Report Documentation Page				Form Approved OMB No. 0704-0188	
Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

The Defense Technical Information Center (DTIC) Scientific and Technical Information Network (STINET) Service helps the DoD community access pertinent scientific and technical information to meet mission needs more effectively.

Private STINET consists of the following:

- DTIC's Technical Reports collection. A database of approximately 2 million bibliographic citations of reports describing the progress or results of research reports and other scientific and technical information held by DTIC
- All recently added classified, unlimited and unclassified, limited full Technical Reports
- Active and inactive Research Summaries (RS) from 1965 to present
- Independent Research & Development data

DoD R&E Success Story

Heterogeneous Urban RSTA Team (HURT)

About the R&E Portal

The R&E Portal provides a one-stop shopping location for DoD research & engineering information. For more information about the R&E Portal and its content, click the [Help tab](#).

Who's Who

Access these R&E Portal features to locate or learn more about people involved in research and engineering or who hold important positions in DoD R&E.

Community of Scholars - The CSA/COS database of researchers (contact and publication information) and funding opportunities allows users to search for people or funding opportunities by key word and narrow the results by subject area.

R&E Community Members - The R&E Community Members database includes directors' names and contact information for DoD R&E organizations across the Services and Agencies.

What's New

The Defense Technical Information Center announces DoDTechpedia, a joint Department of Defense (DoD) initiative. DoDTechpedia, the choice DoD scientific and technical wiki, enables DoD personnel to collaborate on technological solutions, reduce costs, add capability and avoid duplication. Visit DoDTechpedia at <https://www.DoDTechpedia.mil>.

Enhanced version of the [DoD Congressional Queries site](#) is launched. The site offers a more friendly method of doing queries and offers expanded tutorials.

The Defense Technical Information Center (DTIC) will host the 2008 Acquisition & Life Cycle Management Symposium on November 18 & 19, 2008 in Huntsville, Alabama. More information can be found at <http://www.dtic.mil/dtic/peosymposium/PEOsymposium/SympHome.html>. For specific questions, please contact confinfo@dtic.mil or call Ms. Evon Bumbray at 703-767-8236.

The R&E Database Search has been updated to include 2007 submissions. The search capability has also been updated to allow more options and flexibility in searching for data. To use the search go [here](#) or use the link under Research Resources.

The [Knovel Reference Library](#) is available through the R&E Portal. Check out this useful new service.

Congressional Data

DoD Congressional Budget Data

[Previous Reports](#)

Welcome to the Defense Technical Information Center (DTIC) sponsored DoD Congressional Budget Data website. From this site you can access DoD Congressional Budget data, in both PDF and Excel spreadsheet formats. DTIC's goal is to post the data from each report on this site after they are filed and made available on the [Thomas](#) (Library of Congress) website.

Disclaimer: The Congressional budget data contained on this site is based on the authoritative information found on Thomas, the Library of Congress' Web site. DTIC scans the Congressional budget data and converts the information into Excel spreadsheets, which are easier to manipulate. The converted data is reviewed by DTIC to ensure accuracy; however some conversion errors can be overlooked. The scanning process is approximately 95% accurate. You can view the authoritative Congressional budget data at: <http://www.thomas.gov>.

Download: Select links in the table below to download PDFs or Excel spreadsheets of the associated sections of each report. Selecting the report link will allow you to download a PDF of the entire report.

FY2009 Reports	RDT&E PDF	RDT&E Spreadsheet	Procurement PDF	Procurement Spreadsheet	O&M PDF	O&M Spreadsheet	Personnel PDF	Personnel Spreadsheet
FY2009 HASC (House Report 110-652) 9.5MB	2.2MB	383K	2.2MB	258K	815K	112K	45K	81K

Feedback: If you have any questions or comments about the data on this website, or If you find any inconsistencies or errors, please send an e-mail to DOD_Congressional_Budget_help@dtic.mil.

Detailed search and analysis capabilities across the Military Departments and Agencies for RDT&E data are available on the DoD Congressional Budget Database website through the R&E Portal (<https://rdte.osd.mil>). Register for the R&E Portal at <https://register.dtic.mil/DTIC>. The DoD Congressional Budget Database website is normally populated with each report's RDT&E data within 48 hours of report filing.

DoD Congressional Budget Database

Welcome to the DoD Congressional Budget Database Website

The DoD Congressional Budget Database Website, accessible through the R&E Portal, is an Internet based tool for display and query of the President's Budget Request (PBR) data and the Congressional Marks data, the original PBR data that are adjusted (marked).

Congress "marks" the PBR data six times before the budget becomes Public Law, publishing the following six related reports:

- House Armed Services Committee (HASC)
- Senate Armed Services Committee (SASC)
- Authorization Conference Report
- House Appropriations Committee (HAC)
- Senate Appropriations Committee (SAC)
- Appropriations Conference Report

The sources of the information for this website are the DoD Comptroller Defense Budget Materials website for the President's Budget Request (PBR) data and Congressional web sites for the marked reports.

Currently detailed search and analysis capabilities across the Military Departments and Agencies for RDT&E data only are available through the site, which is normally populated with each report's data within 48 hours of report filing.

The data, extracted from the Congressional PDF report documents via an Optical Character Recognition (OCR) process, is validated and modified as necessary, and loaded into the website's database.

If you have any questions or comments about the data on this website, please send an e-mail to congressional_poc@dtic.mil.
