

**Office of the Under Secretary of Defense
(Installations and Environment)
Environmental Management Directorate**

**MRSPP Review & Update
(and other Good Stuff)**

May 12, 2011
Mr. Victor Wieszek
ODUSD(I&E)/EM

Report Documentation Page				Form Approved OMB No. 0704-0188	
Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.					
1. REPORT DATE 12 MAY 2011		2. REPORT TYPE		3. DATES COVERED 00-00-2011 to 00-00-2011	
4. TITLE AND SUBTITLE MRSPP Review & Update (and other Good Stuff)				5a. CONTRACT NUMBER	
				5b. GRANT NUMBER	
				5c. PROGRAM ELEMENT NUMBER	
6. AUTHOR(S)				5d. PROJECT NUMBER	
				5e. TASK NUMBER	
				5f. WORK UNIT NUMBER	
7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES) Office of the Under Secretary of Defense (Installations and Environment), Environmental Management Directorate, 3400 Defense Pentagon, Room 3B856A, Washington, DC, 20301-3400				8. PERFORMING ORGANIZATION REPORT NUMBER	
9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES)				10. SPONSOR/MONITOR'S ACRONYM(S)	
				11. SPONSOR/MONITOR'S REPORT NUMBER(S)	
12. DISTRIBUTION/AVAILABILITY STATEMENT Approved for public release; distribution unlimited					
13. SUPPLEMENTARY NOTES Presented at the NDIA Environment, Energy Security & Sustainability (E2S2) Symposium & Exhibition held 9-12 May 2011 in New Orleans, LA.					
14. ABSTRACT					
15. SUBJECT TERMS					
16. SECURITY CLASSIFICATION OF:			17. LIMITATION OF ABSTRACT Same as Report (SAR)	18. NUMBER OF PAGES 26	19a. NAME OF RESPONSIBLE PERSON
a. REPORT unclassified	b. ABSTRACT unclassified	c. THIS PAGE unclassified			

Overview

Acquisition, Technology and Logistics

- Policy Update
- Goals and Metrics
- Program Status and Update

Policy Update

Munitions Response Site Prioritization Protocol (MRSPP)

Acquisition, Technology and Logistics

- Review MRSPP policy documents (e.g., MRSPP, MRSPP Primer, QA/QC Guidance)
 - DoD Components submitted comments on suggested changes to MRSPP policy documents
 - MRSPP policy subgroup to review and comment
 - Obtain additional information on the current program if necessary (e.g., review MRSPP scores, distribution of sites without scores)
- Weigh the risks and benefits of changing the MRSPP
- Project underway and ongoing
 - Timeframe to complete depends on issues identified and changes required to address the issues

- Some of the DoD Components have developed sampling-based approaches for QA
- Define parameters for a sampling-based approach for QA review of MRSPP application
 - Process for determining statistically valid sample size
 - Application to all sites or exclude low scoring sites (e.g., small arms ranges)
 - Acceptable margin of error
- Reduce burden while improving consistency and maintaining appropriate level of oversight
- Priority project, but not currently underway

Sequencing Policy

Acquisition, Technology and Logistics

- GAO published *Military Munitions Response Program, Opportunities Exist to Improve Program Management in April 2010*
 - No consistent DoD approach for considering factors other than risk in sequencing MRSs
 - The Army and Air Force have begun to independently develop their own approaches for sequencing
 - The Navy has not yet determined if sequencing guidance is needed
- A copy of the report is available at <http://www.gao.gov/cgi-bin/getrpt?GAO-10-384>

Sequencing Policy (cont.)

Acquisition, Technology and Logistics

- The MRSPP states that the sequencing of MRSs will be primarily based on the relative priority
- Generally, an MRS that presents a greater relative risk will be sequenced for cleanup ahead of an MRS that presents a lower risk
- However, the MRSPP Final Rule states that other “risk-plus” factors warrant consideration in sequencing:
 - Regulator and stakeholder concerns
 - Mission-driven requirements
 - Cultural and social factors
 - Economic factors
 - Reasonably anticipated future land use

Sequencing Policy (cont.)

Acquisition, Technology and Logistics

- The MRSPP requires DoD to ensure that stakeholders are offered opportunities to participate in the application of the MRSPP and sequencing decisions
- The MRSPP also requires the DoD Components to report justification for all out of order sequencing decisions to OSD.

GAO Recommendations on Sequencing Policy

Acquisition, Technology and Logistics

- GAO recommended that DoD develop guidance, outlining a consistent approach for considering factors other than relative risk, for the DoD Components on sequencing MRS
 - Assign site priorities in a consistent and transparent fashion
 - Consider the same range of other factors in sequencing decisions and assess the significance of these factors in a consistent way
- DoD partially concurred with GAO's recommendation
- DoD's position on sequencing:
 - DoD believes the MRSP and MRSP Primer provide sufficient sequencing guidance at this time
 - Flexibility to consider site- specific factors as appropriate

Sequencing Policy Next Steps

Acquisition, Technology and Logistics

- In the near future, OSD will assess the DoD Components practices in sequencing
 - Collect and evaluate information and lessons learned
- OSD will use this information to determine if additional guidance is necessary
- High priority project, but not currently underway
 - Timeframe – in the near future when the DoD Components have sufficient experience in sequencing their MRSs

Munitions and Explosives of Concern Hazard Assessment (MEC HA)

Acquisition, Technology and Logistics

- The MEC HA allows a project team to evaluate the potential explosive hazard associated with an MRS , given current conditions and under various cleanup, land use activities, and land use control alternatives
- The results of the MEC HA can provide input into the remedy evaluation and selection process
- Current MEC HA trial expired in January 2011
- OSD is issuing an extension of the Interim MEC HA trial use and evaluation period for an additional two years to gain the necessary experience with the tool
- At the conclusion of the next two-year period OSD will evaluate the tools effectiveness based on DoD Component input

No Further Action (NFA) Initiative

Acquisition, Technology and Logistics

- OSD study in Spring 2010 highlighted inconsistent forms of NFA regulatory concurrence from state regulators
 - Official “concurrence”
 - Received from state environmental regulatory agencies on agency letter head
 - Signed by an authorized official offering unreserved agreement with the recommendations
 - Informal “concurrence”
 - E-mail documentation, meeting minutes, and other informal correspondence implying concurrence
- OSD working to develop a template for NFA concurrence
 - Team with Association of State and Territorial Solid Waste Management Officials (ASTSWMO)
 - Improve overall communication, transparency, and project management

Goals and Metrics

Advancing MMRP Cleanup Progress

Acquisition, Technology and Logistics

- DERP goals stimulate cleanup progress and help the DoD components defend their budgets
- Existing DERP goals and progress against these goals

Military Munitions Response Program	FY06	FY07	FY08	FY09	FY10
Active Installations					
Complete PAs at all MRSs by the end of FY07	70%	96%	95%	97%	96%
Complete SIs at all MRSs by the end of FY10	24%	29%	51%	72%	97%
Achieve RIP/RC at all MRSs by the end of FY20	17%	23%	34%	43%	38%
BRAC Installations					
Achieve RIP/RC at all Legacy BRAC MRSs by the end of FY09	38%	63%	67%	68%	70%
Achieve RIP/RC at all BRAC 2005 MRSs by the end of FY17	0%	20%	27%	33%	39%
FUDS Properties					
Complete PAs at all MRSs by the end of FY07	99%	99%	99%	96%	98%
Complete SIs at all MRSs by the end of FY10	34%	45%	58%	67%	84%

Advancing MMRP Cleanup Progress (cont.)

Acquisition, Technology and Logistics

- Cleanup at MRSs is beginning in earnest now that the DoD Components have completed preliminary assessments (PAs) and site inspections (SIs)
- OSD is developing goals to promote cleanup beyond RIP
- Established the DoD Metrics Subcommittee in January 2011
 - Two representatives for each DoD Component
 - Meets every 3-4 weeks to discuss new goals and metrics for advancing MMRP cleanup

Advancing MMRP Cleanup Progress (continued)

Acquisition, Technology and Logistics

- OSD leadership and the DoD Component Deputy Assistant Secretaries are briefed regularly on the progress of the Subcommittee
- New goals being worked
 - RC at active, BRAC, and FUDS for IPR, MMRP, and Compliance Cleanup sites
 - RIP for FUDS MMRP
 - MRSPS Evaluation Pending goal (i.e. a goal to reduce the number of MRSs with a MRSPS determination of “evaluation pending”)
 - Others, as needed

Program Overview and Status Update

Bottom Line on MMRP Progress

Acquisition, Technology and Logistics

- Cleanup is progressing at Munitions Response Sites (MRSs)
 - Achieved statutory goal by completing site inspections at **97 percent** of munitions response sites on active installations in FY10
 - Decreased the MMRP cost-to-complete estimates on active installations, Base Realignment and Closure (BRAC) installations, and Formerly Used Defense Sites (FUDS) properties by **11 percent**.

MMRP Inventory

Acquisition, Technology and Logistics

The MRS inventory breaks out as follows:

- Increase in MRSs on active installations from FY09
 - Army National Guard Bureau non-DoD owned, non-operational defense sites
 - Air Force conducting an additional inventory and splitting MRSs into smaller sites
- The inventory is updated annually -

MMRP President's Budget in Millions

Acquisition, Technology and Logistics

Military Munitions Response Program

	FY2010 Actuals	FY2011 Estimate [^]	FY2012 Request
Active Installations	\$247.1	\$216.1	\$250.4
FUDS	\$168.8	\$89.1	\$94.9
Legacy BRAC*	\$41.1	\$37.7	\$56.9
BRAC 2005*	\$3.2	\$22.7	\$31.7
Total	\$460.2	\$365.6	\$433.8

* Excludes BRAC Planning and Compliance funding

[^] Reflects an adjustment to match the Annualized Continuing Resolution funding level by appropriation

MMRP Cleanup at Active Installations

Acquisition, Technology and Logistics

Goal: Complete Site Inspections
by the end of FY2010

FY10 Accomplishments

- Achieved site inspection goal
 - 25% increase since FY2009
- Achieved RC at 187 sites

FY11 Projections

- Complete final study phase at 126 sites
- Achieve RC at 60 sites

Goal: Achieve RIP/RC by the end of FY2020

MMRP Cleanup at FUDS Properties

Acquisition, Technology and Logistics

Goal: Complete Site Inspections
by the end of FY2010

FY10 Accomplishments

- Completed site inspections at 349 sites
 - 17% increase since FY2009
- Achieved RC at 79 sites
 - 3% increase since FY2009

FY11 Projections

- Complete site inspections at 163 sites
- Complete final study phase at 48 sites

MMRP Cleanup at Legacy BRAC Installations

Acquisition, Technology and Logistics

FY10 Accomplishments

- Completed final study phase at 6 sites
- Achieved RIP at 5 sites
 - 2% increase since FY2009

FY11 Projections

- Complete final study phase at 22 sites
- Achieve RC at 25 sites

Goal: Achieve RIP/RC by the end of FY2009

MMRP Cleanup at BRAC 2005 Installations

Acquisition, Technology and Logistics

FY10 Accomplishments

- Completed final study phase at 3 sites
- Achieved RC at 6 sites
 - 9% increase since FY2009

Goal: Achieve RIP/RC by the end of FY2017

FY11 Projections

- Complete final study phase at 24 sites
- Achieve RC at 12 sites

Investigation Cleanup RIP Response Complete % Response Complete

MMRP: Cost-to-Complete*

* Includes installation project funding allocated to individual sites
