INTRODUCTION

This Report is produced from each Reserve Component's input to the Reserve Components Common Personnel Data System (RCCPDS) submitted under Report Control Symbols (RCS) DD-M-(M) 1147 and 1148. For more information about RCCPDS, please refer to DoD Instruction 7730.54 (September 21, 1977).

The primary objective of the RCCPDS is twofold, that is, it provides a: (1) standardized and (2) centralized data base containing personnel information on all members of the Reserve Forces. Established in this fashion, the system has become the official source for Reserve Component strength (in July 1975) and the official source for accession/loss/reenlistment information (in July 1976). The information summarized and displayed in this Report reflects the official DoD position and as such it forms the basis for manpower planning, strength accounting and budgeting throughout the Department. Additionally, the information contained herein may be released to individuals and agencies outside the DoD.

It is important to note that the reliability of this information is only as good as the sources from which it was drawn. Therefore, it is essential for each Reserve Component to continue the purification of their data. This action will be directly reflected in the quality of information in this Report.

CAUTION:

Selected Reserve Strength as reported on page 5 does not include Full-Time Active Guard and Reserve (FTS-AGR) personnel for the USNR and USMCR. The inside front cover of this report includes these individuals.

Full-Time Support (FTS) Active Guard and Reserve (AGR) personnel are displayed separately in table A2. The ARNG, USAR and the ANG do not as yet have all their FTS personnel identified within their data base. This should be corrected within the new few months.

Skill Information. Users should be aware of the new A15 report. For the first time, skill information is being published.
