EXPLANATORY REMARKS

Fuel/Bulk Oil: The average cost per flying hour for Fuel and Bulk Oil; at the stock fund price per gallon.

Depot Maintenance: The cost per flying hour of that portion of Depot Maintenance which is flying hour dependent. Does not include fixed costs of Depot operation or semi-variable costs which are not dependent upon flying hours.

Base Maintenance Material: Average cost per flying hour for aircraft base maintenance supplies. Includes packaged POL.

Base Maintenance Labor: Labor cost per flying hour. Includes Military and Civilian personnel costs.

Replenishment Spares: The dollar requirement for the Budget year based upon programmed flying hours.

These cost components express the operating and support cost per flying hour. Crew pay, depreciation, and other non-variable and indirect costs are not included.

NOTE FOR INFORMATION: Components used in calculating appropriate cost estimates may vary depending upon the purpose. For example, AFR 76-11 and AFR 76-28 stipulate components to be included/excluded in Government/non-Government cost-per-flying-hour figures used in reimbursement rates for particular customers. In addition, MAC calculates their own cost when developing user rates for ASIF aircraft due to their unique airlift role.

¹ Fiscal Years. Including deliveries under the following programs: (a) Military Assistance Program (MAP) grants under the various Mutual Security Acts; (b) Foreign Military Sales (FMSS), which consists of US-financed arms, US-guaranteed private arms credits, and US-approved commercial sales; and (c) Excess Stock Sales (ESS), which involve surplus equipment that has been valued at 33% of the original acquisition value. Excluding some \$15.7 billion worth of arms provided under the Military Assistance Service Funded (MASF) program; MASF was designed to support non-US forces engaged in combat in Indochina and was provided directly from the US military budget. South Vietnam began receiving MASF funds in March 1966 and Laos and Thailand in 1967. South Korea, which had a large force in South Vietnam, received some MASF support. US data exclude some \$700 million in naval equipment made available under the Ship Loan and Lease Program.
