAFSC 4M0X1 AD Amn in ACC with 1-48 Mos TAFMS	(n = 17)
gp0028: All DAFSC 4M0X1 AD Amn in AMC with 1-48 Mos TAFMS	(n = 6)
gp0029: All DAFSC 4M0X1 AD Amn in AFMC with 1-48 Mos TAFMS	(n = 6)

Description of Reported Factors

Col	Factor	Source vector	Title	Number Members	----- Mean	----- S.D.	Based on All Tasks Within Range		----- Valid
							Max	Min	
1	TITLE		Task Statement						
2	F0038	TF0001/RMN	4M0X1 Training Emphasis Ratings	29	2.10	1.32	7.45	.00	530
3	F0008	GP0008/PMP	All DAFSC 4M0X1 AD Airmen with 1-24 Months TAFMS	23	10.80	16.64	95.65	.00	530
4	F0010	GP0010/PMP	All DAFSC 4M0X1 AD Airmen with 1-48 Months TAFMS	54	11.86	17.02	92.59	.00	530
5	F0039	TF0001/SMN	4M0X1 Task Difficulty Ratings	30	5.00	1.00	7.44	.54	530

AFSC 4M0X1 tasks are presented below in descending order of first term training emphasis ratings, together with the percent of first-job and first-enlistment incumbents performing each task, and the relative task difficulty ratings.

Training emphasis ratings were collected from 29 experienced career ladder NCOs (primarily E-6s and E-7s) who worked in a variety of commands and locations. These NCOs rated job inventory tasks on a 10-point scale ranging from zero (no training required) to nine (extremely high training emphasis recommended). Overall, the 29 raters had acceptable agreement as to which tasks require some form of structured training during the first-enlistment.

In this career ladder, the average training emphasis rating was 2.10, with a standard deviation of 1.32. Tasks rated above 3.42 are high in training emphasis and should be seriously considered for inclusion in the basic resident course. Tasks rated below 0.78 generally are more appropriately trained by OJT rather than in the formal basic resident course.

Description of Reported Factors

Col	Factor	Source vector	Title	Number Members	----- Mean	----- S.D.	Based on All Tasks Within Range		----- Valid
							Max	Min	
1	TITLE		Task Statement						
2	F0039	TF0001/SMN	4M0X1 Task Difficulty Ratings	30	5.00	1.00	7.44	.54	530
3	F0008	GP0008/PMP	All DAFSC 4M0X1 AD Airmen with 1-24 Months TAFMS	23	10.80	16.64	95.65	.00	530
4	F0010	GP0010/PMP	All DAFSC 4M0X1 AD Airmen with 1-48 Months TAFMS	54	11.86	17.02	92.59	.00	530
5	F0038	TF0001/RMN	4M0X1 Training Emphasis Ratings	29	2.10	1.32	7.45	.00	530

AFSC 4M0X1 task difficulty ratings are presented below in descending order, along with the percent members performing for various career ladder groups. Also presented are first-term training emphasis ratings.

Each of the 30 experienced NCOs selected to complete task difficulty booklets rated each job inventory task on a nine-point scale from (1) extremely low difficulty to (9) extremely high difficulty. Difficulty was defined as the length of time it takes an average individual to learn to do the task. These NCOs were selected from a wide variety of commands and locations. To make these data easier to use, ratings were adjusted so that an average task difficulty equaled 5.00 and a standard deviation of 1.00. Thus, tasks rated below 4.00 are relatively easy, while tasks rated higher than 6.00 are fairly difficult.

CRITERION GRP % MBRS PERFORMING	TRAINING EMPHASIS (TE) RATING	TASK DIFFICULTY (TD) RATING	ADDITIONAL DECISION FACTORS	AUTOMATED TRAINING INDICATOR
49.5 to 100	HIGH (1 S.D. or more above the mean) 3.42 - 9.0	4.0 to 9.0 0 to 3.99	Documented critical or safety item ? * a. YES b. NO	ATI 18 ATI 13*
49.5 to 100	ABOVE AVERAGE (Mean to 1 S.D. above the mean) 2.11 - 3.41	4.0 to 9.0 0 to 3.99	Documented critical or safety item ? * a. YES b. NO	ATI 17 ATI 8
49.5 to 100	MEAN or BELOW 0.01 - 2.10	4.0 to 9.0 0 to 3.99	Determine why tng emphasis is low	ATI 16 ATI 6
29.5 to 49.4	HIGH (1 S.D. or more above the mean) 3.42 - 9.0	4.0 to 9.0 0 to 3.99	Documented critical or safety item? * a. YES b. NO	ATI 12* ATI 10*
29.5 to 49.4	ABOVE AVERAGE (Mean to 1 S.D. above the mean) 2.11 - 3.41	4.0 to 9.0 0 to 3.99	Documented critical or safety item? * a. YES b. NO	ATI 15 ATI 5
29.5 to 49.4	MEAN or BELOW 0.01 - 2.10	4.0 to 9.0 0 to 3.99	Determine why tng emphasis is low	ATI 14 ATI 4
0 to 29.4	HIGH (1 S.D. or more above the mean) 3.42 - 9.0	4.0 to 9.0 0 to 3.99	Documented critical or safety item ? * a. YES b. NO	ATI 11* ATI 9*
0 to 29.4	ABOVE AVERAGE (Mean to 1 S.D. above the mean) 2.11 - 3.41	4.0 to 9.0 0 to 3.99	Documented critical or safety item ? * a. YES b. NO	ATI 7 ATI 3

Automated Training Indicators (ATI) are derived from criterion group percent members performing (normally 1-48 months TAFMS), Training Emphasis (TE) and Task Difficulty (TD) data based upon the Training Decision Logic Table in AETCI 36-2601, Attachment 2. Presented is the ATI chart and corresponding training decisions to be used as an aid in making training decisions.

For further explanation or assistance, phone AFOMS/OMYO, at DSN 487-6811.

TRAINING DECISION (TYPE TRAINING PROVIDED)

ATI

18 TASK KNOWLEDGE AND PERFORMANCE, based on high percent members performing, high Training Emphasis (TE), and sufficient Task Difficulty (TD)

17 TASK KNOWLEDGE AND PERFORMANCE based on high percent members performing, above average TE and sufficient TD

16 TASK KNOWLEDGE AND PERFORMANCE, based on high percent members performing, and sufficient TD, unless otherwise justified (for low TE)

15 TASK KNOWLEDGE ONLY, based on moderate percent members performing, above average TE and sufficient TD

14 TASK KNOWLEDGE ONLY, based on moderate percent members performing, low TE and sufficient TD, unless justified (for low TE)

13a TASK KNOWLEDGE AND PERFORMANCE, based on high percent members performing and documented critical or safety item (if not justified, train at ATI 13b or 8)

13b TRAIN BY OJT: NO CENTRALIZED TRAINING based on low TD and lack of criticality or safety issue (may be included as a brief teaching step)

12a TASK KNOWLEDGE AND PERFORMANCE, based on critical or safety item, high TE, and moderate percent members performing. (if not justified, train at ATI 12b or 15)

12b TASK KNOWLEDGE ONLY, based on moderate percent members performing, high TE and sufficient TD, unless otherwise justified

11a TASK KNOWLEDGE AND PERFORMANCE, if most appropriate place to train is school based on inability of field to train (and documented as critical or safety item, otherwise train at ATI 11b)

11b TRAIN BY OJT: NO CENTRALIZED TRAINING

10a TASK KNOWLEDGE ONLY or EMPHASIZED TEACHING STEP, based on critical or safety item, low TD, and moderate percent members performing (if not justified, train at ATI 10b)

ATI

9a TASK KNOWLEDGE ONLY, if most appropriate place to train is school, based on low percent members performing, low TD (and documented as critical or safety item, otherwise train at ATI 9b)

9b TRAIN BY OJT: NO CENTRALIZED TRAINING based on low percent members performing, low TD, unless justified

8 TRAIN BY OJT: NO CENTRALIZED TRAINING based on low TD (may be mentioned as a brief teaching step)

7 TRAIN BY OJT: NO CENTRALIZED TRAINING based on low percent members performing, unless otherwise justified

6 TRAIN BY OJT: NO CENTRALIZED TRAINING based on low TD and average or low TE

5 TRAIN BY OJT: NO CENTRALIZED TRAINING based on low TD and moderate percent members performing and field recommended TE

4 TRAIN BY OJT: NO CENTRALIZED TRAINING based on low TD low TE, and only moderate percent members performing

3 TRAIN BY OJT: NO CENTRALIZED TRAINING based low percent members performing and low TD

2 TRAIN BY OJT: NO CENTRALIZED TRAINING based on low percent members performing and low TD

1 TRAIN BY OJT: NO CENTRALIZED TRAINING based on low percent members performing, low TD and low TE

CRITICALITY consider:

(1) Probable Consequences of Inadequate Performance
- (Minimal to Disastrous)

(2) Task Delay Tolerance (How long can it wait?)
- (Extremely low delay to extremely large delay)

10b TRAIN BY OJT: NO CENTRALIZED TRAINING based on low TD and lack of criticality or safety issue

D0138	Perform preflight or postflight inspections of portable LOX ventilation units	4	1.62	4.62	2	
L0451	Maintain patient needs with specific disorders or emergency conditions with ancillary medical equipment	2	1.28	4.83	2	
D0172	Repair or replace full pressure suit face seal	2	1.24	6.08	2	
M0469	Conduct OJT	22	2.03	5.82	2	
D0182	Troubleshoot full pressure suit assemblies	4	1.07	6.72	2	
M0471	Counsel trainees on training progress	9	1.62	5.04	2	
J0408	Participate in aircraft physiological incident investigations	2	.86	6.51	2	
M0473	Develop formal course curricula, plans of instruction (POIs), or specialty training standards (STSs)	4	.69	7.41	2	
M0474	Develop training programs, plans, or procedures	4	1.03	7.00	2	
L0443	Initiate treatment for injuries from chemical agents	13	2.00	4.23	2	
L0432	Coordinate medical readiness exercises with affected base or civilian agencies	6	1.03	5.37	2	
C0093	Perform T-43 egress raft inspections	2	1.07	5.56	2	
N0510	Evaluate personnel for compliance with performance standards, other than students	2	1.41	5.58	2	
D0159	Perform preflight or postflight inspections of low-flight oxygen regulators	2	1.66	4.67	2	
D0168	Remove or replace portable LOX ventilation unit components	4	1.17	4.63	2	
D0161	Perform preflight or postflight inspections of survival kits	4	1.52	4.64	2	
H0336	Perform periodic inspections of hyperbaric chamber gas mixer system	2	1.62	5.56	2	
N0523	Schedule personnel for TDY assignments, leaves, or passes	6	.90	5.15	2	
M0472	Determine training requirements	9	1.62	5.61	2	
L0453	Monitor patient surgical drains	2	1.21	4.85	2	
L0456	Pack or palletize medical supplies or equipment for deployment or transport	6	1.59	5.80	2	
D0167	Remove or replace low-flight oxygen equipment components	4	1.17	4.49	2	
D0104	Calibrate or maintain face heat testers	2	1.10	5.15	2	
N0489	Conduct self-inspections or self-assessments	7	1.28	5.81	2	
N0495	Determine or establish work assignments or priorities	7	1.24	5.63	2	
L0429	Assist with identification of patients under field conditions	7	1.59	5.83	2	
D0183	Troubleshoot portable LOX ventilation units	6	1.17	5.76	2	
N0513	Implement safety or security programs	4	1.79	5.21	2	
M0479	Evaluate training methods or techniques of instructors	6	1.10	6.09	2	
E0189	Brief aircrews or parachutists concerning high-altitude hazards	4	1.69	5.55	2	

L0455	Pack wounds	2	1.14	5.36	2
D0185	Troubleshoot pressure suit oxygen regulators	4	1.17	6.41	2
L0463	Set up or tear down isoshelters	4	1.41	4.13	2
