Acknowledgments

DMDC is indebted to numerous people for their assistance with the third Web-based Status of Forces Survey (SOFS) for the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The SOFS are conducted under the leadership of Anita Lancaster, Assistant Director for Program Management, and Timothy Elig, Chief of the Survey and Program Evaluation Division.

DMDC's Survey Technology Branch, under the guidance of James Caplan, Branch Chief, is responsible for data collection and preparation for the SOFS Program. The lead analyst on this survey was Laverne Wright who was supported by Consortium Research Fellows Margaret Holland and Felicia DeHaney. Data Recognition Corporation (DRC) performed data collection and editing.

DMDC's Program Evaluation Branch, under the guidance of Eric Wetzel, Branch Chief, is responsible for the development of questionnaires used in the SOFS program. The lead developer on this survey was Kristin Williams. She was supported by Mike Ford, Consortium Research Fellow, in these efforts.

DMDC's Personnel Survey Branch, under the guidance of Barbara J. George, Branch Chief, is responsible for sampling and weighting methods used in the SOFS Program. Richard Riemer devised the standardized sampling and weighting methods that allow repeated surveys of the active-duty force and applied those methods to this survey. Bob Hamilton, Chief of DMDC's Programming Branch, and Carole Massey and Susan Reinhold, from his staff, supported the sampling and weighting.

APRIL 2004 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS: ADMINISTRATION, DATASETS, AND CODEBOOK

Introduction

The *Human Resource Strategic Assessment Program* (HRSAP), located at Defense Manpower Data Center (DMDC), consists of both Web-based and paper-and-pen surveys to support the personnel needs of the Under Secretary of Defense for Personnel and Readiness. These surveys assess the attitudes and opinions of the entire Department of Defense (DOD) community—active, reserve, civilian employees, and family members—on a wide range of personnel issues. The Web-based survey program, known as the Status of Forces Surveys (SOFS), provides timely data on active, reserve, and civilian members. There are nine SOFS Web surveys planned for each year, with three cross-sectional samples of each population: active-duty members, reserve component members, and DoD civilian employees. The paper-and-pen surveys are used to obtain data on sensitive topics (e.g., sexual harassment) and from populations with limited Internet access (e.g., spouses of active-duty and Reserve members).

Overview of Report

The next section of this report describes the procedures used to develop the instrument, design the sample, conduct the survey, process the data and prepare analysis weights. Along with Appendices A and B, the methods section is the documentation of how the survey was conducted. Riemer and Kroeger (2002) provide details on sampling and weighting.

The third section of the report describes the survey analysis file layout and key variables. This section and the remaining appendices (C-K) address issues in the analysis of the survey data. Conventions for variable naming and construction are introduced in this section with details given in Appendices C (annotated questionnaire), D (explanation of coding), and I (explanation of key analytic variables). Explanations for the groupings of variables seen in the positional list of variables in Appendix F¹ are discussed in this section as well as a description of information available in Appendix G for each variable. Appendix G contains details for variables in the same order that the variables are listed in Appendix F. In addition to the variables available on the public-release file, Appendix G contains details for the confidential variables that had to be suppressed to preserve the privacy of survey respondents and nonrespondents. Confidential variables are identified and listed in Appendices E and F. Key concepts required for the analysis of complex survey data and the structure of records in the survey analysis files are introduced in this section. Examples of analyses are given in Appendix J. The SAS code used to construct the analytic variables are included in Appendix I. Appendix H provides the record layout for the public-release flat file. Appendix K summarizes questionnaire items used in recent DMDC surveys.

¹ An alphabetical list is at Appendix E.

Method

Survey Instrument

The topics covered in the April 2004 Status of Forces Survey of Active-Duty Members include a series of items that is included on all active-duty SOFS. These items include overall satisfaction, retention intention, perceived readiness, stress, tempo, and permanent change of station (PCS) moves. In addition, items were included on deployment, services for deployed members and their families, and expenses related to recent deployments. The survey was subdivided into the following seven topic areas:

1. Background Information—Service, gender, paygrade, education, marital status, spouse employment status, race/ethnicity, dependents, and location (both geographic and on/off base).
2. Satisfaction and Retention Intention—Satisfaction with aspects of military life, overall satisfaction, likelihood to stay on active duty, and spouse/family support to stay on active duty.
3. Tempo, Readiness, and Stress—PCS moves, days worked overtime, time away from permanent duty station, the impact of time away on career intentions, individual and unit preparedness, and the level of stress in work and personal life.
4. Compensation—Satisfaction with various forms of military compensation; perceptions of overall financial condition, such as asset and debt ratio (income, total value of financial assets, mortgage and rent payments, vehicle loans and personal unsecured debt payments), interest rates on installment loans, financial problems, and saving habits; and satisfaction with military members' compensation relative to their non-military high school classmates' compensation.
5. Child Care and Schools for Children—Satisfaction with on- and off-base child care, preference for and amount spent on child care, and ratings of schools.
6. Spouse Employment and Spouse Education—Satisfaction with opportunities and time needed to find employment; ratings of qualifications and skills; hourly wage; income contribution to household; reasons for working part-time; description of how job was found; and importance of working. Information about educational level and satisfaction with academic classes.
7. Family Access to Technology—Use of home computers and Web access for on-line distance education courses and homework.

Sample

The target population for all active-duty SOFS consists of (1) active-duty members of the Army, Navy, Marine Corps, and Air Force, (2) having at least 6 months service at the time the questionnaire is first fielded, (3) below flag rank when the sample is drawn six months prior to the survey, and (4) excluding National Guard and Reserve members in active-duty programs.

Stratification Variables

The sampling frame was constructed using the six stratification variables listed in Table 1. These six variables were used to create stratification cells. A single variable, SF02CELL, was created as an index variable for the strata.

Table 1.
Stratification Variables

Dimension of Stratification	Levels
Service	Army Navy Marine Corps Air Force
Gender	Male Female
Paygrade Group	E1 to E3 E4 E5 to E6 E7 to E9 WO1 to WO5 O1 to O3 O4 to O6
Race/Ethnic Category	Minority Non-minority
Regions	US & US territories, Other, Unknown Europe Asia & Pacific Islands All Regions
Family Status/Dual Service Spouse	Single with Child(ren) Dual Service Spouse Other Family Status

Researchers identified subgroup breakouts (i.e., domains) that would be important when survey results were provided to policy officials. These reporting domains were defined by Riemer and Kroeger (2002) using the 10 demographic variables shown in Table 2. For three demographic characteristics (race/ethnicity, region, and pay group), multiple versions of variables were created that differed in the level of detail. Less detailed variables were often used to define domains for analyses within the four Services than were used to define domains at the DoD level.

Next, researchers determined the number of people who would be sampled for each stratum using a sample-planning tool developed for Defense Manpower Data Center (Deever & Mason, 2002). A formal mathematical procedure (Chromy, 1987) based on Karush-Kuhn-Tucker theory is used in the sample-planning tool to determine an optimized sample size and allocation—a sample that would achieve at minimal cost (i.e., minimum sample size) the precision levels required for each analytic domain. The Kuhn-Tucker theory provides an optimal solution to satisfy precision constraints (e.g., ± 5 percentage points) imposed on estimates of prevalence rates in key reporting domains. Researchers iteratively modified the inputs to the sample-planning tool to arrive at acceptable precision levels for reporting domains that would be of particular interest to policy officials. The domains match the reporting categories used in tabulating results (DMDC, 2003).

Table 2.
Factors Defining Key Reporting Domains

Variable	Categories
Service branch [*]	Army Navy Marine Corps Air Force
Paygrade Group 1 [*]	E1-E3 E4 E5-E6 E7-E9 W1-W5 O1-O3 O4-O6

Constructing the Frame and Drawing the Sample

DMDC's August 2003 Active Duty Master Edit File (ADMF) was used in developing the sampling frame, constructing strata, and determining the sample size and allocation. The specified definition of the population, described above, resulted in a sampling frame with 1,340,457 eligible members. A non-proportional stratified, single stage random sample of 33,414 members was selected. Table 3 presents a summary of the sample allocation by Service.

Table 3.
Sample Allocation for the April 2004 Status of Forces Survey of Active-Duty Members

	Total	Army	Navy	Marine Corps	Air Force
Sample					
Total	33,414	10,445	8,640	10,027	4,302

Note: Counts for unknown are not included.

Respondents

Sample Losses

The original sample file contained 33,414 records. Losses to the drawn sample are listed in Table 4 and reviewed here. Table 4 is limited to responses to the Web questionnaire as of May 13, 2004. Sample members were lost from the sample for three main reasons: (1) self-reported or other ineligibility for the survey, (2) an inability to locate the sample member, and (3) refusal to participate in the survey or other failure to respond to the survey.

A total of 125 sample members (0.37%) were lost from the final sample through classification as ineligible. Elimination of ineligible resulted in decreasing the sample to 99.63% (N=33,289) of its original size.

Table 4.
Final Sample Relative to Drawn Sample

	Sample Size n	% of Drawn Sample	Weighted n	% of Weighted Sample
Drawn sample	33,414		1,340,457	
Ineligible on master files	0	0.00%	0	0.00%
Self-reported ineligible	-125	0.37%	-5,375	0.40%
Total: Ineligible	-125	0.37%	-5,375	0.40%
Eligible sample	33,289	99.63%	1,335,082	99.60%
Not located (estimated ineligible)	-23		-633	
Not located (estimated eligible)	-2,057		-64,117	
Total not located	-2,080	6.22%	-34,750	4.83%
Located sample	31,209	93.40%	1,270,332	94.77%
Requested removal from survey mailings	-60		-2,271	
Returned blank	-26		-1,026	
Skipped key questions	-470		-21,650	
Did not return a survey (estimated ineligible)	-222		-7,094	
Did not return a survey (estimated eligible)	-19,833		-718,700	
Total: Non-response	-20,611	61.68%	-750,741	56.01%
Usable responses	10,598	31.72%	519,592	38.76%

In general, residential addresses were used as the primary addresses of choice. In cases where residential addresses could not be identified, however, unit addresses were used. Procedures used to locate members are explained in a later section that describes the Survey Control System. Because of this address update procedure, only 6.22% of the drawn sample (2,080 of 33,414) was lost because the sample members could not be located. Personnel records for this group had missing, incomplete, or out-of-date addresses, and steps designed to obtain complete, current addresses for these records were unsuccessful.

Losses attributable to either ineligibility or unlocatability resulted in a sample that was 93.40% of the drawn sample. Individuals in this remaining sample may be further categorized as nonrespondents versus respondents. Nonrespondents included the following groups: sample members who contacted the operations contractor (by mail, fax, e-mail, Web, or telephone) and asked to have their names removed from the survey mailing list, and 19,833 sample members who did not return a survey.

Respondents included all sample members who completed on the Web 50% of applicable questions². At the conclusion of the survey fielding, 10,598 eligible, locatable sample members had returned usable surveys

Location, Response and Completion Rates

The Council of American Survey Research Organizations (CASRO) noted that varying operational definitions of response rates can lead to problems or confusion (e.g., when awarding contracts requiring pre-specified response rates or when interpreting the results of a survey). As a result, CASRO formed a task force to recommend guidelines for standardizing the operational definitions of response rates.

Beginning in 1995, DMDC standardized its methods for calculating response rates and completion rates using procedures patterned after those advocated by CASRO. More specifically, the new DMDC procedures closely follow CASRO's Sample Type II design (see Council of American Survey Research Organizations, 1982).

Table 5 provides location, response, and completion rate information using only the Web responses. The location rate is defined as the proportion of eligible sample members that were locatable. The response rate is defined as the proportion of eligible sample members that returned usable surveys, while the completion rate is defined as the proportion of the located sample that returned usable surveys.

² Applicable questions are those to be completed by all respondents and excluded items that could be skipped over depending on prior answers.

Table 5.
Location Rates, Response Rates, and Completion Rates

	Observed Operational Rates	Weighted Operational Rates
Location rate for eligible	93.8%	95.2%
Completion rate for eligible	34.2%	41.1%
Response rate for eligible	32.1%	39.1%

Survey Development and Administration

The survey was hosted on the operations contractor's secure Web site so that sample members could complete the survey online. At the entry point to the survey, members were prompted for their personal ticket number to gain entry to the survey. The Privacy Notice and a page of frequently asked questions (FAQ's) were also posted on the Web site.

The survey allowed respondents to return to the previous page or move to the next page. In addition, buttons located below the last question on each page allowed the respondent to clear their response(s) or save and exit the survey. Questions were answered by clicking on radio buttons, check boxes or by making a choice from a drop-down list. The respondent could change answers or could save, exit, and return at another time to change answers. The final page had another "Save and Exit" button and a "Done" button, both with full text explanation of their functions.

Survey Administration

The survey administration process began in March 2004, with mailouts of notification letters to sample members (minus original ineligible). Second notifications were sent by e-mail within 24 hours after the survey was available on the Web and six (6) reminder e-mails were sent to those for whom we had e-mail addresses.

Survey Control System

The Survey Control System (SCS)³ was used to monitor the data collection process and to track all data transactions over the course of the survey administration. The datasets in the SCS include sample members' names and addresses, but do not contain data obtained from the survey instruments. Because of privacy concerns, SCS datasets are not available for public release.

The operations contractor uses the SCS to store and update project data, monitor mailings, respond to documents returned as postal non-deliverables (PNDs), and determine survey participation and eligibility status. The SCS consists of five datasets: the ORIGDAT file, the ADDRESS file, the MASTER file, the HISTORY file, and the MAILING file. The files are

³ In this document, the term SCS refers to the set of data files as well as the program or operating system which maintains those files.

linked relationally by INRECNO, a unique individual identification number that is assigned to each sample member when the record was loaded into the SCS. Figure 1 displays the interrelationships among those datasets.

Figure 1.
Survey Control System

ORIGDAT file. The ORIGDAT file consists of 33,414 records, one record for each member of the sample. It is the original sampling frame file sent to the operations contractor by DMDC. The original file is loaded onto the operations contractor's computer system and converted to a SAS⁴ dataset. As the file was converted into a SAS dataset, the SCS generated a unique identification number (INRECNO) for each record. This number identifies the sample member throughout the SCS and also in returns data sets, comment text files and other specify text files. The names and some demographic data from the ORIGDAT file were loaded into the MASTER file in preparation for the first mailing. The addresses from the ORIGDAT file were loaded into the ADDRESS file.

ADDRESS file. The ADDRESS tracked the postal and e-mail addresses that were maintained for each sample member. The ADDRESS file contains one record for each postal and address for each sample member (e.g., if there were five addresses located for one sample member during the survey administration, that sample member has five separate records in the ADDRESS file) yielding an ADDRESS file containing 99,894 records. Each record is uniquely identified by the combination of INRECNO (identifying the sample member) and an address

⁴ SAS® is a registered trademark of SAS Institute Inc., Cary, NC, USA.

number (ADDRNO) assigned to each address. This address number is the sequential order of receipt of the address for a particular sample member. For example, if a sample member has one address record in the ADDRESS file, the address number for that record is one. If the sample member faxed in a change of postal or e-mail address or a credit bureau forwarded an updated postal address for that sample member, the new address was added as address number two. The ADDRESS file was initially loaded with postal and e-mail addresses from the ORIGDAT file. Each record in the ADDRESS file includes the sample member's INRECNO, SOFA0404, ADDRNO, address, the source of the address, and address priority code, a variable indicating whether the record is the highest priority address for this sample member, and variables indicating whether the address successfully reached the sample member.

The priority code assigned to a given address number for a sample member was used to determine the “best” or “highest priority” address for the sample member at any given time. It was originally determined by the source of the address. Address updates obtained directly from a sample member received a priority number of one. The order of priority of address sources from “highest priority” to “lowest priority” is as follows, respectively:

1. updates directly from a sample member (call, fax, e-mail, Web update or letter)
2. address corrections from the U.S. postal service (ACS [electronic address change service], ACRs [address correction requests], and ODFs [out-of-date-forwarded mail])
3. NCOA-updated addresses
4. credit bureau-updated addresses
5. DEERS residential addresses
6. DEERS unit addresses

MASTER file. The MASTER file is used by the SCS to select records for upcoming survey mailings. This file includes a record for each member of the sample and was initially created by extracting data from each record in the ORIGDAT file. Each MASTER record includes the sample member INRECNO, SOFA0404 and the address number for the highest priority postal and e-mail address in the ADDRESS file for this sample member. The MASTER file accommodated data updates through an automated process (e.g., updating the address number in use after the receipt of a postal or e-mail nondeliverable or Web update) or manual key entry (e.g., updating information in response to a telephone call, fax, letter return or e-mail from a sample member). As new information was received for a particular record (including changes to the highest priority address), the SCS updated the MASTER record (N=33,414) and wrote the old record to the HISTORY file. The MASTER file also contains a set of variables which summarize the sample member's participation in each of the mailings.

HISTORY file. The HISTORY file is a chronicle of the changes that occurred to the MASTER file. Each HISTORY record is a subset of an outdated MASTER record with the addition of a date and time stamp as the record is updated. That is, a HISTORY record is created when there is a name, address, paygrade, or eligibility status change in the MASTER file. Thus, the HISTORY file contains as many observations as there are updates to the MASTER file.

MAILING file. The MAILING file tracked all survey mailings (postal and e-mail). This file contains one record for either an item postal mailed or e-mailed during the survey administration or for tracking postal address updates from credit bureaus (N=108,645). Each MAILING record includes the SOFA0404, INRECNO, address number used, date of mailing, mailing status, type of mailing, and the mailing identification code (MIC).

Address Update Procedures

Initial Address Updates

Prior to the first mailing, the operations contractor ran all domestic residential addresses through Group 1 software to be formatted to conform to U.S. Postal Service standards. Once the addresses were standardized, they were sent to an outside vendor where they were checked against the National Change of Address (NCOA) database. The NCOA software updated the address records (in standardized format) based on change-of-address cards filed with the U.S. Postal Service. The updated NCOA address file was returned to the operations contractor and integrated into the SCS. The NCOA-updated addresses were added to the ADDRESS file and became the current ADDRNO with the “highest priority code assigned” in the MASTER file.

After the NCOA-updated data was added to the SCS, another file was compiled of sample members who had an incomplete address or an address identified by NCOA as an undocumented move (i.e., the sample member had moved, but NCOA did not have a new address). The operations contractor sent copies of this file to three credit bureaus (Experian, Trans Union and CSC Credit Services)⁵ to determine whether a complete, up-to-date address for these sample members could be found. The results were integrated into the SCS, updating records in the ADDRESS file.

Ongoing Address Updates

Address update procedures also occurred when (a) additional address records were received after NCOA processing, (b) a survey document was returned as undeliverable, (c) a sample member self-reported a name, rank, or address change, or (d) the U.S. Postal Service forwarded address correction information. Figure 2 outlines these procedures.

⁵ Experian, Trans Union and CSC Credit Services are outside vendors with consumer-credit information databases. Social security numbers of sample members with incomplete or out-of-date address information were forwarded to the vendors for address updates when the mailing dataset contained no valid address.

Figure 2.
Address Updating Procedures

As a new address was entered into the ADDRESS file, its source (NCOA, credit bureau, postal Address Correction Requested card, telephone call, fax, letter, Web, and e-mail) was recorded and a new address number was assigned. The priority assigned to the address was based upon the source of the update and the date and time of the address (see the description of priority, for the ADDRESS file). At any given time, the current address used corresponded to the address number with the highest priority code.

If all known addresses for a sample member were returned PND, the sample member's record in the MASTER file was flagged "no address available." All "no address available" records were forwarded to the three credit bureaus. The credit bureaus returned files containing addresses for each submitted record, with the date on which the credit bureau received the address. If more than one address for a sample member was received from credit bureaus, the address number corresponding to the address with the most recent receipt date received the highest priority code. If one or more of the credit bureaus returned a previously unattempted address, the MASTER and ADDRESS files were updated and a re-mail was sent to the sample

member. If none of the vendors had an updated address for the sample member, the operations contractor designated the sample member “nonlocatable” and stopped further mailings.

Processing of Updates

Updates from Sample Members

Updates from sample members could be communicated via the toll-free telephone number (either by speaking to the operations contractor’s Call Center staff or by leaving a voice mail message). In addition, sample members could mail, fax or e-mail updates or go to the survey Web site and enter updates. The updates made on the Web site were before the start of the survey and were loaded to the system every three days (to coincide with the notification mailing or re-mailing schedule). Other updates were entered into the SCS by the operations contractor’s Call Center staff by the next morning.

Updates from the U.S. Postal Service

There are several types of address updates provided by the postal service. They are detailed below; each includes a description of the processing steps.

1. Postal Non-Deliverable Mail (PND): The sample member moved and no forwarding address was available. The mail piece was returned to the operations contractor. the operations contractor removed the letter from the envelope and scanned it to capture the Mailing Identification Code (MIC) in the lower right corner. A file of the MICs was loaded to the Survey Control System so the records could be updated as PND. This was done every three days (to coincide with the mailing/re-mailing schedule). If the sample member had another address on file (e.g., the unit address), that address was used. If not, the Social Security Number was sent to the credit bureaus in search of a new address.
2. Address Correction Requests (ACR; hard-copy): Some post offices are not equipped to provide address corrections via ACS (the electronic service), so they provided the corrections via hard copy cards that were sent to the operations contractor. The corrections were key-entered by operations contractor’s Call Center staff, typically by close of business the next day but no later than prior to the preparation of the next mailing.

Survey Materials and Their Distribution

Each eligible sample member received at most three original mailings: a notification letter, a reminder letter, and a second reminder letter. The notification and first reminder mailings contained a letter and brochure (which provided sample members with answers to common questions about the survey). The second reminder letter contained only a letter. A sample of letters and e-mail communications and brochure is provided in Appendix B.

In addition, e-mail was used to communicate with sample members. Not every sample member had an e-mail address. However, for those sample members for which we had an e-mail address, they received at most seven e-mails: an announcement and six reminders.

General Mailing Procedures

Prior to every mailing, the SCS searched the records in the MASTER file to identify which records should be excluded (e.g., sample members self-reported as ineligible for survey participation, sample members who had already returned survey forms, and members with no valid addresses available). For re-mails (sent between mailings), the SCS identified only those records that had been updated since the prior mailing. More specifically, the SCS identified records that had resulted in PNDs or had been manually flagged for re-mailing (e.g., in response to a sample member calling the operations contractor stating she or he had received a reminder/thank you letter but had not received a survey, etc.).

Once all records for a particular mailing or re-mailing were identified, the SCS processed the records based on whether or not the mailing would include a survey form. If the mailing group was large enough to lead to a cost savings from sorting, the records were run through Group 1 postal software to sort the records according to first-class presort postal regulations. After this procedure, a unique Mail Identification Code (MIC) was assigned to each record. The MIC was assigned either from the survey litho code list if a survey form was sent or independently if only a letter was sent.

Ticket Numbers for Web Survey Access

Prior to the first mailing, a list of ticket numbers⁶ for Web survey access was randomly generated. One secure ticket number was assigned to each sample member and remained linked to that member for the duration of the project. That is, while a member's MIC or lithocode changed with each mailing as described previously, the member's ticket number did not change. The member's unique ticket number was printed (along with the survey URL) in each letter, e-mail and brochure sent to that individual. A member could not access the Web survey without using his or her ticket number.

Description of Letters

Letters were printed with the record's unique MIC listed in the address field and on the lower right corner of the letter. If the mailing includes only letters (no survey forms), the letters were folded and machine inserted into window envelopes and sent by first class mail. Mailings that included a brochure or survey followed the same procedure through the letter printing process. The MIC on the brochure or cover letter was used to pair the letter with the correct enclosure. During the matching process, ten percent of the mailing was visually checked, comparing numbers printed on the letter with the brochure or survey number for quality control. Any mismatched pairs initiated further investigation of the matching process. This procedure ensured that each survey was sent to the person designated to receive it. Depending on the

⁶ Ticket numbers are eight alpha numeric characters generated at random.

sample size, the letters and matched surveys were machine or hand inserted into envelopes, metered if necessary, and sent by first class mail.

The status of each mailing was tracked throughout the data collection so that address-correction information could be incorporated into all relevant mailings. When a mail piece came back PND, the next mail piece was sent to a new address (if one could be obtained during the mailing period). For all mailings, mail pieces that came back PND, re-mails were completed if a newer/updated address could be found.

DMDC provided the operations contractor with the text, letterhead and signature for the cover letters. The letters explained why the survey was being conducted, how the survey information would be used, and why participation was important. (See Appendix B for copies of the letters.) The letters were approved and printed on letterhead from the office of the Under Secretary of Defense. The letters were signed by the Under Secretary of Defense (Personnel and Readiness) David S.C. Chu.

The letterhead and signature were printed in blue, and the text and recipient information of all letters were printed in black. In addition to including a name and address (which was also used as the mailing information for the window envelopes), each letter included a personalized salutation. The salutation addressed each sample member by his/her rank. For example, a letter to a Navy E5 with the last name Smith would have included the salutation, “Dear Petty Officer Smith”. Similarly, an Army O3 named Jones would have received a letter starting, “Dear Captain Jones”. The address block also included service branch; for example, “Petty Officer John Smith USN” or “Captain Mary Jones USA”.

Mailouts

Table 6 lists the mailing dates and return results for each of the mailouts and re-mailings. For the notification mailing, a letter along with a brochure was inserted into a #10 window envelope. The letter notified sample members that they were selected for this Web survey and encouraged their participation. The notification letter was mailed to 33,381 sample members on March 26 – 29, 2004.

The first reminder informed sample members of the live Web survey date and requested participation. For this mailing, a reminder letter and brochure were inserted into a #10 window envelope. The first reminder letter was mailed to 33,381 sample members on March 31 – April 2, 2004.

A second reminder letter was sent to 26,045 sample members. The mailing was sent out April 26, 2004. The letter, inserted into a #10 window envelope, thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

Table 6.
Mailing Timeline and Return Results

Mailing Numbers and Groups	Print File Creation Date*	Mail Drop Date	Number Sent	Number of PNDs
Notification Domestic	3/19/04	3/26/04-3/29/04	33,279	5,980
Notification Foreign	3/19/04	3/26/04-3/29/04	102	85
Notification Domestic Re-mail 1	4/13/04	4/14/04	1,146	269
Notification Domestic Re-mail 2	4/23/04	4/26/04	4,494	539
Notification Domestic Re-mail 3	4/30/04	5/3/04	907	18
Subtotal: Notification			39,928	6,891
Reminder Domestic	3/24/04	3/31/04-4/2/04	33,279	5,908
Reminder Foreign	3/24/04	3/31/04-4/2/04	102	87

Reminder Domestic Re-mail 2	4/14/04	4/15/04	2,664	778
Reminder Domestic Re-mail 3	4/21/04	4/22/04	2,145	434
Reminder Domestic Re-mail 4	4/29/04	4/30/04	1,252	142
Subtotal: Reminder			39,943	7,555
Reminder 2 Domestic	4/20/04	4/26/04	26,036	1,406
Reminder 2 Foreign	4/20/04	4/26/04	9	0
Reminder 2 Domestic Re-mail 1	5/3/04	5/4/04	2,257	14
Subtotal: Reminder 2			28,302	1,420

*Print file creation date: This is the date records were identified for inclusion in the mailing and written to a print file.

E-mail was used to communicate with sample members. There were four sources for e-mails. First, each sample member had the opportunity to provide up to two personal e-mail addresses on the survey Internet site prior to start of the survey. The second source for e-mail addresses was the DEERS database. The third source was e-mail addresses generated for the Air Force members from the algorithm used by the Air Force for e-mail creation. The fourth source were e-mail addresses purchased from an outside vendor (N=1,513). The outside vendor maintains a customer database of e-mail addresses that has been lawfully collected and compiled from consumers pursuant to a notice that advised them that their personal data was being collected. Table 7 below shows the percent of sample members for whom we had at least one valid e-mail by Service.

Table 7.
E-mail Address Availability by Service

	Army	Navy	Marine Corps	Air Force	Total
Valid address available	54%	28%	16%	73%	38%
No valid address available	46%	72%	84%	27%	62%

At the start of the survey, sample members with e-mail addresses received an announcement which informed them the survey was active and ready for completion. An additional six e-mail reminders were sent throughout the survey field period. Table 8 lists the e-mail dates and e-mail addresses bounced. E-mail addresses “bounced” identifies sampled individuals that supplied an e-mail address but the address was invalid at the time DMDC attempted contact. This is analogous to a postal PND. E-mail address “sent” is not the same as e-mail received. It is analogous to the non-PND return experienced during a mailed survey. It is not known if the mail was delivered to the intended individual, only that it was not returned.

Table 8.
E-mail Communication Timeline

E-mail Numbers	E-mail Drop Date	Number Sent	Number Bounced
Announcement	4/5/04	16,873	4,136
Reminder 1	4/7/04	11,234	643
Reminder 2	4/15/04	8,045	114
Reminder 3	4/21/04	7,061	70
Reminder 4	4/27/04	6,523	95
Reminder 5	5/3/04	6,180	62
Reminder 6	5/6/04	5,773	39

Processing Returned Surveys

Once a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copied the indexed file to their internal network using FTP protocol.

The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

DMDC Coding Scheme

To convert the raw data into the item scores that appear in the public-release data file, DMDC provided the operations contractor with the coding notes (contained in Appendix D) and an annotated copy of the survey form (Appendix C). Every attempt is made to capture all information from completed surveys and preserve the data so that secondary analysts can later create variables that were not anticipated by DMDC researchers. To accomplish these goals, DMDC subscribes to a variety of coding conventions for all of its surveys. See Appendix D for in-depth coverage of these coding conventions.

DMDC uses “forward” coding when coding inconsistent answers in items with skip patterns. Data on the starting question accepted as marked and data for the items within the skip pattern are edited to be consistent with the starting question. However, an unedited version of each item is preserved in a confidential dataset. By preserving the unedited data, recoding can be done if ever required.

Coding or Keying Open-Ended Items

The Web survey contained six open-ended items. The original text responses from the six “other specify” response options were captured verbatim into a SAS[®] data set that is linked by the unique identification to the survey data. Text data in the SAS[®] files for open-ended items were spell-checked, and profanity, proper names, and locations were replaced with “(expletive),” “(name),” and “(location)” respectively.

For all open-ended items, the Web data file contains a flag indicating whether the respondent wrote anything in response to the item. Discrepancies existed where the Web data indicated presence of a comment but no comment was there.

Fifty-record Check

After receiving the first 50 returned records, the operations contractor ran a “50-record check.” DMDC checked the resulting data to determine if there were any unanticipated problems in the coding procedures (e.g., respondents were consistently answering in an unexpected manner). Minor corrections to these procedures were necessary as a result of this check and were reviewed by DMDC prior to production of the initial SAS[®] dataset. At the completion of the 50-record check, the operations contractor compiled the full set of returned surveys. The data were then cleaned and edited.

Survey Analysis Files

This section (a) provides an overview of requirements for analysis of the data, (b) documents the structure of survey analysis files created for the April 2004 survey, (c) describes the assembly of the analysis files, and (d) provides an overview of the variables in the survey analysis files.

Estimation

Data were collected from a non-proportional stratified, single stage random sample. Responses were weighted up to population totals adjusting for differential sampling and response rates in demographically homogenous groups. In general, the procedures used to compute sample estimates of population parameters (including population totals, means, proportions), tests of hypotheses, regression relations, and their associated variances are derived from the probability structure that gives rise to the observations. As with other surveys involving complex probability structures, most of the parameter estimates of interest in this survey take the form of non-linear statistics. Examples include domain means and proportions where the denominator values are unknown and must be estimated from the sample data. The estimator takes the form of a ratio of random variables (i.e., the ratio of the estimated numerator and denominator totals or counts). In general, ratio estimates are not unbiased and their variances cannot be expressed in closed form. The variances are, therefore, approximated. The bias in a ratio estimate depends on the variance associated with the denominator total or count and can usually be ignored in samples having a large number of observations. As a working rule, the bias may be assumed negligible if the number of observations on which the estimate is based

exceeds 30 or is otherwise large enough so that the coefficient of variation $[SE(x)/x]$ of the denominator is less than .10 (cf., Cochran, 1977, pp. 153-165).

Approximations for the variances commonly take the form of Taylor series linearizations or replicate methods such as those based on resampling methods. Variables have been included in the analyses files so that variance estimates can be based on Taylor series linearizations computed by SUDAAN⁷ for a stratified, without replacement design.

Many of the standard statistical software packages, such as SPSS⁸ and older versions of SAS,⁹ do not properly compute variance estimates from weighted data that were collected with a design other than simple random sampling. Variables have been included in the analysis file so that Taylor series estimates can be made with SAS PROC SURVEYMEAN and PROC SURVEYREG.

Analyzing the dataset with the proper use of the appropriate eligibility indicator (ELIGFLGW) and analysis weight (FINALWGT) in standard statistical programs will result in accurate point estimates but will not result in accurate variance estimates. Wolter (1985) provides a detailed discussion on methods used for variance estimation from sample surveys including replication, Taylor series approximation, and analytic methods.

Data Structure

Care was taken in the preparation of the survey analysis files to provide public access to data from the survey with sufficient information for accurate estimations, while meeting requirements for participant and non-participant anonymity. As described below, some detailed variables have been deleted from the public-release files either because (a) they are typically needed only to analyze survey methods and not needed to analyze the survey data or (b) they provide too great a chance of identifying an individual. For the latter reason, some demographic variables are available on public files only in a collapsed version.

In addition to a public-release file, a confidential file (containing a more complete set of variables than the public-release file) has been prepared for internal DMDC use. Files were prepared as SAS and SPSS system files. An ASCII (Operating System or OS) flat file was prepared from the public-release SAS system file. File names are indicated in Table 9.

⁷ SUDAAN® is a registered trademark of Research Triangle Institute, Research Triangle Park, NC, USA.

⁸ SPSS® is a registered trademark of SPSS Inc., Chicago, IL, USA.

⁹ SAS added survey procedures in Version 7, expanding them in releases 8.0 and higher.

Table 9.
Analysis File Names

Type of File	File Name
Public-release File – SAS	SF0404AP.7BDAT
Confidential File – SAS	SF0404AC.7BDAT
Public-release File - SPSS	SF0404AP.POR
Public-release File – OS	SF0404AP.DAT

The structure of the confidential file is shown in Figure 3. The confidential file contains the public-release file plus additional confidential variables.

All variables in the confidential file are documented in this report. Appendices E and F list all variables with a notation to indicate which variables are confidential, and show where each variable is documented. Intermediate weighting variables that appear only in the confidential file are documented by Riemer and Kroeger (2002). Variables that appear in collapsed form in the public-release part of the file and in a fuller version only in the confidential file are discussed later.

Analyses

Both the confidential file and public-release file contain 33,414 records, one for every sampled individual. As depicted in Figure 3, these records can be divided into 3 subgroups. The *Nonrespondents* subgroup, includes all records indicated by ELIGFLGW=3, where no usable Web response was received or no information was received to indicate ineligibility (n=22,691).

Assignment of a record to the other two subgroups was based on whether (a) an individual returned a “completed” survey; and (b) the person was eligible to be included in the population of interest. Final eligibility was limited to those in the August 2003 Active Duty Master File (ADMF) and who were also in the December 2003 DEERS Medical PIT extract and did not contact the operations contractor to indicate that they were ineligible.

Records required for analyses are those in the *Known Ineligibles* and *Eligible Respondents* subgroups. Both the *Eligible Respondents* (ELIGFLGW=1) and *Known Ineligibles* (ELIGFLGW=2) are included because both types of records were used to develop weights that sum to the population total, and both types of records are needed to compute accurate variance estimates by the Taylor series linearization method implemented by SUDAAN and SAS PROC SURVEYMEANS.

To analyze the Web responses use the analytic weight, FINALWGT, with the file subset by ELIGFLGW.

Figure 3.
The Structure of the Confidential File

Subgroups	Public-release File	Confidential and Detailed Methodological Variables	Web Eligibility Flag Value and Number of Records
Nonrespondents			ELIGFLGW=3 n= 22,691
Known Ineligible			ELIGFLGW=2 n=125
Eligible Respondents			ELIGFLGW=1 n= 10,598

Note. The shaded portion represents the subset of the data typically required for analysis.

Variables in the Survey Analysis Files

Public-release File

The variables in the public-release file fall into five categories: (1) derived from survey responses, (2) created by the operations contractor to document survey operations, (3) created to analyze the weighted dataset, (4) created by DMDC for analysis, and (5) extracted from administrative personnel records. Variables are grouped in these categories in Appendix F.

Information gathered on the survey. These variables came directly from the survey or were constructed using only information from the survey. There is at least one variable for every item in the survey except for a few items that had to be removed to preserve confidentiality. The annotated questionnaire (see Appendix C) contains the item names, the values used to code the pre-specified alternatives, and references to applicable coding notes in Appendix D.

Although the first part of Appendix D extensively documents the conventions that DMDC uses to name survey variables, a brief overview of the naming convention is also given here. In general, the survey-derived variables can be classified as variables that begin with either “AD,” “SR,” or “X.”

The naming of “AE” variables is reviewed using the example variable, “AE052A.” For the *April 2004 Status of Forces Survey of Active-Duty Members*, variables names begin with “AE” to denote the population (active duty) and the version of survey (second active-duty Web survey) in this series. The ending three or more numbers or letters correspond to the questionnaire item. In this example, the third through fifth digits indicate the main question number (052A) and the sixth digit (if any) indicate the sub-question item, such as (in this example) item A from a list of items in question 52. When possible, “X” is reserved to create special crossing (marginal) variables for key analyses. “X” variables typically involve imputation for missing data and, like “SR” variables, are intended to be consistent across DMDC surveys.

There are some variables in the dataset that are not labeled “AE” although they are survey variables. These variables are named unconventionally due to the expectation that they will reoccur in future surveys. This process aids in future analysis needs. For example, “CPAYRA” is the variable name for the item that asks sample members how important certain factors are in determining military compensation. This question will be asked in future surveys.

The “SR” variables are a set of primarily demographic items that are identically named across all DMDC surveys. The “SR” serves as a mnemonic for self-report with the remainder of the name indicating the data being collected. For example, “SRRACE” is the variable name for the item that asks sample members what race they consider themselves to be. Although all survey data are self-reported, the “SR” is used to distinguish survey-reported information from DMDC-provided information (e.g., “SRRACE” from the survey versus “RACE” from DMDC databases).

Variables constructed for analysis. Certain demographic variables, including some information collected on the survey, had to be censored to preserve the anonymity promised to survey respondents and nonrespondents. For example, FUER is a recoding of FUE. An “R” as the last letter of a variable listed in Appendices E and F is an indication that the variables may have been recoded to create special analysis variables and that the original variable is available only on the confidential analysis file.

Certain key demographic variables were constructed for DMDC analyses. These analytic variables, starting with “X,” are based primarily on self-reported information from the survey. Typically, where the self-reported information was missing on important demographics (e.g., Service, paygrade, location, respondent gender, education, race or ethnicity, family or marital status) data were imputed from member’s administrative record.

The race and ethnicity questions were combined to be reported in accordance with the Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (1997). Furthermore, a change was made in how responses were coded. In previous tabulations, mutually exclusive categories were developed to represent how these questions were answered by respondents. Starting with the current survey, however, all responses will be tabulated. Also, items were combined to derive spouse employment indicators based on U.S. Census Bureau’s Decennial Census and Current Population Survey (2002).

Appendix I documents many of the decisions made in the analyses reported by DMDC (2003). For a large number of survey items, analysts must make decisions on the treatment of special codes used to indicate inconsistencies in the survey data, especially on respondent failures to follow skip pattern directions.

Information on operations. The DMDC-provided identification number, SOFA0404, is unique and is used to identify responses as they are processed. Other variables are created by the operations contractor but are too detailed to be in the public-release file.

Information from sampling and record data. Most of the variables used in sample design and selection are too detailed to be in the public-release file (see the later section on confidential variables).

Information on weighting. Derivation of weights is discussed in detail in Riemer and Kroeger (2002). See Appendix J for examples of analyses using these variables:¹⁰

ELIGFLGW	Web-Only: Eligibility Flag
FINALWGT	Web-Only: Final Weight with Non-response and Postratification Adjustments
V_STRAT	Variance Estimation Strata
TOTAL	Weighting Class Strata Totals Based on Sampling Frame Counts

Confidential File

In addition to variables on the public-release file, the confidential file also has five additional categories of variables: (1) the uncensored version of survey items that appear in a collapsed form in the public-release section, (2) the uncensored version of key demographic variables used in analyses that appear in a collapsed form in the public-release section; (3) detailed variables created by the operations contractor to document operations, (4) detailed variables used in sampling, and (5) detailed variables used in weighting. Variables are grouped in these categories in Appendices E and F.

Confidential variables—survey data. This section of the confidential file contains the original full version of survey variables that had to be recoded for the public-release file to preserve confidentiality. To the extent possible, recoded versions of these variables are in the public-release file section for variables constructed for analysis.

Confidential variables—analysis data. This section of the confidential file contains the original full version of analytic variables constructed by DMDC. To the extent possible, recoded versions of these variables are in the public-release file section for variables constructed for analysis.

Confidential variables—operations data. This section of the confidential file contains operational variables created by the operations contractor. These variables are useful for methodological studies and/or were used in determining eligibility and response status.

The identifying variables describe how the record was processed once a survey was returned. The variables BATCH, SERIAL, and LITHO uniquely identify each returned survey. LITHO is the lithocode scanned from the survey. BATCH and SERIAL are the codes printed on the survey during scanning to identify the scan batch number and scan order of each survey. These numbers can be used to retrieve the paper copy of a survey for a short time after it has

¹⁰ Two additional variables required for SUDAAN are on the dataset but not discussed in Appendix J: NPSTRAT, poststratification population counts; and, PSTRTATA, poststratification strata.

been scanned (e.g., should researchers want to check electronically-stored information against the respondent's answer on the paper survey). SCANDATE is the date the survey was scanned and INRECNO is the unique identification number assigned to each record. MAILING identifies which survey (i.e., the first-, second-, or third-wave mailing) the respondent returned. DUPRET and DUPRET2 indicate the receipt of multiple returns. DUPRET2 includes blank returns in the multiple counts; DUPRET excludes these returns.

The classification variables describe how individual sample member's records were grouped and indexed. FLAG_FIN indicates the final disposition status of a sample member (i.e., survey returned, blank survey returned, not locatable, or no return). Several other classification variables were used to categorize a survey's final disposition. These variables are: BLKREAS, SCSINEL, and REFUSE. BLKREAS codes the reason given by the sample member for returning a blank survey, SCSINEL indicates the reason given by the sample member for being ineligible, and REFUSE indicates whether a sample member refused to complete a survey.

Confidential variables—sampling and record data. This section of the confidential file contains administrative file variables and constructed variables used in determining the sampling design. It also includes the sampling strata identifiers and counts.

Confidential variables—weighting. This section of the confidential file contains variables used in analysis of non-response and in the construction of the weights.

Using Appendix G

Regardless of whether analysts use all or only portions of the database, all analysts should replicate the results found in the tables in Appendix G. It is only by replicating these results that analysts can be sure that they are reading the data correctly. An annotated example of an Appendix G table is listed in Figure 4. (However, table does not reflect actual results.)

Figure 4.
Annotated Example of a Table from Appendix G

¹April 2004 STATUS OF FORCES SURVEY OF ACTIVE DUTY MEMBERS

Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?

² SATMLA ³Your total compensation (i.e., base pay, allowances, and bonuses)

⁴ OS DATA		⁵ SAS DATA			
COLS	LENGTH	FORMAT NAME	TYPE	LENGTH	INFORMAT

¹²PERCENT TOTAL DOES NOT = 100 DUE TO ROUNDING ERROR.

¹³G-2

1. Codebook title and item text. The codebook title is the same for every table in Appendix G of this codebook. It lists both the general study and the specific survey form being summarized. If applicable, the indented text under the title presents the verbatim question or instructions that accompany a specific item in the survey.

2. Variable name. The variable name for a survey item is up to eight characters in length and corresponds to the variable name that is used in the SAS[®]-based, public-release data file. The conventions for naming survey-derived variables are documented in Appendix D. Appendix F contains a full listing of the public-release file variables, as well as short descriptions of what the variables document.

3. Survey item text. For survey items, this text is the verbatim item wording. For other variables, this text provides a verbal description of the variable.

4. Location of the item on the OS data file. This block provides the location of the variable on the OS (ASCII) data file. The OS data block documents (a) the starting and ending column numbers where the data are stored and (b) the number of columns that the data occupy.

5. SAS[®] data file information. This block indicates format name, variable type, length and informat of the data in the SAS[®] data file. The last block indicates the informat appropriate for reading the data from the OS data file.

6. Counts of item value responses. This column indicates the number of sample members who fall into the category corresponding to each value for the variable. The count provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 33,414 records in the accompanying database. Before running complex statistical analyses, analysts are encouraged to re-create these frequency tables. Re-creating the counts minimally ensures that the data are being correctly read by the analysts' computers and programs.

7. Respondent percentages for each value. This column indicates the percentage of sample members who marked each variable value. The percentages are calculated by dividing the row value in the "FREQ" column by the total listed at the bottom of the "FREQ" column. The percentages provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 33,414 records in the accompanying database.

8. Response OS values. This column presents the OS (ASCII) code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form or in Appendix D. For example, all negative values are found in Appendix D.

9. Response SAS® values. This column presents the SAS® code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form or in Appendix D. Negative values are found in Appendix D.

10. Explanation of the item value codes. This column presents brief verbal explanations of the OS and SAS® coding for each survey item. If the coded information corresponds to survey response alternatives, the text in the table is the verbatim response from the survey instrument. More detailed explanations are found in either the annotated survey form or in Appendix D.

11. Total of response frequencies and percents. The number appearing at the bottom of the “FREQ” column is the total number of sample members in the public-release file. This number is the same for every table in this codebook. That is, every sample member in the database is accounted for on every variable even if the variable indicates only that the information was missing for that sample member. The number appearing at the bottom of the “PERCENT” column is typically 100.0. Rounding error, however, occasionally causes the total percentage to be slightly above or below 100.0.

12. Messages to analysts. The messages alert analysts to situations specific to a variable including (a) rounding errors resulting in a total percentage other than 100 percent; (b) the variable having values that are “too numerous to list;” (c) extraction of the variable from another specified database; (d) creation of the variable from two or more variables specified in the message; and (e) further clarification of the survey item corresponding to the variable.

13. Codebook page number. This is the Appendix G page number corresponding to a specific variable. Appendix F identifies the page number in Appendix G where the variable can be found.

Appendix A
April 2004 Status of Forces Survey of Active-Duty
Members (SOFA0404)

April 2004 Status of Forces Survey of Active-Duty Members

ELIGIBILITY

1. In what Service were you on active duty on April 5, 2004?

- ☐ Army
- ☐ Navy
- ☐ Marine Corps
- ☐ Air Force
- ☐ None, you were separated or retired

BACKGROUND INFORMATION

2. Are you...?

- ☐ Male
- ☐ Female

BACKGROUND INFORMATION

3. What is your current paygrade? *Mark one.*

☐ E-1	☐ E-6	☐ W-2	☐ O-2/O-2E
☐ E-2	☐ E-7	☐ W-3	☐ O-3/O-3E
☐ E-3	☐ E-8	☐ W-4	☐ O-4
☐ E-4	☐ E-9	☐ W-5	☐ O-5
☐ E-5	☐ W-1	☐ O-1/O-1E	☐ O-6 or above

BACKGROUND INFORMATION

4. What is your marital status?

- ☐ Married
- ☐ Separated
- ☐ Divorced
- ☐ Widowed
- ☐ Never married

BACKGROUND INFORMATION

5. How many years have you been in a relationship with your current significant other (that is, girlfriend or boyfriend)?

- ☐ Does not apply, I do not have a girlfriend/boyfriend
- ☐ Less than 1 year
- ☐ 1 year to less than 6 years
- ☐ 6 years to less than 10 years
- ☐ 10 years or more

BACKGROUND INFORMATION

In the following section, you will be asked question(s) about your spouse's employment status in enough detail to ensure comparability with national employment surveys.

6. Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)?

- ☐ Yes
- ☐ No

BACKGROUND INFORMATION

7. Is your spouse currently serving as a member of the National Guard or Reserve in a full-time active duty program (AGR, TAR, AR)?

- ☐ Yes
- ☐ No

BACKGROUND INFORMATION

8. Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, IMA, IRR, military technician)?

- ☐ Yes
- ☐ No

BACKGROUND INFORMATION

9. Last week, did your spouse do any work for pay or profit? Mark "Yes" even if your spouse worked only one hour, or helped without pay in a family business or farm for 15 hours or more.

- ☐ Yes
- ☐ No

BACKGROUND INFORMATION

10. Last week, was your spouse temporarily absent from a job or business?

- ☐ Yes, on vacation, temporary illness, labor dispute, etc.
- ☐ No

BACKGROUND INFORMATION

11. Has your spouse been looking for work during the last 4 weeks?

- ☐ Yes
- ☐ No

BACKGROUND INFORMATION

12. **Last week, could your spouse have started a job if offered one, or returned to work if recalled?**

- ☐ Yes, could have gone to work
- ☐ No, because of his/her temporary illness
- ☐ No, because of all other reasons (in school, etc.)

BACKGROUND INFORMATION

13. **What is the highest degree or level of school that you have completed? Mark the one answer that describes the highest grade or degree that you have completed.**

- ☐ 12 years or less of school (no diploma)
- ☐ High school graduate--high school diploma or equivalent (e.g., GED)
- ☐ Some college credit, but less than 1 year
- ☐ 1 or more years of college, no degree
- ☐ Associate's degree (e.g., AA, AS)
- ☐ Bachelor's degree (e.g., BA, AB, BS)
- ☐ Master's, doctoral, or professional school degree (e.g., MA, MS, MEng, MBA, MSW, PhD, MD, JD, DVM)

BACKGROUND INFORMATION

For the next questions, the definition of "child or children" or "other legal dependents" includes anyone in your family, except your spouse, who has or is eligible to have a Uniformed Services identification card (military dependent ID card) or is eligible for military health care benefits and is enrolled in the Defense Enrollment Eligibility Reporting System (DEERS).

14. **Do you have a child, children, or other legal dependents based on the definition above?**

- ☐ Yes
- ☐ No

BACKGROUND INFORMATION

15. **How many children or other legal dependents do you have in each age group? Mark one answer in each row. To indicate none, select "0". To indicate nine or more, select "9".**

	0	1	2	3	4	5	6	7	8	9
a. Under 1 year old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
b. 1-5 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
c. 6-12 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
d. 13-20 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
e. 21-22 years old	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
f. 23 years old or older	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐

BACKGROUND INFORMATION

16. Are you Spanish/Hispanic/Latino?

- ☐ No, not Spanish/Hispanic/Latino
- ☐ Yes, Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, or other Spanish/Hispanic/Latino

BACKGROUND INFORMATION

17. What is your race? *Mark one or more races to indicate what you consider yourself to be.*

- ☐ White
- ☐ Black or African American
- ☐ American Indian or Alaska Native
- ☐ Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
- ☐ Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian or Chamorro)

BACKGROUND INFORMATION

18. Where is your permanent duty station located?

- ☐ In one of the 50 states, DC, Puerto Rico, a U.S. territory or possession
- ☐ Europe (e.g., Bosnia-Herzegovina, Germany, Italy, Serbia, United Kingdom)
- ☐ Former Soviet Union (e.g., Russia, Tajikistan, Uzbekistan)
- ☐ East Asia and Pacific (e.g., Australia, Japan, Korea)
- ☐ North Africa, Near East or South Asia (e.g., Bahrain, Diego Garcia, Kuwait, Saudi Arabia)
- ☐ Sub-Saharan Africa (e.g., Kenya, South Africa)
- ☐ Western Hemisphere (e.g., Cuba, Honduras, Peru)
- ☐ Other or not sure

BACKGROUND INFORMATION

19. Please select from the list below your permanent duty station location within one of the 50 states, DC, Puerto Rico, and a U.S. territory or possession.

Please select 

BACKGROUND INFORMATION

20. Please enter the name of the country or installation.

BACKGROUND INFORMATION

21. Where do you live at your permanent duty station?

- ☐ Aboard ship
- ☐ Barracks/dorm/BEQ/UEPH/BOQ/UOPH military facility

- ☐ Military family housing, on base
- ☐ Military family housing, off base
- ☐ Privatized military housing that you rent on base
- ☐ Privatized military housing that you rent off base
- ☐ Civilian housing that you own or pay mortgage on
- ☐ Civilian housing that you rent
- ☐ Other

BACKGROUND INFORMATION

22. Please specify where you live at your permanent duty station.

SATISFACTION AND RETENTION INTENTION

23. Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?

	Very satisfied	Satisfied	Neither satisfied nor dissatisfied	Dissatisfied	Very dissatisfied
a. Your total compensation (i.e., base pay, allowances, and bonuses)	☐	☐	☐	☐	☐
b. The type of work you do in your military job	☐	☐	☐	☐	☐
c. Your opportunities for promotion	☐	☐	☐	☐	☐
d. The quality of your coworkers	☐	☐	☐	☐	☐
e. The quality of your supervisor	☐	☐	☐	☐	☐

SATISFACTION AND RETENTION INTENTION

24. Overall, how satisfied are you with the military way of life?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

SATISFACTION AND RETENTION INTENTION

25. Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?

- ☐ Very likely
- ☐ Likely
- ☐ Neither likely nor unlikely

- ☐ Unlikely
- ☐ Very unlikely

SATISFACTION AND RETENTION INTENTION

26. Does your spouse think you should stay on or leave active duty?

- ☐ Strongly favors staying
- ☐ Somewhat favors staying
- ☐ Has no opinion one way or the other
- ☐ Somewhat favors leaving
- ☐ Strongly favors leaving

SATISFACTION AND RETENTION INTENTION

27. Does your significant other think you should stay on or leave active duty?

- ☐ Strongly favors staying
- ☐ Somewhat favors staying
- ☐ Has no opinion one way or the other
- ☐ Somewhat favors leaving
- ☐ Strongly favors leaving

SATISFACTION AND RETENTION INTENTION

28. Does your family think you should stay on or leave active duty?

- ☐ Strongly favors staying
- ☐ Somewhat favors staying
- ☐ Has no opinion one way or the other
- ☐ Somewhat favors leaving
- ☐ Strongly favors leaving

TEMPO, READINESS, AND STRESS

29. Have you ever PCSed?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

30. How many months has it been since your last PCS? *To indicate less than 1 month, enter "0". To indicate more than 99 months, enter "99".*

TEMPO, READINESS, AND STRESS

31. In the past 12 months, how many times have you had to work longer than your normal duty day (i.e., overtime)? *To indicate none, enter "0".*

TEMPO, READINESS, AND STRESS

32. In the past 12 months, how many nights have you been away from your permanent duty station because of your military duties? *To indicate none, enter "0".*

TEMPO, READINESS, AND STRESS

33. Are you currently on a deployment of 30 days or more?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

34. Where are you currently deployed?

- ☐ In one of the 50 states, DC, Puerto Rico, a U.S. territory or possession
- ☐ Europe (e.g., Bosnia-Herzegovina, Germany, Italy, Serbia, United Kingdom)
- ☐ Former Soviet Union (e.g., Russia, Tajikistan, Uzbekistan)
- ☐ East Asia and Pacific (e.g., Australia, Japan, Korea)
- ☐ North Africa, Near East, or South Asia (e.g., Bahrain, Diego Garcia, Iraq, Kuwait, Saudi Arabia)
- ☐ Sub-Saharan Africa (e.g., Kenya, South Africa)
- ☐ Western Hemisphere (e.g., Cuba, Honduras, Peru)
- ☐ Other or not sure

TEMPO, READINESS, AND STRESS

35. Please select from the list below your deployment location within one of the 50 states, DC, Puerto Rico, and a U.S. territory or possession.

TEMPO, READINESS, AND STRESS

36. Please enter the name of the country or installation.

TEMPO, READINESS, AND STRESS

37. In the past 12 months, have you spent more or less time away from your permanent duty station than you expected when you first entered the military?

- ☐ Much more than expected
- ☐ More than expected
- ☐ Neither more nor less than expected

- ☐ Less than expected
- ☐ Much less than expected

TEMPO, READINESS, AND STRESS

38. What impact has time away (or lack thereof) from your permanent duty station in the past 12 months had on your military career intentions?

- ☐ Greatly increased your desire to stay
- ☐ Increased your desire to stay
- ☐ Neither increased nor decreased your desire to stay
- ☐ Decreased your desire to stay
- ☐ Greatly decreased your desire to stay

TEMPO, READINESS, AND STRESS

39. Overall, how well prepared are you to perform your wartime job?

- ☐ Very well prepared
- ☐ Well prepared
- ☐ Neither well nor poorly prepared
- ☐ Poorly prepared
- ☐ Very poorly prepared

TEMPO, READINESS, AND STRESS

40. Overall, how well prepared is your unit to perform its wartime mission?

- ☐ Very well prepared
- ☐ Well prepared
- ☐ Neither well nor poorly prepared
- ☐ Poorly prepared
- ☐ Very poorly prepared

TEMPO, READINESS, AND STRESS

41. Overall, how would you rate the current level of stress in your work life?

- ☐ Much less than usual
- ☐ Less than usual
- ☐ About the same as usual
- ☐ More than usual
- ☐ Much more than usual

TEMPO, READINESS, AND STRESS

42. Overall, how would you rate the current level of stress in your personal life?

- ☐ Much less than usual

- ☐ Less than usual
- ☐ About the same as usual
- ☐ More than usual
- ☐ Much more than usual

TEMPO, READINESS, AND STRESS

43. During the past 12 months, were you away from your permanent duty station for the following operations?

	Yes	No
a. Operation Iraqi Freedom	☐	☐
b. Operation Enduring Freedom	☐	☐

TEMPO, READINESS, AND STRESS

44. Were you involved in combat operations?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

45. Have you returned to your permanent duty station from the operation(s)?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

46. Did you receive support services (e.g., support groups, counseling, pre- or post-deployment information briefings) before or after returning to your permanent duty station?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

47. Did the support services (e.g., support groups, counseling, pre- or post-deployment information briefings) help you adjust to returning to your permanent duty station?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

48. Did the support services (e.g., support groups, counseling, pre- or post-deployment information briefings) help you adjust to returning to your spouse or significant other?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

49. How many times have you used the toll-free 1-800 Military OneSource number?

- ☐ 0 times
- ☐ 1 time
- ☐ 2-3 times
- ☐ 4-5 times
- ☐ 6 or more times

TEMPO, READINESS, AND STRESS

50. Have you used personal or family counseling offered through military family centers or 1-800 Military OneSource?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

51. In the past 12 months, have you been deployed for 30 days or more?

- ☐ Yes
- ☐ No

TEMPO, READINESS, AND STRESS

52. During your most recent deployment, did you (and/or your spouse) lose money or have any additional expenses because of the following items?

	Yes	No
a. Loss of your part-time job	☐	☐
b. Loss of spouse's job	☐	☐
c. Elder care	☐	☐
d. Child care	☐	☐
e. Pet care	☐	☐

(Continued) During your most recent deployment, did you (and/or your spouse) lose money or have any additional expenses because of the following items?

	Yes	No
f. Household repairs, yard work, or car maintenance	☐	☐
g. Storage or security of personal belongings	☐	☐
h. Communicating with family	☐	☐

COMPENSATION

53. How satisfied are you with each of the following?

	Very satisfied	Satisfied	Neither satisfied nor dissatisfied	Dissatisfied	Very dissatisfied
a. Basic pay	☐	☐	☐	☐	☐
b. Military retirement system	☐	☐	☐	☐	☐
c. Your medical/dental benefits	☐	☐	☐	☐	☐

COMPENSATION

54. Have you received any of the following forms of compensation in the past 12 months? *Mark "Yes" or "No" for each item.*

	Yes	No
a. Special pays (e.g., incentive, reenlistment, continuation, family separation pay, hazardous duty pay, etc.)	☐	☐
b. Basic Allowance for Subsistence (BAS)	☐	☐
c. Basic Allowance for Housing (BAH)	☐	☐
d. Overseas Housing Allowance (OHA)	☐	☐
e. Cost of Living Allowances (COLAs)	☐	☐

COMPENSATION

55. How satisfied are you with special pays (e.g., incentive, reenlistment, continuation, etc.)?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

COMPENSATION

56. How satisfied are you with your Basic Allowance for Subsistence (BAS)?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

COMPENSATION

57. How satisfied are you with your Basic Allowance for Housing (BAH)?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

COMPENSATION

58. How satisfied are you with your Overseas Housing Allowance (OHA)?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

COMPENSATION

59. How satisfied are you with your Cost of Living Allowance (COLA)?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

COMPENSATION

60. How important should the following factors be in determining total military compensation, including pay, benefits, and allowances?

	Very important	Important	Moderately important	Somewhat important	Not important
a. Job difficulty	☐	☐	☐	☐	☐
b. Job performance	☐	☐	☐	☐	☐
c. Danger	☐	☐	☐	☐	☐
d. Time spent away from home	☐	☐	☐	☐	☐
e. Number of hours worked	☐	☐	☐	☐	☐
f. Level of responsibility	☐	☐	☐	☐	☐

(Continued) How important should the following factors be in determining total military compensation, including pay, benefits, and allowances?

	Very important	Important	Moderately important	Somewhat important	Not important
g. Amount of education/training	☐	☐	☐	☐	☐
h. Years of experience	☐	☐	☐	☐	☐
i. Amount civilian employer would pay for this type of work	☐	☐	☐	☐	☐
j. Amount needed to provide for family	☐	☐	☐	☐	☐
k. Cost of living	☐	☐	☐	☐	☐

COMPENSATION

61. Relative to your high school classmates, how would you rate your opportunities and benefits in the military?

	Much better in the military	Somewhat better in the military	No difference	Somewhat worse in the military	Much worse in the military
a. Promotion opportunities	☐	☐	☐	☐	☐
b. Vacation time	☐	☐	☐	☐	☐
c. Education and training	☐	☐	☐	☐	☐
d. Total compensation (e.g., pay, bonuses, allowances)	☐	☐	☐	☐	☐
e. Health care benefits	☐	☐	☐	☐	☐
f. Retirement benefits	☐	☐	☐	☐	☐

COMPENSATION

62. Relative to your high school classmates, how would you rate your spouse's opportunities?

- ☐ Much better in the military
- ☐ Somewhat better in the military
- ☐ No difference
- ☐ Somewhat worse in the military
- ☐ Much worse in the military

COMPENSATION

63. Assuming there are no medical benefits after you retire, how much do you think you would have to pay in annual medical insurance premiums to get the same level of service that you (and your family) presently receive?

COMPENSATION

64. In today's dollars, how much income do you think you will receive annually from military retirement

pay, if you stay in the military for 20 years or more?

COMPENSATION

65. During the past 12 months, did you (and your spouse) receive any income or financial support from the following sources? Mark "Yes" or "No" for each item.

	Yes	No
a. A second job	☐	☐
b. Alimony and/or child support	☐	☐
c. Supplemental Security Income, unemployment, or worker's compensation	☐	☐
d. State-funded child care assistance	☐	☐
e. Women, Infants, and Children (WIC), and/or Temporary Assistance for Needy Families (TANF)	☐	☐

(Continued) During the past 12 months, did you (and your spouse) receive any income or financial support from the following sources? Mark "Yes" or "No" for each item.

	Yes	No
f. Food Stamp Program	☐	☐
g. Other	☐	☐

COMPENSATION

66. Please specify other sources of income or financial support that you (and your spouse) received in the past 12 months.

COMPENSATION

The next questions ask about your income. (Answer only for yourself.)

67. What were your total military earnings in 2003? (Please include all allowances, special pays, basic pay and bonuses. Exclude spouse earnings.)

You can enter an amount here:

68. Or, if you prefer, you can enter a range here. My total military earnings were at least:

69. but no more than:

COMPENSATION

The next few questions ask about income for your spouse.

70. What was your spouse's total yearly gross (before-tax) earnings in 2003? (Please include bonuses, overtime, and income from a second job.)

You can enter an amount here:

71. Or, if you prefer, you can enter a range here. My spouse's total yearly gross earnings were at least:

72. but no more than:

COMPENSATION

The next questions ask about your income. (Answer only for yourself.)

73. In 2003, how much income did you receive from the following sources: a second job, net gains or losses from sale of stocks, bonds, or real estate; interest income, dividends, child support/alimony, social security, welfare assistance, and net rent, trusts, and royalties from any other investments or business? (Exclude spouse earnings.)

You can enter an amount here:

74. Or, if you prefer, you can enter a range here. My income from other sources was at least:

75. but no more than:

COMPENSATION

The next few questions ask about income for your spouse.

76. In 2003, how much income did your spouse receive from the following sources: net gains or losses from sale of stocks, bonds, or real estate; interest income, dividends, child support/alimony, social security, welfare assistance, and net rent, trusts, and royalties from any other investments or business? (Exclude your earnings.)

You can enter an amount here:

77. Or, if you prefer, you can enter a range here. My spouse's income from other sources was at least:

78. but no more than:

COMPENSATION

79. Roughly, what is the total value of your financial assets? (Please include funds in bank accounts, IRAs, money market accounts, Certificates of Deposit [CDs], Savings Bonds, mutual funds, stocks and/or bonds, cash value of life insurance, and managed investment accounts.)

You can enter an amount here:

80. Or, if you prefer, you can enter a range here. My total value of financial assets is at least:

81. but no more than:

COMPENSATION

82. What is the total amount you paid last month for mortgage? (Please include mortgage for primary residence, other residential property debt, lines of credit [home], home improvement loans, and land contracts.) *If you do not own a home or owe any money for a home, enter "0".*

COMPENSATION

83. After the last payment was made on your mortgage, what was the total amount you still owed? *If you do not owe any money for a home, enter "0".*

You can enter an amount here:

84. Or, if you prefer, you can enter a range here. The total amount I still owed on my mortgage was at least:

85. but no more than:

COMPENSATION

86. What is the total amount you paid last month for rent? *If you do not rent a home, enter "0".*

COMPENSATION

87. What is the amount of payments that you made last month to cover personal unsecured debt? (Include all credit cards, debt consolidation loans, AAFES loans, NEXCOM loans, Military Star Accounts, student loans, margin loans, pension loans, installment loans, and other personal loans; exclude home mortgage and car loans.)

COMPENSATION

88. After the last payment was made on personal unsecured debt, what was the total amount you still owed? (**Include** all credit cards, debt consolidation loans, AAFES loans, NEXCOM loans, Military Star Accounts, student loans, margin loans, pension loans, installment loans, and other personal loans; **exclude** home mortgage and car loans.)

You can enter an amount here:

89. Or, if you prefer, you can enter a range here. The total amount I still owed on personal unsecured debt was at least:

90. but no more than:

COMPENSATION

91. Do you have a credit card which you carry debt from month to month?

- ☐ Yes
- ☐ No

COMPENSATION

92. What is the annual percentage rate (APR) you are paying on the credit card you use most frequently?

COMPENSATION

93. Are you currently making payments on a vehicle?

- ☐ Yes
- ☐ No

COMPENSATION

94. What is the total amount you paid last month for all vehicle loans and leases (i.e., cars, trucks, or motorcycles)?

COMPENSATION

95. What interest rate are you paying on your vehicle loan?

96. What interest rate are you paying on your vehicle loan?

☐ Don't know

COMPENSATION

97. After the last payment was made on your vehicle(s), what was the total amount you still owed?

You can enter an amount here:

98. Or, if you prefer, you can enter a range here. The total amount I still owed on vehicle loans was at least:

99. but no more than:

COMPENSATION

100. In the past 12 months, did any of the following happen to you (and your spouse)? Mark "Yes" or "No" for each item.

	Yes	No
a. Bounced two or more checks	☐	☐
b. Failed to make a monthly/minimum payment on your credit card, AAFES, NEXCOM account, or Military Star Card account	☐	☐
c. Fell behind in paying your rent or mortgage	☐	☐
d. Was pressured to pay bills by stores, creditors, or bill collectors	☐	☐
e. Had your telephone, cable, or Internet shut off	☐	☐

(Continued) In the past 12 months, did any of the following happen to you (and your spouse)? Mark "Yes" or "No" for each item.

	Yes	No
f. Had your water, heat, or electricity shut off	☐	☐
g. Had a car, household appliance, or furniture repossessed	☐	☐
h. Failed to make a car payment	☐	☐
i. Obtained a payday loan	☐	☐
j. Filed for personal bankruptcy	☐	☐

COMPENSATION

101. Which type of personal (non-business) bankruptcy did you file in the past 12 months?

- ☐ Chapter 7 bankruptcy
- ☐ Chapter 11 bankruptcy
- ☐ Chapter 13 bankruptcy

COMPENSATION

102. Which of the following best describes your financial condition?

- ☐ Very comfortable and secure
- ☐ Able to make ends meet without much difficulty
- ☐ Occasionally have some difficulty making ends meet
- ☐ Tough to make ends meet but keeping your head above water
- ☐ In over your head

COMPENSATION

103. Which of the following statements comes closest to describing the saving habits of you (and your spouse)?

- ☐ Don't save-usually spend more than income
- ☐ Don't save-usually spend about as much as income
- ☐ Save whatever is left over at the end of the month-no regular plan
- ☐ Save income of one family member, spend the other
- ☐ Spend regular income, save other income
- ☐ Save regularly by putting money aside each month

COMPENSATION

104. In the past 12 months, have financial problems caused any of the following? Mark "Yes" or "No" for each item.

	Yes	No
a. Loss of security clearance	☐	☐
b. Early return from a deployment or extended temporary duty assignment	☐	☐
c. Non-judicial punishment	☐	☐
d. Command directed financial counseling	☐	☐
e. Command involvement in resolving unpaid military travel card bills	☐	☐
f. Command involvement in resolving other unpaid bills	☐	☐

CHILD CARE

105. Do you have child(ren) who routinely use child care arrangements so you and your spouse can work?

- ☐ Yes
- ☐ No

CHILD CARE

106. Do you have child(ren) who routinely use child care arrangements so you can work?

- ☐ Yes
- ☐ No

CHILD CARE

107. Do you need child care arrangements so you and/or your spouse can work?

- ☐ Yes
- ☐ No

CHILD CARE

108. During the work day, what is your primary source of child care?

- ☐ On-base child care
- ☐ Off-base child care

CHILD CARE

109. How many of your children routinely use child care arrangements?

Please select

CHILD CARE

110. Indicate the extent to which you are satisfied with each of the following aspects of on-base child care.

	Very satisfied	Satisfied	Neither satisfied nor dissatisfied	Dissatisfied	Very dissatisfied
a. Availability of child care	☐	☐	☐	☐	☐
b. Quality of child care	☐	☐	☐	☐	☐
c. Affordability of child care	☐	☐	☐	☐	☐

CHILD CARE

111. Indicate the extent to which you are satisfied with each of the following aspects of off-base child care.

	Very satisfied	Satisfied	Neither satisfied nor dissatisfied	Dissatisfied	Very dissatisfied
a. Availability of child care	☐	☐	☐	☐	☐
b. Quality of child care	☐	☐	☐	☐	☐
c. Affordability of child care	☐	☐	☐	☐	☐

CHILD CARE

112. What is the total amount that you spent last month on child care arrangements for all of your children? *If you didn't spend anything for child care arrangements last month, enter "0".*

CHILD CARE

113. In the past 12 months, how many days of work have you or your spouse missed because of lack of child care?

CHILD CARE

114. In the past 12 months, how many days of work have you missed because of lack of child care?

CHILD CARE

115. What is your preference for child care?

- ☐ On-base school-age care
- ☐ On-base child care center
- ☐ On-base in-home care
- ☐ Off-base child care center
- ☐ Off-base in-home care
- ☐ Relative/friend
- ☐ Nanny/au pair

CHILD CARE

116. Is your preferred source of child care available?

- ☐ Yes
- ☐ No

CHILD CARE

117. Have you been referred to another acceptable child care arrangement?

- ☐ Yes
- ☐ No

CHILD CARE

118. Is child care offered that meets your work schedule?

- ☐ Yes
- ☐ No

SCHOOLS FOR CHILDREN

119. Do you have a child or children currently enrolled in school?

- ☐ Yes
- ☐ No

SCHOOLS FOR CHILDREN

120. Is your youngest school-age child attending a college or university?

- ☐ Yes
- ☐ No

SCHOOLS FOR CHILDREN

121. What type of school does your youngest school-age child attend?

- ☐ Public school off base
- ☐ Public school on base
- ☐ DoD school for dependents
- ☐ Home school
- ☐ Other

SCHOOLS FOR CHILDREN

122. Please specify the other type of school your youngest school-age child attends.

SCHOOLS FOR CHILDREN

123. For the type of school your youngest school-age child attends, please rate the following:

	Excellent	Good	Satisfactory	Poor	Fail
a. Overall academic program	☐	☐	☐	☐	☐
b. Support services provided by the school	☐	☐	☐	☐	☐
c. Special education programs	☐	☐	☐	☐	☐

- d. Physical plant (e.g., building, school grounds, heating/cooling, food service, etc.) ☐ ☐ ☐ ☐ ☐
- e. Availability of extracurricular activities ☐ ☐ ☐ ☐ ☐

(Continued) For the type of school your youngest school-age child attends, please rate the following:

	Excellent	Good	Satisfactory	Poor	Fail
f. Safety of school	☐	☐	☐	☐	☐
g. Order and discipline	☐	☐	☐	☐	☐
h. Quality of teachers	☐	☐	☐	☐	☐
i. Overall quality of the school	☐	☐	☐	☐	☐

SPOUSE EMPLOYMENT

124. How satisfied are you with your spouse's employment and career opportunities?

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Dissatisfied
- ☐ Very dissatisfied

SPOUSE EMPLOYMENT

125. How long did it take your spouse to find employment after your last PCS?

- ☐ Less than 1 month
- ☐ 1 month to less than 4 months
- ☐ 4 months to less than 7 months
- ☐ 7 months to less than 10 months
- ☐ 10 months to less than 12 months
- ☐ 1 year or more

SPOUSE EMPLOYMENT

126. How many weeks has your spouse been looking for work?

SPOUSE EMPLOYMENT

127. How well do your spouse's qualifications match the work he/she does?

- ☐ He/she is greatly underqualified for the work
- ☐ He/she is somewhat underqualified for the work
- ☐ His/her qualifications are appropriate for the work
- ☐ He/she is somewhat overqualified for the work
- ☐ He/she is greatly overqualified for the work

SPOUSE EMPLOYMENT

128. Excluding overtime pay, tips, and commissions, what is your spouse's hourly rate of pay on his/her primary job? *Enter a dollar amount.*

SPOUSE EMPLOYMENT

129. How much does your spouse's income contribute toward your total monthly household income?

- ☐ No contribution
- ☐ Minor contribution
- ☐ Moderate contribution
- ☐ Major contribution

SPOUSE EMPLOYMENT

130. Does your spouse work less than 35 hours a week?

- ☐ Yes
- ☐ No

SPOUSE EMPLOYMENT

131. Does your spouse want to work a full-time work week of 35 hours or more?

- ☐ Yes
- ☐ No

SPOUSE EMPLOYMENT

132. What is your spouse's MAIN reason for working part-time instead of full-time?

- ☐ Slack work/business conditions
- ☐ Could only find part-time work
- ☐ Seasonal work
- ☐ Child care problems
- ☐ Other family/personal obligations
- ☐ Health/medical limitations
- ☐ School/training/certification
- ☐ Other

SPOUSE EMPLOYMENT

133. What is the MAIN reason your spouse has not been looking for a full-time job?

- ☐ Does not want to work full-time
- ☐ Child care problems

- ☐ Other family/personal obligations
- ☐ Health/medical limitations
- ☐ School/training/certification
- ☐ Other

SPOUSE EMPLOYMENT

134. How did your spouse find his or her current primary job? Mark "Yes" or "No" for each item.

	Yes	No
a. Answered an ad in the newspaper/trade journal	☐	☐
b. Answered an ad posted on the Internet	☐	☐
c. Contacted the employer directly	☐	☐
d. Job fair	☐	☐
e. Information provided by a friend or relative	☐	☐

(Continued) How did your spouse find his or her current primary job? Mark "Yes" or "No" for each item.

	Yes	No
f. Contact made while doing volunteer work	☐	☐
g. Civilian/private employment agency	☐	☐
h. Employment assistance program sponsored by the military	☐	☐
i. State employment service	☐	☐
j. Job bank	☐	☐
k. Other	☐	☐

SPOUSE EMPLOYMENT

135. Please specify the other way in which your spouse found his or her current primary job.

SPOUSE EMPLOYMENT

136. Regardless of your spouse's current employment status, how important are each of the following reasons for why your spouse works, wants to work, or needs to work?

	Very important	Important	Moderately important	Somewhat important	Not important
a. Need money for basic family expenses	☐	☐	☐	☐	☐
b. Desire for career	☐	☐	☐	☐	☐
c. Want extra money to use now	☐	☐	☐	☐	☐
d. Want to save money for the future	☐	☐	☐	☐	☐

- e. Want independence ☐ ☐ ☐ ☐ ☐

(Continued) Regardless of your spouse's current employment status, how important are each of the following reasons for why your spouse works, wants to work, or needs to work?

	Very important	Important	Moderately important	Somewhat important	Not important
f. Enjoy working	☐	☐	☐	☐	☐
g. Want to gain experience for future career	☐	☐	☐	☐	☐

SPOUSE EMPLOYMENT

137. Do you think your spouse's work skills are...?

- ☐ Readily marketable
- ☐ Likely to be marketable
- ☐ May or may not be marketable
- ☐ Not likely to be marketable
- ☐ Not marketable

SPOUSE EMPLOYMENT

138. On average, how many hours per week does your spouse volunteer in your community?

SPOUSE EDUCATION

139. Is your spouse currently in a civilian school? Mark "Yes" if your spouse was enrolled in the most recent academic semester or if your spouse is enrolled for the next upcoming semester.

- ☐ Yes
- ☐ No

SPOUSE EDUCATION

140. What is the MAIN reason your spouse is not attending school?

- ☐ Satisfied with educational level attained
- ☐ Hours are not conducive
- ☐ Location/transportation problems
- ☐ Family responsibilities
- ☐ Costs

SPOUSE EDUCATION

141. Is your spouse currently a part-time student or full-time student? Part-time is considered an equivalent of less than 12 credit hours per semester. Full-time is considered an equivalent of 12 credit hours or more per semester.

- ☐ Part-time

- ☐ Full-time

SPOUSE EDUCATION

142. What kind of civilian school is your spouse currently enrolled in?

- ☐ High School (including public, private, or home schooling)
- ☐ GED completion
- ☐ Vocational/trade/business or other career training school
- ☐ Junior or community college (2-year)
- ☐ Four-year college or university
- ☐ Graduate/professional school
- ☐ Other

SPOUSE EDUCATION

143. Please specify the other civilian school in which your spouse is currently enrolled.

SPOUSE EDUCATION

144. What is the highest degree or level of school that your spouse has completed? Mark the one answer that describes the highest grade or degree that your spouse has completed.

- ☐ 12 years or less of school (no diploma)
- ☐ High school graduate-high school diploma or equivalent (e.g., GED)
- ☐ Some college credit, but less than 1 year
- ☐ 1 or more years of college, no degree
- ☐ Associate's degree (e.g., AA, AS)
- ☐ Bachelor's degree (e.g., BA, AB, BS)
- ☐ Master's, doctoral, or professional school degree (e.g., MA, MS, MEng, MBA, MSW, PhD, MD, JD, DVM)

FAMILY ACCESS TO TECHNOLOGY

145. Do you and/or your family have a home computer?

- ☐ Yes
- ☐ No

FAMILY ACCESS TO TECHNOLOGY

146. Do you have Web access at home?

- ☐ Yes
- ☐ No

FAMILY ACCESS TO TECHNOLOGY

147. Does your child/children use the family computer for homework?

- ☐ Yes
☐ No

FAMILY ACCESS TO TECHNOLOGY

148. Do you use the home computer for on-line distance education courses (i.e., on-line adult/continuing education courses, vocational/technical courses, college-level courses, or graduate school courses)?

- ☐ Yes
☐ No

FAMILY ACCESS TO TECHNOLOGY

149. Does your spouse use the home computer for on-line distance education courses (i.e., on-line adult/continuing education courses, vocational/technical courses, college-level courses, or graduate school courses)?

- ☐ Yes
☐ No

FAMILY ACCESS TO TECHNOLOGY

150. How many college credits have you earned since joining the military?

TAKING THE SURVEY

151. Where did you take this survey? Mark "Yes" or "No" for each item.

	Yes	No
a. Home/barracks	☐	☐
b. Work/office	☐	☐
c. Installation/ship library	☐	☐
d. Installation/ship recreation center	☐	☐
e. Other non-military location (e.g., public library, cyber café)	☐	☐

(Continued) Where did you take this survey? Mark "Yes" or "No" for each item.

	Yes	No
f. Deployed location (on land)	☐	☐
g. On a deployed ship	☐	☐
h. On board a ship at sea on regular duty	☐	☐
i. On board a ship in port	☐	☐
j. TDY or training location (non-deployment)	☐	☐

TAKING THE SURVEY

152. Which of the following computers did you use to take the survey? Mark "Yes" or "No" for each item.

	Yes	No
a. Government computer	☐	☐
b. Privately-owned computer	☐	☐
c. Public (e.g., library or café) computer	☐	☐
d. Other	☐	☐

TAKING THE SURVEY

153. If you have comments or concerns that you were not able to express in answering this survey, please enter them in the space provided. Any comments you make on this questionnaire will be kept confidential, and no follow-up action will be taken in response to any specifics reported.

TAKING THE SURVEY

154. Thank you for participating in the DoD April 2004 Status of Forces Survey of Active-Duty Members. There are no more questions on this survey. If you would like to receive a message advising you of when and where the results will be available, please provide your e-mail address. Your address will only be used for this purpose.

Dear Corporal Sample:

You have been selected to participate in the *April 2004 Status of Forces Survey of Active-Duty Members*. The survey will be available at the Web site below around April 5, 2004. The survey will ask for your attitudes and opinions on a variety of topics related to your military service. This information will assist us in the development of policies and programs that will improve the workplace for all Military Service members.

I urge you to share your perspective on these important issues. This is your opportunity to impact directly the formulation of military personnel policies. These surveys are *Official Business* and can be completed at your duty station using government equipment. If you choose, you can also complete the survey at home or elsewhere. I assure you that your responses will be kept confidential. No information about you as an individual will ever be released.

Please take the time today to provide us with an e-mail address for notifications about the survey by going to our Web site: <http://www.dodsurvey.net> At the Web site, you will be asked to enter your **Ticket Number**. Your number is **KXXXXXXX**

If your address on this letter is incorrect, please let us know at the Web site above. If you cannot access the Web site or you have questions pertaining to the survey, there are three other ways to contact us: by calling our Survey Processing Center at 1-800-881-5307, e-mailing ADSurvey@osd.pentagon.mil, or sending a facsimile to 1-763-268-3011.

Thank you for your time and assistance in this very important effort. For more information on the Status of Forces Survey Program, please see the enclosed brochure.

Sincerely,

David S. C. Chu
Under Secretary of Defense
(Personnel and Readiness)

Dear Sergeant Sample:

We recently mailed you a letter asking you to participate in the *April 2004 Status of Forces Survey of Active-Duty Members*. The survey will be available at the Web site below about April 5, 2004. To take the survey, you need to log onto the following Web site:

<http://www.dodsurvey.net>

To access the survey, you will need to enter the following **Ticket Number: KXXXXXXX**

The survey should take 30 minutes or less to complete. Please keep in mind, these surveys are *Official Business* and that they can be completed at your duty station using government equipment. You can also complete the survey at home or elsewhere.

Your participation in this survey effort is important. You were scientifically selected, as part of a small group of people, to participate in this survey. Therefore, your answers will represent the views of many others like yourself. This is your opportunity to inform policy officials of your opinions on various issues related to your compensation and family life. Be assured your responses will be kept completely confidential. Only group statistics will be compiled and reported. No information about you as an individual will be used.

If you cannot access the Web or experience any other problem with the survey, please e-mail ADSurvey@osd.pentagon.mil or leave a message anytime, toll-free, at 1-800-881-5307.

Your time and cooperation in this very important effort are greatly appreciated. The enclosed brochure provides additional information on this effort.

Sincerely,

David S. C. Chu
Under Secretary of Defense
(Personnel and Readiness)

Enclosure:
As stated

WILL MY ANSWERS BE KEPT PRIVATE?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- Only group statistics will be reported. Individual data will not be reported.

PRIVACY ACT STATEMENT FOR STATUS OF FORCES SURVEYS

In accordance with the Privacy Act, this notice informs you of the purpose of the Status of Forces Surveys and how the findings of these surveys will be used. Please read it carefully.

AUTHORITY: 10 United States Code, Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in these surveys will be used to report attitudes and perceptions about personnel programs and policies. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Office of the Secretary of Defense, each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. In no case will the data be reported or used for identifiable individual(s).

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. There is no penalty if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by persons engaged in, and for purposes of, the survey research.

Status of Forces Surveys

Office of the Under Secretary of Defense
(Personnel & Readiness)
Defense Manpower Data Center

1600 Wilson Blvd., Suite 400
Arlington, VA 22209-2593
www.dmdc.osd.mil

STATUS OF FORCES SURVEYS (SOFs) PROGRAM

- The Department of Defense (DoD) has developed a *Human Resources Strategic Plan (HRSP)*.
- The Under Secretary of Defense for Personnel and Readiness directed the development of short, Web-based surveys because input from Service members, civilians, and family members is essential to the success of HRSP.
- Information from these surveys will be used to improve personnel policies, programs, and practices.

HOW DO I PARTICIPATE?

- You'll need a Ticket Number each time you access the survey Web site.
- You will find a tear-out card with a ticket number below. Please register on-line now, and you will be contacted via e-mail when the survey is ready to take.
- This tear-out card was designed to fit in your wallet. Please remove and save for future use.

STATUS OF FORCES SURVEYS

HOW DID YOU PICK ME?

- We use well-established, scientific procedures to select a sample that represents the Defense community.
- This sampling procedure sets up clusters of people based on combinations of demographic characteristics (e.g., Service, rank).
- You were selected at random from one of these clusters of people.

WHY SHOULD I PARTICIPATE?

- This is your chance to be heard on issues that directly affect you—quality of life, retention, retirement, and satisfaction.
- Your answers on a survey ***make a difference***. For example, results from previous surveys have played an important role in deliberations on pay rate adjustments, cost of living and housing allowances, and morale and recreation programs.

WHY USE THE WEB? WHAT IF I DON'T HAVE A COMPUTER OR ACCESS TO THE INTERNET?

- The survey will only be available on the Web. This helps us provide survey results to senior Defense officials faster.
- These surveys are *Official Business*; therefore, they can be completed at your duty station using government equipment.
- If you don't have a computer or Internet at work/home, many installation and public libraries, as well as education centers, have computers with Internet access that you could use.

WILL I EVER SEE THE RESULTS OF THE SURVEYS?

- Briefings and reports on results from these surveys will be posted on the following Web site: <http://www.dmdc.osd.mil/surveys/>
- When you complete a survey, you can request to be notified by e-mail when results are posted on the Web.

WHAT DOES DMDC DO?

- The Defense Manpower Data Center (DMDC) maintains the largest archive of personnel, manpower, training, and financial data in DoD. These data are used to support the management information needs of the Office of the Secretary of Defense and many offices both within and outside of the Department.
- DMDC operates major programs that affect active duty and Reserve component military members and their families, and DoD civilian employees. Programs include conducting personnel surveys; helping ensure access to military medical facilities; managing the military and civilian ID card issuance program; and assisting with transitions back into the private sector.

Appendix C

Annotated Questionnaire

April 2004 Status of Forces Survey of Active-Duty Members

ELIGIBILITY

SRSVC1

1. In what Service were you on active duty on April 5, 2004?

- 1 ☐ Army
2 ☐ Navy
3 ☐ Marine Corps
4 ☐ Air Force
5 ☐ None, you were separated or retired

BACKGROUND INFORMATION

Edit NOT Q1 = "5"

SRSEX

2. Are you...?

- 1 ☐ Male
2 ☐ Female

BACKGROUND INFORMATION

Edit NOT Q1 = "5"

SRGRADE

3. What is your current paygrade? Mark one.

<u>1</u> ☐ E-1	<u>6</u> ☐ E-6	<u>12</u> ☐ W-2	<u>22</u> ☐ O-2/O-2E
<u>2</u> ☐ E-2	<u>7</u> ☐ E-7	<u>13</u> ☐ W-3	<u>23</u> ☐ O-3/O-3E
<u>3</u> ☐ E-3	<u>8</u> ☐ E-8	<u>14</u> ☐ W-4	<u>24</u> ☐ O-4
<u>4</u> ☐ E-4	<u>9</u> ☐ E-9	<u>15</u> ☐ W-5	<u>25</u> ☐ O-5
<u>5</u> ☐ E-5	<u>11</u> ☐ W-1	<u>21</u> ☐ O-1/O-1E	<u>26</u> ☐ O-6 or above

BACKGROUND INFORMATION

Edit NOT Q1 = "5"

SRMARST

4. What is your marital status?

- 1 ☐ Married
2 ☐ Separated
3 ☐ Divorced
4 ☐ Widowed
5 ☐ Never married

BACKGROUND INFORMATION

Edit NOT Q1 = "5" AND ((Q4 = "3" OR Q4 = "4") OR Q4 = "5")

MARDISC

5. **How many years have you been in a relationship with your current significant other (that is, girlfriend or boyfriend)?**

60 ☐ Does not apply, I do not have a girlfriend/boyfriend

1 ☐ Less than 1 year

2 ☐ 1 year to less than 6 years

3 ☐ 6 years to less than 10 years

4 ☐ 10 years or more

BACKGROUND INFORMATION

In the following section, you will be asked question(s) about your spouse's employment status in enough detail to ensure comparability with national employment surveys.

Edit NOT Q1 = "5" AND (Q4 = "1" OR Q4 = "2")

PRSEMP01

6. **Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)?**

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT Q1 = "5" AND ((Q4 = "1" OR Q4 = "2") AND Q6 = "1")

PRSEMP02

7. **Is your spouse currently serving as a member of the National Guard or Reserve in a full-time active duty program (AGR, TAR, AR)?**

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT Q1 = "5" AND (((Q4 = "1" OR Q4 = "2") AND Q6 = "1") AND Q7 = "1")

PRSEMP03

8. **Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, IMA, IRR, military technician)?**

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT Q1 = "5" AND (((Q4 = "1" OR Q4 = "2") AND Q6 = "1") AND Q7 = "1")

PRCPS01

9. **Last week, did your spouse do any work for pay or profit? Mark "Yes" even if your spouse worked only one hour, or helped without pay in a family business or farm for 15 hours or more.**

2 ☐ Yes

1 ☐ No

BACKGROUND INFORMATION

Edit NOT Q1 = "5" AND (((Q4 = "1" OR Q4 = "2") AND Q6 = "1") AND Q7 = "1") AND Q9 = "1")

PRCPS02

10. Last week, was your spouse temporarily absent from a job or business?

2 ☐ Yes, on vacation, temporary illness, labor dispute, etc.

1 ☐ No

[Edit](#) NOT Q1 = "5"

COMMENT

153. If you have comments or concerns that you were not able to express in answering this survey, please enter them in the space provided. Any comments you make on this questionnaire will be kept confidential, and no follow-up action will be taken in response to any specifics reported.

TAKING THE SURVEY

[Edit](#) NOT Q1 = "5"

REQUEST

154. Thank you for participating in the DoD April 2004 Status of Forces Survey of Active-Duty Members. There are no more questions on this survey. If you would like to receive a message advising you of when and where the results will be available, please provide your e-mail address. Your address will only be used for this purpose.

Appendix D

Coding Scheme

APPENDIX D: Coding Scheme for the *April 2004 Status of Forces Survey of Active Duty Members*

The guiding premise of coding this and other DMDC surveys is that the analysts creating the dataset will not be the only ones analyzing the data. DMDC rarely collects data only for immediate use or to answer one question. Different people, both at DMDC and other organizations (government, academic, and private-sector), analyze DMDC datasets repeatedly over time. Every care is taken in organizing and documenting DMDC surveys so secondary analysts can be reasonably certain they understand both how the data are coded and the limitations of the data. This appendix describes (a) variable naming conventions, (b) how data are captured from the survey instrument, and (c) the edit process to create survey response variables for the analysis file.

Variable Naming

In responding to a customer's request for information, DMDC often uses multiple data sources. Information on a particular topic could be obtained from different surveys or from a survey that has been repeated over a number of years. For example, a customer might be interested in organizational commitment items included in a survey of active duty members in 1999 and in an exit survey in 2000. Conventions discussed below are being used as a means for facilitating such analyses.

Non-survey-derived Variables

Variable names for non-survey-derived variables tend to use acronyms that aid in remembering the meanings of the variables. Two important conventions were used in naming variables.

A variable name from DMDC record files was used only if the data, values, and value labels were identical to those from an official DMDC personnel data file. When data were added to an analysis file unchanged from record data, the same variable name, values, and value labels were used. For example, SERVICE is a field in the ADMF and RCCPDS that indicates the member's service. Since the variable in the survey data file is identical to that in the record data from the month that the sample was drawn, the same variable name and labels were used. In contrast, the variable CSERVICE has slightly different values and value labels, and consequently was given a variable name that is not used in the official records so as not to confuse analysts who work routinely with record data.

Beginning a variable name with "X" indicates it is a special crossing (marginal) variable for key analyses. "X variables" typically involve using record data to impute values for missing data in survey items. X variables may also require collapsing or recoding to missing in order to preserve confidentiality of respondents. (See Appendix I for the programming that was used to compute X variables.)

Survey-derived Variables

Identical demographic items are used across many DMDC surveys. Each time these items are used, common variable names and values are used. The variable names for this group of demographic items start with “SR” (mnemonic for self reported). The following items in this survey fall into this category: SRSEX (for gender), SRED (for education), SRRACEA-E (for race) and SRHISP (for Hispanic ethnicity). COMMENT (for a flag indicating if a comment has been entered) and SRDATE (for the date the survey was completed) are other standard variables across DMDC surveys.

The basic naming conventions are implemented as follows for April 2004 Status of Forces Survey of Active Duty Members:

- The first and second positions are “AE” for the basic variables for items appearing in April 2004 SOFS.
- The third, fourth, and fifth characters after the AE are item numbers in the survey from 001 through 128.
- Letters following the numbers for multi-part items usually represent the sub-item. The exceptions, skip pattern flags (ending in “SK”) and specify flags (ending in a “SP”), are explained later in the section titled, Standard Flag Variables.

Value Coding and Formats

Datasets were prepared as SAS¹ system files. An OS or flat file version of the public release file was then prepared from the SAS system file. This section describes how values were treated in creating the SAS system files and notes any differences in the flat file.

In the SAS system files, variables were declared as numeric unless they contained true alphabetic characters. Although numeric variables can take more storage space, many statistical and logical operations can be done only with variables that are declared as numeric. Values for alphabetic variables were input with \$CHARww. formats to preserve leading, embedded, and trailing blanks.

Raw-Data Encoding Process

When a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copies the indexed file to their internal network. The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

Web data are matched back to sample members by matching the ticket number to INRECNO and subsequently to the respondent. The “other specify” and open-ended comments

¹ SAS is a trademark of the SAS Institute, Inc.

are collected in a comment file and linked to the Web survey data by ticket number. Because the Web survey does not allow multiple or lightly marked responses, there is no need for editing the data. However, all text entries are cleaned and edited to remove identifying information and expletives.

Data cleaning can be thought of as occurring in four coding steps. In practice, these steps may not be strictly linear, nor neatly match the processing steps discussed above. However, they are a convenient framework to understand the meaning of the codes.

1. Each response is coded with one of two types of standard codes: valid response option value (see Coding Annotation of the survey form in Appendix C) or no response (-9).
2. Specify flag variables are created, and codes are assigned to indicate if respondents typed in responses correctly where text boxes were used.
3. Skip flag variables are created, and codes are assigned to indicate if respondents completed the skip pattern correctly. Special codes for valid skips are assigned to variables within skip patterns using a “forward coding” process.
4. Text code variables are created, and codes are assigned based on the content coding of the text entries.

In the coding sequence, coding in the third and later steps builds on prior steps and usually involves values in multiple items to resolve edits.

The next sections discuss the assignment of missing value codes, the special treatment of data variables, and the editing of skip patterns during steps 3 and 4.

Missing Data Codes

The instructions used to assign missing data codes and other special codes are shown in three tables. In these tables, the value labels associated with each assigned code are shown in italicized text. These are the SAS format labels used in the SAS dataset.

- Table D--1 contains basic SAS and flat file missing data codes.
- Table D--2 contains SAS and flat file missing data codes for dates.
- Table D--3 provides detailed coding notes on items involving skip patterns, text boxes or other non-obvious coding.

The codes presented in Table D-1 are general missing data codes that have been adopted in recent years for use on DMDC surveys. (Standards for date variables are in Table D-2.) Both tables have separate columns for values used for SAS system files and flat files. The biggest difference between the flat files and SAS system files is in the treatment of missing values. The flat file codes differ from the SAS codes because SAS implements special missing codes and formats that may not be compatible with other statistical analysis software such as SPSS².

² SPSS is a trademark of SPSS Inc.

Table D-1:
Basic SAS® and Flat Missing Data Codes

SAS® File		Flat File		
Numeric	Alpha	Numeric	Alpha	Description
.	.	-9	.	<i>No response or missing skip</i>
.O	.O	-7	.O	<i>Out-of-range</i>
.N	.N	-6	.N	<i>Not applicable or valid skip</i>
.F	.F	-5	.F	<i>Variable not on survey form.</i> This value is reserved for multiple-form surveys.
.I	.I	-4	.I	<i>Incomplete grid error</i>
.G	.G	-3	.G	<i>No match on official records.</i> Only used for master file, sampling, and weighting variables for surveys that cannot be matched back to the sample file. Typically used in files of duplicate returns; these returns are not stored in the main or public-use data files.
.B	.B	-1	.B	<i>Blank/no survey.</i> Filler values for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.
99	DK	99	DK	<i>Don't know or Not sure*</i>

*Use of "Don't know" or "Not sure" as a response is not missing data. It is, however, given special treatment because it lacks precision and is *sometimes* excluded when calculating percentages.

Table D-2:
SAS[®] and Flat File Missing Data Codes for Dates

SAS [®] File		Flat File		
Re-coded value	Value read from input	YYYYMMDDMMYYYY		Description
.	-54908	18090901	SEP1809	<i>No response (invalid skip)</i>
.O	-55701	18070701	JUL1807	<i>Out-of-range error</i>
.N	-56096	18060601	JUN1806	<i>Not applicable (valid skip)</i>
.I	-56887	18040401	APR1804	<i>Incomplete grid error</i>
.B	-58073	18010101	JAN1801	<i>Blank/no survey.</i> Filler value for survey variables when either a blank survey is returned or no survey is returned. Control system variables retain assigned values.

Note. This conversion has already been done in DMDC SAS[®] files.

SAS can represent up to 27 missing data values for numeric variables as either a period or a period-letter combination. While SAS can read alpha characters representing missing data in a raw data field declared to be numeric, other programs such as SPSS do not accept these characters in numeric fields. Missing numeric data are represented in the flat files by negative numbers that can be declared as missing values. For example, a multiple response error in flat files is coded as a “-8”, which can be declared as a missing value when the data are input in SPSS—in the SAS file, the value “.A” is used to represent a multiple response error.

Data requirements of SUDAAN³ were also considered in coding. Primarily this means avoiding in coding the use of a zero, which has a special use for certain procedures in SUDAAN, for a variable that will be used as an independent variable.

Many types of missing data are common to surveys and are self-explanatory. In general, missing data are coded as “-9” (SAS: .) when respondents skip the item invalidly. Incomplete or in inappropriate responses in text boxes that could not be resolved to numeric are coded as “-4” (SAS: .I). Out-of-range responses in grids (e.g., number of days or weeks in a year larger than 365 or 52, respectively) are coded as “-7” (SAS: .O).

For a single item that contains a response alternative of “Not applicable,” or multiple items that can be affected by a skip pattern, or when item(s) have multiple ways to be not applicable, a missing data code of “-6” (SAS: .N) is typically used.

Multiple survey forms or modes (e.g., paper and web) are sometimes used in a single effort, and the data from all the related forms may be combined into a single dataset for analysis. Questions may appear in one form or mode but not in another. In a combined dataset, a code of “-5” (SAS: .F) indicates missing data for variables not on the form completed by a respondent.

³ SUDAAN is a trademark of the Research Triangle Institute.

Records are included in the files for sampled members regardless of whether or not they returned a survey. If a member did not return a survey or returned a blank survey, every survey variable is assigned a value of “-1” (SAS: .B).

Standard Flag Variables

This survey employs two standard flag variables: specify flags and skip flags. Specify and skip flags are created during the second and third edit steps.

Skip pattern flags indicate whether one or more questions were or were not to be asked of respondents. For example, if respondents to this survey indicate on Question 4 (SRMARST) that they were not married or separated, then respondents were not to see Question 6. PRSE1ASK is a flag variable indicating if Question 6 (PRSEMP01) was answered consistently with the skip direction. Skip flags are useful for evaluating the effectiveness of the skip pattern and for screening out ambiguous response patterns during analysis.

Specify flags are used to verify whether additional information was or was not to be gathered on a particular question. For example, AD080SP is a flag variable indicating when respondents had another reason for a physical injury or medical profile that caused them to be absent from their primary duties. The specify flag indicates that the specify box, on Question 80, item d, was enabled to allow respondents to type in text. Specify flags are useful for evaluating the completeness of the option categories; for example, answering “yes” for the category “other reason”.

Special Codes for Skip Patterns

Coding steps 3 and 4 involve editing data to resolve discrepancies in skip patterns. Skip flags are created in step 3. Table D-1 introduced the general outline of the skip flags, but the specific flags for each skip pattern are specified in Table D-3.⁴ After the creation of all the skip flags in step 3, variables within the skip patterns are forward coded in step 4 to make them consistent with the variables that start the skip patterns. To preserve all data, the variables within skip patterns are first copied to a set of confidential variables. The naming convention for these “raw” variables is to end the name with “U” for Unedited. Table D-3 specifies how to assign the special values, to variables within the skip patterns. While Table D-3 is organized to show all the edits for a skip pattern, all step 3 edits are made prior to making any step 4 edits. The remainder of this section describes the logic behind coding of skip patterns.

While an analyst can ignore discrepancies between a respondent’s answer on an item containing a conditional direction to skip items and answers to those items, it is generally better to resolve the discrepancies. Two ways of resolving the discrepancies can be termed backward and forward coding. Backward coding involves correcting the discrepancy by editing back from the skip pattern items to make the initial question conform. Forward coding involves correcting the discrepancy by editing forward from the initial question to make the skip pattern items conform. Data for this survey are forward coded with data on the starting question accepted as marked and data for the items within the skip pattern edited to be consistent with the starting question.

⁴ Table D-3 also provides special coding notes for other non-obvious codings.

If a starting item is marked in such a way that the respondent should skip, items within the skip pattern have the not applicable value (.N) assigned regardless of what the respondent marked on the items within the skip pattern. These values differentiate items with data missing because the item should have been skipped from items where data are missing because the respondent should have answered them but did not.

Table D-1:
Special Coding Notes

Note Coding instructions and codebook specifications

1. **SRSVC1. Codebook page for SRSVC1 should note:**

"Respondents indicating separated or retired (SRSVC1=5) are considered ineligible for survey."

2. **MARDISCSK, MARDISCU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**MARDISCSK** is an indicator of whether **MARDISC** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 3 OR SRMARST = 4) OR SRMARST = 5) then **MARDISCSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**MARDISCU** = **MARDISC** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If MARDISCSK = 1 then do;

MARDISC = .N;

end;

.N = (Not Applicable)

3. **PRSEMP01SK, PRSEMP01U. The following explains how to create the flag variable - the codebook page should contain this information:**

"**PRSEMP01SK** is an indicator of whether **PRSEMP01** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (SRMARST = 1 OR SRMARST = 2) then **PRSEMP01SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSEMP01U** = **PRSEMP01** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRSEMP01SK = 1 then do;

PRSEMP01 = .N;

end;

.N = (Not Applicable)

4. **PRSEMP02SK, PRSEMP02U. The following explains how to create the flag variable - the codebook page should contain this information:**

"**PRSEMP02SK** is an indicator of whether **PRSEMP02** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) then **PRSEMP02SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSEMP02U** = **PRSEMP02** but is unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

```
If PRSEMP02SK = 1 then do;  
PRSEMP02 = .N;  
end;  
.N = (Not Applicable)
```

5. **PRSEMP03SK, PRCPS01U, PRSEMP03U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRSEMP03SK** is an indicator of whether **PRCPS01, PRSEMP03** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) then **PRSEMP03SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS01U** = **PRCPS01, PRSEMP03U** = **PRSEMP03** but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

```
If PRSEMP03SK = 1 then do;  
PRCPS01 = .N;  
PRSEMP03 = .N;  
end;  
.N = (Not Applicable)
```

6. **PRCPS02SK, PRCPS02U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRCPS02SK** is an indicator of whether **PRCPS02** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) then **PRCPS02SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS02U** = **PRCPS02** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRCPS02SK = 1 then do;

PRCPS02 = .N;

end;

.N = (Not Applicable)

7. PRCPS03SK, PRCPS03U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**PRCPS03SK** is an indicator of whether **PRCPS03** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) AND PRCPS02 = 1) then **PRCPS03SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS03U** = **PRCPS03** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRCPS03SK = 1 then do;

PRCPS03 = .N;

end;

.N = (Not Applicable)

8. PRCPS04SK, PRCPS04U. The following explains how to create the flag variable -- the codebook page should contain this information:

"**PRCPS04SK** is an indicator of whether **PRCPS04** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((((((SRMARST = 1 OR SRMARST = 2) AND PRSEMP01 = 1) AND PRSEMP02 = 1) AND PRCPS01 = 1) AND PRCPS02 = 1) AND PRCPS03 = 2) then **PRCPS04SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRCPS04U** = **PRCPS04** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If PRCPS04SK = 1 then do;
PRCPS04 = .N;
end;
.N = (Not Applicable)

9. **DEPDNTSK, DEPDNTAU, DEPDNTBU, DEPDNTCU, DEPDNTDU, DEPDNTEU, DEPDNTFU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**DEPDNTSK** is an indicator of whether **DEPDNTA, DEPDNTB, DEPDNTC, DEPDNTD, DEPDNTE, DEPDNTF** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPDNTS** = 2 then **DEPDNTSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPDNTAU = DEPDNTA, DEPDNTBU = DEPDNTB, DEPDNTCU = DEPDNTC, DEPDNTDU = DEPDNTD, DEPDNTEU = DEPDNTE, DEPDNTFU = DEPDNTF** but are unedited for forward coding of non-applicable or missing response values."
Here is how they were edited:

If DEPDNTSK = 1 then do;
DEPDNTA = 0;
DEPDNTB = 0;
DEPDNTC = 0;
End;
0 = (None)

10. **SRRACEA—SRRACEE, SRRETH1**

The codebook pages for SRRACEA—SRRACEE should note:

"These items are consistent with the '1997 Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity' and the 2000 Decennial Census."

SRRACEA—SRRACEE are codes as "Mark all that apply" items, where 1=Not marked and 2=Marked. SRRACEA indicates whether the "White" response category was marked, SRRACEB indicates whether the "Black or African-American" response category was marked, SRRACEC indicates whether "American Indian or Alaskan Native" was marked, SRRACED indicates whether "Asian" was marked, SRRACEE indicates whether "Native Hawaiian or other Pacific Islander" was marked, and SRRACEF indicates whether "Some other race" was marked. If none are marked, then all of SRRACEA—SRRACEE are assigned -9 (missing).

SRRETH1 implements the October 1997 standards for reporting Federal data on race and ethnicity. The codebook page for SRRETH1 should note:

“These racial/ethnic categories are consistent with the 1997 standards for maintaining, collecting, and presenting federal data on race and ethnicity.”

SRRETH1 groups responses to SRRACEA-SRRACEF into racial/ethnic categories including multi-racial combinations. The categories are broken down by whether the respondent indicates Hispanic descent (from variable SRHISPA1). Each description in the “RACIAL CATEGORY” column of the chart is preceded by an H for “Hispanic” if the respondent has a value of 2 for SRHISPA1, and by a NH for “Non-Hispanic” if SRHISPA1 has a value of 1. The columns to the right of the descriptions show the Hispanic and race /ethnicity codes matching each description. The coding for SRRETH1 follows the coding provided in the chart. For example, Hispanic single-race respondents who mark only one of the SRRACEA-SRRACEF are assigned the corresponding code (1-5) from the racial/ethnic categories. Hispanics selecting more than one race are coded 7. Non-Hispanics reporting no race code are coded as missing (-9). The “Unassigned categories (coded as 6 and 14), are not populated in this survey but are used when the additional response option of “Other” for race/ethnicity are included in the question. The categories for Non-Hispanics are similar, except that some racial combinations form their own categories (codes 15-18). The remaining combinations reported by Non-Hispanics are coded as 19.

CODE	RACIAL CATEGORY (SRRETH1)	SR-HISP	SR-RACEA	SR-RACEB	SR-RACEC	SR-RACED	SR-RACEE
1	H American Indian or Alaska Native	2	1	1	2	1	1
2	H Asian	2	1	1	1	2	1
3	H Black or African American	2	1	2	1	1	1
4	H Native Hawaiian or Other Pacific Islander	2	1	1	1	1	2
5	H White	2	2	1	1	1	1
6	H Some other race	2	(Not used in April 2004 SOFS for AD Members)				
7	Hispanic/Latino reporting more than one race	2	(Any combination of more than one 2 in SRRACEA-E)				
8	H Unknown race	2	-9	-9	-9	-9	-9
9	NH American Indian or Alaska Native	1	1	1	2	1	1
10	NH Asian	1	1	1	1	2	1
11	NH Black or African American	1	1	2	1	1	1
12	NH Native Hawaiian or Other Pacific Islander	1	1	1	1	1	2
13	NH White	1	2	1	1	1	1
14	NH Some other race	1	(Not used April 2004 SOFS for AD Members)				
15	NH American Indian or Alaska Native & White	1	2	1	2	1	1
16	NH Asian & White	1	2	1	1	2	1
17	NH Black or African American & White	1	2	2	1	1	1
18	NH American Indian or Alaska Native & Black or African American	1	1	2	2	1	1
19	NH Balance of individuals reporting more than one race	1	(Any other combination of more than one 2 in SRRACEA-E)				

11. **SRDULCDSK, SRDULCDU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SRDULCDSK** is an indicator of whether **SRDULCD** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **SRDULOC** = 1 then **SRDULCDSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SRDULCDU** = **SRDULCD** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SRDULCDSK = 1 then do;  
  SRDULCD = .N;  
end;  
.N = (Not Applicable)
```

12. **SRDULSPSK, SRDULSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SRDULSPSK** is an indicator of whether **SRDULSP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **SRDULOC** = 8 then **SRDULSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SRDULSPU** = **SRDULSP** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SRDULSPSK = 1 then do;  
  SRDULSP = '.N';  
end;
```

.N = (Not Applicable)

13. **SRBAHSPSK, SRBAHSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SRBAHSPSK** is an indicator of whether **SRBAHSP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **SRBAH** = 9 then **SRBAHSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SRBAHSPU** = **SRBAHSP** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SRBAHSPSK = 1 then do;  
  SRBAHSP = '.N';  
end;  
.N = (Not Applicable)
```

14. **PRSTAYASK, PRSTAYAU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**PRSTAYASK** is an indicator of whether **PRSTAYA** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (**SRMARST** = 1 OR **SRMARST** = 2) then **PRSTAYASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSTAYAU** = **PRSTAYA** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRSTAYASK = 1 then do;  
  PRSTAYA = '.N';  
end;  
.N = (Not Applicable)
```

15. **PRSTAYBSK, PRSTAYBU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**PRSTAYBSK** is an indicator of whether **PRSTAYB** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 3 OR SRMARST = 4) OR SRMARST = 5) AND (((MARDISC = 1 OR MARDISC = 2) OR MARDISC = 3) OR MARDISC = 4)) then **PRSTAYBSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PRSTAYBU** = **PRSTAYB** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If PRSTAYBSK = 1 then do;  
  PRSTAYB = .N;  
end;  
.N = (Not Applicable)
```

16. **PCSLASTSK, PCSLASTU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**PCSLSTSK** is an indicator of whether **PCSLAST** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If PCS=2 then **PCSLSTSK** =2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**PCSLASTU** = **PCSLAST** but is unedited for forward coding of non-applicable or missing response values. Additionally, **PCSLAST** was checked for unlikely values. Entries ranging from 0 to 99 are accepted as valid. Values over 99 are recoded as 99 while values less than 0 are recoded to -7/.O (Out-of range error)."

Here is how they are edited:

```
If PCSLASTSK = 1 then do;  
  PCSLAST = .N;  
end;  
.N = (Not Applicable)  
If PCSLAST GE 99 then PCSLAST = 99;  
If PCSLAST NE .N and PCSLAST LT 0 then PCSLAST = .O;  
.O =(Out-of-range error)
```

17. **OVTMDY.** The following explains editing of variable--the codebook page for the edited variable should contain this information:

"**OVTMDYU=OVTMDY** but is unedited for unlikely values. Entries ranging from 0 to 365 are accepted as valid. Values over 365 are recoded as 365 while values less than 0 are recoded to -7/.O (Out-of-range error)."

Here is how it was edited:

If OVTMDY GE 365 then OVTMDY = 365;

If OVTMDY LT 0 then OVTMDY =.O;

.O=(Out-of-range error)

18. **DEPLYDY.** The following explains editing of variable —the codebook page for the edited variable should contain this information:

"**DEPLYDYU = DEPLYDY** but is unedited for unlikely values. Entries ranging from 0 to 365 are accepted as valid. Values over 365 are recoded as 365 while values less than 0 are recoded to -7/.O (Out-of range error)."

Here is how it was edited:

If DEPLYDY GE 365 then DEPLYDY = 365;

If DEPLYDY LT 0 then DEPLYDY =.O;

.O= (Out-of-range error)

19. **DEPLYSK, DEPLYU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLYSK** is an indicator of whether **DEPLY** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLYDY** > 0 then **DEPLYSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLYU = DEPLY** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DEPLYSK = 1 then do;

DEPLY = .N;

end;

.N = (Not Applicable)

20. DEPLOCSK, DEPLOCU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLOCSK** is an indicator of whether **DEPLOC** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLY** = 2 then **DEPLOCSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOCU** = **DEPLOC** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If DEPLOCSK = 1 then do;  
DEPLOC = .N;  
end;  
.N = (Not Applicable)
```

21. DEPLOCDSK, DEPLOC DU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLOCDSK** is an indicator of whether **DEPLOC D** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLOC** = 1 then **DEPLOCDSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOC DU** = **DEPLOC D** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If DEPLOCDSK = 1 then do;  
DEPLOC D = .N;  
end;  
.N = (Not Applicable)
```

22. DEPLOSPSK, DEPLOSPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**DEPLOSPSK** is an indicator of whether **DEPLOSP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **DEPLOC** = 8 then **DEPLOSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLOSPU** = **DEPLOSP** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DEPLOSPSK = 1 then do;

DEPLOSP = '.N';

end;

.N = (Not Applicable)

23. **AE043SK, AE043AU, AE043BU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AE043SK** is an indicator of whether **AE043A, AE043B** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If DEPLYDY > 0 then **AE043SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AE043AU** = **AE043A, AE043BU** = **AE043B** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If AE043SK = 1 then do;

AE043A = .N;

AE043B = .N;

end;

.N = (Not Applicable)

24. **CMBTOPSK, CMBTOPU, RETFROP. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**CMBTOPSK** is an indicator of whether **CMBTOP, RETFROP** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (DEPLYDY > 0 AND (AE043A = 2 OR AE043B = 2)) then **CMBTOPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CMBTOPU** = **CMBTOP, RETFROP** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If CMBTOPSK = 1 then do;  
CMBTOP = .N;  
RETFROP = .N;  
end;  
.N = (Not Applicable)
```

25. **SUP SVC1SK, SUP SVC1U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SUP SVC1SK** is an indicator of whether **SUP SVC1** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((DEPLYDY > 0 AND (AE043A = 2 OR AE043B = 2)) AND RETFROP = 2) then **SUP SVC1SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SUP SVC1U** = **SUP SVC1** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SUP SVC1SK = 1 then do;  
SUP SVC1 = .N;  
end;  
.N = (Not Applicable)
```

26. **SUP SVC2SK, SUP SVC2U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SUP SVC2SK** is an indicator of whether **SUP SVC2** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (((DEPLYDY > 0 AND (AE043A = 2 OR AE043B = 2)) AND RETFROP = 2) AND SUP SVC1 = 2) then **SUP SVC2SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SUP SVC2U** = **SUP SVC2** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SUP SVC2SK = 1 then do;  
SUP SVC2 = .N;  
end;  
.N = (Not Applicable)
```

27. **SUP SVC3SK, SUP SVC3U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SUP SVC3SK** is an indicator of whether **SUP SVC3** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (((((((SRMARST = 1 OR SRMARST = 2) OR MARDISC = 1) OR MARDISC = 2) OR MARDISC = 3) OR MARDISC = 4) AND DEPLYDY > 0) AND (AE043A = 2 OR AE043B = 2)) AND RETFROP = 2) AND SUP SVC1 = 2) then **SUP SVC3SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SUP SVC3U** = **SUP SVC3** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SUP SVC3SK = 1 then do;
SUP SVC3 = .N;
end;
.N = (Not Applicable)

28. **DEPLYPSK, DEPLYPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**DEPLYPSK** is an indicator of whether **DEPLYP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If DEPLYDY > 0 then **DEPLYPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**DEPLYPU** = **DEPLYP** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If DEPLYPSK = 1 then do;
DEPLYP = .N;
end;
.N = (Not Applicable)

29. **DEX PRSK, DEX PRAU, DEX PRBU, DEX PRCU, DEX PRDU, DEX PREU, DEX PRFU, DEX PRGU, DEX PRHU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**DEX PRSK** is an indicator of whether **DEX PRA**, **DEX PRB**, **DEX PRC**, **DEX PRD**, **DEX PRE**, **DEX PRF**, **DEX PRG**, **DEX PRH** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If DEPLYP = 2 then **DEX PRSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"DEXPRAU = DEXPRA, DEXPRBU = DEXPRB, DEXPRCU = DEXPRC, DEXPRDU = DEXPRD, DEXPREU = DEXPRE, DEXPRFU = DEXPRF, DEXPRGU = DEXPRG, DEXPRHU = DEXPRH but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If DEXPRSK = 1 then do;  
DEXPRA = .N;  
DEXPRB = .N;  
DEXPRC = .N;  
DEXPRD = .N;  
DEXPRE = .N;  
DEXPRF = .N;  
DEXPRG = .N;  
DEXPRH = .N;  
end;  
.N = (Not Applicable)
```

30. SATCPSK, SATCPU. The following explains how to create the flag variable -- the codebook page should contain this information:

"SATCPSK is an indicator of whether **SATCP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If CPAYA = 2 then **SATCPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"SATCPU = SATCP but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If SATCPSK = 1 then do;  
SATCP = .N;  
end;  
.N = (Not Applicable)
```

31. SATBASSK, SATBASU. The following explains how to create the flag variable -- the codebook page should contain this information:

"SATBASSK is an indicator of whether **SATBAS** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If CPAYB = 2 then **SATBASSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SATBASU** = **SATBAS** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SATBASSK = 1 then do;

SATBAS = .N;

end;

.N = (Not Applicable)

32. SATBAHSK, SATBAHU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SATBAHSK** is an indicator of whether **SATBAH** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If CPAYC = 2 then **SATBAHSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SATBAHU** = **SATBAH** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SATBAHSK = 1 then do;

SATBAH = .N;

end;

.N = (Not Applicable)

33. SATOHASK, SATOHAU. The following explains how to create the flag variable -- the codebook page should contain this information:

"**SATOHASK** is an indicator of whether **SATOHA** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If CPAYD = 2 then **SATOHASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SATOHAU** = **SATOHA** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SATOHASK = 1 then do;
SATOHA = .N;
end;
.N = (Not Applicable)

34. **SATCOLASK, SATCOLAU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SATCOLASK** is an indicator of whether **SATCOLA** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If CPAYE = 2 then **SATCOLASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SATCOLAU** = **SATCOLA** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SATCOLASK = 1 then do;
SATCOLA = .N;
end;
.N = (Not Applicable)

35. **MILOPPSK, MILOPPAU, MILOPPBU, MILOPPCU, MILOPPDU, MILOPPEU, MILOPPFU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**MILOPPSK** is an indicator of whether **MILOPPA, MILOPPB, MILOPPC, MILOPPD, MILOPPE, MILOPPF** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (((((SRED1 = 2 OR SRED1 = 3) OR SRED1 = 4) OR SRED1 = 5) OR SRED1 = 6) OR SRED1 = 7) then **MILOPPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**MILOPPAU** = **MILOPPA, MILOPPBU** = **MILOPPB, MILOPPCU** = **MILOPPC, MILOPPDU** = **MILOPPD, MILOPPEU** = **MILOPPE, MILOPPFU** = **MILOPPF** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If MILOPPSK = 1 then do;
 MILOPPA = .N;
 MILOPPB = .N;
 MILOPPC = .N;
 MILOPPD = .N;
 MILOPPE = .N;
 MILOPPF = .N;
 end;
 .N = (Not Applicable)

36. **SMILOPSK, SMILOPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SMILOPSK** is an indicator of whether **SMILOP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) AND (((SRED1 = 2 OR SRED1 = 3) OR SRED1 = 4) OR SRED1 = 5) OR SRED1 = 6) OR SRED1 = 7)) then **SMILOPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SMILOPU** = **SMILOP** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If SMILOPSK = 1 then do;
 SMILOP = .N;
 end;
 .N = (Not Applicable)

37. **FINSPTSPSK, FINSPTSPU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**FINSPTSPSK** is an indicator of whether **FINSPTSP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If FINSPTG = 2 then **FINSPTSPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**FINSPTSPU** = **FINSPTSP** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If FINSPTSPSK = 1 then do;
FINSPTSP = '.N';
end;
.N = (Not Applicable)

38. **TGIASK, TGIAU, TGIB1U, TGIB2U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**TGIASK** is an indicator of whether **TGIA**, **TGIB1**, **TGIB2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRMARST = 1 OR SRMARST = 2) then **TGIASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**TGIAU** = **TGIA**, **TGIB1U** = **TGIB1**, **TGIB2U** = **TGIB2** but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If TGIASK = 1 then do;
TGIA = .N;
TGIB1 = .N;
TGIB2 = .N;
end;
.N = (Not Applicable)

39. **SOINCASK, SOINCAU, SOINCB1U, SOINCB2U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**SOINCASK** is an indicator of whether **SOINCA**, **SOINCB1**, **SOINCB2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (SRMARST = 1 OR SRMARST = 2) then **SOINCASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**SOINCAU** = **SOINCA**, **SOINCB1U** = **SOINCB1**, **SOINCB2U** = **SOINCB2** but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

If SOINCASK = 1 then do;
SOINCA = .N;
SOINCB1 = .N;
SOINCB2 = .N;
end;
.N = (Not Applicable)

40. **TPBASK, TPBAU, TPBB1U, TPBB2U.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**TPBASK** is an indicator of whether **TPBA**, **TPBB1**, **TPBB2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If **LASTMP** > 0 then **TPBASK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**TPBAU** = **TPBA**, **TPBB1U** = **TPBB1**, **TPBB2U** = **TPBB2** but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

```
If TPBASK = 1 then do;  
  TPBA = .N;  
  TPBB1 = .N;  
  TPBB2 = .N;  
end;  
.N = (Not Applicable)
```

41. **CCIRSK, CCIRU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**CCIRSK** is an indicator of whether **CCIR** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **CCDEBT** = 2 then **CCIRSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CCIRU** = **CCIR** but are unedited for forward coding of non-applicable or missing response values."
Here is how they are edited:

```
If CCIRSK = 1 then do;  
  CCIR = .N;  
end;  
.N = (Not Applicable)
```

42. **MCARPSK, MCARPU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**MCARPSK** is an indicator of whether **MCARP** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If **CARLOAN** = 2 then **MCARPSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**MCARPU = MCARP** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If MCARPSK = 1 then do;

MCARP = .N;

end;

.N = (Not Applicable)

43. **CARIRSK, AE096U, CARIRU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**CARIRSK** is an indicator of whether **AE096, CARIR** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (CARLOAN = 2 AND MCARP > 0) then **CARIRSK = 2** (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AE096U = AE096, CARIRU = CARIR** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If CARIRSK = 1 then do;

AE096 = .N;

CARIR = .N;

end;

.N = (Not Applicable)

44. **CARLBSK, CARLBU, CARLBB1U, CARLBB2U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**CARLBSK** is an indicator of whether **CARLB, CARLBB1, CARLBB2** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If CARLOAN = 2 then **CARLBSK = 2** (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CARLBU = CARLB, CARLBB1U = CARLBB1, CARLBB2U = CARLBB2** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If CARLBSK = 1 then do;
CARLB = .N;
CARLBB1 = .N;
CARLBB2 = .N;
end;
.N = (Not Applicable)

45. **TYPBKSK, TYPBKU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**TYPBKSK** is an indicator of whether **TYPBK** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If FMGMTJ = 2 then **TYPBKSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**TYPBKU** = **TYPBK** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If TYPBKSK = 1 then do;
TYPBK = .N;
end;
.N = (Not Applicable)

46. **AE105SK, AE105U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AE105SK** is an indicator of whether **AE105** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) AND DEPDNTS = 2) then **AE105SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AE105U** = **AE105** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If AE105SK = 1 then do;
AE105 = .N;
end;
.N = (Not Applicable)

47. **AE106SK, AE106U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AE106SK** is an indicator of whether **AE106** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (((SRMARST = 3 OR SRMARST = 4) OR SRMARST = 5) AND DEPDNTS = 2) then **AE106SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AE106U** = **AE106** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AE106SK = 1 then do;  
  AE106 = .N;  
end;  
.N = (Not Applicable)
```

48. **AE107SK, AE107U. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AE107SK** is an indicator of whether **AE107** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If (DEPDNTS = 2 AND (AE105 = 1 OR AE106 = 1)) then **AE107SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AE107U** = **AE107** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If AE107SK = 1 then do;  
  AE107 = .N;  
end;  
.N = (Not Applicable)
```

49. **AE108SK, AE108U, CHLDCNMU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**AE108SK** is an indicator of whether **AE108, CHLDCNM** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (DEPDNTS = 2 AND (AE105 = 2 OR AE106 = 2)) then **AE108SK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**AE108U = AE108, CHLDCNMU = CHLDCNM** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If AE108SK = 1 then do;

AE108 = .N;

CHLDCNM = .N;

end;

.N = (Not Applicable)

50. **CHLDCNBSK, CHLDCNBAU, CHLDCNBBU, CHLDCNBCU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**CHLDCNBSK** is an indicator of whether **CHLDCNBA, CHLDCNBB, CHLDCNBC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (DEPDNTS = 2 AND AE108 = 1) then **CHLDCNBSK = 2** (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CHLDCNBAU = CHLDCNBA, CHLDCNBBU = CHLDCNBB, CHLDCNBCU = CHLDCNBC** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If CHLDCNBSK = 1 then do;

CHLDCNBA = .N;

CHLDCNBB = .N;

CHLDCNBC = .N;

end;

.N = (Not Applicable)

51. **CHLDCFBSK, CHLDCFBAU, CHLDCFBBU, CHLDCFBCU. The following explains how to create the flag variable -- the codebook page should contain this information:**

"**CHLDCFBSK** is an indicator of whether **CHLDCFBA, CHLDCFBB, CHLDCFBC** were or were not to be asked of a respondent and its initial value is 1 (Not asked). If (DEPDNTS = 2 AND AE108 = 2) then **CHLDCFBSK = 2** (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**CHLDCFBAU = CHLDCFBA, CHLDCFBBU = CHLDCFBB, CHLDCFBCU = CHLDCFBC** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

If CHLDCFBK = 1 then do;
 CHLDCFBA = .N;

.N = (Not Applicable)
```

80. **COMPEDSK, COMPEDU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**COMPEDSK** is an indicator of whether **COMPED** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If COMPWEB = 2 then **COMPEDSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**COMPEDU** = **COMPED** but is unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If COMPEDSK = 1 then do;  
COMPED = .N;  
end;  
.N = (Not Applicable)
```

81. **COMPSPEDSK, COMSPEDU.** The following explains how to create the flag variable -- the codebook page should contain this information:

"**COMPSPEDSK** is an indicator of whether **COMSPED** was or was not to be asked of a respondent and its initial value is 1 (Not asked). If ((SRMARST = 1 OR SRMARST = 2) AND COMPWEB = 2) then **COMPSPEDSK** = 2 (Asked)."

The following explains how the flag variable is used in editing -- the codebook page for the edited variable should contain this information:

"**COMSPEDU** = **COMSPED** but are unedited for forward coding of non-applicable or missing response values."

Here is how they are edited:

```
If COMPSPEDSK = 1 then do;  
COMSPED = .N;  
end;  
.N = (Not Applicable)
```

82. **COMMENT**

COMMENT has two codes.

2	<i>Text entered</i> - is assigned if something is written in the space provided.
1	<i>No text entered</i> - is assigned if nothing is written in the space provided.

COMMENTU text from the write-in boxes and will be placed in a verbatim file.

83. REQUEST

REQUEST has two codes.

- 2 *e-mail address entered* - is assigned if something is written in the space provided for e-mail address.
- 1 *No e-mail address entered* - is assigned if nothing is written in the space provided for e-mail address.

REQUESTU contains text from the write-in boxes and will be placed in a verbatim file.

```

```
/*-----*
This procedure runs Proc SurveyMeans. Proc SurveyMeans uses Taylor
series variance estimates and is one of a few procedures in SAS that
applies sample design corrections to the estimated variances. Most
commonly available statistical programs have little or no capability to
compensate for survey sample designs and produce inaccurate variance
estimates.
```

In the example below Gender (XSEX) is the dependent variable and is treated as class variable. EligFlgW and XSVC are the independent variable. The results for EligFlgW show the estimated eligible and ineligible population totals for each sex. The EligFlgW*XSVC show the estimated eligible and ineligible population totals for each sex by Service.

Note that weighted ineligible records need to be included in all domain definitions in order to properly estimate variances even though the point estimates for the ineligible records may be of no interest. SAS does provide a macro that enables Proc SurveyMeans to analyze sub-populations without printing the point estimates of unwanted domains while still include the unwanted domain information in variance estimates.

```

Crosswalk of Questionnaire Items

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
1	In what Service where you on active duty on (Month, Year)	108*	1	1	1	1
2	Are you...? (male or female)	101	3	111	2	2
3	What is your current paygrade?	109	2	110	3	3
4	What is your marital status?	54	5	29	4	4
5	How many years have you been in a relationship with your current significant other (that is, girlfriend or boyfriend)			32	5	5
6	Is your spouse currently serving on active duty (not a member of the National Guard or Reserve)	55*	6*	113*	6	6
7	Is your spouse a currently serving as a member of the National Guard or Reserve in a full-time active duty program (AGR, TAR, AR)?	55*	6*	113*	7	7
8	Is your spouse currently serving as a member of another type of National Guard or Reserve unit (e.g., drilling unit, IMA, IRR, military technician)?	55*	6*	113*	8	8
9	Last week, did your spouse do any work for pay or profit?		7	114	9	9
10	Last week, was your spouse temporarily absent from a job or business?		9	115	10	10
11	Has your spouse been looking for work during the last 4 weeks?		11	116	11	11
12	Last week, could your spouse have started a job if offered one, or returned to work if recalled?		12	117	12	12
13	What is the highest degree or level of school that you have completed?	106	4	112	13	13
14	Do you have a child, children or other legal dependents based on the definition above?	58	15	38	15	14
15	How many children or other legal dependents do you have in each age group?	59*	16	39	15	15*
16	Are you Spanish/Hispanic/Latino?	103	13	118	16	16
17	What is your race?	104	14	119	17	17
18	Where is your permanent duty station located?	5*	17	120	18	18

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
19	Please select from the list below your permanent duty station location within one of the 50 states, DC, Puerto Rico, a U.S. territory or possession.		17	120	19	18_1
20	Please enter the name of the country or installation.		17	120	20	18_2
21	Where do you live at your permanent duty station?	8*	18	121	55	19
22	Please specify where you live at your permanent duty station.		18	121	56	19_1
23	Taking all things into consideration, how satisfied are you, in general, with each of the following aspects of being in the military?	39*	51	2	21	20
	a. Your total compensation (i.e., base pay, allowances, and bonuses)		51	2	21	20
	b. The type of work you do in your military job		51	2	21	20
	c. Your opportunities for promotion		51	2	21	20
	d. The quality of your coworkers		51	2	21	20
	e. The quality of your supervisor		51	2	21	20
24	Overall, how satisfied are you with the military way of life?	51*	52	3	22	21
25	Suppose that you have to decide whether to stay on active duty. Assuming you could stay, how likely is it that you would choose to do so?	32	22	6	23	22
26	Does your <u>spouse</u> think you should stay on or leave active duty?	34*	26*	36*	24 23	
27	Does your <u>significant other</u> think you should stay on or leave active duty?	34*	26*	36*	25 24	
28	Does your <u>family</u> think you should stay on or leave active duty?			37	26 25	
29	Have you ever PCSed?	12*	35	9	27 26	
30	How many months has it been since your last PCS?		36	10	28 27	
31	In the <u>past 12 months</u> , how many times have you had to work longer than your normal duty day (i.e., overtime)?		39	11	29 28	

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
32	In the <u>past 12 months</u> , how many nights have you been away from your permanent duty station because of your military duties?	17*	41	14	30 29	
33	Are you currently on a deployment of 30 days or more?	6*		13*		30
34	Where are you currently deployed?	7*				31
35	Please select from the list below your deployment location within one of the 50 states, DC, Puerto Rico, a U.S. territory or possession.					31_1
36	Please enter the name of the country or installation.					31_2
37	In the <u>past 12 months</u> , have you spent more or less time away from your permanent duty station than you expected when you first entered the military?		43*	15	31 32	
38	What impact has time away (or lack thereof) from your permanent duty station in the <u>past 12 months</u> had on your military career intentions?		42	16	32 33	
39	Overall, how well prepared are <u>you</u> to perform your wartime job?		29*	18	33 34	
40	Overall, how well prepared is <u>your unit</u> to perform its wartime mission?		28*	19	34 35	
41	Overall, how would you rate the current level of stress in your <u>work</u> life?			20	35 36	
42	Overall, how would you rate the current level of stress in your <u>personal</u> life?			21	36 37	
43	During the past 12 months, were you away from your permanent duty station for the following operations?				37	39*
	a. Operation Iraqi Freedom				37a	39a*
	b. Operation Enduring Freedom				37b	39b*
44	Were you involved in combat operations?				38	40
45	Have you returned to your permanent duty station from the operation(s)?				39	41

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
46	Did you receive support services (e.g., support groups, counseling, pre- or post-deployment information briefings) before or after returning to your permanent duty station?				40	42
47	Did the support services (e.g., support groups, counseling, pre- or post-deployment information briefings) help you adjust to returning to your permanent duty station?				41	43
48	Did the support services (e.g., support groups, counseling, pre- or post-deployment information briefings) help you adjust to returning to your spouse or significant other?				42	44
49	How many times have you used the toll-free 1-800 Military OneSource number?					
50	Have you used Personal or family counseling offered through military family centers or 1-800 Military OneSource?					
51	In the past 12 months, have you been deployed 30 days or more?					
52	During your most recent deployment, did you (and/or your spouse) lose money or have any additional expenses because of the following items?					
	a. Loss of your part-time job					
	b. Loss of spouse's job					
	c. Elder care					
	d. Child care					
	e. Pet care					
	f. Household repairs, yard work, or car maintenance					
	g. Storage or security of personal belongings					
	h. Communicating with family					
53	How satisfied are you with each of the following?		45			
	a. Basic pay		45a			
	b. Military retirement system		45g			
	c. Your medical/dental benefits		45i*			

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
54	Have you received any of the following forms of compensation in the past 12 months?					
	a. Special pays (e.g., incentive, reenlistment, continuation, family separation pay, hazardous duty pay, etc.)					
	b. Basic Allowance for Subsistence (BAS)					
	c. Basic Allowance for Housing (BAH)					
	d. Overseas Housing Allowance (OHA)					
	e. Cost of Living Allowances (COLAs)					
55	How satisfied are you with special pays (e.g., incentive, reenlistment, continuation, etc.)?		45b*			
56	How satisfied are you with your Basic Allowance for Subsistence (BAS)?		45c*			
57	How satisfied are you with your Basic Allowance for Housing (BAH)?		45d*			
58	How satisfied are you with your Overseas Housing Allowance (OHA)?		45e*			
59	How satisfied are you with your Cost of Living Allowance (COLA)?		45f*			
60	How important should the following factors be in determining total military compensation, including pay, benefits, and allowances?					
	a. Job difficulty					
	b. Job performance					
	c. Danger					
	d. Time spent away from home					
	e. Number of hours worked					
	f. Level of responsibility					
	g. Amount of education/training					
	h. Years of experience					
	i. Amount civilian employer would pay for this type of work					

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
	j. Amount needed to provide for family					
	k. Cost of living					
61	Relative to your high school classmates, how would you rate your opportunities and benefits in the military?					
	a. Promotion opportunities					
	b. Vacation time					
	c. Education and training					
	d. Total compensation (e.g., pay, bonuses, allowances)					
	e. Health care benefits					
	f. Retirement benefits					
62	Relative to your high school classmates, how would you rate your spouse's opportunities?					
63	Assuming there are no medical benefits after you retire, how much do you think you would have to pay in annual medical insurance premiums to get the same level of service that you (and your family) presently receive?					
64	In today's dollars, how much income do you think you will receive annually from military retirement pay, if you stay in the military for 20 years or more?					
65	During the past 12 months, did you (and your spouse) receive any income or financial support from the following sources?	87				
	a. A second job	87				
	b. Alimony and/or child support	87				
	c. Supplemental Security Income, unemployment, or worker's compensation	87				
	d. State-funded child care assistance	87				
	e. Women, Infants, and Children (WIC), and/or Temporary Assistance for Needy Families (TANF)	87				
	f. Food Stamp Program	87				
	g. Other	87				

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
66	Please specify other sources of income or financial support that you (and your spouse) received in the past 12 months?	87				
67	What were your <u>total</u> military earnings in 2003? (Please include all allowances, special pays, basic pay and bonuses. Exclude spouse earning.)					
68	<i>Or, if you prefer, you can enter a range here. My total military earnings were at least:</i>					
69	<i>but not more than:</i>					
70	What was your spouse's <u>total</u> year gross (before-tax) earnings in 2003? (Please include bonuses, overtime, and income from a second job.)					
71	<i>Or, if you prefer, you can enter a range here. My spouse's total yearly gross earning were at least:</i>					
72	<i>but no more than:</i>					
73	In 2003, how much income did <u>you</u> receive from the following sources: a second job, net gains or losses from sale of stocks, bonds, or real estate; interest income, dividends, child support/alimony, social security, welfare assistance, and net rent, trusts, and royalties from any other investments or business?					
74	<i>Or, if you prefer, you can enter a range here. My income from other sources was at least:</i>					
75	<i>but no more than:</i>					
76	In 2003, how much income did <u>your spouse</u> receive from the following sources: a second job, net gains or losses from sale of stocks, bonds, or real estate; interest income, dividends, child support/alimony, social security, welfare assistance, and net rent, trusts, and royalties from any other investments or business?

	h. Failed to make a car payment?					
	i. Obtained a payday loan?					
	j. Filed for personal bankruptcy?	96*				
101	Which type of personal (non-business) bankruptcy did you file in the past 12 months?					
102	Which of the following best describes your financial condition?	95	47	45		
103	Which of the following statements comes closest to describing the saving habits of you (and your spouse)?					
104	In the <u>past 12 months</u> , have financial problems caused any of the following?					
	a. Loss of security clearance					
	b. Early return from a deployment or extended temporary duty assignment					
	c. Non-judicial punishment					
	d. Command directed financial counseling					
	e. Command involvement in resolving unpaid military travel card bills					
	f. Command involvement in resolving other unpaid bills					
105	Do you have child(ren) who routinely use child care arrangements so you and your spouse can work?				47	
106	Do you have child(ren) who routinely use child care arrangements so you can work?				48	
107	Do you need child care arrangements so you and/or your spouse can work?					

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
108	During the work day, what is your primary source of child care?				49	
109	How many of your children routinely use child care arrangements?					
110	Indicate the extent to which you are satisfied with each of the following aspects of on-base child care?					
	a. Availability of child care					
	b. Quality of the child care					
	c. Affordability of child care					
111	Indicate the extent to which you are satisfied with each of the following aspects of off-base child care?					
	a. Availability of child care					
	b. Quality of child care					
	c. Affordability of child care					
112	What is the total amount that you spent last month on child care arrangements for all of your children?	64				
113	In the <u>past 12 months</u> , how many days of work have you or your spouse missed because of lack of child care?					
114	In the <u>past 12 months</u> , how many days of work have you missed because of lack of child care?					
115	What is your preference for child care?					
116	Is your preferred source of child care available?					
117	Have you been referred to another acceptable child care arrangement?					
118	Is child care offered that meets your work schedule?					
119	Do you have a child or children currently enrolled in school?	68				
120	Is your youngest school-age child attending a college or university?					
121	What type of school does your youngest school-age child attend?	69*				

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
122	Please specify the other type of school your youngest school-age child attends.	69*				
123	For the type of school your youngest school-age child attends, please rate the following?	71				
	a. Overall academic program	71				
	b. Support services provided by the school	71				
	c. Special education programs	71				
	d. Physical plant (e.g., building, school grounds, heating/cooling, food service, etc.)	71				
	e. Availability of extracurricular activities	71				
	f. Safety of school	71				
	g. Order and discipline					
	h. Quality of teachers					
	i. Overall quality of the school	71				
124	How satisfied are you with your spouse's employment and career opportunities?		50d			
125	How long did it take your spouse to find employment after your last PCS?					
126	How many weeks has your spouse been looking for work?					
127	How well do your spouse's qualifications match the work he/she does?		48			
128	Excluding overtime pay, tips, and commissions, what is your spouse's hourly rate of pay on his/her primary job?					
129	How much does your spouse's income contribute toward your total monthly household income?					
130	Does your spouse work less than 35 hours a week?					
131	Does your spouse want to work a full-time work week of 35 hours or more?					
132	What is your spouse's MAIN reason for working part-time instead of full-time?					

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
133	What is the MAIN reason your spouse has not been looking for a full-time job?					
134	How did your spouse find his or her current primary job?					
	a. Answered an ad in the newspaper/trade journal					
	b. Answered an ad posted on the Internet					
	c. Contacted the employer directly					
	d. Job fair					
	e. Information provided by a friend or relative					
	f. Contact made while doing volunteer work					
	g. Civilian/private employment agency					
	h. Employment assistance program sponsored by the military					
	i. State employment service					
	j. Job bank					
	k. Other					
135	Please specify the other way in which your spouse found his or her current primary job.					
136	Regardless of your spouse's current employment status, how important are each of the following reasons for why your spouse works, want to work, or needs to work?					
	a. Need money for basic family expenses					
	b. Desire for career					
	c. Want extra money to use now					
	d. Want to save money for the future					
	e. Want independence					
	f. Enjoy working					
	g. Want to gain experience for future career					
137	Do you think your spouse's work skills are...?					
138	On average, how many hours per week does your spouse volunteer in your community?					

#0404	Stem	1999 ADS Member	July 2002 SOFS	March 2003 SOFS	July 2003 SOFS	November 2003 SOFS
139	Is your spouse currently in a civilian school?					
140	What is the main reason your spouse is not attending school?					
141	Is your spouse <u>currently</u> a part-time student or full-time student?					
142	What kind of civilian school is your spouse currently enrolled in?					
143	Please specify the other civilian school in which your spouse is currently enrolled?					
144	What is the highest degree or level of school that your spouse has completed?	56			14	
145	Do you and/or your family have a home computer?					
146	Do you have Web access at home?

REPORT DOCUMENTATION PAGE				<i>Form Approved OMB No. 0704-0188</i>	
The public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0188), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS.

14. ABSTRACT The Status of Forces Surveys (SOFS) program is the Web-based component of the Human Resource Strategic Assessment Program (HRSAP) administered by DMDC for the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). HRSAP is designed to measure the attitudes and opinions of the entire DoD community--active and Reserve Service members, their families and DoD civilian--on the full range of personnel issues. The topics covered in the April 2004 Status of Forces Survey of Active-Duty Members include a series of items that is included on all active-duty SOFS. These items include overall satisfaction, retention intention, perceived readiness, stress, tempo, and permanent change of station (PCS) moves. In addition, items were included on deployment, services for deployed members and their families, and expenses related to recent deployments.					
15. SUBJECT TERMS Survey, Active-duty Members, Employee Attitudes, HRSAP, Satisfaction, Retention Intention, PERSTEMPO, Readiness, Stress, Detailed OPS/PERSTEMPO, PCS Moves, Detailed Readiness, and Off-Duty Education for Service Members

INSTRUCTIONS FOR COMPLETING SF 298

1. REPORT DATE. Full publication date, including day, month, if available. Must cite at least the year and be Year 2000 compliant, e.g. 30-06-1998; xx-06-1998; xx-xx-1998.

2. REPORT TYPE. State the type of report, such as final, technical, interim, memorandum, master's thesis, progress, quarterly, research, special, group study, etc.

3. DATES COVERED. Indicate the time during which the work was performed and the report was written, e.g., Jun 1997 - Jun 1998; 1-10 Jun 1996; May - Nov 1998; Nov 1998.

4. TITLE. Enter title and subtitle with volume number and part number, if applicable. On classified documents, enter the title classification in parentheses.

5a. CONTRACT NUMBER. Enter all contract numbers as they appear in the report, e.g. F33615-86-C-5169.

5b. GRANT NUMBER. Enter all grant numbers as they appear in the report, e.g. AFOSR-82-1234.

5c. PROGRAM ELEMENT NUMBER. Enter all program element numbers as they appear in the report, e.g. 61101A.

5d. PROJECT NUMBER. Enter all project numbers as they appear in the report, e.g. 1F665702D1257; ILIR.

5e. TASK NUMBER. Enter all task numbers as they appear in the report, e.g. 05; RF0330201; T4112.

5f. WORK UNIT NUMBER. Enter all work unit numbers as they appear in the report, e.g. 001; AFAPL30480105.

6. AUTHOR(S). Enter name(s) of person(s) responsible for writing the report, performing the research, or credited with the content of the report. The form of entry is the last name, first name, middle initial, and additional qualifiers separated by commas, e.g. Smith, Richard, J, Jr.

7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES). Self-explanatory.

8. PERFORMING ORGANIZATION REPORT NUMBER. Enter all unique alphanumeric report numbers assigned by the performing organization, e.g. BRL-1234; AFWL-TR-85-4017-Vol-21-PT-2.

9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES). Enter the name and address of the organization(s) financially responsible for and monitoring the work.

10. SPONSOR/MONITOR'S ACRONYM(S). Enter, if available, e.g. BRL, ARDEC, NADC.

11. SPONSOR/MONITOR'S REPORT NUMBER(S). Enter report number as assigned by the sponsoring/monitoring agency, if available, e.g. BRL-TR-829; -215.

12. DISTRIBUTION/AVAILABILITY STATEMENT. Use agency-mandated availability statements to indicate the public availability or distribution limitations of the report. If additional limitations/ restrictions or special markings are indicated, follow agency authorization procedures, e.g. RD/FRD, PROPIN, ITAR, etc. Include copyright information.

13. SUPPLEMENTARY NOTES. Enter information not included elsewhere such as: prepared in cooperation with; translation of; report supersedes; old edition number, etc.

14. ABSTRACT. A brief (approximately 200 words) factual summary of the most significant information.

15. SUBJECT TERMS. Key words or phrases identifying major concepts in the report.

16. SECURITY CLASSIFICATION. Enter security classification in accordance with security classification regulations, e.g. U, C, S, etc. If this form contains classified information, stamp classification level on the top and bottom of this page.

17. LIMITATION OF ABSTRACT. This block must be completed to assign a distribution limitation to the abstract. Enter UU (Unclassified Unlimited) or SAR (Same as Report). An entry in this block is necessary if the abstract is to be limited.

AE139U = AE139, SPVOLHRU = SPVOLHR, but are unedited for forward coding of non-applicable or missing response values. Here is how they are edited: If SPVOLHRSK = 1 then do; AE139 = .N;SPVOLHR = .N;end;.N = (Not Applicable) SPVOLHRU=SPVOLHR but is unedited for unlikely values. Entries ranging from 0 to 99 are accepted as valid. Values over 99 are recoded as 99 while values less than 0 are recoded to -7/.0 (Out-of-range error).
