Employee satisfaction soars when you equip employees with the knowledge, skills, abilities and power to serve customers **internal service quality**

Employee satisfaction in turn fuels **employee loyalty**, which raises **employee productivity**.

Higher productivity means greater external service value for customers – which enhances **customer satisfaction and loyalty**.

“A mere 5% jump in customer loyalty can boost profits 25%”...or more.
(Heskett et al. Harvard Business Review: RO807L)

Service Profit Chain Examples

Sysco: Trend - Operating Units with highly satisfied employees

- have higher revenues
