PREFACE

This selected bibliography focuses on the special challenges of Multinational Operations such as command arrangements, interoperability, intelligence sharing, multilateralism, and cultural diversity. It does not include general descriptions of multinational operations and exercises.

With the exception of some important older titles, most of the books, documents, articles and online resources cited are dated 2001 to the present. All items in this bibliography are available in the USAWC Library. For your convenience, at the end of the entries, we have added library call numbers, Internet addresses, or database links. Call numbers indicate the item's shelf location in our library; please note that call numbers can vary from library to library. Web sites were accessed during January 2007.

This bibliography and others, compiled by our research librarians, are available online through the Library's home page <http://www.carlisle.army.mil/library/bibliographies.htm>.
