STEPS TO A SUCCESSFUL PROGRAM

- **Develop a Partnership with State/EPA Inspectors.**
- **Conduct On-Site Audits/Inspections.**
- **Get Involved with the Workers on the Shop Floor**
- **Use an automated tool for tracking environmental compliance such as a software program.**
- **Be able to supply compliance information at a key stroke moment.**

STEPS TO A SUCCESSFUL PROGRAM CONT.

- **Be Familiar & Know What You Generate**
 - **Be Organized, have Accessible Waste Classification Documents, Waste profiles, Analytical, Inspection Records, etc.**
 - **Have A Quality Tracking System to Manage, Organize & Maintain Information for Regulatory Agencies.**
 - **Be Excited About Your Program – It's Contagious**
-

THE FIRST IMPRESSION IS USUALLY THE OVERALL IMPRESSION W/EPA

What is a Quality Software Program

- **Software Solution that Supports Process Improvements**
- **Automated 'Data Collection System'**
- **Complete tracking, management and reporting capabilities for Hazardous Materials, Solid and Hazardous Waste.**
- **Standardize Marking and Labeling**
- **Provides a wide range of visibility and control to manage collection, storage, transportation and disposal. Identifies Increases/Decreases and Process Improvements.**

Quality Software Program

Cradle-to-Grave Environmental Information Management Solution

Inventory can be pre-authorized before it is ordered, allowing you to select less costly or safer alternatives. You have total visibility and control of what comes onto your facility.

PRE-ACQUISITION

By labeling and barcoding inventory, you know what you have, where it is located, who is using it, and on what equipment it's being used. This allows you to track costs, reduce shrinkage, and take advantage of bulk purchases.

LABEL & BARCODE

Bulk quantities can be broken into job-specific quantities. This reduces spillage, contamination, and employee exposure. Material not completely used can be returned for reissue.

ISSUE & REUSE

Waste is tracked from generation through disposal. Automated manifests ensure accuracy, resulting in significantly reduced disposal costs. Comprehensive, Worldwide waste tracking and reporting is now a reality.

WASTE

EPA, OSHA, EPCRA, RCRA and site-specific reports are as simple as one click of the mouse. Without HMMS these reports can cost you tens of thousands of dollars each to prepare.

ALWAYS BE PREPARED FOR INSPECTORS

BE AMERICA'S BEST

State Regulators have recognized RRAD for our program's long-term success.

Key measure of our success: State of Texas suspended annual RCRA inspections for 2010 and 2011.
