A study of the military history of the past...is enjoined by great military leaders as essential to correct ideas and to the skilful [sic] conduct of war in the future.

— Rear Admiral Alfred Thayer Mahan,
The Influence of Sea Power Upon History, 1660-1783, 1890

Military history is essential to the development of military science because—unlike most other sciences—military science is unable to test its theories and hypotheses in laboratory experiments.

— Colonel Trevor N. Dupuy, *Understanding War*, 1987
