CODAP Study Number: 2528

Study Title: Survival Evasion, Resistance, and Escape Operations

AFSC(s): 1T0X1 - Active Duty

AFOMS Analyst: Lt Amber Kimbrell

AFOMS CODAP Programmer: Ms. Karen B. Tilghman

Office/DSN: AFOMS/OAE, 487-6811, Ext 3022

Job Inventory Date: September 2002

OSR Date: October 2003

Analysis Extract Date: August 2003

THE ANALYSIS EXTRACT

The enclosed Analysis Extract is a compilation of computer printouts which summarize data collected from job incumbents in your Air Force specialty during a recent occupational survey. The data in these printouts are used to identify jobs and tasks performed by personnel within your career ladder, adjust or establish training programs, make classification decisions within or across specialties, and assist managers in making decisions regarding Air Force personnel programs. Other uses for occupational survey data include improving the specialty descriptions in AFMAN 36-2108, determining the content of Specialty Knowledge Tests (SKTs) written under the Weighted Airman Promotion System (WAPS) program and providing job data for use in personnel research.

READING THE ANALYSIS EXTRACT

The Analysis Extract is generally divided into four major sections: (1) DAFSC/CONUS/Overseas groups; (2) Total Active Federal Service (TAFMS) groups; (3) MAJCOM groups; and (4) Specialty Job Groups. Each section will normally provide three types of printouts: (1) PRTJOB; (2) PRTMOD; and (3) VARSUM.

The PRTJOB printout is simply a job description for a particular group (i.e., 5-skill level personnel, first-enlistment personnel, ACC personnel, etc). It reports the percent members performing each task and is presented in descending order of the relative time spent on each task. Tasks listed at the top of each job description are those tasks on which group members are spending the most time in their jobs and are performed by larger percentages of group members. In order to save paper when producing the Analysis Extract, these printouts are usually shortened to display only those tasks which comprise 80 percent of the total job time. Full job descriptions can be requested from OMSQ if needed.

The PRTMOD printout displays percent members performing data across a series of groups, along with task difficulty and training emphasis data. By displaying data in this manner, you can quickly identify similarities and differences across groups in terms of percent members performing various tasks.

The VARSUM printout provides information concerning the responses of career ladder incumbents to the various background questions in the job inventory. Routine information covered by this printout includes job satisfaction, equipment operated or maintained, job title, job area or function in which most time is spent, as well as paygrade, MAJCOM, DAFSC, and TAFMS information.

This document has been designed and prepared as a final summary document containing data printouts which were used in analyzing the occupational survey data collected on this AFSC. We hope this brief summary assists you in utilizing the data presented in this Analysis Extract. If you need additional information that is not contained in this Extract, please feel free to contact one of our analysts at DSN 487-6811 for assistance.

AFSC 1T0X1 tasks are presented in USAF Job Inventory order under Duty headings.

The percent of AD DAFSC/CONUS/O'Seas group members performing each task and training emphasis ratings are presented to the right of each task.

Note that tasks are listed in alphabetical order under each Duty heading so that tasks may be easily located and cross-referenced. Differences between groups may be highlighted where there are large differences in percent members performing each task across the various groups.

AFSC 1T0X1 tasks are presented in USAF Job Inventory order under Duty headings.

The percent of AD TAFMS group members performing each task is presented to the right of each task.

Note that tasks are listed in alphabetical order under each Duty heading so that tasks may be easily located and cross-referenced. Differences between groups may be highlighted where there are large differences in percent members performing each task across the various groups.

M0343	Write or endorse civilian performance appraisals		0	0	0	2	1
M0344	Write or endorse military performance reports		0	9	7	14	51
M0345	Write recommendations for awards or decorations		0	11	9	12	67
M0346	Write replies to inspection reports		0	0	0	8	42

Survival, Evasion, Resistance & Escape Operations
Reported AFSC(s): 1T0X1

----- Variable/Group Distributions -----

The percent of reported group members who responded to background questions are presented under the column headings for the appropriate group. The displayed data summarizes information about the people in each group.

Reports on the following groups were requested:

gp0008: All DAFSC 1T0X1 AD Ann with 1-24 Mos TAFMS	(n = 11)
gp0009: All DAFSC 1T0X1 AD Ann with 25-48 Mos TAFMS	(n = 44)
gp0010: All DAFSC 1T0X1 AD Ann with 1-48 Mos TAFMS	(n = 55)
gp0011: All DAFSC 1T0X1 AD Ann with 49-96 Mos TAFMS	(n = 51)
gp0012: All DAFSC 1T0X1 AD Ann with 97+ Mos TAFMS	(n = 78)

AFSC 170X1 tasks are presented in USAF Job Inventory order under Duty headings.

The percent of AD Total MAJCOM group members performing each task is presented to the right of each task.

Note that tasks are listed in alphabetical order under each Duty heading so that tasks may be easily located and cross-referenced. Differences between groups may be highlighted where there are large differences in percent members performing each task across the various groups.

AFSC 170X1 tasks are presented in USAF Job Inventory order under Duty headings.

The percent of Specialty Job group members performing each task is presented to the right of each task.

Note that tasks are listed in alphabetical order under each Duty heading so that tasks may be easily located and cross-referenced. Differences between groups may be highlighted where there are large differences in percent members performing each task across the various groups.
