Acknowledgments

DMDC is indebted to numerous people for their assistance with the third Web-based Status of Forces Survey (SOFS) for the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The SOFS are conducted under the leadership of Anita Lancaster, Assistant Director for Program Management, and Timothy Elig, Chief of the Survey and Program Evaluation Division.

DMDC's Survey Technology Branch, under the guidance of James Caplan, Branch Chief, is responsible for data collection and preparation for the SOFS Program. The lead analyst on this survey was Laverne Wright who was supported by Consortium Research Fellows Elizabeth Howard, Amanda Moss, and Erin Senter. Data Recognition Corporation (DRC) performed data collection and editing.

DMDC's Program Evaluation Branch, under the guidance of Brian Lappin, Branch Chief, is responsible for the development of questionnaires used in the SOFS program. The lead developer on this survey was Kristin Williams. She was supported by Eric Kidwell, Consortium Research Fellow, in these efforts.

DMDC's Personnel Survey Branch, under the guidance of Richard Riemer, former Branch Chief, and Jean Fowler, current Branch Chief, is responsible for sampling and weighting methods used in the SOFS Program. Carla Scanlan used the DMDC Sampling Tool to plan the sample and developed the weights for this survey. Susan Reinhold, Carole Massey, and Deborah West provided programming support for the sampling and weighting tasks.

AUGUST 2006 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS: ADMINISTRATION, DATASETS, AND CODEBOOK

Introduction

The *Human Resource Strategic Assessment Program* (HRSAP), located at Defense Manpower Data Center (DMDC), consists of both Web-based and paper-and-pen surveys to support the personnel needs of the Under Secretary of Defense for Personnel and Readiness. These surveys assess the attitudes and opinions of the entire Department of Defense (DOD) community—active, reserve, civilian employees, and family members—on a wide range of personnel issues. The Web-based survey program, known as the Status of Forces Surveys (SOFS), provides timely data on active, reserve, and civilian members. There are nine SOFS Web surveys planned for each year, with three cross-sectional samples of each population: active-duty members, reserve component members, and DoD civilian employees. The paper-and-pen surveys are used to obtain data on sensitive topics (e.g., sexual harassment) and from populations with limited Internet access (e.g., spouses of active-duty and Reserve members).

Overview of Report

The next section of this report describes the procedures used to develop the instrument, design the sample, conduct the survey, process the data and prepare analysis weights. Along with Appendixes A and B, the methods section is the documentation of how the survey was conducted. DMDC (2006a) and Riemer and Kroeger (2002) provide details on sampling and weighting.

The third section of the report describes the survey analysis file layout and key variables. This section and the remaining Appendixes (C-K) address issues in the analysis of the survey data. Conventions for variable naming and construction are introduced in this section with details given in Appendixes C (annotated questionnaire), D (explanation of coding), and I (explanation of key analytic variables). Explanations for the groupings of variables seen in the positional list of variables in F¹ are discussed in this section as well as a description of information available in G for each variable. G contains details for variables in the same order that the variables are listed in F. In addition to the variables available on the basic survey file, G contains details for the confidential variables that had to be suppressed to preserve the privacy of survey respondents and nonrespondents. Confidential variables are identified and listed in Appendixes E and F. Key concepts required for the analysis of complex survey data and the structure of records in the survey analysis files are introduced in this section. Examples of analyses are given in J. The SAS code used to construct the analytic variables are included in I. H provides the record layout for the basic survey flat file. K summarizes questionnaire items used in recent DMDC surveys.

¹ An alphabetical list is at Appendix E.

Method

Survey Instrument

The topics covered in the August 2006 Status of Forces Survey of Active-Duty Members include a series of items that is included on all active-duty SOFS. These items include overall satisfaction, retention intention, perceived readiness, stress, tempo, and permanent change of station (PCS) moves. In addition, items were included on deployments since September 11, 2001, Military OneSource, detailed retention, deployments, satisfaction with aspects of military life, transition assistance, Servicemember's Group Life Insurance (SGLI), financial health, and attitudes towards drinking alcohol. The survey was subdivided into the following 15 topic areas:

1. Background Information—Service, gender, paygrade, education, marital status, spouse employment status, race/ethnicity, dependents, and location (both geographic and on/off base).
2. Satisfaction—Satisfaction with aspects of the military (e.g., compensation) and overall satisfaction with the military way of life.
3. Retention—Years of service, likelihood to stay on active duty, spouse/family support to stay on active duty, commitment to serve, and likelihood to join the National Guard or a Reserve unit.
4. Tempo—PCS moves, days worked overtime, time away from permanent duty station, and the impact of time away on career intentions.
5. Readiness—Individual and unit preparedness, and training effectiveness.
6. Stress—Level of stress in work and personal life.
7. Deployments Since September 11, 2001—Number of times deployed for operations, time spent away, location of deployments, days spent in a combat zone, combat involvement, deployment expectations, and stop-loss.
8. Military OneSource—Use and satisfaction of Military OneSource and reasons for not using Military OneSource.
9. Detailed Retention—Terms of service, time remaining on current enlistment term, re-enlistment and monetary bonuses, likelihood to stay at least 20 years, total expected years of service, important factors in reasons to stay, steps to leaving the military, primary activity after leaving the military, likelihood of recommending the service to a youth or child, and impact of eliminating “up-or-out” rule and implementing “up-or-stay”.
10. Deployments—Member's original understanding of likelihood of deployments, number of times deployed in career, impact of hostile and non-hostile deployments on retention, satisfaction of care of family while deployed, impact of Military, Welfare,

and Recreation support items on quality of life while deployed, and impact of deployment-related issues on retention.

11. Satisfaction With Aspects of Military Life—Satisfaction with aspects of military life, current level of member's and unit 's morale, and unit cohesion.
12. Transition Assistance—Availability of and likelihood to use transition assistance programs, awareness of unemployment benefits, access to and importance of information on transitioning to civilian life, and time remaining and reasons for leaving the Service.
13. Servicemember's Group Life Insurance (SGLI)—SGLI and other life insurance coverage, amount of additional life insurance coverage, best way to communicate SGLI program changes, and awareness of SGLI features.
14. Financial Health—Annual military earnings.
15. Attitudes Towards Drinking Alcohol—Attitudes about drinking excessively, actual drinking behavior, and recognition of military-sponsored educational programs.

Sample

The target population for all active-duty SOFS consists of (1) active-duty members of the Army, Navy, Marine Corps, and Air Force, (2) having at least 6 months service at the time the questionnaire is first fielded, (3) below flag rank when the sample is drawn six months prior to the survey, and (4) excluding National Guard and Reserve members in active-duty programs.

Stratification Variables

The sampling frame was constructed using the six stratification variables listed in Table 1. These six variables were used to create stratification cells. A single variable, SF02CELL, was created as an index variable for the strata.

Table 1.
Stratification Variables

Dimension of Stratification	Levels
Service	Army Navy Marine Corps Air Force
Gender	Male Female
Paygrade Group	E1 to E3 E4 E5 to E6 E7 to E9 WO1 to WO5 O1 to O3 O4 to O6
Race/Ethnic Category	Minority Non-minority
Regions	US & US territories, Other, Unknown Europe Asia & Pacific Islands All Regions
Family Status/Dual Service Spouse	Single with Child(ren) Dual Service Spouse Other Family Status

Researchers identified subgroup breakouts (i.e., domains) that would be important when survey results were provided to policy officials. These reporting domains were defined by Riemer and Kroeger (2002) using the 10 demographic variables shown in Table 2. For three demographic characteristics (race/ethnicity, region, and pay group), multiple versions of variables were created that differed in the level of detail. Less detailed variables were often used to define domains for analyses within the four Services than were used to define domains at the DoD level.

Next, researchers determined the number of people who would be sampled for each stratum using a sample-planning tool developed for Defense Manpower Data Center (Deever & Mason, 2002). A formal mathematical procedure (Chromy, 1987) based on Karush-Kuhn-Tucker theory is used in the sample-planning tool to determine an optimized sample size and allocation—a sample that would achieve at minimal cost (i.e., minimum sample size) the precision levels required for each analytic domain. The Kuhn-Tucker theory provides an optimal solution to satisfy precision constraints (e.g., ± 5 percentage points) imposed on estimates of prevalence rates in key reporting domains. Researchers iteratively modified the inputs to the

sample-planning tool to arrive at acceptable precision levels for reporting domains that would be of particular interest to policy officials. The domains match the reporting categories used in tabulating results (DMDC, 2006b).

Table 2.
Factors Defining Key Reporting Domains

Variable	Categories
Service branch*	Army Navy Marine Corps Air Force
Paygrade Group 1*	E1-E3 E4 E5-E6 E7-E9 W1-W5 O1-O3 O4-O6
Sex*	Male Female
Race/Ethnic Category 2*	Non-minority (Non-Hispanic White) Minority
Family-status 1	Unmarried with children Without children or married with children
Duty Location	U.S. Asia/Pacific Islands Europe
Dual Service Spouse	Unmarried or married to a civilian Married to an active-duty spouse
Race Code	White Asian or Pacific Islander Black American Indian or Alaskan native Other

Years of Service (YOS)	Enlisted 3 to 5 YOS Enlisted 6 to 9 YOS

Constructing the Frame and Drawing the Sample

DMDC's February 2006 Active Duty Master Edit File (ADMF) was used in developing the sampling frame, constructing strata, and determining the sample size and allocation. The specified definition of the population, described above, resulted in a sampling frame with 1,326,855 eligible members. A non-proportional stratified, single stage random sample of 39,389 members was selected. Table 3 presents a summary of the sample allocation by Service.

Table 3.
Sample Allocation for the August 2006 Status of Forces Survey of Active Duty Members

	Total	Army	Navy	Marine Corps	Air Force
Sample					
Total	39,389	13,723	9,981	8,702	6,983
Gender					
Male	32,818	11,423	8,328	7,946	5,121
Female	6,571	2,300	1,653	756	1,862
Paygrade Group					
E1-E3	7,771	1,990	2,957	2,347	477
E4	13,817	6,122	3,003	2,182	2,510

Other Family	33,754	11,643	8,636	8,028	5,447

Note. Counts for unknowns are not included.

Respondents

Sample Losses

The original sample file contained 39,389 records. Losses to the drawn sample are listed in Table 4 and reviewed here. Table 4 is limited to responses to the Web questionnaire as of August 31, 2006. Sample members were lost from the sample for three main reasons: (1) self-reported or other ineligibility for the survey, (2) an inability to locate the sample member, and (3) refusal to participate in the survey or other failure to respond to the survey.

A total of 313 sample members (0.37%) were lost from the final sample through classification as ineligible. Elimination of ineligibles resulted in decreasing the sample to 99.21% (N=39,076) of its original size.

Table 4.
Final Sample Relative to Drawn Sample

	Sample Size n	% of Drawn Sample	Weighted n	% of Weighted Sample
Drawn sample	39,389		1,326,855	
Ineligible on master files	-140	0.36%	-3,328	0.25%
Self-reported ineligible	-173	0.44%	-6,827	0.51%
Total: Ineligible	-313	0.79%	-10,155	0.77%
Eligible sample	39,076	99.21%	1,316,700	99.23%
Not located (estimated ineligible)	-78		-2,324	
Not located (estimated eligible)	-4,860		-138,299	
Total not located	-4,938	12.54%	-140,622	10.60%
Located sample	34,138	86.67%	1,176,078	88.64%
Requested removal from survey mailings	-260		-8,164	
Returned blank	-236		-8,074	
Skipped key questions	-566		-21,127	
Did not return a survey (estimated ineligible)	-372		-12,722	
Did not return a survey (estimated eligible)	-23,048		-757,098	
Total: Non-response	-24,482	62.15%	-807,185	60.83%
Usable responses	9,656	24.51%	368,893	27.80%

In general, residential addresses were used as the primary addresses of choice. In cases where residential addresses could not be identified, however, unit addresses were used. Procedures used to locate members are explained in a later section that describes the Survey Control System. Because of this address update procedure, only 12.54% of the drawn sample (4,938 of 39,389) was lost because the sample members could not be located. Personnel records for this group had missing, incomplete, or out-of-date addresses, and steps designed to obtain complete, current addresses for these records were unsuccessful.

Losses attributable to either ineligibility or unlocatability resulted in a sample that was 86.67% of the drawn sample. Individuals in this remaining sample may be further categorized as nonrespondents versus respondents. Nonrespondents included the following groups: sample members who contacted the operations contractor (by mail, fax, e-mail, Web, or telephone) and asked to have their names removed from the survey mailing list, and 24,482 sample members who did not return a survey.

Respondents included all sample members who completed on the Web 50% of applicable questions². At the conclusion of the survey fielding, 9,656 eligible, locatable sample members had returned usable surveys

Location, Response and Completion Rates

The Council of American Survey Research Organizations (CASRO) noted that varying operational definitions of response rates can lead to problems or confusion (e.g., when awarding contracts requiring pre-specified response rates or when interpreting the results of a survey). As a result, CASRO formed a task force to recommend guidelines for standardizing the operational definitions of response rates.

Beginning in 1995, DMDC standardized its methods for calculating response rates and completion rates using procedures patterned after those advocated by CASRO. More specifically, the new DMDC procedures closely follow CASRO's Sample Type II design (see Council of American Survey Research Organizations, 1982).

Table 5 provides location, response, and completion rate information using only the Web responses. The location rate is defined as the proportion of eligible sample members that were locatable. The response rate is defined as the proportion of eligible sample members that returned usable surveys, while the completion rate is defined as the proportion of the located sample that returned usable surveys.

² Applicable questions are those to be completed by all respondents and excluded items that could be skipped over depending on prior answers.

Table 5.
Location Rates, Response Rates, and Completion Rates

	Observed Operational Rates	Weighted Operational Rates
Location rate for eligible	87.4%	89.4%
Completion rate for eligible	28.6%	31.7%
Response rate for eligible	25.0%	28.3%

Survey Development and Administration

The survey was hosted on the operations contractor's secure Web site so that sample members could complete the survey online. At the entry point to the survey, members were prompted for their personal ticket number to gain entry to the survey. The Privacy Notice and a page of frequently asked questions (FAQ's) were also posted on the Web site.

The survey allowed respondents to return to the previous page or move to the next page. In addition, buttons located below the last question on each page allowed the respondent to clear their response(s) or save and exit the survey. Questions were answered by clicking on radio buttons, check boxes or by making a choice from a drop-down list. The respondent could change answers or could save, exit, and return at another time to change answers. The final page had another "Save and Exit" button and a "Done" button, both with full text explanation of their functions.

Survey Administration

The survey administration process began in July 2006, with mailouts of notification letters to sample members (minus original ineligible). Second notifications were sent by e-mail within 24 hours after the survey was available on the Web and six (6) reminder e-mails were sent to those for whom we had e-mail addresses.

Survey Control System

The Survey Control System (SCS)³ was used to monitor the data collection process and to track all data transactions over the course of the survey administration. The datasets in the SCS include sample members' names and addresses, but do not contain data obtained from the survey instruments. Because of privacy concerns, SCS datasets are not available for public release.

The operations contractor uses the SCS to store and update project data, monitor mailings, respond to documents returned as postal non-deliverables (PNDs), and determine survey participation and eligibility status. The SCS consists of five datasets: the ORIGDAT file,

³ In this document, the term SCS refers to the set of data files as well as the program or operating system which maintains those files.

the ADDRESS file, the MASTER file, the HISTORY file, and the MAILING file. The files are linked relationally by INRECNO, a unique individual identification number that is assigned to each sample member when the record was loaded into the SCS. Figure 1 displays the interrelationships among those datasets.

Figure 1.
Survey Control System

ORIGDAT file. The ORIGDAT file consists of 39,389 records, one record for each member of the sample. It is the original sampling frame file sent to the operations contractor by DMDC. The original file is loaded onto the operations contractor's computer system and converted to a SAS⁴ dataset. As the file was converted into a SAS dataset, the SCS generated a unique identification number (INRECNO) for each record. This number identifies the sample member throughout the SCS and also in returns data sets, comment text files and other specify text files. The names and some demographic data from the ORIGDAT file were loaded into the MASTER file in preparation for the first mailing. The addresses from the ORIGDAT file were loaded into the ADDRESS file.

ADDRESS file. The ADDRESS tracked the postal and e-mail addresses that were maintained for each sample member. The ADDRESS file contains one record for each postal and address for each sample member (e.g., if there were five addresses located for one sample

⁴ SAS® is a registered trademark of SAS Institute Inc., Cary, NC, USA.

member during the survey administration, that sample member has five separate records in the ADDRESS file) yielding an ADDRESS file containing 99,894 records. Each record is uniquely identified by the combination of INRECNO (identifying the sample member) and an address number (ADDRNO) assigned to each address. This address number is the sequential order of receipt of the address for a particular sample member. For example, if a sample member has one address record in the ADDRESS file, the address number for that record is one. If the sample member faxed in a change of postal or e-mail address or a credit bureau forwarded an updated postal address for that sample member, the new address was added as address number two. The ADDRESS file was initially loaded with postal and e-mail addresses from the ORIGDAT file. Each record in the ADDRESS file includes the sample member's INRECNO, SOFA0608, ADDRNO, address, the source of the address, and address priority code, a variable indicating whether the record is the highest priority address for this sample member, and variables indicating whether the address successfully reached the sample member.

The priority code assigned to a given address number for a sample member was used to determine the “best” or “highest priority” address for the sample member at any given time. It was originally determined by the source of the address. Address updates obtained directly from a sample member received a priority number of one. The order of priority of address sources from “highest priority” to “lowest priority” is as follows, respectively:

1. updates directly from a sample member (call, fax, e-mail, Web update or letter)
2. address corrections from the U.S. postal service (ACS [electronic address change service], ACRs [address correction requests], and ODFs [out-of-date-forwarded mail])
3. NCOA-updated addresses
4. credit bureau-updated addresses
5. DEERS residential addresses
6. DEERS unit addresses

MASTER file. The MASTER file is used by the SCS to select records for upcoming survey mailings. This file includes a record for each member of the sample and was initially created by extracting data from each record in the ORIGDAT file. Each MASTER record includes the sample member INRECNO, SOFA0608 and the address number for the highest priority postal and e-mail address in the ADDRESS file for this sample member. The MASTER file accommodated data updates through an automated process (e.g., updating the address number in use after the receipt of a postal or e-mail nondeliverable or Web update) or manual key entry (e.g., updating information in response to a telephone call, fax, letter return or e-mail from a sample member). As new information was received for a particular record (including changes to the highest priority address), the SCS updated the MASTER record (N=39,389) and wrote the old record to the HISTORY file. The MASTER file also contains a set of variables which summarize the sample member's participation in each of the mailings.

HISTORY file. The HISTORY file is a chronicle of the changes that occurred to the MASTER file. Each HISTORY record is a subset of an outdated MASTER record with the addition of a date and time stamp as the record is updated. That is, a HISTORY record is created when there is a name, address, paygrade, or eligibility status change in the MASTER file. Thus, the HISTORY file contains as many observations as there are updates to the MASTER file.

MAILING file. The MAILING file tracked all survey mailings (postal and e-mail). This file contains one record for either an item postal mailed or e-mailed during the survey administration or for tracking postal address updates from credit bureaus (N=108,645). Each MAILING record includes the SOFA0608, INRECNO, address number used, date of mailing, mailing status, type of mailing, and the mailing identification code (MIC).

Address Update Procedures

Initial Address Updates

Prior to the first mailing, the operations contractor ran all domestic residential addresses through Group 1 software to be formatted to conform to U.S. Postal Service standards. Once the addresses were standardized, they were sent to an outside vendor where they were checked against the National Change of Address (NCOA) database. The NCOA software updated the address records (in standardized format) based on change-of-address cards filed with the U.S. Postal Service. The updated NCOA address file was returned to the operations contractor and integrated into the SCS. The NCOA-updated addresses were added to the ADDRESS file and became the current ADDRNO with the “highest priority code assigned” in the MASTER file.

After the NCOA-updated data was added to the SCS, another file was compiled of sample members who had an incomplete address or an address identified by NCOA as an undocumented move (i.e., the sample member had moved, but NCOA did not have a new address). The operations contractor sent copies of this file to three credit bureaus (Experian, Trans Union and CSC Credit Services)⁵ to determine whether a complete, up-to-date address for these sample members could be found. The results were integrated into the SCS, updating records in the ADDRESS file.

Ongoing Address Updates

Address update procedures also occurred when (a) additional address records were received after NCOA processing, (b) a survey document was returned as undeliverable, (c) a sample member self-reported a name, rank, or address change, or (d) the U.S. Postal Service forwarded address correction information. Figure 2 outlines these procedures.

⁵ Experian, Trans Union and CSC Credit Services are outside vendors with consumer-credit information databases. Social security numbers of sample members with incomplete or out-of-date address information were forwarded to the vendors for address updates when the mailing dataset contained no valid address.

Figure 2.
Address Updating Procedures

As a new address was entered into the ADDRESS file, its source (NCOA, credit bureau, postal Address Correction Requested card, telephone call, fax, letter, Web, and e-mail) was recorded and a new address number was assigned. The priority assigned to the address was based upon the source of the update and the date and time of the address (see the description of priority, for the ADDRESS file). At any given time, the current address used corresponded to the address number with the highest priority code.

If all known addresses for a sample member were returned PND, the sample member's record in the MASTER file was flagged "no address available." All "no address available" records were forwarded to the three credit bureaus. The credit bureaus returned files containing addresses for each submitted record, with the date on which the credit bureau received the address. If more than one address for a sample member was received from credit bureaus, the address number corresponding to the address with the most recent receipt date received the highest priority code. If one or more of the credit bureaus returned a previously unattempted

address, the MASTER and ADDRESS files were updated and a re-mail was sent to the sample member. If none of the vendors had an updated address for the sample member, the operations contractor designated the sample member “nonlocatable” and stopped further mailings.

Processing of Updates

Updates from Sample Members

Updates from sample members could be communicated via the toll-free telephone number (either by speaking to the operations contractor’s Call Center staff or by leaving a voice mail message). In addition, sample members could mail, fax or e-mail updates or go to the survey Web site and enter updates. The updates made on the Web site were before the start of the survey and were loaded to the system every three days (to coincide with the notification mailing or re-mailing schedule). Other updates were entered into the SCS by the operations contractor’s Call Center staff by the next morning.

Updates from the U.S. Postal Service

There are several types of address updates provided by the postal service. They are detailed below; each includes a description of the processing steps.

1. Postal Non-Deliverable Mail (PND): The sample member moved and no forwarding address was available. The mail piece was returned to the operations contractor. The operations contractor removed the letter from the envelope and scanned it to capture the Mailing Identification Code (MIC) in the lower right corner. A file of the MICs was loaded to the Survey Control System so the records could be updated as PND. This was done every three days (to coincide with the mailing/re-mailing schedule). If the sample member had another address on file (e.g., the unit address), that address was used. If not, the Social Security Number was sent to the credit bureaus in search of a new address.
2. Address Correction Requests (ACR; hard-copy): Some post offices are not equipped to provide address corrections via ACS (the electronic service), so they provided the corrections via hard copy cards that were sent to the operations contractor. The corrections were key-entered by operations contractor’s Call Center staff, typically by close of business the next day but no later than prior to the preparation of the next mailing.

Survey Materials and Their Distribution

Each eligible sample member received at most four original mailings: a notification letter and three reminder letters. The notification mailing contained a letter and brochure (which provided sample members with answers to common questions about the survey). The reminder letters contained only a letter. A sample of letters and e-mail communications and brochure is provided in B.

In addition, e-mail was used to communicate with sample members. Not every sample member had an e-mail address. However, for those sample members for which we had an e-mail address, they received at most seven e-mails: an announcement and six reminders.

General Mailing Procedures

Prior to every mailing, the SCS searched the records in the MASTER file to identify which records should be excluded (e.g., sample members self-reported as ineligible for survey participation, sample members who had already returned survey forms, and members with no valid addresses available). For re-mails (sent between mailings), the SCS identified only those records that had been updated since the prior mailing. More specifically, the SCS identified records that had resulted in PNDs or had been manually flagged for re-mailing (e.g., in response to a sample member calling the operations contractor stating she or he had received a reminder/thank you letter but had not received a survey, etc.).

Once all records for a particular mailing or re-mailing were identified, the SCS processed the records based on whether or not the mailing would include a survey form. If the mailing group was large enough to lead to a cost savings from sorting, the records were run through Group 1 postal software to sort the records according to first-class presort postal regulations. After this procedure, a unique Mail Identification Code (MIC) was assigned to each record. The MIC was assigned either from the survey litho code list if a survey form was sent or independently if only a letter was sent.

Ticket Numbers for Web Survey Access

Prior to the first mailing, a list of ticket numbers⁶ for Web survey access was randomly generated. One secure ticket number was assigned to each sample member and remained linked to that member for the duration of the project. That is, while a member's MIC or lithocode changed with each mailing as described previously, the member's ticket number did not change. The member's unique ticket number was printed (along with the survey URL) in each letter, e-mail and brochure sent to that individual. A member could not access the Web survey without using his or her ticket number.

Description of Letters

Letters were printed with the record's unique MIC listed in the address field and on the lower right corner of the letter. If the mailing includes only letters (no survey forms), the letters were folded and machine inserted into window envelopes and sent by first class mail. Mailings that included a brochure or survey followed the same procedure through the letter printing process. The MIC on the brochure or cover letter was used to pair the letter with the correct enclosure. During the matching process, ten percent of the mailing was visually checked, comparing numbers printed on the letter with the brochure or survey number for quality control. Any mismatched pairs initiated further investigation of the matching process. This procedure ensured that each survey was sent to the person designated to receive it. Depending on the sample size, the letters and matched surveys were machine or hand inserted into envelopes, metered if necessary, and sent by first class mail.

⁶ Ticket numbers are eight alpha numeric characters generated at random.

The status of each mailing was tracked throughout the data collection so that address-correction information could be incorporated into all relevant mailings. When a mail piece came back PND, the next mail piece was sent to a new address (if one could be obtained during the mailing period). For all mailings, mail pieces that came back PND, re-mails were completed if a newer/updated address could be found.

DMDC provided the operations contractor with the text, letterhead and signature for the cover letters. The letters explained why the survey was being conducted, how the survey information would be used, and why participation was important. (See B for copies of the letters.) The letters were approved and printed on letterhead from the office of the Under Secretary of Defense. The letters were signed by the Under Secretary of Defense (Personnel and Readiness) David S.C. Chu.

The letterhead and signature were printed in blue, and the text and recipient information of all letters were printed in black. In addition to including a name and address (which was also used as the mailing information for the window envelopes), each letter included a personalized salutation. The salutation addressed each sample member by his/her rank. For example, a letter to a Navy E5 with the last name Smith would have included the salutation, "Dear Petty Officer Smith". Similarly, an Army O3 named Jones would have received a letter starting, "Dear Captain Jones". The address block also included service branch; for example, "Petty Officer John Smith USN" or "Captain Mary Jones USA".

Mailouts

Table 6 lists the mailing dates and return results for each of the mailouts and re-mailings. For the notification mailing, a letter along with a brochure was inserted into a #10 window envelope. The letter notified sample members that they were selected for this Web survey and encouraged their participation. The notification letter was mailed to 39,373 sample members on July 11, 2006.

The first reminder informed sample members of the live Web survey date and requested participation. For this mailing, a reminder letter was inserted into a #10 window envelope. The first reminder letter was mailed to 36,847 sample members on July 31, 2006.

A second reminder letter was sent to 34,491 sample members. The mailing was sent out August 9, 2006. The letter, inserted into a #10 window envelope, thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

A third reminder letter was sent to 32,539 sample members. The mailing was sent out August 17, 2006. The letter, inserted into a #10 window envelope, thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

Table 6.
Mailing Timeline and Return Results

Mailing Numbers and Groups	Mail Drop Date	Number Sent	Number of PNDs
Notification Domestic	7/11/06	39,305	5,900
Notification Foreign	7/11/06	68	12
Notification Domestic Re-mail 1	7/27/06	2,810	524
Subtotal: Notification		42,183	6,436
Reminder Domestic	7/31/06	36,781	2,396
Reminder Foreign	7/31/06	66	7
Reminder Domestic Re-mail 1	8/3/06	1,140	186
Subtotal: Reminder		37,987	2,589
Reminder 2 Domestic	8/9/06	34,435	70
Reminder 2 Foreign	8/9/06	56	8
Reminder 2 Domestic Re-mail 1	8/11/06	1,153	4
Subtotal: Reminder 2		35,644	82
Reminder 3 Domestic	8/17/06	32,490	9
Reminder 3 Foreign	8/17/06	49	0
Reminder 3 Domestic Re-mail 1	8/22/06	1,373	0
Subtotal: Reminder 3		33,912	9

E-mail was used to communicate with sample members. There were four sources for e-mails. First, each sample member had the opportunity to provide up to two personal e-mail addresses on the survey Internet site prior to start of the survey. The second source for e-mail addresses was the DEERS database. The third source was e-mail addresses generated for the Air Force members from the algorithm used by the Air Force for e-mail creation. The fourth source were e-mail addresses purchased from an outside vendor (N=4,845). The outside vendor maintains a customer database of e-mail addresses that has been lawfully collected and compiled from consumers pursuant to a notice that advised them that their personal data was being collected. Table 7 below shows the percent of sample members for whom we had at least one valid e-mail by Service.

Table 7.
E-mail Address Availability by Service

	Army	Navy	Marine Corps	Air Force	Total
Valid address available	61%	36%	31%	47%	46%
No valid address available	39%	64%	69%	53%	54%

At the start of the survey, sample members with e-mail addresses received an announcement which informed them the survey was active and ready for completion. An additional six e-mail reminders were sent throughout the survey field period. Table 8 lists the e-mail dates and e-mail addresses bounced. E-mail addresses “bounced” identifies sampled individuals that supplied an e-mail address but the address was invalid at the time DMDC attempted contact. This is analogous to a postal PND. E-mail address “sent” is not the same as e-mail received. It is analogous to the non-PND return experienced during a mailed survey. It is not known if the mail was delivered to the intended individual, only that it was not returned.

Table 8.
E-mail Communication Timeline

E-mail Numbers	E-mail Drop Date	Number Sent	Number Bounced
Announcement	7/24/06	24,556	6,571
Reminder 1	7/28/06	16,470	436
Reminder 2	8/3/06	14,582	136
Reminder 3	8/9/06	13,415	81
Reminder 4	8/15/06	12,572	124
Reminder 5	8/21/06	11,915	116
Reminder 6	8/25/06	11,314	72

Processing Returned Surveys

Once a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copied the indexed file to their internal network using FTP protocol.

The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

DMDC Coding Scheme

To convert the raw data into the item scores that appear in the basic survey data file, DMDC provided the operations contractor with the coding notes (contained in D) and an annotated copy of the survey form (C). Every attempt is made to capture all information from

completed surveys and preserve the data so that secondary analysts can later create variables that were not anticipated by DMDC researchers. To accomplish these goals, DMDC subscribes to a variety of coding conventions for all of its surveys. See D for in-depth coverage of these coding conventions.

DMDC uses “forward” coding when coding inconsistent answers in items with skip patterns. Data on the starting question accepted as marked and data for the items within the skip pattern are edited to be consistent with the starting question. However, an unedited version of each item is preserved in a full survey dataset. By preserving the unedited data, recoding can be done if ever required.

Coding or Keying Open-Ended Items

The Web survey contained six open-ended items. The original text responses from the six “other specify” response options were captured verbatim into a SAS[®] data set that is linked by the unique identification to the survey data. Text data in the SAS[®] files for open-ended items were spell-checked, and profanity, proper names, and locations were replaced with “(expletive),” “(name),” and “(location)” respectively.

For all open-ended items, the Web data file contains a flag indicating whether the respondent wrote anything in response to the item. Discrepancies existed where the Web data indicated presence of a comment but no comment was there.

Fifty-record Check

After receiving the first 50 returned records, the operations contractor ran a “50-record check.” DMDC checked the resulting data to determine if there were any unanticipated problems in the coding procedures (e.g., respondents were consistently answering in an unexpected manner). Minor corrections to these procedures were necessary as a result of this check and were reviewed by DMDC prior to production of the initial SAS[®] dataset. At the completion of the 50-record check, the operations contractor compiled the full set of returned surveys. The data were then cleaned and edited.

Survey Analysis Files

This section (a) provides an overview of requirements for analysis of the data, (b) documents the structure of survey analysis files created for the August 2006 survey, (c) describes the assembly of the analysis files, and (d) provides an overview of the variables in the survey analysis files.

Estimation

Data were collected from a non-proportional stratified, single stage random sample. Responses were weighted up to population totals adjusting for differential sampling and response rates in demographically homogenous groups. In general, the procedures used to compute sample estimates of population parameters (including population totals, means, proportions), tests of hypotheses, regression relations, and their associated variances are derived from the probability structure that gives rise to the observations. As with other surveys involving

complex probability structures, most of the parameter estimates of interest in this survey take the form of non-linear statistics. Examples include domain means and proportions where the denominator values are unknown and must be estimated from the sample data. The estimator takes the form of a ratio of random variables (i.e., the ratio of the estimated numerator and denominator totals or counts). In general, ratio estimates are not unbiased and their variances cannot be expressed in closed form. The variances are, therefore, approximated. The bias in a ratio estimate depends on the variance associated with the denominator total or count and can usually be ignored in samples having a large number of observations. As a working rule, the bias may be assumed negligible if the number of observations on which the estimate is based exceeds 30 or is otherwise large enough so that the coefficient of variation $[SE(x)/x]$ of the denominator is less than .10 (cf., Cochran, 1977, pp. 153-165).

Approximations for the variances commonly take the form of Taylor series linearizations or replicate methods such as those based on resampling methods. Variables have been included in the analyses files so that variance estimates can be based on Taylor series linearizations computed by SUDAAN⁷ for a stratified, without replacement design.

Many of the standard statistical software packages, such as SPSS⁸ and older versions of SAS,⁹ do not properly compute variance estimates from weighted data that were collected with a design other than simple random sampling. Variables have been included in the analysis file so that Taylor series estimates can be made with SAS PROC SURVEYMEAN and PROC SURVEYREG.

Analyzing the dataset with the proper use of the appropriate eligibility indicator (ELIGFLGW) and analysis weight (FINALWGT) in standard statistical programs will result in accurate point estimates but will not result in accurate variance estimates. Wolter (1985) provides a detailed discussion on methods used for variance estimation from sample surveys including replication, Taylor series approximation, and analytic methods.

Data Structure

Care was taken in the preparation of the survey analysis files to provide access to privileged data from the survey with sufficient information for accurate estimations, while meeting requirements for participant and non-participant anonymity. As described below, some detailed variables have been deleted from the basic survey files either because (a) they are typically needed only to analyze survey methods and not needed to analyze the survey data or (b) they provide too great a chance of identifying an individual. For the latter reason, some demographic variables are available on public files only in a collapsed version.

In addition to a basic survey file, a full survey file (containing a more complete set of variables than the basic survey file) has been prepared for internal DMDC use. Files were prepared as SAS and SPSS system files. An ASCII (Operating System or OS) flat file was prepared from the basic survey SAS system file. File names are indicated in Table 9.

⁷ SUDAAN® is a registered trademark of Research Triangle Institute, Research Triangle Park, NC, USA.

⁸ SPSS® is a registered trademark of SPSS Inc., Chicago, IL, USA.

⁹ SAS added survey procedures in Version 7, expanding them in releases 8.0 and higher.

Table 9.
Analysis File Names

Type of File	File Name
Basic Survey File – SAS	SF0608AP.7BDAT
Full Survey File – SAS	SF0608AC.7BDAT
Basic Survey File - SPSS	SF0608AP.POR
Basic Survey File – OS	SF0608AP.DAT

The structure of the full survey file is shown in Figure 3. The full survey file contains the basic survey file plus additional full survey variables.

All variables in the full survey file are documented in this report. Appendixes E and F list all variables with a notation to indicate which variables are confidential, and show where each variable is documented. Intermediate weighting variables that appear only in the full survey file are documented by Riemer and Kroeger (2002). Variables that appear in collapsed form in the basic survey part of the file and in a fuller version only in the full survey file are discussed later.

Analyses

Both the full survey file and basic survey file contain 39,389 records, one for every sampled individual. As depicted in Figure 3, these records can be divided into 4 subgroups. The *Non-Response Unweighted* subgroup, includes all records indicated by ELIGFLGW=3, where no usable Web response was received or no information was received to indicate ineligibility (n=29,420).

Assignment of a record to the other three subgroups was based on whether (a) an individual returned a “completed” survey; and (b) the person was eligible to be included in the population of interest. Final eligibility was limited to those in the February 2006 Active Duty Master File (ADMF) and who were also in the March 2006 DEERS Medical PIT extract and did not contact the operations contractor to indicate that they were ineligible. Records that did not meet this requirement were assigned as *Record Ineligible Unweighted*. Records that respondents had self- or proxy-reported as ineligible due to death, illness, incarceration, or separated from Service were assigned as *Ineligible Weighted*.

Records required for analyses are those in the *Ineligible Weighted* and *Eligible Respondents* subgroups. Both the *Eligible Weighted* (ELIGFLGW=1) and *Ineligible Weighted* (ELIGFLGW=2) are included because both types of records were used to develop weights that sum to the population total, and both types of records are needed to compute accurate variance estimates by the Taylor series linearization method implemented by SUDAAN and SAS PROC SURVEYMEANS.

To analyze the Web responses use the analytic weight, FINALWGT, with the file subset by ELIGFLGW.

Figure 3.
The Structure of the Full Survey File

Subgroups	Basic Survey File	Confidential and Detailed Methodological Variables	Web Eligibility Flag Value and Number of Records
Record Ineligible Unweighted			ELIGFLGW=4 n= 140
Non-Response Unweighted			ELIGFLGW=3 n=29,420
Ineligible Weighted			ELIGFLGW=2 n=173
Eligible Weighted			ELIGFLGW=1 n= 9,656

Note. The shaded portion represents the subset of the data typically required for analysis.

Variables in the Survey Analysis Files

Basic Survey File

The variables in the basic survey file fall into five categories: (1) derived from survey responses, (2) created by the operations contractor to document survey operations, (3) created to analyze the weighted dataset, (4) created by DMDC for analysis, and (5) extracted from administrative personnel records. Variables are grouped in these categories in F.

Information gathered on the survey.

These variables came directly from the survey or were constructed using only information from the survey. There is at least one variable for every item in the survey except for a few items that had to be removed to preserve confidentiality. The annotated questionnaire (see C) contains the item names, the values used to code the pre-specified alternatives, and references to applicable coding notes in D.

Although the first part of D extensively documents the conventions that DMDC uses to name survey variables, a brief overview of the naming convention is also given here. In general,

the survey-derived variables can be classified as variables that begin with either “AL,” “SR,” or “X.”

The naming of “AL” variables is reviewed using the example variable, “AL052A.” For the *August 2006 Status of Forces Survey of Active-Duty Members*, variables names begin with “AL” to denote the population (active duty) and the version of survey (second active-duty Web survey) in this series. The ending three or more numbers or letters correspond to the questionnaire item. In this example, the third through fifth digits indicate the main question number (052A) and the sixth digit (if any) indicate the sub-question item, such as (in this example) item A from a list of items in question 52. When possible, “X” is reserved to create special crossing (marginal) variables for key analyses. “X” variables typically involve imputation for missing data and, like “SR” variables, are intended to be consistent across DMDC surveys.

There are some variables in the dataset that are not labeled “AL” although they are survey variables. These variables are named unconventionally due to the expectation that they will reoccur in future surveys. This process aids in future analysis needs. For example, “CPAYRA” is the variable name for the item that asks sample members how important certain factors are in determining military compensation. This question will be asked in future surveys.

The “SR” variables are a set of primarily demographic items that are identically named across all DMDC surveys. The “SR” serves as a mnemonic for self-report with the remainder of the name indicating the data being collected. For example, “SRRACE” is the variable name for the item that asks sample members what race they consider themselves to be. Although all survey data are self-reported, the “SR” is used to distinguish survey-reported information from DMDC-provided information (e.g., “SRRACE” from the survey versus “RACE” from DMDC databases).

Variables constructed for analysis.

Certain demographic variables, including some information collected on the survey, had to be censored to preserve the anonymity promised to survey respondents and nonrespondents. For example, FUER is a recoding of FUE. An “R” as the last letter of a variable listed in Appendixes E and F is an indication that the variables may have been recoded to create special analysis variables and that the original variable is available only on the confidential analysis file.

Certain key demographic variables were constructed for DMDC analyses. These analytic variables, starting with “X,” are based primarily on self-reported information from the survey. Typically, where the self-reported information was missing on important demographics (e.g., Service, paygrade, location, respondent gender, education, race or ethnicity, family or marital status) data were imputed from member’s administrative record.

The race and ethnicity questions were combined to be reported in accordance with the Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (1997). Furthermore, a change was made in how responses were coded. In previous tabulations, mutually exclusive categories were developed to represent how these questions were answered by respondents. Starting with the current survey, however, all responses will be tabulated. Also,

items were combined to derive spouse employment indicators based on U.S. Census Bureau's Decennial Census and Current Population Survey (2002).

Appendix I documents many of the decisions made in the analyses reported by DMDC (2003). For a large number of survey items, analysts must make decisions on the treatment of special codes used to indicate inconsistencies in the survey data, especially on respondent failures to follow skip pattern directions.

Information on operations.

The DMDC-provided identification number, SOFA0608, is unique and is used to identify responses as they are processed. Other variables are created by the operations contractor but are too detailed to be in the basic survey file.

Information from sampling and record data.

Most of the variables used in sample design and selection are too detailed to be in the basic survey file (see the later section on confidential variables).

Information on weighting.

Derivation of weights is discussed in detail in DMDC (2006a) and Riemer and Kroeger (2002). See J for examples of analyses using these variables:¹⁰

ELIGFLGW	Eligibility Flag
FINALWGT	Final Weight with Non-response and Postratification Adjustments
V_STRAT	Variance Estimation Strata
TOTAL	Weighting Class Strata Totals Based on Sampling Frame Counts

Full Survey File

In addition to variables on the basic survey file, the full survey file also has five additional categories of variables: (1) the uncensored version of survey items that appear in a collapsed form in the basic survey section, (2) the uncensored version of key demographic variables used in analyses that appear in a collapsed form in the basic survey section; (3) detailed variables created by the operations contractor to document operations, (4) detailed variables used in sampling, and (5) detailed variables used in weighting. Variables are grouped in these categories in Appendixes E and F.

Confidential variables—survey data.

This section of the full survey file contains the original full version of survey variables that had to be recoded for the basic survey file to preserve confidentiality. To the extent

¹⁰ Two additional variables required for SUDAAN are on the dataset but not discussed in Appendix J: NPSTRAT, poststratification population counts; and, PSTRATA, poststratification strata.

possible, recoded versions of these variables are in the basic survey file section for variables constructed for analysis.

Confidential variables—analysis data.

This section of the full survey file contains the original full version of analytic variables constructed by DMDC. To the extent possible, recoded versions of these variables are in the basic survey file section for variables constructed for analysis.

Confidential variables—operations data.

This section of the full survey file contains operational variables created by the operations contractor. These variables are useful for methodological studies and/or were used in determining eligibility and response status.

The identifying variables describe how the record was processed once a survey was returned. The variables BATCH, SERIAL, and LITHO uniquely identify each returned survey. LITHO is the lithocode scanned from the survey. BATCH and SERIAL are the codes printed on the survey during scanning to identify the scan batch number and scan order of each survey. These numbers can be used to retrieve the paper copy of a survey for a short time after it has been scanned (e.g., should researchers want to check electronically-stored information against the respondent's answer on the paper survey). SCANDATE is the date the survey was scanned and INRECNO is the unique identification number assigned to each record. MAILING identifies which survey (i.e., the first-, second-, or third-wave mailing) the respondent returned. DUPRET and DUPRET2 indicate the receipt of multiple returns. DUPRET2 includes blank returns in the multiple counts; DUPRET excludes these returns.

The classification variables describe how individual sample member's records were grouped and indexed. FLAG_FIN indicates the final disposition status of a sample member (i.e., survey returned, blank survey returned, not locatable, or no return). Several other classification variables were used to categorize a survey's final disposition. These variables are: BLKREAS, SCSINEL, and REFUSE. BLKREAS codes the reason given by the sample member for returning a blank survey, SCSINEL indicates the reason given by the sample member for being ineligible, and REFUSE indicates whether a sample member refused to complete a survey.

Confidential variables—sampling and record data.

This section of the full survey file contains administrative file variables and constructed variables used in determining the sampling design. It also includes the sampling strata identifiers and counts.

Confidential variables—weighting.

This section of the full survey file contains variables used in analysis of non-response and in the construction of the weights.

Using G

Regardless of whether analysts use all or only portions of the database, all analysts should replicate the results found in the tables in G. It is only by replicating these results that analysts can be sure that they are reading the data correctly. An annotated example of an G table is listed in Figure 4. (However, table does not reflect actual results.)

Figure 4.
Annotated Example of a Table from G

¹August 2006 STATUS OF FORCES SURVEY OF ACTIVE DUTY MEMBERS

Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?

¹³G-2

1. **Codebook title and item text.** The codebook title is the same for every table in G of this codebook. It lists both the general study and the specific survey form being summarized. If applicable, the indented text under the title presents the verbatim question or instructions that accompany a specific item in the survey.
2. **Variable name.** The variable name for a survey item is up to eight characters in length and corresponds to the variable name that is used in the SAS[®]-based, basic survey data file. The conventions for naming survey-derived variables are documented in D. F contains a full listing of the basic survey file variables, as well as short descriptions of what the variables document.
3. **Survey item text.** For survey items, this text is the verbatim item wording. For other variables, this text provides a verbal description of the variable.
4. **Location of the item on the OS data file.** This block provides the location of the variable on the OS (ASCII) data file. The OS data block documents (a) the starting and ending column numbers where the data are stored and (b) the number of columns that the data occupy.
5. **SAS[®] data file information.** This block indicates format name, variable type, length and informat of the data in the SAS[®] data file. The last block indicates the informat appropriate for reading the data from the OS data file.
6. **Counts of item value responses.** This column indicates the number of sample members who fall into the category corresponding to each value for the variable. The count provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 39,389 records in the accompanying database. Before running complex statistical analyses, analysts are encouraged to re-create these frequency tables. Re-creating the counts minimally ensures that the data are being correctly read by the analysts' computers and programs.
7. **Respondent percentages for each value.** This column indicates the percentage of sample members who marked each variable value. The percentages are calculated by dividing the row value in the "FREQ" column by the total listed at the bottom of the "FREQ" column. The percentages provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 39,389 records in the accompanying database.
8. **Response OS values.** This column presents the OS (ASCII) code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form or in D. For example, all negative values are found in D.
9. **Response SAS[®] values.** This column presents the SAS[®] code for the actual or re-coded response values for each survey item. Further details on the values in this

column are found in either the annotated survey form or in D. Negative values are found in D.

10. **Explanation of the item value codes.** This column presents brief verbal explanations of the OS and SAS[®] coding for each survey item. If the coded information corresponds to survey response alternatives, the text in the table is the verbatim response from the survey instrument. More detailed explanations are found in either the annotated survey form or in D.
11. **Total of response frequencies and percents.** The number appearing at the bottom of the “FREQ” column is the total number of sample members in the basic survey file. This number is the same for every table in this codebook. That is, every sample member in the database is accounted for on every variable even if the variable indicates only that the information was missing for that sample member. The number appearing at the bottom of the “PERCENT” column is typically 100.0. Rounding error, however, occasionally causes the total percentage to be slightly above or below 100.0.
12. **Messages to analysts.** The messages alert analysts to situations specific to a variable including (a) rounding errors resulting in a total percentage other than 100 percent; (b) the variable having values that are “too numerous to list;” (c) extraction of the variable from another specified database; (d) creation of the variable from two or more variables specified in the message; and (e) further clarification of the survey item corresponding to the variable.
13. **Codebook page number.** This is the G page number corresponding to a specific variable. F identifies the page number in G where the variable can be found.

Appendix A.
August 2006 Status of Forces Survey of
Active Duty Members (SOFA0608)

August 2006 Status of Forces Survey of Active-Duty Members
ELIGIBILITY

1. In what Service were you on active duty on July 24, 2006?

- ☐ Army
- ☐ Navy
- ☐ Marine Corps
- ☐ Air Force
- ☐ None, I have separated or retired

***** Page Break *****

BACKGROUND INFORMATION

2. Are you...?

- ☐ Male
- ☐ Female

***** Page Break *****

BACKGROUND INFORMATION

3. What is your current paygrade? *Mark one.*

☐ E-1	☐ E-6	☐ W-1	☐ O-1/O-1E
☐ E-2	☐ E-7	☐ W-2	☐ O-2/O-2E
☐ E-3	☐ E-8	☐ W-3	☐ O-3/O-3E
☐ E-4	☐ E-9	☐ W-4	☐ O-4
☐ E-5		☐ W-5	☐ O-5
			☐ O-6 or above

***** Page Break *****

BACKGROUND INFORMATION

4. What is your marital status?

- ☐ Married
- ☐ Separated
- ☐ Divorced
- ☐ Widowed
- ☐ Never married

***** Page Break *****

BACKGROUND INFORMATION

5. How many years have you been in a relationship with your current significant other (that is, your girlfriend or boyfriend)?

- ☐ Does not apply; I do not have a girlfriend/boyfriend
- ☐ Less than 1 year
- ☐ 1 year to less than 6 years
- ☐ 6 years to less than 10 years
- ☐ 10 years or more

***** Page Break *****

BACKGROUND INFORMATION

In the following section, you will be asked questions about your spouse's employment status in enough detail to ensure comparability with national employment surveys.

6. Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

7. Is your spouse currently serving as a member of the National Guard or Reserve in a full-time, active-duty program (AGR/FTS/AR)?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

8. Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, Individual Mobilization Augmentee (IMA), Individual Ready Reserve (IRR))?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

9. **Last week**, did your spouse do any work for pay or profit? Mark "Yes" even if your spouse worked only one hour, or helped without pay in a family business or farm for 15 hours or more.

- ☐ Yes
☐ No

***** Page Break *****

BACKGROUND INFORMATION

10. **Last week**, was your spouse temporarily absent from a job or business?

- ☐ Yes, on vacation, temporary illness, labor dispute, etc.
☐ No

***** Page Break *****

BACKGROUND INFORMATION

11. Has your spouse been looking for work during the last 4 weeks?

- ☐ Yes
☐ No

***** Page Break *****

BACKGROUND INFORMATION

12. **Last week**, could your spouse have started a job if offered one, or returned to work if recalled?

- ☐ Yes, could have gone to work
☐ No, because of his/her temporary illness
☐ No, because of other reasons (in school, etc.)

***** Page Break *****

BACKGROUND INFORMATION

13. What is the highest degree or level of school that you have completed? Mark the one answer that describes the highest grade or degree that you have completed.

- ☐ 12 years or less of school (no diploma)
☐ High school graduate---traditional diploma

- ☐ High school graduate---alternative diploma (home school, GED, etc.)
- ☐ Some college credit, but less than 1 year
- ☐ 1 or more years of college, no degree
- ☐ Associate's degree (e.g., AA, AS)
- ☐ Bachelor's degree (e.g., BA, AB, BS)
- ☐ Master's, doctoral, or professional school degree (e.g., MA, MS, MEng, MBA, MSW, PhD, MD, JD, DVM)

***** Page Break *****

BACKGROUND INFORMATION

For the next questions, the definition of "child, children, other legal dependents" includes anyone in your family, except your spouse, who has, or is eligible to have, a Uniformed Services Identification and Privilege card (also called a military ID card) or is eligible for military health care benefits, and is enrolled in the Defense Enrollment Eligibility Reporting System (DEERS).

14. Do you have a child, children, or other legal dependents based on the definition above?

- ☐ Yes
- ☐ No

***** Page Break *****

BACKGROUND INFORMATION

15. How many children or other legal dependents do you have in each age group? *Mark one answer in each row. To indicate none, select "0". To indicate nine or more, select "9".*

	0	1	2	3	4	5	6	7	8	9
a. Less than 1 year old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
b. 1 year - under 2 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
c. 2 - 5 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
d. 6 - 13 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐

(Continued) How many children or other legal dependents do you have in each age group? *Mark one answer in each row. To indicate none, select "0". To indicate nine or more, select "9".*

	0	1	2	3	4	5	6	7	8	9
e. 14 - 18 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
f. 19 - 22 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
g. 23 years and older	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐

***** Page Break *****

BACKGROUND INFORMATION

16. Are you Spanish/Hispanic/Latino?

- ☐ No, not Spanish/Hispanic/Latino
- ☐ Yes, Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, or other Spanish/Hispanic/Latino

***** Page Break *****

BACKGROUND INFORMATION

17. What is your race? *Mark one or more races to indicate what race you consider yourself to be.*

- ☐ White
- ☐ Black or African-American
- ☐ American Indian or Alaska Native
- ☐ Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
- ☐ Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian or Chamorro)

***** Page Break *****

BACKGROUND INFORMATION

18. Where is your permanent duty station (homeport) located?

- ☐ In one of the 50 states, D.C., Puerto Rico, or a U.S. territory or possession
- ☐ Europe (e.g., Bosnia-Herzegovina, Germany, Italy, Serbia, United Kingdom)
- ☐ Former Soviet Union (e.g., Russia, Tajikistan, Uzbekistan)
- ☐ East Asia and Pacific (e.g., Australia, Japan, Korea)
- ☐ North Africa, Near East, or South Asia (e.g., Bahrain, Diego Garcia, Kuwait, Saudi Arabia)
- ☐ Sub-Saharan Africa (e.g., Kenya, South Africa)
- ☐ Western Hemisphere (e.g., Cuba, Honduras, Peru)
- ☐ Other or not sure

***** Page Break *****

BACKGROUND INFORMATION

Please select from the list below your permanent duty station location (homeport) within one of the 50 states, D.C., Puerto Rico, or a U.S. territory or possession.

Please select

***** Page Break *****

BACKGROUND INFORMATION

Please enter the name of the country or installation.

***** Page Break *****

BACKGROUND INFORMATION

19. Where do you live at your permanent duty station?

- ☐ Aboard ship
- ☐ Barracks/dorm/BEQ/UEPH/BOQ/UOPH military facility
- ☐ Military family housing, on base
- ☐ Military family housing, off base
- ☐ Privatized military housing that you rent on base
- ☐ Privatized military housing that you rent off base
- ☐ Civilian housing that you own or pay mortgage on
- ☐ Civilian housing that you rent
- ☐ Other

***** Page Break *****

BACKGROUND INFORMATION

Please specify where you live at your permanent duty station.

***** Page Break *****

SATISFACTION

20. Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?

	Very satisfied	Satisfied	Neither satisfied nor dissatisfied	Dissatisfied	Very dissatisfied
a. Your total compensation (i.e., base pay, allowances, and bonuses)	☐	☐	☐	☐	☐
b. The type of work you do in your military job	☐	☐	☐	☐	☐

c. Your opportunities for promotion	☐	☐	☐	☐	☐
d. The quality of your coworkers	☐	☐	☐	☐	☐
e. The quality of your supervisor	☐	☐	☐	☐	☐

***** Page Break *****

SATISFACTION

21. Overall, how satisfied are you with the military way of life?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

***** Page Break *****

RETENTION

22. How many years of active-duty service have you completed (including enlisted, warrant officer, and commissioned officer time)? *To indicate less than 1 year, enter "0". To indicate 35 years or more, enter "35".*

____ Years

***** Page Break *****

RETENTION

23. Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?

- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely
- ☐ Unlikely
- ☐ Very unlikely

***** Page Break *****

RETENTION

24. Does your spouse or significant other think you should stay on or leave active duty?

- ☐ Strongly favors staying

- ☐ Somewhat favors staying
- ☐ Has no opinion one way or the other
- ☐ Somewhat favors leaving
- ☐ Strongly favors leaving

***** Page Break *****

RETENTION

25. Does your family think you should stay on or leave active duty?

- ☐ Strongly favors staying
- ☐ Somewhat favors staying
- ☐ Has no opinion one way or the other
- ☐ Somewhat favors leaving
- ☐ Strongly favors leaving

***** Page Break *****

RETENTION

26. How much do you agree or disagree with each of the following statements?

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
a. I enjoy serving in the military	☐	☐	☐	☐	☐
b. Serving in the military is consistent with my personal goals	☐	☐	☐	☐	☐
c. If I left the military, I would feel like I am starting all over again	☐	☐	☐	☐	☐
d. I would feel guilty if I left the military	☐	☐	☐	☐	☐
e. Generally, on a day-to-day basis, I am happy with my life in the military	☐	☐	☐	☐	☐

(Continued) How much do you agree or disagree with each of the following statements?

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
f. It would be difficult for me to leave the military and give up the benefits that are available in the Service	☐	☐	☐	☐	☐
g. I would not leave the military right now because I have a sense of obligation to the people in it	☐	☐	☐	☐	☐

- h. I really feel as if the military's values are my own ☐ ☐ ☐ ☐ ☐
- i. I would have difficulty finding a job if I left the military ☐ ☐ ☐ ☐ ☐
- j. Generally, on a day-to-day basis, I am proud to be in the military ☐ ☐ ☐ ☐ ☐

(Continued) How much do you agree or disagree with each of the following statements?

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
k. If I left the military, I would feel like I had let my country down	☐	☐	☐	☐	☐
l. I continue to serve in the military because leaving would require considerable sacrifice	☐	☐	☐	☐	☐
m. I feel like being a member of the military can help me achieve what I want in life	☐	☐	☐	☐	☐
n. One of the problems with leaving the military would be the lack of available alternatives	☐	☐	☐	☐	☐
o. I am committed to making the military my career	☐	☐	☐	☐	☐

***** Page Break *****

RETENTION

27. When you leave active duty, how likely is it that you will join a National Guard or Reserve unit?

- ☐ Does not apply, retiring or otherwise ineligible
- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely
- ☐ Unlikely
- ☐ Very unlikely

***** Page Break *****

TEMPO

28. Have you ever PCSed?

- ☐ Yes
- ☐ No

***** Page Break *****

TEMPO

29. How many months has it been since your last PCS? *To indicate less than 1 month, enter "0". To indicate more than 99 months, enter "99".*

Months

***** Page Break *****

TEMPO

30. In the past 12 months, how many days have you had to work longer than your normal duty day (i.e., overtime)? *To indicate none, enter "0".*

Days

MILITARY ONESOURCE

56. How satisfied are you with Military OneSource?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

***** Page Break *****

DETAILED RETENTION

57. In which term of service are you currently serving?

- ☐ I am on indefinite status
- ☐ I am on [stop-loss](#)
- ☐ I am an officer serving an obligation
- ☐ 1st enlistment or an extension of 1st enlistment
- ☐ 2nd or later enlistment (including extensions)

***** Page Break *****

DETAILED RETENTION

58. How much time remains in your current enlistment term (including extensions) or service obligation?

- ☐ Less than 3 months
- ☐ 3 months to less than 7 months
- ☐ 7 months to less than 1 year
- ☐ 1 year to less than 2 years
- ☐ 2 years to less than 3 years
- ☐ 3 years or more

***** Page Break *****

DETAILED RETENTION

59. At the end of your current enlistment, would the offer of a re-enlistment bonus affect your decision for an additional 3-year enlistment?

- ☐ Does not apply, I will not be eligible to re-enlist (e.g., high year of tenure, age limits)
- ☐ Yes, I would re-enlist if the bonus was big enough
- ☐ No, I would re-enlist with or without a bonus
- ☐ No, I would not re-enlist regardless of the size of the bonus

***** Page Break *****

DETAILED RETENTION

60. Would you be willing to accept an additional 3-year, active-duty service commitment if you were offered a monetary bonus?

- ☐ Does not apply, I will have reached high year of tenure or maximum retirement age in less than 3 years
- ☐ Yes, I would accept a service commitment if the bonus was big enough
- ☐ No, I would accept a service commitment with or without a bonus
- ☐ No, I would not accept a service commitment regardless of the size of the bonus

***** Page Break *****

DETAILED RETENTION

61. What is the minimum re-enlistment bonus that you would accept for an additional 3-year enlistment?

Dollars

***** Page Break *****

DETAILED RETENTION

62. What is the minimum monetary bonus that you would accept for an additional 3-year active-duty service commitment?

Dollars

***** Page Break *****

DETAILED RETENTION

63. How likely is it that you would be allowed to stay on active-duty service at the end of your current term or service obligation?

- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely
- ☐ Unlikely
- ☐ Very unlikely

***** Page Break *****

DETAILED RETENTION

64. If you could stay on active duty as long as you want, how likely is it that you would choose to serve in the military for at least 20 years?

- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely
- ☐ Unlikely
- ☐ Very unlikely

***** Page Break *****

DETAILED RETENTION

65. When you finally leave active duty, how many total years of service do you expect to have? *To indicate less than one year, enter "0". To indicate thirty-five or more, enter "35".*

Years

***** Page Break *****

DETAILED RETENTION

66. Suppose that you have to decide whether to stay on active duty. Which of the following would be the most important factor in this decision? *Select one item from the list below.*

- ☐ Quality of the work environment based on unit morale, camaraderie, and professionalism
- ☐ Quality of leadership
- ☐ Choice of jobs
- ☐ Level of challenge in your job
- ☐ Sense of accomplishment from doing your job
- ☐ Opportunities to be assigned to station of choice
- ☐ Availability and quality of government-issued equipment to do your job
- ☐ Rotational assignments
- ☐ Level of integrity in your unit
- ☐ Amount of personal and family time you have
- ☐ Amount of time you spend away from your home station (e.g., deployments, field training exercises)

- ☐ Job security
- ☐ Opportunities for career advancement (e.g., pace of promotions)
- ☐ Opportunities for training and professional development
- ☐ Opportunity for retraining
- ☐ Opportunities for stabilized tours (i.e., more time between PCS moves)
- ☐ Annual leave
- ☐ Servicemembers Group Life Insurance (SGLI)
- ☐ Emergency relief societies (e.g., Air Force Aid Society, Army Emergency Relief, Navy Marine Corps Relief)
- ☐ Off-duty education opportunities
- ☐ Opportunities to travel
- ☐ Space available travel
- ☐ Thrift Savings Plan (TSP)
- ☐ Pride in serving your country
- ☐ Military values, lifestyle, and tradition
- ☐ Pay and allowances (e.g., basic pay, OHA, BAH, COLA)
- ☐ Special pays (e.g., special and incentive pays; bonus programs)
- ☐ Health care for you (e.g., dental and medical)
- ☐ Dental insurance for your family
- ☐ Health care for family
- ☐ Military retirement system
- ☐ Spouse/family attitudes
- ☐ Family support issues (e.g., spouse employment assistance)
- ☐ Child care
- ☐ Military housing
- ☐ Recognition (e.g., awards and decorations)
- ☐ Personal choice/freedoms (e.g., control of where to work, type of work)
- ☐ Fitness centers
- ☐ On-base schools for children
- ☐ Family concerns
- ☐ Family financial stability
- ☐ Other

DETAILED RETENTION

67. Suppose that you have to decide whether to stay on active duty. Which of the following would be the second most important factor in this decision? *Select one item from the list below.*

- ☐ Quality of the work environment based on unit morale, camaraderie, and professionalism
- ☐ Quality of leadership
- ☐ Choice of jobs
- ☐ Level of challenge in your job
- ☐ Sense of accomplishment from doing your job
- ☐ Opportunities to be assigned to station of choice
- ☐ Availability and quality of government-issued equipment to do your job
- ☐ Rotational assignments
- ☐ Level of integrity in your unit
- ☐ Amount of personal and family time you have
- ☐ Amount of time you spend away from your home station (e.g., deployments, field training exercises)
- ☐ Job security
- ☐ Opportunities for career advancement (e.g., pace of promotions)
- ☐ Opportunities for training and professional development
- ☐ Opportunity for retraining
- ☐ Opportunities for stabilized tours (i.e., more time between PCS moves)
- ☐ Annual leave
- ☐ Servicemembers Group Life Insurance (SGLI)
- ☐ Emergency relief societies (e.g., Air Force Aid Society, Army Emergency Relief, Navy Marine Corps Relief)
- ☐ Off-duty education opportunities
- ☐ Opportunities to travel
- ☐ Space available travel
- ☐ Thrift Savings Plan (TSP)
- ☐ Pride in serving your country
- ☐ Military values, lifestyle, and tradition
- ☐ Pay and allowances (e.g., basic pay, OHA, BAH, COLA)
- ☐ Special pays (e.g., special and incentive pays; bonus programs)
- ☐ Health care for you (e.g., dental and medical)
- ☐ Dental insurance for your family
- ☐ Health care for family
- ☐ Military retirement system
- ☐ Spouse/family attitudes
- ☐ Family support issues (e.g., spouse employment assistance)
- ☐ Child care
- ☐ Military housing
- ☐ Recognition (e.g., awards and decorations)
- ☐ Personal choice/freedoms (e.g., control of where to work, type of work)
- ☐ Fitness centers
- ☐ On-base schools for children
- ☐ Family concerns
- ☐ Family financial stability
- ☐ Other

MSG TERRY SAMPLE USA 06000035
PO BOX 9999
PINESVILLE GA 31310-9999

|||||

Dear Master Sergeant Sample:

You have been selected to participate in the *August 2006 Status of Forces Survey of Active-Duty Members*. The survey will be available at the Web site below around July 24, 2006. The survey will ask for your attitudes and opinions on a variety of topics related to your military service. This information will assist us in the development of policies and programs to improve the workplace for all military members. While your participation is desired, it is entirely voluntary.

I urge you to share your perspective on these important issues. This is your opportunity to directly impact the formulation of military personnel policies. These surveys are *Official Business* and can be completed at your duty station, using government equipment. If you choose, you can also complete the survey at home or elsewhere. I assure you that your responses will be kept confidential. No information about you as an individual will ever be released.

Please take the time today to provide us with an e-mail address to receive notifications about the survey by going to our Web site: <https://dodsurvey.osd.mil>. At the Web site, you will be asked to enter your **Ticket Number**. Your number is **JXXXXXXX**

If your address on this letter is incorrect, please contact us at the Web site above. If you cannot access the Web site or you have questions pertaining to the survey, there are three other ways to contact us: calling our Survey Processing Center at 1-800-881-5307, contacting us at ADSurvey@osd.pentagon.mil, or sending a fax to 1-763-268-3002. If you do not wish to participate or to receive reminders about this survey, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications.

Thank you for your time and assistance in this very important effort. For more information on the Status of Forces Survey Program, please see the enclosed brochure.

Sincerely,

David S. C. Chu
Under Secretary of Defense
(Personnel and Readiness)

Dear Petty Officer Sample:

We recently sent you a letter asking you to participate in the *August 2006 Status of Forces Survey of Active-Duty Members*. The survey is now available at the Web site below. If you have already completed the survey, thank you for taking the time to do so. If not, please log onto the following Web site:

<https://dodsurvey.osd.mil>

To access the survey, you will need to enter the following **Ticket Number: JXXXXXXX**

The survey should take 30 minutes or less to complete. Please keep in mind, these surveys are *Official Business* and they can be completed at your duty station, using government equipment. You can also complete the survey at home or elsewhere.

Your participation in this survey is important and voluntary. You were scientifically selected, as part of a small group of people, to participate in this survey. Therefore, your answers will represent the views of many others like yourself. This is your opportunity to inform policy officials of your satisfaction with various aspects of service. Be assured, your responses will be kept completely confidential. Only group statistics will be compiled and reported. No information about you as an individual will be disclosed.

If you cannot access the Web site or you experience any other problem with the survey, please e-mail ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free at 1-800-881-5307. If you do not wish to participate or to receive reminders about this survey, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications.

Your time and cooperation in this very important effort are greatly appreciated.

Sincerely,

David S. C. Chu
Under Secretary of Defense
(Personnel and Readiness)

July 24, 2006

AUGUST 2006 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS

Your Ticket Number:

The Under Secretary of Defense for Personnel and Readiness recently mailed you a letter urging you to participate in the August 2006 Status of Forces Survey of Active-Duty Members. The survey is now available at this Web site: <https://dodsurvey.osd.mil>

Simply click on the address above to go directly to the Web site. If this does not work, "copy and paste" this address into the Web address box of your Internet browser.

The survey should take 30 minutes or less to complete. Please try to take the survey today. Once you have accessed the Web site, you will need to enter the following Ticket Number to log on:

These surveys are Official Business, and can be completed at your work station using government equipment. If you choose, you can also complete the survey at home or elsewhere.

If you have any questions or concerns, you may reply to this message, or send an e-mail to ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free, at 1-800-881-5307. If you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from the mailing list by replying to this message. Be sure to include your ticket number and the words, "Please remove me from this survey's mailing list."

Thank you for participating in the August 2006 Status of Forces Survey of Active-Duty Members.

P.S. for Families of Deployed Members: We want to give every active-duty member a voice, including those who are deployed. Please forward this letter to your family member's current address. Thank you.

July 28, 2006

AUGUST 2006 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS

Your Ticket Number:

If you have already completed your August 2006 Status of Forces Survey of Active-Duty Members, thank you. If you have not, please try to do so today.

The Web site for the survey is: <https://dodsurvey.osd.mil>

Simply click on this address to go directly to the Web site. If this does not work, "copy and paste" this address into the Web address box of your Internet browser. Once you access the Web site, you will need to enter the following Ticket Number:

If you have any questions or concerns, you may reply to this message, or send an e-mail to ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free, at 1-800-881-5307. P.S. for Families of Deployed Members: We want to give every active-duty member a voice, including those who are deployed. Please forward this letter to your family member's current address. Thank you.

August 15, 2006

AUGUST 2006 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS

Your Ticket Number:

We have received many, many surveys and want to thank all of you who have taken the time so far to answer the survey. Your input is greatly appreciated—thank you.

If you have not had a chance to participate or complete your survey and you would like to inform senior policy officials of your opinion on various aspects of government service, please take the time to complete the survey.

The Web site for the survey is: <https://dodsurvey.osd.mil>

Simply double-click on this address to go directly to the Web site. If this does not work, “copy and paste” this address into the Web address box of your Internet browser. Once at the Web site, you will need to enter the following Ticket Number:

If you have any questions or concerns, you may reply to this message, or send an e-mail to ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free, at 1-800-881-5307. If, however, you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from the mailing list by replying to this message or by sending an e-mail requesting removal to: ADSurvey@osd.pentagon.mil. Be sure to include your ticket number and the words, "Please remove me from this survey's mailing list." If you prefer, you can also leave this request on voice mail at 1-800-881-5307. Be sure to mention your ticket number.

P.S. for Families of Deployed Members: We want to give every active-duty member a voice, including those who are deployed. Please forward this letter to your family member's current address. Thank you.

August 21, 2006

AUGUST 2006 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS

Your Ticket Number:

If you have already completed your August 2006 Status of Forces Survey of Active-Duty Members, thank you. If you have not, please try to do so today. The survey will only be available for approximately one more week.

The Web site for the survey is: <https://dodsurvey.osd.mil>

Simply double-click on this address to go directly to the Web site. If this does not work, "copy and paste" this address into the Web address box of your Internet browser. Once you enter the Web site, you will need to enter the following Ticket Number:

If you have any questions or concerns, you may reply to this message, or send an e-mail to ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free, at 1-800-881-5307. If, however, you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from the mailing list by replying to this message or by sending an e-mail requesting removal to: ADSurvey@osd.pentagon.mil. Be sure to include your ticket number and the words, "Please remove me from this survey's mailing list." If you prefer, you can also leave this request on voice mail at 1-800-881-5307. Be sure to mention your ticket number.

P.S. for Families of Deployed Members: We want to give every active-duty member a voice, including those who are deployed. Please forward this letter to your family member's current address. Thank you.

August 25, 2006

AUGUST 2006 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS

Your Ticket Number:

For those who have completed the August 2006 Status of Forces Survey of Active-Duty Members, thank you very much. If you have not, there are only a few days remaining before we will have to close the Web site. Please take the time before August 28, 2006 to take the survey.

The survey is available at this Web site: <https://dodsurvey.osd.mil>
Simply double-click on this address to go directly to the Web site. If this does not work, "copy and paste" this address into the Web address box of your Internet browser. Once you enter the Web site, you will need to enter the following Ticket Number:

If you have partially completed the survey, but have not clicked the "Submit," please log onto the Web site, complete as many items as you can, and submit the survey to us. After August 28, 2006, we will consider whatever items you have completed at that point to be your intended response. If, however, you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from the mailing list by replying to this message or by sending an e-mail requesting removal to: ADSurvey@osd.pentagon.mil. Be sure to include your ticket number and the words, "Please remove me from this survey's mailing list." If you prefer, you can also leave this request on voice mail at 1-800-881-5307. Be sure to mention your ticket number.

P.S. for Families of Deployed Members: We want to give every active-duty member a voice, including those who are deployed. Please forward this letter to your family member's current address. Thank you.

WILL MY ANSWERS BE KEPT PRIVATE?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- Only group statistics will be reported. Individual data will not be reported.

PRIVACY ACT STATEMENT

In accordance with the Privacy Act, this notice informs you of the purpose of these surveys and how the findings of these surveys will be used. Please read it carefully.

AUTHORITY: 10 United States Code, Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in these surveys will be used to report attitudes and perceptions about personnel programs and policies. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Offices of the Secretary of Defense and each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. In no case will the data be reported or used for identifiable individual(s).

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. There is no penalty if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by persons engaged in, and for purposes of, the survey research.

HRSAP Surveys

DMDC

*Human Resources
Strategic Assessment
Program (HRSAP)*

***Status of Forces
Surveys***

Office of the Under Secretary of Defense
(Personnel & Readiness)
Defense Manpower Data Center

1600 Wilson Blvd., Suite 400
Arlington, VA 22209-2593
www.dmdc.osd.mil

WHAT ARE HUMAN RESOURCES STRATEGIC ASSESSMENT PROGRAM (HRSAP) SURVEYS?

- HRSAP is a Department of Defense (DoD) personnel survey program that features Web-based and paper surveys sponsored by the Under Secretary of Defense for Personnel and Readiness.
- The Status of Forces Surveys enable the DoD, on a regular basis, to quickly and accurately gauge the attitudes and opinions of the entire DoD community - active-duty and Reserve component members, and DoD civilians - on the full range of personnel issues.
- The Defense Manpower Data Center (DMDC) is tasked with administering those surveys.

HOW DO I PARTICIPATE?

- You'll need a Ticket Number each time you access the survey Web site.
- You will find a tear-out card with a ticket number below. Please register on-line now, and you will be contacted via e-mail when the survey is ready to take.
- This tear-out card was designed to fit in your wallet. Please remove and save for future use.

HOW DID YOU PICK ME?

- We use well-established, scientific procedures to select a sample that represents the Defense community.
- This sampling procedure sets up clusters of people based on combinations of demographic characteristics (e.g., location, gender).
- You were selected at random from one of these clusters of people.

WHY SHOULD I PARTICIPATE?

- This is your chance to be heard on issues that directly affect you.
- Some examples of topics include: quality of life, retention, retirement, and satisfaction.
- Your answers on a survey *make a difference*. For example, results from previous surveys have played an important role in deliberations on pay rate adjustments, cost of living and housing allowances, and morale and retention programs.

WHY USE THE WEB? WHAT IF I DON'T HAVE A COMPUTER OR ACCESS TO THE INTERNET?

- Web administration enables us to get survey results to senior Defense officials faster.
- These surveys are *Official Business*; therefore, they can be completed at your duty station using government equipment.
- If you don't have a computer or Internet at work/home, many installation and public libraries, as well as education centers, have computers with Internet access that you could use.

WILL I EVER SEE THE RESULTS OF THE SURVEYS?

- Briefings and reports on results from these surveys will be posted on the following Web site: <http://www.dmdc.osd.mil/surveys/>

WHAT DOES DMDC DO?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in DoD. These data are used to support the management information needs of the Office of the Secretary of Defense and many offices both within and outside of the Department.
- DMDC operates major programs that affect active duty and Reserve component military members and their families, and DoD civilian employees. Programs include conducting personnel surveys; helping ensure access to military medical facilities; managing the military and civilian ID card issuance program; and assisting with transitions back into the private sector.

Appendix C.

Annotated Questionnaire

August 2006 Status of Forces Survey of Active-Duty Members
ELIGIBILITY

SRSVC1

1. In what Service were you on active duty on July 24, 2006?

- 1 ☐ Army

Appendix D. Coding Scheme

APPENDIX D: Coding Scheme for the *August 2006 Status of Forces Survey of Active Duty Members*

The guiding premise of coding this and other DMDC surveys is that the analysts creating the dataset will not be the only ones analyzing the data. DMDC rarely collects data only for immediate use or to answer one question. Different people, both at DMDC and other organizations (government, academic, and private-sector), analyze DMDC datasets repeatedly over time. Every care is taken in organizing and documenting DMDC surveys so secondary analysts can be reasonably certain they understand both how the data are coded and the limitations of the data. This describes (a) variable naming conventions, (b) how data are captured from the survey instrument, and (c) the edit process to create survey response variables for the analysis file.

Variable Naming

In responding to a customer's request for information, DMDC often uses multiple data sources. Information on a particular topic could be obtained from different surveys or from a survey that has been repeated over a number of years. For example, a customer might be interested in organizational commitment items included in a survey of active duty members in 1999 and in an exit survey in 2000. Conventions discussed below are being used as a means for facilitating such analyses.

Non-survey-derived Variables

Variable names for non-survey-derived variables tend to use acronyms that aid in remembering the meanings of the variables. Two important conventions were used in naming variables.

A variable name from DMDC record files was used only if the data, values, and value labels were identical to those from an official DMDC personnel data file. When data were added to an analysis file unchanged from record data, the same variable name, values, and value labels were used. For example, SERVICE is a field in the ADMF and RCCPDS that indicates the member's service. Since the variable in the survey data file is identical to that in the record data from the month that the sample was drawn, the same variable name and labels were used. In contrast, the variable CSERVICE has slightly different values and value labels, and consequently was given a variable name that is not used in the official records so as not to confuse analysts who work routinely with record data.

Beginning a variable name with "X" indicates it is a special crossing (marginal) variable for key analyses. "X variables" typically involve using record data to impute values for missing data in survey items. X variables may also require collapsing or recoding to missing in order to preserve confidentiality of respondents. (See I for the programming that was used to compute X variables.)

Survey-derived Variables

Identical demographic items are used across many DMDC surveys. Each time these items are used, common variable names and values are used. The variable names for this group of demographic items start with “SR” (mnemonic for self reported). The following items in this survey fall into this category: SRSEX (for gender), SRED (for education), SRRACEA-E (for race) and SRHISP (for Hispanic ethnicity). COMMENT (for a flag indicating if a comment has been entered) and SRDATE (for the date the survey was completed) are other standard variables across DMDC surveys.

The basic naming conventions are implemented as follows for August 2006 Status of Forces Survey of Active Duty Members:

- The first and second positions are “AL” for the basic variables for items appearing in August 2006 SOFS.
- The third, fourth, and fifth characters after the AL are item numbers in the survey from 001 through 128.
- Letters following the numbers for multi-part items usually represent the sub-item. The exceptions, skip pattern flags (ending in “SK”) and specify flags (ending in a “SP”), are explained later in the section titled, Standard Flag Variables.

Value Coding and Formats

Datasets were prepared as SAS¹¹ system files. An OS or flat file version of the public release file was then prepared from the SAS system file. This section describes how values were treated in creating the SAS system files and notes any differences in the flat file.

In the SAS system files, variables were declared as numeric unless they contained true alphabetic characters. Although numeric variables can take more storage space, many statistical and logical operations can be done only with variables that are declared as numeric. Values for alphabetic variables were input with \$CHARww. formats to preserve leading, embedded, and trailing blanks.

Raw-Data Encoding Process

When a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copies the indexed file to their internal network. The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

Web data are matched back to sample members by matching the ticket number to INRECNO and subsequently to the respondent. The “other specify” and open-ended comments are collected in a comment file and linked to the Web survey data by ticket number. Because the Web survey does not allow multiple or lightly marked responses, there is no need for editing the

¹¹ SAS is a trademark of the SAS Institute, Inc.

data. However, all text entries are cleaned and edited to remove identifying information and expletives.

Data cleaning can be thought of as occurring in four coding steps. In practice, these steps may not be strictly linear, nor neatly match the processing steps discussed above. However, they are a convenient framework to understand the meaning of the codes.

14. Each response is coded with one of two types of standard codes: valid response option value (see Coding Annotation of the survey form in C) or no response (-9).
15. Specify flag variables are created, and codes are assigned to indicate if respondents typed in responses correctly where text boxes were used.
16. Skip flag variables are created, and codes are assigned to indicate if respondents completed the skip pattern correctly. Special codes for valid skips are assigned to variables within skip patterns using a “forward coding” process.
17. Text code variables are created, and codes are assigned based on the content coding of the text entries.

In the coding sequence, coding in the third and later steps builds on prior steps and usually involves values in multiple items to resolve edits.

The next sections discuss the assignment of missing value codes, the special treatment of data variables, and the editing of skip patterns during steps 3 and 4.

Missing Data Codes

The instructions used to assign missing data codes and other special codes are shown in three tables. In these tables, the value labels associated with each assigned code are shown in italicized text. These are the SAS format labels used in the SAS dataset.

- Table D-1 contains basic SAS and flat file missing data codes.
- Table D-2 contains SAS and flat file missing data codes for dates.
- Table D-3 provides detailed coding notes on items involving skip patterns, text boxes or other non-obvious coding.

The codes presented in Table D-1 are general missing data codes that have been adopted in recent years for use on DMDC surveys. (Standards for date variables are in Table D-2.) Both tables have separate columns for values used for SAS system files and flat files. The biggest difference between the flat files and SAS system files is in the treatment of missing values. The flat file codes differ from the SAS codes because SAS implements special missing codes and formats that may not be compatible with other statistical analysis software such as SPSS¹².

¹² SPSS is a trademark of SPSS Inc.

Table D-1.
Basic SAS® and Flat Missing Data Codes

SAS® File		Flat File		
Numeric	Alpha	Numeric	Alpha	Description
.	.	-9	.	<i>No response or missing skip</i>
.O	.O	-7	.O	<i>Out-of-range</i>
.N	.N	-6	.N	<i>Not applicable or valid skip</i>
.F	.F	-5	.F	<i>Variable not on survey form.</i> This value is reserved for multiple-form surveys
.I	.I	-4	.I	<i>Incomplete grid error</i>
.G	.G	-3	.G	<i>No match on official records.</i> Only used for master file, sampling, and weighting variables for surveys that cannot be matched back to the sample file. Typically used in files of duplicate returns; these returns are not stored in the main or basic survey data files.
.B	.B	-1	.B	<i>Blank/no survey.</i> Filler values for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.
99	DK	99	DK	<i>Don't know or Not sure*</i>

*Use of "Don't know" or "Not sure" as a response is not missing data. It is, however, given special treatment because it lacks precision and is *sometimes* excluded when calculating percentages.

Table D-2.
SAS® and Flat File Missing Data Codes for Dates

SAS® File		Flat File		Description
Re-coded Value	Value read from input	YYYYMMDDMMYYYY		
.	-54908	18090901	SEP1809	<i>No response (invalid skip)</i>
.O	-55701	18070701	JUL1807	<i>Out-of-range error</i>
.N	-56096	18060601	JUN1806	<i>Not applicable (valid skip)</i>
.I	-56887	18040401	APR1804	<i>Incomplete grid error</i>
.B	-58073	18010101	JAN1801	<i>Blank/no survey.</i> Filler value for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.

Note: This conversion has already been done in DMDC SAS® files.

SAS can represent up to 27 missing data values for numeric variables as either a period or a period-letter combination. While SAS can read alpha characters representing missing data in a raw data field declared to be numeric, other programs such as SPSS do not accept these characters in numeric fields. Missing numeric data are represented in the flat files by negative numbers that can be declared as missing values. For example, a multiple response error in flat files is coded as a “-8”, which can be declared as a missing value when the data are input in SPSS—in the SAS file, the value “.A” is used to represent a multiple response error.

Data requirements of SUDAAN¹³ were also considered in coding. Primarily this means avoiding in coding the use of a zero, which has a special use for certain procedures in SUDAAN, for a variable that will be used as an independent variable.

Many types of missing data are common to surveys and are self-explanatory. In general, missing data are coded as “-9” (SAS: .) when respondents skip the item invalidly. Incomplete or in inappropriate responses in text boxes that could not be resolved to numeric are coded as “-4” (SAS: .I). Out-of-range responses in grids (e.g., number of days or weeks in a year larger than 365 or 52, respectively) are coded as “-7” (SAS: .O).

For a single item that contains a response alternative of “Not applicable,” or multiple items that can be affected by a skip pattern, or when item(s) have multiple ways to be not applicable, a missing data code of “-6” (SAS: .N) is typically used.

Multiple survey forms or modes (e.g., paper and web) are sometimes used in a single effort, and the data from all the related forms may be combined into a single dataset for analysis. Questions may appear in one form or mode but not in another. In a combined dataset, a code of “-5” (SAS: .F) indicates missing data for variables not on the form completed by a respondent.

¹³ SUDAAN is a trademark of the Research Triangle Institute.

Records are included in the files for sampled members regardless of whether or not they returned a survey. If a member did not return a survey or returned a blank survey, every survey variable is assigned a value of “-1” (SAS: .B).

Standard Flag Variables

This survey employs two standard flag variables: specify flags and skip flags. Specify and skip flags are created during the second and third edit steps.

Skip pattern flags indicate whether one or more questions were or were not to be asked of respondents. For example, if respondents to this survey indicate on Question 4 (SRMARST) that they were not married or separated, then respondents were not to see Question 6. PRSE1ASK is a flag variable indicating if Question 6 (PRSEMP01) was answered consistently with the skip direction. Skip flags are useful for evaluating the effectiveness of the skip pattern and for screening out ambiguous response patterns during analysis.

Specify flags are used to verify whether additional information was or was not to be gathered on a particular question. For example, AD080SP is a flag variable indicating when respondents had another reason for a physical injury or medical profile that caused them to be absent from their primary duties. The specify flag indicates that the specify box, on Question 80, item d, was enabled to allow respondents to type in text. Specify flags are useful for evaluating the completeness of the option categories; for example, answering “yes” for the category “other reason”.

Special Codes for Skip Patterns

Coding steps 3 and 4 involve editing data to resolve discrepancies in skip patterns. Skip flags are created in step 3. Table D-1 introduced the general outline of the skip flags, but the specific flags for each skip pattern are specified in Table D-3.¹⁴ After the creation of all the skip flags in step 3, variables within the skip patterns are forward coded in step 4 to make them consistent with the variables that start the skip patterns. To preserve all data, the variables within skip patterns are first copied to a set of confidential variables. The naming convention for these “raw” variables is to end the name with “U” for Unedited. Table D-3 specifies how to assign the special values, to variables within the skip patterns. While Table D-3 is organized to show all the edits for a skip pattern, all step 3 edits are made prior to making any step 4 edits. The remainder of this section describes the logic behind coding of skip patterns.

While an analyst can ignore discrepancies between a respondent’s answer on an item containing a conditional direction to skip items and answers to those items, it is generally better to resolve the discrepancies. Two ways of resolving the discrepancies can be termed backward and forward coding. Backward coding involves correcting the discrepancy by editing back from the skip pattern items to make the initial question conform. Forward coding involves correcting the discrepancy by editing forward from the initial question to make the skip pattern items conform. Data for this survey are forward coded with data on the starting question accepted as marked and data for the items within the skip pattern edited to be consistent with the starting question.

¹⁴ Table D-3 also provides special coding notes for other non-obvious codings.

If a starting item is marked in such a way that the respondent should skip, items within the skip pattern have the not applicable value (.N) assigned regardless of what the respondent marked on the items within the skip pattern. These values differentiate items with data missing because the item should have been skipped from items where data are missing because the respondent should have answered them but did not.

Table D-3.
Special Coding Notes

Note Coding instructions and codebook specifications

1. **SRSVC1. Codebook page for SRSVC1 should note:**

"Respondents indicating separated or retired (SRSVC1=5) are considered ineligible for survey."

2. **MARDISCK, MARDISCU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**MARDISCK** is an indicator of whether **MARDISC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 3 OR SRMARST = 4) OR SRMARST = 5) then **MARDISCK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**MARDISCU** = **MARDISC**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If MARDISCK = 1 then do;

MARDISC = .N;

end;

.N = (Not Applicable)

3. **PRSEMP01SK, PRSEMP01U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRSEMP01SK** is an indicator of whether **PRSEMP01** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRMARST = 1 OR SRMARST = 2) then **PRSEMP01SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSEMP01U = PRSEMP01**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRSEMP01SK = 1 then do;

PRSEMP01 = .N;

end;

.N = (Not Applicable)

4. **PRSEMP02SK, PRSEMP02U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRSEMP02SK** is an indicator of whether **PRSEMP02** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) then **PRSEMP02SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSEMP02U = PRSEMP02**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRSEMP02SK = 1 then do;

PRSEMP02 = .N;

end;

.N = (Not Applicable)

5. **PRSEMP03SK, PRCPS01U, PRSEMP03U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRSEMP03SK** is an indicator of whether **PRCPS01, PRSEMP03** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) then **PRSEMP03SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"PRCPS01U = PRCPS01, PRSEMP03U = PRSEMP03, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRSEMP03SK = 1 then do;

PRCPS01 = .N;

PRSEMP03 = .N;

end;

.N = (Not Applicable)

6. **PRCPS02SK, PRCPS02U. The following explains how to create the flag variable - the codebook page should contain this information:**

"PRCPS02SK is an indicator of whether **PRCPS02** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) then **PRCPS02SK = 2 (Asked).**"

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"PRCPS02U = PRCPS02, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRCPS02SK = 1 then do;

PRCPS02 = .N;

end;

.N = (Not Applicable)

7. **PRCPS03SK, PRCPS03U. The following explains how to create the flag variable - the codebook page should contain this information:**

"PRCPS03SK is an indicator of whether **PRCPS03** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) AND PRCPS02 = 1) then **PRCPS03SK = 2 (Asked).**"

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS03U** = **PRCPS03**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRCPS03SK = 1 then do;

PRCPS03 = .N;

end;

.N = (Not Applicable)

8. **PRCPS04SK, PRCPS04U. The following explains how to create the flag variable - the codebook page should contain this information:**

"**PRCPS04SK** is an indicator of whether **PRCPS04** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) AND PRCPS02 = 1) AND PRCPS03 = 2) then **PRCPS04SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS04U** = **PRCPS04**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRCPS04SK = 1 then do;

PRCPS04 = .N;

end;

.N = (Not Applicable)

9. **DEPDNTASK, DEPDNTAU, DEPDNTBU, DEPDNTCU, DEPDNTDU, DEPDNTEU, DEPDNTFU, DEPDNTGU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"DEPDNTASK is an indicator of whether **DEPDNTA, DEPNTB, DEPNTC, DEPNTD, DEPNT E, DEPNTF, DEPNTG** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If DEPNTS = 2 then **DEPDNTASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPDNTAU = DEPNTA, DEPNTBU = DEPNTB, DEPNTCU = DEPNTC, DEPNTDU = DEPNTD, DEPNT EU = DEPNT E, DEPNTFU = DEPNTF, DEPNTGU = DEPNTG**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DEPNTASK = 1 then do;

DEPDNTA = 0;
DEPDNTB = 0;
DEPDNTC = 0;
DEPDNTD = 0;
DEPDNT E = 0;
DEPDNTF = 0;
DEPDNTG = 0;

end;

.N = (Not Applicable)

10. **SRRACEA—SRRACEE, SRRETH1**

The codebook pages for SRRACEA—SRRACEE should note:

"These items are consistent with the '1997 Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity' and the 2000 Decennial Census."

SRRACEA—SRRACEE are coded as "Mark all that apply" items, where 1=Not marked and 2=Marked. **SRRACEA** indicates whether the "White" response category was marked, **SRRACEB** indicates whether the "Black or African-American" response category was marked, **SRRACEC** indicates whether "American Indian or Alaskan Native" was marked, **SRRACED** indicates whether "Asian" was marked, and **SRRACEE** indicates whether "Native Hawaiian or other Pacific Islander" was marked. If none are marked, then all of SRRACEA—SRRACEE are assigned -9 (missing).

SRRETH1 implements the October 1997 standards for reporting Federal data on race and ethnicity. The codebook page for SRRETH1 should note:

“These racial/ethnic categories are consistent with the 1997 standards for maintaining, collecting, and presenting federal data on race and ethnicity.”

SRRETH1 groups responses to **SRRACEA-SRRACEE** into racial/ethnic categories including multi-racial combinations. The categories are broken down by whether the respondent indicates Hispanic descent (from variable SRHISPA1). Each description in the “RACIAL CATEGORY” column of the chart is preceded by an H for “Hispanic” if the respondent has a value of 2 for SRHISPA1 and by a NH for “Non-Hispanic” if SRHISPA1 has a value of 1. The columns to the right of the descriptions show the Hispanic and race /ethnicity codes matching each description. The coding for **SRRETH1** follows the coding provided in the chart. For example, Hispanic single-race respondents who mark only one of the **SRRACEA-SRRACEE** are assigned the corresponding code (1-5) from the racial/ethnic categories. Hispanics selecting more than one race are coded 7. Non-Hispanics reporting no race code are coded as missing (-9). The “Unassigned categories (coded as 6 and 14), are not populated in this survey, but are used when the additional response option of “Other” for race/ethnicity are included in the question. The categories for Non-Hispanics are similar, except that some racial combinations form their own categories (codes 15-18). The remaining combinations reported by Non-Hispanics are coded as 19.

CODE	RACIAL CATEGORY (SRRETH1)	SR-HISP	SR-RACEA	SR-RACEB	SR-RACEC	SR-RACED	SR-RACEE
1	H American Indian or Alaska Native	2	1	1	2	1	1
2	H Asian	2	1	1	1	2	1
3	H Black or African American	2	1	2	1	1	1
4	H Native Hawaiian or Other Pacific Islander	2	1	1	1	1	2
5	H White	2	2	1	1	1	1
6	H Some other race	2	(Not used in August 2006 SOFS for AD Members)				
7	Hispanic/Latino reporting more than one race	2	(Any combination of more than one 2 in SRRACEA-E)				
8	H Unknown race	2	-9	-9	-9	-9	-9
9	NH American Indian or Alaska Native	1	1	1	2	1	1
10	NH Asian	1	1	1	1	2	1
11	NH Black or African American	1	1	2	1	1	1
12	NH Native Hawaiian or Other Pacific Islander	1	1	1	1	1	2
13	NH White	1	2	1	1	1	1
14	NH Some other race	1	(Not used August 2006 SOFS for AD Members)				
15	NH American Indian or Alaska Native & White	1	2	1	2	1	1
16	NH Asian & White	1	2	1	1	2	1
17	NH Black or African American & White	1	2	2	1	1	1
18	NH American Indian or Alaska Native & Black or African American	1	1	2	2	1	1
19	NH Balance of individuals reporting more than one race	1	(Any other combination of more than one 2 in SRRACEA-E)				

11. SRDULCDSK, SRDULCDU. The following explains how to create the flag variable -- the codebook page should contain this information:

"SRDULCDSK is an indicator of whether SRDULCD were or were not to be asked of a respondent and its initial value is 1 (Not asked). If SRDULOC = 1 then SRDULCDSK = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"SRDULCDU = SRDULCD, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SRDULCDSK = 1 then do;

SRDULCD = .N;

end;

.N = (Not Applicable)

12. SRDULSPSK, SRDULSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SRDULSPSK** is an indicator of whether **SRDULSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **SRDULOC** = 8 then **SRDULSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SRDULSPU** = **SRDULSP**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **SRDULSPSK** = 1 then do;

SRDULSP = '.N';

end;

.N = (Not Applicable)

13. SRBAHSPSK, SRBAHSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SRBAHSPSK** is an indicator of whether **SRBAHSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **SRBAH** = 9 then **SRBAHSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SRBAHSPU** = **SRBAHSP**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **SRBAHSPSK** = 1 then do;

SRBAHSP = '.N';

end;

.N = (Not Applicable)

14. PRSTAYABSK, PRSTAYABU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**PRSTAYABSK** is an indicator of whether **PRSTAYAB** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) OR (((SRMARST = 3 OR SRMARST = 4) OR SRMARST = 5) AND (((MARDISC = 1 OR MARDISC = 2) OR MARDISC = 3) OR MARDISC = 4))) then **PRSTAYABSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSTAYABU** = **PRSTAYAB**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRSTAYABSK = 1 then do;

PRSTAYAB = .N;

end;

.N = (Not Applicable)

15. PCSLASTSK, PCSLASTU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**PCSLASTSK** is an indicator of whether **PCSLAST** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If PCS = 2 then **PCSLASTSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PCSLASTU** = **PCSLAST**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PCSLASTSK = 1 then do;

PCSLAST = .N;

end;

.N = (Not Applicable)

16. DEPLYSK, DEPLYU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLYSK** is an indicator of whether **DEPLY** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLYP** = 2 then **DEPLYSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLYU** = **DEPLY**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **DEPLYSK** = 1 then do;

DEPLY = .N;

end;

.N = (Not Applicable)

17. DEPLOCSK, DEPLOCU. The following explains how to create the flag variable - the codebook page should contain this information:

"**DEPLOCSK** is an indicator of whether **DEPLOC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLY** = 2 then **DEPLOCSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOCU** = **DEPLOC**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **DEPLOCSK** = 1 then do;

DEPLOC = .N;

end;

.N = (Not Applicable)

18. DEPLOCDISK, DEPLOC DU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLOCDISK** is an indicator of whether **DEPLOCD** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLOC** = 1 then **DEPLOCDISK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOCDU** = **DEPLOCD**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **DEPLOCDISK** = 1 then do;

DEPLOCD = .N;

end;

.N = (Not Applicable)

19. DEPLOSPSK, DEPLOSP U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLOSPSK** is an indicator of whether **DEPLOSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLOC** = 10 then **DEPLOSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOSPU** = **DEPLOSP**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **DEPLOSPSK** = 1 then do;

DEPLOSP = '.N';

end;

.N = (Not Applicable)

20. OPSSPSK, OPSSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**OPSSPSK** is an indicator of whether **OPSSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((OPSD = 1 OR OPSD = 2) OR OPSD = 3) then **OPSSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**OPSSPU** = **OPSSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If OPSSPSK = 1 then do;

OPSSP = '.N';

end;

.N = (Not Applicable)

21. NUDEPLSK, NUDEPLU, OPSLOCAU, OPSLOCBU, OPSLOCCU, OPSLOCDU, OPSLOCEU, OPSLOCFU, OPSLOGU, OPSLOCHU, OPSLOCIU, OPSLOCJU. The following explains how to create the flag variable - the codebook page should contain this information:

"**NUDEPLSK** is an indicator of whether **NUDEPL**, **OPSLOCA**, **OPSLOCB**, **OPSLOCC**, **OPSLOCD**, **OPSLOCE**, **OPSLOCF**, **OPSLOGC**, **OPSLOCH**, **OPSLOCI**, **OPSLOCJ** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) then **NUDEPLSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**NUDEPLU** = **NUDEPL**, **OPSLOCAU** = **OPSLOCA**, **OPSLOCBU** = **OPSLOCB**, **OPSLOCCU** = **OPSLOCC**, **OPSLOCDU** = **OPSLOCD**, **OPSLOCEU** = **OPSLOCE**, **OPSLOCFU** = **OPSLOCF**, **OPSLOGU** = **OPSLOGC**, **OPSLOCHU** = **OPSLOCH**, **OPSLOCIU** = **OPSLOCI**, **OPSLOCJU** = **OPSLOCJ**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If NUDEPLSK = 1 then do;

NUDEPL = .N;
OPSLOCA = .N;
OPSLOCB = .N;
OPSLOCC = .N;
OPSLOCD = .N;
OPSLOCE = .N;
OPSLOCF = .N;
OPSLOCG = .N;
OPSLOCH = .N;
OPSLOCI = .N;
OPSLOCJ = .N;

end;

.N = (Not Applicable)

22. OPSLCCDSK, OPSLCCDU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**OPSLCCDSK** is an indicator of whether **OPSLCCD** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If OPSLOCA = 2 then **OPSLCCDSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**OPSLCCDU** = **OPSLCCD**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If OPSLCCDSK = 1 then do;

OPSLCCD = .N;

end;

.N = (Not Applicable)

23. OPSLOSPSK, OPSLOSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**OPSLOSPSK** is an indicator of whether **OPSLOSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If OPSLOCJ = 2 then **OPSLOSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**OPSLOSPU = OPSLOSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If OPSLOSPSK = 1 then do;

OPSLOSP = '.N';

end;

.N = (Not Applicable)

- 24. SPTNMDYSK, SPTCZU, SPTNMDYU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SPTNMDYSK** is an indicator of whether **SPTCZ**, **SPTNMDY** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) then **SPTNMDYSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SPTCZU = SPTCZ**, **SPTNMDYU = SPTNMDY**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SPTNMDYSK = 1 then do;

SPTCZ = .N;

SPTNMDY = .N;

end;

.N = (Not Applicable)

- 25. SPTCZDYSK, CDPLNMU, SPTCZDYU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SPTCZDYSK** is an indicator of whether **CDPLNM**, **SPTCZDY** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) AND SPTCZ = 2) then **SPTCZDYSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CDPLNMU = CDPLNM, SPTCZDYU = SPTCZDY**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SPTCZDYSK = 1 then do;

CDPLNM = .N;

SPTCZDY = .N;

end;

.N = (Not Applicable)

26. CMBTOPSK, CMBTOPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**CMBTOPSK** is an indicator of whether **CMBTOP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) then **CMBTOPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CMBTOPU = CMBTOP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If CMBTOPSK = 1 then do;

CMBTOP = .N;

end;

.N = (Not Applicable)

27. CMBTDPLSK, CMBTDPLU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**CMBTDPLSK** is an indicator of whether **CMBTDPL** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((DEPLY = 2 AND (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0)) AND SPTCZ = 2) then **CMBTDPLSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CMBTDPLU = CMBTDPL**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If CMBTDPLSK = 1 then do;

CMBTDPL = .N;

end;

.N = (Not Applicable)

28. SPTLONGSK, SPTLONGU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SPTLONGSK** is an indicator of whether **SPTLONG** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) then **SPTLONGSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SPTLONGU = SPTLONG**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SPTLONGSK = 1 then do;

SPTLONG = .N;

end;

.N = (Not Applicable)

29. M1SNUESK, M1SNUSEU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**M1SNUESK** is an indicator of whether **M1SNUSE** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((M1SUSEA = 1 AND M1SUSEB = 1) AND M1SUSEC = 1) AND M1SUSED = 1) then **M1SNUESK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**M1SNUSEU** = **M1SNUSE**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **M1SNUSESK** = 1 then do;

M1SNUSE = .N;

end;

.N = (Not Applicable)

30. M1SNUSPSK, M1SNUSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**M1SNUSPSK** is an indicator of whether **M1SNUSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **M1SNUSE** = 6 then **M1SNUSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**M1SNUSPU** = **M1SNUSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **M1SNUSPSK** = 1 then do;

M1SNUSP = '.N';

end;

.N = (Not Applicable)

31. SATM1SSK, SATM1SU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SATM1SSK** is an indicator of whether **SATM1S** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((**M1SUSEA** = 2 OR **M1SUSEB** = 2) OR **M1SUSEC** = 2) OR **M1SUSED** = 2) then **SATM1SSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SATM1SU** = **SATM1S**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **SATM1SSK** = 1 then do;

SATM1S = .N;

end;

.N = (Not Applicable)

32. TIMETERMSK, TIMETERMU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**TIMETERMSK** is an indicator of whether **TIMETERM** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((**SERVTERM** = 3 OR **SERVTERM** = 4) OR **SERVTERM** = 5) then **TIMETERMSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**TIMETERMU** = **TIMETERM**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **TIMETERMSK** = 1 then do;

TIMETERM = .N;

end;

.N = (Not Applicable)

33. REENLISTSK, REENLISTU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**REENLISTSK** is an indicator of whether **REENLIST** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((SRGRADE = 1 OR **SRGRADE** = 2) OR **SRGRADE** = 3) OR **SRGRADE** = 4) OR **SRGRADE** = 5) OR **SRGRADE** = 6) OR **SRGRADE** = 7) OR **SRGRADE** = 8) OR **SRGRADE** = 9) then **REENLISTSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**REENLISTU = REENLIST**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If REENLISTSK = 1 then do;

REENLIST = .N;

end;

.N = (Not Applicable)

34. RENL3YRSK, RENL3YRU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**RENL3YRSK** is an indicator of whether **RENL3YR** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((SRGRADE = 21 OR SRGRADE = 22) OR SRGRADE = 23) OR SRGRADE = 24) OR SRGRADE = 25) OR SRGRADE = 26) then **RENL3YRSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**RENL3YRU = RENL3YR**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If RENL3YRSK = 1 then do;

RENL3YR = .N;

end;

.N = (Not Applicable)

35. RE3YRBNSK, RE3YRBNU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**RE3YRBNSK** is an indicator of whether **RE3YRBN** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((SRGRADE = 1 OR SRGRADE = 2) OR SRGRADE = 3) OR SRGRADE = 4) OR SRGRADE = 5) OR SRGRADE = 6) OR SRGRADE = 7) OR SRGRADE = 8) OR SRGRADE = 9) AND REENLIST = 1) then **RE3YRBNSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**RE3YRBNU = RE3YRBN**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If RE3YRBNSK = 1 then do;

RE3YRBN = .N;

end;

.N = (Not Applicable)

36. **REMN3YRSK, REMN3YRU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**REMN3YRSK** is an indicator of whether **REMN3YR** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((SRGRADE = 21 OR SRGRADE = 22) OR SRGRADE = 23) OR SRGRADE = 24) OR SRGRADE = 25) OR SRGRADE = 26) AND RENL3YR = 1) then **REMN3YRSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**REMN3YRU = REMN3YR**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If REMN3YRSK = 1 then do;

REMN3YR = .N;

end;

.N = (Not Applicable)

37. **RETINT2SK, RETINT2U.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**RETINT2SK** is an indicator of whether **RETINT2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((((((((((((((YOSC = 0 OR YOSC = 1) OR YOSC = 2) OR YOSC = 3) OR YOSC = 4) OR YOSC = 5) OR YOSC = 6) OR YOSC = 7) OR YOSC = 8) OR YOSC = 9) OR YOSC = 10) OR YOSC = 11) OR YOSC = 12) OR YOSC = 13) OR YOSC = 14) OR YOSC = 15) OR YOSC = 16) OR YOSC = 17) OR YOSC = 18) OR YOSC = 19) then **RETINT2SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**RETINT2U** = **RETINT2**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **RETINT2SK** = 1 then do;

RETINT2 = .N;

end;

.N = (Not Applicable)

38. RENFC1SPSK, RENFC1SPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**RENFC1SPSK** is an indicator of whether **RENFC1SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **RENFC1** = 42 then **RENFC1SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**RENFC1SPU** = **RENFC1SP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **RENFC1SPSK** = 1 then do;

RENFC1SP = '.N';

end;

.N = (Not Applicable)

39. RENFC2SPSK, RENFC2SPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**RENFC2SPSK** is an indicator of whether **RENFC2SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If RENFC2 = 42 then **RENFC2SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**RENFC2SPU** = **RENFC2SP**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If RENFC2SPSK = 1 then do;

RENFC2SP = '.N';

end;

.N = (Not Applicable)

40. RENFC3SPSK, RENFC3SPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**RENFC3SPSK** is an indicator of whether **RENFC3SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If RENFC3 = 42 then **RENFC3SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**RENFC3SPU** = **RENFC3SP**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If RENFC3SPSK = 1 then do;

RENFC3SP = '.N';

end;

.N = (Not Applicable)

41. **CLDADVSK, CLDADVAU, CLDADVBU, CLDADVCU, CLDADVDU, CLDADVEU, CLDADVFU, CLDADVGU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"CLDADVSK is an indicator of whether CLDADVA, CLDADVB, CLDADVC, CLDADVD, CLDADVE, CLDADVF, CLDADVG were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((DEPDNTD > 0 OR DEPDNTE > 0) OR DEPDNTF > 0) then **CLDADVSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"CLDADVAU = CLDADVA, CLDADVBU = CLDADVB, CLDADVCU = CLDADVC, CLDADVDU = CLDADVD, CLDADVEU = CLDADVE, CLDADVFU = CLDADVF, CLDADVGU = CLDADVG, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If CLDADVSK = 1 then do;

CLDADVA = .N;
CLDADVB = .N;
CLDADVC = .N;
CLDADVD = .N;
CLDADVE = .N;
CLDADVF = .N;
CLDADVG = .N;

end;

.N = (Not Applicable)

42. **YTHADVSK, YTHADVAU, YTHADVBU, YTHADVCU, YTHADVDU, YTHADVEU, YTHADVFU, YTHADVGU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"YTHADVSK is an indicator of whether YTHADVA, YTHADVB, YTHADVC, YTHADVD, YTHADVE, YTHADVF, YTHADVG were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (DEPDNTS = 1 OR (((DEPDNTS = 2 AND DEPDNTD = 0) AND DEPDNTE = 0) AND DEPDNTF = 0)) then **YTHADVSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"YTHADVAU = YTHADVA, YTHADVBV = YTHADVB, YTHADVCU = YTHADVC, YTHADVDU = YTHADV, YTHADVEU = YTHADVE, YTHADVFU = YTHADV, YTHADVGV = YTHADV, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If YTHADVSK = 1 then do;

YTHADVA = .N;
YTHADVB = .N;
YTHADVC = .N;
YTHADV = .N;
YTHADVE = .N;
YTHADV = .N;
YTHADV = .N;

end;

.N = (Not Applicable)

43. UPOUTMRK, UPOUTMR. The following explains how to create the flag variable -- the codebook page should contain this information:

"UPOUTMRK is an indicator of whether UPOUTMR were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((SRGRADE = 21 OR SRRGRADE = 22) OR SRRGRADE = 23) OR SRRGRADE = 24) OR SRRGRADE = 25) OR SRRGRADE = 26) then UPOUTMRK = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"UPOUTMR = UPOUTMR, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If UPOUTMRK = 1 then do;

UPOUTMR = .N;

end;

.N = (Not Applicable)

44. UPOUTQLSK, UPOUTQLU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**UPOUTQLSK** is an indicator of whether **UPOUTQL** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((SRGRADE = 21 OR SRRGRADE = 22) OR SRRGRADE = 23) OR SRRGRADE = 24) OR SRRGRADE = 25) OR SRRGRADE = 26) then **UPOUTQLSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**UPOUTQLU** = **UPOUTQL**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If UPOUTQLSK = 1 then do;

UPOUTQL = .N;

end;

.N = (Not Applicable)

45. NUHDEPLYSK, NUHDEPLYU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**NUHDEPLYSK** is an indicator of whether **NUHDEPLY** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If CNUDEPL > 0 then **NUHDEPLYSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**NUHDEPLYU** = **NUHDEPLY**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If NUHDEPLYSK = 1 then do;

NUHDEPLY = .N;

end;

.N = (Not Applicable)

46. NUMNONHASK, NUMNONHU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**NUMNONHASK** is an indicator of whether **NUMNONH** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((NHSTCDTS = 1 OR NHSTCDTS = 2) OR NHSTCDTS = 4) OR NHSTCDTS = 5) then **NUMNONHASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**NUMNONHU** = **NUMNONH**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If NUMNONHASK = 1 then do;

NUMNONH = .N;

end;

.N = (Not Applicable)

47. HCDTSREASK, HCDTSREAU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**HCDTSREASK** is an indicator of whether **HCDTSREA** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((HOSTCDTS = 1 OR HOSTCDTS = 2) OR HOSTCDTS = 4) OR HOSTCDTS = 5) then **HCDTSREASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**HCDTSREAU** = **HCDTSREA**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If HCDTSREASK = 1 then do;

HCDTSREA = .N;

end;

.N = (Not Applicable)

48. FMCRDEPLSK, FMCRDEPLU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**FMCRDEPLSK** is an indicator of whether **FMCRDEPL** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **CNUDEPL** > 0 then **FMCRDEPLSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**FMCRDEPLU** = **FMCRDEPL**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **FMCRDEPLSK** = 1 then do;

FMCRDEPL = .N;

end;

.N = (Not Applicable)

49. FCRDPLSPSK, FCRDPLSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**FCRDPLSPSK** is an indicator of whether **FCRDPLSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (**FMCRDEPL** = 2 OR **FMCRDEPL** = 1) then **FCRDPLSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**FCRDPLSPU** = **FCRDPLSP**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If **FCRDPLSPSK** = 1 then do;

FCRDPLSP = '.N';

end;

.N = (Not Applicable)

50. **MWRSVCSK, MWRSVCAU, MWRSVCBU, MWRSVCCU, MWRSVCDU, MWRSVCEU, MWRSVCFU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**MWRSVCSK** is an indicator of whether **MWRSVCA**, **MWRSVCB**, **MWRSVCC**, **MWRSVCD**, **MWRSVCE**, **MWRSVCF** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) then **MWRSVCSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**MWRSVCAU** = **MWRSVCA**, **MWRSVCBU** = **MWRSVCB**, **MWRSVCCU** = **MWRSVCC**, **MWRSVCDU** = **MWRSVCD**, **MWRSVCEU** = **MWRSVCE**, **MWRSVCFU** = **MWRSVCF**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **MWRSVCSK** = 1 then do;

MWRSVCA = .N;

MWRSVCB = .N;

MWRSVCC = .N;

MWRSVCD = .N;

MWRSVCE = .N;

MWRSVCF = .N;

end;

.N = (Not Applicable)

51. **MWRSVSPSK, MWRSVSPU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**MWRSVSPSK** is an indicator of whether **MWRSVSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) AND **MWRSVCF** = 5) OR **MWRSVCF** = 4) OR **MWRSVCF** = 3) OR **MWRSVCF** = 2) then **MWRSVSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**MWRSVSPU** = **MWRSVSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If MWRSVSPSK = 1 then do;

MWRSVSP = '.N';

end;

.N = (Not Applicable)

52. **DTSDEPSK, DTSDEPAU, DTSDEPBU, DTSDEPCU, DTSDEPDU, DTSDEPEU, DTSDEPFU, DTSDEPGU, DTSDEPHU**. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DTSDEPSK** is an indicator of whether **DTSDEPA, DTSDEPB, DTSDEPC, DTSDEPD, DTSDEPE, DTSDEPF, DTSDEPG, DTSDEPH** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) then **DTSDEPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DTSDEPAU = DTSDEPA, DTSDEPBU = DTSDEPB, DTSDEPCU = DTSDEPC, DTSDEPDU = DTSDEPD, DTSDEPEU = DTSDEPE, DTSDEPFU = DTSDEPF, DTSDEPGU = DTSDEPG, DTSDEPHU = DTSDEPH**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DTSDEPSK = 1 then do;

DTSDEPA = .N;

DTSDEPB = .N;

DTSDEPC = .N;

DTSDEPD = .N;

DTSDEPE = .N;

DTSDEPF = .N;

DTSDEPG = .N;

DTSDEPH = .N;

end;

.N = (Not Applicable)

53. **DTSDPSPSK, DTSDPSPU**. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DTSDPSPSK** is an indicator of whether **DTSDPSP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((OPSA > 0 OR OPSB > 0) OR OPSC > 0) OR OPSD > 0) AND DTSDEPH = 1) OR DTSDEPH = 2) OR DTSDEPH = 4) OR DTSDEPH = 5) then **DTSDPSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DTSDPSPU** = **DTSDPSP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DTSDPSPSK = 1 then do;

DTSDPSP = '.N';

end;

.N = (Not Applicable)

54. SPRCVTASK, SPRCVTAU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SPRCVTASK** is an indicator of whether **SPRCVTA** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRMARST = 1 OR SRMARST = 2) then **SPRCVTASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SPRCVTAU** = **SPRCVTA**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SPRCVTASK = 1 then do;

SPRCVTA = .N;

end;

.N = (Not Applicable)

55. **BEGTAPSK, BEGTAPU, RETSEPAU, RETSEPBU, RETSEPCU, RETSEPDU, RETSEPEU, RETSEPFU, RETSEPGU, RETSEPHU, RETSEPIU, RETSEPJU, RETSEPKU, RETSEPLU, RETSEPMU, RETSEPNU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**BEGTAPSK** is an indicator of whether **BEGTAP, RETSEPA, RETSEPB, RETSEPC, RETSEPD, RETSEPE, RETSEPF, RETSEPG, RETSEPH, RETSEPI, RETSEPJ, RETSEPK, RETSEPL, RETSEPM, RETSEPN** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((TRETSEP = 1 OR TRETSEP = 2) OR TRETSEP = 3) OR TRETSEP = 4) OR TRETSEP = 5) then **BEGTAPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**BEGTAPU = BEGTAP, RETSEPAU = RETSEPA, RETSEPBU = RETSEPB, RETSEPCU = RETSEPC, RETSEPDU = RETSEPD, RETSEPEU = RETSEPE, RETSEPFU = RETSEPF, RETSEPGU = RETSEPG, RETSEPHU = RETSEPH, RETSEPIU = RETSEPI, RETSEPJU = RETSEPJ, RETSEPKU = RETSEPK, RETSEPLU = RETSEPL, RETSEPMU = RETSEPM, RETSEPNU = RETSEPN,** but are unedited for forward coding of non-applicable or missing response values." Here is how they are edited:

If **BEGTAPSK** = 1 then do;

BEGTAP = .N;
RETSEPA = .N;
RETSEPB = .N;
RETSEPC = .N;
RETSEPD = .N;
RETSEPE = .N;
RETSEPF = .N;
RETSEPG = .N;
RETSEPH = .N;
RETSEPI = .N;
RETSEPJ = .N;
RETSEPK = .N;
RETSEPL = .N;
RETSEPM = .N;
RETSEPN = .N;

end;

.N = (Not Applicable)

56. AL105SK, AL105U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AL105SK** is an indicator of whether **AL105** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If $AL104 = 2$ then **AL105SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AL105U** = **AL105**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If $AL105SK = 1$ then do;

$AL105 = .N$;

end;

.N = (Not Applicable)

57. AL106SK, AL106U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AL106SK** is an indicator of whether **AL106** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If $AL103 = 2$ then **AL106SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AL106U** = **AL106**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If $AL106SK = 1$ then do;

$AL106 = .N$;

end;

.N = (Not Applicable)

58. **AL106SPSK, AL106SPU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**AL106SPSK** is an indicator of whether **AL106SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (AL103 = 2 AND AL106 = 6) then **AL106SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AL106SPU** = **AL106SP**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If AL106SPSK = 1 then do;

AL106SP = '.N';

end;

.N = (Not Applicable)

59. **AL107SK, AL107AU, AL107BU, AL107CU, AL107DU, AL108U, AL109U.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**AL107SK** is an indicator of whether **AL107A, AL107B, AL107C, AL107D, AL108, AL109** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AL103 = 2 then **AL107SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AL107AU** = **AL107A, AL107BU** = **AL107B, AL107CU** = **AL107C, AL107DU** = **AL107D, AL108U** = **AL108, AL109U** = **AL109**, but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If AL107SK = 1 then do;

AL107A = .N;

AL107B = .N;

AL107C = .N;

AL107D = .N;

AL108 = .N;

AL109 = .N;

end;

.N = (Not Applicable)

60. TMEB3SK, TMEB3U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**TMEB3SK** is an indicator of whether **TMEB3** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((TMEA > 0 OR TMEB1 > 0) OR TMEB2 > 0) then **TMEB3SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**TMEB3U** = **TMEB3**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If TMEB3SK = 1 then do;

TMEB3 = .N;

end;

.N = (Not Applicable)

61. AL112SK, DYSDRNKU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AL112SK** is an indicator of whether **DYSDRNK** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AGE > "20" then **AL112SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DYSDRNKU** = **DYSDRNK**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If AL112SK = 1 then do;

DYSDRNK = .N;

end;

.N = (Not Applicable)

62. DYSDRK5SK, DYSDRK5U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DYSDRK5SK** is an indicator of whether **DYSDRK5** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((AGE > "20" AND DYSDRKNK = 2) OR DYSDRKNK = 3) OR DYSDRKNK = 4) OR DYSDRKNK = 5) OR DYSDRKNK = 6) OR DYSDRKNK = 7) then **DYSDRK5SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DYSDRK5U** = **DYSDRK5**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DYSDRK5SK = 1 then do;

DYSDRK5 = .N;

end;

.N = (Not Applicable)

63. AL114S1SK, AL114S1U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AL114S1SK** is an indicator of whether **AL114S1** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If AL114B = 2 then **AL114S1SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AL114S1U** = **AL114S1**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If AL114S1SK = 1 then do;

AL114S1 = '.N';

end;

.N = (Not Applicable)

64. AL114SP2SK, AL114S2U. The following explains how to create the flag variable - the codebook page should contain this information:

"**AL114SP2SK** is an indicator of whether **AL114S2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **AL114D** = 2 then **AL114SP2SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AL114S2U** = **AL114S2**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **AL114SP2SK** = 1 then do;

AL114S2 = '.N';

end;

.N = (Not Applicable)

65. AL115SPSK, AL115SPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**AL115SPSK** is an indicator of whether **AL115SP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **AL115I** = 2 then **AL115SPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AL115SPU** = **AL115SP**, but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If **AL115SPSK** = 1 then do;

AL115SP = '.N';

end;

.N = (Not Applicable)

66. **COMMENT**

COMMENT has two codes.

2 *Text entered* - is assigned if something is written in the space provided.

1 *No text entered* - is assigned if nothing is written in the space provided.

COMMENTSPU text from the write-in boxes and will be placed in a verbatim file.

DEPDNTS	NUM	0001	0002	002	Do you have a child, children, or other legal dependents based on the definition above?
SATMLA	NUM	0003	0004	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? Your total compensation (i.e., base pay, allowances, and bonuses)
SATMLB	NUM	0005	0006	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? The type of work you do in your military job
SATMLC	NUM	0007	0008	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? Your opportunities for promotion
SATMLD	NUM	0009	0010	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? The quality of your coworkers
SATMLE	NUM	0011	0012	002	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military? The quality of your supervisor
SATOVER	NUM	0013	0014	002	Overall, how satisfied are you with the military way of life?
RETINT1	NUM	0015	0016	002	Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?
PRSTAYAB	NUM	0017	0018	002	Does your spouse or significant other think you should stay on or leave active duty?
PRSTAYC	NUM	0019	0020	002	Does your family think you should stay on or leave active duty?
ORGCOMA	NUM	0021	0022	002	How much do you agree or disagree with each of the following statements? I enjoy serving in the military
ORGCOMB	NUM	0023	0024	002	How much do you agree or disagree with each of the following statements? Serving in the military is consistent with my personal goals
ORGCOMC	NUM	0025	0026	002	How much do you agree or disagree with each of the following statements? If I left the military, I would feel like I am starting all over again
ORGCAMD	NUM	0027	0028	002	How much do you agree or disagree with each of the following statements? I would feel guilty if I left the military
ORGCOME	NUM	0029	0030	002	How much do you agree or disagree with each of the following statements? Generally, on a day-to-day basis, I am happy with my life in the military
ORGCOMF	NUM	0031	0032	002	How much do you agree or disagree with each of the following statements? It would be difficult for me to leave the military and give up the benefits that are available in the Service
ORGCOMG	NUM	0033	0034	002	How much do you agree or disagree with each of the following statements? I would not leave the military right now because I have a sense of obligation to the people in it
ORGCOMH	NUM	0035	0036	002	How much do you agree or disagree with each of the following statements? I really feel as if the military's values are my own
ORGCOMI	NUM	0037	0038	002	How much do you agree or disagree with each of the following statements? I would have difficulty finding a job if I left the military
ORGCOMJ	NUM	0039	0040	002	How much do you agree or disagree with each of the following statements? Generally, on a day-to-day basis, I am proud to be in the military
ORGCOMK	NUM	0041	0042	002	How much do you agree or disagree with each of the following statements? If I left the military, I would feel like I had let my country down
ORGCOML	NUM	0043	0044	002	How much do you agree or disagree with each of the following statements? I continue to serve in the military because leaving would require considerable sacrifice
ORGCOMM	NUM	0045	0046	002	How much do you agree or disagree with each of the following statements? I feel like being a member of the military can help me achieve what I want in life
ORGCOMN	NUM	0047	0048	002	How much do you agree or disagree with each of the following statements? One of the problems with leaving the military would be the lack of available alternatives

ORGCOMO	NUM	0049	0050	002	How much do you agree or disagree with each of the following statements? I am committed to making the military my career
JOINNGR	NUM	0051	0052	002	When you leave active duty, how likely is it that you will join a National Guard or Reserve unit?
PCS	NUM	0053	0054	002	Have you ever PCSed?
DEPLYP	NUM	0055	0056	002	In the past 24 months, have you been deployed longer than 30 consecutive days?
DEPLOC	NUM	0057	0058	002	Where are you currently deployed?
ETMAWAY	NUM	0059	0060	002	In the past 12 months, have you spent more or less time away from your permanent duty station (homeport) than you expected when you first entered the military?
TMAWAY1	NUM	0061	0062	002	What impact has time away (or lack thereof) from your permanent duty station (homeport) in the past 12 months had on your military career intentions?
PREPRD1	NUM	0063	0064	002	Overall, how well prepared are you to perform your wartime job?
PREPRD2	NUM	0065	0066	002	Overall, how well prepared is your unit to perform its wartime mission?
PREPRD3	NUM	0067	0068	002	How well has your training prepared you to perform your wartime job?
PREPRD4	NUM	0069	0070	002	How well has your training prepared you to perform your wartime job in support of joint operations?
WSTRESS	NUM	0071	0072	002	Overall, how would you rate the current level of stress in your work life?
PSTRESS	NUM	0073	0074	002	Overall, how would you rate the current level of stress in your personal life?
OPSA	NUM	0075	0076	002	Since September 11, 2001, how many times have you been deployed for any of the following operations? Mark one answer in each row. To indicate none, select "0 times". Operation Noble Eagle
OPSB	NUM	0077	0078	002	Since September 11, 2001, how many times have you been deployed for any of the following operations? Mark one answer in each row. To indicate none, select "0 times". Operation Enduring Freedom
OPSC	NUM	0079	0080	002	Since September 11, 2001, how many times have you been deployed for any of the following operations? Mark one answer in each row. To indicate none, select "0 times". Operation Iraqi Freedom
OPSD	NUM	0081	0082	002	Since September 11, 2001, how many times have you been deployed for any of the following operations? Mark one answer in each row. To indicate none, select "0 times". Other
SPTCZ	NUM	0083	0084	002	Have you been deployed to a combat zone or an area where you drew imminent danger pay or hostile fire pay since September 11, 2001?
CMBTOP	NUM	0085	0086	002	Were you involved in combat operations?
SPTLONG	NUM	0087	0088	002	Were any of your deployments since September 11, 2001 longer than you expected?
STPLOSS	NUM	0089	0090	002	Since September 11, 2001, have you been under stop-loss at any time?
M1SNUSE	NUM	0091	0092	002	What is your primary reason for not using Military OneSource (1-800-342-9647) in the past 12 months?
SATM1S	NUM	0093	0094	002	How satisfied are you with Military OneSource?
SERVTERM	NUM	0095	0096	002	In which term of service are you currently serving?
TIMETERM	NUM	0097	0098	002	How much time remains in your current enlistment term (including extensions) or service obligation?
SRVTRM2	NUM	0099	0100	002	How likely is it that you would be allowed to stay on active-duty service at the end of your current term or service obligation?
RETINT2	NUM	0101	0102	002	If you could stay on active duty as long as you want, how likely is it that you would choose to serve in the military for at least 20 years?
PRIMEACT	NUM	0103	0104	002	If you were to leave active duty in the next 12 months, what would be your primary activity?
CLDADVA	NUM	0105	0106	002	Suppose your child came to you for advice. How likely is it that you would recommend...? Joining a Military Service such as the Army, Navy, Marine Corps, Air Force, or Coast Guard
CLDADVB	NUM	0107	0108	002	Suppose your child came to you for advice. How likely is it that you would recommend...? Joining a Reserve component of the military such as the Army National Guard, Army Reserve, Naval Reserve, Marine Corps Reserve, Air National Guard, Air Force Reserve,

CLDADVC	NUM	0109	0110	002	Suppose your child came to you for advice. How likely is it that you would recommend...? Becoming a federal civil servant
CLDADVD	NUM	0111	0112	002	Suppose your child came to you for advice. How likely is it that you would recommend...? Getting a full-time job

/*-----*
This procedure runs Proc SurveyMeans.  Proc SurveyMeans uses Taylor

```

series variance estimates and is one of a few procedures in SAS that applies sample design corrections to the estimated variances. Most commonly available statistical programs have little or no capability to compensate for survey sample designs and produce inaccurate variance estimates.

In the example below Gender (XSEX) is the dependent variable and is treated as class variable. EligFlgW and XSVCR are the independent variable. The results for EligFlgW show the estimated eligible and ineligible population totals for each sex. The EligFlgW*XSVCR show the estimated eligible and ineligible population totals for each sex by Service.

Note that weighted ineligible records need to be included in all domain definitions in order to properly estimate variances even though the point estimates for the ineligible records may be of no interest. SAS does provide a macro that enables Proc SurveyMeans to analyze sub-populations without printing the point estimates of unwanted domains while still include the unwanted domain information in variance estimates.

Crosswalk of Questionnaire Items

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
1	In what Service were you on active duty on July 28, 2006?	108*	6	1	1	1	1	1	1	1	1	1	1	1
2	Are you . . . ?	101	1	3	111	2	2	2	2	2	2	2	2	2
3	What is your current paygrade?	109	7	2	110	3	3	3	3	3	3	3	3	3
4	What is your marital status?	54	5	5	29	4	4	4	4	4	4	4	4	4
5	How many years have you been in a relationship with your current significant other (that is, your girlfriend or boyfriend)?				32	5	5	5	5	5	5	5	5	5
6	Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)?	55*		6*	113*	6	6	6	6	6	6	6	6	6
7	Is your spouse currently serving as a member of the National Guard or Reserve in a full-time active-duty program (AGR, TAR, AR)?	55*		6*	113*	7	7	7	7	7	7	7	7	7
8	Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, IMA, IRR, military technician)?	55*		6*	113*	8	8	8	8	8	8	8	8	8
9	Last week, did your spouse do any work for pay or profit?			7	114	9	9	9	9	9	9	9	9	9
10	Last week, was your spouse temporarily absent from a job or business?			9	115	10	10	10	10	10	10	10	10	10
11	Has your spouse been looking for work during the last 4 weeks?			11	116	11	11	11	11	11	11	11	11	11
12	Last week, could your spouse have started a job if offered one, or returned to work if recalled?			12	117	12	12	12	12	12	12	12	12	12
13	What is the highest degree or level of school that you have completed?	106	2	4	112	13	13	13	13	13	13	13	13	13
14	Do you have a child, children, or other legal dependents based on the definition above?	58		15	38	15 (1st)	14	14	14	14	14	14	14	14
15	How many children or other legal dependents do you have in each age group?	59*		16*	39*	15* (2nd)	15*	15*	15*	15*	15*	15*	15*	15*, 16*
16	Are you Spanish/Hispanic/Latino?	103	3	13	118	16	16	16	16	16	16	16	16	16
17	What is your race?	104	4	14	119	17	17	17	17	17	17	17	17	17
18	Where is your permanent duty station (homeport) located?	5	23*	17	120	18	18	18	18	18	18	18	18	18
18_1	Please select from the list below your permanent duty station location (homeport) within one of the 50 states, D.C., Puerto Rico, or a U.S. territory or possession.			17	120*	19	18_1	19	18_1	18_1	18_1	18_1	18_1	19_1
18_2	Please enter the name of the country or installation.			17	120_1	20	18_2	20	18_2	18_2	18_2	18_2	18_2	19_2
19	Where do you live at your permanent duty station?	8	24*	18	121	55	19	21	19	19	19	19	19	20
19_1	Please specify where you live at your permanent duty station.			18	121_1	56	19_1	22	19_1	19_1	19_1	19_1	19_1	20_1
20	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?													
a.	Your total compensation (i.e., base pay, allowances, and bonuses)			51	2	21	20	23	20	20	20	20	20	21
b.	The type of work you do in your military job			51a	2a	21a	20a	23a	20a	20a	20a	20a	20a	21a
c.	Your opportunities for promotion			51b	2b	21b	20b	23b	20b	20b	20b	20b	20b	21b
d.	The quality of your coworkers			51c	2c	21c	20c	23c	20c	20c	20c	20c	20c	21c
e.	The quality of your supervisor			51d	2d	21d	20d	23d	20d	20d	20d	20d	20d	21d
21	Overall, how satisfied are you with the military way of life?	51*		51e	2e	21e	20e	23e	20e	20e	20e	20e	20e	21e
21				52	3	22	21	24	21	21	21	21	21	22

Aug 2006 SOFA	Aug Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
	How many years of active-duty service have you completed (including enlisted, warrant officer, and commissioned officer time)?	110	8	19	4					22	22	22	22	23
	Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?	32	11	22	6	23	22	25		23	23	23	23	24
	Does your spouse or significant other think you should stay on or leave active duty?	34*		26	36	24,25	23,24	26,27	24	24	24	24	24	25
	Does your family think you should stay on or leave active duty?				37	25	25	28	25	25	25	25	25	26
	How much do you agree or disagree with each of the following statements?													
	a. I enjoy serving in the military									81	71	106	50	27
	b. Serving in the military is consistent with my personal goals								81a	71a	106a	50a	26a	27a
	c. If I left the military, I would feel like I am starting all over again								81b	71b	106b	50b	26b	27b
	d. I would feel guilty if I left the military								81c	71c	106c	50c	26c	27c
	e. Generally, on a day-to-day basis, I am happy with my life in the military								81d	71d	106d	50d	26d	27d
	f. It would be difficult for me to leave the military and give up the benefits that are available in the Service								81e	71e	106e	50e	26e	27e
	g. I would not leave the military right now because I have a sense of obligation to the people in it								81f	71f	106f	50f	26f	27f
	h. I really feel as if the military's values are my own								81g	71g	106g	50g		27g
	i. I would have difficulty finding a job if I left the military								81h	71h	106h	50h	26h	27h
	j. Generally, on a day-to-day basis, I am proud to be in the military								81i	71i	106i	50i	26i	27i
	k. If I left the military, I would feel like I had let my country down								81j	71j	106j	50j	26j	27j
	l. I continue to serve in the military because leaving would require considerable sacrifice								81k	71k	106k	50k	26k	27k
	m. I feel like being a member of the military can help me achieve what I want in life								81l	71l	106l	50l	26l	27l
	n. One of the problems with leaving the military would be the lack of available alternatives								81m	71m	106m	50m	26m	27m
	o. I am committed to making the military my career								81n	71n	106n	50n	26n	27n
	Normative Commitment								81o	71o	106o	50o	26o	27o
	Continuance Commitment								81	71	106	50	26	27
	Affective Commitment								81	71	106	50	26	27
	When you leave active duty, how likely is it that you will join a National Guard or Reserve unit?	38												28
	Have you ever PCSed?	12*		35	9	27	26	29	26	26	26	26	27	29
	How many months has it been since your last PCS?			36	10	28	27	30	27	27	27	27	28	30
	In the past 12 months, how many days have you had to work longer than your normal duty day (i.e., overtime)?			39	11	29	28	31	28	28	28	28	29	31

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
	In the <u>past 12 months</u> , how many nights have you been away from your permanent duty station (homeport) because of your military duties?	17*	28*	41	14*	30	29*	32	29	29	29	29	30	32
	In the <u>past 24 months</u> , have you been deployed longer than 30 consecutive days?													33
	Are you currently on a deployment that has lasted longer than 30 consecutive days?	6*	31*		13*		30	33	30	30	30	30	31	34
	Where are you currently deployed?	7*					31	34	31	31	31	31	32	35
	Please select from the list below your deployment location within one of the 50 states, D.C., Puerto Rico, or a U.S. territory or possession.						31_1	35	31_1	31_1	31_1	31_1	32_1	35_1

45_1	Please enter the name of the country or installation to which you were most recently deployed since September 11, 2001.								41_2	41_2	41_2	41_2	43_2	46_2
46	Since September 11, 2001, what is the total number of days you have been away from your permanent duty station (homeport)?								42	42	42	42	44	47
47	Have you been deployed to a combat zone or an area where you drew imminent danger pay or hostile fire pay since September 11, 2001?								43	43	43	43	45	48
48	How many days have you been deployed to a combat zone since September 11, 2001?								44*	44*	44*	44	46	49
49	For your most recent deployment, how many months have you been or were you deployed to an area where you drew imminent danger pay or hostile fire pay?											45	47	50
50	Were you involved in combat operations?					38	40		44	45	45	46	48	51
51	Are you currently deployed to a combat zone or an area where you are drawing imminent danger pay or hostile fire pay?								46	46	46	47	49	52
52	Were any of your deployments since September 11, 2001 longer than you expected?								47	47	47	48	50	53
53	Since September 11, 2001, have you been under stop-loss at any time?								48	48	48	49	51	54
54	In the past 12 months, have you used Military OneSource (1-800-342-9647) in the following ways to obtain information or services?									75*	95*			
	a. Accessed Military OneSource via the Internet									75*	95*			
	b. E-mailed Military OneSource									75*	95*			
	c. Talked on the telephone with a Military OneSource consultant									75*	95*			
	d. Used Military OneSource to arrange face-to-face counseling session(s)									75*	95*			
55	What is your primary reason for not using Military OneSource (1-800-342-9647) in the past 12 months?									76*	96*			62
55_1	Please specify why you have not used Military OneSource in the past 12 months.													62_1

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
56	How satisfied are you with Military OneSource?													63
57	In which term of service are you currently serving?	29							49					
58	How much time remains in your current enlistment term (including extensions) or service obligation?	30							50					
59	At the end of your current enlistment, would the offer of a re-enlistment bonus affect your decision for an additional 3-year enlistment?								51					
60	Would you be willing to accept an additional 3-year, active-duty service commitment if you were offered a monetary bonus?								52					
61	What is the minimum re-enlistment bonus that you would accept for an additional 3-year enlistment?								53					
62	What is the minimum monetary bonus that you would accept for an additional 3-year active-duty service commitment?								54					
63	How likely is it that you would be allowed to stay on active-duty service at the end of your current term or service obligation?													
64	If you could stay on active duty as long as you want, how likely is it that you would choose to serve in the military for at least 20 years?	31		23					55					
65	When you finally leave active duty, how many total years of service do you expect to have?	35		24					57					
66	Suppose that you have to decide whether to stay on active duty. Which of the following would be the most important factor in this decision?								58*					
66.1	Please specify the most important incentive in your decision.								58*					
67	Suppose that you have to decide whether to stay on active duty. Which of the following would be the second most important factor in this decision?								59*					
67.1	Please specify the second most important incentive in your decision.								59*					
68	Suppose that you have to decide whether to stay on active duty. Which of the following would be the third most important factor in this decision?								60*					
68.1	Please specify the third most important incentive in your decision.								60*					
69	During the past 6 months, have you done any of the following to explore the possibility of leaving the military?	48*							62					
a.	Thought seriously about leaving the military	48*							62					
b.	Wondered what life might be like as a civilian	48*							62					
c.	Discussed leaving and/or civilian opportunities with family members or friends	48*							62					
d.	Talked about leaving with your immediate supervisor	48*							62					
e.	Gathered information on education programs or colleges	48*							62					
f.	Gathered information about civilian job options (e.g., read newspaper ads, attended a job fair)	48*							62					

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
	g. Attended a program that helps people prepare for civilian employment	48*							62					
	h. Prepared a resume	48*							62					
	i. Applied for a job	48*							62					
	j. Interviewed for a job	48*							62					
70	If you were to leave active duty in the next 12 months, what would be your primary activity?	37							63					
71	Suppose your child came to you for advice. How likely is it that you would recommend...?				40					72				
	a. Joining a Military Service such as the Army, Navy, Marine Corps, Air Force, or Coast Guard				40a					72a				
	b. Joining a Reserve component of the military such as the Army National Guard, Army Reserve, Naval Reserve, Marine Corps Reserve, Air National Guard, Air Force Reserve, or Coast Guard Reserve									72b				
	c. Becoming a federal civil servant									72c				
	d. Getting a full-time job				40c					72d				
	e. Getting a part-time job				40d					72e				
	f. Attending a four-year college or university				40b					72f				
	g. Attending a trade, technical, vocational, or community college				40e					72g				
72	Suppose a youth came to you for advice. How likely is it that you would recommend...?				41					73				
	a. Joining a Military Service such as the Army, Navy, Marine Corps, Air Force, or Coast Guard				41a					73a				
	b. Joining a Reserve component of the military such as the Army National Guard, Army Reserve, Naval Reserve, Marine Corps Reserve, Air National Guard, Air Force Reserve, or Coast Guard Reserve									73b				
	c. Becoming a federal civil servant									73c				
	d. Getting a full-time job				41c					73d				
	e. Getting a part-time job				41d					73e				
	f. Attending a four-year college or university				41b					73f				
	g. Attending a trade, technical, vocational, or community college				41e					73g				
73	What impact do you believe such a policy change to the "up-or-out" rule would have on the morale of the officer corps as a whole?								137					
	What impact do you believe such a policy change to the "up-or-out" rule would have on the quality of the officer corps as a whole?								138					
74	When you first entered the military, were you told...								65					
	a. It was possible you would be deployed during your time in service?								65a					
	b. It was possible you would be deployed to hostile or dangerous locations during your time in service?								65b					

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
	When you first entered the military, how likely did you think it was that you would be deployed in the first 4 years?								66					
	When you first entered the military, how likely did you think it was that you would be deployed in your career?								67					
	When you first entered the military, how likely did you think it was that you would be deployed to dangerous places in the first 4 years?								68					
	When you first entered the military, how likely did you think it was that you would be deployed to dangerous places in your career?								69					
	In your career, how many times have you been deployed longer than 30 days?								70					
	In your career, how many times have you been deployed longer than 30 days to hostile locations?								71					
	How has the number of non-hostile deployments (or lack thereof) impacted your desire to stay in the military?								72					
	Is this change in your desire to stay because there were too few or too many non-hostile deployments?								73					
	How has the number of hostile deployments (or lack thereof) impacted your desire to stay in the military?								74					
	Is this change in your desire to stay because there were too few or too many hostile deployments?								75					
	How satisfied were you with the care your family received during your most recent deployment?								76					
86_1	Please specify why you were dissatisfied with the care of your family during your most recent deployment.													
87	To what extent have the following MWR support items improved your quality of life while deployed?													
	a. Books													
	b. DVDs, CDs, videos													
	c. Magazines and newspapers													
	d. Access to Internet and email													
	e. "Read to the Kids" program													
	f. Other													
87_1	Please specify the other MWR support items that improved your quality of life while deployed.													
88	How have the following deployment-related issues impacted your desire to stay in the military?													
	a. Care your family received during your most recent deployment													
	b. Ability to communicate with your family													
	c. Family stress while you were deployed													
	d. Marital stress while you were deployed													
	e. Length of deployments													
	f. Frequency of deployments													
	g. Deployment pays													

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
	h. Other													
	Please specify the other deployment-related issues that have affected your desire to stay in the military.													
	88_I How satisfied are you with each of the following aspects of military life?			34					82					
	a. Type of assignments received			34a					82a					
	b. Frequency of PCS moves			34b					82b					
	c. Deployments			34c					82c					
	d. Other military duties that take you away from your permanent duty station			34d					82d					
	e. Military values, lifestyle, and tradition			27a					82e					
	f. Amount of enjoyment from your job			27b					82f					
	g. Your personal workload			27c					82g					
	h. Training and professional development			27e					82i					
	i. Off-duty educational opportunities			27f					82j					
	j. Job security			27h					82k					
	k. Amount of personal and family time you have								82l					
	90 How would you rate your current level of morale?								83					
	91 How would you rate the current level of morale in your unit?								84					
	Indicate the extent to which you agree or disagree with the following statements about your unit.			31					85					
	a. Service members in your unit really care about each other			31a					85a					
	b. Service members in your unit work well as a team			31b					85b					
	c. Service members in your unit pull together to get the job done			31c					85c					
	d. Service members in your unit trust each other			31d					85d					
	In 1992, the Services began offering programs to assist Service members in making the transition to civilian life. Does your current permanent duty station offer such a program?								139					
	93 When you leave the Service, how likely is it that you will participate in the Transition Assistance Program to help you transition to civilian life?								140					
	94 Have you been provided with information on the following topics?													
	95 a. Employment assistance													
	b. Unemployment Compensation for Ex-Servicemen													
	c. Relocation assistance													
	d. Personal financial management													
	e. Return, reunion, and reintegration													
	96 Are you aware of your eligibility for unemployment benefits?													
	97 Which of the following topics concerning the transition to civilian life is of most interest to you?													
	98 Which of the following is the best time to receive information concerning transition assistance?													

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
99	To what extent do you agree or disagree that your spouse should receive the same information you receive concerning transition assistance?													
100	How much time remains until you separate or retire from the military?													
101	Which of the following best describes when you began participating in the Transition Assistance Program?													
102	To what extent is each of the following a reason for your leaving the Service?													
	a. Involuntarily retired or separated/not accepted for reenlistment													
	b. Near maximum age													
	c. Near maximum total time in grade													
	d. Overall job dissatisfaction													
	e. Longer than normal duty days													
	f. Too much time away from home (excluding deployments)													
	g. Too many deployments													
	h. Too few deployments													
	i. Continue my education													
	j. Time to do something else													
	k. The military is not for me													
	l. Spouse had difficulty finding job due to frequent PCS moves													
	m. Spouse had trouble finding a job that matches her/his skills, education, or work experience													
	n. Family burden													
	Other than Servicemember Group Life Insurance (SGLI), do you have life insurance coverage through any other organization?													
103														
104	How much additional life insurance coverage do you have?													
105	What is the best way for the Department to communicate SGLI program changes (e.g., new benefit features and premium rate changes)?													
105_1	Please specify the best way for the Department to communicate SGLI program changes (e.g., new benefit features and premium rate changes)?													
106	Are you aware of the following SGLI program features?													
	a. Automatic Traumatic Injury Protection rider (TSGLI)													
	b. Automatic Family coverage for spouse and children													
	c. Free Beneficiary Financial Counseling for SGLI beneficiary													
	d. Accelerated Benefit Option for terminally ill SGLI insured members													
107	Are you aware that SGLI program information is available on the VA insurance website at www.insurance.va.gov ?													

Aug 2006 SOFA	Question	1999 ADS Member	2002 WGR	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	Nov 2003 SOFS	April 2004 SOFS	Aug 2004 SOFS	Dec 2004 SOFA	March 2005 SOFA	Aug 2005 SOFA	Dec 2005 SOFS	April 2006 SOFA
	Are you aware that you can convert your SGLI coverage to Veteran's Group Life Insurance after you are discharged from 108 service?													
109	What were your total military gross earnings (i.e., before-taxes) in 2005?						131*	67, 68, 69						111
110	How much do you agree or disagree with each of the following statements about drinking alcohol?													
	a. When it comes to drinking, I am safe and responsible; I lead by example and watch out for my fellow member													
	b. It's important to me that I keep my drinking under control and act responsibly													
	c. When I drink too much, it impairs my judgment													
	d. If I can't keep my drinking under control, I shouldn't be drinking													
	e. When I drink, I appoint a designated driver													
	f. When I drink, I don't drive													
	g. Drunkenness affects my judgment and my memory													
	h. Drinking might interfere with my military career													
	i. Drinking is part of being in the military													
	j. Drinking is just about the only recreation available at this installation													
	k. At parties or social functions at my installation, everyone is encouraged to drink													
111	During the past 30 days, on how many days did you drink alcohol?								86					
112	During the past 30 days, on how many days did you have five or more drinks of beer, wine, or liquor on the same occasion?								88					
	Do you recognize any of the following military-sponsored educational programs that inform members about and discourage them from excessive drinking of alcohol?													
113_1	Please specify what you recall about the That Guy campaign.													
	Please specify other military-sponsored educational programs that inform members about and discourage them from excessive drinking of alcohol.													
113_2	During the past few months, did you hear or see anything about the importance of members not drinking an excessive number of alcoholic beverages on any one occasion?													
114														
	a. Word of mouth from friends													
	b. Word of mouth from supervisors													
	c. TV advertisements													
	d. Radio advertisements													
	e. News stories													
	f. Posters													
	g. Web sites													
	h. Brochures													
	i. Other

114_1	Please specify other things you heard or saw about the importance of members not drinking an excessive number of alcoholic beverages on any one occasion.													
115	If you have comments or concerns that you were not able to express in answering this survey, please enter them in the space provided.													

REPORT DOCUMENTATION PAGE				<i>Form Approved OMB No. 0704-0188</i>	
The public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0188), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS.					
1. REPORT DATE (DD-MM-YYYY) 12-2006		2. REPORT TYPE Final		3. DATES COVERED (From - To) July 2006 - December 2006

13. SUPPLEMENTARY NOTES					
14. ABSTRACT The Status of Forces Surveys (SOFS) program is the Web-based component of the Human Resource Strategic Assessment Program (HRSAP) administered by DMDC for the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). HRSAP is designed to measure the attitudes and opinions of the entire DoD community--active and Reserve Service members, their families and DoD civilian--on the full range of personnel issues. Per the long-term content plan for active-duty SOFS, the topics to be covered in the August 2006 survey were OPS/PERSTEMPO, PCS moves, readiness, satisfaction with military life, transition assistance, life insurance, financial health, and attitudes towards alcohol.					
15. SUBJECT TERMS Survey, Active-duty Members, Employee Attitudes, HRSAP, Satisfaction, Retention Intention, PERSTEMPO, Readiness, Stress, Detailed OPS/PERSTEMPO, PCS Moves, Detailed Readiness, satisfaction with military life, transition assistance, life insurance, financial health, and attitudes towards alcohol

INSTRUCTIONS FOR COMPLETING SF 298

1. REPORT DATE. Full publication date, including day, month, if available. Must cite at least the year and be Year 2000 compliant, e.g. 30-06-1998; xx-06-1998; xx-xx-1998.

2. REPORT TYPE. State the type of report, such as final, technical, interim, memorandum, master's thesis, progress, quarterly, research, special, group study, etc.

3. DATES COVERED. Indicate the time during which the work was performed and the report was written, e.g., Jun 1997 - Jun 1998; 1-10 Jun 1996; May - Nov 1998; Nov 1998.

4. TITLE. Enter title and subtitle with volume number and part number, if applicable. On classified documents, enter the title classification in parentheses.

5a. CONTRACT NUMBER. Enter all contract numbers as they appear in the report, e.g. F33615-86-C-5169.

5b. GRANT NUMBER. Enter all grant numbers as they appear in the report, e.g. AFOSR-82-1234.

5c. PROGRAM ELEMENT NUMBER. Enter all program element numbers as they appear in the report, e.g. 61101A.

5d. PROJECT NUMBER. Enter all project numbers as they appear in the report, e.g. 1F665702D1257; ILIR.

5e. TASK NUMBER. Enter all task numbers as they appear in the report, e.g. 05; RF0330201; T4112.

5f. WORK UNIT NUMBER. Enter all work unit numbers as they appear in the report, e.g. 001; AFAPL30480105.

6. AUTHOR(S). Enter name(s) of person(s) responsible for writing the report, performing the research, or credited with the content of the report. The form of entry is the last name, first name, middle initial, and additional qualifiers separated by commas, e.g. Smith, Richard, J, Jr.

7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES). Self-explanatory.

8. PERFORMING ORGANIZATION REPORT NUMBER. Enter all unique alphanumeric report numbers assigned by the performing organization, e.g. BRL-1234; AFWL-TR-85-4017-Vol-21-PT-2.

9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES). Enter the name and address of the organization(s) financially responsible for and monitoring the work.

10. SPONSOR/MONITOR'S ACRONYM(S). Enter, if available, e.g. BRL, ARDEC, NADC.

11. SPONSOR/MONITOR'S REPORT NUMBER(S). Enter report number as assigned by the sponsoring/monitoring agency, if available, e.g. BRL-TR-829; -215.

12. DISTRIBUTION/AVAILABILITY STATEMENT. Use agency-mandated availability statements to indicate the public availability or distribution limitations of the report. If additional limitations/ restrictions or special markings are indicated, follow agency authorization procedures, e.g. RD/FRD, PROPIN, ITAR, etc. Include copyright information.

13. SUPPLEMENTARY NOTES. Enter information not included elsewhere such as: prepared in cooperation with; translation of; report supersedes; old edition number, etc.

14. ABSTRACT. A brief (approximately 200 words) factual summary of the most significant information.

15. SUBJECT TERMS. Key words or phrases identifying major concepts in the report.

16. SECURITY CLASSIFICATION. Enter security classification in accordance with security classification regulations, e.g. U, C, S, etc. If this form contains classified information, stamp classification level on the top and bottom of this page.

17. LIMITATION OF ABSTRACT. This block must be completed to assign a distribution limitation to the abstract. Enter UU (Unclassified Unlimited) or SAR (Same as Report). An entry in this block is necessary if the abstract is to be limited.
