This is the fourteenth edition of the USAF SUMMARY. It contains data and graphs on finance, manpower, forces, operations, installations and related subjects. Also included are listings of key Air Force and Congressional Committee members.

Plans this year include (1) publication in September of a Table E-2, "Department of the Air Force Key Personnel," update to reflect personnel changes during the summer of 1988, and (2) a survey of user publication needs and the validation of addressee information. At that time, we look forward to your response and to any comments you may wish to offer concerning additional information which we may be able to provide.

TOTAL: \$294.9B

BUDGET & OUTYEARS
\$151.1B (51.2%)

This chart provides an insight into how much work to complete these systems still confronts the Air Force. As of 31 Dec 87 (with FY 89 as the Budget Year), 51.2% of SAR programs are in the "Budget & Outyear" category. Big ticket programs in this category are the C-17A at \$32.6B, F-16 at \$21.9B, F-15 at \$13.8B, ATF at \$11.6B, and AMRAAM at \$8.6B.

The baseline represents the total of the initial SAR Program cost estimates arrived at by adding the various then-year dollars involved. The difference between total budget and baseline is defined as "growth." It does not equate to cost growth since it includes programmatic changes, e.g., quantity changes and program stretchouts made by both the executive and legislative branches of Government.

Footnotes.

1/ Major Installation: (Air Force Base, Air Base, Air Reserve Base or Air Guard Base).

A self-supporting center of operations for actions of importance to Air Force combat, combat support, or training. Operated by an Active, Reserve, or Guard unit of group size or larger with all land, facilities and organic support needed to accomplish the unit mission. Must have real property accountability through ownership, lease, permit, or other written agreement for all real estate and facilities. Agreements with foreign governments which give the Air Force jurisdiction over real property meet this requirement. Shared use agreements (as opposed to joint use agreements where the Air Force owns the runway) do not meet the criteria to be major installations.

TABLE D-18 (Cont'd)

AIR FORCE INSTALLATIONS AND PROPERTIES

Footnotes (Cont'd).

2/ Includes Air Reserve Forces (AFRES and ANG).

3/ Minor Installation: (Air Force Station, Air Station, Air Reserve Station or Air Guard Station).

Facility operated by Active, Reserve, or Guard unit of at least squadron size that does not otherwise satisfy all the criteria for a major installation. Examples of minor installations are Reserve and Guard flying operations that are located at civilian-owned airports.

4/ Support Site: Facility operated by Active, Reserve, or Guard unit that provides overall support to the Air Force mission and does not satisfy the criteria for a major or minor installation. Examples of support sites are missile tracking sites; radar bomb scoring sites; Air Force-owned, contractor-operated plants; radio relay sites, etc.

5/ Other Activity: Air Force unit or activity that has little or no real property accountability over the real estate it occupies. Examples include Active, Guard or Reserve Air Force units that are located on installations belonging to other services or leased office space that supports recruiting detachments, Civil Air Patrol, etc.

GLOSSARY

MISSION, DESIGN, AND SERIES (MDS). Air Force Regulation 82-1, dated 27 March 1974, "Designating and Naming Defense Equipment (Military Aircraft, Rockets, and Guided Missiles)," established a uniform system for designating and naming military aircraft and missiles. DOD Directive 4120.15-L, 15 April 1974, "Model Designation of Military Aircraft, Rockets and Guided Missiles," lists the current designation for each of these aerospace vehicles.

An alphanumeric code used to identify a specific type of aircraft. The Mission symbol, "a letter", is used to denote the primary function or capability of an aircraft (for example, "F" in F-4, for fighter). The Design number denotes different aircraft with the same function (for example, "4" in F-4, as opposed to "15" in F-15). The Series symbol, "a letter", is used to denote that significant differences exist between related aircraft because of follow-on production or major modification (for example, "C" in F-4C, as opposed to "D" in F-4D). In certain cases, another letter can precede the MDS designation. This letter is used to indicate that the particular aircraft no longer has the same characteristics as others of the same MDS; (for example, "R" in RF-4C, as opposed to F-4C). This application is termed "modified Mission symbol." Another example is "Y" in YF-4E, as opposed to F-4E. This application is termed "status prefix symbol." The modified Mission symbol indicates that the aircraft has more or different mission capabilities than others of the same MDS. The status prefix symbol indicates that the aircraft is not in standard configuration and, therefore, not usable in a standard force unit.

MOBILIZATION AUGMENTEE. A Ready Reserve member not in a unit organized to serve as a unit but assigned against an individual manpower authorization, normally in, but not limited to, a Regular Air Force unit.
