FOREWORD

The United States Air Force Statistical Digest has been published each year since 1948. It is the longest running continuing publication in the Air Force having first appeared one year after the Air Force was formed as a separate service. Individuals requiring a historical description of Air Force resources, organizations, and activities have found each issue an invaluable addition to their reference sources.

We welcome your comments and suggestions for improvement of future issues. Suggested new topics and/or different data arrays will be seriously considered. This is your publication - we want to make it as useful as possible. Write to SAF/FMC, 1130 Air Force Pentagon, Washington, D.C. 20330-1130. The FY 1998 Statistical Digest should be available for distribution in the spring of 1999.

For more information about the office and activities of the Assistant Secretary of the Air Force (Financial Management and Comptroller) and subordinate offices, contact the SAF/FM web site on the Internet at http://www.saffm.hq.af.mil/SAFFM. This web site is also an excellent source for a wide array of information covering the entire spectrum of financial mangement.

Very special thanks goes again to Denise Wamback in SAF/FMC for compiling, editing, and preparing the Statistical Digest for publication as an additional duty in an already full day in the Pentagon. It is no easy task to orchestrate this very detailed publication comprised of extensive data across all Air Force functions.

LEROY T. BASEMAN
Deputy Assistant Secretary

FOOTNOTES: (1) The Consumer Price Index (CPI) is a measure of the average change in the prices paid by urban consumers for a fixed market basket of goods and services. The CPI is calculated monthly for two population groups, one consisting only of urban households whose primary source of income is derived from the employment of wage earners and clerical workers (CPI-W), and the other consisting of all urban households (CPI-U). The all-urban consumer index (CPI-U), introduced in 1978, is representative of the 1982-84 buying habits of about 80 percent of the noninstitutional population of the United States at that time.

(2) Major groups include energy, food, shelter, apparel and upkeep, transportation, medical care, fuel oil, electricity, utility (piped) gas, telephone services, and all commodities.

NOTE: "Special" appropriations refer to programs classified as secret.

TABLE USE: Weighted indices are used to convert constant dollars to then-year dollars, and vice versa. Use raw indices to convert constant dollars in one year to constant dollars in another year. Weighted indices for each appropriation are based on outlay rates for TOA excluding PAY and POL and should be used accordingly. For PAY and POL, use raw indices.
