

RANGE SUSTAINABILITY

GIS APPLICATIONS AND ENTERPRISE IMPLEMENTATIONS

May 4, 2009

Gabe Lovasz, Geospatial Analyst, ManTech SRS

Molly Rodriguez, Geospatial Analyst, ManTech SRS

-In Support of-

The Office of the Secretary of Defense

Report Documentation Page				Form Approved OMB No. 0704-0188	
Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.					
1. REPORT DATE 04 MAY 2009		2. REPORT TYPE		3. DATES COVERED 00-00-2009 to 00-00-2009	
4. TITLE AND SUBTITLE Range Sustainability: GIS Applications and Enterprise Implementations				5a. CONTRACT NUMBER

AGENDA

- What is GIS?
- GIS tools for the Range Planner/Operator
- Encroachment Concerns
- Regional Partnerships
- Range Sustainment Efforts (GIS Components)

WHAT IS GIS?

“A geographic information system (GIS) integrates hardware, software, and data for capturing, managing, analyzing, and displaying all forms of geographically referenced information.”

*Environmental Systems Research Institute
(ESRI)*

GIS TOOLS FOR THE RANGE PLANNER / OPERATOR

Desktop Applications

- ESRI's ArcGIS Desktop Suite (Arview, ArcEditor, ArcInfo)
- ESRI's ArcGlobe
- "Spatial Analyst" and "3D Analyst" extensions
- Range Managers Toolkit (RMTK) ArcGIS extension

Web-Based GIS

- ArcGIS Server (Army Range Mapper)
- Range Managers Toolkit (RMTK) extension
- Google Earth

RANGE MANAGERS TOOLKIT (RMTK)

Surface Danger Zone (SDZ) Tool

- “Wizard” driven
- Army and Marine Corps weapons inventory
- Supports creation of combined live fire exercise/combined arms exercise ranges

Noise Tool

- Model noise contours based on weapon, munitions, location, and atmospheric condition
- Helps support situational awareness

Weapons Danger Zone (WDZ) Tool

- Air to ground weapons platforms
- Supports rotary, fixed-wing, and unmanned aerial systems

RANGE SUSTAINMENT CONSIDERATIONS

*“The Office of the Deputy Under Secretary of Defense (Installations and Environment) Sustainable Ranges Initiative is charged to develop a comprehensive response to **encroachment** in order to preserve DoD's capability to train and test on its land and sea ranges, operating areas, and airspace.”*

-Sustainable Ranges Initiative

Encroachment Concerns

Threatened & Endangered Species/Critical Habitat	Cultural Resources
Airspace	Wetlands
Noise Restrictions	Water Quality/Supply
Adjacent Land Use	Range Transients

REGIONAL PARTNERSHIP EFFORTS

- Encroachment
 - Most encroachment activities outside of DoD fence line.
 - Addressing encroachment difficult to manage and sometimes beyond DoD's reach.
- Value of Regional Partnerships
 - Share GIS and decision-support information.
 - Link efforts with other stakeholders and federal agencies.
 - Support community-driven planning and compatible land use.
 - Promote rural landscapes and working lands at regional scale.
 - Support of readiness mission.

RANGE SUSTAINMENT AND GIS

Report to Congress on Sustainable Ranges

Readiness and Environmental Protection Initiative (REPI)

West-wide Energy Corridor PEIS

REPORT TO CONGRESS ON SUSTAINABLE RANGES

- Report Addresses Two Congressional Reporting Requirements Under National Defense Authorization Act (NDAA):
 - Develop a comprehensive plan to address training constraints (FY2003 NDAA, Section 366)
 - Report on the impacts of encroachment (FY2004 NDAA, Section 320)
- GIS Component is the Report Inventory
 - Regional Range and Special Use Airspace (SUA) Maps
 - Tabular Range Inventory
 - SUA Inventory
 - Military Training Route (MTR) Inventory

RANGE AND SPECIAL USE AIRSPACE REGIONAL MAPS

- Maps Include Land Ranges, Airspace, and Ocean Surface/Subsurface Operating Areas
- Land Range GIS data (footprints) from Services
- Airspace GIS data
 - National Geospatial Intelligence Agency (NGA)
 - Digital Aeronautical Flight Information File (DAFIF)

RANGE INVENTORY

- Range Inventory is Compiled from Service Inventories and Geodatabases
- Organized by Service and Contains:
 - Name of range or range complex
 - State/country
 - Size information
 - Range type (air-to-air, air-to-ground)

Training and Testing Range Complex Inventory																			
Military Service	Range Complex	United States (US) or Overseas (OS)	State or Country	Command/ Component	Range Description							Range Type

READINESS ENVIRONMENTAL PROTECTION INITIATIVE (REPI)

- Supports Compatible Land Use and Conservation Initiatives at Ranges and Installations
- Section 2864(a) FY2004 NDAA
 - Allows the Services to enter into agreements with private conservation organizations or with state and local governments
 - Allows the Services to cost-share acquisition of restrictive/conservation easements from willing sellers
- Serves Several Purposes
 - Protect land for conservation purposes
 - Limit incompatible development around ranges and installations

USE OF GIS IN THE REPI REPORT

- GIS Component
 - Maps of the installation/range and the parcels acquired with REPI funds

Townsend Bombing Range USMC

NAS Whiting Field (USN)

Fort Carson (USA)

WEST-WIDE ENERGY CORRIDOR PEIS

Energy Act 2005
Section 368:

- Designation of energy corridors on federal land in 11 Western states
- Oil, gas, hydrogen pipelines & electrical transmission lines

WEST-WIDE ENERGY CORRIDOR PEIS

- GIS was an Integral Part of Energy Corridor Designation Process
 - Used to plan location of proposed corridors
- Range Sustainment Perspective
 - Corridor locations relative to ranges and installations
 - Cross low-level (1,000ft) Special Use Airspace (SUA) and Military Training Routes (MTRs)
- Provided GIS Data to Dept. of Energy
 - DoD ranges and installation boundaries
 - Low-level Special Use Airspace and Military Training Routes

ENERGY CORRIDOR GIS ANALYSIS

- Identified Intersections
 - Energy corridor and range/installation boundaries, and low-level airspace
 - Is training impacted?

- Land Intersections
 - Worked with Services

- Airspace Intersections
 - DoD comments in
 - GIS attribute table
 - Appendix L of Final EIS

TABLE L-1 Proposed Energy Corridors That Would Require DOD Coordination
Project Planning^a
