## I. INTRODUCTION

This MAP BOOK contains the major installations and activities of the military departments within the United States excluding Alaska and Hawaii. This includes both command installations and industrial installations owned or leased by the Army, Navy and Air Force. Government-owned industrial installations operated by contractors are included; however, installations with mixed facilities (part Government, part contractor ownership) are not included. Those installations which were contractor-operated (either currently, or when in an active status) are shown in italics on the maps. A supplemental list of the industrial installations for each military department is also included.

Installations which are to be discontinued, sold, or phased out (entirely) as announced by DoD Office of Public Affairs Release No. 269-61, 30 March 1961, or by subsequent statements of OASD(I&L), are designated by footnote reference a/ in Index III.

Army - Those installations designated by the Army as subinstallations and as major activities are indicated by asterisks in the index shown on pages 3 - 6. Major activities are indicated by a single asterisk (\*) and subinstallations by a double asterisk (\*\*). In addition, the parent installation into which the subinstallation or major activity fits is shown in a supplemental index, List B. The association between the Army parent installation and subinstallations is not shown on the maps because, in many instances, the subinstallations are separated from the parent installation by a considerable distance.

Navy - Those major activities which tie into a "complex" or are located thereat are designated by an asterisk on pages 8 - 13. This relationship is shown in parenthesis, indentation, or bracketing on the maps.

Air Force - Those installations designated as subinstallations are indicated by a double asterisk (\*\*) in the list on pages 14 - 16. The parent installation is shown in parenthesis under the name of the subinstallation on the maps.

Source documents showing departmental installations and activities are:

- A. United States Army Installations and Major Activities in the Continental United States - Department of the Army Pamphlet No. 210-1, May 1970.
- B. Catalog of Naval Shore Activities, 1 November 1966, and changes, Department of the Navy, OPNAV P09B3-105.
- C. USAF Installations Directory, AFM 87-3, 31 January 1969.

In many instances, both on the individual state maps and in the indexes shown on pages 3 through 21, abbreviations are used. For the most part these are generally accepted terms such as "ord" for ordinance; "ind" for industrial; "IN" for inactive, etc. In event the abbreviation is not recognizable readily, refer to page 21.

II. INDEX OF MAJOR MILITARY INSTALLATIONS AND INDUSTRIAL FACILITIES
