Acknowledgments

DMDC is indebted to numerous people for their assistance with the third Web-based Status of Forces Survey (SOFS) for the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The SOFS are conducted under the leadership of Anita Lancaster, Assistant Director for Program Management, and Timothy Elig, Chief of the Survey and Program Evaluation Division.

DMDC's Survey Technology Branch, under the guidance of James Caplan, Branch Chief, is responsible for data collection and preparation for the SOFS program. The lead analyst on this survey was Laverne Wright who was supported by Consortium Research Fellows Margaret Holland and Felicia DeHaney. Data Recognition Corporation (DRC) performed data collection and editing.

DMDC's Program Evaluation Branch, under the guidance of Eric Wetzel, Branch Chief, is responsible for the development of questionnaires used in the SOFS program. The lead developer on this survey was Kristin Williams. She was supported by Mike Ford, Consortium Research Fellow, in these efforts.

DMDC's Personnel Survey Branch, under the guidance of Richard Riemer, Branch Chief, is responsible for sampling and weighting methods used in the SOFS program. Richard Riemer devised the standardized sampling and weighting methods that allow repeated surveys of the active-duty force and applied those methods to this survey. Bob Hamilton, Chief of DMDC's Programming Branch, and Carole Massey and Susan Reinhold, from his staff, supported the sampling and weighting.

AUGUST 2004 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS: ADMINISTRATION, DATASETS, AND CODEBOOK

Introduction

The *Human Resource Strategic Assessment Program* (HRSAP), located at Defense Manpower Data Center (DMDC), consists of both Web-based and paper-and-pen surveys to support the personnel needs of the Under Secretary of Defense for Personnel and Readiness. These surveys assess the attitudes and opinions of the entire Department of Defense (DOD) community—active, reserve, civilian employees, and family members—on a wide range of personnel issues. The Web-based survey program, known as the Status of Forces Surveys (SOFS), provides timely data on active, reserve, and civilian members. There are nine SOFS Web surveys planned for each year, with three cross-sectional samples of each population: active-duty members, reserve component members, and DoD civilian employees. The paper-and-pen surveys are used to obtain data on sensitive topics (e.g., sexual harassment) and from populations with limited Internet access (e.g., spouses of active-duty and Reserve members).

Overview of Report

The next section of this report describes the procedures used to develop the instrument, design the sample, conduct the survey, process the data and prepare analysis weights. Along with Appendices A and B, the methods section is the documentation of how the survey was conducted. Riemer and Kroeger (2003) provide details on sampling and weighting.

The third section of the report describes the survey analysis file layout and key variables. This section and the remaining appendices (C-K) address issues in the analysis of the survey data. Conventions for variable naming and construction are introduced in this section with details given in Appendices C (annotated questionnaire), D (explanation of coding), and I (explanation of key analytic variables). Explanations for the groupings of variables seen in the positional list of variables in Appendix F¹ are discussed in this section as well as a description of information available in Appendix G for each variable. Appendix G contains details for variables in the same order that the variables are listed in Appendix F. In addition to the variables available on the public-release file, Appendix G contains details for the confidential variables that had to be suppressed to preserve the privacy of survey respondents and nonrespondents. Confidential variables are identified and listed in Appendices E and F. Key concepts required for the analysis of complex survey data and the structure of records in the survey analysis files are introduced in this section. Examples of analyses are given in Appendix J. The SAS code used to construct the analytic variables are included in Appendix I. Appendix H provides the record layout for the public-release flat file. Appendix K summarizes questionnaire items used in recent DMDC surveys.

¹ An alphabetical list is at Appendix E.

Method

Survey Instrument

The topics covered in the August 2004 Status of Forces Survey of Active-Duty Members include a series of items that is included on all active-duty SOFS. These items include overall satisfaction, retention intention, perceived readiness, stress, tempo, and permanent change of station (PCS) moves. In addition, items were included on the Global War on Terrorism (GWOT), details on retention, deployments, assignments, organizational commitment, satisfaction with aspects of military life, member's health, compensation, and tuition assistance programs. The survey was subdivided into the following 12 topic areas:

1. Background Information—Service, gender, paygrade, education, marital status, spouse employment status, race/ethnicity, dependents, and location (both geographic and on/off base).
2. Satisfaction and Retention Intention—Satisfaction with aspects of military life, overall satisfaction, likelihood to stay on active duty, and spouse/family support to stay on active duty.
3. Tempo, Readiness, and Stress—PCS moves, days worked overtime, time away from permanent duty station, the impact of time away on career intentions, individual and unit preparedness, and the level of stress in work and personal life.
4. Global War on Terrorism—Names of operations, time spent away, location of deployments, days spent in a combat zone, combat involvement, deployment expectations, and stop-loss.
5. Details on Retention—Terms of service, time remaining on current enlistment term, re-enlistment and monetary bonuses, likelihood to stay at least 20 years, total expected years of service, important factors in reasons to stay, steps to leaving the military, and primary activity after leaving the military.
6. Deployments—Member's original understanding of likelihood of deployments, number of times deployed in career, impact of hostile and non-hostile deployments on retention, and satisfaction of care of family while deployed.
7. Assignments—Number of times deployed with and without their family overseas.
8. Organizational Commitment—Commitment to serve.
9. Satisfaction With Aspects of Military Life—Satisfaction with aspects of military life, current level of unit morale, and unit cohesion.

10. Member's Health—Level of alcohol and tobacco use, average days spent exercising, and self-reported weight (i.e., underweight or overweight).
11. Compensation—Present versus alternative retirement pay systems; present retirement package with health care versus alternative retirement pay; average additional monthly pay needed to go to a CONUS school without family, OCONUS dependent restricted tour, and operationally dangerous places like Iraq; level of special pay needed to take an assignment where deployments are likely and assignments with additional duties; average military earnings; usage of financial services; impact of eliminating “up-or-out” and implementing “up-or-stay.”
12. Transition Assistance Programs—Availability of and likelihood of usage of transition assistance programs.

Sample

The target population for all active-duty SOFS consists of (1) active-duty members of the Army, Navy, Marine Corps, and Air Force, (2) having at least 6 months service at the time the questionnaire is first fielded, (3) below flag rank when the sample is drawn six months prior to the survey, and (4) excluding National Guard and Reserve members in active-duty programs.

Stratification Variables

The sampling frame was constructed using the six stratification variables listed in Table 1. These six variables were used to create stratification cells. A single variable, SF02CELL, was created as an index variable for the strata.

Table 1.
Stratification Variables

Dimension of Stratification		Levels
Service	Army	
	Navy	
	Marine Corps	
	Air Force	
Gender	Male	
	Female	
Paygrade Group 1	E1 to E3	
	E4	
	E5 to E6	
	E7 to E9	
	W1 to W5	
	O1 to O3	
	O4 to O6	
Race/Ethnic Category 2	Minority	
	Non-minority	
Family Status/Dual Service Spouse	Single with Child(ren)	
	Dual Service Spouse	
	Other Family Status	
Years of Service (YOS)	Enlisted 3 to 5 YOS	
	Enlisted 6 to 9 YOS	

Researchers identified subgroup breakouts (i.e., domains) that would be important when survey results were provided to policy officials. These reporting domains were defined by Riemer and Kroeger (2003) using the 11 demographic variables shown in Table 2. For three demographic characteristics (race/ethnicity, region, and pay group), multiple versions of variables were created that differed in the level of detail. Less detailed variables were often used to define domains for analyses within the four Services than were used to define domains at the DoD level.

Next, researchers determined the number of people who would be sampled for each stratum using a sample-planning tool developed for Defense Manpower Data Center (Deever & Mason, 2002). A formal mathematical procedure (Chromy, 1987) based on Karush-Kuhn-Tucker theory is used in the sample-planning tool to determine an optimized sample size and allocation—a sample that would achieve at minimal cost (i.e., minimum sample size) the precision levels required for each analytic domain. The Kuhn-Tucker theory provides an optimal solution to satisfy precision constraints (e.g., ± 5 percentage points) imposed on estimates of prevalence rates in key reporting domains. Researchers iteratively modified the inputs to the sample-planning tool to arrive at acceptable precision levels for reporting domains that would be of particular interest to policy officials. The domains match the reporting categories used in tabulating results (DMDC, 2004).

Table 2.
Factors Defining Key Reporting Domains

Variable	Categories
Service branch*	Army Navy Marine Corps Air Force
Sex*	Male Female
Paygrade Group 1*	E1 to E3 E4 E5 to E6 E7 to E9 W1 to W5 O1 to O3 O4 to O6
Paygrade Group 5	E1-E4 E5-E9 W1-W5 O1-O3 O4-O6

Years of Service (YOS)	Enlisted 3 to 5 YOS Enlisted 6 to 9 YOS

* Stratification variables

Constructing the Frame and Drawing the Sample

DMDC's December 2003 Active Duty Master Edit File (ADMF) was used in developing the sampling frame, constructing strata, and determining the sample size and allocation. The specified definition of the population, described above, resulted in a sampling frame with 1,365,765 eligible members. A non-proportional stratified, single stage random sample of 38,112 members was selected. Table 3 presents a summary of the sample allocation by Service.

Table 3.
Sample Allocation for the August 2004 Status of Forces Survey of Active-Duty Members

	Total	Army	Navy	Marine Corps	Air Force
Sample					
Total	38,112	10,791	10,172	11,266	5,883
Gender					
Male	31,332	8,940	8,268	9,847	4,277
Female	6,776	1,847	1,904	1,419	1,606
Paygrade Group 1					
E1-E3	8,476	2,170	2,186	3,466	654

Dual Service Spouse	2,747	694	579	630	844
Other Family	32,340	8,923	8,526	10,263	4,628

Note: Counts for unknown are not included.

Respondents

Sample Losses

The original sample file contained 38,112 records. Losses to the drawn sample are listed in Table 4 and reviewed here. Table 4 is limited to responses to the Web questionnaire as of September 2, 2004. Sample members were lost from the sample for three main reasons: (1) self-reported or other ineligibility for the survey, (2) an inability to locate the sample member, and (3) refusal to participate in the survey or other failure to respond to the survey.

A total of 253 sample members (0.66%) were lost from the final sample through classification as ineligible. Elimination of ineligible resulted in decreasing the sample to 99.34% (N=37,859) of its original size.

Table 4.
Final Sample Relative to Drawn Sample

	Sample Size n	% of Drawn Sample	Weighted n	% of Weighted Sample
Drawn sample	38,112		1,365,765	
Ineligible on master files	0	0.00%	0	0.00%
Self-reported ineligible	-253	0.66%	-9,222	0.68%
Total: Ineligible	-253	0.66%	-9,222	0.68%
Eligible sample	37,859	99.34%	1,356,543	99.32%
Not located (estimated ineligible)	-88		-2500	
Not located (estimated eligible)	-4,993		-157,208	
Total not located	-5,081	13.33%	-159,708	11.69%
Located sample	32,778	86.00%	1,196,835	87.63%
Requested removal from survey mailings	-144		-4,615	
Returned blank	-24		-1,061	
Skipped key questions	-858		-30,843	
Did not return a survey (estimated ineligible)	-316		-9,654	
Did not return a survey (estimated eligible)	-18,040		-607,179	
Total: Non-response	-19,382	50.86%	-653,352	47.84%
Usable responses	13,396	35.15%	543,484	39.79%

In general, residential addresses were used as the primary addresses of choice. In cases where residential addresses could not be identified, however, unit addresses were used. Procedures used to locate members are explained in a later section that describes the Survey Control System. Because of this address update procedure, only 13.33% of the drawn sample (5,081 of 38,112) was lost because the sample members could not be located. Personnel records for this group had missing, incomplete, or out-of-date addresses, and steps designed to obtain complete, current addresses for these records were unsuccessful.

Losses attributable to either ineligibility or unlocatability resulted in a sample that was 86% of the drawn sample. Individuals in this remaining sample may be further categorized as nonrespondents versus respondents. Nonrespondents included the following groups: sample members who contacted the operations contractor (by mail, fax, e-mail, Web, or telephone) and asked to have their names removed from the survey mailing list, and 18,356 sample members who did not return a survey.

Respondents included all sample members who completed on the Web 50% of applicable questions². At the conclusion of the survey fielding, 13,396 eligible, locatable sample members had returned usable surveys.

Location, Response and Completion Rates

The Council of American Survey Research Organizations (CASRO) noted that varying operational definitions of response rates can lead to problems or confusion (e.g., when awarding contracts requiring pre-specified response rates or when interpreting the results of a survey). As a result, CASRO formed a task force to recommend guidelines for standardizing the operational definitions of response rates.

Beginning in 1995, DMDC standardized its methods for calculating response rates and completion rates using procedures patterned after those advocated by CASRO. More specifically, the new DMDC procedures closely follow CASRO's Sample Type II design (see Council of American Survey Research Organizations, 1982).

Table 5 provides location, response, and completion rate information using only the Web responses. The location rate is defined as the proportion of eligible sample members that were locatable. The response rate is defined as the proportion of eligible sample members that returned usable surveys, while the completion rate is defined as the proportion of the located sample that returned usable surveys.

² Applicable questions are those to be completed by all respondents and excluded items that could be skipped over depending on prior answers.

Table 5.
Location Rates, Response Rates, and Completion Rates

	Observed Operational Rates	Weighted Operational Rates
Location rate for eligible	86.7%	88.3%
Completion rate for eligible	41.3%	45.8%
Response rate for eligible	35.8%	40.4%

Survey Development and Administration

The survey was hosted on the operations contractor’s secure Web site so that sample members could complete the survey online. At the entry point to the survey, members were prompted for their personal ticket number to gain entry to the survey. The Privacy Notice and a page of frequently asked questions (FAQ’s) were also posted on the Web site.

The survey allowed respondents to return to the previous page or move to the next page. In addition, buttons located below the last question on each page allowed the respondent to clear their response(s) or save and exit the survey. Questions were answered by clicking on radio buttons, check boxes or by making a choice from a drop-down list. The respondent could change answers or could save, exit, and return at another time to change answers. The final page had another “Save and Exit” button and a “Done” button, both with full text explanation of their functions.

Survey Administration

The survey administration process began in July 2004 with mailouts of notification letters to sample members (minus original ineligible). Second notifications were sent by e-mail within 24 hours after the survey was available on the Web and six (6) reminder e-mails were sent to those for whom we had e-mail addresses.

Survey Control System

The Survey Control System (SCS)³ was used to monitor the data collection process and to track all data transactions over the course of the survey administration. The datasets in the SCS include sample members’ names and addresses, but do not contain data obtained from the survey instruments. Because of privacy concerns, SCS datasets are not available for public release.

The operations contractor uses the SCS to store and update project data, monitor mailings, respond to documents returned as postal non-deliverables (PNDs), and determine survey participation and eligibility status. The SCS consists of five datasets: the ORIGDAT file, the ADDRESS file, the MASTER file, the HISTORY file, and the MAILING file. The files are

³ In this document, the term SCS refers to the set of data files as well as the program or operating system which maintains those files.

linked relationally by INRECNO, a unique individual identification number that is assigned to each sample member when the record was loaded into the SCS. Figure 1 displays the interrelationships among those datasets.

Figure 1.
Survey Control System

ORIGDAT file. The ORIGDAT file consists of 38,112 records, one record for each member of the sample. It is the original sampling frame file sent to the operations contractor by DMDC. The original file is loaded onto the operations contractor's computer system and converted to a SAS⁴ dataset. As the file was converted into a SAS dataset, the SCS generated a unique identification number (INRECNO) for each record. This number identifies the sample member throughout the SCS and also in returns data sets, comment text files and other specify text files. The names and some demographic data from the ORIGDAT file were loaded into the MASTER file in preparation for the first mailing. The addresses from the ORIGDAT file were loaded into the ADDRESS file.

ADDRESS file. The ADDRESS tracked the postal and e-mail addresses that were maintained for each sample member. The ADDRESS file contains one record for each postal and address for each sample member (e.g., if there were five addresses located for one sample member during the survey administration, that sample member has five separate records in the ADDRESS file) yielding an ADDRESS file containing 150,145 records. Each record is uniquely identified by the combination of INRECNO (identifying the sample member) and an address

⁴ SAS® is a registered trademark of SAS Institute Inc., Cary, NC, USA.

number (ADDRNO) assigned to each address. This address number is the sequential order of receipt of the address for a particular sample member. For example, if a sample member has one address record in the ADDRESS file, the address number for that record is one. If the sample member faxed in a change of postal or e-mail address or a credit bureau forwarded an updated postal address for that sample member, the new address was added as address number two. The ADDRESS file was initially loaded with postal and e-mail addresses from the ORIGDAT file. Each record in the ADDRESS file includes the sample member's INRECNO, SOFA0404, ADDRNO, address, the source of the address, and address priority code, a variable indicating whether the record is the highest priority address for this sample member, and variables indicating whether the address successfully reached the sample member.

The priority code assigned to a given address number for a sample member was used to determine the “best” or “highest priority” address for the sample member at any given time. It was originally determined by the source of the address. Address updates obtained directly from a sample member received a priority number of one. The order of priority of address sources from “highest priority” to “lowest priority” is as follows, respectively:

1. updates directly from a sample member (call, fax, e-mail, Web update or letter)
2. address corrections from the U.S. postal service (ACS [electronic address change service], ACRs [address correction requests], and ODFs [out-of-date-forwarded mail])
3. NCOA-updated addresses
4. credit bureau-updated addresses
5. DEERS residential addresses
6. DEERS unit addresses

MASTER file. The MASTER file is used by the SCS to select records for upcoming survey mailings. This file includes a record for each member of the sample and was initially created by extracting data from each record in the ORIGDAT file. Each MASTER record includes the sample member INRECNO, SOFA0408 and the address number for the highest priority postal and e-mail address in the ADDRESS file for this sample member. The MASTER file accommodated data updates through an automated process (e.g., updating the address number in use after the receipt of a postal or e-mail nondeliverable or Web update) or manual key entry (e.g., updating information in response to a telephone call, fax, letter return or e-mail from a sample member). As new information was received for a particular record (including changes to the highest priority address), the SCS updated the MASTER record (N=38,112) and wrote the old record to the HISTORY file. The MASTER file also contains a set of variables which summarize the sample member's participation in each of the mailings.

HISTORY file. The HISTORY file is a chronicle of the changes that occurred to the MASTER file. Each HISTORY record is a subset of an outdated MASTER record with the addition of a date and time stamp as the record is updated. That is, a HISTORY record is created when there is a name, address, paygrade, or eligibility status change in the MASTER file. Thus, the HISTORY file contains as many observations as there are updates to the MASTER file.

MAILING file. The MAILING file tracked all survey mailings (postal and e-mail). This file contains one record for either an item postal mailed or e-mailed during the survey administration or for tracking postal address updates from credit bureaus (N=234,492). Each MAILING record includes the SOFA0408, INRECNO, address number used, date of mailing, mailing status, type of mailing, and the mailing identification code (MIC).

Address Update Procedures

Initial Address Updates

Prior to the first mailing, the operations contractor ran all domestic residential addresses through Group 1 software to be formatted to conform to U.S. Postal Service standards. Once the addresses were standardized, they were sent to an outside vendor where they were checked against the National Change of Address (NCOA) database. The NCOA software updated the address records (in standardized format) based on change-of-address cards filed with the U.S. Postal Service. The updated NCOA address file was returned to the operations contractor and integrated into the SCS. The NCOA-updated addresses were added to the ADDRESS file and became the current ADDRNO with the “highest priority code assigned” in the MASTER file.

After the NCOA-updated data was added to the SCS, another file was compiled of sample members who had an incomplete address or an address identified by NCOA as an undocumented move (i.e., the sample member had moved, but NCOA did not have a new address). The operations contractor sent copies of this file to three credit bureaus (Experian, Trans Union and CSC Credit Services)⁵ to determine whether a complete, up-to-date address for these sample members could be found. The results were integrated into the SCS, updating records in the ADDRESS file.

Ongoing Address Updates

Address update procedures also occurred when (a) additional address records were received after NCOA processing, (b) a survey document was returned as undeliverable, (c) a sample member self-reported a name, rank, or address change, or (d) the U.S. Postal Service forwarded address correction information. Figure 2 outlines these procedures.

⁵ Experian, Trans Union and CSC Credit Services are outside vendors with consumer-credit information databases. Social security numbers of sample members with incomplete or out-of-date address information were forwarded to the vendors for address updates when the mailing dataset contained no valid address.

Figure 2.
Address Updating Procedures

As a new address was entered into the ADDRESS file, its source (NCOA, credit bureau, postal Address Correction Requested card, telephone call, fax, letter, Web, and e-mail) was recorded and a new address number was assigned. The priority assigned to the address was based upon the source of the update and the date and time of the address (see the description of priority, for the ADDRESS file). At any given time, the current address used corresponded to the address number with the highest priority code.

If all known addresses for a sample member were returned PND, the sample member's record in the MASTER file was flagged "no address available." All "no address available" records were forwarded to the three credit bureaus. The credit bureaus returned files containing addresses for each submitted record, with the date on which the credit bureau received the address. If more than one address for a sample member was received from credit bureaus, the address number corresponding to the address with the most recent receipt date received the highest priority code. If one or more of the credit bureaus returned a previously unattempted address, the MASTER and ADDRESS files were updated and a re-mail was sent to the sample

member. If none of the vendors had an updated address for the sample member, the operations contractor designated the sample member “nonlocatable” and stopped further mailings.

Processing of Updates

Updates from Sample Members

Updates from sample members could be communicated via the toll-free telephone number (either by speaking to the operations contractor’s Call Center staff or by leaving a voice mail message). In addition, sample members could mail, fax or e-mail updates or go to the survey Web site and enter updates. The updates made on the Web site were before the start of the survey and were loaded to the system every three days (to coincide with the notification mailing or re-mailing schedule). Other updates were entered into the SCS by the operations contractor’s Call Center staff by the next morning.

Updates from the U.S. Postal Service

There are several types of address updates provided by the postal service. They are detailed below; each includes a description of the processing steps.

1. **Postal Non-Deliverable Mail (PND):** The sample member moved and no forwarding address was available. The mail piece was returned to the operations contractor. the operations contractor removed the letter from the envelope and scanned it to capture the Mailing Identification Code (MIC) in the lower right corner. A file of the MICs was loaded to the Survey Control System so the records could be updated as PND. This was done every three days (to coincide with the mailing/re-mailing schedule). If the sample member had another address on file (e.g., the unit address), that address was used. If not, the Social Security Number was sent to the credit bureaus in search of a new address.
2. **Address Correction Requests (ACR; hard-copy):** Some post offices are not equipped to provide address corrections via ACS (the electronic service), so they provided the corrections via hard copy cards that were sent to the operations contractor. The corrections were key-entered by operations contractor’s Call Center staff, typically by close of business the next day but no later than prior to the preparation of the next mailing.

Survey Materials and Their Distribution

Each eligible sample member received at most three original mailings: a notification letter, a reminder letter, and a second reminder letter. The notification and first reminder mailings contained a letter and brochure (which provided sample members with answers to common questions about the survey). The second reminder letter contained only a letter. A sample of letters and e-mail communications and brochure is provided in Appendix B.

In addition, e-mail was used to communicate with sample members. Not every sample member had an e-mail address. However, for those sample members for which we had an e-mail address, they received at most seven e-mails: an announcement and six reminders.

General Mailing Procedures

Prior to every mailing, the SCS searched the records in the MASTER file to identify which records should be excluded (e.g., sample members self-reported as ineligible for survey participation, sample members who had already returned survey forms, and members with no valid addresses available). For re-mails (sent between mailings), the SCS identified only those records that had been updated since the prior mailing. More specifically, the SCS identified records that had resulted in PNDs or had been manually flagged for re-mailing (e.g., in response to a sample member calling the operations contractor stating she or he had received a reminder/thank you letter but had not received a survey, etc.).

Once all records for a particular mailing or re-mailing were identified, the SCS processed the records based on whether or not the mailing would include a survey form. If the mailing group was large enough to lead to a cost savings from sorting, the records were run through Group 1 postal software to sort the records according to first-class presort postal regulations. After this procedure, a unique Mail Identification Code (MIC) was assigned to each record. The MIC was assigned either from the survey litho code list if a survey form was sent or independently if only a letter was sent.

Ticket Numbers for Web Survey Access

Prior to the first mailing, a list of ticket numbers⁶ for Web survey access was randomly generated. One secure ticket number was assigned to each sample member and remained linked to that member for the duration of the project. That is, while a member's MIC or lithocode changed with each mailing as described previously, the member's ticket number did not change. The member's unique ticket number was printed (along with the survey URL) in each letter, e-mail and brochure sent to that individual. A member could not access the Web survey without using his or her ticket number.

Description of Letters

Letters were printed with the record's unique MIC listed in the address field and on the lower right corner of the letter. If the mailing includes only letters (no survey forms), the letters were folded and machine inserted into window envelopes and sent by first class mail. Mailings that included a brochure or survey followed the same procedure through the letter printing process. The MIC on the brochure or cover letter was used to pair the letter with the correct enclosure. During the matching process, ten percent of the mailing was visually checked, comparing numbers printed on the letter with the brochure or survey number for quality control. Any mismatched pairs initiated further investigation of the matching process. This procedure ensured that each survey was sent to the person designated to receive it. Depending on the

⁶ Ticket numbers are eight alpha numeric characters generated at random.

sample size, the letters and matched surveys were machine or hand inserted into envelopes, metered if necessary, and sent by first class mail.

The status of each mailing was tracked throughout the data collection so that address-correction information could be incorporated into all relevant mailings. When a mail piece came back PND, the next mail piece was sent to a new address (if one could be obtained during the mailing period). For all mailings, mail pieces that came back PND, re-mails were completed if a newer/updated address could be found.

DMDC provided the operations contractor with the text, letterhead and signature for the cover letters. The letters explained why the survey was being conducted, how the survey information would be used, and why participation was important. (See Appendix B for copies of the letters.) The letters were approved and printed on letterhead from the office of the Under Secretary of Defense. The letters were signed by the Under Secretary of Defense (Personnel and Readiness) David S.C. Chu.

The letterhead and signature were printed in blue, and the text and recipient information of all letters were printed in black. In addition to including a name and address (which was also used as the mailing information for the window envelopes), each letter included a personalized salutation. The salutation addressed each sample member by his/her rank. For example, a letter to a Navy E5 with the last name Smith would have included the salutation, "Dear Petty Officer Smith". Similarly, an Army O3 named Jones would have received a letter starting, "Dear Captain Jones". The address block also included service branch; for example, "Petty Officer John Smith USN" or "Captain Mary Jones USA".

Mailouts

Table 6 lists the mailing dates and return results for each of the mailouts and re-mailings. For the notification mailing, a letter along with a brochure was inserted into a #10 window envelope. The letter notified sample members that they were selected for this Web survey and encouraged their participation. The notification letter was mailed to 38,072 sample members on July 12, 2004.

The first reminder informed sample members of the live Web survey date and requested participation. For this mailing, a reminder letter and brochure were inserted into a #10 window envelope. The first reminder letter was mailed to 38,092 sample members on July 21, 2004.

A second reminder letter was sent to 34,648 sample members. The mailing was sent out August 4, 2004. The letter, inserted into a #10 window envelope, thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

A third reminder letter was sent to 28,845 sample members. The mailing was sent out August 17, 2004. The letter, inserted into a #10 window envelope, thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

Table 6.
Mailing Timeline and Return Results

Mailing Numbers and Groups	Print File Creation Date*	Mail Drop Date	Number Sent	Number of PNDs
Notification Domestic	6/30/04	7/12/04	37,976	6,361
Notification Foreign	7/1/04	7/12/04	96	48
Subtotal: Notification			38,072	6,409
Reminder Domestic	7/13/04	7/21/04	37,996	5,874

Subtotal: Reminder 3			30,920	1,384

*Print file creation date: This is the date records were identified for inclusion in the mailing and written to a print file.

E-mail was used to communicate with sample members. There were four sources for e-mails. First, each sample member had the opportunity to provide up to two personal e-mail addresses on the survey Internet site prior to start of the survey. The second source for e-mail addresses was the DEERS database. The third source was e-mail addresses generated for the Air Force members from the algorithm used by the Air Force for e-mail creation. The fourth source were e-mail addresses purchased from an outside vendor (N=2,605). The outside vendor maintains a customer database of e-mail addresses that has been lawfully collected and compiled from consumers pursuant to a notice that advised them that their personal data was being collected. Table 7 below shows the percent of sample members for whom we had at least one valid e-mail by Service.

Table 7.
E-mail Address Availability by Service

	Army	Navy	Marine Corps	Air Force	Total
Valid address available	63%	35%	20%	75%	45%
No valid address available	37%	65%	80%	25%	55%

At the start of the survey, sample members with e-mail addresses received an announcement which informed them the survey was active and ready for completion. An additional six e-mail reminders were sent throughout the survey field period. Table 8 lists the e-mail dates and e-mail addresses bounced. E-mail addresses “bounced” identifies sampled individuals that supplied an e-mail address but the address was invalid at the time DMDC attempted contact. This is analogous to a postal PND. E-mail address “sent” is not the same as e-mail received. It is analogous to the non-PND return experienced during a mailed survey. It is not known if the mail was delivered to the intended individual, only that it was not returned.

Table 8.
E-mail Communication Timeline

E-mail Numbers	E-mail Drop Date	Number Sent	Number Bounced
Announcement	7/26/04	22,468	5,998
Reminder 1	7/30/04	13,884	885
Reminder 2	8/5/04	11,017	172
Reminder 3	8/11/04	9,611	154
Reminder 4	8/17/04	8,785	152
Reminder 5	8/23/04	8,035	125
Reminder 6	8/27/04	7,514	75

Processing Returned Surveys

Once a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copied the indexed file to their internal network using FTP protocol.

The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

DMDC Coding Scheme

To convert the raw data into the item scores that appear in the public-release data file, DMDC provided the operations contractor with the coding notes (contained in Appendix D) and an annotated copy of the survey form (Appendix C). Every attempt is made to capture all information from completed surveys and preserve the data so that secondary analysts can later create variables that were not anticipated by DMDC researchers. To accomplish these goals,

DMDC subscribes to a variety of coding conventions for all of its surveys. See Appendix D for in-depth coverage of these coding conventions.

DMDC uses “forward” coding when coding inconsistent answers in items with skip patterns. Data on the starting question accepted as marked and data for the items within the skip pattern are edited to be consistent with the starting question. However, an unedited version of each item is preserved in a confidential dataset. By preserving the unedited data, recoding can be done if ever required.

Coding or Keying Open-Ended Items

The Web survey contained nine open-ended items. The original text responses from the six “other specify” response options were captured verbatim into a SAS[®] data set that is linked by the unique identification to the survey data. Text data in the SAS[®] files for open-ended items were spell-checked, and profanity, proper names, and locations were replaced with “(expletive),” “(name),” and “(location)” respectively.

For all open-ended items, the Web data file contains a flag indicating whether the respondent wrote anything in response to the item. Discrepancies existed where the Web data indicated presence of a comment but no comment was there.

Fifty-record Check

After receiving the first 50 returned records, the operations contractor ran a “50-record check.” DMDC checked the resulting data to determine if there were any unanticipated problems in the coding procedures (e.g., respondents were consistently answering in an unexpected manner). Minor corrections to these procedures were necessary as a result of this check and were reviewed by DMDC prior to production of the initial SAS[®] dataset. At the completion of the 50-record check, the operations contractor compiled the full set of returned surveys. The data were then cleaned and edited.

Survey Analysis Files

This section (a) provides an overview of requirements for analysis of the data, (b) documents the structure of survey analysis files created for the August 2004 survey, (c) describes the assembly of the analysis files, and (d) provides an overview of the variables in the survey analysis files.

Estimation

Data were collected from a non-proportional stratified, single stage random sample. Responses were weighted up to population totals adjusting for differential sampling and response rates in demographically homogenous groups. In general, the procedures used to compute sample estimates of population parameters (including population totals, means, proportions), tests of hypotheses, regression relations, and their associated variances are derived from the probability structure that gives rise to the observations. As with other surveys involving

complex probability structures, most of the parameter estimates of interest in this survey take the form of non-linear statistics. Examples include domain means and proportions where the denominator values are unknown and must be estimated from the sample data. The estimator takes the form of a ratio of random variables (i.e., the ratio of the estimated numerator and denominator totals or counts). In general, ratio estimates are not unbiased and their variances cannot be expressed in closed form. The variances are, therefore, approximated. The bias in a ratio estimate depends on the variance associated with the denominator total or count and can usually be ignored in samples having a large number of observations. As a working rule, the bias may be assumed negligible if the number of observations on which the estimate is based exceeds 30 or is otherwise large enough so that the coefficient of variation $[SE(x)/x]$ of the denominator is less than .10 (cf., Cochran, 1977, pp. 153-165).

Approximations for the variances commonly take the form of Taylor series linearizations or replicate methods such as those based on resampling methods. Variables have been included in the analyses files so that variance estimates can be based on Taylor series linearizations computed by SUDAAN⁷ for a stratified, without replacement design.

Many of the standard statistical software packages, such as SPSS⁸ and older versions of SAS,⁹ do not properly compute variance estimates from weighted data that were collected with a design other than simple random sampling. Variables have been included in the analysis file so that Taylor series estimates can be made with SAS PROC SURVEYMEAN and PROC SURVEYREG.

Analyzing the dataset with the proper use of the appropriate eligibility indicator (ELIGFLGW) and analysis weight (FINALWGT) in standard statistical programs will result in accurate point estimates but will not result in accurate variance estimates. Wolter (1985) provides a detailed discussion on methods used for variance estimation from sample surveys including replication, Taylor series approximation, and analytic methods.

Data Structure

Care was taken in the preparation of the survey analysis files to provide public access to data from the survey with sufficient information for accurate estimations, while meeting requirements for participant and non-participant anonymity. As described below, some detailed variables have been deleted from the public-release files either because (a) they are typically needed only to analyze survey methods and not needed to analyze the survey data or (b) they provide too great a chance of identifying an individual. For the latter reason, some demographic variables are available on public files only in a collapsed version.

In addition to a public-release file, a confidential file (containing a more complete set of variables than the public-release file) has been prepared for internal DMDC use. Files were

⁷ SUDAAN® is a registered trademark of Research Triangle Institute, Research Triangle Park, NC, USA.

⁸ SPSS® is a registered trademark of SPSS Inc., Chicago, IL, USA.

⁹ SAS added survey procedures in Version 7, expanding them in releases 8.0 and higher.

prepared as SAS and SPSS system files. An ASCII (Operating System or OS) flat file was prepared from the public-release SAS system file. File names are indicated in Table 9.

Table 9.
Analysis File Names

Type of File	File Name
Public-release File – SAS	SF0408AP.SAS7BDAT
Confidential File – SAS	SF0408AC.SAS7BDAT
Public-release File - SPSS	SF0408AP.POR
Public-release File – OS	SF0408AP.DAT

The structure of the confidential file is shown in Figure 3. The confidential file contains the public-release file plus additional confidential variables.

All variables in the confidential file are documented in this report. Appendices E and F list all variables with a notation to indicate which variables are confidential, and show where each variable is documented. Intermediate weighting variables that appear only in the confidential file are documented by Riemer and Kroeger (2003). Variables that appear in collapsed form in the public-release part of the file and in a fuller version only in the confidential file are discussed later.

Analyses

Both the confidential file and public-release file contain 38,112 records, one for every sampled individual. As depicted in Figure 3, these records can be divided into 3 subgroups. The *Nonrespondents* subgroup, includes all records indicated by ELIGFLGW=3, where no usable Web response was received or no information was received to indicate ineligibility (n=18,356).

Assignment of a record to the other two subgroups was based on whether (a) an individual returned a “completed” survey; and (b) the person was eligible to be included in the population of interest. Final eligibility was limited to those in the December 2003 Active Duty Master File (ADMF) and who were also in the February 2004 DEERS Medical PIT extract and did not contact the operations contractor to indicate that they were ineligible.

Records required for analyses are those in the *Known Ineligibles* and *Eligible Respondents* subgroups. Both the *Eligible Respondents* (ELIGFLGW=1) and *Known Ineligibles* (ELIGFLGW=2) are included because both types of records were used to develop weights that sum to the population total, and both types of records are needed to compute accurate variance estimates by the Taylor series linearization method implemented by SUDAAN and SAS PROC SURVEYMEANS.

To analyze the Web responses use the analytic weight, FINALWGT, with the file subset by ELIGFLGW.

Figure 3.
The Structure of the Confidential File

Subgroups	Public-release File	Confidential and Detailed Methodological Variables	Web Eligibility Flag Value and Number of Records
Nonrespondents			ELIGFLGW=3 n= 18,356
Known Ineligible			ELIGFLGW=2 n=253
Eligible Respondents			ELIGFLGW=1 n= 13,396

Note. The shaded portion represents the subset of the data typically required for analysis.

Variables in the Survey Analysis Files

Public-release File

The variables in the public-release file fall into five categories: (1) derived from survey responses, (2) created by the operations contractor to document survey operations, (3) created to analyze the weighted dataset, (4) created by DMDC for analysis, and (5) extracted from administrative personnel records. Variables are grouped in these categories in Appendix F.

Information gathered on the survey. These variables came directly from the survey or were constructed using only information from the survey. There is at least one variable for every item in the survey except for a few items that had to be removed to preserve confidentiality. The annotated questionnaire (see Appendix C) contains the item names, the values used to code the pre-specified alternatives, and references to applicable coding notes in Appendix D. Although the first part of Appendix D extensively documents the conventions that DMDC uses to name survey variables, a brief overview of the naming convention is also given here. In general, the survey-derived variables can be classified as variables that begin with either “AF,” “SR,” or “X.”

The naming of “AF” variables is reviewed using the example variable, “AF052A.” For the *August 2004 Status of Forces Survey of Active-Duty Members*, variables names begin with “AF” to denote the population (active duty) and the version of survey (sixth active-duty Web survey) in this series. The ending three or more numbers or letters correspond to the questionnaire item. In this example, the third through fifth digits indicate the main question number (052A) and the sixth digit (if any) indicate the sub-question item, such as (in this example) item A from a list of items in question 52. When possible, “X” is reserved to create special crossing (marginal) variables for key analyses. “X” variables typically involve imputation for missing data and, like “SR” variables, are intended to be consistent across DMDC surveys.

There are some variables in the dataset that are not labeled “AF” although they are survey variables. These variables are named unconventionally due to the expectation that they will reoccur in future surveys. This process aids in future analysis needs. For example, “SATOVER” is the variable name for the item that asks sample members how satisfied they are with the military way of life. This question will be asked in future surveys.

The “SR” variables are a set of primarily demographic items that are identically named across all DMDC surveys. The “SR” serves as a mnemonic for self-report with the remainder of the name indicating the data being collected. For example, “SRRACE” is the variable name for the item that asks sample members what race they consider themselves to be. Although all survey data are self-reported, the “SR” is used to distinguish survey-reported information from DMDC-provided information (e.g., “SRRACE” from the survey versus “RACE” from DMDC databases).

Variables constructed for analysis. Certain demographic variables, including some information collected on the survey, had to be censored to preserve the anonymity promised to survey respondents and nonrespondents. For example, FUER is a recoding of FUE. An “R” as the last letter of a variable listed in Appendices E and F is an indication that the variables may have been recoded to create special analysis variables and that the original variable is available only on the confidential analysis file.

Certain key demographic variables were constructed for DMDC analyses. These analytic variables, starting with “X,” are based primarily on self-reported information from the survey. Typically, where the self-reported information was missing on important demographics (e.g., Service, paygrade, location, respondent gender, education, race or ethnicity, family or marital status) data were imputed from member’s administrative record.

The race and ethnicity questions were combined to be reported in accordance with the Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (1997). Also, items were combined to derive spouse employment indicators based on U.S. Census Bureau’s Decennial Census and Current Population Survey (2002).

Appendix I documents many of the decisions made in the analyses reported by DMDC (2004). For a large number of survey items, analysts must make decisions on the treatment of special codes used to indicate inconsistencies in the survey data, especially on respondent failures to follow skip pattern directions.

Information on operations. The DMDC-provided identification number, SOFA0408, is unique and is used to identify responses as they are processed. Other variables are created by the operations contractor but are too detailed to be in the public-release file.

Information from sampling and record data. Most of the variables used in sample design and selection are too detailed to be in the public-release file (see the later section on confidential variables).

Information on weighting. Derivation of weights is discussed in detail in Riemer and Kroeger (2003). See Appendix J for examples of analyses using these variables:¹⁰

ELIGFLGW	Web-Only: Eligibility Flag
FINALWGT	Web-Only: Final Weight with Non-response and Postratification Adjustments
V_STRAT	Variance Estimation Strata
TOTAL	Weighting Class Strata Totals Based on Sampling Frame Counts

Confidential File

In addition to variables on the public-release file, the confidential file also has five additional categories of variables: (1) the uncensored version of survey items that appear in a collapsed form in the public-release section, (2) the uncensored version of key demographic variables used in analyses that appear in a collapsed form in the public-release section; (3) detailed variables created by the operations contractor to document operations, (4) detailed variables used in sampling, and (5) detailed variables used in weighting. Variables are grouped in these categories in Appendices E and F.

Confidential variables—survey data. This section of the confidential file contains the original full version of survey variables that had to be recoded for the public-release file to preserve confidentiality. To the extent possible, recoded versions of these variables are in the public-release file section for variables constructed for analysis.

Confidential variables—analysis data. This section of the confidential file contains the original full version of analytic variables constructed by DMDC. To the extent possible, recoded versions of these variables are in the public-release file section for variables constructed for analysis.

Confidential variables—operations data. This section of the confidential file contains operational variables created by the operations contractor. These variables are useful for methodological studies and/or were used in determining eligibility and response status.

The identifying variables describe how the record was processed once a survey was returned. The variables BATCH, SERIAL, and LITHO uniquely identify each returned survey. LITHO is the lithocode scanned from the survey. BATCH and SERIAL are the codes printed on the survey during scanning to identify the scan batch number and scan order of each survey. These numbers can be used to retrieve the paper copy of a survey for a short time after it has been scanned (e.g., should researchers want to check electronically-stored information against the respondent's answer on the paper survey). SCANDATE is the date the survey was scanned and INRECNO is the unique identification number assigned to each record. MAILING identifies which survey (i.e., the first-, second-, or third-wave mailing) the respondent returned.

¹⁰ Two additional variables required for SUDAAN are on the dataset but not discussed in Appendix J: NPSTRAT, poststratification population counts; and, PSTRATA, poststratification strata.

DUPRET and DUPRET2 indicate the receipt of multiple returns. DUPRET2 includes blank returns in the multiple counts; DUPRET excludes these returns.

The classification variables describe how individual sample member's records were grouped and indexed. FLAG_FIN indicates the final disposition status of a sample member (i.e., survey returned, blank survey returned, not locatable, or no return). Several other classification variables were used to categorize a survey's final disposition. These variables are: BLKREAS, SCSINEL, and REFUSE. BLKREAS codes the reason given by the sample member for returning a blank survey, SCSINEL indicates the reason given by the sample member for being ineligible, and REFUSE indicates whether a sample member refused to complete a survey.

Confidential variables—sampling and record data. This section of the confidential file contains administrative file variables and constructed variables used in determining the sampling design. It also includes the sampling strata identifiers and counts.

Confidential variables—weighting. This section of the confidential file contains variables used in analysis of non-response and in the construction of the weights.

Using Appendix G

Regardless of whether analysts use all or only portions of the database, all analysts should replicate the results found in the tables in Appendix G. It is only by replicating these results that analysts can be sure that they are reading the data correctly. An annotated example of an Appendix G table is listed in Figure 4. (However, table does not reflect actual results.)

Figure 4.
Annotated Example of a Table from Appendix G

¹August 2004 STATUS OF FORCES SURVEY OF ACTIVE DUTY MEMBERS

Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?

¹²PERCENT TOTAL DOES NOT = 100 DUE TO ROUNDING ERROR.

¹³G-2

1. Codebook title and item text. The codebook title is the same for every table in Appendix G of this codebook. It lists both the general study and the specific survey form being summarized. If applicable, the indented text under the title presents the verbatim question or instructions that accompany a specific item in the survey.

2. Variable name. The variable name for a survey item is up to eight characters in length and corresponds to the variable name that is used in the SAS[®]-based, public-release data file. The conventions for naming survey-derived variables are documented in Appendix D. Appendix F contains a full listing of the public-release file variables, as well as short descriptions of what the variables document.

3. Survey item text. For survey items, this text is the verbatim item wording. For other variables, this text provides a verbal description of the variable.

4. Location of the item on the OS data file. This block provides the location of the variable on the OS (ASCII) data file. The OS data block documents (a) the starting and ending column numbers where the data are stored and (b) the number of columns that the data occupy.

5. SAS[®] data file information. This block indicates format name, variable type, length and informat of the data in the SAS[®] data file. The last block indicates the informat appropriate for reading the data from the OS data file.

6. Counts of item value responses. This column indicates the number of sample members who fall into the category corresponding to each value for the variable. The count provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 38,112 records in the accompanying database. Before running complex statistical analyses, analysts are encouraged to re-create these frequency tables. Re-creating the counts minimally ensures that the data are being correctly read by the analysts' computers and programs.

7. Respondent percentages for each value. This column indicates the percentage of sample members who marked each variable value. The percentages are calculated by dividing the row value in the "FREQ" column by the total listed at the bottom of the "FREQ" column. The percentages provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 38,112 records in the accompanying database.

8. Response OS values. This column presents the OS (ASCII) code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form or in Appendix D. For example, all negative values are found in Appendix D.

9. Response SAS® values. This column presents the SAS® code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form or in Appendix D. Negative values are found in Appendix D.

10. Explanation of the item value codes. This column presents brief verbal explanations of the OS and SAS® coding for each survey item. If the coded information corresponds to survey response alternatives, the text in the table is the verbatim response from the survey instrument. More detailed explanations are found in either the annotated survey form or in Appendix D.

11. Total of response frequencies and percents. The number appearing at the bottom of the “FREQ” column is the total number of sample members in the public-release file. This number is the same for every table in this codebook. That is, every sample member in the database is accounted for on every variable even if the variable indicates only that the information was missing for that sample member. The number appearing at the bottom of the “PERCENT” column is typically 100.0. Rounding error, however, occasionally causes the total percentage to be slightly above or below 100.0.

12. Messages to analysts. The messages alert analysts to situations specific to a variable including (a) rounding errors resulting in a total percentage other than 100 percent; (b) the variable having values that are “too numerous to list;” (c) extraction of the variable from another specified database; (d) creation of the variable from two or more variables specified in the message; and (e) further clarification of the survey item corresponding to the variable.

13. Codebook page number. This is the Appendix G page number corresponding to a specific variable. Appendix F identifies the page number in Appendix G where the variable can be found.

Members (SOFA0408)

August 2004 Status of Forces Survey of Active-Duty Members
ELIGIBILITY

1. In what Service were you on active duty on July 26, 2004?

- ☐ Army
- ☐ Navy
- ☐ Marine Corps
- ☐ Air Force
- ☐ None, you were separated or retired

***** Page Break *****

BACKGROUND INFORMATION

2. Are you...?

- ☐ Male
- ☐ Female

***** Page Break *****

BACKGROUND INFORMATION

3. What is your current paygrade? *Mark one.*

☐ E-1	☐ E-6	☐ W-2	☐ O-2/O-2E
☐ E-2	☐ E-7	☐ W-3	☐ O-3/O-3E
☐ E-3	☐ E-8	☐ W-4	☐ O-4
☐ E-4	☐ E-9	☐ W-5	☐ O-5
☐ E-5	☐ W-1	☐ O-1/O-1E	☐ O-6 or above

***** Page Break *****

BACKGROUND INFORMATION

4. What is your marital status?

- ☐ Married
- ☐ Separated
- ☐ Divorced
- ☐ Widowed
- ☐ Never married

***** Page Break *****

BACKGROUND INFORMATION

5. How many years have you been in a relationship with your current significant other (that is, girlfriend or boyfriend)?

- ☐ Does not apply, I do not have a girlfriend/boyfriend
- ☐ Less than 1 year
- ☐ 1 year to less than 6 years
- ☐ 6 years to less than 10 years
- ☐ 10 years or more

***** Page Break *****

BACKGROUND INFORMATION

In the following section, you will be asked question(s) about your spouses's employment status in enough detail to ensure comparability with national employment surveys.

6. Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

7. Is your spouse currently serving as a member of the National Guard or Reserve in a full-time active duty program (AGR, TAR, AR)?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

8. Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, IMA, IRR, military technician)?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

9. Last week, did your spouse do any work for pay or profit? Mark "Yes" even if your spouse worked only one hour, or helped without pay in a family business or farm for 15 hours or more.

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

10. Last week, was your spouse temporarily absent from a job or business?

- ☐ Yes, on vacation, temporary illness, labor dispute, etc.
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

11. Has your spouse been looking for work during the last 4 weeks?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

12. Last week, could your spouse have started a job if offered one, or returned to work if recalled?

- ☐ Yes, could have gone to work
- ☐ No, because of his/her temporary illness
- ☐ No, because of all other reasons (e.g., in school, etc.)

***** Page Break *****

BACKGROUND INFORMATION

13. What is the highest degree or level of school that you have completed? Mark the one answer that describes the highest grade or degree that you have completed.

- ☐ 12 years or less of school (no diploma)
- ☐ High school graduate--high school diploma or equivalent (e.g., GED)
- ☐ Some college credit, but less than 1 year
- ☐ 1 or more years of college, no degree
- ☐ Associate's degree (e.g., AA, AS)
- ☐ Bachelor's degree (e.g., BA, AB, BS)
- ☐ Master's, doctoral, or professional school degree (e.g., MA, MS, MEng, MBA, MSW, PhD, MD, JD,

DVM)

***** Page Break *****

BACKGROUND INFORMATION

For the next questions, the definition of "child or children" or "other legal dependents" includes anyone in your family, except your spouse, who has or is eligible to have a Uniformed Services identification card (military ID card) or is eligible for military health care benefits and is enrolled in the Defense Enrollment Eligibility Reporting System (DEERS).

14. Do you have a child, children, or other legal dependents based on the definition above?

- ☐ Yes
☐ No

***** Page Break *****

BACKGROUND INFORMATION

15. How many children or other legal dependents do you have in each age group? *Mark one answer in each row. To indicate none, select "0." To indicate nine or more, select "9."*

	0	1	2	3	4	5	6	7	8	9
a. 12 years or younger	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
b. 13 - 22 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
c. 23 years or older	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐

***** Page Break *****

BACKGROUND INFORMATION

16. Are you Spanish/Hispanic/Latino?

- ☐ No, not Spanish/Hispanic/Latino
☐ Yes, Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, or other Spanish/Hispanic/Latino

***** Page Break *****

BACKGROUND INFORMATION

17. What is your race? *Mark one or more races to indicate what you consider yourself to be.*

- ☐ White
☐ Black or African American
☐ American Indian or Alaska Native

- ☐ Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
- ☐ Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian or Chamorro)

***** Page Break *****

BACKGROUND INFORMATION

18. Where is your permanent duty station located?

- ☐ In one of the 50 states, DC, Puerto Rico, a U.S. territory or possession
- ☐ Europe (e.g., Bosnia-Herzegovina, Germany, Italy, Serbia, United Kingdom)
- ☐ Former Soviet Union (e.g., Russia, Tajikistan, Uzbekistan)
- ☐ East Asia and Pacific (e.g., Australia, Japan, Korea)
- ☐ North Africa, Near East or South Asia (e.g., Bahrain, Diego Garcia, Kuwait, Saudi Arabia)
- ☐ Sub-Saharan Africa (e.g., Kenya, South Africa)
- ☐ Western Hemisphere (e.g., Cuba, Honduras, Peru)
- ☐ Other or not sure

***** Page Break *****

BACKGROUND INFORMATION

Please select from the list below your permanent duty station location within one of the 50 states, DC, Puerto Rico, and a U.S. territory or possession.

***** Page Break *****

BACKGROUND INFORMATION

Please enter the name of the country or installation.

***** Page Break *****

BACKGROUND INFORMATION

19. Where do you live at your permanent duty station?

- ☐ Aboard ship
- ☐ Barracks/dorm/BEQ/UEPH/BOQ/UOPH military facility
- ☐ Military family housing, on base

- ☐ Military family housing, off base
- ☐ Privatized military housing that you rent on base
- ☐ Privatized military housing that you rent off base
- ☐ Civilian housing that you own or pay mortgage on
- ☐ Civilian housing that you rent
- ☐ Other

***** Page Break *****

BACKGROUND INFORMATION

Please specify where you live at your permanent duty station.

SATISFACTION AND RETENTION INTENTION

20. Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?

	Very satisfied	Satisfied	Neither satisfied nor dissatisfied	Dissatisfied	Very dissatisfied
a. Your total compensation (i.e., base pay, allowances, and bonuses)	☐	☐	☐	☐	☐
b. The type of work you do in your military job	☐	☐	☐	☐	☐
c. Your opportunities for promotion	☐	☐	☐	☐	☐
d. The quality of your coworkers	☐	☐	☐	☐	☐
e. The quality of your supervisor	☐	☐	☐	☐	☐

***** Page Break *****

SATISFACTION AND RETENTION INTENTION

21. Overall, how satisfied are you with the military way of life?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

***** Page Break *****

SATISFACTION AND RETENTION INTENTION

22. How many years of active-duty service have you completed (including enlisted, warrant officer, and commissioned officer time)? *To indicate less than 1 year, enter "0". To indicate 35 years or more, enter "35".*

***** Page Break *****

SATISFACTION AND RETENTION INTENTION

23. Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?

- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely
- ☐ Unlikely
- ☐ Very unlikely

***** Page Break *****

SATISFACTION AND RETENTION INTENTION

24. Does your spouse or significant other think you should stay on or leave active duty?

- ☐ Strongly favors staying
- ☐ Somewhat favors staying
- ☐ Has no opinion one way or the other
- ☐ Somewhat favors leaving
- ☐ Strongly favors leaving

***** Page Break *****

SATISFACTION AND RETENTION INTENTION

25. Does your family think you should stay on or leave active duty?

- ☐ Strongly favors staying
- ☐ Somewhat favors staying
- ☐ Has no opinion one way or the other
- ☐ Somewhat favors leaving
- ☐ Strongly favors leaving

***** Page Break *****

TEMPO, READINESS, AND STRESS

26. Have you ever PCSed?

- ☐ Yes
☐ No

***** Page Break *****

TEMPO, READINESS, AND STRESS

27. How many months has it been since your last PCS? *To indicate less than 1 month, enter "0". To indicate more than 99 months, enter "99".*

***** Page Break *****

TEMPO, READINESS, AND STRESS

28. In the past 12 months, how many times have you had to work longer than your normal duty day (i.e., overtime)? *To indicate none, enter "0".*

***** Page Break *****

TEMPO, READINESS, AND STRESS

29. In the past 12 months, how many nights have you been away from your permanent duty station because of your military duties? *To indicate none, enter "0".*

***** Page Break *****

TEMPO, READINESS, AND STRESS

30. Are you currently on a deployment of 30 days or more?

- ☐ Yes
☐ No

***** Page Break *****

TEMPO, READINESS, AND STRESS

31. Where are you currently deployed?

- ☐ In one of the 50 states, DC, Puerto Rico, a U.S. territory or possession
- ☐ Afghanistan
- ☐ Iraq
- ☐ Other North Africa, Near East or South Asia country (e.g., Bahrain, Diego Garcia, Kuwait, Saudi Arabia)
- ☐ Europe (e.g., Bosnia-Herzegovina, Germany, Italy, Serbia, United Kingdom)
- ☐ Former Soviet Union (e.g., Russia, Tajikistan, Uzbekistan)
- ☐ East Asia and Pacific (e.g., Australia, Japan, Korea)
- ☐ Sub-Saharan Africa (e.g., Kenya, Liberia, South Africa)
- ☐ Western Hemisphere (e.g., Cuba, Honduras, Peru)
- ☐ Other or not sure

GLOBAL WAR ON TERRORISM

47. Were any of your deployments since September 11, 2001 longer than what you expected?

- ☐ Yes
- ☐ No

***** Page Break *****

GLOBAL WAR ON TERRORISM

48. Since September 11, 2001, have you been under stop-loss at any time?

- ☐ Yes
- ☐ No

***** Page Break *****

DETAILED RETENTION

49. In which term of service are you serving now?

- ☐ I am on indefinite status
- ☐ I am on stop loss
- ☐ I am an officer serving an obligation
- ☐ 1st enlistment or an extension of 1st enlistment
- ☐ 2nd or later enlistment including extensions

***** Page Break *****

DETAILED RETENTION

50. How much time remains in your current enlistment term (including extensions) or service obligation?

- ☐ Less than 3 months
- ☐ 3 months to less than 7 months
- ☐ 7 months to less than 1 year
- ☐ 1 year to less than 2 years
- ☐ 2 years to less than 3 years
- ☐ 3 years or more

***** Page Break *****

DETAILED RETENTION

51. At the end of your current enlistment, would the offer of a re-enlistment bonus affect your re-enlistment decision?

- ☐ Does not apply, I will not be eligible to re-enlist (e.g., high year of tenure, age limits)
- ☐ Yes, I would re-enlist if the bonus was big enough
- ☐ No, I would re-enlist with or without a bonus
- ☐ No, I would not re-enlist regardless of the size of the bonus

***** Page Break *****

DETAILED RETENTION

52. Would you be willing to accept an additional 3-year, active-duty service commitment if you were offered a monetary bonus?

- ☐ Does not apply - I will have reached high year of tenure or maximum retirement age in less than 3 years
- ☐ Yes, I would accept a service commitment if the bonus was big enough
- ☐ No, I plan to continue to serve with or without a bonus
- ☐ No, I plan to separate as soon as I am eligible and no bonus would make me change my mind

***** Page Break *****

DETAILED RETENTION

53. What is the minimum re-enlistment bonus that you would accept for an additional 3-year enlistment?

***** Page Break *****

DETAILED RETENTION

54. What is the monetary bonus that you would accept for an additional 3-year active-duty service commitment?

***** Page Break *****

DETAILED RETENTION

55. If you could stay on active duty as long as you want, how likely is it that you would choose to serve in the military for at least 20 years?

- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely
- ☐ Unlikely

- ☐ Very unlikely

***** Page Break *****

DETAILED RETENTION

56. How have the reports of alleged prisoner abuse at Abu Ghraib affected your desire to continue to serve in the military?

- ☐ Greatly increased my desire to serve
- ☐ Increased my desire to serve
- ☐ Neither increased nor decreased my desire to serve
- ☐ Decreased my desire to serve
- ☐ Greatly decreased my desire to serve

***** Page Break *****

DETAILED RETENTION

57. When you finally leave active duty, how many total years of service do you expect to have? To indicate less than one year, enter "0". To indicate thirty-five or more, enter "35".

***** Page Break *****

DETAILED RETENTION

58. Suppose that you have to decide whether to stay on active duty. Which of the following would be the most important factor in this decision? Select one item from the list below.

- ☐ Quality of the work environment based on unit morale, camaraderie, and professionalism
- ☐ Quality of leadership
- ☐ Choice of jobs
- ☐ Level of challenge in your job
- ☐ Sense of accomplishment from doing your job
- ☐ Opportunities to be assigned to station of choice
- ☐ Availability and quality of government-issued equipment to do your job
- ☐ Rotational assignments
- ☐ Level of integrity in your unit
- ☐ Amount of personal and family time you have
- ☐ Amount of time you spend away from your home station (e.g., deployments, field training exercises)
- ☐ Job security
- ☐ Opportunities for career advancement
- ☐ Opportunities for training and professional development
- ☐ Opportunity for retraining

- ☐ Opportunities for stabilized tours (i.e., more time between PCS moves)
- ☐ Annual leave
- ☐ Dental insurance for your family
- ☐ Service Members Group Life Insurance (SGLI)
- ☐ Emergency relief societies (e.g., Air Force Aid Society, Army Emergency Relief, Navy Marine Corps Relief)
- ☐ Off-duty educational opportunities
- ☐ Opportunities to travel
- ☐ Space available travel
- ☐ Thrift savings plan
- ☐ Pride in serving your country
- ☐ Military values, lifestyle, and tradition
- ☐ Other non-monetary incentives

***** Page Break *****

MEMBER'S HEALTH

86. During the past 30 days, on how many days did you drink alcohol?

- ☐ 28 to 30 days (about every day)
- ☐ 20 to 27 days (about 5 to 6 days a week on average)
- ☐ 11 to 19 days (3 to 4 days a week on average)
- ☐ 4 to 10 days (1 to 2 days a week on average)
- ☐ 2 to 3 days
- ☐ Once
- ☐ Did not drink any alcohol in the past 30 days

***** Page Break *****

MEMBER'S HEALTH

87. When you drank alcohol in the past 30 days, about how many drinks did you typically have? (By "drink," we mean a bottle or can of beer, a wine cooler or glass of wine, a shot of liquor, or a mixed drink or cocktail.)

- ☐ 10 or more drinks
- ☐ 8 to 9 drinks
- ☐ 6 to 7 drinks
- ☐ 5 drinks
- ☐ 4 drinks

- ☐
- ☐ 2 to 3 drinks
- ☐ 1 drink
- ☐ Less than 1 drink

***** Page Break *****

MEMBER'S HEALTH

88. During the past 30 days, on how many days did you have 5 or more drinks of beer, wine, or liquor on the same occasion? (By "drink," we mean a bottle or can of beer, a wine cooler or a glass of wine, a shot of liquor, or a mixed drink or cocktail. By "occasion," we mean at the same time or within a couple of hours of each other.)

- ☐ 28 to 30 days (about every day)
- ☐ 20 to 27 days (about 5 to 6 days a week on average)
- ☐ 11 to 19 days (3 to 4 days a week on average)
- ☐ 4 to 10 days (1 to 2 days a week on average)
- ☐ 2 to 3 days
- ☐ Once
- ☐ Never

***** Page Break *****

MEMBER'S HEALTH

89. During the past 30 days, on how many days did you have 4 or more drinks of beer, wine, or liquor on the same occasion? (By "drink," we mean a bottle or can of beer, a wine cooler or a glass of wine, a shot of liquor, or a mixed drink or cocktail. By "occasion," we mean at the same time or within a couple of hours of each other.)

- ☐ 28 to 30 days (about every day)
- ☐ 20 to 27 days (about 5 to 6 days a week on average)
- ☐ 11 to 19 days (3 to 4 days a week on average)
- ☐ 4 to 10 days (1 to 2 days a week on average)
- ☐ 2 to 3 days
- ☐ Once
- ☐ Never

***** Page Break *****

MEMBER'S HEALTH

90. Think about the past 30 days. How many cigarettes did you usually smoke on a typical day?

- ☐ About 3 or more packs a day (more than 55 cigarettes)
- ☐ About 2 ½ packs a day (46-55 cigarettes)

- ☐ About 2 packs a day (36-45 cigarettes)
- ☐ About 1 ½ packs a day (26-35 cigarettes)
- ☐ About 1 pack a day (16-25 cigarettes)
- ☐ About ½ pack a day (6-15 cigarettes)
- ☐ 1-5 cigarettes a day
- ☐ Less than 1 cigarette a day, on the average
- ☐ Did not smoke any cigarettes in the past 30 days

***** Page Break *****

MEMBER'S HEALTH

91. During the past 30 days, on average how often have you used chewing tobacco, snuff, or other smokeless tobacco?

- ☐ About every day
- ☐ 5-6 days a week
- ☐ 3-4 days a week
- ☐ 1-2 days a week
- ☐ 1-3 days in the past 30 days
- ☐ Did not use any in the past 30 days
- ☐ Never used smokeless tobacco

***** Page Break *****

MEMBER'S HEALTH

92. During the past 30 days, how many days did you run, jog, bicycle or walk briskly or hike for 20 minutes or more?

***** Page Break *****

MEMBER'S HEALTH

During the past 30 days, how many days did you engage in 20 minutes or more in other strenuous physical activity (e.g., handball, soccer, racquet sports, swimming laps)?

Survey Cover Letters and Brochure

PERSONNEL AND
READINESS

UNDER SECRETARY OF DEFENSE
4000 DEFENSE PENTAGON
WASHINGTON, D.C. 20301-4000

July 21, 2004

*****5-DIGIT SCH 76542
SFC LINDSEY SAMPLE USA 05038205
123 SMITH STREET
ANYTOWN PR 76542-3954

|||||

Dear Sergeant Sample:

We recently mailed you a letter asking you to participate in the *August 2004 Status of Forces Survey of Active-Duty Members*. The survey will be available at the Web site below about July 26, 2004. To take the survey, you need to log onto the following Web site:

<http://dodsurvey.osd.mil>

To access the survey, you will need to enter the following **Ticket Number: NXXXXXXX**

The survey should take 30 minutes or less to complete. Please keep in mind, these surveys are *Official Business* and that they can be completed at your duty station using government equipment. You can also complete the survey at home or elsewhere.

Your participation in this survey effort is important. You were scientifically selected, as part of a small group of people, to participate in this survey. Therefore, your answers will represent the views of many others like yourself. This is your opportunity to inform policy officials of your opinions on various issues related to your compensation and family life. Be assured your responses will be kept completely confidential. Only group statistics will be compiled and reported. No information about you as an individual will be used.

If you cannot access the Web or experience any other problem with the survey, please e-mail ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free, at 1-800-881-5307.

Your time and cooperation in this very important effort are greatly appreciated. The enclosed brochure provides additional information on this effort.

Sincerely,

David S. C. Chu
Under Secretary of Defense
(Personnel and Readiness)

P.S. for families: We need to hear from all members, even those deployed or away for other reasons. If possible, please forward this message to your military family member.

August 4, 2004

Dear Lance Corporal Sample:

Recently you were asked to participate in the *August 2004 Status of Forces Survey of Active-Duty Members*. If you have already completed the survey, I want to thank you for taking the time to do so.

If you have not had a chance to complete the survey or were thinking about not participating, I would like to ask you to reconsider. Your participation is crucial and I appreciate you taking time to complete the survey—this really is your chance to express your views on personnel issues.

If you have not done so already, please take the survey by logging onto the following Web site:

<http://dodsurvey.osd.mil>

At the Web site, you will need to enter your **Ticket Number: NXXXXXXX**

If you cannot take the survey now, please ensure you take the survey soon. The survey should take 30 minutes or less to complete. The survey will only be available on the Web site for a couple more weeks, so please make every effort to complete the survey soon. Since these surveys are *Official Business*, you can use the computer equipment at your duty station to complete the survey. If you have any questions, please e-mail ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free, at 1-800-881-5307.

Your time and cooperation in this very important effort are greatly appreciated.

Sincerely,

Sincerely,
David W. C. Chan

David S. C. Chu
Under Secretary of Defense
(Personnel and Readiness)

P.S. for families: We need to hear from all members, even those deployed or away for other reasons. If possible, please forward this message to your military family member.

August 17, 2004

Dear Lance Corporal Sample:

I cannot emphasize enough how important surveys are to the Department. Surveys are the only systematic way we have for finding out how you and your fellow Service members feel about important topics such as compensation and family life. I want to assure you that the time you take to complete surveys is not wasted—this really is your chance to be heard. My staff and I are personally briefed on the results of these surveys. We use this information to shape policies and programs that directly affect you.

<http://dodsurvey.osd.mil>

Please ensure you take the survey very soon. The survey will only be available on the Web site until August 30, 2004. Since these surveys are *Official Business*, you can use the computer equipment at your duty station to complete the survey.

Your time and cooperation in this important effort are greatly appreciated.

Sincerely,
David W. C. Chan

David S. C. Chu
Under Secretary of Defense
(Personnel and Readiness)

05078868

WILL MY ANSWERS BE KEPT PRIVATE?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- Only group statistics will be reported. Individual data will not be reported.

PRIVACY ACT STATEMENT FOR STATUS OF FORCES SURVEYS

In accordance with the Privacy Act, this notice informs you of the purpose of the Status of Forces Surveys and how the findings of these surveys will be used. Please read it carefully.

AUTHORITY: 10 United States Code, Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in these surveys will be used to report attitudes and perceptions about personnel programs and policies. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Office of the Secretary of Defense, each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. In no case will the data be reported or used for identifiable individual(s).

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. There is no penalty if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by persons engaged in, and for purposes of, the survey research.

Status of Forces Surveys

Office of the Under Secretary of Defense
(Personnel & Readiness)
Defense Manpower Data Center

1600 Wilson Blvd., Suite 400
Arlington, VA 22209-2593
www.dmdc.osd.mil

STATUS OF FORCES SURVEYS (SOFs) PROGRAM

- The Department of Defense (DoD) has developed a *Human Resources Strategic Plan (HRSP)*.
- The Under Secretary of Defense for Personnel and Readiness directed the development of short, Web-based surveys because input from Service members, civilians, and family members is essential to the success of HRSP.
- Information from these surveys will be used to improve personnel policies, programs, and practices.

HOW DO I PARTICIPATE?

- You'll need a Ticket Number each time you access the survey Web site.
- You will find a tear-out card with a ticket number below. Please register on-line now, and you will be contacted via e-mail when the survey is ready to take.
- This tear-out card was designed to fit in your wallet. Please remove and save for future use.

STATUS OF FORCES SURVEYS

HOW DID YOU PICK ME?

- We use well-established, scientific procedures to select a sample that represents the Defense community.
- This sampling procedure sets up clusters of people based on combinations of demographic characteristics (e.g., Service, rank).
- You were selected at random from one of these clusters of people.

WHY SHOULD I PARTICIPATE?

- This is your chance to be heard on issues that directly affect you—quality of life, retention, retirement, and satisfaction.
- Your answers on a survey ***make a difference***. For example, results from previous surveys have played an important role in deliberations on pay rate adjustments, cost of living and housing allowances, and morale and recreation programs.

WHY USE THE WEB? WHAT IF I DON'T HAVE A COMPUTER OR ACCESS TO THE INTERNET?

- The survey will only be available on the Web. This helps us provide survey results to senior Defense officials faster.
- These surveys are *Official Business*; therefore, they can be completed at your duty station using government equipment.
- If you don't have a computer or Internet at work/home, many installation and public libraries, as well as education centers, have computers with Internet access that you could use.

WILL I EVER SEE THE RESULTS OF THE SURVEYS?

- Briefings and reports on results from these surveys will be posted on the following Web site: <http://www.dmdc.osd.mil/surveys/>
- When you complete a survey, you can request to be notified by e-mail when results are posted on the Web.

WHAT DOES DMDC DO?

- The Defense Manpower Data Center (DMDC) maintains the largest archive of personnel, manpower, training, and financial data in DoD. These data are used to support the management information needs of the Office of the Secretary of Defense and many offices both within and outside of the Department.
- DMDC operates major programs that affect active duty and Reserve component military members and their families, and DoD civilian employees. Programs include conducting personnel surveys; helping ensure access to military medical facilities; managing the military and civilian ID card issuance program; and assisting with transitions back into the private sector.

Appendix C

Annotated Questionnaire

August 2004 Status of Forces Survey of Active-Duty Members
ELIGIBILITY

SRSVC1

1. In what Service were you on active duty on July 26, 2004?

- 1 ☐ Army
2 ☐ Navy
3 ☐ Marine Corps
4 ☐ Air Force
5 ☐ None, you were separated or retired

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5"

SRSEX

2. Are you...?

- 1 ☐ Male
2 ☐ Female

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5"

SRGRADE

3. What is your current paygrade? Mark one.

<u>1</u> ☐ E-1	<u>6</u> ☐ E-6	<u>12</u> ☐ W-2	<u>22</u> ☐ O-2/O-2E
<u>2</u> ☐ E-2	<u>7</u> ☐ E-7	<u>13</u> ☐ W-3	<u>23</u> ☐ O-3/O-3E
<u>3</u> ☐ E-3	<u>8</u> ☐ E-8	<u>14</u> ☐ W-4	<u>24</u> ☐ O-4
<u>4</u> ☐ E-4	<u>9</u> ☐ E-9	<u>15</u> ☐ W-5	<u>25</u> ☐ O-5
<u>5</u> ☐ E-5	<u>11</u> ☐ W-1	<u>21</u> ☐ O-1/O-1E	<u>26</u> ☐ O-6 or above

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5"

SRMARST

4. What is your marital status?

- 1 ☐ Married
2 ☐ Separated
3 ☐ Divorced
4 ☐ Widowed
5 ☐ Never married

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5" AND (([SRMARST] = "3" OR [SRMARST] = "4") OR [SRMARST] = "5")

MARDISC

5. How many years have you been in a relationship with your current significant other (that is, girlfriend or boyfriend)?

60 ☐ Does not apply, I do not have a girlfriend/boyfriend

1 ☐ Less than 1 year

2 ☐ 1 year to less than 6 years

3 ☐ 6 years to less than 10 years

4 ☐ 10 years or more

BACKGROUND INFORMATION

In the following section, you will be asked question(s) about your spouses's employment status in enough detail to ensure comparability with national employment surveys.

Edit NOT [SRSVC1] = "5" AND ([SRMARST] = "1" OR [SRMARST] = "2")

PRSEMP01

6. Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)?

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5" AND (([SRMARST] = "1" OR [SRMARST] = "2") AND [PRSEMP01] = "1")

PRSEMP02

7. Is your spouse currently serving as a member of the National Guard or Reserve in a full-time active duty program (AGR, TAR, AR)?

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5" AND ((([SRMARST] = "1" OR [SRMARST] = "2") AND [PRSEMP01] = "1") AND [PRSEMP02] = "1")

PRSEMP03

8. Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, IMA, IRR, military technician)?

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5" AND ((([SRMARST] = "1" OR [SRMARST] = "2") AND [PRSEMP01] = "1") AND [PRSEMP02] = "1")

PRCPS01

9. **Last week, did your spouse do any work for pay or profit? Mark "Yes" even if your spouse worked only one hour, or helped without pay in a family business or farm for 15 hours or more.**

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5" AND (((([SRMARST] = "1" OR [SRMARST] = "2") AND [PRSEMP01] = "1") AND [PRSEMP02] = "1") AND [PRCPS01] = "1")

PRCPS02

10. **Last week, was your spouse temporarily absent from a job or business?**

2 ☐ Yes, on vacation, temporary illness, labor dispute, etc.

1 ☐ No

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5" AND (((([SRMARST] = "1" OR [SRMARST] = "2") AND [PRSEMP01] = "1") AND [PRSEMP02] = "1") AND [PRCPS01] = "1") AND [PRCPS02] = "1")

PRCPS03

11. **Has your spouse been looking for work during the last 4 weeks?**

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5" AND (((([SRMARST] = "1" OR [SRMARST] = "2") AND [PRSEMP01] = "1") AND [PRSEMP02] = "1") AND [PRCPS01] = "1") AND [PRCPS02] = "1") AND [PRCPS03] = "2")

PRCPS04

12. **Last week, could your spouse have started a job if offered one, or returned to work if recalled?**

3 ☐ Yes, could have gone to work

2 ☐ No, because of his/her temporary illness

1 ☐ No, because of all other reasons (e.g., in school, etc.)

BACKGROUND INFORMATION

Edit NOT [SRSVC1] = "5"

SRED1

13. **What is the highest degree or level of school that you have completed? Mark the one answer that describes the highest grade or degree that you have completed.**

1 ☐ 12 years or less of school (no diploma)

2 ☐ High school graduate--high school diploma or equivalent (e.g., GED)

3 ☐ Some college credit, but less than 1 year

4 ☐ 1 or more years of college, no degree

5 ☐ Associate's degree (e.g., AA, AS)

- 6 ☐ Bachelor's degree (e.g., BA, AB, BS)
- 7 ☐ Master's, doctoral, or professional school degree (e.g., MA, MS, MEng, MBA, MSW, PhD, MD, JD, DVM)

BACKGROUND INFORMATION

For the next questions, the definition of "child or children" or "other legal dependents" includes anyone in your family, except your spouse, who has or is eligible to have a Uniformed Services identification card (military ID card) or is eligible for military health care benefits and is enrolled in the Defense Enrollment Eligibility Reporting System (DEERS).

[Edit](#) NOT [SRSVC1] = "5"

DEPDNTS

14. Do you have a child, children, or other legal dependents based on the definition above?

- 2 ☐ Yes
- 1 ☐ No

BACKGROUND INFORMATION

DEPDNTA, DEPNTB, DEPNTC

15. How many children or other legal dependents do you have in each age group? *Mark one answer in each row. To indicate none, select "0." To indicate nine or more, select "9."*

0 1 2 3 4 5 6 7 8 9

[Edit](#) NOT [SRSVC1] = "5" AND [DEPDNTS] = "2"

a. 12 years or younger

<u>0</u>	<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>	<u>6</u>	<u>7</u>	<u>8</u>	<u>9</u>

Appendix D

Coding Scheme

APPENDIX D: Coding Scheme for the August 2004 Status of Forces Survey of Active Duty Members

The guiding premise of coding this and other DMDC surveys is that the analysts creating the dataset will not be the only ones analyzing the data. DMDC rarely collects data only for immediate use or to answer one question. Different people, both at DMDC and other organizations (government, academic, and private-sector), analyze DMDC datasets repeatedly over time. Every care is taken in organizing and documenting DMDC surveys so secondary analysts can be reasonably certain they understand both how the data are coded and the limitations of the data. This appendix describes (a) variable naming conventions, (b) how data are captured from the survey instrument, and (c) the edit process to create survey response variables for the analysis file.

Variable Naming

In responding to a customer's request for information, DMDC often uses multiple data sources. Information on a particular topic could be obtained from different surveys or from a survey that has been repeated over a number of years. For example, a customer might be interested in organizational commitment items included in a survey of active duty members in 1999 and in an exit survey in 2000. Conventions discussed below are being used as a means for facilitating such analyses.

Non-survey-derived Variables

Variable names for non-survey-derived variables tend to use acronyms that aid in remembering the meanings of the variables. Two important conventions were used in naming variables.

A variable name from DMDC record files was used only if the data, values, and value labels were identical to those from an official DMDC personnel data file. When data were added to an analysis file unchanged from record data, the same variable name, values, and value labels were used. For example, SERVICE is a field in the ADMF and RCCPDS that indicates the member's service. Since the variable in the survey data file is identical to that in the record data from the month that the sample was drawn, the same variable name and labels were used. In contrast, the variable CSERVICE has slightly different values and value labels, and consequently was given a variable name that is not used in the official records so as not to confuse analysts who work routinely with record data.

Beginning a variable name with "X" indicates it is a special crossing (marginal) variable for key analyses. "X variables" typically involve using record data to impute values for missing data in survey items. X variables may also require collapsing or recoding to missing in order to preserve confidentiality of respondents. (See Appendix I for the programming that was used to compute X variables.)

Survey-derived Variables

Identical demographic items are used across many DMDC surveys. Each time these items are used, common variable names and values are used. The variable names for this group of demographic items start with “SR” (mnemonic for self reported). The following items in this survey fall into this category: SRSEX (for gender), SRED (for education), SRRACEA-E (for race) and SRHISP (for Hispanic ethnicity). COMMENT (for a flag indicating if a comment has been entered) and SRDATE (for the date the survey was completed) are other standard variables across DMDC surveys.

The basic naming conventions are implemented as follows for August 2004 Status of Forces Survey of Active Duty Members:

- The first and second positions are “AF” for the basic variables for items appearing in August 2004 SOFS.
- The third, fourth, and fifth characters after the AF are item numbers in the survey from 001 through 128.
- Letters following the numbers for multi-part items usually represent the sub-item. The exceptions, skip pattern flags (ending in “SK”) and specify flags (ending in a “SP”), are explained later in the section titled, Standard Flag Variables.

Value Coding and Formats

Datasets were prepared as SAS¹ system files. An OS or flat file version of the public release file was then prepared from the SAS system file. This section describes how values were treated in creating the SAS system files and notes any differences in the flat file.

In the SAS system files, variables were declared as numeric unless they contained true alphabetic characters. Although numeric variables can take more storage space, many statistical and logical operations can be done only with variables that are declared as numeric. Values for alphabetic variables were input with \$CHARww. formats to preserve leading, embedded, and trailing blanks.

Raw-Data Encoding Process

When a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copies the indexed file to their internal network. The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

Web data are matched back to sample members by matching the ticket number to INRECNO and subsequently to the respondent. The “other specify” and open-ended comments are collected in a comment file and linked to the Web survey data by ticket number. Because the Web survey does not

¹ SAS is a trademark of the SAS Institute, Inc.

allow multiple or lightly marked responses, there is no need for editing the data. However, all text entries are cleaned and edited to remove identifying information and expletives.

Data cleaning can be thought of as occurring in four coding steps. In practice, these steps may not be strictly linear, nor neatly match the processing steps discussed above. However, they are a convenient framework to understand the meaning of the codes.

1. Each response is coded with one of two types of standard codes: valid response option value (see Coding Annotation of the survey form in Appendix C) or no response (-9).
2. Specify flag variables are created, and codes are assigned to indicate if respondents typed in responses correctly where text boxes were used.
3. Skip flag variables are created, and codes are assigned to indicate if respondents completed the skip pattern correctly. Special codes for valid skips are assigned to variables within skip patterns using a “forward coding” process.
4. Text code variables are created, and codes are assigned based on the content coding of the text entries.

In the coding sequence, coding in the third and later steps builds on prior steps and usually involves values in multiple items to resolve edits.

The next sections discuss the assignment of missing value codes, the special treatment of data variables, and the editing of skip patterns during steps 3 and 4.

Missing Data Codes

The instructions used to assign missing data codes and other special codes are shown in three tables. In these tables, the value labels associated with each assigned code are shown in italicized text. These are the SAS format labels used in the SAS dataset.

- Table D--1 contains basic SAS and flat file missing data codes.
- Table D--2 contains SAS and flat file missing data codes for dates.
- Table D--3 provides detailed coding notes on items involving skip patterns, text boxes or other non-obvious coding.

The codes presented in Table D-1 are general missing data codes that have been adopted in recent years for use on DMDC surveys. (Standards for date variables are in Table D-2.) Both tables have separate columns for values used for SAS system files and flat files. The biggest difference between the flat files and SAS system files is in the treatment of missing values. The flat file codes differ from the SAS codes because SAS implements special missing codes and formats that may not be compatible with other statistical analysis software such as SPSS².

² SPSS is a trademark of SPSS Inc.

Table D-1:
Basic SAS[®] and Flat Missing Data Codes

SAS [®] File		Flat File		Description
Numeric	Alpha	Numeric	Alpha	
.	.	-9	.	<i>No response or missing skip</i>
.O	.O	-7	.O	<i>Out-of-range</i>
.N	.N	-6	.N	<i>Not applicable or valid skip</i>
.F	.F	-5	.F	<i>Variable not on survey form.</i> This value is reserved for multiple-form surveys.
.I	.I	-4	.I	<i>Incomplete grid error</i>
.G	.G	-3	.G	<i>No match on official records.</i> Only used for master file, sampling, and weighting variables for surveys that cannot be matched back to the sample file. Typically used in files of duplicate returns; these returns are not stored in the main or public-use data files.
.B	.B	-1	.B	<i>Blank/no survey.</i> Filler values for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.
99	DK	99	DK	<i>Don't know or Not sure*</i>

*Use of "Don't know" or "Not sure" as a response is not missing data. It is, however, given special treatment because it lacks precision and is *sometimes* excluded when calculating percentages.

Table D-2:
SAS® and Flat File Missing Data Codes for Dates

SAS® File		Flat File		
Re-coded value	Value read from input	YYYYMMDDMMYYYY		Description
.	-54908	18090901	SEP1809	<i>No response (invalid skip)</i>
.O	-55701	18070701	JUL1807	<i>Out-of-range error</i>
.N	-56096	18060601	JUN1806	<i>Not applicable (valid skip)</i>
.I	-56887	18040401	APR1804	<i>Incomplete grid error</i>
.B	-58073	18010101	JAN1801	<i>Blank/no survey.</i> Filler value for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.

Note. This conversion has already been done in DMDC SAS® files.

SAS can represent up to 27 missing data values for numeric variables as either a period or a period-letter combination. While SAS can read alpha characters representing missing data in a raw data field declared to be numeric, other programs such as SPSS do not accept these characters in numeric fields. Missing numeric data are represented in the flat files by negative numbers that can be declared as missing values. For example, a multiple response error in flat files is coded as a “-8”, which can be declared as a missing value when the data are input in SPSS—in the SAS file, the value “.A” is used to represent a multiple response error.

Data requirements of SUDAAN³ were also considered in coding. Primarily this means avoiding in coding the use of a zero, which has a special use for certain procedures in SUDAAN, for a variable that will be used as an independent variable.

Many types of missing data are common to surveys and are self-explanatory. In general, missing data are coded as “-9” (SAS: .) when respondents skip the item invalidly. Incomplete or inappropriate responses in text boxes that could not be resolved to numeric are coded as “-4” (SAS: .I). Out-of-range responses in grids (e.g., number of days or weeks in a year larger than 365 or 52, respectively) are coded as “-7” (SAS: .O).

For a single item that contains a response alternative of “Not applicable,” or multiple items that can be affected by a skip pattern, or when item(s) have multiple ways to be not applicable, a missing data code of “-6” (SAS: .N) is typically used.

Multiple survey forms or modes (e.g., paper and web) are sometimes used in a single effort, and the data from all the related forms may be combined into a single dataset for analysis. Questions may appear in one form or mode but not in another. In a combined dataset, a code of “-5” (SAS: .F) indicates missing data for variables not on the form completed by a respondent.

³ SUDAAN is a trademark of the Research Triangle Institute.

Records are included in the files for sampled members regardless of whether or not they returned a survey. If a member did not return a survey or returned a blank survey, every survey variable is assigned a value of “-1” (SAS: .B).

Standard Flag Variables

This survey employs two standard flag variables: specify flags and skip flags. Specify and skip flags are created during the second and third edit steps.

Skip pattern flags indicate whether one or more questions were or were not to be asked of respondents. For example, if respondents to this survey indicate on Question 4 (SRMARST) that they were not married or separated, then respondents were not to see Question 6. PRSE1ASK is a flag variable indicating if Question 6 (PRSEMP01) was answered consistently with the skip direction. Skip flags are useful for evaluating the effectiveness of the skip pattern and for screening out ambiguous response patterns during analysis.

Specify flags are used to verify whether additional information was or was not to be gathered on a particular question. For example, AD080SP is a flag variable indicating when respondents had another reason for a physical injury or medical profile that caused them to be absent from their primary duties. The specify flag indicates that the specify box, on Question 80, item d, was enabled to allow respondents to type in text. Specify flags are useful for evaluating the completeness of the option categories; for example, answering “yes” for the category “other reason”.

Special Codes for Skip Patterns

Coding steps 3 and 4 involve editing data to resolve discrepancies in skip patterns. Skip flags are created in step 3. Table D-1 introduced the general outline of the skip flags, but the specific flags for each skip pattern are specified in Table D-3.⁴ After the creation of all the skip flags in step 3, variables within the skip patterns are forward coded in step 4 to make them consistent with the variables that start the skip patterns. To preserve all data, the variables within skip patterns are first copied to a set of confidential variables. The naming convention for these “raw” variables is to end the name with “U” for Unedited. Table D-3 specifies how to assign the special values, to variables within the skip patterns. While Table D-3 is organized to show all the edits for a skip pattern, all step 3 edits are made prior to making any step 4 edits. The remainder of this section describes the logic behind coding of skip patterns.

While an analyst can ignore discrepancies between a respondent’s answer on an item containing a conditional direction to skip items and answers to those items, it is generally better to resolve the discrepancies. Two ways of resolving the discrepancies can be termed backward and forward coding. Backward coding involves correcting the discrepancy by editing back from the skip pattern items to make the initial question conform. Forward coding involves correcting the discrepancy by editing forward from the initial question to make the skip pattern items conform. Data for this survey are forward coded with data on the starting question accepted as marked and data for the items within the skip pattern edited to be consistent with the starting question.

⁴ Table D-3 also provides special coding notes for other non-obvious codings.

If a starting item is marked in such a way that the respondent should skip, items within the skip pattern have the not applicable value (.N) assigned regardless of what the respondent marked on the items within the skip pattern. These values differentiate items with data missing because the item should have been skipped from items where data are missing because the respondent should have answered them but did not.

Table D-1:
Special Coding Notes

Note Coding instructions and codebook specifications

1. SRSVC1. Codebook page for SRSVC1 should note:

"Respondents indicating separated or retired (SRSVC1=5) are considered ineligible for survey."

2. MARDISCSK, MARDISCU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**MARDISCSK** is an indicator of whether **MARDISC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 3 OR SRMARST = 4) OR SRMARST = 5) then **MARDISCSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**MARDISCU** = **MARDISC**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If MARDISCSK = 1 then do;
MARDISC = .N;
end;
```

.N = (Not Applicable)

3. PRSEMP01SK, PRSEMP01U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**PRSEMP01SK** is an indicator of whether **PRSEMP01** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRMARST = 1 OR SRMARST = 2) then **PRSEMP01SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSEMP01U** = **PRSEMP01**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRSEMP01SK = 1 then do;  
PRSEMP01 = .N;  
end;
```

.N = (Not Applicable)

4. **PRSEMP02SK, PRSEMP02U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRSEMP02SK** is an indicator of whether **PRSEMP02** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) then **PRSEMP02SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSEMP02U** = **PRSEMP02**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRSEMP02SK = 1 then do;  
PRSEMP02 = .N;  
end;
```

.N = (Not Applicable)

5. **PRSEMP03SK, PRCPS01U, PRSEMP03U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRSEMP03SK** is an indicator of whether **PRCPS01**, **PRSEMP03** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) then **PRSEMP03SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS01U = PRCPS01, PRSEMP03U = PRSEMP03**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRSEMP03SK = 1 then do;  
  PRCPS01 = .N;  
  PRSEMP03 = .N;  
end;
```

.N = (Not Applicable)

6. **PRCPS02SK, PRCPS02U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRCPS02SK** is an indicator of whether **PRCPS02** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) then **PRCPS02SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS02U = PRCPS02**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRCPS02SK = 1 then do;  
  PRCPS02 = .N;  
end;
```

.N = (Not Applicable)

7. **PRCPS03SK, PRCPS03U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRCPS03SK** is an indicator of whether **PRCPS03** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) AND PRCPS02 = 1) then **PRCPS03SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS03U** = **PRCPS03**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRCPS03SK = 1 then do;  
  PRCPS03 = .N;  
end;
```

.N = (Not Applicable)

8. **PRCPS04SK, PRCPS04U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRCPS04SK** is an indicator of whether **PRCPS04** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) AND PRCPS02 = 1) AND PRCPS03 = 2) then **PRCPS04SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS04U** = **PRCPS04**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRCPS04SK = 1 then do;  
  PRCPS04 = .N;  
end;
```

.N = (Not Applicable)

9. **DEPDNTSK, DEPNTAU, DEPNTBU, DEPNTCU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**DEPDNTSK** is an indicator of whether **DEPDNTA**, **DEPDNTB**, **DEPDNTC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If DEPNTS = 2 then **DEPDNTSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"DEPDNTAU = DEPDNTA, DEPDNTBU = DEPDNTB, DEPDNTCU = DEPDNTC, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If DEPDNTSK = 1 then do;  
DEPDNTA = 0;  
DEPDNTB = 0;  
DEPDNTC = 0;  
end;
```

10. SRRACEA—SRRACEE, SRRETH1

The codebook pages for SRRACEA—SRRACEE should note:

"These items are consistent with the '1997 Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity' and the 2000 Decennial Census."

SRRACEA—SRRACEE are codes as "Mark all that apply" items, where 1=Not marked and 2=Marked. SRRACEA indicates whether the "White" response category was marked, SRRACEB indicates whether the "Black or African-American" response category was marked, SRRACEC indicates whether "American Indian or Alaskan Native" was marked, SRRACED indicates whether "Asian" was marked, SRRACEE indicates whether "Native Hawaiian or other Pacific Islander" was marked, and SRRACEF indicates whether "Some other race" was marked. If none are marked, then all of SRRACEA—SRRACEE are assigned -9 (missing).

SRRETH1 implements the October 1997 standards for reporting Federal data on race and ethnicity. The codebook page for SRRETH1 should note:

"These racial/ethnic categories are consistent with the 1997 standards for maintaining, collecting, and presenting federal data on race and ethnicity."

SRRETH1 groups responses to SRRACEA-SRRACEF into racial/ethnic categories including multi-racial combinations. The categories are broken down by whether the respondent indicates Hispanic descent (from variable SRHISPA1). Each description in the "RACIAL CATEGORY" column of the chart is preceded by an H for "Hispanic" if the respondent has a value of 2 for SRHISPA1, and by a NH for "Non-Hispanic" if SRHISPA1 has a value of 1. The columns to the right of the descriptions show the Hispanic and race /ethnicity codes matching each description. The coding for SRRETH1 follows the coding provided in the chart. For example, Hispanic single-race respondents who mark only one of the SRRACEA-SRRACEF are assigned the corresponding code (1-5) from the racial/ethnic categories. Hispanics selecting more than one race are coded 7. Non-Hispanics reporting no race code are coded as missing (-9). The "Unassigned categories (coded as 6 and 14), are not populated in this survey, but are used when the additional response option of "Other" for race/ethnicity are included in the question. The categories for Non-Hispanics are similar, except that some racial combinations form their own categories (codes 15-18). The remaining combinations reported by Non-Hispanics are coded as 19.

CODE	RACIAL CATEGORY (SRRETH1)	SR- HISP	SR- RACEA	SR- RACEB	SR- RACEC	SR- RACED	SR- RACEE
1	H American Indian or Alaska Native	2	1	1	2	1	1
2	H Asian	2	1	1	1	2	1
3	H Black or African American	2	1	2	1	1	1
4	H Native Hawaiian or Other Pacific Islander	2	1	1	1	1	2
5	H White	2	2	1	1	1	1
6	H Some other race	2	(Not used in July 2004 SOFS for AD Members)				
7	Hispanic/Latino reporting more than one race	2	(Any combination of more than one 2 in SRRACEA-E)				
8	H Unknown race	2	-9	-9	-9	-9	-9
9	NH American Indian or Alaska Native	1	1	1	2	1	1
10	NH Asian	1	1	1	1	2	1
11	NH Black or African American	1	1	2	1	1	1
12	NH Native Hawaiian or Other Pacific Islander	1	1	1	1	1	2
13	NH White	1	2	1	1	1	1
14	NH Some other race	1	(Not used July 2004 SOFS for AD Members)				
15	NH American Indian or Alaska Native & White	1	2	1	2	1	1
16	NH Asian & White	1	2	1	1	2	1
17	NH Black or African American & White	1	2	2	1	1	1
18	NH American Indian or Alaska Native & Black or African American	1	1	2	2	1	1
19	NH Balance of individuals reporting more than one race	1	(Any other combination of more than one 2 in SRRACEA-E)				

11. SRDULCDSK, SRDULCDU. The following explains how to create the flag variable -- the codebook page should contain this information:

"SRDULCDSK is an indicator of whether SRDULCD were or were not to be asked of a respondent and its initial value is 1 (Not asked). If SRDULOC = 1 then SRDULCDSK = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"SRDULCDU = SRDULCD, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SRDULCDSK = 1 then do;
SRDULCD = .N;
end;
```

.N = (Not Applicable)

12. SRDULSPSK, SRDULSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SRDULSPSK** is an indicator of whether **SRDULSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If SRDULOC = 8 then **SRDULSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SRDULSPU** = **SRDULSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SRDULSPSK = 1 then do;  
SRDULSP = '.N';  
end;
```

.N = (Not Applicable)

13. SRBAHSPSK, SRBAHSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SRBAHSPSK** is an indicator of whether **SRBAHSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If SRBAH = 9 then **SRBAHSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SRBAHSPU** = **SRBAHSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SRBAHSPSK = 1 then do;  
SRBAHSP = '.N';  
end;
```

.N = (Not Applicable)

14. PRSTAYABSK, PRSTAYABU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**PRSTAYABSK** is an indicator of whether **PRSTAYAB** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) OR (((SRMARST = 3 OR SRMARST = 4) OR SRMARST = 5) AND (((MARDISC = 1 OR MARDISC = 2) OR MARDISC = 3) OR MARDISC = 4))) then **PRSTAYABSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSTAYABU** = **PRSTAYAB**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRSTAYABSK = 1 then do;  
PRSTAYAB = .N;  
end;
```

.N = (Not Applicable)

15. **PCSLASTSK, PCSLASTU**. The following explains how to create the flag variable -- the codebook page should contain this information:

"**PCSLSTSK** is an indicator of whether **PCSLAST** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If PCS=2 then **PCSLSTSK** =2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PCSLASTU** = **PCSLAST** but is unedited for forward coding of non-applicable or missing response values. Additionally, **PCSLAST** was checked for unlikely values. Entries ranging from 0 to 99 are accepted as valid. Values over 99 are recoded as 99 while values less than 0 are recoded to -7/.O (Out-of range error)."

Here is how they are edited:

```
If PCSLASTSK = 1 then do;  
PCSLAST = .N;  
end;
```

.N = (Not Applicable)

```
If PCSLAST GE 99 then PCSLAST = 99;  
If PCSLAST NE .N and PCSLAST LT 0 then PCSLAST =.O;  
.O =(Out-of-range error)
```

16. **OVTMDY**. The following explains editing of variable--the codebook page for the edited variable should contain this information:

"**OVTMDYU**=**OVTMDY** but is unedited for unlikely values. Entries ranging from 0 to 365 are accepted as valid. Values over 365 are recoded as 365 while values less than 0 are recoded to -7/.O (Out-of-range error)."Here is how it was edited:

```
If OVTMDY GE 365 then OVTMDY = 365;  
If OVTMDY LT 0 then OVTMDY =.O;  
.O=(Out-of-range error)
```

17. DEPLYDY. The following explains editing of variable —the codebook page for the edited variable should contain this information:

“**DEPLYDYU** = **DEPLYDY** but is unedited for unlikely values. Entries ranging from 0 to 365 are accepted as valid. Values over 365 are recoded as 365 while values less than 0 are recoded to -7/.O (Out-of range error).”

Here is how it was edited:

If DEPLYDY GE 365 then DEPLYDY = 365;

If NOT IN (., .N) and DEPLYDY LT 0 then DEPLYDY =.O;

.O= (Out-of-range error)

18. DEPLYSK, DEPLYU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLYSK** is an indicator of whether **DEPLY** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If DEPLYDY > 0 then **DEPLYSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLYU** = **DEPLY**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DEPLYSK = 1 then do;

DEPLY = .N;

end;

.N = (Not Applicable)

19. DEPLOCSK, DEPLOCU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLOCSK** is an indicator of whether **DEPLOC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If DEPLY = 2 then **DEPLOCSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOCU** = **DEPLOC**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If DEPLOC = 1 then do;  
DEPLOC = .N;  
end;
```

.N = (Not Applicable)

20. **DEPLOCDSK, DEPLOCPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**DEPLOCDSK** is an indicator of whether **DEPLOC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLOC** = 1 then **DEPLOCDSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOCPU** = **DEPLOC**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If DEPLOCDSK = 1 then do;  
DEPLOC = .N;  
end;
```

.N = (Not Applicable)

21. **DEPLOSPOK, DEPLOSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**DEPLOSPOK** is an indicator of whether **DEPLOS** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLOC** = 10 then **DEPLOSPOK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOSPU** = **DEPLOSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If DEPLOSPSK = 1 then do;  
DEPLOSP = '.N';  
end;
```

.N = (Not Applicable)

22. **AF040SK, AF040U, AF041AU, AF041BU, AF041CU, AF041DU, AF041EU, AF041FU, AF041GU, AF041HU, AF041IU, AF041JU**. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF040SK** is an indicator of whether **AF040, AF041A, AF041B, AF041C, AF041D, AF041E, AF041F, AF041G, AF041H, AF041I, AF041J** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((**AF039A** = 2 OR **AF039B** = 2) OR **AF039C** = 2) OR **AF039D** = 2) then **AF040SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF040U** = **AF040, AF041AU** = **AF041A, AF041BU** = **AF041B, AF041CU** = **AF041C, AF041DU** = **AF041D, AF041EU** = **AF041E, AF041FU** = **AF041F, AF041GU** = **AF041G, AF041HU** = **AF041H, AF041IU** = **AF041I, AF041JU** = **AF041J**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF040SK = 1 then do;  
AF040 = .N;  
AF041A = .N;  
AF041B = .N;  
AF041C = .N;  
AF041D = .N;  
AF041E = .N;  
AF041F = .N;  
AF041G = .N;  
AF041H = .N;  
AF041I = .N;  
AF041J = .N;  
end;
```

.N = (Not Applicable)

23. **AF041SP1SK, AF041SP1U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF041SP1SK** is an indicator of whether **AF041SP1** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF041A = 2 then **AF041SP1SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF041SP1U** = **AF041SP1**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF041SP1SK = 1 then do;  
AF041SP1 = .N;  
end;
```

.N = (Not Applicable)

24. **AF041SP2SK, AF041SP2U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF041SP2SK** is an indicator of whether **AF041SP2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF041J = 2 then **AF041SP2SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF041SP2U** = **AF041SP2**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF041SP2SK = 1 then do;  
AF041SP2 = '.N';  
end;
```

.N = (Not Applicable)

25. **AF042SK, AF042U, AF043U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF042SK** is an indicator of whether **AF042**, **AF043** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((AF039A = 2 OR AF039B = 2) OR AF039C = 2) OR AF039D = 2) then **AF042SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF042U = AF042, AF043U = AF043**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF042SK = 1 then do;  
AF042 = .N;  
AF043 = .N;  
end;
```

.N = (Not Applicable)

26. **AF044SK, AF044U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF044SK** is an indicator of whether **AF044** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((AF039A = 2 OR AF039B = 2) OR AF039C = 2) OR AF039D = 2) AND AF043 = 2) then **AF044SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF044U = AF044**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF044SK = 1 then do;  
AF044 = .N;  
end;
```

.N = (Not Applicable)

27. **CMBTOPSK, CMBTOPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**CMBTOPSK** is an indicator of whether **CMBTOP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((AF039A = 2 OR AF039B = 2) OR AF039C = 2) OR AF039D = 2) then **CMBTOPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CMBTOPU** = **CMBTOP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If CMBTOPSK = 1 then do;  
CMBTOP = .N;

end;
```

.N = (Not Applicable)

33. AF053SK, AF053U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF053SK** is an indicator of whether **AF053** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (REENLIST = 2 AND (((((((SRGRADE = 1 OR SRGRADE = 2) OR SRGRADE = 3) OR SRGRADE = 4) OR SRGRADE = 5) OR SRGRADE = 6) OR SRGRADE = 7) OR SRGRADE = 8) OR SRGRADE = 9)) then **AF053SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF053U** = **AF053**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF053SK = 1 then do;  
AF053 = .N;  
end;
```

.N = (Not Applicable)

34. AF054SK, AF054U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF054SK** is an indicator of whether **AF054** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (AF052 = 2 AND (((SRGRADE = 21 OR SRGRADE = 22) OR SRGRADE = 23) OR SRGRADE = 24) OR SRGRADE = 25) OR SRGRADE = 26)) then **AF054SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF054U** = **AF054**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF054SK = 1 then do;  
AF054 = .N;  
end;
```

.N = (Not Applicable)

35. RETINT2SK, RETINT2U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**RETINT2SK** is an indicator of whether **RETINT2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF022 < 20 then **RETINT2SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**RETINT2U** = **RETINT2**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If RETINT2SK = 1 then do;  
RETINT2 = .N;  
end;
```

.N = (Not Applicable)

36. EYOS, EYOSU. The following explains editing variable—the codebook page for the edited variable should contain this information:

"**EYOSU** is equal to **EYOS** but is unedited for unlikely values. Entries ranging from 0 to 35 are accepted as valid. Values over 35 are recoded as 35 while values less than 0 are recoded to -7/.O (Out-of range error)."

Here is how they were edited:

```
IF EYOS > 35 THEN EYOS = 35;  
IF EYOS NOT IN (., .N) and EYOS < 0 THEN EYOS = .O;
```

37. AF058SPSK, AF058SPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF058SPSK** is an indicator of whether **AF058SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF058 = 27 then **AF058SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF058SPU** = **AF058SP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF058SPSK = 1 then do;  
AF058SP = '.N';  
end;
```

.N = (Not Applicable)

38. AF059SPSK, AF059SPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF059SPSK** is an indicator of whether **AF059SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF059 = 27 then **AF059SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF059SPU** = **AF059SP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF059SPSK = 1 then do;  
AF059SP = '.N';  
end;
```

.N = (Not Applicable)

39. AF060SPSK, AF060SPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF060SPSK** is an indicator of whether **AF060SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF060 = 27 then **AF060SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF060SPU** = **AF060SP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF060SPSK = 1 then do;  
AF060SP = '.N';  
end;
```

.N = (Not Applicable)

40. NUHDEPLYSK, NUHDEPLYU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**NUHDEPLYSK** is an indicator of whether **NUHDEPLY** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If CNUDEPL > 0 then **NUHDEPLYSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**NUHDEPLYU** = **NUHDEPLY**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If NUHDEPLYSK = 1 then do;  
  NUHDEPLY = .N;  
end;
```

.N = (Not Applicable)

41. NUMNONHSK, NUMNONHU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**NUMNONHSK** is an indicator of whether **NUMNONH** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((NHOSTCDTS = 1 OR NHOSTCDTS = 2) OR NHOSTCDTS = 4) OR NHOSTCDTS = 5) then **NUMNONHSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**NUMNONHU** = **NUMNONH**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If NUMNONHSK = 1 then do;  
  NUMNONH = .N;  
end;
```

.N = (Not Applicable)

42. HCDTSREASK, HCDTSREAU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**HCDTSREASK** is an indicator of whether **HCDTSREA** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((HOSTCDTS = 1 OR HOSTCDTS = 2) OR HOSTCDTS = 4) OR HOSTCDTS = 5) then **HCDTSREASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**HCDTSREAU** = **HCDTSREA**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If HCDTSREASK = 1 then do;

HCDTSREA = .N;

end;

.N = (Not Applicable)

43. FMCRDEPLSK, FMCRDEPLU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**FMCRDEPLSK** is an indicator of whether **FMCRDEPL** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If CNUDEPL > 0 then **FMCRDEPLSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**FMCRDEPLU** = **FMCRDEPL**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If FMCRDEPLSK = 1 then do;

FMCRDEPL = .N;

end;

.N = (Not Applicable)

44. **AF077SK, AF077U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF077SK** is an indicator of whether **AF077** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 1 OR SRMARST = 2) OR SRMARST = 3) OR SRMARST = 4) OR DEPDNTS = 2) then **AF077SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF077U** = **AF077**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF077SK = 1 then do;  
AF077 = .N;  
end;
```

.N = (Not Applicable)

45. **AF078SK, AF078U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF078SK** is an indicator of whether **AF078** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (AF077 = 2 AND (((SRMARST = 1 OR SRMARST = 2) OR SRMARST = 3) OR SRMARST = 4) OR DEPDNTS = 2)) then **AF078SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF078U** = **AF078**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF078SK = 1 then do;  
AF078 = .N;  
end;
```

.N = (Not Applicable)

46. **AF079SK, AF079U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF079SK** is an indicator of whether **AF079** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 1 OR SRMARST = 2) OR SRMARST = 3) OR SRMARST = 4) OR DEPDNTS = 2) then **AF079SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF079U** = **AF079**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF079SK = 1 then do;  
AF079 = .N;  
end;
```

.N = (Not Applicable)

47. **AF080SK, AF080U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF080SK** is an indicator of whether **AF080** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (AF079 = 2 AND (((SRMARST = 1 OR SRMARST = 2) OR SRMARST = 3) OR SRMARST = 4) OR DEPDNTS = 2)) then **AF080SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF080U** = **AF080**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF080SK = 1 then do;  
AF080 = .N;  
end;
```

.N = (Not Applicable)

48. AF087SK, AF087U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF087SK** is an indicator of whether **AF087** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((AF086 = 2 OR AF086 = 3) OR AF086 = 4) OR AF086 = 5) OR AF086 = 6) OR AF086 = 7) then **AF087SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF087U** = **AF087**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF087SK = 1 then do;  
  AF087 = .N;  
end;
```

.N = (Not Applicable)

49. AF088SK, AF088U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF088SK** is an indicator of whether **AF088** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRSEX = 1 AND (((((AF086 = 2 OR AF086 = 3) OR AF086 = 4) OR AF086 = 5) OR AF086 = 6) OR AF086 = 7)) then **AF088SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF088U** = **AF088**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF088SK = 1 then do;  
  AF088 = .N;  
end;
```

.N = (Not Applicable)

50. AF089SK, AF089U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF089SK** is an indicator of whether **AF089** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRSEX = 2 AND (((((AF086 = 2 OR AF086 = 3) OR AF086 = 4) OR AF086 = 5) OR AF086 = 6) OR AF086 = 7)) then **AF089SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF089U** = **AF089**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF089SK = 1 then do;  
    AF089 = .N;  
end;
```

.N = (Not Applicable)

51. AF092A, AF092AU. The following explains editing of variable —the codebook page for the edited variable should contain this information:

"**AF092AU** is equal to **AF092A** but is unedited for unlikely values. Entries ranging from 0 to 30 are accepted as valid. Values over 30 are recoded as 30 while values less than 0 are recoded to -7/.O (Out-of range error)."

Here is how they were edited:

```
IF AF092A > 30 THEN AF092A = 30;  
IF AF092A NOT IN (.,.N) and AF092A < 0 THEN AF092A = .O;
```

52. AF092B, AF092BU. The following explains editing of variable —the codebook page for the edited variable should contain this information:

"**AF092BU** is equal to **AF092B** but is unedited for unlikely values. Entries ranging from 0 to 30 are accepted as valid. Values over 30 are recoded as 30 while values less than 0 are recoded to -7/.O (Out-of range error)."

Here is how they were edited:

```
IF AF092B > 30 THEN AF092B = 30;  
IF AF092B NOT IN (.,.N) and AF092B < 0 THEN AF092B = .O;
```

53. AF094SK, AF094U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF094SK** is an indicator of whether **AF094** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If $AF022 < 20$ then **AF094SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF094U** = **AF094**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF094SK = 1 then do;  
AF094 = .N;  
end;
```

.N = (Not Applicable)

54. AF095SK, AF095U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF095SK** is an indicator of whether **AF095** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If $(AF022 < 20 \text{ AND } AF094 = 1)$ then **AF095SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF095U** = **AF095**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF095SK = 1 then do;  
AF095 = .N;

```

.N = (Not Applicable)

67. AF108SK, AF108U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF108SK** is an indicator of whether **AF108** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((((((SRGRADE = 1 OR SRRGRADE = 2) OR SRRGRADE = 3) OR SRRGRADE = 4) OR SRRGRADE = 5) OR SRRGRADE = 6) OR SRRGRADE = 7) OR SRRGRADE = 8) OR SRRGRADE = 9) AND AF022 < 20) AND AF102 = 1) AND AF104 = 1) AND AF106 = 1) then **AF108SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF108U** = **AF108**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF108SK = 1 then do;  
    AF108 = .N;  
end;
```

.N = (Not Applicable)

68. AF109SK, AF109U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF109SK** is an indicator of whether **AF109** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((((((SRGRADE = 21 OR SRRGRADE = 22) OR SRRGRADE = 23) OR SRRGRADE = 24) OR SRRGRADE = 25) OR SRRGRADE = 26) AND AF022 < 20) AND AF103 = 1) AND AF105 = 1) AND AF107 = 1) then **AF109SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF109U** = **AF109**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF109SK = 1 then do;  
    AF109 = .N;  
end;
```

.N = (Not Applicable)

69. AF110SK, AF110U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF110SK** is an indicator of whether **AF110** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((((SRGRADE = 1 OR SRRGRADE = 2) OR SRRGRADE = 3) OR SRRGRADE = 4) OR SRRGRADE = 5) OR SRRGRADE = 6) OR SRRGRADE = 7) OR SRRGRADE = 8) OR SRRGRADE = 9) AND AF022 < 20) AND AF102 = 2) then **AF110SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF110U** = **AF110**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF110SK = 1 then do;  
    AF110 = .N;  
end;
```

.N = (Not Applicable)

70. AF111SK, AF111U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF111SK** is an indicator of whether **AF111** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((SRGRADE = 21 OR SRRGRADE = 22) OR SRRGRADE = 23) OR SRRGRADE = 24) OR SRRGRADE = 25) OR SRRGRADE = 26) AND AF022 < 20) AND AF103 = 2) then **AF111SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF111U** = **AF111**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF111SK = 1 then do;  
    AF111 = .N;  
end;
```

.N = (Not Applicable)

71. AF112SK, AF112U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF112SK** is an indicator of whether **AF112** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((((SRGRADE = 1 OR SRGRADE = 2) OR SRGRADE = 3) OR SRGRADE = 4) OR SRGRADE = 5) OR SRGRADE = 6) OR SRGRADE = 7) OR SRGRADE = 8) OR SRGRADE = 9) AND AF022 < 20) AND AF102 = 2) AND AF110 = 2) then **AF112SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF112U** = **AF112**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF112SK = 1 then do;  
    AF112 = .N;  
end;
```

.N = (Not Applicable)

72. AF113SK, AF113U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF113SK** is an indicator of whether **AF113** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((SRGRADE = 21 OR SRGRADE = 22) OR SRGRADE = 23) OR SRGRADE = 24) OR SRGRADE = 25) OR SRGRADE = 26) AND AF022 < 20) AND AF103 = 2) AND AF111 = 2) then **AF113SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF113U** = **AF113**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF113SK = 1 then do;  
    AF113 = .N;  
end;
```

.N = (Not Applicable)

73. AF114SK, AF114U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF114SK** is an indicator of whether **AF114** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((((((SRGRADE = 1 OR SRGRADE = 2) OR SRGRADE = 3) OR SRGRADE = 4) OR SRGRADE = 5) OR SRGRADE = 6) OR SRGRADE = 7) OR SRGRADE = 8) OR SRGRADE = 9) AND AF022 < 20) AND AF102 = 2) AND AF110 = 2) AND AF112 = 2) then **AF114SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF114U** = **AF114**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF114SK = 1 then do;  
    AF114 = .N;  
end;
```

.N = (Not Applicable)

74. AF115SK, AF115U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF115SK** is an indicator of whether **AF115** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((((((SRGRADE = 21 OR SRGRADE = 22) OR SRGRADE = 23) OR SRGRADE = 24) OR SRGRADE = 25) OR SRGRADE = 26) AND AF022 < 20) AND AF103 = 2) AND AF111 = 2) AND AF113 = 2) then **AF115SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF115U** = **AF115**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF115SK = 1 then do;  
    AF115 = .N;  
end;
```

.N = (Not Applicable)

75. AF116SK, AF116U, AF117U, AF118U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF116SK** is an indicator of whether **AF116**, **AF117**, **AF118** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) OR DEPDNTS = 2) then **AF116SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF116U** = **AF116**, **AF117U** = **AF117**, **AF118U** = **AF118**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF116SK = 1 then do;  
  AF116 = .N;  
  AF117 = .N;  
  AF118 = .N;  
end;
```

.N = (Not Applicable)

76. AF121SK, AF121U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF121SK** is an indicator of whether **AF121** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF120 = 1 then **AF121SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF121U** = **AF121**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF121SK = 1 then do;  
  AF121 = .N;  
end;
```

.N = (Not Applicable)

77. AF122SK, AF122U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF122SK** is an indicator of whether **AF122** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (AF120 = 1 AND AF121 = 1) then **AF122SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF122U** = **AF122**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF122SK = 1 then do;  
AF122 = .N;  
end;
```

.N = (Not Applicable)

78. AF123SK, AF123U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF123SK** is an indicator of whether **AF123** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((AF120 = 1 AND AF121 = 1) AND AF122 = 1) then **AF123SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF123U** = **AF123**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF123SK = 1 then do;  
AF123 = .N;  
end;
```

.N = (Not Applicable)

79. AF125SK, AF125U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF125SK** is an indicator of whether **AF125** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **AF124** = 1 then **AF125SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF125U** = **AF125**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF125SK = 1 then do;  
AF125 = .N;  
end;
```

.N = (Not Applicable)

80. AF126SK, AF126U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF126SK** is an indicator of whether **AF126** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (**AF124** = 1 AND **AF125** = 1) then **AF126SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF126U** = **AF126**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF126SK = 1 then do;  
AF126 = .N;  
end;
```

.N = (Not Applicable)

81. AF127SK, AF127U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF127SK** is an indicator of whether **AF127** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((AF124 = 1 AND AF125 = 1) AND AF126 = 1) then **AF127SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF127U** = **AF127**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF127SK = 1 then do;  
  AF127 = .N;  
end;
```

.N = (Not Applicable)

82. AF129SK, AF129U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF129SK** is an indicator of whether **AF129** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF128 = 1 then **AF129SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF129U** = **AF129**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF129SK = 1 then do;  
  AF129 = .N;  
end;
```

.N = (Not Applicable)

83. AF130SK, AF130U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF130SK** is an indicator of whether **AF130** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (AF128 = 1 AND AF129 = 1) then **AF130SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF130U** = **AF130**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF130SK = 1 then do;  
AF130 = .N;  
end;
```

.N = (Not Applicable)

84. AF136SK, AF136U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AF136SK** is an indicator of whether **AF136** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AF135A = 2 then **AF136SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF136U** = **AF136**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF136SK = 1 then do;  
AF136 = .N;  
end;
```

.N = (Not Applicable)

85. **AF137SK, AF137U, AF138U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AF137SK** is an indicator of whether **AF137, AF138** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((SRGRADE = 21 OR SRGRADE = 22) OR SRGRADE = 23) OR SRGRADE = 24) OR SRGRADE = 25) OR SRGRADE = 26) then **AF137SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AF137U = AF137, AF138U = AF138**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AF137SK = 1 then do;  
    AF137 = .N;  
    AF138 = .N;  
end;
```

.N = (Not Applicable)

86. **COMMENT. COMMENT has two codes.**

2 Text entered
is assigned if something is written in the space provided.

1 No text entered
is assigned if nothing is written in the space provided.

COMMENTU text from the write-in boxes and will be placed in a verbatim file.

87. **REQUEST. REQUEST has two codes.**

2 e-mail address entered
is assigned if something is written in the space provided for e-mail address.

1 No e-mail address entered
is assigned if nothing is written in the space provided for e-mail address.

REQUESTU contains text from the write-in boxes and will be placed in a verbatim file.

SOFA0408 Active Duty August 2004
Information Gathered on the Survey

VARIABLE NAME	ITEM NUMBER	LABEL	PAGE
DEPDNTS	14.	[14--] Children yes/no	1
SATMLA	20a.	[20a] Sat w/ total compensation	2
SATMLB	20b.	[20b] Sat w/ type work on mil job	3
SATMLC	20c.	[20c] Sat w/ mil promotion opps	4
SATMLD	20d.	[20d] Sat w/ quality of coworkers	5
SATMLE	20e.	[20e] Sat w/ quality supervisor	6
SATOVER	21.	[21--] Overall Satisfaction w/ mil life	7
RETINT1	23.	[23--] Likely you would stay on AD	8
PRSTAYAB	24.	[24--] Spouse favor U staying in mil	9
PRSTAYC	25.	[25--] Family favor U staying in mil	10
PCS	26.	[26--] Have U ever PCSed	11
DEPLOYC	31.	[31--] Deployed location	12
ETMAWAY	32.	[32--] Expectd time away from duty stati	13
TMAWAY1	33.	[33--] Impact of time away on mil career	14
PREPRD1	34.	[34--] Wartime prepared-are U	15
PREPRD2	35.	[35--] Wartime prepared-is your unit	16
PREPRD3	36.	[36--] Wartime prepared- from training	17
WSTRESS	37.	[37--] Current level of stress-work	18
PSTRESS	38.	[38--] Current level of stress-personal	19
AF043	43.	[43--] Combat zone deploy	20
CMBTOP	45.	[45--] Combat Ops involved	21
AF046	46.	[46--] Combat zone deploy-curr	22
AF047	47.	[47--] Deploy length after 9-11-01	23
AF048	48.	[48--] Stop-loss after 9-11-01	24
SERVTERM	49.	[49--] Term of Service	25
TIMETERM	50.	[50--] Term of Service-time ramaining	26
REENLIST	51.	[51--] Bonus effect decision-enlisted	27
RETINT2	55.	[55--] Twenty years of service-likelyhoo	28
AF056	56.	[56--] Prisoner abuse effect decision	29
PRIMEACT	63.	[63--] Leave Mil-primary activity	30
JOINNGRU	64.	[64--] Leave Mil-join NG or Reserves	31
AF065A	65a.	[65a] Entered-deployed	32
AF065B	65b.	[65b] Entered-deployed in hostile loc	33
AF066	66.	[66--] Entered-deployed in first 4 yrs	34
AF067	67.	[67--] Entered-deployed in career	35
AF068	68.	[68--] Entered-deployed in danger 4 yrs.	36
AF069	69.	[69--] Entered-deployed in danger career	37
NHOSTCDTS	72.	[72--] Deployment-nonhostile impact stay	38
NUMNONH	73.	[73--] Deployment-nonhostile direction	39
HOSTCDTS	74.	[74--] Deployment-hostile impact stay	40
HCDTSREA	75.	[75--] Deployment-hostile direction	41
MLCHOSA	81a.	[81a] AorDA-enjoy serving in mil	42
MLCHOSB	81b.	[81b] AorD-mil consistent w/personal goa	43
MLCHOSC	81c.	[81c] AorDA-leave starting over	44
MLCHOSD	81d.	[81d] AorDA-feel guilty	45
MLCHOSE	81e.	[81e] AorDA-general happy w/ mil life	46
MLCHOSF	81f.	[81f] AorDA-leave mil benefits	47
MLCHOSG	81g.	[81g] AorDA-sense of obligation	48
MLCHOSH	81h.	[81h] AorDA-match mil values	49
MLCHOSI	81i.	[81i] AorDA-finding job outside mil	50
MLCHOSJ	81j.	[81j] AorDA-proud to be in mil	51
MLCHOSK	81k.	[81k] AorDA-let country down	52
MLCHOSL	81l.	[81l] AorDA-considerable sacrifice	53
MLCHOSM	81m.	[81m] AorDA-help achieve life wants	54
MLCHOSN	81n.	[81n] AorDA-lack alternaitives	55

Flat File Layout for the Public-Release Data File

Variable	Type	Start	Stop	Length	Label
DEPDNTS	Num	0001	0002	002	Do you have a child, children, or other legal dependents based on the definition above?
SATMLA	Num	0003	0004	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? Your total compensation (i.e., base pay, allowances, and bonuses)
SATMLB	Num	0005	0006	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? The type of work you do in your military job
SATMLC	Num	0007	0008	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? Your opportunities for promotion
SATMLD	Num	0009	0010	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? The quality of your coworkers
SATMLE	Num	0011	0012	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? The quality of your supervisor
SATOVER	Num	0013	0014	002	Overall, how satisfied are you with the military way of life?
RETINT1	Num	0015	0016	002	Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?
PRSTAYAB	Num	0017	0018	002	Does your spouse or significant other think you should stay on or leave active duty?
PRSTAYC	Num	0019	0020	002	Does your family think you should stay on or leave active duty?
PCS	Num	0021	0022	002	Have you ever PCSed?
DEPLOY	Num	0023	0024	002	Where are you currently deployed?
ETMAWAY	Num	0025	0026	002	In the past 12 months, have you spent more or less time away from your permanent duty station than you expected when you first entered the military?
TMAWAY1	Num	0027	0028	002	What impact has time away (or lack thereof) from your permanent duty station in the past 12 months had on your military career intentions?
PREPRD1	Num	0029	0030	002	Overall, how well prepared are you to perform your wartime job?
PREPRD2	Num	0031	0032	002	Overall, how well prepared is your unit to perform its wartime mission?
PREPRD3	Num	0033	0034	002	How well has your training prepared you to perform your wartime job?
WSTRESS	Num	0035	0036	002	Overall, how would you rate the current level of stress in your work life?
PSTRESS	Num	0037	0038	002	Overall, how would you rate the current level of stress in your personal life?
AF043	Num	0039	0040	002	Have you been deployed to a combat zone or an area where you drew imminent danger or hostile fire pay since September 11, 2001?
CMBTOP	Num	0041	0042	002	Were you involved in combat operations?
AF046	Num	0043	0044	002	Are you still deployed to a combat zone or an area where you are drawing imminent danger or hostile fire pay?
AF047	Num	0045	0046	002	Were any of your deployments since September 11, 2001 longer than what you expected?
AF048	Num	0047	0048	002	Since September 11, 2001, have you been under stop-loss at any time?
SERVTERM	Num	0049	0050	002	In which term of service are you serving now?
TIMETERM	Num	0051	0052	002	How much time remains in your current enlistment term (including extensions) or service obligation?
REENLIST	Num	0053	0054	002	At the end of your current enlistment, would the offer of a re-enlistment bonus affect your re-enlistment decision?
RETINT2	Num	0055	0056	002	If you could stay on active duty as long as you want, how likely is it that you would choose to serve in the military for at least 20 years?
AF056	Num	0057	0058	002	How have the reports of alleged prisoner abuse at Abu Ghraib affected your desire to continue to serve in the military?

PRIMEACT	Num	0059	0060	002	If you were to leave active duty in the next 12 months, what would be your primary activity?
JOINNGRU	Num	0061	0062	002	When you leave active duty, how likely is it that you will join a National Guard or Reserve unit?
AF065A	Num	0063	0064	002	When you first entered the military, were you told that... It was possible that you would be deployed during your time in service?
AF065B	Num	0065	0066	002	When you first entered the military, were you told that... It was possible that you would be deployed to hostile or dangerous locations during your time in service?
AF066	Num	0067	0068	002	When you first entered the military, how likely did you think it was that you would be deployed in the first 4 years?
AF067	Num	0069	0070	002	When you first entered the military, how likely did you think it was that you would be deployed in your career?
AF068	Num	0071	0072	002	When you first entered the military, how likely did you think it was that you would be deployed to dangerous places in the first 4 years?
AF069	Num	0073	0074	002	When you first entered the military, how likely did you think it was that you would be deployed to dangerous places in your career?
NHOSTCDTS	Num	0075	0076	002	How has the number of non-hostile deployments (or lack thereof) impacted your desire to stay in the military?
NUMNONH	Num	0077	0078	002	Is this (your change in desire to stay) because there were too few or too many non-hostile deployments?
HSTCDTS	Num	0079	0080	002	How has the number of hostile deployments (or lack thereof) impacted your desire to stay in the military?
HCDTSREA	Num	0081	0082	002	Is this (your change in desire to stay) because there were too few or too many hostile deployments?
MLCHOSA	Num	0083	0084	002	How much do you agree or disagree with each of the following statements? I enjoy serving in the military
MLCHOSB	Num	0085	0086	002	How much do you agree or disagree with each of the following statements? Serving in the military is consistent with my personal goals
MLCHOSC	Num	0087	0088	002	How much do you agree or disagree with each of the following statements? If I left the military, I would feel like I'm starting all over again
MLCHOSD	Num	0089	0090	002	How much do you agree or disagree with each of the following statements? I would feel guilty if I left the military
MLCHOSE	Num	0091	0092	002	How much do you agree or disagree with each of the following statements? Generally, on a day-to-day basis, I am happy with my life in the military
MLCHOSF	Num	0093	0094	002	How much do you agree or disagree with each of the following statements? It would be difficult for me to leave the military and give up the benefits that are available in the Service
MLCHOSG	Num	0095	0096	002	How much do you agree or disagree with each of the following statements? I would not leave the military right now because I have a sense of obligation to the people in it
MLCHOSH	Num	0097	0098	002	How much do you agree or disagree with each of the following statements? I really feel as if the military's values are my own
MLCHOSI	Num	0099	0100	002	How much do you agree or disagree with each of the following statements? I would have difficulty finding a job if I left the military
MLCHOSJ	Num	0101	0102	002	How much do you agree or disagree with each of the following statements? Generally, on a day-to-day basis, I am proud to be in the military
MLCHOSK	Num	0103	0104	002	How much do you agree or disagree with each of the following statements? If I left the military, I would feel like I had let my country down
MLCHOSL	Num	0105	0106	002	How much do you agree or disagree with each of the following statements? I continue to serve in the military because leaving would require considerable sacrifice

MLCHOSM	Num	0107	0108	002	How much do you agree or disagree with each of the following statements? I feel like being a member of the military can help me achieve what I want in life
MLCHOSN	Num	0109	0110	002	How much do you agree or disagree with each of the following statements? One of the problems with leaving the military would be the lack of available alternatives
MLCHOSO	Num	0111	0112	002	How much do you agree or disagree with each of the following statements? I am committed to making the military my career
MLASPA	Num	0113	0114	002	How satisfied are you with each of the following aspects of military life? Type of assignments received
MLASPB	Num	0115	0116	002	How satisfied are you with each of the following aspects of military life? Frequency of PCS moves

AF060B	Num	0223	0224	002	Recode AF060 - Third most import factor in deciding to stay on active duty: Items 11-19
AF060C	Num	0225	0226	002	Recode AF060 - Third most import factor in deciding to stay on active duty: Items 20-27
AF078R2	Num	0227	0228	002	Recode AF078R - Level: How many separate times have you been stationed overseas with your family?
AF080R2	Num	0229	0230	002	Recode AF080R - Categories: How many separate times have you been stationed overseas without your family?
AF087R	Num	0231	0232	002	Recode AF087 - When you drank alcohol in the past 30 days, about how many drinks did you typically have?
AF088R	Num	0233	0234	002	Recode AF088 - Males: During the past 30 days, on how many days did you have 5 or more drinks of beer, wine, or liquor on the same occasion?
AF089R	Num	0235	0236	002	Recode AF089 - Females: During the past 30 days, on how many days did you have 5 or more drinks of beer, wine, or liquor on the same occasion?
AF092AR	Num	0237	0238	002	Recode AF092A - Categories: Number of days run, jog, bicycle, or walk briskly or hike for 20 minutes or more
AF092BR	Num	0239	0240	002	Recode AF092B - Categories: Number of days engaged in other strenuous physical activity
AF094R	Num	0241	0242	002	Recode AF094 - Choice between the present retirement system or an alternative system w/additional basic pay during career but \$200 a month retirement reduction
AF094R2	Num	0243	0248	006	Recode AF094R - Additional basic pay chosen with an alternative system
AF102R	Num	0249	0250	002	Recode AF102 - Choice between the present retirement system or an alternative system w/lump sum payment and pension starting at age 62
AF102R2	Num	0251	0265	015	Recode AF102R - Lump sum payment chosen with an alternative system
AF103R2	Num	0266	0280	015	Recode AF103R - Lump sum payment chosen with an alternative system
AF103R	Num	0281	0282	002	Recode AF103 - Choice between the present retirement system or an alternative system w/lump sum payment and pension starting at age 62
AF116R	Num	0283	0284	002	Recode AF116 - Additional monthly pay needed for you to volunteer to go to a CONUS school for one year or less without your family
AF117R	Num	0285	0286	002	Recode AF117 - Additional monthly pay needed for you to volunteer to go OCONUS without your family for a tour to Germany or Europe
AF118R	Num	0287	0288	002	Recode AF118 - Additional monthly pay needed for you to volunteer to go OCONUS on a dependent restricted tour to a place like Korea
AF119R	Num	0289	0290	002	Recode AF119 - Additional monthly pay needed for you to volunteer to go to an operationally dangerous place such as Iraq
AF120R	Num	0291	0292	002	Recode AF120 - Choice between assignment where deployment unlikely and deployment likely w/special pay
AF124R	Num	0293	0294	002	Recode AF124 - Choice between assignment w/no additional duties and with additional duties and special pay
AF128R	Num	0295	0296	002	Recode AF128 - Choice between higher monthly retirement pay and no health insurance or present retirement and Tricare for Life
AF132R	Num	0297	0298	002	Recode AF132 - Categories: What amount would you need to earn in the civilian world to maintain your current standard of living?
AF135AR	Num	0299	0300	002	Recode AF135A - Used financial service: payday lender
AF135BR	Num	0301	0302	002	Recode AF135B - Used financial service: rent to buy
AF135CR	Num	0303	0304	002	Recode AF135C - Used financial service: automobile title pawn
AF135DR	Num	0305	0306	002	Recode AF135D - Used financial service: tax refund application load

AF136R	Num	0307	0308	002	Recode AF136 - Categories: How many times did you roll-over your initial payday loan?
AF139R	Num	0309	0310	002	Recode AF139 - Current duty station offer transition program
CNUDEPLR	Num	0311	0312	002	Recode CNUDEPL - Level: In your career, how many times have you been deployed for 30 days or more?
COMMITA	Num	0313	0327	015	Mean - Affective Commitment Scale
COMMITC	Num	0328	0342	015	Mean - Continuance Commitment Scale
COMMITN	Num	0343	0357	015	Mean - Normative Commitment Scale
COHESION	Num	0358	0372	015	Mean - Unit Cohesion Scale
CPSLFC2R	Num	0373	0374	002	Recoded CPSLFC2 - Spouse employment status
DEPLYDYR	Num	0375	0376	002	Recode DEPLYDY - In the past 12 months, how many days have you been away from your permanent duty station overnight because of your military duties? To indicate none, enter "0".
DEPLYR	Num	0377	0378	002	Recode DEPLY - Are you currently on a deployment of 30 days or more?
EYOSR	Num	0379	0380	002	Recode EYOS - When you finally leave active duty, how many total years of service do you expect to have?
FMCRDPLR	Num	0381	0382	002	Recode FMCRDEPL - How satisfied were you with the care your family received during your most recent deployment?
FUER	Num	0383	0384	002	Spouse Full Unemployment Rate
MARDISC	Num	0385	0386	002	Recode MARDISC - Time in relationship w/ sig other
MLEAVEAR	Num	0387	0388	002	Recode MLEAVEA - Thought seriously about leaving the military
MLEAVEBR	Num	0389	0390	002	Recode MLEAVEB - Wondered what life might be like as a civilian
MLEAVECR	Num	0391	0392	002	Recode MLEAVEC - Discussed leaving and/or civilian opportunities with family members or friends
MLEAVEDR	Num	0393	0394	002	Recode MLEAVED - Talked about leaving with your immediate supervisor
MLEAVEER	Num	0395	0396	002	Recode MLEAVEE - Gathered information on education programs or colleges
MLEAVEFR	Num	0397	0398	002	Recode MLEAVEF - Gathered information about civilian job options
MLEAVEGR	Num	0399	0400	002	Recode MLEAVEG - Attended a program that helps people prepared for civilian employment
MLEAVEHR	Num	0401	0402	002	Recode MLEAVEH - Prepared a resume
MLEAVEIR	Num	0403	0404	002	Recode MLEAVEI - Applied for a job
MLEAVEJR	Num	0405	0406	002	Recode MLEAVEJ - Interviewed for a job
NHDEPLR2	Num	0407	0408	002	Recode NHDEPLYR - Level: In your career, how many times have you been deployed to hostile locations for 30 days or more?
OVTMDYR	Num	0409	0410	002	Recode OVTMDY - In the past 12 months, how many times have you had to work longer than your normal duty day (i.e., overtime)? To indicate none, enter "0".
PCLOCAR	Num	0411	0412	002	Recode PCLOCA - Where did you take this survey? Mark yes or no for each item. Home/barracks
PCLOCBR	Num	0413	0414	002	Recode PCLOCB - Where did you take this survey? Mark yes or no for each item. Work/office
PCLOCCR	Num	0415	0416	002	Recode PCLOCC - Where did you take this survey? Mark yes or no for each item. Installation/ship library
PCLOCDR	Num	0417	0418	002	Recode PCLOCD - Where did you take this survey? Mark yes or no for each item. Installation/ship recreation center
PCLOCER	Num	0419	0420	002	Recode PCLOCE - Where did you take this survey? Mark yes or no for each item. Other non-military location (e.g., public library, cyber cafe)
PCLOCFR	Num	0421	0422	002	Recode PCLOCF - Where did you take this survey? Mark yes or no for each item. Deployed location (on land)
PCLOCGR	Num	0423	0424	002	Recode PCLOGC - Where did you take this survey? Mark yes or no for each item. On a deployed ship
PCLOCHR	Num	0425	0426	002	Recode PCLOCHR - Where did you take this survey? Mark yes or no for each item. On board a ship at sea on regular duty

PCLOCIR	Num	0427	0428	002	Recode PCLOCI - Where did you take this survey? Mark yes or no for each item. On board a ship in port
PCLOCJR	Num	0429	0430	002	Recode PCLOCJ - Where did you take this survey? Mark yes or no for each item. TDY or training location (non-deployment)
PCSLSTR2	Num	0431	0432	002	Recode PCSLAST - How many months has it been since your last PCS?
PCUSEAR	Num	0433	0434	002	Recode PCUSEA - Which of the following computers did you use to take this survey? Mark yes or no for each item. Government computer.
PCUSEBR	Num	0435	0436	002	Recode PCUSEB - Which of the following computers did you use to take this survey? Mark yes or no for each item. Privately owned computer.
PCUSECR	Num	0437	0438	002	Recode PCUSEC - Which of the following computers did you use to take this survey? Mark yes or no for each item. Public (e.g., library or cafe) computer.
PCUSEDR	Num	0439	0440	002	Recode PCUSED - Which of the following computers did you use to take this survey? Mark yes or no for each item. Other.
TMER2	Num	0441	0442	002	Recode TMER - Levels of 2003 total military earnings
XSVCR	Num	0443	0444	002	Imputed Service
XPAYGRP2R	Num	0445	0446	002	Imputed Paygrade Group 2 - 5 levels

proc means data=sasin.sf0408ap noprint;
var _TOTAL_ ;
output out=tots4fpc max=;
class EligFlgW V_STRAT;
run;

```

```
/*-----*
This procedure runs Proc SurveyMeans. Proc SurveyMeans uses Taylor
series variance estimates and is one of a few procedures in SAS that
applies sample design corrections to the estimated variances. Most
commonly available statistical programs have little or no capability to
compensate for survey sample designs and produce inaccurate variance
estimates.
```

In the example below Gender (XSEX) is the dependent variable and is treated as class variable. EligFlgW and XSVC are the independent variable. The results for EligFlgW show the estimated eligible and ineligible population totals for each sex. The EligFlgW*XSVC show the estimated eligible and ineligible population totals for each sex by Service.

Note that weighted ineligible records need to be included in all domain definitions in order to properly estimate variances even though the point estimates for the ineligible records may be of no interest. SAS does provide a macro that enables Proc SurveyMeans to analyze sub-populations without printing the point estimates of unwanted domains while still include the unwanted domain information in variance estimates.

```

Crosswalk of Questionnaire Items

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
1	In what Service where you on active duty on (Month, Year)	108*	1	1	1	1	1
2	Are you...? (male or female)	101	3	111	2	2	2
3	What is your current paygrade?	109	2	110	3	3	3
4	What is your marital status?	54	5	29	4	4	4
5	How many years have you been in a relationship with your current significant other (that is, girlfriend or boyfriend)			32	5	5	5
6	Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)	55*	6*	113*	6	6	6
7	Is your spouse a currently serving as a member of the National Guard or Reserve in a full-time active duty program (AGR, TAR, AR)?	55*	6*	113*	7	7	7
8	Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, IMA, IRR, military technician)?	55*	6*	113*	8	8	8
9	Last week, did your spouse do any work for pay or profit?		7	114	9	9	9
10	Last week, was your spouse temporarily absent from a job or business?		9	115	10	10	10
11	Has your spouse been looking for work during the last 4 weeks?		11	116	11	11	11
12	Last week, could your spouse have started a job if offered one, or returned to work if recalled?		12	117	12	12	12
13	What is the highest degree or level of school that you have completed?	106	4	112	13	13	13
14	Do you have a child, children or other legal dependents based on the definition above?	58	15	38	15	14	14
15	How many children or other legal dependents do you have in each age group?	59*	16	39	15	15*	15
16	Are you Spanish/Hispanic/Latino?	103	13	118	16	16	16

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
17	What is your race?	104	14	119	17	17	17
18	Where is your permanent duty station located?	5*	17	120	18	18	18
18_1	Please select from the list below your permanent duty station location within one of the 50 states, DC, Puerto Rico, a U.S. territory or possession.		17	120	19	18_1	19
18_2	Please enter the name of the country or installation.		17	120	20	18_2	20
19	Where do you live at your permanent duty station?	8*	18	121	55	19	21
19_1	Please specify where you live at your permanent duty station.		18	121	56	19_1	22
20	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?	39*	51	2	21	20	23
	a. Your total compensation (i.e., base pay, allowances, and bonuses)		51	2	21	20	23
	b. The type of work you do in your military job		51	2	21	20	23
	c. Your opportunities for promotion		51	2	21	20	23
	d. The quality of your coworkers		51	2	21	20	23
	e. The quality of your supervisor		51	2	21	20	23
21	Overall, how satisfied are you with the military way of life?	51*	52	3	22	21	24
22	How many years of active-duty service have you completed (including enlisted, warrant officer, and commissioned officer time)?	110					
23	Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?	32	22	6	23	22	25
24	Does your spouse or significant other think you should stay on or leave active duty?	34	26	36	24&25 23&24		26&27

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
25	Does your family think you should stay on or leave active duty?			37	26 25		28
26	Have you ever PCSed?	12*	35	9	27 26		29
27	How many months has it been since your last PCS?		36	10	28 27		30
28	In the <u>past 12 months</u> , how many times have you had to work longer than your normal duty day (i.e., overtime)?		39	11	29 28		31
29	In the <u>past 12 months</u> , how many nights have you been away from your permanent duty station because of your military duties?	17*	41	14	30 29		32
30	Are you currently on a deployment of 30 days or more?	6*		13*		30	33
31	Where are you currently deployed?	7*				31	34
31_1	Please select from the list below your deployment location within one of the 50 states, DC, Puerto Rico, a U.S. territory or possession.					31_1	35
31_2	Please enter the name of the country or installation.					31_2	36
32	In the <u>past 12 months</u> , have you spent more or less time away from your permanent duty station than you expected when you first entered the military?		43*	15	31 32		37
33	What impact has time away (or lack thereof) from your permanent duty station in the <u>past 12 months</u> had on your military career intentions?		42	16	32 33		38
34	Overall, how well prepared are <u>you</u> to perform your wartime job?		29*	18	33 34		39
35	Overall, how well prepared is <u>your unit</u> to perform its wartime mission?		28*	19	34 35		40

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408							
36	How well has your training prepared you to perform your wartime job?						
37	Overall, how would you rate the current level of stress in your work life?			20	35 36		41
38	Overall, how would you rate the current level of stress in your <u>personal</u> life?			21	36 37		42
39	During the past 12 months, were you away from your permanent duty station for the following operations?				37	39*	
	a. Operation Noble Eagle						
	b. Operation Iraqi Freedom				37a	39a*	43a
	c. Operation Enduring Freedom				37b	39b*	43b
	d. Other						
40	Since September 11, 2001, how many times have you been deployed in support of the GWOT?						
41	Since September 11, 2001, were you deployed to the following locations in support of the GWOT?						
	a. In on of the 50 states, DC, Puerto, Rico, A U.S. territory or possession						
	b. Afghanistan						
	c. Iraq						
	d. Other North Africa, Near East or South Asia country						
	e. Europe						
	f. Former Soviet Union						
	g. East Asia and Pacific						
	h. Sub-Saharan Africa						
	i. Western Hemisphere						
	j. Other						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
42	Since September 11, 2001, what is the total number of days you have been away from your permanent duty station in support of the GWOT?						
43	Have you been deployed to a combat zone or an area where you drew imminent danger or hostile fire pay since September 11, 2001?						
44	How many days have you been deployed to a combat zone or an area where you drew imminent danger or hostile fire pay since September 11, 2001						
45	Were you involved in combat operations?				38*	40*	44*
46	Are you still deployed to a combat zone or an area where you are drawing imminent danger or hostile fire pay?						
47	Were any of your deployments since September 11, 2001 longer than what you expected?						
48	Since September 11, 2001, have you been under stop-loss at any time?						
49	In which term of service are you serving now?	29					
50	How much time remains in your <u>current</u> enlistment term (including extensions) or service obligation?	30					
51	At the end of your current enlistment, would the offer of a re-enlistment bonus affect your re-enlistment decision?						
52	Would you be willing to accept an additional 3-year, active-duty service commitment if you were offered a monetary bonus?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
53	What is the minimum re-enlistment bonus that you would accept for an additional 3-year enlistment						
54	What is the monetary bonus that you would accept for an additional 3-year active-duty service commitment?						
55	If you could stay on active duty as long as you want, how likely is it that you would choose to serve in the military for <u>at least 20 years</u> ?	35	23				
56	How have the reports of alleged prisoner abuse at Abu Ghraib affected your desire to continue to serve in the military?						
57	When you finally leave active duty, how many <u>total years</u> of service do you expect to have?		24				
58	Suppose that you have to decide whether to stay on active duty. Which of the following would be the <u>most</u> important factor in this decision?						
58_1	Please specify other non-monetary incentives.						
59	Which of the following would be the <u>second most</u> important factor in this decision?						
59_1	Please specify other non-monetary incentives.						
60	Which of the following would be the <u>third most</u> important factor in this decision?						
60_1	Please specify other non-monetary incentives.						
61	What is most important to you in your career decisions?						
62	During the past 6 months, have you done any of the following to explore the possibility of <u>leaving</u> the military?	48*					
	a. Thought seriously about leaving the military	48*					

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408	b. Wondered what life might be like as a civilian	48*					
	c. Discussed leaving and/or civilian opportunities with family members or friends	48*					
	d. Talked about leaving with your immediate supervisor	48*					
	e. Gathered information on education programs or colleges	48*					
	f. Gathered information about civilian job options	48*					
	g. Attended a program that helps people prepare for civilian employment	48*					
	h. Prepared a resume	48*					
	i. Applied for a job	48*					
	j. Interviewed for a job	48*					
63	If you were to leave active duty in the next 12 months, what would be your primary activity?	37					
64	When you leave active duty, how likely is it that you will join a National Guard or Reserve unit?	38					
65	When you first entered the military, were you told that...						
	a. It was possible that you would be deployed during your time in service?						
	b. It was possible that you would be deployed to hostile or dangerous locations during your time in service?						
66	When you first entered the military, how likely did you think it was that you would be deployed in the first 4 years?						
67	When you first entered the military, how likely did you think it was that you would be deployed in your career?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408							
68	When your first entered the military, how likely did you thin it was that you would be deployed to dangerous places in the first 4 years?						
69	When you first entered the military, how likely did you think it was that you would be deployed to dangerous places in your career?						
70	In your career, how many times have you been deployed for 30 days or more?						
71	In your career, how many times have you been deployed to hostile locations for 30 days or more?						
72	How has the number of <u>non-hostile</u> deployments (or lack thereof) impacted your desire to stay in the military?						
73	Is this (your change in desire to stay) because there were too few or too many non-hostile deployments?						
74	How has the number of <u>hostile</u> deployments (or lack thereof) impacted your desire to stay in the military						
75	Is this (your change in desire to stay) because there were too few or too many hostile deployments?						
76	How satisfied were you with the care your family received during your most recent deployment?						
77	Have you ever been stationed overseas <u>with</u> your family?						
78	How many separate times have you been stationed overseas <u>with</u> your family?						
79	Have you ever been stationed overseas <u>without</u> your family?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408							
80	How many separate times have you been stationed overseas <u>without your family</u> ?						
81	How much do you agree or disagree with each of the following statements?						
	a. I enjoy serving in the military						
	b. Serving in the military is consistent with my personal goals						
	c. If I left the military, I would feel like I am starting all over again						
	d. I would feel guilty if I left the military						
	e. Generally, on a day-to-day basis, I am happy with my life in the military						
	f. It would be difficult for me to leave the military and give up the benefits that are available in the Service						
	g. I would not leave the military right now because I have a sense of obligation to the people in it						
	h. I really feel as if the military's values are my own						
	i. I would have difficulty finding a job if I left the military						
	j. Generally, on a day-to-day basis, I am proud to be in the military						
	k. If I left the military, I would feel like I had let my country down						
	l. I continue to serve in the military because leaving would require considerable sacrifice						
	m. I feel like being a member of the military can help me achieve what I want in life						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408	n. One of the problems with leaving the military would be the lack of available alternatives						
	o. I am committed to making the military my career						
82	How satisfied are you with each of the following aspects of military life?						
	a. Type of assignments received		34a				
	b. Frequency of PCS moves		34b				
	c. Deployments		34c				
	d. Other military duties that take you away from your permanent duty station		34d				
	e. Military values, lifestyle, and tradition		27a				
	f. Amount of enjoyment from your job		27b				
	g. Your personal workload		27c				
	h. Pace of your promotions		27d				
	i. Training and professional development		27e				
	j. Off -duty educational opportunities		27f				
	k. Job security		27h				
	l. Amount of personal and family time you have						
83	How would you rate <u>your</u> current level of morale?						
84	How would you rate the current level of morale in your unit?						
85	Indicate the extent to which you agree or disagree with the following statements about your unit.		31				
	a. Service members in your unit really care about each other		31a				
	b. Service members in your unit work well as a team		31b				

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408							
	c. Service members in your unit pull together to get the job done		31c				
	d. Service members in your unit trust each other		31d				
86	During the <u>past 30 days</u> , on how many days did you drink alcohol?						
87	When you drank alcohol in the <u>past 30 days</u> , about how many drinks did you typically have? (By “drink,” we mean a bottle or can of beer, a wine cooler or glass of wine, a shot of liquor, or a mixed drink or cocktail.)						
88	During the <u>past 30 days</u> , on how many days did you have 5 or more drinks of beer, wine, or liquor on the same occasion? (By “drink,” we mean a bottle or can of beer, a wine cooler or a glass of wine, a shot of liquor, or a mixed drink or cocktail. By “occasion,” we mean at the same time or within a couple of hours of each other.)						
89	During the past 30 days, on how many days did you have 4 or more drinks of beer, wine, or liquor on the same occasion? (By “drink,” we mean a bottle or can of beer, a wine cooler or a glass of wine, a shot of liquor, or a mixed drink or cocktail. By “occasion,” we mean at the same time or within a couple of hours of each other.)						
90	Think about the <u>past 30 days</u> . How many cigarettes did you usually smoke on a typical day?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
91	During the <u>past 30 days</u> , on average how often have you used chewing tobacco, snuff, or other smokeless tobacco?						
92	During the <u>past 30 days</u> , how many days did you do each of the following?						
	a. Run, jog, bicycle, or walk briskly or hike for 20 minutes or more						
	b. Engage in 20 minutes or more in other strenuous physical activity (e.g., handball, soccer, racquet sports, swimming laps)						
93	In thinking about your weight, do you consider yourself to be:						
94	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$100 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						
95	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$125 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
96	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$75 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						
97	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$150 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						
98	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$50 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
99	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$175 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						
100	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$25 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						
101	Assume you will retire after 20 years or more of military service. If you had the choice between the present retirement system or an alternative system where you would receive an additional \$200 basic pay per month for the remainder of your career, with retirement pay that would be reduced by \$200 a month, which would you choose?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
102	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an E-7 with 20 years of service your monthly retired pay would be about \$1,600 per month. Would you choose this amount from the day you retire or \$150,000 as a lump sum and \$1,600 starting at age 62?						
103	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an O-5 with 20 years of service your monthly retired pay would be about \$3,200 per month. Would you choose this amount from the day you retire or \$275,000 as a lump sum and \$3,200 starting at age 62?						
104	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an E-7 with 20 years of service your monthly retired pay would be about \$1,600 per month. Would you choose this amount from the day you retire or \$200,000 as a lump sum and \$1,600 starting at age 62?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408 105	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an O-5 with 20 years of service your monthly retired pay would be about \$3,200 per month. Would you choose this amount from the day you retire or \$325,000 as a lump sum and \$3,200 starting at age 62?						
106	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an E-7 with 20 years of service your monthly retired pay would be about \$1,600 per month. Would you choose this amount from the day you retire or \$250,000 as a lump sum and \$1,600 starting at age 62?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408 107	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an O-5 with 20 years of service your monthly retired pay would be about \$3,200 per month. Would you choose this amount from the day you retire or \$375,000 as a lump sum and \$3,200 starting at age 62?						
108	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an E-7 with 20 years of service your monthly retired pay would be about \$1,600 per month. Would you choose this amount from the day you retire or \$300,000 as a lump sum and \$1,600 starting at age 62?						
109	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an O-5 with 20 years of service your monthly retired pay would be about \$3,200 per month. Would you choose this amount from the day you retire or \$425,000 as a lump sum and \$3,200 starting at age 62?						

Q#	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003	April 2004 SOFS
0408 110	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an E-7 with 20 years of service your monthly retired pay would be about \$1,600 per month. Would you choose this amount from the day you retire or \$125,000 as a lump sum and \$1,600 starting at age 62?						
111	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an O-5 with 20 years of service your monthly retired pay would be about \$3,200 per month. Would you choose this amount from the day you retire or \$250,000 as a lump sum and \$3,200 starting at age 62?						
112	Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an E-7 with 20 years of service your monthly retired pay would be about \$1,600 per month. Would you choose this amount from the day you retire or \$100,000 as a lump sum and \$1,600 starting at age 62?

14. ABSTRACT The Status of Forces Surveys (SOFS) program is the Web-based component of the Human Resource Strategic Assessment Program (HRSAP) administered by DMDC for the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). HRSAP is designed to measure the attitudes and opinions of the entire DoD community--active and Reserve Service members, their families and DoD civilian--on the full range of personnel issues. The topics covered in the August 2004 Status of Forces Survey of Active-Duty Members include a series of items that is included on all active-duty SOFS. These items include overall satisfaction, retention intention, perceived readiness, stress, tempo, and permanent change of station (PCS) moves. In addition, items were included on the Global War on Terrorism (GWOT), details on retention, deployments, assignments, organizational commitment, satisfaction with aspects of military life, member's health, compensation, and tuition assistance programs.					
15. SUBJECT TERMS Survey, Active-duty Members, Employee Attitudes, HRSAP, Satisfaction, Retention Intention, PERSTEMPO, Readiness, Stress, Detailed OPS/PERSTEMPO, PCS Moves, Retention, Deployments, Organizational Commitment, Military Life, Member's Health, Compensation, and Tuition Assistance Programs

AF106

Assuming you will retire after 20 years or more of service, would you rather have the present retirement system or an alternative that provides a lump sum payment and a pension starting at age 62? For example, if you retired today as an E-7 with 20 years of service your monthly retired pay would be about \$1,600 per month. Would you choose this amount from the day you retire or \$250,000 as a lump sum and \$1,600 starting at age 62?

AF137U

The Department of Defense has been considering the elimination of the "up-or-out" rule for officers, thereby allowing officers passed over for promotion to stay on active duty. What impact do you believe such a policy change to "up-or-stay" would have on the morale of the officer corps, as whole? -Unedited

This variable is a collapsed version OCCAWAY6. Categories for OCCAWAY6 show range of average months away for persons in occupation groups. This variable is constructed from the match of duty occupations from 0312 Active Duty Master Edit file to Months Away (Proxy Perstempo) data. Months Away is based upon Family Separation Allowance disbursement tempo (and Hazardous Duty Pay) for service members with dependents.
