

CRS Report for Congress

Received through the CRS Web

FY2003 and FY2004 State Allocations for Selected Homeland Security Assistance Programs

Updated August 16, 2004

Shawn Reese
Analyst in American National Government
Government and Finance Division

Report Documentation Page				Form Approved OMB No. 0704-0188	
Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

FY2003 and FY2004 State Allocations for Selected Homeland Security Assistance Programs

Summary

The Department of Homeland Security (DHS) and the Department of Health and Human Services (HHS) provide assistance programs to state and local first responders and public health officials to prepare for, respond to, and recover from terrorist attacks, including weapons of mass destruction (WMD) incidents. Most of the programs provide assistance funding to states, which in turn allocate funding to localities. Some programs, however, provide assistance directly to localities. Programs of this type include the Assistance to Firefighters Program (FIRE) and the Urban Area Security Initiative (UASI), both administered by the Office for Domestic Preparedness (ODP).

These two federal departments (DHS and HHS) have allocated roughly \$8.2 billion to states and localities in FY2003 and FY2004 for homeland security assistance. Since the terrorist attacks of September 11, 2001, Congress has shown great interest in these assistance programs' allocations to states and localities. This report shows the state allocations for DHS and HHS homeland security assistance programs, as reported by their department documents or press releases. Additionally, this report shows per capita amounts for each program, as calculated by CRS, using 2002 census estimates.

This report will be updated as congressional or departmental actions warrant.

FY2003 and FY2004 State Allocations for Selected Homeland Security Assistance Programs

The Department of Homeland Security (DHS) and the Department of Health and Human Services (HHS) provide grants to first responders (including firefighters, law enforcement personnel, emergency managers, and emergency medical services personnel) and public health officials to assist state and local entities in preparing for, responding to, and recovering from terrorist attacks.¹ Within DHS, the Office for Domestic Preparedness (ODP) and the Federal Emergency Management Agency (FEMA) administer assistance programs for first responders. FEMA administers the Emergency Management Performance Grants (EMPG), and ODP administers the following:

- State Homeland Security Grant Program (SHSGP);
- Urban Area Security Initiative (UASI);
- Law Enforcement Terrorism Prevention Program (LETPP);²
- Assistance to Firefighters Program (FIRE);
- Citizen Corps Grant Programs (CCP); and
- Critical Infrastructure Protection (CIP).³

Two HHS agencies, Centers for Disease Control and Prevention (CDC) and the Health Resources and Services Administration (HRSA), administer bioterrorism assistance programs. CDC administers an assistance program for public health bioterrorism preparedness, and HRSA administers an assistance program for hospital bioterrorism preparedness.

This report provides the following five tables:

- FY2003 state allocations for ODP homeland security assistance programs.
- FY2004 state allocations for ODP homeland security assistance programs.
- FY2003 and FY2004 state allocations for FEMA's EMPG program.
- FY2003 state allocations for HHS bioterrorism programs.
- FY2003 and FY2004 total state allocations for selected homeland security assistance programs.

¹ For detailed information on these assistance programs, see CRS Report RL32348, *Selected Federal Homeland Security Assistance Programs: A Summary*, by Shawn Reese.

² LETPP was appropriated funds for the first time in FY2004.

³ CIP was appropriated funds and administered in FY2003 only.

Interpreting the Information in the Tables. The data in this report are meant to be illustrative only. There are a number of limitations that readers should consider as they review the data.

- *Figures are calculated using present grant formulas or distribution methods.* The figures in all the tables are either provided by the administering agency's documents or calculated by CRS using the program's specific funding formula. Per capita figures are calculated by CRS using 2002 census estimates.
- *Amounts do not represent what has been distributed, but what has been allocated.* The state allocation amounts do not reflect what has been distributed to the states or territories, but what DHS or HHS has allocated to them. Some of the grant programs provide funding to states through reimbursement, such as ODP homeland security grant programs.
- *Grant allocations to specific cities were combined with state allocations.* All of ODP's UASI funds and some of HHS's bioterrorism grant funds were allocated to specific cities. These tables, however, reflect the city's allocation combined with the state's allocation from these programs. Specifically, the National Capital Region's UASI allocation was divided equally among the District of Columbia, Maryland, and Virginia populations.⁴

⁴ DHS defines the National Capital Region as the District of Columbia; the Maryland counties of Montgomery and Prince George's; the Virginia counties of Arlington, Fairfax, Prince William, and Loudon; and the Virginia cities of Falls Church, Manassas, Manassas Park, Fairfax, and Alexandria. U.S. Department of Homeland Security, Office for Domestic Preparedness, *FY2004 Urban Area Security Initiative Program Guidance*, Nov. 2003, p. 3.
