FOREWORD

The United States Air Force Statistical Digest has been published each year since 1948. Individuals requiring a historical description of Air Force resources, organizations, and activities have found each issue an invaluable addition to their reference sources. It is the longest running publication in the Air Force having first appeared one year after the Air Force was formed as a separate service.

We welcome your comments and suggestions for improvement of future issues. Write to SAF/FMC, 1020 Air Force Pentagon, Washington, D.C. 20330-1020. The FY 1996 Statistical Digest should be available for distribution in the spring of 1997.

For more information about the office and activities of the Assistant Secretary of the Air Force (Financial Management and Comptroller) and subordinate offices, contact the SAF/FM web site on the Internet at http://www.saffm.hq.af.mil/SAFFM.

Special thanks goes to Denise Wamback for compiling and editing the Statistical Digest as an additional duty in an already full day in the Pentagon.

FOOTNOTES: (1) The Consumer Price Index (CPI) is a measure of the average change in the prices paid by urban consumers for a fixed market basket of goods and services. The CPI is calculated monthly for two population groups, one consisting only of urban households whose primary source of income is derived from the employment of wage earners and clerical workers (CPI-W), and the other consisting of all urban households (CPI-U). The all-urban consumer index (CPI-U), introduced in 1978, is representative of the 1982-84 buying habits of about 80 percent of the noninstitutional population of the United States at that time.

(2) Major groups include energy, food, shelter, apparel and upkeep, transportation, medical care, fuel oil, electricity, utility (piped) gas, telephone services, and all commodities.
